Mr. Carmichael: To ask the Secretary of State for Transport what representations the Government have made to United States authorities regarding the decision to abolish the crew list visa scheme. [188432]

Mr. Jamieson: The Government made representations to the US authorities on two occasions, in co-operation with a number of other governments, in response to the proposals to abolish the crew list visa scheme.

WORK AND PENSIONS

Children in Poverty

Mr. Woodward: To ask the Secretary of State for Work and Pensions what estimate the Government have made of the number of children living in poverty who lived outside the 20 per cent. most deprived wards in each year since 1997. [187369]

Mr. Pond: The Government's figures for children in low income households are available in "Households Below Average Income 1994–95 to 2002–03". This information is not available below regional level. The report is available in the Library.

Mr. Woodward: To ask the Secretary of State for Work and Pensions whether the Government *(a)* expect to meet and *(b)* have met their target for reducing the number of children living in poverty in the first quarter of 2004; and if he will make a statement. [186805]

Mr. Pond: The Government have a PSA target to reduce the number of children in low-income households by at least a quarter by 2004, as a contribution towards the broader target of halving child poverty by 2010 and eradicating it by 2020.

Between the baseline year of 1998–99 and 2002–03, the number of children in low income households has fallen by 500,000 before housing costs and 600,000 after housing costs. We will report on the target in spring 2006 when the data for 2004–05 become available.

The latest available data (2002–03) do not reflect the introduction of new tax credits in April 2003 or the increase in the child element of the child tax credit in April 2004. We are broadly on course to meet the PSA target.

Pensions

Mr. Anthony D. Wright: To ask the Secretary of State for Work and Pensions what estimate he has made of the average weekly pension in Great Yarmouth in each year since 1997 if pensions had been linked to earnings. [186701]

Malcolm Wicks: The information is not available in the format requested. However, such information as is available is in the table.

£

As at April each year	*Average State Pension in Great Yarmouth*	*Average State Pension in Great Yarmouth with basic State Pension uprated by earnings*
1999	68.90	70.55
2000	69.95	73.65
2001	75.60	77.35
2002	78.65	81.15
2003	81.30	84.70

Notes:

1. The change in the overall rate of basic State Pension for any given year is estimated by comparing the actual maximum rate of basic State Pension for that year with the rate if earnings uprating had been in place. The average recorded basic State Pension in Great Yarmouth for each individual year is then increased proportionately to reflect the difference.
2. It is assumed that basic State Pension was uprated by earnings from 1998 onwards. It is assumed that additional State Pension would still be uprated in line with prices. The average additional State Pension in Great Yarmouth each year is then added to the adjusted average basic amount to provide the total average State Pension.
3. Figures for actual State Pension amounts are taken from 5 per cent. sample of September's DWP administrative data for the year shown and are therefore subject to a high degree of sampling variation.
4. Figures for individual parliamentary constituencies are not available prior to 1999.
5. The figures shown in the table are weekly amounts rounded to the nearest 5p.

Mr. Denham: To ask the Secretary of State for Work and Pensions what assessment he has made of the additional costs in *(a)* 2015, *(b)* 2025, *(c)* 2035 and *(d)* 2045 of having a state second pension accrual rate that would guarantee all workers with 40 years of full-time employment sufficient pension to make them ineligible at (i) age 75 and (ii) retirement for the guarantee part of the pension credit if the basic state

pension were to be uprated in line with (A) prices, (B) earnings and (C) the average of earnings and prices [186851]

Malcolm Wicks: It is estimated that for a single person retiring in 2045, in order for the combined value of basic State Pension (BSP) and State Second Pension (S2P) to exceed the level of the Guarantee Credit, the additional spending on state pension required is as follows.

(A) Under price uprating of the basic State Pension

£ billion

		2015	2025	2035	2045
(i) At age 75	S2P	0.8	3.5	9.2	19.6
(ii) At retirement	S2P	0.3	1.5	3.9	8.2
	BSP	—	—	—	—

(B) Under earnings uprating of the basic State Pension

£ billion

		2015	2025	2035	2045
(i) At age 75	S2P	—	—	—	—
(ii) At retirement	S2P	—	—	—	—
	BSP	9.6	23.7	45.8	69.3

Note:
No change to S2P accrual or spending would be required under part B.

(C) Under average of earnings and price uprating of the basic State Pension

£ billion

		2015	2025	2035	2045
(i) At age 75	S2P	0.4	1.5	3.9	8.3
(ii) At retirement	S2P	—	—	—	—
	BSP	4.1	9.3	17.1	24.4

Notes:
1. No change to S2P accrual or spending would be required under part C ii.
2. Figures are costs for GB and Overseas in 2004–05 price terms, using the GDP deflator index, rounded to the nearest £100 million.
3. Costs are for additional spending on Basic and State Second Pension and do not include any increased income tax revenue or savings in income related benefits. Costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections. Accrual rates were calculated by the Department.
4. Except where stated, current policy on calculation and uprating of benefits is assumed to continue and long-term assumptions are in line with those for budget 2004. The guarantee credit is therefore increased in line with average earnings.
5. Increasing basic State Pension by more than prices as in parts B and C of this question will result in additional spending on basic State Pension.
6. Costs also exclude any changes that might occur to contracting out rebates.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the assumptions are for the number and percentage of eligible pensioners taking up pension credit that underlie his pensioner benefit expenditure projections for *(a)* 2003–04, *(b)* 2013–14, *(c)* 2023–24, *(d)* 2033–34, *(e)* 2043–44 and *(f)* 2053–54. [187352]

Malcolm Wicks: The Government do not currently produce long-term projections of the pension credit caseload. In the interests of fiscal propriety they do issue long-term expenditure projections. Tabled are the caseloads underlying the projected expenditure.

Numbers of pensioner households claiming pension credit underlying the long-term projections of pensioner benefit expenditure are as follows:

	Number
2010	3,300,000
2020	3,900,000
2030	5,000,000
2040	5,900,000
2050	6,100,000

These figures represent take-up of around 75 per cent., corresponding to the achievement of the PSA target of 3,000,000 pension credit households by 2006.

Estimates have been rounded to the nearest 100,000 cases, are subject to a wide margin of error and should be used only as broad indications of the likely caseload.

The methodology behind the long-term projections was described in more detail in "The Pension Credit: Long-term Projections", published by the Department in January 2002. A projected growth rate in pension credit spending is derived by applying income growth assumptions and demography projections to the sample pensioner population in the Department's Policy Simulation Model. This growth rate is applied to the medium-term forecast of pension credit expenditure.

"The Pension Credit: Long-term Projections" (ref : DWP-PCP-2) is available in the Library and can be found on the internet at: www.dwp.gov.uk/publications/dwp/2002/pencred/pencred.pdf

HOME DEPARTMENT

Antisocial Behaviour

Mr. Wiggin: To ask the Secretary of State for the Home Department what research his Department has commissioned regarding the number of times reported criminal activity relating to antisocial behaviour has resulted in suspects being *(a)* charged and *(b)* convicted. [186820]

Ms Blears: The Home Office has commissioned a survey of young people which will give a measure of the percentage of antisocial young people who have had contact with the criminal justice system and the Youth Justice Board are commissioning research to look at the use of antisocial behaviour orders. Results are not yet available from either of these studies.

Asylum Seekers

Mr. Battle: To ask the Secretary of State for the Home Department what evidence he has received regarding estimated asylum applications from *(a)* Darfur, *(b)* South Sudan and *(c)* other parts of Sudan; and if he will make a statement. [186723]

Mr. Browne: Applications for asylum in the UK are collated and published by nationality, and are made in the UK rather than from abroad. The available data do

not include breakdowns by region within countries of origin, which would not necessarily be reliable even if it were possible to record such information. The latest published figures show a 13 per cent. rise in asylum applications from 265 in Q1 2004 to 300 in Q2 2004 from Sudanese nationals compared with an 11 per cent. fall for total applications (all nationalities) over the same period.

Information on asylum applications is published in quarterly web pages and in the annual statistical bulletin "Asylum Statistics United Kingdom". Copies of these publications and others relating to general immigration to the UK are available from the Library of the House and from the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department how many failed asylum seekers have been removed from the United Kingdom in each year since 1997. [186553]

Mr. Browne: The available information is in the table.

Removals and voluntary[1] departures of asylum applicants, 1997 to 2003[2,3]

	Principal applicants	*Dependants*	*Total*
1997	7,165	n/a	n/a
1998	6,990	n/a	n/a
1999	7,665	n/a	n/a
2000	8,980	n/a	n/a
2001	9,285	[4]1,495	10,780
2002	10,740	3,170	13,910
2003[5]	13,005	4,890	17,895

n/a = not available

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds.

[2] Figures rounded to the nearest five and may not sum to total due to rounding.

[3] Data on dependants of asylum seekers removed have only been collected since April 2001.

[4] Excludes January-March 2001.

[5] Provisional figures

Information on asylum seekers who were removed from the UK in the first half of 2004 can be found on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Cousins: To ask the Secretary of State for the Home Department how many National Asylum Support Service-supported cases in the City of Newcastle have ended with the withdrawal of benefits on grounds of refusal of the case; and how many *(a)* women and *(b)* children have been affected by such withdrawals. [186844]

Mr. Browne: A total of 45,120 cases had support ceased in 2003 compared with 45,185 in 2002 and 14,195 in 2001. A breakdown of this information by reason for cessation, by area of the UK, by age or by gender is unavailable and could be produced only at a disproportionate cost. The National Asylum Support Service (NASS) only supports children if they are dependants of a principal applicant; NASS does not support unaccompanied asylum-seeking children (UASCs).

Failed asylum seekers with dependent children currently receive NASS support until such time as they leave the UK or fail to comply with a removal direction. When section 9 of the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004 is implemented NASS support will cease if the Secretary of State certifies that, in his opinion, such a person has failed without reasonable excuse to take reasonable steps to leave the UK voluntarily or place himself in a position in which he is able to leave the UK voluntarily.

As at the end of June 2004 the number of asylum seekers (including dependants) supported in Newcastle in NASS accommodation was 1,575 and 50 were in receipt of subsistence-only support. Figures are rounded to the nearest five and cases which have had their support terminated are excluded from this figure.

Information on the number of asylum seekers supported by NASS is published quarterly, and information on the number of cases with support ceased is published annually in the annual Home Office Statistical bulletin, Asylum Statistics United Kingdom, available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Charities

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make it his policy to issue a definition of public benefit in relation to the activities of charities; and if he will make a statement. [187493]

Fiona Mactaggart: The draft Charities Bill was published on 27 May 2004. It takes forward a number of the recommendations of the Prime Minister's Strategy Unit, which made its report 'Private Action; Public Benefit' in September 2002. Copies of both documents are available in the Library.

At the heart of the draft Charities Bill is a new statutory definition of charity, based on a list of charitable purposes, and the principle of charities providing public benefit. This will make clear exactly what a charity is.

The Strategy Unit thoroughly reviewed the pros and cons of putting a definition of public benefit onto the face of the Bill. It concluded, and the Government agrees, that the future development of charity will be better served by keeping the current, flexible, non-statutory definition of public benefit.

The draft Bill is the subject of pre-legislative scrutiny by a Joint Committee of both Houses, which is expected to publish its recommendations by 30 September 2004. The Government will publish their response to the Committee's recommendations.

Children Trafficking

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department if he will make a statement on the trafficking of children within the UK; and what steps he is taking to counter this. [185120]

Mr. Browne: The Government are strongly committed to combating child trafficking. We recognise that it is a complex problem and are determined to address every aspect of it, whether in countries of origin, en route to the UK, or on arrival. We have put in place a number of measures to do so, and constantly keep them under review.

We are working with source countries to tackle the problem at its root. The UK is one of the strongest supporters of the International Labour Organisation's (ILO) Convention on the Elimination of the Worst Forms of Child Labour. We have given £70,000 to Anti-Slavery International for raising awareness of the abuses suffered by the victims of trafficking and remedial action in West Africa. We have also given £3 million for the International Labour Organisation's International Programme on the Elimination of Child Labour (IPEC) programme in the Greater Mekong region. This involves a number of inter-linked interventions to raise awareness and prevent trafficking, and to withdraw women and children from labour exploitation and reintegrate them back into their own or new communities.

We are also taking action to ensure an effective enforcement response. Since 2000, all operational activity targeted against organised immigration crime, including people trafficking, has been co-ordinated through the multi-agency task force Reflex. Led by the National Crime Squad (NCS), Reflex brings together all the key agencies (including the Immigration Service, the National Criminal Intelligence Service and key police forces), as well as the appropriate Government Departments. Reflex aims to build up the intelligence picture, co-ordinate operations and provide a focal point for the operational response to human trafficking and smuggling.

The Sexual Offences Act 2003, which came into force in May this year, sets out wide-ranging offences covering trafficking for sexual exploitation with a maximum sentence of 14 years imprisonment. A new offence covering trafficking for non-sexual purposes, such as forced labour, is included in the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004.

The Government are committed to providing appropriate support to victims of trafficking. Child victims of trafficking are likely to be in need of welfare services. Under the Children Act 1989 local authorities have a duty to safeguard and promote the welfare of children who are in need, by providing a range and level of services appropriate to those needs or arranging for their provision by other agencies. Assistance and support should therefore be provided by local statutory services in response to identified needs, whether directly or though specialist agencies.

We are also working to raise awareness of child trafficking among key professionals and agencies. The Immigration Service has started specialist child interviewing training for around 600 operational members of staff nationwide, which will help identify child victims of trafficking as they arrive in the UK. The Government have also published a best practice toolkit as a guide for professionals who are likely to come into contact with victims of trafficking. This includes specific sections on children and young people.

The Home Office and the Department for Education and Skills are jointly considering the results from the Reflex funded multi-agency operation, Paladin Child. This involved the Metropolitan Police, the Immigration Service, social workers from Hillingdon Social Services and secondees from NSPCC. The operation risk assessed children arriving at Heathrow airport without their parents or legal guardians and social services followed up those considered to be at risk. The operation did not uncover any evidence of child trafficking. However, the report did make a number of recommendations related to child protection.

Correspondence

David Winnick: To ask the Secretary of State for the Home Department when the hon. Member for Walsall, North will receive a reply to his letter of 10 August on behalf of a constituent, reference PO9259/4. [188009]

Mr. Browne: I replied to my hon. Friend on 8 September 2004.

Data Protection

Harry Cohen: To ask the Secretary of State for the Home Department with whom consultation has been held on *(a)* the range of data items which are to be stored in the database of registered facts and *(b)* the potential for subsequent use and disclosure of personal data from the database of registered facts; and if he will make a statement. [185960]

Mr. Browne: The Government published a draft Identity Cards Bill on 26 April 2004 setting out the legislative framework for a national identity cards scheme. A 12-week consultation was held in accordance with the Cabinet Office's Code of Practice on Consultation.

Over 3,000 copies of the consultation paper have been distributed including to all Members of Parliament, all the representative organisations that had commented on the earlier consultation and acquisition libraries across the UK. The consultation also appeared on the identity cards website (www.identitycards.gov.uk) and invited comments from individuals and organisations.

We are now carefully analysing all the responses received. The Government will take account of these comments on the draft Bill before it introduces substantive legislation as soon as parliamentary time allows.

The House of Commons Select Committee on Home Affairs is undertaking a formal scrutiny of the draft Bill and will be publishing a report.

Gosport War Memorial Hospital

Mr. Viggers: To ask the Secretary of State for the Home Department (1) when he expects inquiries into medical and nursing practices at Gosport War Memorial Hospital to be concluded; [186616]

(2) how many man hours have been expended by staff at Gosport War Memorial Hospital in responding to inquiries about medical and nursing practices at the hospital. [186617]

Paul Goggins: I can confirm that the investigation by Hampshire Police is ongoing. To date over 90 cases have been examined by a panel of experts and some of these have in turn been identified as requiring more detailed scrutiny. The investigation of the first four of these cases should be concluded by September 2004, but it is likely that the inquiry will stretch into 2005. Every effort has been made to ensure that the families and other interested parties are aware of the timescales involved.

Information is not available centrally on the amount of time which hospital staff have used in responding to police inquiries.

Hate Crime

Mr. Woodward: To ask the Secretary of State for the Home Department what further proposals the Government have to extend the powers of the criminal justice system to prevent hate crimes. [186872]

Fiona Mactaggart: My right hon. Friend the Home Secretary announced in his speech to the Institute for Public Policy Research Institute on 7 July that as soon as the legislative opportunity arose the Government proposed extending the existing incitement to racial hatred laws, contained in the Public Order Act 1986, by creating a new offence of incitement to religious hatred.

Identity Cards

Chris Grayling: To ask the Secretary of State for the Home Department what assessment he has made of the technological potential to combine identity cards with passports containing electronic data. [187388]

Mr. Browne: As part of the work to set the requirements for identity cards, the level of compatibility with technical standards proposed for electronic passports is being examined. However, no decision has been made on whether to combine technical standards for identity cards with any other documents.

The UK Passport Service is already committed to introducing a biometric passport containing electronic data in 2005.

Immigration

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department what steps he is taking to monitor the level of illegal immigration into the United Kingdom. [186554]

Mr. Browne: By definition, illegal immigrants fall outside of official statistics and are therefore difficult to measure. Official estimates of the numbers of illegal entrants to the UK or estimates of the size of the illegally resident population in the UK do not exist. The Government have commissioned research into the methods used in other countries to estimate the size of the illegal population in order to define methods appropriate for the UK.

We are committed to maintaining robust pre and on entry controls to prevent illegal immigration into the United Kingdom and there are many strands of work currently being undertaken to ensure the integrity of UK Border Controls. These include:

The increasing involvement of organised crime in illegal immigration led to the creation in 2000 of Reflex, the multi-agency forum which brings together key law enforcement players including the Immigration Service, as well as relevant government Departments and the Security Services, under the chair of the National Crime Squad.

As part of a longer-term strategy, the National Criminal Intelligence Service (NCIS) manages an expanding network of Immigration Liaison Officers (currently 12) in key overseas posts who work closely with local law enforcement agencies to combat illegal migratory flows.

A network of Airline Liaison Officers working closely with airline staff at key locations worldwide, who offer advice to carriers on the admissibility of passengers seeking to travel to the UK.

Working closely with UK Visas to put in place visa fraud officers at a number of our missions overseas to enhance further the quality of visa issues.

Introduction of a range of initiatives designed to reduce the numbers of those who arrive without adequate documentation or concealed in vehicles. Such measures include the roll out of New Detection Technology to search vehicles for would be clandestine entrants prior to embarkation for the UK, and the introduction of juxtaposed controls at strategic locations overseas to pre-assess eligibility for entry.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will make a statement on the joint work of immigration officers and British Transport Police in London in identifying illegal immigrants; and how many individuals have been *(a)* questioned and *(b)* arrested as part of the operation. [187059]

Mr. Browne: Over the past 15 months the UK Immigration Service (UKIS) has participated in a variety of joint multi-agency street crime operations in London, initiated by both the Metropolitan and British Transport Police (BTP). Focusing on crime hotspots, the Immigration Service has been invited to attend where an immigration offence is expected. The deployment of immigration officers in public places is a legitimate activity within the spectrum of our mandate of enforcing immigration laws.

While immigration officers do not have the same powers as the police to stop and search individuals in public places, they may legitimately question people to determine their immigration status where there is reasonable suspicion that a person is an immigration offender.

Records of *(a)* the number of people questioned or *(b)* the number of people arrested as part of the police-led crime reduction operations are not kept centrally. However, locally collated provisional information indicates that between May 2003 to July 2004 the UKIS participated in approximately 235 such operations which resulted in the arrest of around 1,000 immigration offenders, including 717 failed asylum seekers.

While officers routinely record the details of persons questioned in their individual notebooks, these data are not collated centrally.

The Government have made it clear that they are taking a robust and determined approach to tackling illegal immigration, and removing from the UK those who no longer have a legal right to be here.

Mr. Rosindell: To ask the Secretary of State for the Home Department if he will set out the immigration figures for each of the past 14 months. [184255]

Mr. Browne: Latest available figures on international migration are given in the table.

Total international migration[1]: United Kingdom, 2001 to 2002

Thousand

Year and quarter[2]	*All migration Inflow*	*Outflow*	*Balance*
2001	480	308	172
Of which:			
March	100	60	40
June	113	65	48
September	178	103	75
December	89	81	8
2002	513	359	153
Of which:			
March	105	75	30
June	117	81	36
September	197	124	73
December	95	80	14

[1] Figures are estimates derived from the International Passenger Survey and other sources—these are Home Office data on asylum seekers and their dependants and estimates of migration between the UK and the Irish Republic from the Irish Central Statistical Office.

[2] Quarters are labelled by their final month, e.g. March denotes the quarter January to March.

Source:

National Statistics (www.statistics.gov.uk).

Monthly data is not available.

Italian Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment the Government plans to conduct of the new Italian identity card scheme. [183909]

Mr. Browne: Identity card schemes have existed in most EU countries for many years.

Home Office officials have had detailed discussions with colleagues involved in the operation of identity card schemes in Italy, Sweden, the Netherlands and Germany and lessons learned have informed the development of policy where appropriate.

Comprehensive information has been supplied by each of the EU member states on the operation of their card schemes. The results of this work comprise Annex 3 of "Entitlement Cards and Identity Fraud: A Consultation" (CM 5557) published in July 2002.

Home Office officials have met Italian counterparts on two occasions to discuss their experience on the design and implementation of identity cards schemes and we will continue to work closely with colleagues in EU member states.

Non-EU Students

Mr. Wiggin: To ask the Secretary of State for the Home Department what plans he has to make it easier for non-EU students to work in the UK after they have graduated provided they have graduated from a UK university, with particular reference to residency criteria. [186817]

Mr. Browne: The Science and Engineering Graduate Scheme (SEGS), to be introduced on 29 October 2004, will allow non-EU graduates from UK universities who have graduated in specific science and engineering courses to apply to remain in the UK to seek work.

Participants on SEGS will be required to show that they have achieved a degree at 2:2 or above in such courses and that they can maintain and accommodate themselves without recourse to public funds. Participants will be granted leave for one year and will be able to live and work in any region of the UK. Participants on the scheme will be allowed to switch, at any time during the year, to other managed migration categories provided they meet the criteria.

In summer 2005, a further pilot scheme (Fresh Talent: Scotland) should be introduced to allow third country national graduates from Scottish universities to apply to stay in Scotland and look for work for up to two years.

November 9th Society

Mr. Dismore: To ask the Secretary of State for the Home Department if he will make a statement on the activities of the November 9th Society. [186293]

Fiona Mactaggart: The Government condemn any individual or group which promotes racism. The Home Office is currently developing a cross-Government community cohesion and race equality strategy, due to be launched later this year, which will among other matters address how we can most effectively respond to the threat from political extremism. It is for the police and Crown Prosecution Service to decide whether to prosecute any alleged offences.

Mr. Dismore: To ask the Secretary of State for the Home Department if he will take action to close the website of the November 9th Society; and if he will make a statement. [186294]

Fiona Mactaggart: The Government condemn those who use the internet to distribute racist material of this kind. The law on incitement to racial hatred applies to material on the internet which comes within our jurisdiction. It is for the police to investigate complaints and decide whether there is evidence that website operators have committed offences

The Internet Watch Foundation serves as a central point of contact for those who wish to report examples of inflammatory material on the internet.

The Government are currently working on an e-crime strategy which will include consideration of racist material on the internet.

Overseas Students

Chris Grayling: To ask the Secretary of State for the Home Department what the cost is to overseas students from *(a)* new entrant countries in the EU and *(b)* non-EU countries of registering to work in the UK during their studies. [183795]

Mr. Browne: Students from the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia who take up employment in the UK and who are subject to the Worker Registration Scheme are required to pay a one-off fee of £50 to register with the Home Office. After 12 months in continuous legal employment in the UK they can work here without registration.

Students from non-EU countries can legally work part-time alongside their studies, without reporting the details to the Home Office, provided they continue to satisfy the requirements of their stay as students.

Passports

Mr. Bill O'Brien: To ask the Secretary of State for the Home Department when biometric passports will be available to British passport holders to allow entry into the US under the visa waiver scheme; and if he will make a statement. [186367]

Mr. Browne: US Congress have recently approved legislation which extends the target date by which participating members of the US visa waiver scheme should be producing biometric passports to October 2005. British citizens will be able to travel to the States under current arrangements until that date provided they hold machine readable passports.

It is planned to commence the introduction of biometric enabled British Passports in late 2005.

Regulation of Investigatory Powers Act

Harry Cohen: To ask the Secretary of State for the Home Department for what reason he has not acted upon the recommendation by the Chief Surveillance Commissioner that certain NHS bodies should be excluded from Schedule 1 of the Regulation of Investigatory Powers Act 2000; and if he will make a statement. [185958]

Caroline Flint: The conduct of directed surveillance by NHS bodies has been reviewed by the Counter Fraud and Security Management Service (CFSMS), the Special Health Authority responsible for operational matters relating to the prevention, detection and investigation of fraud and corruption and the management of security in the NHS. The review has concluded that the CFSMS should authorise and undertake directed surveillance on behalf of NHS bodies. Consequently the Government will be laying an Order to amend the Regulation of Investigatory Powers Act 2000, in line with the recommendation of the Chief Surveillance Commissioner.

Speed Cameras

Mr. Love: To ask the Secretary of State for the Home Department how many motorists were *(a)* fined and *(b)* banned from driving as a result of the evidence of speed cameras in each of the last five years; how much money was raised from fines in each year; and if he will make a statement. [187001]

Caroline Flint: Available information for England and Wales on the number of fixed penalties and court fines ordered to be paid and on the number of persons disqualified from driving for the offence of 'speeding detected by camera' in 1998 to 2002 is shown in tables A and B respectively. Data for 2003 will not be available until the autumn.

Information on the revenue raised from speeding fines is not available centrally.

Table A: Fines and fixed penalty data for speeding offences detected by camera[1, 2], England and Wales, 1998–2002

	Court proceedings[3]			Fixed penalties	
	Number of fines	Total amount of fine (£)	Average fine (£)	Number of tickets[4]	Estimated revenue (£)[5]
1998	25,500	2,928,000	115	338,800	13,552,000
1999	32,300	3,434,000	106	423,000	16,920,000
2000	31,800	3,400,000	107	599,200	25,965,000
2001	40,500	4,510,000	111	877,500	52,650,000
2002	46,300	4,778,000	103	1,135,000	68,122,000

[1] Automatic cameras until 1998, all camera types from 1999.
[2] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[3] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[4] Paid i.e. no further action.
[5] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to £60.

Table B: Number of persons disqualified[1] from driving at all courts for speeding offences detected by camera[2, 3], England and Wales, 1998–2002

	Number
1998	1,300
1999	1,300
2000	1,400
2001	2,000
2002	1,800

[1] Excludes persons disqualified under s.35 of the Road Traffic Offenders Act 1988 (penalty points system).
[2] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[3] Automatic cameras until 1998, all camera types from 1999.

Terrorism Offences

Bob Spink: To ask the Secretary of State for the Home Department how many deportations have taken place under the Terrorism Act 2000 in each year for which records are available. [187597]

Mr. Browne: The Terrorism Act 2000 does not contain any provisions relating to deportation and there is no power under that Act to effect deportation.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned cars were removed by *(a)* police and *(b)* local authorities in each local authority area in

England in each of the past 10 years, broken down by region in descending order according to the biggest percentage drop in local authority area. [186099]

Mr. Morley: Estimates for numbers of abandoned vehicles removed and destroyed are compiled from the Defra Municipal Waste Management Survey for 2000–01, 2001–02 and 2002–03 and the Defra Abandoned Vehicle Survey for 2002–03. Estimates for vehicles removed by the police are not available. It is not practicable to sort the estimates due to the non-responses in certain years.

Figures for England broken down by region have been placed in the Library of the House.

Animal Rights Organisations (Criminal Behaviour)

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what measures the Government are taking to prevent criminal behaviour by animal rights organisations against lobster fishermen. [187429]

Mr. Bradshaw: Responsibility for dealing with these matters lies with the police authorities to whom all incidences of criminal behaviour or threatened criminal behaviour should be reported.

Environment Public Bodies

Joyce Quin: To ask the Secretary of State for Environment, Food and Rural Affairs what the budget of *(a)* the Environment Agency, *(b)* the Countryside Agency and *(c)* English Nature in the North East region of England was in each of the last three years. [186431]

Alun Michael: The budget for the Environment Agency's North East Region, which comprises the North East Region of England and most of the Yorkshire and Humber Region, was £83.8 million in 2001–02, £95.9 million in 2002–03 and £95.2 million in 2003–04. The Countryside Agency operates on a national rather than a regional basis, and figures for regional expenditure are not readily available. English Nature's budget for the North East Region of England was £1.8 million in 2001–02, £2.2 million in 2002–03 and £2.6 million in 2003–04.

EU Bycatch Regulation

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of fishing effort in UK fisheries identified by the EU Bycatch Regulation is conducted by vessels under 12 metres in length. [184896]

Mr. Bradshaw: The new Council Regulation to address cetacean bycatch requires the use of 'pingers' on vessels of 12 metres and over in ICES divisions VIId, e, f, g, h and j when using bottom-set gillnets or entangling nets. In ICES Area IV and division IIIa, the pinger requirement applies to vessels of 12 metres and over using bottom-set gillnets or entangling nets where the combination of net lengths used does not exceed 400 metres or where the mesh size used is greater than or equal to 220mm. The data is not available to identify the number of vessels falling in or out of the latter categories; it is only possible to identify the total number of vessels using bottom-set gillnets and entangling nets in the areas concerned.

Bearing in mind these caveats and using 2003 fishing data, the proportion of UK fishing effort (days at sea) conducted by vessels under 12 metres and exempt from the pinger requirements of the EU bycatch regulation would be approximately 80 per cent.

Farm Subsidies

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what decision has been taken by her Department regarding the level of voluntary modulation on agricultural payments. [186558]

Alun Michael: In her written statement to the House on 22 July, my right hon. Friend, the Secretary of State, announced overall modulation rates for England of 5 per cent. and 10 per cent. in 2005 and 2006 respectively. The overall modulation rate comprises two separate elements: compulsory EU-wide modulation, set at 3 per cent. in 2005 and 4 per cent. in 2006; and an additional national element which has been set at 2 per cent. in 2005 and 6 per cent. in 2006.

Percentage

	EU rate	*Additional national rate*	*Overall rate*
2005	3.0	2.0	5.0
2006	4.0	6.0	10

While the compulsory EU modulation rate for 2007 and beyond has been set at 5 per cent., the additional national rate, and hence the overall modulation rate, has yet to be determined.

The proceeds of modulation in 2005 and 2006 will be match funded by the Exchequer and used principally to finance schemes to deliver environmental enhancement and positive management of our countryside.

Fast Food and Litter Partnerships

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the pilot projects dealing with fast food and litter partnerships; and if she will make a statement. [187571]

Alun Michael: In July 2002, Defra asked ENCAMS (Environmental Campaigns) to devise a voluntary code of practice for the fast food industry aimed at improving local environmental quality, and the instances of fast food waste that becomes litter in rural and urban areas.

In November 2003, McDonald's and the Local Government Association (LGA) formed a pioneer partnership to assist local authorities in improving the quality of local environments and public spaces. The scheme was devised to support the Voluntary Code of Best Environmental Practice for the Fast Food Industry.

The pilot scheme, covering a mix of rural and urban areas, is currently running in Sheffield, Maidstone, and Taunton and Deane. McDonald's and the LGA

intention is to promote Defra's proposed code within each local authority, targeting all quick service restaurants in the area. The code sets out a framework for joint action between fast food businesses and land managers, and amongst others, encourages "litter patrols", the provision of litter bins and anti-littering signage.

The work on the pilots has helped to inform our further work on the code in preparation for a formal launch later in the year, with analysis of the scheme's success planned in due course.

Fly-tipping

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department's fly-tipping strategy has affected the residents of Leyton and Wanstead. [187745]

Mr. Morley: Defra published a consultation document entitled the Fly-Tipping Strategy in February 2004. It proposed a range of measures that aimed to ensure that enforcement against fly-tipping is as effective as possible. The strategy proposed to move towards dealing with fly-tipping in a more pro-active preventative manner rather than focusing just on expensive clearance.

The measures proposed in the strategy would give local authorities and the Environment Agency more effective powers for dealing with fly-tipping, which should lead to a better response to the blight of illegally dumped waste. Benefits will also extend to local residents by moving towards cleaner, safer, and greener public spaces and reducing the damaging effects of fly-tipping on the environment.

The Fly-Tipping Strategy responses are currently being analysed and have fed in to development of a further set of options in the current Clean Neighbourhoods consultation.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what the Environment Agency's *(a)* procedure and *(b)* resources will be to ensure that all hazardous waste producers, including those producing small and sporadic quantities of hazardous waste, (i) are aware of and (ii) comply with the requirement to register as a hazardous waste producer. [187173]

Mr. Morley: Our proposals for new regulations for hazardous waste, including the proposed requirement for hazardous waste producers to notify their premises to the Environment Agency, were issued for consultation on 30 July. The consultation will run until 29 October and during this time, the Environment Agency will consider both how to make producers aware of their obligations and how to ensure compliance. The consultation paper seeks views on a general coming into force date for the regulations of July 2005, with the possibility of sites producing hazardous waste being notified from 1 April 2005.

Household Waste

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the environmental implications of introducing variable charges for the collection of domestic household waste. [187278]

Mr. Morley: "Waste not, Want not—A strategy for tackling the waste problem in England" (Prime Minister's Strategy Unit, 27 November 2002) recommended that local authorities which wish to take forward variable charging or household incentive schemes to help reduce waste volumes and increase recycling should be allowed to do so.

In line with their response to the Strategy Unit report, the Government has undertaken further work, in consultation with local authorities, on the practicalities of operating schemes and how potential disadvantages could be overcome. This work also analysed international experience of such schemes, including their impact on reducing waste and increasing recycling. In light of this work, the Government is reviewing their position.

Radio Barcodes (Waste Disposal)

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with retailers about the final waste disposal of radio barcodes contained within consumer goods. [187621]

Mr. Morley: I have not discussed the final waste disposal of radio barcodes contained within consumer goods with retailers.

Recycling

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made towards meeting recycling targets of 25 per cent. of household waste by 2005. [187011]

Mr. Morley: All local authorities in England have been set challenging Statutory Performance Standards for 2003–04 and 2005–06 for the recycling and composting of household waste. Individual local authority targets combine to meet national targets as set out in Waste Strategy 2000 to recycle or compost 17 per cent. of household waste by 2003–04, and 25 per cent. by 2005–06.

In 2002–03, the household recycling and composting rate for England was 14.5 per cent., a 2 per cent. increase over 2001–02. This percentage rise represents a significant improvement compared with previous annual increases, which had tended to be around 1 per cent. (as measured by the Municipal Waste Management Survey).

The most recent evidence, offered by local authorities' unaudited Best Value Performance Indicator data for 2003–04, suggests that the 2003–04 national target of 17 per cent. will be met. The national target for 2005–06 remains a significant challenge but an achievable goal if the current rate of progress is maintained.

Mr. Webb: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage the recycling of plastic; and if she will list those local authorities which operate *(a)* kerbside and *(b)* other plastic recycling schemes. [187830]

Mr. Morley *[holding answer 8 September 2004]:* All local authorities in England have been set challenging Statutory Performance Standards for 2003–04 and 2005–06 for the recycling and composting of household waste. The Government do not specify which materials local authorities are required to collect. The Statutory Performance Standards are weight based so initially local authorities are likely to recycle heavier materials. However, as recycling targets become increasingly demanding, local authorities are expected to target lighter materials such as plastics.

To make the recycling of plastic more economically attractive the Government-funded Waste Resources and Action Programme (WRAP) has developed a programme to expand markets for plastic recyclate. As a result of WRAP activity since 2001 in excess of 35,000 additional tonnes of plastic recycling capacity per year is either operational, under construction or otherwise committed.

According to the Municipal Waste Management Survey 2002–03 the following local authorities operated *(a)* a kerbside collection scheme, or *(b)* other plastic recycling schemes.

Local authorities operating a kerbside plastic collection scheme in 2002–03

Shellfish

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when she expects to agree a management plan for scallops, crabs and lobsters in the Western Channel; [187425]

(2) what measures she is taking to assess *(a)* historic shellfish landings that will form the basis of a management plan and *(b)* current shellfish landings. [187426]

Mr. Bradshaw: The European Commission indicated in October 2003 that it would bring forward proposals for a management plan for scallops, lobsters and crabs in the Channel. It has not yet done so and we are not aware that such proposals are imminent.

Data on shellfish landings by UK vessels and into UK ports are collected annually and published in the United Kingdom Fisheries Statistics series. They are not collected specifically for the purpose of agreeing management plans.

Environment Agency

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what back-office improvements will be made within the Environment Agency to achieve the efficiency savings announced in the spending review. [185893]

Mr. Morley: The agency is developing an efficiency strategy which builds on its current targets for efficiency savings and addresses operational changes in the organisation. The strategy will reflect the spending review announcement. The key activities that underpin the strategy include:

Review of property and facilities owned and leased by the agency;

Improving procurement: reducing the unit cost of goods and services through aggregation of services;

Transactional services: ensuring that the handling of inquiries and invoicing is handled in the most efficient way;

Productive time: examining new ways of working and reducing the scale of support services;

Implementation of the National Document Imaging Strategy: rationalising photocopiers, printer and fax machines throughout the agency;

Implementation of the Financial and Human Resources management information system (IBIS): an activity based recording system that will provide management information on the use of agency resources across the business.

Waste Incineration

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs whether there are economic disincentives for waste-to-energy incinerators to burn source separated waste. [187069]

Mr. Morley: There are no direct economic disincentives for waste-to-energy incinerators to burn source separated waste. Incentives to recycle source separated waste exist and these act as indirect disincentives to burn source separated waste. Examples of these incentives include local authority statutory performance standards for recycling and composting and the recycling targets set out in the European directive on packaging and packaging waste.

Government announced in Budget 2002 that the case for an economic instrument for incineration would be considered. As there is a range of issues associated with developing an effective waste management and disposal mix, the Government commissioned a study to identify the environmental and health impacts of all waste management and disposal options (http://www.defra.gov.uk/environment/waste/health-effects/health-report.pdf). A second, related study seeking to identify the economic values of the impacts and pollutants identified in the first study is currently under way.

The case for using economic instruments for incineration will be considered in light of this work and in consultation with other stakeholders.

INTERNATIONAL DEVELOPMENT

AIDS Vaccine Research

Dr. Tonge: To ask the Secretary of State for International Development (1) what resources he plans to commit to AIDS vaccine research in the next 10 years; [187466]

(2) what recent discussions he has had with the pharmaceutical industry regarding funding and facilities for the production of AIDS vaccine once developed. [187467]

Hilary Benn: In line with the recently published DFID Research Funding Strategy, we are committed to the global effort to find a vaccine for AIDS. DFID has committed £14 million in support of the International AIDS Vaccine Initiative (IAVI) up to the end of this year and I recently met Dr. Seth Berkeley, who is president and chief executive the of IAVI, to discuss its work. The UK is also committed to work with our G8 colleagues. DFID supports the aims of the Global HIV and AIDS Vaccine Enterprise and are developing areas for UK engagement with the enterprise including potential financial support during the UKS G8 Presidency. Over the coming months DFID will be considering the resource framework for the three years commencing April 2005, including further support for IAVI and support for the Global Vaccine Enterprise.

In addition to this direct support, the UK has tax relief for investments in research into vaccines and other medicines for HIV and AIDS, malaria and tuberculosis. The Vaccines Research Relief is effective on expenditure from April 2003. It is too early to report on the success of the Vaccines Research Relief since company tax returns are retrospective in nature. The first claims are not expected until later this year. However, a programme of evaluation will be implemented once data begins to be received. It is important to bear in mind the long-term nature of research decisions and outcomes and the fact that the impact of the relief is likely to appear over the medium to long term.

DFID officials have been meeting regularly with pharmaceutical companies and business associations as part of our work on increasing access to medicines in developing countries. These meetings have dealt with issues such as the affordability of existing medicines and other health technologies, and the need for increased research and development into new technologies—including vaccines—for diseases disproportionately affecting developing countries.

Beijing + 10

Joan Ruddock: To ask the Secretary of State for International Development what his plans are for his Department's involvement in the Beijing Platform for Action known as Beijing + 10. [187534]

Hilary Benn: The review of the 1995 Beijing Platform for Action will be an integral part of the UK Government's work on gender equality in 2005. The 49th Session of the Commission for the Status for Women (CSW) at the United Nations in March 2005 will review and appraise the implementation of Beijing over the last 10 years. A cross-Whitehall UK Government delegation will actively participate at CSW, working to ensure that the gains achieved at Beijing in 1995 are upheld. DFID has already begun contributing to this process, completing a United Nations questionnaire on progress made in the UK since 1995, which will feed into the UN Secretary-General's report.

DFID is also working closely with the European Union Gender Group and other donors through the Organisation for Economic Cooperation and Development (OECD) Development Assistance Committee's (DAC) Gender Network, to develop a contribution to the review. We are attending regional preparatory meetings and working with civil society organisations. These include the UK Gender and Development Network, to whom DFID has provided support on a study examining the links between the Platform for Action and the Millennium Development Goals (MDGs).

Gender equality is relevant to the achievement of all the MDGs, not only that specifically aimed at gender equality and the empowerment of women. The review will be an opportunity to underline the continuing relevance of the Beijing Platform for Action to the achievement of gender equality.

Conflict and Humanitarian Affairs

Mr. Battle: To ask the Secretary of State for International Development how his Department's policy on taking risks of natural and man-made disasters into account will change following the report by his Department's Conflict and Humanitarian Affairs Department. [186721]

Hilary Benn: A reduction in the impact of natural and man-made disasters is an important precondition for poverty reduction in many countries.

DFID is in the process of reviewing how we might step up our work in this area. A scoping study, commissioned by DFID's Conflict and Humanitarian Affairs Department and undertaken by the Overseas Development Group, will soon report. The study will examine the relationship between development and disasters so as to help the development community and DFID better understand how we might tackle disasters risk most effectively. It will also consider how to better integrate disaster risk reduction into development. We intend to develop a forward strategy for DFID on disaster reduction in the light of the findings of this study. The findings will be disseminated to interested parties.

Departmental Contracts

Ann McKechin: To ask the Secretary of State for International Development how many contracts were let by his Department and agencies for which he is responsible to Halcrow Group Ltd. for the financial years *(a)* 2003–04, *(b)* 2002–03, *(c)* 2001–02, *(d)* 2000–01 and *(e)* 1999–2000; what the value of each contract was; and what the nature of each contract was. [188311]

Hilary Benn: DFID's headquarters has issued the following contracts to the Halcrow Group Ltd. since 1999. A small number of low-value contracts may also have issued from DFID's overseas offices, but information on this is not held centrally, and could be provided only by incurring a disproportionate cost.

Education (Gender Disparity)

Norman Baker: To ask the Secretary of State for International Development what assessment he has made of the impact on girls' school enrolment of increased access to sanitation; and how this is taken into account in the design of the programmes funded by his Department in pursuit of the Millennium Development Goal to eliminate gender disparity in education. [188058]

Hilary Benn: DFID's assessment of this relationship is two-fold. First, access to basic facilities such as school toilets, safe drinking water, clean surroundings and information on hygiene all improve the quality of the school environment and result in better learning outcomes for girls. Provision of basic facilities ensures universal basic education and results in increased enrolment of girls in schools. Basic sanitation for girls in particular, can lead to lower dropout rate for girls, especially at puberty. For example, in Bangladesh, a school sanitation and hygiene education programme reported to increase girls' attendance rates by 11 per cent.

Second, parents are more likely to send girls to school when they have ready access to safe, drinking water and girls are no longer required to collect water from distant water pumps.

An example of how this assessment has been used in DFID's work is in Sudan. As part of its support for the peace process in Sudan, DFID has provided approximately £2 million to assist the United Nations Children's Fund's (UNICEF) education programmes in the conflict affected areas of the country, providing books and materials to over 2,000 primary schools and supporting the construction of water and sanitation facilities.

Gaza Strip

Dr. Tonge: To ask the Secretary of State for International Development what assessment he has made of the humanitarian situation in the town of Beit Hanoun in the Gaza Strip. [187517]

Hilary Benn: The Israeli operation "Forward Shield" in Beit Hanoun has led to extensive damage and destruction to property, including agricultural land and infrastructure, in one of Gaza's most important agricultural regions. The levelling of a further 17 per cent. of total arable land in the last two months adds to the debilitating impact on the livelihoods and food security of Palestinians in the area. Over 50 per cent. of total agricultural land in the area has now been uprooted since September 2000. As a result of residential buildings being destroyed, 145 people have been made homeless and another 580 people have had their homes damaged. Damage to public property has led to breaks in the water, power, sewerage and road networks. In addition, 17 privately owned water-wells were destroyed with consequences for access to drinking water and agricultural use. DFID funding for the United Nations Relief and Works Agency provides support for affected people in the area.

Sudan

Mr. Liddell-Grainger: To ask the Secretary of State for International Development what recent meetings he has had with non-governmental organisations to discuss the humanitarian situation in Darfur, Sudan. [186440]

Hilary Benn: During my visit to Sudan in June, I met with representatives from non-governmental organisations in Khartoum and Darfur. Since my return, I have been in correspondence with several NGOs including Oxfam, Amnesty International and Save the Children UK. Officials from the joint FCO/ DFID Sudan Unit hold frequent meetings with NGO representatives in Khartoum and London.

The Foreign Secretary also met with NGO representatives in Khartoum and Darfur during his visit to Sudan in August. He also met with representatives in London prior to his departure and following his return.

Mr. Liddell-Grainger: To ask the Secretary of State for International Development what recent representations he has received about the humanitarian situation in Darfur, Sudan. [186473]

Hilary Benn: I am gravely concerned about the situation in Darfur, Sudan and am keeping in close contact with developments. I am in regular dialogue about the humanitarian situation in Darfur with UN agencies, and Development Ministers in other donor Governments. I am also in regular correspondence with the NGO community. I receive numerous letters on Darfur from Members of this House, as well as from members of the public.

Mr. Liddell-Grainger: To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in *(a)* Sudan and *(b)* the Darfur region. [186478]

Hilary Benn: Sudan is a country in the midst of a chronic complex emergency. UN social indicators continue to be among the lowest in the world. Large areas of the country outside the more affluent area of Khartoum continue to need life-saving and life-sustaining assistance. Continuing conflict in many areas has resulted in persistently high levels of poverty as agricultural production is disrupted and land taken out of cultivation due to instability.

With the expectation of a Comprehensive Peace Agreement in the coming months, humanitarian needs are likely to increase as the needs of returning internally displaced persons (IDPs) and refugees from the conflict between the north and south of Sudan add to those affected by natural disaster.

In Southern Sudan, 23 years of conflict has created critical food insecurity, an almost total lack of primary health care outside of what is provided by NGOs, and crisis levels of mortality and morbidity across the area. The conflict is estimated to have displaced 4 million people out of a total population of 5 million, some of whom are now refugees and some are IDPs. (A breakdown of this is provided in the table). The critical issue for the humanitarian community in the south is ensuring a stable and sustainable environment to help displaced people to return home. While the Comprehensive Peace Agreement holds out the prospect of peace in Southern Sudan, fighting continues, with an outbreak of militia activity in the Shilluk Kingdom, which has displaced 50,000 people since March 2004.

Other areas of concern in Sudan include the Red Sea State in Northern Sudan, where the population of 700,00 has suffered persistent drought and repeated crop failures since 1988. The rainfall and predicted agricultural production for 2004 is better than the last few years, but due to the prolonged nature of the crisis, a large proportion of the general population is likely to remain short of food and to require food and nutritional assistance for some time to come.

Summary of Sudanese IDPs and refugees

	Number	*Source*
IDPs		
Greater Khartoum	2,000,000	Norwegian Refugee Council, 2004 and UN OCHA, 2004
Northern Sudan (not Khartoum or Darfur)	362,000	
Darfur	1,000,000+	
Southern Sudan	750,000+	
Total	4,112,000	

Summary of Sudanese IDPs and refugees

	Number	*Source*
Sudanese refugees		
Uganda	223,000	UN High Commissioner for Refugees (UNHCR), 2004
Chad	110,000	
Ethiopia	90,000	
Democratic Republic of the Congo	70,000	
Kenya	68,000	
Central African Republic	36,000	
Egypt	30,000	
Eritrea	660	
Total	627,660	
Refugees in Sudan		
Total from Uganda, Ethiopia, Eritrea and others	270,000	UNHCR, 2004

The humanitarian situation in Darfur remains dire and urgent action is needed on all sides. Over 1.2 million people have been internally displaced in Darfur, and a further 200,000 have fled to Chad. The needs are enormous. Security in the camps has improved, but reports of attacks continue outside the camps, and IDPs, refugees and host communities in Darfur and Eastern Chad remain vulnerable as inter-tribal fighting continues and the levels of banditry and general insecurity remain. IDPs and refugees still lack adequate water and sanitation and many do not have adequate shelter against the rain and extreme conditions. Outbreaks of disease are a serious concern (a hepatitis E outbreak has already been diagnosed in West Darfur). Aid agencies are scaling up delivery of assistance, but capacity constraints remain. The UN estimates that 1,000 international staff are needed to cope with the crisis; 500 are currently working in Darfur. Humanitarian access has however improved and over 45 NGOs are registered, although not all are operational. The rainy season from May to September has also resulted in logistical difficulties, with the World Food Programme (WFP) resorting to airdrops of food in some inaccessible areas. A further constraint is that resources are still limited. The UN has revised its appeal for the crisis in Darfur and now estimates that it needs a total of $530 million for Chad and Darfur, of which $255 million is unmet. The UK is the second largest bilateral donor to the humanitarian response, having allocated £62.5 million since September 2003. DFID is urging other donors to do more.

Mr. McGrady: To ask the Secretary of State for International Development what steps the United Kingdom Government will take *(a)* to prevent the forced return or relocation of (i) internally displaced people and (ii) refugees in Sudan and *(b)* to ensure that local Sudanese security forces and police protect the human rights of those who have suffered. [187821]

Mr. Mullin: I have been asked to reply.

The Government of Sudan on 21 August agreed with the International Organisation for Migration that the latter would determine that returns of Internally Displaced Persons or refugees are voluntary and appropriate. UN Secretary General Kofi Annan on 30 August noted that the Government of Sudan was

abiding by this commitment. We will continue to press the Government of Sudan to fulfil their obligations to provide proper protection to the civilian population, as called for in UNSCR 1556. We are providing support for the African Union Cease-fire Commission observer mission (£2 million in addition to EU funding of €12 million), and have provided £250,000 to fund eight UN human rights monitors in Darfur.

Mr. McGrady: To ask the Secretary of State for International Development if he will outline the role the United Kingdom Government intend to play to help peace talks between the warring parties in Darfur to lead to a just and meaningful peace that addresses the root causes of the conflict. [187822]

Mr. Mullin: I have been asked to reply.

Peace talks continue in Abuja, and the parties have drawn up a humanitarian protocol, which will commit them to improved humanitarian access. Discussions are currently focusing on security issues. These talks are key. Only through political negotiation will we be able to find a sustainable solution to the conflict. The UK is offering its full support to the African Union mediators; a UK observer is present in Abuja and we are working with our international partners, including through the UN Security Council, to bring pressure to bear on the parties to the conflict to engage constructively.

Mr. McGrady: To ask the Secretary of State for International Development what action the United Kingdom Government will propose to the UN following the passing of the 30 August deadline imposed by the UN on the Sudanese Government; and what the United Kingdom Government's policy towards the Sudanese Government will be. [187823]

Mr. Mullin: I have been asked to reply.

I refer the hon. Member to the statement my right hon. Friend the Foreign Secretary made to the House on 7 September 2004, *Official Report*, columns 615–18.

Locusts

Mr. Jenkins: To ask the Secretary of State for International Development what action he is taking to assist the United Nations Food and Agriculture Organisation in its request for more international aid to help tackle the locust plague in West Africa. [188103]

Hilary Benn: The UK committed £1.5 million ($2.7 million at current exchange rate) in August to the UN Food and Agriculture Organisation (FAO) international emergency appeal for the immediate control of the locust swarms. In total the international community has pledged $37 million.

To date, the FAO has provided about $5 million to six countries and to four regional projects across West and North Africa. There is currently unspent donor money available from the international appeal. As the situation is easing in Morocco and Algeria, their governments are also redeploying resources in the south.

The Department for International Development continues to monitor the situation closely. In the event that the situation deteriorates rapidly, the UK will review its response in line with the FAO and in-country logistics capacity given the difficulty of operating in such remote areas.

Zambia

Joan Ruddock: To ask the Secretary of State for International Development pursuant to his answer of 21 June 2004, *Official Report*, column 1219W, on Zambia, what specific projects have received support in the Milanzi constituency of the Eastern Province of Zambia. [187537]

Hilary Benn: To date, one project specific to Milanzi constituency is receiving support. A local NGO called Shade the Shame has just been granted funding of £10,000 from the DFID financed Small Grant Scheme (SGS). Shade the Shame co-ordinates the activities of women's clubs in the district and currently has 22 affiliate clubs with 1,200 members. Each club specialises in a particular income generating activity. DFID's Grant will help purchase more equipment for the clubs, enhancing their productivity and increasing members' incomes.

The SGS is managed by the British High Commission, and has a small budget each year. Priority is given to small-scale community enterprises that show an awareness of HIV and AIDS prevention and coping initiatives, and are environmentally sensitive.

The Eastern Province of Zambia is the main focus for SGS funding this year. DFID is in the process of assessing a large number of applications from the Province, including some more proposals from the Milanzi constituency. Final decisions will be made by the end of September.

TREASURY

Civil Service Redundancies

Mr. Sheerman: To ask the Chancellor of the Exchequer what estimate he has made of the cost to each Government department of redundancy payments arising from staff reductions announced in the 2004 Spending Review. [187939]

Mr. Boateng: Individual departments are responsible for managing any efficiency related workforce changes.

Honesty Hotline (Newhaven)

Norman Baker: To ask the Chancellor of the Exchequer how many individuals have used the Honesty Hotline installed by HM Customs at Newhaven Port to report occasions where they may have exceeded the duty limit in each month since its installation. [188086]

John Healey: Customs does not maintain records on the number of calls of the type described originating at Newhaven.

Mountain Rescue Teams

Annabelle Ewing: To ask the Chancellor of the Exchequer if he will extend the zero rating of VAT to all purchases by mountain rescue teams to other items. [188092]

John Healey: Under long-standing formal agreements with our European partners, we are not able to extend or add to the current list of zero rates.

However, as part of the wide range of VAT reliefs available to charities, rescue, or first aid charities may purchase VAT-free the specialised telecommunications, aural, visual, light enhancing or heat detecting equipment which they use. These charities are also able to buy medicines, medical equipment, ambulances and certain vehicles designed to transport disabled people free of VAT.

Annabelle Ewing: To ask the Chancellor of the Exchequer if he will introduce an across the board exemption from vehicle tax for dedicated rescue vehicles used by mountain rescue teams. [188093]

John Healey: Any changes to taxation policy are made by the Chancellor in the context of his Budget statement after considering relevant economic, social and environmental factors.

CONSTITUTIONAL AFFAIRS

Human Rights

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many claims have been made in UK courts citing breach of the provisions of the Human Rights Act 1998 in each year since passage of that Act; [188601]

(2) how many court judgments have found a breach of the claimant's rights under the Human Rights Act 1998 in each year since passage of that Act. [188602]

Mr. Lammy: This information is not maintained centrally and could be provided only at disproportionate cost.

Legal Services Commission

Mr. Djanogly: To ask the Parliamentary Secretary, Department for Constitutional Affairs, if he will break down by type of debt the money owed to the Legal Services Commission. [185950]

Mr. Lammy *[pursuant to his reply, 21 July 2004, Official Report, c. 376W]:* I listed in my previous answer the break down by type of debt of the money owed to the Legal Services Commission in 2003–04. This omitted to indicate that these figures were in thousands and the following table now reflects this.

	£000
Contribution due from funded clients	29,509
Costs to be recovered	25,431
Statutory charge	263,896
Damages	12,904
Amounts due from suppliers	31,718
Recovery of defence costs orders	1,722
Accrued income European social fund	82
Prepayments and other accrued income	404
Total	365,666

Magistrates Court Cells (Aberystwyth)

Mr. Simon Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment has been made of the health and safety standards in Aberystwyth Magistrates' Court cells. [187075]

Mr. Leslie *[holding answer 9 September 2004]:* Custody facilities at courthouses are audited by the Prisoner Escort and Custody Services (PECS) at regular intervals against current standards of health and safety, decency and security. On 2 June 2004, a PECS audit concluded that the Aberystwyth Magistrates' Court cell complex meets basic health and safety standards.

However, access to the cell area fails to meet the established security standards because there is no van dock and there is no direct access to the custody area from the courtrooms. In order to reduce risk the number and type of hearings with defendants in custody at the courts has been reduced. This allows the custody officers a greater degree of control over each custodial defendant brought before the Court.

TRADE AND INDUSTRY

British Agricultural Products

Mr. Wiggin: To ask the Secretary of State for Trade and Industry what measures she has taken to promote British agricultural products abroad. [186669]

Mr. Mike O'Brien: UK Trade and Investment works closely with Defra to help the British agricultural industry trade internationally. Our primary means is through the International Agriculture and Technology Centre based at Stoneleigh Park, which arranges a series of targeted events, inward and outward missions, and attendance at exhibitions where companies can improve their business prospects through international trade.

British Energy

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the current Government-backed rescue package for British Energy. [186330]

Mr. Timms: The terms of the Government's support for British Energy's restructuring plan were set out in the statement made by my right hon. Friend the Secretary of State for Trade and Industry on 28 November 2002, *Official Report*, column 488. The latest position was set out by my right hon. Friend the Secretary of State for Trade and Industry in her statement on 17 June 2004, *Official Report*, column 48WS.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Trade and Industry how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which her Department is responsible. [187312]

Ms Hewitt: The Department has 16 rooms set aside for use by smokers and three rooms set aside for worship. Each building has a first aid room that can be used by nursing mothers and pregnant women.

Foresight Project

Paul Flynn: To ask the Secretary of State for Trade and Industry which scientists participated in the scoping workshops that began the Foresight project on Brain Science, Addiction and Drugs in March and April. [187552]

Ms Hewitt: Set out as follows, is a list of the scientists who attended the two workshops my Department ran to help decide the focus for the Foresight project on Brain Science Addiction and Drugs.

DEPUTY PRIME MINISTER

Adults with Learning Difficulties (Housing)

Mr. Keetch: To ask the Deputy Prime Minister what plans he has to amend planning guidance to local authorities on the development of residential homes for adults with learning difficulties in rural areas; and if he will make a statement. [188451]

Keith Hill: The Office of the Deputy Prime Minister consulted last year on a proposed update to Planning Policy Guidance Note 3: Housing (PPG3), titled "Influencing the Size, Type and Affordability of Housing". The proposed update places more emphasis, than currently in PPG3, on producing a better match between the housing planned and the needs of the community, particularly in terms of the size, type and affordability of housing, both in urban and rural areas. We intend to publish the update in the autumn.

Local planning authorities should already be assessing the housing needs of specific groups, including adults with learning difficulties, as part of their local housing needs assessment. The Office of the Deputy Prime Minister is currently revising the guidance to local planning authorities on carrying out such assessments and will be publishing an updated guide by the end of the year.

Agricultural Land Sales

Mr. Edwards: To ask the Deputy Prime Minister if he will extend the consultation on planning aspects of the subdivision and sale of agricultural land to include woodlands and meadows. [188080]

Keith Hill: The Office of the Deputy Prime Minister is not aware that the same concerns over the planning issues that have arisen in the context of subdivision and subsequent sale of agricultural land apply to woodlands and meadows. Accordingly they have not specifically been included in our consideration of possible solutions.

Brighton (Football Stadium)

Norman Baker: To ask the Deputy Prime Minister if he will publish the guidelines he is making available to the inspector who will consider the reconvened public inquiry into the application for a football stadium for Brighton and Hove Albion. [188087]

Keith Hill: My right hon. Friend the Deputy Prime Minister advised the agent to Brighton and Hove Albion FC by letter of 26 July 2004 that he wished to re-open the inquiry concerning this application. The reason given in the letter for doing so was that he wished to be further informed upon the question of the availability and suitability of seven alternative sites. That letter was copied to the main parties to the inquiry and is in the public domain.

Norman Baker: To ask the Deputy Prime Minister pursuant to his recent announcement reopening the public inquiry into the planning application for a football stadium for Brighton and Hove Albion, whether he has accepted that there is a national need for such a stadium. [188088]

Keith Hill: The First Secretary of State, my right hon. Friend the Deputy Prime Minister has not yet reached a view on the proposal for a football stadium at Falmer. Arrangements are currently being made for the inquiry to be re-opened. A decision will be made on the basis of the material planning considerations and all the available evidence, including the report of the re-opened inquiry, once that is submitted to my right hon. Friend the Deputy Prime Minister.

Council Tax

Mr. Amess: To ask the Deputy Prime Minister what the band D council tax precept levied by the Greater London Authority (GLA) is; and how it has changed since the GLA's establishment. [188290]

Mr. Raynsford: The information requested is tabled as follows:

Taxpayers living in the City of London are not required to contribute towards the Metropolitan police because the City provides its own police force. Separate figures are therefore given for the Band D council tax payable by taxpayers in London and the City.

	GLA Band D council tax for London boroughs (£)	*Percentage increase*	*GLA Band D council tax for City of London (£)*	*Percentage increase*
2000–01[1]	122.98	—	32.03	—
2001–02	150.88	22.7	32.03	0.0
2002–03	173.88	15.2	43.29	35.2
2003–04	224.40	29.1	65.27	50.8
2004–05	241.33	7.5	57.25	-12.3

[1] The amounts for 2000–01 were set by central government rather than by the GLA.

Disabled Facilities Grant Programme

Sue Doughty: To ask the Deputy Prime Minister what conclusions have resulted from the joint review with the Department of Health in the context of the Spending Review 2004 of the disabled facilities grant programme. [188184]

Keith Hill: Following the Spending Review, the Office of the Deputy Prime Minister is considering how to allocate the total resources between different programmes. The joint review with the Department of Health of the operation of the disabled facilities grant programme is on-going, and its conclusions will be announced in Spring 2005.

Energy Crops Grant Scheme

Mr. Gray: To ask the Deputy Prime Minister what discussions he has had with the Department for Environment, Food and Rural Affairs prior to the publication of Planning Policy Statement 22 about its Energy Crops Grant scheme under the England Rural Development Programme. [188464]

Keith Hill: Officials in the Office of the Deputy Prime Minister and the Department of Environment, Food and Rural Affairs were involved in several discussions relating to the contents of Planning Policy Statement 22 (PPS22) prior to its publication. However, as PPS22 is a national planning policy statement, and the planting of crops, for whatever purpose, is not a planning matter, the Energy Crops Grant Scheme was not specifically discussed.

Fly-posting

Mr. Drew: To ask the Deputy Prime Minister what advice *(a)* the Department and *(b)* the Environment Agency gives to local authorities on how to deal with illegal fly-posting. [188407]

Keith Hill: The Government's advice to local planning authorities on how to deal with fly-posting is set out in the Office of the Deputy Prime Minister's Good Practice Guide "The Control of Fly-Posting" published in 2000. Advice is also given in part V of DOE Circular 5/92 and Welsh Office Circular 14/92.

Forest of Dean Local Plan

Mrs. Spelman: To ask the Deputy Prime Minister by what date he will determine whether he will direct the Forest of Dean district council, under section 44(1) of the Town and Country Planning Act 1990 (as amended), in relation to the adoption of their District Local Plan. [188294]

Keith Hill: On 17 August 2004 the Government Office for the South West, on behalf of the Secretary of State, my right hon. Friend the Deputy Prime Minister, directed the Forest of Dean district council not to adopt the Local Plan. This direction will remain in place until it has been decided whether to intervene further. There is no statutory timetable prescribed for action under the provisions of section 44(1) of the Town and Country Planning Act 1990 (as amended) but my right hon. Friend the Deputy Prime Minister is anxious to ensure that the current situation is resolved as quickly as possible.

High Hedges

Mrs. Spelman: To ask the Deputy Prime Minister when regulations allowing local authorities to tackle high hedges will come into effect. [188295]

Keith Hill: Regulations bringing into force the provisions in part 8 of the Anti-social Behaviour Act, which give local authorities powers to deal with complaints about high hedges, are expected to come into effect towards the end of 2004.

Highways Maintenance

Brian Cotter: To ask the Deputy Prime Minister what the average Standard Spending Assessment/Formula Spending Share funding per head has been for highways maintenance in *(a)* England and *(b)* North Somerset in each year since 1997. [188657]

Mr. Raynsford: Tabled as follows are the highway maintenance Standard Spending Assessment/Formula Spending Share (SSA/FSS) per head for both England and North Somerset for each year since 1997, as requested.

£ per head

	England	North Somerset
1997–98	35.97	34.37
1998–99	36.00	33.89
1999–2000	36.79	33.80
2000–01	37.55	34.85
2001–02	38.29	37.00
2002–03	39.10	38.66
2003–04	39.74	37.47
2004–05	40.43	38.74

Both Standard Spending Assessments and Formula Spending Shares are neither the amount an authority has spent on a particular service nor are they the Government's assessment of how much money should be spent on a particular service by an authority. Additionally they are not grant. They are simply formulae used in the calculation of Revenue Support Grant.

Listed Buildings

Bob Russell: To ask the Deputy Prime Minister (1) how many buildings listed for their historic or architectural interest were demolished in each of the last three years for which figures are available *(a)* as a result of permission of the local planning authority, *(b)* on appeal to a government planning inspector and *(c)* without permission; [187989]

(2) how many owners of buildings listed for their historic or architectural interest were prosecuted in each of the last three years for which figures are available for demolishing the buildings without permission; and if he will make a statement. [187990]

Keith Hill: This information is not collected by central Government. However, since the 4 May English Heritage have been logging records of Listed Building Consent applications for total demolition, and by the close of the 2004–05 financial year will be able to provide a report on the number of applications.

Local Government/Finance

Bob Russell: To ask the Deputy Prime Minister whether local authorities are required to obtain the best value for land and buildings of which they dispose. [187988]

Keith Hill: Local authorities have discretionary powers to dispose of land in any manner they wish under sections 123 and 127 of the Local Government Act 1972. Under these provisions, disposals must be for the best consideration reasonably obtainable, unless the Secretary of State, my right hon. Friend the Deputy Prime Minister gives his consent to the disposal. The 2003 General Disposal Consent which was issued in the Office of the Deputy Prime Minister's Circular 06/2003 on 4 August 2003, allows authorities, in certain circumstances, to dispose of land at less than market value without having to seek the Secretary of State, my right hon. Friend the Deputy Prime Minister's specific consent. Where authorities wish to dispose of open space land that is used for public recreation, they must first advertise their intentions in a local newspaper to comply with the statutory requirements of the 1972 Act and consider any objections they receive.

Brian Cotter: To ask the Deputy Prime Minister what the average Standard Spending Assessment/formula spending share funding per head has been for all services in *(a)* England and *(b)* North Somerset in each year since 1997; and if he will estimate the sums that would be available for services in North Somerset if the average SSA/FSS funding per head were the same as the English average. [188658]

Mr. Raynsford: Tabled as follows are the total Standard Spending Assessment/Formula Spending Share (SSA/FSS) per head for both England and North Somerset for each year since 1997, as requested.

£ per head

	England	North Somerset
1997–98	829.45	660.18
1998–99	869.19	688.86
1999–2000	907.66	713.57
2000–01	943.33	736.84
2001–02	980.69	767.95
2002–03	995.30	779.11
2003–04	1,177.45	953.27
2004–05	1,222.22	954.08

The England figure covers all services, including police and fire services.

Police services in the North Somerset area are provided by the Avon and Somerset Constabulary; and fire services are provided by the Avon Fire and Rescue Service. The Police Service is funded directly via Formula Grant throughout the period covered in the table. The Fire Service was also funded directly via Formula Grant in 2004–05; previously the Avon Fire and Rescue Service levied for this service on North Somerset council. North Somerset's FSS data reflect these arrangements i.e. the FSS does not cover police services nor does it cover fire services in 2004–05.

Both Standard Spending Assessments and Formula Spending Shares are neither the amount an authority has spent on a particular service nor are they the Government's assessment of how much money should be spent on a particular service by an authority. Additionally they are not grant. They are simply formulae used in the calculation of Revenue Support Grant.

It is not therefore possible to calculate the amount of Formula Grant that would have been provided to North Somerset if it had received the England average FSS per head.

Mobile Phone Masts

Bob Russell: To ask the Deputy Prime Minister how many planning appeals against the refusal of the siting of mobile telephone masts were made in each of the last five years for which figures are available; and of these how many were upheld in favour of the mobile telephone companies. [187987]

Keith Hill: No information is held about appeal decisions for mobile phone masts specifically. The following information therefore relates to appeal decisions about telecommunications development generally.

	Number of appeals decided	Number of appeals allowed	Number of appeals disallowed	Percentage allowed
2000–01	281	183	98	65.12
2001–02	456	294	162	64.47
2002–03	830	531	299	63.98
2003–04	630	363	267	57.62
2004–05	129	69	60	53.49

Note:
All figures relate to the period in which the appeal was received, not necessarily the period in which it was decided.

Satellite and Cable TV Subscriptions

Mrs. Spelman: To ask the Deputy Prime Minister what the cost of satellite and cable subscriptions in his Department's buildings was in the last year for which figures are available; and if he will list the premium channels to which his Department subscribes. [185783]

Phil Hope: In 2003–04, the Office of the Deputy Prime Minister spent £21,310 inc. VAT on cable and satellite subscriptions. This comprised £1,750 on satellite and £19,560 on cable subscriptions. The Office of the Deputy Prime Minister subscribes to the cheapest available business package. This includes no premium channels although until November 2003 it included Sky Sports 1.

In the London HQ buildings the business of the House and division bells are also delivered over the cable network.

Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government Offices, they carry out functions on behalf of 10 Departments.

Unauthorised Caravanning

Peter Bottomley: To ask the Deputy Prime Minister if he will take steps to coordinate policy, law and collection of statistics between the administrations in the common travel area for unauthorised caravanning and encampments. [188236]

Keith Hill: Strong links already exist between the Office of the Deputy Prime Minister and the Republic of Ireland's Department of the Environment in respect of Gypsy and Traveller policy. There have been recent official-level discussions on policy, law and data collection as part of the Office of the Deputy Prime Minister's Review of Gypsy and Traveller policy. These discussions will inform the recommendations of the Review.

Robust laws and guidance are in place in both the UK and the Republic to deal with incidents of unauthorised camping. In addition, statistical data on the nomadic Gypsy and Traveller community is collected and published twice yearly in England, and yearly in the Republic.

DEFENCE

Designated Accommodation

Bob Spink: To ask the Secretary of State for Defence how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187310]

Mr. Caplin: The Ministry of Defence is fully committed to providing a safe environment and workplace where all staff are valued and respected irrespective of different background and cultures.

The provision of dedicated rooms for the areas covered in the question is not a central responsibility, but a matter for each individual Head of Establishment. Records are not held centrally and to gather and collate such information would incur disproportionate costs.

HMS Daedalus

Mr. Hoban: To ask the Secretary of State for Defence if he will list the expressions of interest in HMS Daedalus that he has received. [188144]

Mr. Caplin: As a result of English Partnership's 40-day consultation with other Government Departments, two 'Expressions of Interest' have been received as Priority Assessment Reports from the Maritime Coastguard Agency (Department of Transport) and the South-East England Development Agency.

MOD Estate (Northern Ireland)

Mr. Dodds: To ask the Secretary of State for Defence what is the size of the Ministry of Defence estate in Northern Ireland. [187422]

Mr. Caplin: The Ministry of Defence estate in Northern Ireland currently consists of:

2751.643 Ha Freehold

274.522 Ha Leasehold

and 566.037 Ha Licensed land.

Separated Service Recording Systems

Mr. Keetch: To ask the Secretary of State for Defence how much separated service was recorded by the *(a)* RAF Separated Service Recording System in each year since 2002 and *(b)* Navy Separated Service Recording System in each year since 2001. [187126]

Mr. Caplin: The information is as follows:

(a) RAF Separated Service

The following table shows Separated Service recorded by the RAF Separated Service Recording System in each year since 2002.

	Number of personnel spending time on Separated Service	Number of instances of Separated Service	Number of days spent on Separated Service
2002	35,400	109,600	2,205,500
2003	35,300	110,400	2,236,700
2004 (up to 30 June)	27,300	60,900	925,100

Separated service includes deployment, training for deployment and routine tasks and routine training courses.

(b) Navy Separated Service

A system for recording separated service has been implemented, but data is still being gathered and problems have arisen in transferring data from ships and units to the central systems. The coverage of the data is therefore still insufficient to allow meaningful statistical analysis at this time.

SERCO-Denholm

Mr. Webb: To ask the Secretary of State for Defence pursuant to the answer of 16 July 2004, *Official Report*, columns 1356–57W, on SERCO-Denholm, whether it is his policy that the pension rights of these workers should be equivalent to the pension rights that they would have obtained had they remained in the Principal Civil Service Pension Scheme throughout their period of employment with the new employer; and if he will make a statement. [187832]

Mr. Caplin *[holding answer 8 September 2004]:* The transfer of Ministry of Defence employees to SERCO-Denholm, following the Marine Services Market Test, reflected the accepted practice at that time, namely that the pension scheme would be broadly comparable to the Principal Civil Service Pension Scheme at the point of transfer. Subsequently, the policy was changed under the Government's code of practice entitled 'Transfer of Government Staff: A Fair Deal for Pensions', which was issued in 1999 and expanded in June 2004. When Government employees are transferred under the 'Fair Deal' policy, a broadly comparable scheme and bulk transfer terms have to be considered in any second and subsequent generation transfers.

Strategic Missile Defence

Mr. Soames: To ask the Secretary of State for Defence what discussions he has had with his Danish counterpart on strategic missile defence; and if he will make a statement. [188089]

Mr. Hoon: I have had no recent discussions on missile defence with my Danish counterpart. Officials keep in touch with the Danish authorities on matters of common interest relating to missile defence.

Mr. Soames: To ask the Secretary of State for Defence what the Government's policy is on stationing strategic missile defence sites on the UK mainland; and if he will make a statement. [188090]

Mr. Hoon: The Government have not reached a decision on whether to acquire a strategic ballistic missile defence capability for the United Kingdom. The UK has agreed only to the use of RAF Fylingdales as part of the United States missile defence system.

Mr. Soames: To ask the Secretary of State for Defence what representations he has received from his US counterpart on the proposal for strategic missile defence stations to be situated in Central Europe. [188091]

Mr. Hoon: I have received no such representations on the issue of strategic missile defence stations in Central Europe. Officials keep in close touch with the US Administration as well as with NATO allies, on missile defence issues, including the offer by the US to extend missile defences to friends and allies.

Territorial Army (Iraq)

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what his appraisal is of the role of the Territorial Army in the Iraq war and subsequent peace-keeping operation. [186490]

Mr. Caplin: The Territorial Army (TA) has performed, and continues to perform, a vital and active role alongside their regular counterparts, contributing to a wide range of our operations in Iraq. Indeed, the TA currently provides approximately 20 per cent. of our ground forces in Iraq.

The TA is a highly valued and respected part of our armed forces, and the work of all those who have deployed has been greatly appreciated. The use of Reservists during this campaign has been entirely in line with the recommendations of the Strategic Defence Review. The roles undertaken by the TA have clearly demonstrated the strategic intent of having more capable, usable and relevant reserve forces, which support their regular counterparts on operations.

WALES

Council of Ministers

Sue Doughty: To ask the Secretary of State for Wales (1) if he will provide a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188216]

(2) if he will provide a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188217]

Mr. Hain: I refer the hon. Member to the answer given to her today by the Foreign Secretary.

Public Services (Comparative Provision)

Mr. Wiggin: To ask the Secretary of State for Wales what research his Department has commissioned regarding comparative levels of public services in England and of Welsh Assembly run public services in Wales, with particular reference to *(a)* health and *(b)* education. [186754]

Mr. Touhig: None.

A wide range of information and data on health and education in England and Wales is produced by both the Government and the National Assembly for Wales and is publicly available.

The Statistical Directorate of the National Assembly for Wales produces statistics related to health and education in Wales. This can be found by accessing the website: www.wales.gsi.gov.uk.

Information on health in England can be obtained from the Department of Health at: www.dh.gov.uk

Information on education in England can be obtained from the Department for Education and Skills at: www.dfes.gov.uk

The Office for National Statistics also produces a large amount of publicly available information, which can be accessed via their website: www.statistics.gov.uk

Truancy

Mr. Wiggin: To ask the Secretary of State for Wales when he next plans to meet Welsh Assembly secretaries to discuss strategies to deal with crime linked to school truancy in Wales. [186755]

Mr. Touhig: My right hon. Friend and I regularly meet Assembly Ministers to discuss matters affecting Wales.

A number of multi-agency arrangements are employed to tackle truancy in Wales. The police and Community Safety Partnerships are key stakeholders in these initiatives, and programmes are in place to deal with young people showing a significant risk of developing criminal and antisocial behaviour.

SOLICITOR-GENERAL

Serious Fraud Office

Mr. Kidney: To ask the Solicitor-General what recent assessment she has made of the conviction rate achieved by the Serious Fraud Office. [187726]

The Solicitor-General: In the year ending 4 April 2004, the conviction rate in SFO cases was 51 per cent. Over the past five years the average conviction rate was 75 per cent.

At the conclusion of each case the SFO holds a conference to consider what lessons can be learned.

PRIME MINISTER

Gifts

Sue Doughty: To ask the Prime Minister whether he received any gifts from Prime Minister Berlusconi while he was a guest of the Italian Prime Minister during summer 2004. [188111]

The Prime Minister: The Government are committed to publishing an annual list of gifts received by Ministers in an official capacity valued at more than £140. The list of gifts for 2004–05 will be published as soon as possible after the end of this Financial Year.

Honours

Mr. Drew: To ask the Prime Minister what procedures are in place for the removal of an honour from an individual convicted of a serious crime in this country or abroad. [188409]

The Prime Minister: Her Majesty the Queen may, on the advice of Ministers, cancel membership of any of the Orders of Knighthood or appointment as Knight Bachelor. Cancellation is considered in cases where the retention of the appointment or award would bring the honours system into disrepute. Proposals for forfeiture are considered on a case-by-case basis.

Press (Meetings)

Sue Doughty: To ask the Prime Minister what meetings he has had with the *(a)* proprietors and *(b)* editors of national newspapers in the last 12 months; who instigated each meeting; and what subjects were discussed in each meeting. [188179]

The Prime Minister: I have meetings with a wide range of organisations and individuals. As with previous Administrations, it is not the Government's practice to provide details of all such meetings under exemptions 2 and 7 of the Code of Practice on Access to Government Information.

ELECTORAL COMMISSION

All-postal Ballots

20. **Mr. Robathan:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission if he will make a statement on the recent report of the Electoral Commission on all-postal ballots. [187917]

Mr. Viggers: I refer the hon. Gentleman to the answer I gave earlier this afternoon to my hon. Friend the Member for Lichfield (Michael Fabricant).

Norman Baker: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what steps the Committee is taking to determine whether the Electoral Commission is assessing the integrity of the postal ballot in an efficient and effective manner. [187912]

Mr. Viggers: The Speaker's Committee has a statutory obligation to satisfy itself that the Electoral Commission's Estimates and Corporate Plans are consistent with the economical, efficient and effective discharge by the Commission of its functions before it lays these before the House. Within that framework, and subject to any statutory directions it may receive from the Government in respect of particular matters, it is for the Commission itself to decide how it discharges its functions.

On 27 August, in accordance with its statutory obligations under the European Parliamentary and Local Elections (Pilots) Act 2004, the Commission published four regional evaluation reports following the all-postal pilot schemes earlier this year. The reports include assessments as to the integrity of the pilot schemes; a separate report published on the same day also makes recommendations for future improvements in relation to postal voting more generally.

Mr. Betts: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission if he will make a statement on the recent report by the Electoral Commission on all-postal ballots. [187913]

Mr. Viggers: I refer the hon. Gentleman to the answer I gave earlier this afternoon to my hon. Friend the Member for Lichfield (Michael Fabricant).

EDUCATION AND SKILLS

Competitive Sport

Andy Burnham: To ask the Secretary of State for Education and Skills what steps he is taking to encourage schools to take part in competitive sports fixtures. [187907]

Mr. Stephen Twigg: The Government are firmly in favour of competitive school sport. The Physical Education (PE) National Curriculum requires that all pupils are taught competitive games throughout their compulsory schooling. Increasing the quality and amount of competitive school sport is also a key aim of the Government's national PE, School Sport and Club Links strategy.

Spearheading action is the creation of a network of 400 School Sport Partnerships—families of schools—that work together to enhance school sport opportunities. There are already 313 School Sport Partnerships covering 50 per cent. of schools in England. All schools will be within a partnership by 2006. All partnerships deliver a programme of out-of-school hours sports activities, including sports competitions.

The 2003–04 PE, School Sport and Club Links survey—results were published on 29 April and a copy of the report was placed in the House of Commons Library—found that: 96 per cent. of the 6,500 schools taking part held a sports day, in a typical week 22 per cent. of pupils are involved in intra school sports competitions and during the last academic year 33 per cent. of pupils had taken part in inter school sports competitions.

Deacon's Academy, Peterborough

Mrs. Helen Clark: To ask the Secretary of State for Education and Skills if he will make a statement on the admission criteria for the proposed Deacon's Academy in Peterborough. [187833]

Mr. Charles Clarke *[holding answer 8 September 2004]*: I am currently considering proposals to enter into a funding agreement to establish the Thomas Deacon Academy in Peterborough. Admissions arrangements form part of these proposals. I hope to reach a decision shortly.

Foreign Language Teaching

Mr. Brady: To ask the Secretary of State for Education and Skills how many maintained secondary schools did not offer study of a modern foreign language to *(a)* any and *(b)* all pupils at key stage 4 in the last period for which figures are available. [188038]

Mr. Stephen Twigg: The Department does not collate information on the numbers of maintained secondary schools offering modern foreign languages to *(a)* any or *(b)* all of their pupils at key stage 4. However, modern foreign languages remained part of the National Curriculum at key stage 4 until the end of the last academic year and as such the Department would have expected all schools to offer modern foreign languages to all pupils at key stage 4.

Mr. Brady: To ask the Secretary of State for Education and Skills (1) how many language assistants are employed in maintained primary schools; [188039]

(2) what estimate he has made of the percentage of *(a)* children in maintained schools learning a modern foreign language at Key Stage 2 and *(b)* maintained primary schools teaching a modern foreign language at Key Stage 2. [188040]

Mr. Stephen Twigg: These data are not collected centrally by the Department. We have commissioned baseline research into modern foreign language teaching and learning at Key Stage 2. This report, which was originally planned to be published earlier in the year, will now be published at the end of September. The report will give an indication of these figures, at the time of the survey in 2003.

Mr. Brady: To ask the Secretary of State for Education and Skills when his Department will issue an invitation to tender for the operation of the voluntary recognition system for language skills. [188041]

Mr. Stephen Twigg: Following a tendering exercise, the contract for the operation of the voluntary recognition system for languages was awarded to the University of Cambridge Local Examinations Syndicate (UCLES) in February 2004.

Mr. Brady: To ask the Secretary of State for Education and Skills when his Department will introduce the voluntary recognition system for language skills; and which languages will be covered. [188042]

Mr. Stephen Twigg: Following a limited pilot in 2004/05, the first suite of external qualifications for the voluntary recognition system for language skills—The Languages Ladder—will be nationally available in Chinese, French, German, Italian, Japanese, Punjabi, Spanish and Urdu in the academic year 2005/06. A wider range of languages will be on offer from 2006/07 and additional languages will be added to the scheme in subsequent years.

Mr. Brady: To ask the Secretary of State for Education and Skills what budget his Department has allocated for the voluntary recognition system for language skills for *(a)* 2004–05, *(b)* 2005–06 and *(c)* 2006–07. [188043]

Mr. Stephen Twigg: £2 million has been allocated for the development and operation of the voluntary recognition system for language skills for each of the years 2004–05 and 2005–06. Until a decision on the allocation of the latest spending review settlement is made, it is not possible to say how much funding has been allocated for 2006–07.

Mr. Brady: To ask the Secretary of State for Education and Skills if he will make a statement on the work of the National Director for Languages. [188044]

Mr. Stephen Twigg: Dr. Lid King, previously Director of CILT—The National Centre of Languages, was appointed National Director for Languages in September 2003. Dr. King plays a key role in the implementation of the Government's National Languages Strategy, giving strategic direction, stimulating and co-ordinating action across all sectors, and championing languages in general. He works closely with key stakeholders in primary, secondary, further and higher education, adult learning and business.

Mr. Brady: To ask the Secretary of State for Education and Skills what budget was available to the National Director for Languages in 2003–04; and what budget will be available to that office for financial years *(a)* 2004–05 and *(b)* 2005–06. [188045]

Mr. Stephen Twigg: The National Languages Strategy is supported by dedicated investment which will rise to £10 million per year by 2005–06. In 2003–04, £4 million was available and in the current financial year, 2004–05, £8 million is available.

Head Teachers

Mr. Wills: To ask the Secretary of State for Education and Skills what the average length of time a head teacher spent in post in the *(a)* primary and *(b)* secondary sectors was in the latest year for which figures are available. [187752]

Mr. Miliband: Information on teachers' length of service is obtained from the Database of Teachers Records which is maintained primarily for pensions administration purposes. This source provides the total amount of service of teachers since they were first appointed but not the length of time spent in a particular post or at a particular grade.

Table 22 of the School Workforce in England 2003 volume of statistics contains details of the total length of service of current head teachers by phase of education. This publication has been placed in the House of Commons Library or can also be accessed from the following URL: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000380/index.shtml.

Primary Class Sizes

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the average number of pupils in primary classes in the London Borough of Havering was in *(a)* 1997 and *(b)* 2004; and what the figures are for all other London boroughs. [187733]

Mr. Stephen Twigg: The information requested is shown in the table.

Maintained primary schools[1]: Average size of one teacher classes 1997 and 2004 (provisional v2)—position in January each year—by local education authority

Local education authority		*1997*	*2004*
201	City of London	26.0	[2]
202	Camden	27.1	27.0
203	Greenwich	26.0	25.7
204	Hackney	26.1	26.1
205	Hammersmith and Fulham	25.3	25.2
206	Islington	26.6	25.7
207	Kensington and Chelsea	25.3	26.1
208	Lambeth	25.2	25.8
209	Lewisham	26.1	25.9
210	Southwark	26.4	25.7
211	Tower Hamlets	26.2	26.1
212	Wandsworth	25.8	26.0
213	Westminster	24.2	26.0
301	Barking and Dagenham	27.0	25.8
302	Barnet	26.2	27.1
303	Bexley	28.8	27.5
304	Brent	26.5	27.3
305	Bromley	28.5	27.2
306	Croydon	28.3	27.1
307	Ealing	27.1	26.5
308	Enfield	29.1	27.9
309	Haringey	26.9	27.5
310	Harrow	27.5	26.3
311	Havering	27.9	27.1
312	Hillingdon	27.2	26.5
313	Hounslow	26.8	26.1
314	Kingston upon Thames	29.4	27.0
315	Merton	27.3	25.5
316	Newham	27.9	27.4
317	Redbridge	28.4	27.5
318	Richmond upon Thames	27.2	26.6
319	Sutton	28.1	27.6
320	Waltham Forest	26.6	26.2

[1] Includes middle schools as deemed.
[2] Provisional figures not available. Final figures available after 30 September.

School Building Projects

Mr. Wills: To ask the Secretary of State for Education and Skills what the *(a)* average, *(b)* shortest and *(c)* longest length of time taken between 1997 and 2004 to complete a building project to expand capacity in a school was from the start of specifying the project to the opening of the new capacity; [187751]

(2) what the *(a)* average, *(b)* shortest and *(c)* longest length of time taken between 1997 and 2004 to complete a building project for a new school was from the start of specifying the project to the opening of the new building. [187750]

Mr. Miliband: School building projects are procured locally, and we do not normally, therefore, collect information on specific projects.

With the advent of the Building Schools for the Future programme, however, the Department intends to collect and use such information to improve procurement timeframes across the sector and to embed best practice over the construction life cycle. This drive for efficiency gains will be reinforced through a performance management regime across the Building Schools for the Future programme.

School Music

John Robertson: To ask the Secretary of State for Education and Skills if he will make a statement on the Government's strategy for music in schools. [187894]

Mr. Miliband: Music is a statutory entitlement for all pupils up to the age of 14, and can be taken as an option at Key Stage 4. The music curriculum provides an opportunity for all children to sing and play musical instrument; as well as to listen to, compose and perform music from a range of different cultures and times.

The Department has also made a commitment, over time, to offer every primary school child the opportunity to learn a musical instrument. For the exceptionally talented, additional opportunities exist through the Music and Dance Scheme, junior conservatoires and the National Youth Music Organisations.

Our priorities for the future of music education are set out in the Music Manifesto, which was launched on 6 July 2004. They are to:

provide every young person with first access to a range of music experiences;

provide more opportunities for young people to deepen and broaden their musical interests and skills;

identify and nurture our most talented young musicians;

develop a world class workforce in music education; and

improve the support structures for young people's music making.

You can find out more about how the Department will deliver these key objectives by visiting our pledge on the Music Manifesto website at: www.musicmanifesto.co.uk

School Sports Facilities

James Purnell: To ask the Secretary of State for Education and Skills what plans he has to open up schools sports facilities to the wider community out-of-hours. [187904]

Mr. Stephen Twigg: We want all schools to be extended schools, making wider use of their facilities, including sports facilities. Our recently published Five Year Strategy for Children and Learners includes our vision for extended schools at both primary and secondary level which focuses on schools making wider use of their facilities and providing a core offer of services, including widespread community use of specialist facilities such as sports halls.

The Government have made funding available to support local co-ordination and management of extended services in schools, and to create up to 240 full service extended school models, with at least one in each LEA area, by 2006. These schools will provide a prescribed core range of extended services and facilities, including sports and arts facilities.

School Sports Partnerships

Angela Watkinson: To ask the Secretary of State for Education and Skills how many *(a)* schools and *(b)* school pupils are not participating in a school sports partnership. [187910]

Mr. Stephen Twigg: The information requested is not held in the format requested. From September 2004, there are 313 School Sport Partnerships incorporating 50 per cent. of schools in England, this will increase to at least 75 per cent. of schools by 2005. All schools and pupils will be within a School Sport Partnership by 2006.

FOREIGN AND COMMONWEALTH AFFAIRS

Beijing + 10

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs what his plans are for his Department's involvement in the Beijing Platform for Action; known as Beijing + 10. [187533]

Mr. Rammell: I refer my hon. Friend to the reply my right hon. Friend the Minister for Women gave on 7 September 2004, *Official Report*, column 937W.

Butler Report

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to paragraph 512 of the Butler Report, HC 898, on what date the Secret Intelligence Service became aware that the validity of the intelligence report on which the 45 minute claim was based had come into question; on what date Government ministers were informed of this; and how many links there were in the reporting chain for the 45 minute claim intelligence report. [187394]

Mr. Straw: Government Ministers were informed at the beginning of June about concerns that had arisen in mid-May regarding the validity of the intelligence reporting on which the 45-minute claim was based. Paragraph 399 of the Butler Report explains why it is not possible to set out in full the analysis of main SIS sources whose reporting underpinned JIC assessments, and this applies to details such as the number of links in the reporting chain for specific reports.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to paragraph 442 of the Butler Report, HC 898, for what reasons there was an urgent requirement for intelligence. [187395]

Mr. Straw: The urgent need for intelligence was a result of the international community's lack of reliable information as to Iraqi activities in the absence of UN inspectors between December 1998 and November 2002 caused by Iraq's continuing failure to meet its obligations under UN Security Council Resolutions. As the Butler Report itself states, obtaining intelligence on Iraq had been a long-standing high priority throughout the years of Saddam Hussein's regime.

Chinese Students (Visas)

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Chinese students were refused *(a)* short stay summer visas and *(b)* higher education visas in 2004–05. [187951]

Mr. Mullin: Applicants for short courses of study in the UK apply in the visitor category and it is not possible to separate them out from other visit visa applications without incurring disproportionate costs.

Students applying for courses in higher education are not recorded separately from other student applications and again to do so would incur disproportionate costs.

However, I am able to provide the following figures, which relate to all student entry clearance applications submitted in China so far this financial year (1 April to 8 September):

Applications	*Number*	*Percentage*
Received	21,776	—
Issued	14,624	67
Refused	6,790	31

These figures do not add up exactly as applications may be received at the end of the period under review but issued or refused in the next.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter to him dated 2 August from the right hon. Member for Manchester, Gorton with regard to Mr. Arshad Mahmood Rashad. [188003]

Mr. Mullin: My hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mr. Rammell) sent an interim reply on 6 September while details of the application were being verified. My right hon. Friend the Foreign Secretary sent a substantive reply on 9 September.

David Winnick: To ask the Secretary of State for Foreign and Commonwealth Affairs when the hon. Member for Walsall, North will receive a reply to his letter of 29 July on behalf of a constituent reference 316919/04. [188010]

Mr. Mullin: I replied to my hon. Friend's letter on 9 September.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will provide a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188186]

(2) if he will provide a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as it is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188188]

Mr. Straw: This is a useful suggestion and HMG will consider it further in line with its policy of keeping Parliament better informed on EU business.

Cyprus

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what involvement the British high commissioner for Cyprus is having with *(a)* the Greek Cypriot and *(b)* the Turkish Cypriot Mayors of Famagusta in efforts to redevelop the town. [187845]

Mr. MacShane: The British high commission, including the high commissioner, maintains contacts with a wide range of individuals and groups on both sides interested in the development of Famagusta.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* support from the British Government and *(b)* financial support from the European Union he will seek to give to the Greek Cypriot and the Turkish Cypriot Mayors of Famagusta to reopen the port of Famagusta. [187846]

Mr. MacShane: I refer my hon. Friend to the reply I gave to him on 1 September 2004, *Official Report*, column 680W.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had in his recent meeting with Mr. Mehmet Ali Talat on his willingness to co-operate with the Greek Cypriot Government on seeking to resolve the issue of missing people following the events of 1974 in Cyprus; and if he will make a statement. [187847]

Mr. MacShane: My right hon. Friend the Foreign Secretary did not directly address the question of missing persons on Cyprus in his meeting with Turkish Cypriot leader Talat on 1 July. But the Government have in the recent past made it clear to Mr. Talat that we applaud his commitment to resolve this longstanding issue.

As my hon. Friend knows, staff at the British High Commission in Nicosia work closely with the United Nations' Acting Third Member of the Committee on Missing Persons in order to identify areas where the UK can play a helpful role. We welcome the recent resumption of formal meetings of the Committee on Missing Persons and urge both sides to do all they can to resolve this painful humanitarian issue as soon as possible and in the best interest of the families.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Northern Cyprus Administration to ensure that the land on which property developments are taking place do not belong to Greek Cypriot people who left Northern Cyprus following the events of 1974; and if he will make a statement. [187848]

Mr. MacShane: Satisfactorily resolving the issue of property is central to achieving a comprehensive and sustainable settlement in Cyprus. The UN Secretary General's comprehensive proposals set out a way to resolve the property questions, based in part on Greek Cypriot ideas. It is a matter of deep regret that the UN Secretary-General's settlement plan was rejected by the Greek Cypriots on 24 April.

In our contacts with both sides, we have always urged that they avoid any action that might be prejudicial to a settlement. This applies to all aspects of the Cyprus problem, including property.

Because of the political situation in Cyprus, the Government advises that UK citizens take qualified legal advice before purchasing property anywhere on the island. We also point out that those considering a purchase in the north of Cyprus should be aware that the non-recognition of the 'TRNC' and a future settlement of the Cyprus problem could have implications for their property.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had in his recent meeting in London with Mr. Mehmet Ali Talat on the involvement of the Turkish army in the day-to-day affairs of Northern Cyprus; and what future role he wishes to see the Turkish army have in Cyprus. [187849]

Mr. MacShane: My right hon. Friend the Foreign Secretary and I discussed a wide range of issues with Mr. Talat, including Turkish troops in northern Cyprus.

An integral element of the UN Secretary General's comprehensive proposals, supported by the UK, was the demilitarisation of the island and progressive withdrawal of foreign troops (both Greek and Turkish)—ultimately leaving just 950 Greek and 650 Turkish troops, as sanctioned by the 1960 treaties. As the plan was not accepted by both sides, there is no agreement on early withdrawal of Turkish troops.

Any steps taken now, however, to reduce existing troop levels by either side would be welcome.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had in his recent meeting with Mr. Mehmet Ali Talat on the future of Famagusta and of the development of facilities within the town; and if he will make a statement. [187850]

Mr. MacShane: My right hon. Friend the Foreign Secretary did not discuss the development of Famagusta town with Mr. Talat during their meeting on 1 July.

I refer my hon. Friend to the reply I gave to him on 1 September 2004, *Official Report*, column 680W.

Guantanamo Bay

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs when complaints made by British citizens held in detention by the United States Government at Camp Delta in Guantanamo in Cuba, in respect of their treatment during questioning and generally while being detained, were made known to him; what investigations he made into the allegations; what consequent actions he took; whether he has examined the allegations made by three British former detainees from Tipton in their collective dossier released in August; and what representations he has made to his United States counterpart on this matter. [187501]

Mr. Mullin: British officials have visited British nationals detained at Guantanamo Bay on eight occasions. Following each visit, Ministers have been informed of the details of the visit, including any complaints made by the detainees. Follow-up action has then been taken with the US authorities at all levels, including at Foreign Minister level. We continue to pursue actively with the US authorities our outstanding welfare concerns. We are also examining the recent report issued by the three British former detainees from Tipton.

Iraq

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 February 2004, *Official Report*, column 1303W, on Iraq, what methodology was used to assess that there was no new information contained in the quantities of documents that remained to be translated; and whether all the documents that formed the declaration have now been translated. [187392]

Mr. MacShane: In the interests of speed, the process of analysing the Iraqi declaration concentrated on identifying key words and passages to which priority translation was given. It quickly became clear that Iraq had not provided information on the outstanding disarmament issues that had been identified by the UN Special Commission in their final report.

Translation of the declaration was complete by mid-March 2003.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether UNMOVIC and the IAEA decided that parts of the Iraqi declaration of its weapons of mass destruction needed to be excised before it distributed the report to all members of the UN Security Council; and whether all members of the Security Council have now received *(a)* an unedited and *(b)* an edited version of the declaration. [187393]

Mr. MacShane: Certain passages of the Iraqi declaration relating to Iraq's nuclear programme were excised by UNMOVIC and the IAEA before distribution to non-nuclear weapon states. All members of the Security Council at the time received copies of this edited version. The full version was made available only to the Permanent Members of the Security Council.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs when the UK Government became aware that Iraq had 500 tonnes of yellowcake stored at a facility near Tuwaitha, south of Baghdad. [187396]

Mr. MacShane: Under UN Security Council resolution 687, the International Atomic Energy Agency (IAEA) was mandated to investigate and dismantle Iraq's nuclear weapons programmes and to monitor all nuclear-related activity in Iraq. As part of this process, in the early part of the 1990s, the IAEA consolidated Iraq's stockpiles of nuclear materials and other radioactive sources on a single site near Tuwaitha for ease of on-going monitoring. The yellowcake in question was included in this exercise. It was also declared by Iraq as part of their Full, Final and Complete Declaration of nuclear activities and materials submitted to the UN in 1996. All of the materials consolidated at the site were subject to continuous IAEA inspection and verification.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 22 July, *Official Report*, column 544W, on Iraq, whether the Leader of the Opposition had access to the same primary intelligence as the Prime Minister relating to *(a)* the September 2002 dossier, *(b)* the February 2003 dossier and *(c)* the threat posed to the UK by Iraq from May 1997 to the commencement of military action against Iraq in March 2003. [187715]

Mr. Straw: The details of briefings given on Privy Council terms are confidential.

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the oral answer from the Minister for the armed forces of 7 September 2003, *Official Report*, column 612, on Iraq, what discussions he has had with the Government of Iraq about the banning of al-Jazeera. [188481]

Mr. Alexander: The decision to close the al-Jazeera office in Baghdad was made by the Iraqi Interim Government.

We have repeatedly made clear to the Iraqi Government the importance we attach to media freedom in Iraq and the need to strengthen the institutions established by the Coalition Provisional Authority to ensure this. We will continue to do so.

North Korea

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on North Korea's nuclear weapons programme. [186867]

Mr. MacShane: We continue to be concerned about North Korea's nuclear programme, and have been monitoring the six-party talks process aimed at resolving the current impasse.

My hon. Friend the Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Rammell) is visiting North Korea from 11 to 14 September. North Korea's nuclear programme will be one of the issues which he intends to raise during his visit.

Sudan

Mr. Key: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of the aid package for the Sudan announced in July has been spent; and if he will make a statement. [186358]

Hilary Benn: In July, the Chancellor announced that the UK would make available an allocation for Sudan of £150 million for the financial years 2005–06 to 2007–08. This is to be disbursed following the conclusion of a Comprehensive Peace Agreement.

The signature of six protocols in Naivasha in June represented significant progress towards a Comprehensive Peace Agreement, but negotiations are continuing in order to resolve the remaining outstanding issues, pressing the parties to push on with these negotiations. However, we have made it clear to the Sudanese Government that they will not enjoy a peace dividend from the international community unless there is also progress in Darfur.

The UK is the second largest donor in Darfur. The Department for International Development has allocated £62.5 million for humanitarian assistance between September 2003 and March 2005. Of this total, £36.9 million has been committed to date (to the UN, ICRC and NGOs).

DFID is also continuing to provide assistance in the rest of the country, this is to meet ongoing humanitarian needs and in support of our goal of helping Sudan to reach a just and lasting peace and to lay foundations for sustained poverty reduction.

Switzerland

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent action he has taken to ensure that Switzerland abides by its bilateral agreements with the EU on migration and employment of UK and other EU nationals; and if he will make a statement. [187492]

Mr. MacShane: A Joint Committee is responsible for the management and proper application of the bilateral agreement between the EU and Switzerland on the Free Movement of Persons, which sets out reciprocal arrangements for migration and employment. To date, the UK has not needed to pursue the issue of Switzerland's compliance.

Venezuela

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the Venezuelan Government, *(b)* the Venezuelan Opposition Parties and *(c)* the organisers of the petition for a recall referendum on President Chavez regarding this recall referendum; and if he will make a statement. [186389]

Mr. Rammell: None. However, our Embassy in Caracas has a regular dialogue with all sides in Venezuela. I refer my hon. Friend to my press statement, issued on 17 August on the outcome of the recall referendum on 15 August. I called on all sides in Venezuela to respect the result of the referendum, as endorsed by the international observers, and work towards national reconciliation. A copy of the statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases.

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last had discussions with President Chavez of Venezuela about the current unrest in Venezuela; and if he will make a statement. [186390]

Mr. Rammell: Neither my right hon. Friend the Foreign Secretary nor I have held any discussions with President Chavez. We have consistently urged all sides in Venezuela to follow the democratic path, work towards a constitutional resolution to the political unrest and strive for national reconciliation. I made this clear in my press statement, issued on 17 August, on the outcome of the recall referendum on 15 August. A copy of the statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases.

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British Government will play an independent role in monitoring the recall referendum which is due to take place in Venezuela in August; and if he will make a statement. [186415]

Mr. Rammell: We did not participate as observers of the recall referendum on 15 August, either independently or otherwise. We fully support the official observers of the referendum, the Organisation of American States and the Carter Centre. I commended them in my press statement on 17 August on the outcome of the referendum. I called on all sides in Venezuela to respect the result of the referendum, as endorsed by the international observers, and work towards national reconciliation. A copy of the statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases.

CULTURE, MEDIA AND SPORT

Television Licence Fees

10. **Sir Teddy Taylor:** To ask the Secretary of State for Culture, Media and Sport, how much was raised in television licence fees *(a)* 10 years ago and *(b)* in the most recent year for which figures are available. [187902]

Estelle Morris: £1.65 billion in television licence fee revenue was raised in 1993–94 and £2.8 billion in 2003–04.

The figure for 2003–04 includes payments of £408 million by the Department for Work and Pensions to the BBC for free television licences for over-75s.

Broadband Television

11. **Mr. Flook:** To ask the Secretary of State for Culture, Media and Sport, what assessment she has made of the likely penetration of broadband television via the internet over the next 10 years. [187903]

Tessa Jowell: The take-up of broadband in the UK is now rapid with a wide range of suppliers in the marketplace and there are now about 50,000 new broadband subscribers every week. BT is now in a position to ensure that over 99 per cent. of all households could acquire a broadband connection if they so wished.

However, broadband TV remains in its infancy, and it will be many years before it could be regarded as universally available. Because of broadband TV's current small scale and technological limitations Government has not as yet made a specific assessment of where the market for broadband TV will be in the next 10 years, but of course Ofcom and other experts are routinely monitoring changes in technology and in consumer behaviour.

Domestic Tourism

14. **Tony Cunningham:** To ask the Secretary of State for Culture, Media and Sport, if she will make a statement on initiatives to promote domestic tourism in summer 2004. [187908]

Mr. Caborn: Last year Visit Britain launched its domestic marketing strategy to promote tourism in England. Since then Visit Britain has run a number of campaigns including 'City Culture' and 'Waterside England'. Next week sees the launch of the 'Enjoy England' autumn campaign and 'Taste England' campaign. Further campaigns are being planned.

BBC Worldwide

15. **Mr. Sheerman:** To ask the Secretary of State for Culture, Media and Sport, what representations she has received concerning the future of BBC Worldwide; and if she will make a statement. [187909]

Estelle Morris: My hon. Friend has written about this matter. The future of the BBC's commercial services is a key issue for Charter review and we have received a range of representations in that context. The BBC is currently undertaking its own review of its commercial services, which is due for completion during the autumn. I understand that no decisions have so far been taken concerning BBC Worldwide or any other issue covered by the review.

Lottery Receipts

Mr. Illsley: To ask the Secretary of State for Culture, Media and Sport, what representations she has received regarding the fair distribution of lottery receipts. [187898]

Estelle Morris: The Government wants to see all areas of the country benefiting from the huge success of the national lottery.

We consulted widely on the lottery and our reforms will provide a more transparent and streamlined application process for applicants—so more communities can benefit from the lottery's success.

Sport England Database

Jim Knight: To ask the Secretary of State for Culture, Media and Sport, if she will make a statement on the launch of Sport England's Active Places online database. [187905]

Mr. Caborn: Active Places is a free to use, comprehensive on-line database of sports facilities in England. It provides details of more than 10,000 facilities, including swimming pools, synthetic pitches, health and fitness centres and ski slopes.

Active Places was officially launched on 11 July at the BAA Heathrow London Youth Games by my right hon. Friend the Secretary of State and Roger Draper, Chief Executive of Sport England.

The Active Places database can be found on www.activeplaces.com

Olympics 2012

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport what steps the Government is taking to promote the Olympic bid for 2012. [186953]

Tessa Jowell: The Government wholeheartedly supports the bid and has built a strong alliance with the British Olympic Association, the Mayor of London and the bidding company with the aim of delivering the best ever Games in London 2012.

This was most recently demonstrated in Athens during the Olympic Games where both the Prime Minister and I took part in the London 2012 Bid presentation to the International Olympic Committee.

The Government will continue to seek opportunities to support and promote the bid as we believe that hosting the Games in 2012 will bring excellent benefits to sport, our young people and to communities throughout the UK.

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport what plans she has to involve Cabinet ministers in the promotion of London's Olympic bid; and what plans she has to promote London's Olympic bid nationwide. [187133]

Tessa Jowell: The Government wholeheartedly supports the bid and believes that hosting the Games in 2012 will bring excellent benefits to sport, our young people and to communities throughout the UK.

London 2012 will be making a presentation to the full Cabinet. In addition the Misc 25 Cabinet Committee was set up to consider issues relating to the London 2012 bid.

I will continue to work with my ministerial colleagues to help to develop and promote a winning UK bid.

Art Galleries

Bob Russell: To ask the Secretary of State for Culture, Media and Sport which planned new art galleries have been guaranteed Arts Council funding; and for how many years the funding has been guaranteed. [187977]

Estelle Morris: Arts Council England has awarded over £14 million of lottery capital funds to new visual arts projects since 1 January 1998. Funds are allocated at the beginning of the project and are drawn down over a period of time until the project is completed.

. Details of new awards guaranteed by Arts Council England are set out in the table.

Organisation name	*Location*	*Arts Council England region*	*Approved amount (£)*
Future Factory and Angel Row	Nottingham	East Midlands	5,000,000
ACME Studios	London	London	2,000,000
Whitechapel Art Gallery	London	London	500,000
Waygood Gallery	Newcastle	North East	750,000
Storey Gallery	Lancaster	North West	693,600
Newlyn Art Gallery	Penzance	South West	1,200,000
Sherborne House	Sherborne	South West	288,860
Centre for Creative Arts	Wakefield	Yorkshire	4,000,000

Note:
Table supplied by Arts Council England.

BBC Charter

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport what recent discussions the Government has had with the BBC regarding plans to renew the Charter. [186859]

Tessa Jowell: Officials have conducted extensive discussions with the BBC and others since the launch of Charter review, and I have met the Chairman of the BBC Governors twice recently.

CSV Lending Time Project

Mr. Meacher: To ask the Secretary of State for Culture, Media and Sport (1) what assessment she has made of the CSV Lending Time project to develop volunteer involvement in the library services of six local authorities; [187834]

(2) what assessment she has made of how the lessons learned from the CSV Lending Time pilot projects can be transferred to and adopted by other local authorities; [187835]

(3) whether she has requested reports on the CSV Lending Time pilot schemes from the local authorities involved; [187836]

(4) what plans she has to ensure long-term support for the CSV Lending Time pilot projects. [187837]

Estelle Morris: The Lending Time project was evaluated by Shared Intelligence who published a final report in June 2004. This report outlines lessons learned from the project and provides a series of key recommendations to develop volunteer involvement with public libraries. All of the pilot projects had an opportunity to contribute to the evaluation so separate reports from each local authority were not requested. The Museums, Libraries and Archives Council (MLA) will use the lessons learned from this project in the development of a new work programme to establish how libraries can most effectively support civic renewal and engage with communities in shaping and delivering services that meet local needs. Community Service Volunteers who led the Lending Time project will appoint someone to a post, funded by MLA through Framework for the Future, the Government's strategy to improve public libraries, to take this work forward until March 2006.

The aim of the project was to explore the ways in which volunteering could be involved in libraries' work in a long-term and sustainable manner to enhance the service using existing financial resources. The pilots have now been completed and there is no further central funding for them. It is for the local authorities involved in the project to decide whether or not to continue funding.

European Culture/Languages

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport how much the Department is spending in 2004–05 on promoting knowledge of other European cultures and languages in the entertainment sector. [188301]

Estelle Morris: My Department does not monitor spending in the way this question suggests. However, one example we do know of where Lottery money has been used to promote knowledge of European cultures and languages is the UK Film Council. A total of £2,109,102 has been spent in 2004/05 in the following ways:

UK Film Council Funding 2004–5

Scheme	*Detail*	*Amount Invested 2004–5 £ million*
Print and Advertising Fund	Support distribution of Specialised films, including European and Foreign Language films	1,000,000
Co-Production	Lila dit sa (France) -produced last year but paid within period, and for release within period	400,000
Co-Production	Innocense (France) produced last year but paid within period, and for release within period	397,330
Co-Production	Only Human (Spain)	298,772
Co-Production Tournament	Pilot forum between UK and Scandinavia to promote good practise and understanding of national film culture and talent. A huge success, so more planned.	13,000
Total.		2,109,102

Freeview

Andrew Selous: To ask the Secretary of State for Culture, Media and Sport which areas of the South-West Bedfordshire constituency are unable to receive Freeview; and when she expects all areas in the constituency to be able to receive this service. [188246]

Estelle Morris: Ofcom do not hold data on Digital Terrestrial Television (DTT) coverage in individual constituencies. However, according to Ofcom, Freeview coverage in South-West Bedfordshire is patchy, with coverage from both the Oxford and Sandy Heath Transmitters.

At present around 73 per cent. of UK households can access DTT services, but the Government are committed to ensuring that at Switchover everyone who can currently get the main public service broadcasting channels in analogue form (BBC 1 and 2, ITV, Channel 4/S4C and Channel 5) can receive them on digital systems.

Much progress has been made in the discussions between the Government, Ofcom and the Public Service Broadcasters and while the broadcasters have not reached a full consensus on the optimum timetable, some—including the BBC—have suggested that 2012 may be the most appropriate date for the completion of Switchover.

Historic Buildings

Mr. Bill O'Brien: To ask the Secretary of State for Culture, Media and Sport when she last met the English Heritage Directors to discuss policy on historic buildings being included in the registered list; and if she will make a statement. [188046]

Mr. Caborn: My right hon. Friend the Secretary of State and other Ministers have regular meetings with the English Heritage Chairman and Chief Executive, most recently on 22 June 2004. Among other things they discussed the Review of Heritage Protection including the new Register of Historic Sites and Buildings in England.

Licensing Arrangements

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what access *(a)* local and *(b)* national temperance societies will have to discussions on licensing when the new licensing arrangements come into operation. [188315]

Mr. Caborn: Members of local and national temperance societies have the same rights as any other citizen. The Licensing Act 2003 provides that interested parties, including persons living or involved in a business in the vicinity of a premises or bodies representing them, may make representations about applications for provisional statements and about the grant or variation of premises licences or club premises certificates, except where a simple conversion of an existing licence or certificate is made under the grandfather rights provisions in Schedule 8 of the Act. Interested parties may also apply for the review of a licence or certificate at any time as well as make representations about a review once it has been applied for. Representations must be about the effects of the application on the promotion of the licensing objectives. Members of local and national temperance societies will be able to make representations if they are interested parties under the terms of the Act.

Regional Broadcasting

Norman Baker: To ask the Secretary of State for Culture, Media and Sport what guidance she gives to Ofcom relating to regional programming by broadcasting companies. [187901]

Estelle Morris: None. The Communications Act 2003 set out clear responsibilities for OFCOM to secure regional programming by broadcasting companies. Ofcom is currently reviewing public service television broadcasting and regional broadcasting forms an integral part of that review.

Supporters Direct

Dr. Starkey: To ask the Secretary of State for Culture, Media and Sport how much public funding has been received by Supporters Direct in each financial year since 2000–01. [188062]

Mr. Caborn: Supporters Direct has received the following funding:

£

Financial year	*England and Wales*	*Scotland*
2000–01	250,000	—
2001–02	250,000	—
2002–03	294,000	75,000
2003–04	325,000	75,000
2004–05	[1]325,000	[1]90,000

[1] TBC

Dr. Starkey: To ask the Secretary of State for Culture, Media and Sport what mechanisms are in place to ensure the allocation of public funds to supporter's trusts by Supporters Direct is transparent, equitable and objective. [188063]

Mr. Caborn: There are strong mechanisms in place to safeguard the allocation of funding to supporters trusts by Supporters Direct.

Supporters Direct are regulated by the Financial Services Authority and they evaluate the eligibility of all groups applying for funding according to clear criteria, laid down and enforced by the Supporters Direct Board. Details can be found on the Supporters Direct website at www.supporters-direct.org.

All grants to Supporters Direct are capped at a maximum reimbursement of 50 per cent. up to a value of £1,000. This is a one-off payment. All expenditure is documented by receipts. All grants are reported to the Board of Supporters Direct and grants are only made to existing supporters trusts.

Supporters Direct are currently audited by Limehouse and Co.

Dr. Starkey: To ask the Secretary of State for Culture, Media and Sport what procedures are in place to prevent Supporters Direct's allocation of public funds being influenced by the club interests of current members. [188064]

Mr. Caborn: Supporters Direct is an Industrial and Provident Society and has rules approved by and registered at the Financial Services Authority. Those rules were drafted by the official lawyers to the Co-operative Movement.

Its members are the existing supporters' trusts. Membership of Supporters Direct is subject to the provisions in its rules and the policy on membership agreed by the Board of Supporters Direct. The funding it receives from Sport England and Sport Scotland respectively is related to agreed business plans, and is managed according to policy laid down by the Board of Supporters Direct, which is elected by the members.

As a body in receipt of public funding, the Board have a clear conflict of interest policy, and a register of board members' interests is maintained. Members with an interest in a particular issue do not debate or vote on the issue, and staff with an interest do not undertake to work on it.

Television Licences (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how many old age pensioners in the Tamworth constituency have benefited from the introduction of free television licences. [188115]

Estelle Morris: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide breakdowns by parliamentary constituency of the number of free licences issued. However, 2001 Census data for Parliamentary constituencies identifies that there are approximately 3,650 people aged 75 or over living in the Tamworth constituency.

Television Reception

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what plans she has to seek solutions for those people in the Stroud constituency who can neither receive a digital signal nor access satellite because of signal problems. [188414]

Estelle Morris: Ofcom do not hold data on Digital Terrestrial Television (DTT) or digital satellite coverage in individual constituencies.

Total core analogue TV coverage for the four main public service channels (BBC1, BBC2, ITV1 and Channel 4) stands at 98.5 per cent. of UK households. In addition, according to Ofcom figures, digital satellite is available to between 96 per cent. and 98 per cent. of UK households.

The Government is committed to ensuring that at Switchover, everyone who can currently get the main public service broadcasting channels in analogue form (BBC 1 and 2, ITV, Channel 4/S4C and Channel 5) can receive them on digital systems.

Much progress has been made in the discussions between the Government, Ofcom and the Public Service Broadcasters. While the broadcasters have not reached a full consensus on the optimum timetable, some—including the BBC—have suggested that 2012 may be the most appropriate date for the completion of Switchover.

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what progress is being made on the roll-out of digital television to those areas which have yet to receive it. [188415]

Estelle Morris: The Government is committed to ensuring that, at switchover, everyone who can currently receive the public service channels can receive them in digital form, and that digital television is available throughout the country.

Digital satellite signals can already reach the vast majority of UK homes. Around 73 per cent. of the population can receive digital terrestrial television, but it is not possible to increase reception before switchover, as signals currently have to be transmitted at low power to prevent interference with analogue signals.

Much progress has been made in the discussions between the Government, Ofcom, and the public service broadcasters. While the broadcasters have not reached a full consensus on the optimum timetable, some—including the BBC—have suggested that 2012 may be the most appropriate date for the completion of switchover.

HEALTH

Government Information (Access)

Matthew Taylor: To ask the Secretary of State for Health what response he has made to the comments made by the Parliamentary Ombudsman regarding delays by his Department in responding to complaints under the code of practice on access to Government information made in her review of departmental performance against requirements of the Memorandum of Understanding published on 30 June; what action he is taking to end the delays; and if he will make a statement. [186675]

Ms Rosie Winterton: The Government takes any delays in responding to complaints under the Code of Practice on Access to Government Information seriously.

The Government regrets that delays do unavoidably occur in a small minority of complex cases. However, the Ombudsman's review of the first nine months of the Memorandum of Understanding (September 2003—May 2004) shows that in most cases the requirements of the Memorandum of Understanding were met.

In all cases, Departments endeavour to ensure that the time limit of three weeks for departments to respond to a "statement of complaint" from the Ombudsman is met. In accordance with the Memorandum of Understanding, the Department aims to enter into dialogue with the investigating officer should there be any difficulty in replying by the date set by the Ombudsman.

Ashworth Hospital

Mr. Austin Mitchell: To ask the Secretary of State for Health what the budget for Ashworth Hospital has been for each of the last five years. [186831]

Miss Melanie Johnson: The information requested is not available for the last five years. The budget for the Ashworth Special Hospital Authority is only available from 1999–2000 to 2001–02 and is shown in the table.

	Amount (£)
1999–2000	51,435,000
2000–01	61,169,000
2001–02	63,731,000

Note:

The Ashworth Special Hospital Authority was dissolved in 31 March 2002, with the majority of its services moving to the Mersey Care National Health Service Trust. The information requested is not collected centrally at individual hospital level.

Source:

Summarised accounts of Ashworth Special Hospital Authority 1999–2000 to 2001–02.

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Health how much funding has been allocated to *(a)* improving awareness and education and *(b)* research regarding autistic spectrum disorders in each of the last five years. [187774]

Dr. Ladyman: Through grants to the National Autistic Society, the Department has funded a range of projects to increase awareness and understanding of autism. The funding since 1999 is shown in the table. An additional £156,000 grant, over three years, was announced in May 2004.

	£
1999–2000	40,000
2000–01	40,000
2001–02	86,000
2002–03	97,000
2003–04	100,000
2004–05	56,000

The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, which receives its grant-in-aid from the Office of Science and Technology, part of the Department of Trade and Industry. The MRC spend on autism since 1998 is shown in the table.

	£ million
1998–99	1.04
1999–2000	1.11
2000–01	1.18
2001–02	1.26
2002–03	1.30

In addition the Department allocated a further £2.5 million to the MRC in 2001–02, earmarked specifically for autism research. The Scottish Executive has given the MRC a further £250,000.

Breast Cancer

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps his Department is taking to encourage women aged 25 to 35 years to undertake breast self-examination. [187301]

Miss Melanie Johnson: 80 per cent. of breast cancers occur in women aged over 50, with less than 2 per cent. occurring in women aged under 35. The Department supports breast awareness, rather than ritualistic monthly self-examination, for which there is little evidence. It is important for all women of any age to be breast aware, and report any changes to their doctor. The Department, together with Cancer Research UK, produces a leaflet entitled "Be Breast Aware", which is widely available from primary care surgeries and breast screening units. Around 1.5 million copies of this leaflet are produced each year.

Cancer (NICE Guidelines)

Dr. Gibson: To ask the Secretary of State for Health how the implementation of the revised National Institute for Clinical Excellence Referral Guidelines for Suspected Cancer will be enforced and monitored; and if he will make a statement. [185849]

Miss Melanie Johnson: "National Standards, Local Action: Health and Social Care Standards and Planning Framework 2005/06–2007/08" was published on 21 July 2004. This document sets out the new healthcare standards which every English national health service body must take into account and which the Healthcare Commission will take into account in developing their criteria for their reviews of English NHS bodies. Guidance from the National Institute for Clinical Excellence (NICE) is reflected in these standards in two ways.

Recommendations in "technology appraisal guidance" are included in a "core standard" for the NHS—all NHS bodies should "ensure that they conform to NICE technology appraisals and, where it is available, take into account nationally agreed guidance when planning and delivering treatment and care".

"Clinical guidelines" form part of the "developmental standards"—standards which the NHS is expected to achieve over time. The standard requires patients to receive effective treatment and care that "conform to nationally agreed best practice, particularly as defined in ... NICE guidance".

The referral guidelines for suspected cancer are currently subject to consultation and do not constitute NICE's formal guidance. The first consultation period ends on 11 August 2004, with the final guidelines expected to be published in March 2005.

Dr. Gibson: To ask the Secretary of State for Health what role he expects the revised National Institute for Clinical Excellence Referral Guidelines for Suspected Cancer to have in improving the treatment of pre-cancerous skin conditions in primary care. [185850]

Miss Melanie Johnson: The National Institute for Clinical Excellence (NICE) is currently consulting on the first draft of the revised referral guidelines for suspected cancer.

As the guideline recommendations presented are provisional and do not constitute NICE'S formal guidance, it would not be appropriate to comment in detail at this stage. The guidelines, once published, will assist primary healthcare professionals in determining those patients with suspected skin cancer who need to be referred urgently to see a specialist within two weeks, those patients who can be referred for a routine appointment and those who can be safely watched and, where appropriate, treated at a primary care level.

The revised guidelines are expected to be published in March 2005.

Cervical Cancer Screening

Mr. Streeter: To ask the Secretary of State for Health what contractual arrangements are in place between the NHS and suppliers of products involved in cervical cancer screening procedures, including notice periods for the termination of such contracts. [186568]

Ms Rosie Winterton: There is no national contract for the national health service relating to products used during the current process of preparing cervical samples. However, the NHS Purchasing and Supply Agency has just awarded a contract for liquid based cytology, which, over the remaining four years of a national roll out, will replace conventional cytology products.

Additionally, there is a national framework for gynaecological sundries, which include consumables, which are used in cervical screening such as speculum and a cervical smear. This contract runs until September 2005 and the process of renewal will be starting shortly.

Other surgical instruments are used during the taking of cervical samples. These products will remain in use following conversion and there is currently a national framework agreement in place for the purchase of reusable surgical instruments. This agreement started on 11 February 2002 and will continue until 10 February 2005, at which time a replacement agreement will commence.

Chiropody and Podiatry

Mr. Baron: To ask the Secretary of State for Health pursuant to his Answer of 6 July 2004, *Official Report*, column 617W, on podiatry, what the whole time equivalent is of the number of chiropodists and podiatrists employed by the NHS in each year since 1997. [188610]

Mr. Hutton: The information requested is shown in the table.

Qualified chiropodists and podiatrists employed in the national health service in England as at 30 September each year

	Whole-time equivalents
1997	2,730
1998	2,750
1999	2,770
2000	2,847
2001	2,894
2002	2,916
2003	3,027

Source:
Department of Health non-medical workforce census.

Between 1997 and 2003, the number of whole-time equivalents chiropodists and podiatrists employed in the NHS increased by 297, or 11 per cent.

Committee Examining Radiation Risks of Internal Emitters

Mr. Meacher: To ask the Secretary of State for Health (1) if he will break down the costs of the Committee Examining Radiation Risks of Internal Emitters by main budget heading; [184000]

(2) whether the Final Report of the Committee Examining Radiation Risks of Internal Emitters was unanimous; and if he will make a statement; [184001]

(3) on what dates the Committee Examining Radiation Risks of Internal Emitters has met; [184002]

(4) what steps he is taking to appoint a successor chairman of the Committee on Medical Aspects of Radiation in the Environment; [184008]

(5) what changes he plans to the terms of reference of the chairman of the *(a)* Committee on Medical Aspects of Radiation in the Environment and *(b)* Small Area Health Statistics Unit. [184009]

Miss Melanie Johnson: The Department has not yet received the final version of the Committee Examining Radiation Risks of Internal Emitters (CERRIE) report. We understand it is expected to be published in October this year. It would not be appropriate to comment at this time.

The CERRIE secretariat has informed me that the Committee held 16 meetings on the following dates—4 December 2001; 7 February 2002; 20 March 2002; 6 June 2002; 8 August 2002; 1 October 2002; 11 December 2002; 27 February 2003; 30 April 2003; 26 June 2003; 22 October 2003; 16 December 2003; 24 February 2004; 31 March 2004; 19 May 2004; and 24 June 2004. The Committee also convened a workshop on 21, 22 and 23 July 2003, which all members attended.

The position of chairman to the Committee on Medical Aspects of Radiation in the Environment (COMARE) was advertised. Any appointment will be made in strict adherence to the published guidance of the Commissioner for Public Appointments.

I have no plans to change the terms of reference of either COMARE or the small area health statistic unit.

The committee is expected to conclude its work in October 2004. The total cost of this work will be approximately £445,000. This includes the costs of the secretariat, meeting expenses, including a three day workshop and Committee members' travel and subsistence.

Mr. Meacher: To ask the Secretary of State for Health (1) whether the Committee Examining Radiation Risks of Internal Emitters has commissioned written transcriptions of the audio-recorded proceedings of its meetings; [184003]

(2) what access members of the Committee Examining Radiation Risks of Internal Emitters have had to written transcriptions of the audio-recorded proceedings of the Committee's meetings; [184012]

(3) for what reasons the Committee Examining Radiation Risks of Internal Emitters cancelled its planned study of cancer incidence in north Essex. [184013]

Miss Melanie Johnson: These are matters that should be addressed in writing to the Committee Examining Radiation Risks of Internal Emitters.

Correspondence

Mr. Paterson: To ask the Secretary of State for Health when he will reply to the letter dated 20 July, from the hon. Member for North Shropshire, regarding the ESBL outbreak at the Princess Royal Hospital, Telford and the Royal Shrewsbury hospital. [188262]

Dr. Ladyman: A reply was sent to the hon. Member on 9 September 2004.

Deaf Patients (Missed Appointments)

Tim Loughton: To ask the Secretary of State for Health what the estimated cost to the NHS of missed appointments of deaf or hard of hearing patients was in the latest year for which figures are available. [178427]

Dr. Ladyman: Information on the costs of missed appointments in audiology is not collected centrally.

Modernising hearing aid services has improved the quality of life of those people who have received digital hearing aids. It has modernised services to make sure that deaf people receive the most advanced hearing aids available, rather than rely on outdated technology from the 1970s.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Health how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187171]

Ms Rosie Winterton: The Department operates a no-smoking policy within its buildings. There are therefore no smoking rooms in the Department's headquarters buildings.

On the Departmental estate, there are six rooms specifically set aside for worship and are available for use by members of any religion. In other buildings, meeting rooms can be reserved for this purpose.

The Department has no rooms specifically set aside for nursing mothers or pregnant women.

Drug Prescriptions

Mr. Hancock: To ask the Secretary of State for Health how many instances there have been in the last three years of drugs being prescribed on the NHS for non-medical purposes. [187521]

Ms Rosie Winterton: No information is available on the reasons why a medical practitioner prescribes a particular drug.

Health Public Bodies

Mr. Burstow: To ask the Secretary of State for Health how the savings from the Departmental Review of Arm's Length bodies will be spent. [187876]

Ms Rosie Winterton: Decisions on the allocation of health and social care resources in future years will be taken as part of the normal budget allocation process in the light of the 2004 spending review settlement.

Home Deliveries

Mrs. Helen Clark: To ask the Secretary of State for Health whether the NHS will provide *(a)* a midwife and *(b)* medical attendance at a home birth. [186114]

Dr. Ladyman: We expect the national health service to provide a range of maternity services that includes the provision of home births. It is however for local decision makers to decide if a home birth service can be delivered safely and, if they do so decide, then the service might be withdrawn by a NHS trust on a temporary basis if a short term staff shortage means that such a service cannot be delivered safely or would jeopardise patient safety elsewhere in the trust.

If a NHS trust provides a home birth service, it should ensure that suitably skilled midwives are available to attend the woman and to provide care and support throughout the labour and birth. Appropriate transfer arrangements should also be in place in case the woman or baby needs specialist medical care.

MRSA

Mr. Streeter: To ask the Secretary of State for Health how many incidences of *(a)* hospital-acquired infection and *(b)* methicillin resistent staphylococcus aureus at Derriford hospital, Plymouth have been notified to his Department in each of the last five years. [188446]

Ms Rosie Winterton: Information on the number of hospital acquired infections for individual trusts is not collected centrally. The Department introduced mandatory reporting of methicillin resistent staphylococcus aureus (MRSA) bacteraemias (blood stream infections) for national health service acute trusts from 1 April 2001. The number of MRSA reports for the three years for which figures are available is shown in the table.

Plymouth hospitals NHS trust

	Number of MRSA bacteraemia reports
2001-02	99
2002-03	81
2003-04	98

Andrew Mackinlay: To ask the Secretary of State for Health (1) which hospitals stock antibiotics against strains of MRSA; and if he will make a statement; [184422]

(2) which antibiotics are effective against strains of MRSA; and if he will make a statement. [184423]

Miss Melanie Johnson: The use of the description methicillin resistant in methicillin resistant *Staphylococcus aureus* (MRSA) implies resistance to all penicillin and cephalosporin type antibiotics (beta lactam group of antibiotics). Resistance to other classes of antibiotics is extremely variable.

Most MRSA that occur in the United Kingdom are still sensitive to and may be treated with vancomycin, teicoplanin, linezolid, or quinupristin/dalfopristin. They may also be sensitive to rifampicin, fluoroquinolone antibiotics (such as ciprofloxacin), chloramphenicol and variably to other antibiotics including tetracyclines macrolides (such as erythromycin) and aminoglycosides (such as gentamicin). Trusts have stocks of these antibiotics. Decisions on the antibiotic(s) appropriate for the treatment of any one patient must, therefore, depend on microbiological laboratory testing of the individual strain of bacterium isolated.

MRSA resistant to all available antibiotics have not as yet been isolated in the United Kingdom.

Private Sector Capital Grants

Mr. Flook: To ask the Secretary of State for Health what the *(a)* budget and *(b)* spending outcome on private sector capital grants was in each of the last 10 years in (i) England, (ii) Somerset and (iii) Dorset. [188006]

Mr. Hutton: Information on capital grants solely to the private sector is not available centrally.

Vulnerable Adults

Sandra Gidley: To ask the Secretary of State for Health what problems have been identified with implementing the Protection of Vulnerable Adults list in healthcare settings. [187064]

Dr. Ladyman: Unless changes are made to the Care Standards Act 2000, a protection of vulnerable adults check would be required each time a junior doctor or healthcare trainee moved to a new training post. In view of the numbers involved, this would cause difficulties for the national health service and potentially jeopardise the supply of trained staff to the NHS workforce.

Sandra Gidley: To ask the Secretary of State for Health what plans he has to cross refer between the Protection of Children Act list and the Protection of Vulnerable Adults list. [187111]

Dr. Ladyman: Section 92 of the Care Standards Act 2000 allows the Secretary of State for Health to consider any referral to the Protection of Children Act list for possible inclusion on the protection of vulnerable adults list. This would be in circumstances where it appears that the nature of the misconduct against a child is such that the individual would also be unsuitable to work with vulnerable adults.

Waiting Lists

Mr. Rosindell: To ask the Secretary of State for Health how many patients were waiting for an operation in an NHS hospital in the London borough of Havering in *(a)* July 1997 and *(b)* July 2004; and what the figures are for all other London boroughs. [187729]

Mr. Hutton: The information requested is not collected by borough. However, the table shows the number of people waiting by strategic health authority (SHA) area.

In-patient waiting list in June 1997–98 and 2004–05

SHA code	Name	1997–98	2004–05
Q04	North West London	44,199	27,516
Q05	North Central London	43,523	30,483
Q06	North East London	41,538	26,913
Q07	South East London	41,632	27,088
Q08	South West London	31,892	20,523

Source:
Department of Health form KH07.

Helen Southworth: To ask the Secretary of State for Health what the changes have been to waiting lists at Warrington hospital in each of the last seven years for which information is available. [183658]

Miss Melanie Johnson: The information requested is shown in the tables.

Outpatient commissioner waiting list information for the primary care trusts (PCT) and health authority (HA) covering the Warrington area all specialties

Quarter ending March	Code	Name	General practitioner written referrals not yet seen, who have been waiting (weeks) 13 to < 26	26 plus
1998	QCV	North Cheshire HA	1,176	217

Department of Health QF01

NORTHERN IRELAND

Acute Hospitals

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the population level required to maintain an acute hospital in the Province as viable. [187804]

Angela Smith: "Developing Better Services" concluded that a minimum population of between 100,000 and 150,000 is needed to provide the volume of patients necessary to sustain a modern acute hospital and to support advances in treatment, medical technology and specialist skills.

The establishment of managed clinical networks is essential to the delivery of safe, effective and sustainable services at smaller acute hospitals. A number of

networks are already in place in Northern Ireland; there are plans for existing networks to be further developed and others introduced as part of the implementation of "Developing Better Services".

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether there are specific targets regarding early diagnosis of autistic spectrum disorders in the Province. [187773]

Angela Smith: The Department of Health, Social Services and Public Safety's Priorities for Action 2004–05 includes the following action:

"By 31 March 2005, Boards and Trusts should establish multidisciplinary diagnostic, assessment and early intervention teams to provide for improved life outcomes for around 200 children and young people with autism per year."

This target is in addition to the numbers of children already being referred for diagnosis where an autistic spectrum disorder is suspected.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much funding has been allocated to improving awareness and education about autistic spectrum disorders in the Province in each of the last five years. [187775]

Angela Smith: The funding allocated by the Department of Health, Social Services and Public Safety (DHSSPS), health and social services boards and trusts and the Department of Education (DE) for improving awareness and education about autistic spectrum disorders for healthcare staff, education staff and parents is outlined in the following table:

£

	DHSSPS	*HSS boards and trusts*	*DE*	*Total*
1999–2000	24,800	24,600	—	49,400
2000–01	25,400	30,800	—	56,200
2001–02	26,000	62,800	—	88,800
2002–03	50,000	141,700	49,000	240,700
2003–04	50,000	251,300	842,000	1,143,300

Care Homes

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on insurance costs for independent care homes. [187762]

Angela Smith: The cost of insurance for independent care homes is a business matter between home owners and their insurers.

Civic Forum

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the *(a)* set-up costs and *(b)* most recent annual running costs were of the civic forum. [187806]

Mr. Paul Murphy: Set-up costs for the civic forum were approximately £75,000. The running costs of the civic forum for the financial year 2002–03 were £328,000.

Clinical Negligence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much was awarded in *(a)* legal costs and *(b)* damages for clinical negligence cases in Northern Ireland in each of the last 10 years. [187810]

Angela Smith: The information in respect of the cost of clinical negligence cases in Northern Ireland in relation to each of the previous six years is as follows.

Amounts paid in settlements for clinical negligence claims from 1998–99 to 2003–04

	£000
1998–99	12,286
1999–2000	4,859
2000–01	9,409
2001–02	7,415
2002–03	13,550
2003–04	15,194

The information relating to the previous four years is not readily available in the form requested and could only be obtained at disproportionate cost.

Information on the split of the above figures between damages and legal costs is not readily available in the form requested and could be obtained only at disproportionate cost.

Cocaine

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what information he has collected on the extent of cocaine use in the Province; and if he will make a statement. [187809]

Angela Smith: In 2003, there were 25 registered cocaine addicts on the Drug Addicts Register while the Drug Misuse Database shows that in 2002–03, 68 persons presented for treatment citing cocaine as their main drug of misuse. In the All Ireland Drug Prevalence Survey 2002–03 1.6 per cent. of 15–64 year olds reported that they had ever used cocaine.

There is growing anecdotal evidence of an increase in the use of cocaine in the club and pub setting among young adults. In light of these reports the Government have set up a small group to consider more closely the level of cocaine use in Northern Ireland with a view to informing future policy and strategy development in terms of prevention and treatment.

Counterfeit Goods Seizures

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on counterfeit goods seized in the Province in the last year. [187450]

Mr. Pearson: The Police Service of Northern Ireland have had significant success in disrupting and frustrating criminals networks involved in intellectual property crime and in 2003–04 seized £7.6 million of counterfeit goods. Enforcement work is continuing, and under the umbrella of the Organised Crime Task Force the PSNI is working in partnership with industry and brand holders to identify illicit products, improve

understanding of the scope of trademark and copyright law, and raise public awareness of the risks associated with the purchase of counterfeit goods.

Crime (Elderly People)

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the mortality rate of elderly people who have been the victims of crime was in the last five years for which figures are available. [178382]

Mr. Pearson: The medical cause of death certificate contains no specific information as to whether the person had previously been the victim of a crime. Information can be provided only on cases where the cause of death is assault. The following table provides figures on the number of people of pensionable age (aged 60 or over for females, 65 or over for males) who died as a result of assault[1] over the period 1999 to 2003.

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X85-Y09 and Y87.1 (2001–03) and the Ninth Revision (ICD-9) codes E960-E969 (1999–2000).

Number of deaths resulting from assault of people of pensionable age registered in Northern Ireland, 1999–2003

	Deaths
1999	1
2000	2
2001	0
2002	0
2003 (data for 2003 are provisional)	2

Dementia

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the annual cost of providing nursing and personal care for dementia sufferers in Northern Ireland. [187797]

Angela Smith: The information requested is not available centrally.

Disability Benefits

Mr. McGrady: To ask the Secretary of State for Northern Ireland what rationale underlies the differing periods of time which must elapse from the commencement of an illness before a claim can be made for *(a)* attendance allowance and *(b)* disability living allowance; and if he will review the rationale. [187824]

Mr. Spellar: The qualifying periods for attendance allowance and disability living allowance help ensure that they are not paid to people with short term, transient disabilities. The differences in the qualifying periods for the two benefits reflect the differing characteristics of the people they are designed to help. Disability living allowance focuses help with the extra costs of disability on people who have the very considerable disadvantage of being severely disabled early, or relatively early, in life. Hence, it has a shorter qualifying period than attendance allowance which provides help with the disability-related extra costs of people who do not experience the onset of severe disability until later in life when they are aged 65 or over. There are no plans to change these arrangements.

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether he plans to review the legislation that places an age restriction on eligibility for disability living allowance. [187825]

Mr. Spellar: There are no plans to review the legislation in relation to the age bands for either the care or mobility components of disability living allowance.

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will lower the rate of the care component for attendance allowance in order to provide elderly claimants with assistance towards their care costs. [187826]

Mr. Spellar: Attendance allowance is paid at two rates. The higher rate is for people who need help with personal care and/or supervision or watching over to avoid substantial danger to themselves or others by day and at night. The lower rate is for people who have those needs either during the day or at night. As at May 2004, attendance allowance was providing help towards the disability-related extra costs of over 65,000 people aged 65 or over in Northern Ireland. We believe that the allowance is properly directed towards the needs of older disabled people and there are no plans to introduce a third rate.

Doctors' Working Hours

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of *(a)* junior house officers, *(b)* senior house officers and *(c)* specialist registrars are compliant with the European Working Time Directive at each health trust in the Province. [187802]

Angela Smith: The information detailed in the table below was obtained from each of the HPSS Trusts during May and June of this year as an assessment of how the junior doctors they employ would measure in terms of compliance against the European Working Time Directive (EWTD) requirements as to be introduced at 1 August 2004.

Percentage

Trust	*Junior House Officer Compliance*	*Senior House Officer Compliance*	*Specialist Registrar Compliance*
Altnagelvin Hospital Trust	100	63	26
Armagh and Dungannon Trust	n/a	100	n/a
Belfast City Hospital	67	57	82
Causeway Hospital Trust	100	100	33
Craigavon Area Hospital Trust	100	69	74
Craigavon and Banbridge Community Trust	n/a	100	n/a
Down Lisburn Trust	10	100	100
Foyle Trust	n/a	100	n/a
Greenpark Hospital Trust[1]	n/a	50	25
Homefirst Community Trust	n/a	100	100
Mater Hospital Trust	100	78	45
Newry and Mourne Trust	100	41	25
North and West Belfast Trust	n/a	100	100
Royal Group of Hospitals	60	36	45

Percentage

Trust	Junior House Officer Compliance	Senior House Officer Compliance	Specialist Registrar Compliance
South and East Belfast Trust	n/a	100	100
Sperrin Lakeland Trust	100	77	67
Ulster Community Hospital Trust	54	57	37
United Hospitals Trust	11	37	31

Note: n/a = not available

Based on this information, the overall HPSS compliance position was that, approximately 60 per cent. of the total junior doctor workforce was expected to meet the August 2004 EWTD requirements.

However the situation has moved on since this information was gathered, in that a further 75 new junior doctor positions have been created within the HPSS, and that the addition of these new posts are expected to bring the overall compliance figure up to nearer 70 per cent.

The Department is currently engaged in gathering more up to date information from all HSS organisations in relation to the junior doctors' EWTD compliance position, and will be analysing the information gathered with a view to making a more definitive assessment of the overall current HPSS compliance position.

We continue to work closely with all HSS organisations to ensure the objective of achieving full EWTD compliance for all junior doctors is achieved as soon as possible, while ensuring services to patients are not adversely affected.

Drug Overdose Mortality

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* intentional and *(b)* accidental deaths there were from drug overdoses in each health board area in each of the last five years. [187799]

Mr. Pearson: The following table gives the number of drug-related deaths registered by Health and Social Services Boards in Northern Ireland for each year between 1999 and 2003.

Number of drug-related deaths by registration year and Health and Social Services Board area in Northern Ireland

		Cause of death		
Health and Social Services Board	Registration year	Intentional self-poisoning by drugs[1]	Accidental poisoning by drugs[2]	Undetermined and other poisoning by drugs[3]
Eastern	1999	9	11	6
	2000	19	7	5
	2001	15	5	2
	2002	21	8	6
	[4]2003	6	11	2
Northern	1999	3	7	1
	2000	7	3	2
	2001	2	4	2
	2002	8	1	5
	[4]2003	6	8	3
Southern	1999	1	1	3
	2000	2	1	2
	2001	1	0	2
	2002	1	3	3
	[4]2003	3	1	3
Western	1999	4	1	3
	2000	1	1	3
	2001	2	0	0
	2002	2	7	3
	[4]2003	2	6	1

[1] Intentional self-poisoning by drugs: This comprises intentional death due to prescription drugs, illegal drugs and/or where a combination of alcohol and drugs was involved. It does not include intentional alcohol self-poisoning alone.

[2] Accidental poisoning by drugs: This comprises accidental death due to prescription drugs, illegal drugs and/or where a combination of alcohol and drugs was involved. It does not include accidental alcohol poisoning alone.

[3] Undetermined and other poisoning by drugs: This comprises death of undetermined intent due to prescription drugs, illegal drugs and/or deaths where a combination of alcohol and drugs were involved, but not intentional or accidental alcohol poisoning alone. This category also includes death due to mental and behavioural disorders related to drug (prescription and/or illegal drugs) use, excluding alcohol and tobacco.

[4] Data for 2003 are provisional.

Ear, Nose and Throat Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) if he will make a statement on long-term plans for otorhinolaryngology services at Tyrone County Hospital; [187800]

(2) if he will make a statement on otorhinolaryngology services in Fermanagh and Tyrone. [187801]

Angela Smith: The Otorhinolaryngology Service provided by Sperrin Lakeland Trust includes ENT services and is currently based at Tyrone County Hospital. Inpatient and day case services are delivered from the Tyrone County Hospital; outpatient services are delivered from both the Erne and Tyrone County Hospitals. The service also provides cover to Cavan and Monaghan Hospitals.

The Western Area Programme Board for the implementation of Developing Better Services has established a multidisciplinary Working Group to determine the future service outline for the provision of otorhinolaryngology services across the Western Board area including Tyrone County Hospital. The Group is expected to report in October 2004.

Endoscope Decontamination Review

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when the independent external review into endoscope decontamination will report. [187777]

Angela Smith: The independent review of endoscopes is due to report at the end of November 2004.

Farm Payments

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many payments due to farmers in Northern Ireland by 30 June have not yet been paid,

broken down by category of farm payment; and what the total value of such outstanding claims for payment is. [188244]

Mr. Pearson: In Northern Ireland the number and potential value, if paid in full, of farm subsidy claims due to have been paid by 30 June 2004 but which had not been paid by 8 September 2004, are broken down as follows:

	Applications unpaid	*Value (£ million)*
Beef Special Premium	4,071	1.6
Slaughter Premium	1,849	0.8
Suckler Cow Premium	539	1.4
Extensification Payment	2,074	4.2

Mr. Lidington: To ask the Secretary of State for Northern Ireland what his target date is for paying to farmers in Northern Ireland all payments due to them by 30 June. [188245]

Mr. Pearson: To date 94.9 per cent. of potential total expenditure has been paid. It is expected that the European Commission's regulatory requirement for 96.14 per cent. of total scheme expenditure to be paid by 30 June 2004 will be achieved by 30 September 2004.

Fertility Treatment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to prioritise on sub-fertility waiting lists females who are approaching the cut-off point for age-related treatment options. [187793]

Angela Smith: There are no plans at present to prioritise on sub-fertility waiting lists females who are approaching the cut off point for age-related treatment options. A consultation and equality impact assessment on the future provision of sub-fertility services in Northern Ireland have now been undertaken and I hope to be able to announce my proposals in this regard in the very near future.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many couples are awaiting *(a)* initial outpatient assessment and *(b)* treatment for sub-fertility in the Province. [187794]

Angela Smith: The information requested is not collected centrally and could only be obtained at disproportionate cost.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the latest figure is for the average waiting time from GP referral to consultant assessment for sub-fertility treatments in the Province. [187795]

Angela Smith: The information requested is not collected centrally and could only be obtained at disproportionate cost.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to bring the criteria for NHS-funded sub-fertility treatments in Northern Ireland into line with the rest of the United Kingdom. [187796]

Angela Smith: Publicly funded IVF treatment has been available in Northern Ireland since the establishment of the interim fertility service in December 2001. Access to the interim service is regulated by criteria recommended in the advisory report submitted in February 2001 by the Regional Medical Services Consortium.

To inform decisions on the longer term provision of fertility services in Northern Ireland, including the access criteria which may be applied, I issued the document, "From People to Parents" for public consultation in October 2003. The consultation process has now closed and I hope to be in a position to announce my proposals for the future development of fertility services in Northern Ireland in the very near future. In making my decision I will of course wish to take account of criteria for NHS funded fertility treatment used in GB.

Flooding

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on floods in the Province in August. [187791]

Mr. Spellar: During the latter part of August 2004, several areas in Northern Ireland were affected by severe localised rainfall conditions that proved to be beyond the capacity of local drainage systems. The Londonderry area was particularly affected. Localised flooding also occurred at a number of locations in Greater Belfast, North Down, East Down and East Antrim, which resulted in some road closures for short periods of time.

Staff from Rivers Agency, Water Service and Roads Service along with other responders worked to minimise damage to property and disruption to the community. During each of the flood events an inter-agency flood team was formed, comprising representatives from Rivers Agency, Water Service and Roads Service to co-ordinate the response. The team, along with other agencies—13 in total in the Londonderry incident—worked together to provide assistance and advice to those affected.

In the Londonderry incident, Water Service, Roads Service and Rivers Agency deployed some 75 staff, working late into the evening and next morning, to minimise damage to property and aid recovery. I would like to pay tribute to the efforts of those staff and the staff of other agencies. The Central Claims Unit had its loss adjusters on the ground on 18 August. Notwithstanding these efforts, a number of householders and businesses suffered significant flood-related damage. Derry city council organised a "help shop", to provide advice and information, on 20 August, and all the relevant statutory agencies participated in this event. My ministerial colleague, Ian Pearson, visited Londonderry on 18 August to survey the damage and to ensure that remedial measures were in train.

The circumstances of the flooding incidents are being fully investigated to identify any opportunities to reduce the risk of further events and improve the standard of the inter-agency response. As with all such incidents, it is essential that any lessons are learned and applied.

Water Service is implementing a programme of flood relief schemes at 50 locations at risk of flooding. £6 million has been invested on such schemes in the last four years and a further £5 million will be invested over the next three years. Moreover work on the £100 million Belfast sewer project is already underway and a further £59 million will be invested in upgrading the sewerage network across the region in the three year period to 2006. Major upgrades of the sewerage system planned will also help to reduce flooding risks. In addition, Rivers Agency has an ongoing works programme to protect property from flooding from watercourses and the sea, amounting to approximately £7 million per annum.

However, it must be recognised that, although modern drainage standards will provide better protection, it is impossible to guarantee that flooding will not occur, when unusually severe weather conditions are experienced.

General Practitioners

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assistance is available to locum general practitioners on *(a)* sick leave and *(b)* maternity leave. [187765]

Angela Smith: A locum general practitioner who is on sick leave or maternity leave is entitled to the same range of social security benefits as any self employed person who pays class 2 national insurance contributions. This includes incapacity benefit and maternity benefit.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the *(a)* number of missed general practitioner appointments and *(b)* resultant costs in the Province in the latest year for which figures are available. [187769]

Angela Smith: This information is not collected centrally and could be obtained only at disproportionate cost.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* contacts to and *(b)* domiciliary visits from each general practice out-of-hours service there were in the Province in each of the last five years. [187811]

Angela Smith: The information requested is not available and could be obtained only at disproportionate cost.

Hospital Hygiene

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to improve hygiene in local hospitals; and if he will make a statement. [187815]

Angela Smith: All health and social services trusts in Northern Ireland have a duty to ensure that high standards of hygiene in hospitals are being met and maintained. The Department of Health, Social Services and Public Safety is placing a renewed emphasis on clean hospitals with the planned establishment of standards for cleanliness against which performance will be measured and improvements delivered.

Hospital-acquired Infections

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate has been made of the cost of hospital-acquired infections in the Province in the last year for which figures are available. [187443]

Angela Smith: There are no figures or estimates available on the cost of hospital-acquired infections in Northern Ireland.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many vancomycin-resistant enterococcus cases there were in the Province in each of the last five years. [187445]

Angela Smith: The information requested is set out in the following table.

Reports of glycopeptide resistant enterococci (GRE), 2000-04, Northern Ireland

	Number of reports
2000	0
2001	1
2002	6
2003	3
2004 (up to 31 August)	1

Housing

David Burnside: To ask the Secretary of State for Northern Ireland whether discussions took place between representatives of the Housing Executive and local political parties over the future of the Protestant families who moved from the Torrens area of North Belfast in August. [188142]

Mr. Spellar: Yes. In the light of recent events the Housing Executive has continued to have discussions with the Democratic Unionist Party and the Progressive Unionist Party. The Housing Executive has also met with Sinn Fein (at its request) and briefed the Social Democratic and Labour Party. In recent years the residents of Torrens have been largely represented by the Democratic Unionist Party or Progressive Unionist Party. The Ulster Unionist Party has not initiated any discussions and has had no involvement with the Housing Executive in relation to Torrens for some time. The Housing Executive will continue to engage with local politicians over the future of the Torrens area.

Learning Disability Provision

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what improvements have been made in enhancing educational provision for those aged 16 years and over with moderate learning disability in the Province. [187776]

Mr. Gardiner: Pupils with moderate learning difficulties, whether placed in an ordinary school, a special unit or a special school, generally leave school at the statutory school leaving age. In a small number of cases and depending on their special educational needs, they may remain in school beyond statutory school leaving age. Parents have a general right of appeal to the SEN Tribunal if they disagree with the boards decision to cease to maintain a statement at any time.

Education and library boards (ELBs) are required, in conjunction with other relevant agencies, to draw up a transition plan for all pupils with statements of special educational needs (SENs) to set out appropriate post-school opportunities, including further education.

The Department of Education chairs an Inter-Departmental Working Group (IDG) that is looking at the transition of all young people with statements of special educational needs to adult life. The remit of this group does not extend to include consideration of post 16 educational provision in schools for MLD children, but rather to consider how to make strategic improvements in the transition process for young people with SENs on leaving school. The IDG is in the process of finalising an action plan, which will be produced in autumn 2004.

The educational and library boards' Regional Strategy Group for Special Education Needs has established a working party to look at the equality of provision post 16 for pupils in MLD schools across the five education and library boards. The group is considering a number of options and is working with the Department of Employment and Learning, who have responsibility for colleges of further education.

In addition the Department for Employment and Learning has put in place a range of initiatives and funding streams designed to promote access to post 16 provision by students with disabilities including those with moderate learning disabilities

Maternity Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which health trusts have expressed an interest in developing midwife-led maternity facilities. [187768]

Angela Smith: There is already a midwife-led unit adjacent to the consultant obstetric unit at Craigavon hospital. Similar midwife-led units are planned for a number of other hospital sites including the Altnagelvin, Ulster and Royal sites and the new hospital for the south-west.

In addition, on 29 July I announced my decision to allow the development of Community Midwifery Units (stand-alone midwife-led units) in Northern Ireland. My announcement has opened the way for Health and Social Services Boards and Trusts to consider the potential for establishing Community Midwifery Units as part of the wider implementation of Developing Better Services and the associated reconfiguration of hospital and other health services.

Mental Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much has been spent on mental health *(a)* assertive outreach and *(b)* crisis response services in each of the last five years in the Province. [187771]

Angela Smith: No funds were specifically allocated by health and social services boards for assertive outreach or crisis response services prior to 2001–02. Recent funding by health and social services board area is as follows:

Southern Health and Social Services Board

In 2002–03, the southern board allocated £220,000 to assertive outreach and £220,000 to crisis response services. This increased to £225,000 in 2003–04.

Northern Health and Social Services Board

In 2002–03, the northern board allocated £142,000 for assertive outreach services. In 2003–04, it allocated £759,000 for assertive outreach and £1,052,000 for crisis response. A further £612,000 was allocated non-specifically to develop both services.

Eastern Health and Social Services Board

No funds were specifically allocated for assertive outreach or crisis response services prior to 2003–04. In 2003–04, it allocated £112,000 to assertive outreach and £1,390,000 to crisis response services.

Western Health and Social Services Board

No funds were allocated prior to 2003–04. In 2003–04, the western board allocated £196,000 to crisis response services.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to develop *(a)* assertive outreach and *(b)* crisis response mental health services in the Province. [187772]

Angela Smith: Health and social services boards are currently developing both assertive outreach and crisis response mental services throughout Northern Ireland. An additional £3 million has been made available by the Department of Health, Social Services and Public Safety in 2004–05 to further develop these and other community services.

NHS Staff

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many full-time *(a)* nurses and *(b)* administrators are employed by the NHS in Northern Ireland. [187805]

Angela Smith: The information requested is as follows.

Number of full-time nurses employed within all NI HPSS[1] organisations as at 30 June 2004

Nursing staff group	*Headcount*
Qualified Nurses	8,544
Unqualified Nurses	2,513
Total	11,057

[1] Health and Personal Social Services.

Note:

Bank staff who cover for staffing shortfalls and fluctuating workloads in order to maintain service delivery have been removed from these figures. Student nurses have also been removed.

Number of full-time administration and clerical staff employed within all NI HPSS[1] organisations as at 30 June 2004

Administration and Clerical staff group	*Headcount*
Clerical and Admin	6,806
Manager	728
Senior Manager	1,011
Senior Executives	166
Board Member	151
Total	8,862

[1] Health and Personal Social Services.

Note:
Bank staff who cover for staffing shortfalls and fluctuating workloads in order to maintain service delivery have been removed from these figures.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many nursing vacancies there are at each health trust in the Province. [187779]

Angela Smith: The number of vacancies as at 30 June 2004 are as follows.

Number of nursing midwifery and health visiting vacancies within all trusts as at 30 June 2004

Trust	*Headcount vacancies*	*WTE[1] vacancies*
Altnagelvin Group HSS Trust	69	68.7
Armagh and Dungannon HSS Trust	10	8.3
Belfast City Hospital HSS Trust	78	76.1
Causeway HSS Trust	8	7.1
Craigavon and Banbridge Community HSS Trust	13	11.0
Craigavon Area Hospital Group HSS Trust	9	7.7
Down Lisbum HSS Trust	22	21.3
Foyle Community HSS Trust	8	8.0
Greenpark Healthcare HSS Trust	45	44.3
Homefirst Community HSS Trust	24	n/a
Mater Infirmorum Hospital HSS Trust	111	108.4
Newry and Moume HSS Trust	13	13.0
North and West Belfast HSS Trust	21	13.4
Royal Group of Hospitals HSS Trust	219	191.8
South and East Belfast HSS Trust	86	85.3
Sperrin Lakeland HSS Trust	28	28.0
Ulster Community and Hospitals Group HSS Trust	48	42.2
United Hospitals Group HSS Trust	38	38.0
Total	850	[2]772.7

[1] Whole time equivalent.
[2] Total WTE figure does not include Homefirst.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many overseas nurses are working at each health trust in the Province. [187780]

Angela Smith: As at 31 August 2004, the total number of overseas nurses employed within health and social services trusts in Northern Ireland was 815. Figures are detailed by trust as follows.

HSS[1] trust	*Number*
Altnagelvin Group HSS Trust	37
Armagh and Dungannon HSS Trust	0
Belfast City Hospital HSS Trust	53
Causeway HSS Trust	13
Craigavon and Banbridge Comm. HSS Trust	2
Craigavon Area Hospital HSS Trust	50
Down Lisburn HSS Trust	56
Foyle Community HSS Trust	1
Greenpark Healthcare HSS Trust	58
Homefirst Community HSS Trust	36
Mater Infirmorum Hospital HSS Trust	51
Newry and Moume HSS Trust	3
North and West Belfast HSS Trust	0
Royal Group of Hospitals HSS Trust	226
South and East Belfast HSS Trust	0
Sperrin Lakeland HSS Trust	41
Ulster Community and Hospitals Group HSS Trust	114
United Hospitals Group HSS Trust	74
Total	815

[1] Health and social services.

PFI/PPP Contracts

Matthew Taylor: To ask the Secretary of State for Northern Ireland how many contracts have been let by his Department in each financial year since 2001-02 to *(a)* PriceWaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* KPMG and *(d)* Ernst and Young for advising his Department on private finance initiative and public private partnership contracts; and what fees were paid in each case. [182269]

Mr. Pearson: The following table sets out the number of contacts awarded by the eleven Northern Ireland Departments and the Northern Ireland Office in each year from 2001 to date:

	Year contract awarded		
	2001-02	*2002-03*	*2003-04*
PriceWaterhouseCoopers	4	11	6
Deloitte and Touche	—	1	2
KPMG	1	1	1
Ernst and Young	—	—	1

The following table sets out the total fees paid in respect of these contracts:

£

	Year contract awarded		
	2001-02	*2002-03*	*2003-04*
PriceWaterhouseCoopers	1,984,445	608,852	1,282,934
Deloitte and Touche	—	34,738	22,060
KPMG	88,800	22,555	332,513
Ernst and Young	—	—	99,845

Both tables cover contracts where the company identified was either the sole contractor or the lead partner in a consortium. Where the company was the lead partner in a consortium the figures quoted for fees paid include payments it would have been contractually obliged to make to the other partners in the consortium. In these circumstances the contracting authority is not in a position to identify payments to consortium members.

It should also be noted that a number of public services to which these contracts relate are the responsibility of local authorities or private companies in England and Wales, but are fully funded through central Government in Northern Ireland.

Prosthetic Limbs

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals in the Province have prosthetic limbs; and what the causes of the disability are in each case. [187781]

Angela Smith: As at March 2004, the number of people who have prosthetic limbs in Northern Ireland is 1,716. The causes of the disability in each case are as follows.

Cause	*Number*
Trauma	589
Arterial	563
Congenital	223
Civil disturbance	128
Malignancy	99
Other	68
Neurological condition	26
Re-amputation—through non-healing	11
Venous	9
Northern Ireland total	1,716

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many people are employed in the Province specifically to treat those with prosthetic limbs, broken down by profession. [187782]

Angela Smith: Information requested is provided in the following table.

Number of people employed in the Province to treat specifically those with prosthetic limbs, broken down by profession

Profession	*Headcount*	*WTE*
Physiotherapists	4	2.01
Prosthetists	5	5.00
Consultant in rehabilitation medicine	1	1.00
Occupational therapists	1	1.00
Nurses	27	20.83
Total	38	29.84

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what progress has been made on improving the cosmetic appearance, with particular reference to colour synergy, of prosthetic limbs provided in Northern Ireland. [187783]

Angela Smith: There is a range of silicone coverings (cosmeses) that may be provided to prosthetic users. These vary in cost from around £200 for a single colour covering to £5,000 for a high definition silicone covering. The latter are not provided routinely as part of prosthetic provision. Where the consultant and prosthetist consider there is a clinical need for a person to be supplied with a high definition cover, a case is made to the relevant Health and Social Services Board for funding.

The Department of Health, Social Services and Public Safety, Green Park Healthcare Trust and Health and Social Services Boards are in discussion on the implications of widening provision of high definition coverings.

Racism

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many racially-motivated attacks were reported in Northern Ireland in each year since 1997. [187411]

Mr. Pearson: The Police Service of Northern Ireland record incidents which are perceived, by the victim or any other person, to be racial. They have supplied the following figures:

	1998–99	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Verbal abuse threat	132	67	77	50	66	109
Written material	1	4	1	4	3	10
Graffiti	5	7	6	2	4	7
Physical assault	15	54	58	37	50	103
Attack on home	13	53	49	38	59	148
Attack on property	20	37	45	33	39	57
Other	7	15	24	21	15	19
Total	93	237	260	185	226	453

The number of incidents reported for 2003–04 increased 100 per cent. from the same period the previous year. This increase is believed to reflect the considerable effort made by the Police Service to build confidence within Minority Ethnic Communities and encourage the reporting of such incidents.

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people were convicted of racially motivated offences in Northern Ireland in each year since 1997. [187415]

Mr. Pearson: Accurate information in respect of conviction rates is not currently available. The Police Service of Northern Ireland have recently introduced new recording and monitoring systems in respect of racially motivated crimes which will assist police in identifying crimes of this type. A detailed analysis of incidents reported during 2003–04 is presently being undertaken and this information will be available in due course.

Rail Services

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland pursuant to his answers of 7 September 2004, references 185114 and 185115, on rail services, whether the totals for *(a)* infrastructure maintenance: cross-border line and *(b)* upgrading the cross-border line include money spent on maintaining and improving the Enterprise rail service between Belfast and Dublin. [188273]

Mr. Spellar: Translink has confirmed that the costs detailed in my answer of 7 September 2004, *Official Report*, column 1136W, number 185114 for *(a)* infrastructure maintenance of the cross-border line and *(b)* upgrading the cross-border line do not include the costs of maintenance and improving the Enterprise rail service between Belfast and Dublin. These costs are detailed separately in my answer of 7 September 2004, *Official Report*, column 1136W, number 185115.

Railways

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how much public money from Northern Ireland departments has been spent on *(a)* maintaining and *(b)* improving the rail service between Belfast and Londonderry in each of the past five years. [188274]

Mr. Spellar: Public money spent on *(a)* maintaining and *(b)* improving the rail service between Belfast and Londonderry in the past five years is as follows:

	£
Infrastructure maintenance	
1999–2000	912,000
2000–01	939,000
2001–02	[1]1.088
2002–03	[1]1.199
2003–04	[1]2.179
Improvements	
1999–2000	100,000
2000–01	350,000
2001–02	200,000
2002–03	100,000
2003–04	28,000

[1] Million

Regional Disablement Service

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the merits of providing funding directly to the Regional Disablement Service rather than through health boards. [187786]

Angela Smith: Funding for the Regional Disablement Service is provided by the four Health and Social Services Boards from the Physical and Sensory Disability Programme of Care budget via Service Level Agreements with Green Park Trust for the provision of services. The agreements are subject to regular monitoring and performance management to ensure that the best possible care is provided. As each Board has a statutory responsibility for the commissioning of services for its resident population, and the current arrangements provide a robust accountability regime, there are no plans to change them.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether it is planned that the Regional Disablement Service should provide satellite clinics in the Province. [187787]

Angela Smith: The contract for provision of prosthetic and technician services is currently being tendered. The new contract provides for the establishment of satellite clinics during its term, which commences 1 April 2005 and runs for a period of seven years. A detailed specification for a satellite service and its funding would have to be developed in collaboration with Health and Social Services Boards ahead of its actual establishment.

Respite Beds

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many respite beds there are in each *(a)* council and *(b)* health board area; and how many of these beds are (i) solely for the use of patients with particular conditions and (ii) restricted to use by individuals within a certain age range. [187763]

Angela Smith: Information on the number of beds which may be used to provide respite care is not collected centrally. Health and social services boards do not have a specified number of residential or nursing home beds dedicated solely to respite care, as beds may be used to accommodate either permanent residents or persons requiring respite according to demand.

Ulster Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the *(a)* number and *(b)* workload of plumbers at the Ulster Hospital (i) in 1994 and (ii) on the most recent date for which figures are available. [187814]

Angela Smith: In 1994 the Ulster Hospital employed four whole-time equivalent plumbing staff to provide a service to the Ulster Hospital and community facilities in the East Belfast and Castlereagh areas.

The Ulster Hospital and Community HSS Trust currently employs four whole-time equivalent plumbing staff to provide a service to the Ulster Hospital and health and social care facilities in Newtownards and Bangor.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the state of *(a)* plumbing and *(b)* sewers at the Ulster Hospital. [187817]

Angela Smith: The condition of plumbing services and sewage systems in the Ulster Hospital is considered to be in a condition consistent with the age of the buildings.

The redevelopment programme that has commenced at the Ulster Hospital includes the replacement of the existing sewage system and renewal of internal plumbing services.

Universities

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* Protestant, *(b)* Roman Catholic and *(c)* other students domiciled in Northern Ireland commenced university courses in (i) Northern Ireland and (ii) Great Britain in each of the last 10 years. [187812]

Mr. Gardiner: Information on students enrolled at higher education institutions is collected and provided to the Department for Employment and Learning by the Higher Education Statistics Agency. Religion is only recorded for NI domiciled students enrolled at NI higher education institutions. The religion of students enrolled at higher education institutions in GB is not collected.

Religion was first collected in the 1995/96 academic year and the latest information available relates to the 2002/03 academic year. The breakdown of religion for the NI institutions is shown in the table.

NI domiciled first-year students enrolled on courses at Northern Ireland higher education institutions by religion 1994/95 to 2002/03

Academic year	*Protestant*	*Roman Catholic*	*Other*	*Not known/ unavailable*	*Total*
1995/96	995	1,155	73	11,537	13,760
1996/97	925	1,124	54	9,984	12,087
1997/98	3,389	4,528	315	6,497	14,729
1998/99	3,563	4,774	399	6,650	15,386
1999/2000	3,724	5,241	412	5,708	15,085
2000/01	4,627	6,634	509	5,608	17,378
2001/02	4,564	6,148	470	7,116	18,298
2002/03	5,720	7,564	663	4,806	18,753

Figures for 1995/96 to 1999/2000 relate to a snapshot of enrolments at 1 December in the relevant academic year and figures for 2000/01 to 2002/03 relate to a full-year count.

Written Answers to Questions

Tuesday 14 September 2004

HEALTH

Health Service Finance

13. **Mr. Gray:** To ask the Secretary of State for Health what the debt of *(a)* the Royal United hospital, Bath and *(b)* Kennet and North Wiltshire primary care trust is. [188513]

Ms Rosie Winterton: At the end of the financial year 2003-04, the total owed by Royal United hospitals, Bath as a result of previous years overspends was £24.7 million.

The comparable figure for Kennet and North Wiltshire Primary Care Trust was £3.9 million.

Doctors (North Yorkshire)

14. **Miss McIntosh:** To ask the Secretary of State for Health what assessment he has made of out-of-hours provision by doctors in North Yorkshire since 1 April. [188514]

Mr. Hutton: It is the legal responsibility of primary care trusts to ensure that patients have access to high quality out-of-hours services which are delivered to nationally set quality requirements. The four PCTs North Yorkshire will be entering into an agreement with North Yorkshire Emergency Doctors, an established provider of general practitioner home visiting services for out-of-hours services, later this year.

Obesity

15. **Mr. Amess:** To ask the Secretary of State for Health what recent representations he has received on the Government's efforts to tackle obesity. [188515]

Miss Melanie Johnson: Representations have been received as part of the Choosing Health, Choosing a Better Diet and Choosing Activity consultations. These responses and the Health Select Committee report on obesity will inform the development of the White Paper on improving health, due to be published later this year.

Primary Care (Out-of-hours Services)

17. **Mr. Swayne:** To ask the Secretary of State for Health what assessment he has made of arrangements put in place by primary care trusts for out-of-hours services. [188517]

Mr. Hutton: Primary Care Trusts are responsible for commissioning out-of-hours services which are delivered to nationally set quality requirements. Strategic Health Authorities are responsible for performance managing Primary Care Trusts in the delivery of these services.

Diagnostic Equipment

19. **Sir Nicholas Winterton:** To ask the Secretary of State for Health what action he is taking to reduce waiting and delivery times for diagnostic equipment. [188519]

Mr. Hutton: The national health service is committed to reducing the length of time that people wait before their treatment starts. By 2008 patients will wait no longer than 18 weeks from general practitioner referral to the start of treatment and this includes access to diagnostics.

Alcohol Strategy

20. **Sue Doughty:** To ask the Secretary of State for Health if he will make a statement on the implementation of his Department's alcohol strategy. [188520]

Miss Melanie Johnson: The Government's Alcohol Harm Reduction Strategy was published on 15 March 2004, meeting the Government's commitment to publish and implement the strategy from 2004. The Sensible-drinking message will be revised by spring next year and an audit of demand for provision of alcohol treatment will be completed by 31 January 2005

Children's Hospices

21. **Mr. Reed:** To ask the Secretary of State for Health if he will make a statement on the guidance he issues to Primary Care Trusts on the funding of children's hospices. [188521]

Dr. Ladyman: Standards for the provision of services for children with life limiting or life threatening illnesses who need palliative care will be issued shortly under the National Service Framework for children and maternity services. Decisions on funding are the responsibility of Primary Care Trusts in line with their assessment of local priorities.

Accident and Emergency Services

22. **Andrew George:** To ask the Secretary of State for Health what recent assessment he has made of the demand on accident and emergency services. [188522]

Ms Rosie Winterton: A&E attendance numbers are collected and published quarterly. The latest figures were made available on 27 August. There were a total of 4,502,578 new and follow up attendances at major A&Es, minor injury units and walk-in centres between April and June 2004.

Mr. Liddell-Grainger: To ask the Secretary of State for Health what assessment he has made of the impact of the changes introduced by the new general medical services contract on accident and emergency admissions in the out-of-hours period. [186512]

Mr. Hutton: No information has been put forward to date to the Department suggesting the established pattern of when patients arrive at accident and emergency during each day has generally altered following the changes to the general medical services contract. We are, however, monitoring any possible impact of the changes to the contract on A&E closely and will continue to do so.

NHS Administrative Staff

23. **Sir Teddy Taylor:** To ask the Secretary of State for Health what percentage of staff in the national health service is engaged in administration; and what the percentage was 10 years ago. [188523]

Mr. Hutton: Current non-medical workforce figures are not directly comparable with pre-1995 figures. As at September 2003, 19 per cent. of the total NHS workforce were managers and clerical and administrative staff compared with 17 per cent. in 1995. Many administrative and clerical staff work directly to health professionals freeing them up to do their job, such as health care support workers and medical secretaries.

Health and Social Care Act

24. **Dr. Evan Harris:** To ask the Secretary of State for Health what advice he has issued to the NHS about public consultations under sections 7 and 11 of the Health and Social Care Act 2001 in respect of election periods. [188524]

Ms Rosie Winterton: Sections 7 and 11 guidance does not refer specifically to public consultations during election periods. The guidance supporting section 7 makes it clear that the NHS organisation consulting overview and scrutiny committees should agree with them how long the consultation period should last.

Pharmacists

25. **Dr. Starkey:** To ask the Secretary of State for Health if he will make a statement on the role of pharmacists in preventive health programmes. [188525]

Ms Rosie Winterton: Pharmacists already contribute to health improvement, including through stopping smoking services, emergency hormonal contraception (EHC) and needle exchange schemes. We will significantly expand this role through the proposed new contractual framework for community pharmacy, underpinned by a pharmaceutical public health strategy due in 2005.

Age-related Macular Degeneration

Mr. Cameron: To ask the Secretary of State for Health what representations he has received on making magnifying equipment more easily available to people who are registered visually impaired with age related macular degeneration; and if he will make a statement. [189038]

Ms Rosie Winterton: We have received representation from hon. and right hon. Members and the Royal National Institute of the Blind regarding the provision of closed circuit television (CCTV) readers to help visually impaired people with certain tasks.

The provision of CCTVs and other non-optical aids is a decision that lies with social services departments as they are considered to be aids to daily living. Being registered as visually impaired is not a pre-requisite to receiving services. Social services departments are responsible for assessing an individual's needs and for arranging services to meet those needs; this could include the provision of CCTV. However, hand-held, stand and spectacle-mounted magnifiers are easier to use, more widely available, more accessible and more cost effective.

Encouragement is being given to hospital and social service departments to work more closely together, and perhaps operate a joint budget to allow more flexibility in funding equipment, and provide a wider range of services and equipment than has hitherto been available. The overall level of funding for aids to vision will, however, rest with primary care trusts and local councils.

Community Health Councils

Mr. Prisk: To ask the Secretary of State for Health what the annual running costs for community health councils were in each year from 1997 onwards. [187759]

Ms Rosie Winterton: The information requested is shown in the table.

	Community health council running costs (£ million)
1997–98	22.561
1998–99	22.561
1999–2000	23
2000–01	23
2001–02	23
2002–03	23
2003–04	15

Eating Disorders

Mr. Burstow: To ask the Secretary of State for Health (1) if he will estimate the prevalence of eating disorders among *(a)* women and *(b)* men in England; [187867]

(2) how many *(a)* children, *(b)* adolescents and *(c)* adults suffered from eating disorders in each year since 1997, broken down by gender. [187873]

Ms Rosie Winterton: Information about the prevalence of eating disorders in adults is not collected centrally.

"The mental health of children and adolescents in Great Britain", a survey carried out by the Office for National Statistics in 1999, found that the prevalence of eating disorders among all children aged five to 15 was 0.1 per cent., and the rate for girls aged five to 15 was 0.2 per cent.

Mr. Burstow: To ask the Secretary of State for Health what the maximum travelling distance is for patients with eating disorders to specialist health care services. [187872]

Ms Rosie Winterton: Information is not collected centrally about the travelling distances that may be involved when patients are referred for treatment for specialist treatment.

Mr. Burstow: To ask the Secretary of State for Health what provision there is for specialist treatment for eating disorders in *(a)* England, *(b)* each region and *(c)* each strategic health authority; and if he will make a statement. [187874]

Ms Rosie Winterton: This information is not centrally available.

People with eating disorders can access mental health services in and through primary care. Details of services available locally can be obtained from strategic health authorities.

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* average and *(b)* maximum waiting time for (i) outpatient and (ii) inpatient treatment for eating disorders has been in the last 12 months for which figures are available. [187875]

Ms Rosie Winterton: The information is not available in the requested format.

Foundation Trusts Regulator

Mr. Burstow: To ask the Secretary of State for Health what the total expenditure was on the rebranding of the Independent Regulator for Foundation Trusts as Monitor. [187856]

Mr. Hutton: I understand from the chairman of Monitor that the total costs of the design work for the development and implementation of the Monitor brand was £24,465, excluding VAT.

The total costs includes £8,200 on re-branding and enhancing the website and £3,000 on the application of the new design to letterhead business cards and presentation material. Monitor timed the introduction of its new name to coincide with its relocation to new offices thereby minimising the additional expenditure required.

General Practitioners

Mr. Rosindell: To ask the Secretary of State for Health how many general practitioners there were in the London Borough of Havering in *(a)* 1997 and *(b)* 2004; and what the figures are for all other London boroughs. [187730]

Mr. Hutton: The number of general practitioners broken down by boroughs is not collected centrally. However, the tables show the number of GPs broken down by strategic health authority and primary care trust.

General medical practitioners (excluding retainers, registrars and locums) for London by strategic health authority (SHA)

Numbers (headcount)

		1997	*March 2004*
London SHA		4,324	4,676
North West London	Q04	1,164	1157
North Central London	Q05	744	795
North East London	Q06	849	926
South East London	Q07	833	974
South West London	Q08	734	824

Note:
All practitioners (excluding retainers, registrars and locums) include general medical service (QMS) unrestricted principals, personal medical service (PMS) contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors (Para 52 SFA), PMS other and flexible career scheme GPs and GP returners. Data as at 1 October 1997 and 31 March 2004.

Department of Health general and personal medical services statistics.

Herbal Medicine and Acupuncture

Martin Linton: To ask the Secretary of State for Health (1) when he proposes to make a draft order on the Regulation of herbal medicine and acupuncture: Proposals for statutory regulation for consultation; and when he proposes to lay the draft order before Parliament; [187484]

(2) how many responses he has received to the Regulation of herbal medicine and acupuncture: Proposals for statutory regulation; and how many were *(a)* in favour of and *(b)* against his Department's proposals for collaborative regulation; [187485]

(3) if he will publish the results of the consultation on the Regulation of herbal medicine and acupuncture: Proposals for statutory regulation. [187486]

Mr. Hutton: On 2 March, I published proposals for the statutory regulation of herbal medicine and acupuncture practitioners. The consultation period closed on 7 June. An analysis of the responses to the consultation will be published in the autumn. I plan to publish draft legislation for further consultation in 2005.

In all, about 700 responses have been received, of which 255 expressed a view about the proposals for collaborative regulation. Of these responses, 93 agreed with the proposals in the consultative document and 162 disagreed. In addition I received over 200 letters as part of a write-in campaign specifically expressing concern about the proposals for collaborative regulation.

Hospital-acquired Infections

Mr. Lilley: To ask the Secretary of State for Health whether he plans to set a target for reducing MRSA infections. [188516]

Mr. Hutton: Yes. We published details of this target on 21 July 2004.

King's College Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Health what changes have been introduced to improve the *(a)* hygiene of wards, *(b)* speed of response of staff when called by patients, *(c)* provision of cold water, *(d)* availability of ice cubes, *(e)* regularity with which bedding is changed, *(f)* cleanliness of toilets, *(g)* availability of plain food for patients and *(h)* prevention of acquisition and spread of MRSA in King's College Hospital, London, since 29 June. [187816]

Mr. Hutton: This information is not held centrally.

Myasthenia Gravis

Mr. Caton: To ask the Secretary of State for Health if he will make a statement on hospital waiting times for patients diagnosed with myasthenia gravis. [188629]

Mr. Hutton: Waiting times data are collected by consultant specialty and not for specific conditions. Specialty level data would include various conditions as well as myasthenia gravis disorders. Therefore it is not possible to determine the waits for myasthenia gravis.

NHS Dentistry

Tom Cox: To ask the Secretary of State for Health how many dental practices in the London borough of Wandsworth provide NHS treatment; what the number was in each of the last five years; and if he will make a statement. [187607]

Mr. Hutton: The number of practices providing general dental service in Wandsworth Primary Care Trust (PCT) area between 1999 and 2004 is shown in the following table.

Number of general dental practices in Wandsworth PCT area at 30 September 1999 to 2003 and 30 June 2004

	Number
1999	70
2000	69
2001	68
2002	67
2003	61
2004	59

Notes:
1. The number of practices in the PCT area have been estimated from practice postcodes information.
2. Some patients in the Wandsworth PCT area will attend dentists in other areas.

Source:
Dental Practice Board.

Mr. Rosindell: To ask the Secretary of State for Health how many complaints he received regarding the availability of NHS dentistry in the London Borough of Havering for *(a)* 1997 and *(b)* 2004; and what the figures are for all other London boroughs. [187727]

Mr. Hutton: The information requested is not collected centrally. Local trusts, in partnership with their health community, have responsibility for local services and the support systems which they have put in place and a corresponding responsibility to improve upon these. It is, therefore, appropriate that they investigate complaints and respond accordingly.

However, Ministers received a total of 19 letters on dental access from the London area in the period from 1 January 2004 to the present.

Mr. Rosindell: To ask the Secretary of State for Health how many NHS dentists were operating in the London Borough of Havering in *(a)* 1997 and *(b)* 2004; and what the figures are for all other London boroughs. [187731]

Mr. Hutton: The numbers of general and personal dental service dentists in Havering Primary Care Trust (PCT) area and for all other London PCTs at June 1997 and June 2004 are shown in the table.

National health service: Number of dentists in London PCTs at June 1997 and June 2004

Dental Practice Board.

Dentists are counted in each PCT in which they practice.

NHS Information Technology

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 29 July 2004, ref.185963, on NHS IT, if he will publish a summary of the recommendations of the Gateway review. [187890]

Mr. Hutton: I have no current plans to do so. The considerations of confidentiality attaching to Gateway reviews apply equally to any recommendations they may contain.

Paul Farrelly: To ask the Secretary of State for Health (1) what reviews his Department has undertaken into the financial viability of *(a)* contractors and *(b)* sub-contractors of companies working on the NHS National Programme for Information Technology; [187360]

(2) if the Department will ask Accenture to report on the *(a)* financial standing and *(b)* accounting treatment of revenues and profits at iSoft. [187361]

Mr. Hutton: It is a standard precautionary business practice to commission financial and market assessments of prospective business partners. In addition to the financial evaluation of companies as pare of the Official Journal of the European Union competitive process, all organisations tendering to become prime contractors of the national programme for information technology, and relevant sub-contractors, were subjected to financial and market assessments before contractual arrangement were entered into. This was undertaken by specialist advisers; themselves and selected by competitive process.

The Department has no current plans separately to ask Accenture for a report specifically on the financial standing of its subcontractor iSoft, or on the accounting treatment of revenues and profits by the company. These are matters between iSoft and its auditors.

Paul Farrelly: To ask the Secretary of State for Health whether the Department has inquired as to why iSoft has suspended one of its executive directors. [187359]

Mr. Hutton: We are aware from press reports that iSoft has recently suspended one of its executive directors and anticipate that a further announcement will be made by the company following the completion of its internal investigations. We do not regard it as the business of the Department to inquire into the circumstances of the suspension. This is a matter for the company to resolve with the director concerned.

NHS Pension Scheme

Mr. Cousins: To ask the Secretary of State for Health what changes are proposed to the NHS pension scheme; and how many existing contributing members to the scheme there are in each *(a)* region and *(b)* county. [188719]

Mr. Hutton: The NHS Confederation is leading a review of the National Health Service Pension Scheme, in partnership with the NHS Pensions Agency, the National Assembly for Wales, the Department of Health and the NHS Trade Unions. The review has made good progress but formal proposals have not yet been finalised. The aim is to have proposals ready for consultation by the end of autumn.

The NHS Pension Scheme currently has over 1.1 million contributing members. Unfortunately, it is not possible, due to the way in which the NHS Pensions Agency holds its data, to identify the geographical profile of the membership.

NHS Register of Interests

Mr. Hancock: To ask the Secretary of State for Health if he will make it his policy to initiate a register of interests for NHS medical practitioners to declare *(a)* shares in, *(b)* gifts from and *(c)* other interests in pharmaceutical companies. [187519]

Mr. Hutton: All national health service staff are already required to declare interests, gifts and sponsorship which might be seen to compromise their position on local registers. The Department last reviewed this in 2002 and considers the current arrangements to be adequate.

Mr. Hancock: To ask the Secretary of State for Health what systems are in place to monitor the amount of drugs prescribed to NHS patients which have been donated by pharmaceutical companies as promotional material. [187520]

Ms Rosie Winterton: The supply of samples by pharmaceutical companies is regulated under the Medicines (Advertising) Regulations 1994. These stipulate that a free sample must be of the smallest pack of a medicine available for sale, that it may only be provided to a prescriber in response to a written request and that it should be clearly labelled as a promotional sample not for resale. We expect primary care trusts to act on any local evidence that promotional material is being misused.

Non-clinical NHS Jobs

Mr. Wiggin: To ask the Secretary of State for Health (1) how many new non-clinical jobs have been created within the NHS since 1997; [186870]

(2) if he will make a statement on the role of NHS staff in non-clinical posts in improving the health of NHS patients. [186871]

Mr. Hutton: Non-clinical staff perform vital functions within the national health service and make an important contribution to the delivery of healthcare and will continue to do so as the clinical NHS workforce increases. Many of them work directly to support clinicians, leaving them free to work with patients. Others working in NHS infrastructure support perform essential and unavoidable tasks, such as cleaning, paying staff, ordering supplies and recruitment.

Between 1997 and 2003, the number of clinical staff and staff working in direct support to clinical staff has increased by 195,059 and the number of staff working in infrastructure support has increased by 29,185.

Nurse Consultants

Dame Marion Roe: To ask the Secretary of State for Health whether he has met the NHS Plan target of 1,000 nurse consultants employed in the NHS. [186962]

Mr. Hutton *[holding answer 7 September 2004]:* Latest figures indicate that, as at December 2003, 870 nurse consultant posts had been approved in the national health service. Responsibility for monitoring progress against this target has now passed to strategic health authorities.

Oldchurch Hospital

Mr. Rosindell: To ask the Secretary of State for Health how many complaints he received regarding Oldchurch Hospital in the London Borough of Havering for *(a)* 1997 and *(b)* 2004; and what the figures are for all other London hospitals. [187728]

Mr. Hutton: The information requested is not collected centrally.

Local trusts, in partnership with their health community, have responsibility for local services and the support systems, which they have put in place, and a corresponding responsibility to improve upon these. It is therefore appropriate that they investigate complaints and respond accordingly.

Osteoporosis Services

Mr. Burstow: To ask the Secretary of State for Health what studies he has received of osteoporosis services in other EU countries. [186143]

Dr. Ladyman: No such studies have been received. However, we understand that "Osteoporosis in the European—Members States Policy Progress Report and Action Plan" is due to be posted on the European Commission website for access to all member states.

Passive Smoking

David Taylor: To ask the Secretary of State for Health if he will make a statement on the Government's public health priorities in relation to passive smoking. [188518]

Miss Melanie Johnson: We have completed a major national public consultation on the best ways to improve people's health, including what can be done to tackle secondhand smoke.

We are considering the many responses we have received. These will inform the White Paper on improving health that will be published later this year.

Patient Environment and Assessment Teams

Mr. Norman: To ask the Secretary of State for Health if he will list the months in which Patient Environment and Assessment Team inspections have taken place in each year since inspections began. [187408]

Mr. Hutton: Since its inception in 2000, there have been five rounds of patient environment action team assessments, with additional visits to some hospitals in the summer of 2001. Details of when those visits took place are shown in the table.

Patient environment action team assessments

	From	*To*
2000	August	October
2001	January	March
2001	August	September
2002	January	May
2002	November	May 2003
2003	December	May 2004

Postgraduate Medical Students

Mrs. Iris Robinson: To ask the Secretary of State for Health what assistance is available to postgraduate medical trainees for expenses on *(a)* text books, *(b)* medical equipment and *(c)* examination fees; and if he will make a statement. [187764]

Mr. Hutton: Postgraduate medical trainees are usually salaried employees of the national health service. As such, they do not receive specific help with their textbooks, equipment and examination fees. They do have access to postgraduate centres and libraries. They also have access to funded study leave, which enables postgraduate trainees to access specific courses and programmes, which enhance the training they receive through the NHS. Much of the equipment they will use is of course available through their employers. Trainees should have access either to standard texts and/or to the internet within the workplace.

St. Helens and Knowsley Hospital Trust

Mr Watts: To ask the Secretary of State for Health what the average waiting time for accident and emergency department services in St Helens and Knowsley Hospital Trust was for each year from 1997 to 2004. [184619]

Miss Melanie Johnson: The information requested is not collected; information is collected for the percentage of patients spending four hours or less in accident and emergency departments from arrival to discharge, admission or transfer. The latest information available is shown in the table.

Total time spent in A&E from arrival to admission, transfer or discharge. National Health Service organisations in England, 2003–04, January to March (quarter 4)

					Major A&E (type 1 only)		All A&E (All WiC (Type 1,2,3)	
Year	Quarter	Strategic health authority	Organisation identifier	Name	Total attendances	Percentage of patients who spent less than four hours in A&E	Total attendances	Percentage of patients who spent less than four hours in A&E
2003–04	4			England	3,059,698	90.6	4,009,142	92.7
2003–04	4	Q15	RBN	St. Helens and Knowsley Hospitals NHS Trust	21,140	88.0	25,680	90

Working Time Directive

Mr. Norman: To ask the Secretary of State for Health what action can be taken in the domestic courts against NHS Trusts that fail to comply with the Working Time Directive. [187407]

Mr. Hutton: Individuals may take a case to an employment tribunal where the employer has failed to let them exercise their entitlement to daily and weekly rest, including compensatory rest.

Complaints can also be raised with the Health and Safety Executive (HSE) in relation to individuals having to work in excess of the maximum working week. As a result of investigating the trust, the Health and Safety Executive is likely to serve improvement notices where claims are upheld. Further action beyond this, including possible criminal proceedings in the lower or magistrate's court, depends on actions taken by the employer in response to the notice served.

In addition, individuals may take a case to a county court in instances where there has been a breach of contract, for example, where they have been made to work over the averaged hours limit or where an employer has failed in his/her duty of care.

TREASURY

Council of Ministers

Sue Doughty: To ask the Chancellor of the Exchequer (1) if he will provide a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188210]

(2) if he will provide a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188211]

Mr. Timms: I refer the hon. Member to the answer given by the Foreign Secretary dated 13 September 2004, *Official Report*, column 1451W.

Crown Estate

Mr. Carmichael: To ask the Chancellor of the Exchequer what the total value of applications made to the Crown Estate's Research Committee for research proposals has been for the financial year 2004–05; how many applications have been made for funding; what the total value of research funding allocated is for the financial year 2004–05; and how many applications for research funding in 2004–05 have been successful.[185971]

Mr. Timms *[holding answer 22 July 2004]*: Since September 2003, The Crown Estate Fish Farming Research Committee has become part of the independent Scottish Aquaculture Research Forum (SARF). The Crown Estate has committed £100,000 per annum to SARF for 2004–05 and 2005–06.

Additional marine based research funding is also available from The Crown Estate. This includes other aquaculture funding, the offshore research fund, the marine stewardship fund, and the renewables and communities fund. The Crown Estate expects to spend around £650,000 on these projects for the year 2004–05.

For the financial year 2004–05, 32 applications (17 of which were not costed) have been received for the marine stewardship fund. Three have been successful and a further seven are still under consideration. Two applications have been made for aquaculture projects, of which one has been successful and the other is under consideration. Three applications have been made for marine aggregate research projects, of which one has been successful and the other two are under consideration. Finally, two applications have been made to the renewables and community fund and are still under consideration.

Day Memberships

John Barrett: To ask the Chancellor of the Exchequer (1) when he will announce the results of the consultation on his plans to amend the gift aid rules on day memberships; [187948]

(2) pursuant to his answer of 30 March 2004, *Official Report*, columns 1350–351W, on gift aid, for what reasons an announcement on the results of the consultation on his plans to amend the gift aid rules on day memberships was not made at around the time of the 2004 Spending Review. [188253]

John Healey: The consultation period ended on 11 June. We are evaluating the responses to that consultation and will announce the results in due course.

Departmental Recycling

Bob Spink: To ask the Chancellor of the Exchequer what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188687]

Mr. Timms: It is the policy of the Treasury to recycle all waste paper and card. The figures for the period 1 September 2003 to 31 August 2004 were 160,820 kg of paper, and 10,420 kg of cardboard.

Eating Disorders

Mr. Burstow: To ask the Chancellor of the Exchequer how many deaths there were of patients suffering from eating disorders, broken down by *(a)* age and *(b)* gender, in each year since 1997. [187870]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Paul Burstow, dated 14 September 2004:

As National Statistician I have been asked to reply to your recent question asking how many deaths there were of patients suffering from eating disorders, broken down by *(a)* age and *(b)* gender, in each year since 1997. (187870)

Information is not available in the exact form requested. However, figures are available on:

(1) hospital admissions for patients diagnosed with eating disorders (not necessarily as the primary diagnosis) and where the discharge method was death;

(2) deaths where an eating disorder was mentioned on the death certificate.

This information is given in the attached tables for the years 1997 to 2002.

Table 1: Finished Consultant Episodes (FCE's)[1, 2] with death as method of discharge and eating disorders[3] mentioned as a diagnosis, by sex and broad age group, 1997–98 to 2002–03, NHS Hospitals in, England[4]

Group	1997–98	1998–99	1999–00	2000–01	2001–02	2002–03
Male						
Under 15	0	0	0	0	0	0
15–44	*	*	*	0	*	*
45–64	*	*	*	0	*	*
65+	10	10	11	15	9	14
Male Total	14	13	18	15	12	16
Female						
Under 15	0	0	0	0	0	0
15–44	20	*	*	7	15	21
45–64	9	*	*	12	7	12
65+	37	22	28	30	34	32
Female Total	66	34	43	49	56	65

* Small number (Figures between 1 and 5, with secondary suppression to avoid disclosure by differencing) have been suppressed to protect patient confidentiality.

[1] An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. The figures do not represent the number of patients, as a person may have more than one episode of care within a year.

[2] These figures represent a count of all FCEs where the diagnosis was mentioned in any of the 14 (7 prior to 2002–03) diagnosis fields in a Hospital Episodes Statistics record.

[3] International Classification of Diseases Tenth Revision (ICD-10) code F50

[4] Figures are grossed for coverage, except for 2002/03 which are not yet adjusted for shortfalls.

Office for National Statistics

Endowment Mortgage Mis-selling

Paul Flynn: To ask the Chancellor of the Exchequer what estimate he has made of the number of people who are eligible to claim compensation for the mis-selling of endowment mortgages; and what proportion of those who have claimed have been successful. [188662]

Mr. Timms: Given the passage of time since the majority of endowment policies were sold and the lack of contemporaneous records of the advice given at the time, it is difficult to be certain of the number of consumers who may have been mis-sold their policy. The Government supports moves by the FSA to take forward a programme of research to form a better understanding of the numbers of endowment policies facing shortfalls. The FSA had received a total of 452,201 complaints on this subject by 31 March 2004. Information provided by the FSA indicates that the proportion of consumer complaints upheld by firms is now approximately 60 per cent. in favour of consumers, and from those complaints reaching the Financial Ombudsman Service, the figure for cases decided in favour of the consumer is 42 per cent.

Environmentally Sustainable Economic Activity

Sue Doughty: To ask the Chancellor of the Exchequer (1) what the growth rate has been in environmentally sustainable economic activity in each year since 1997; [188164]

(2) if he will make a statement on *(a)* the performance of environmental investments funds as an indicator of the strength of environmentally sustainable economic activity and *(b)* the success of Government policies for promoting environmentally sustainable economic activity. [188165]

John Healey: The Government are committed to developing and implementing policies that will simultaneously deliver social, economic and environmental progress. We do not separately measure the growth rate in 'environmentally sustainable economic activity' but in 1999 we established a set of 15 headline indicators and a wider set of core indicators to provide a baseline against which progress on sustainable development could be measured. Economic, social and environmental indicators are included and are reported on in the "Achieving A Better Quality of Life" annual reports. The indicators are being reviewed as part of the review of the UK Sustainable Development Strategy.

The Government welcome innovation in investment products to meet the needs of their clients' preferences, of which environmental investment funds are one option.

EU Budget

Ann Winterton: To ask the Chancellor of the Exchequer what his projection is of the percentage of gross domestic product the UK will pay to the European Union budget under the post-2006 financial settlement. [188798]

Mr. Timms: The new Financial Perspective for the period from January 2007 will not be agreed by member states before next year. The Government's latest forecast of UK net contributions to the EC Budget, which covers the period to 2007–08, was included in a footnote to Table A1 of the Statistical Annex to the 2004 Spending Review (Cm 6237) published on 12 July 2004. This forecast is used for public expenditure planning purposes and assumes an appropriately uprated roll forward of the status quo. It is without prejudice to the Government's assessment of the likely outcome of the negotiations on the new financial perspective.

Mr. Bercow: To ask the Chancellor of the Exchequer what progress has been made towards an IMF programme for Iraq. [188347]

John Healey: The Iraqi authorities are currently engaged in regular and ongoing discussions with the IMF on a possible programme for Iraq.

Mr. Bercow: To ask the Chancellor of the Exchequer what steps he is taking to assist economic reform in Iraq. [188348]

John Healey: The UK aims to support economic reform in Iraq in the short term by working towards rapid agreement on an IMF programme, and by securing agreement in the Paris Club to write off the vast majority of Iraq's foreign debt by the end of the year. The UK will continue to support the efforts of the Iraqi authorities to develop a sustainable, stable and appropriate fiscal and monetary framework for Iraq, and to develop and implement policies to achieve and sustain rapid growth, high employment and poverty reduction.

Leasehold Property Sales

Mr. Dismore: To ask the Chancellor of the Exchequer what steps he is taking to permit Muslims to buy

leasehold property on the same or similar basis to freehold within the provisions in the Budget to prevent double stamp duty and allow purchases without payment of interest as a consequence. [188013]

Mr. Timms: The Government want to see consumers benefit from a wide choice and innovation in the financial services market. The Finance Act 2003 introduced two reliefs (s72 and s73) for purchases funded by "alternative property financing", which enables individuals to finance a property without paying interest. The combined effect of these reliefs is to place the amount of stamp duty land tax due when purchasing property using these arrangements on a level footing with the amount due on the purchase of property when using 'conventional' mortgage products. This will remove a significant barrier to the development of alternative property financing, thus benefiting a range of consumers with increased choice in the mortgage market.

The legislation does not discriminate between freehold and leasehold properties, so both can be purchased using alternative property financing without a greater quantity of stamp duty being incurred than under a conventional mortgage.

National Debt

Hugh Bayley: To ask the Chancellor of the Exchequer what *(a)* the value and *(b)* the interest paid on the national debt has been in each year since 1990. [188953]

Mr. Timms: The measure used in this Government's sustainable' investment rule and in international comparisons of debt is Public Sector Net Debt as a percentage of GDP.

Figures for public sector net debt and central Government debt interest payments in current prices are available on the Office for National Statistics website: http://www.statistics.gov.uk/StatBase/tsdtables1.asp?vlnk=fsf. Table 1.1A: Public Sector Finances (series RUTN and RUTO) shows figures for public sector net debt in £ billion and as a percentage of GDP. Table 1.1C: Central Government (series NMFX) shows debt interest payments in £ billions. No data is available for debt interest payments by local authorities or public corporations.

Staff Recruitment

Mr. Andrew Turner: To ask the Chancellor of the Exchequer what the *(a)* set retirement age applying to all or most personnel and *(b)* maximum age beyond which applications for employment will not be considered is in (i) his Department and (ii) its agencies. [186372]

Mr. Timms: The information requested is available in the following table:

Department/Agency	*(a) Set retirement age*	*(a) Maximum retirement age*	*(b) Maximum age employment applications considered*
HM Treasury	Age 60	Age 60	Age 59
Valuation Office	Age 60	Age 65	Age 64
Royal Mint	Age 60	Age 65	Permanent application up to age 59, Casual applications up to age 64
Debt Management Office	Age 60	Age 70	Age 60 unless there is a business justification for an older person
National Savings and Investments	Age 60	None	None—Age, like other diversity data is not considered as part of NSI's selection criteria which is purely role related.
Office National Statistics	Age 65	Age 65	Age 64 right up until 65th Birthday
Government Actuaries Dept.	Age 60	None	GAD currently does not operate a maximum age limit requirement.
Inland Revenue	Age 60	Age 65	None up to Age 65
Office of Government Commerce	[1]Age 60	[1]None	None up to retirement age
HM Customs and Excise	[2]—	[2]—	Age 65.

[1] OGC buying solutions retirement age is currently 65 for Ban 1 (Administrative Officer equivalent) staff and 60 for all other staff. However as with OGC normal staff, consideration would be given to staff working beyond this, subject to business needs.
[2] In HM Customs and Excise the set (maximum) retirement age is:
60 for staff at Bands 7 (HEO equivalent) and above, of which there were 7,877 in post (on 1 July 2004);
62 for staff at Bands 5 and 6 (EO equivalent), of which there were 8,143 in post and in post; and
65 for staff at Band 4 (AO equivalent) and below, of which there were 7,182 in post.

Stamp Duty

Mr. Prisk: To ask the Chancellor of the Exchequer if he will estimate the revenue implication of restructuring stamp duty on residential property sales to charge marginal rates of *(a)* 0 per cent. on property sales of £120,000 or less, 3 per cent. on sales between £120,000 and £249,999, 4 per cent. on sales between £250,000 and £499,999 and 8 per cent. on sales of £500,000 and above, *(b)* 0 per cent. on property sales up to £100,000, 3 per cent. on sales between £100,000 and £249,999, 5 per cent. on sales between £250,000 and £499,999 and 8 per cent. on sales of £500,000 and above, *(c)* 0 per cent. on property sales up to £100,000, 2 per cent. on sales between £100,000 and £249,999, 5 per cent. on sales between £250,000 and £499,999 and 8 per cent. on sales of £500,000 or above, *(d)* 0 per cent. on property sales up to £110,000, 3 per cent. on sales between £110,000 and £249,999, 5 per cent. on sales between £250,000 and £499,999 and 8 per cent. on sales of £500,000 and *(e)* 0 per cent. sales up to £110,000, 2 per cent. on sales between £110,000 and £249,999, 5 per cent. on sales between £249,999 and £499,999, 8 per cent. on sales of £500,000 or above. [188011]

Mr. Timms *[holding answer 13 September 2004]*: The estimated revenue cost, in 2005–06, of restructuring stamp duty on residential property sales according to the five schemes described in the question is given in the following tables:

	Tax regime 1 Marginal rates
Price of residential property	
£0-£119,999 (percentage)	0
£120,000-£249,999 (percentage)	3
£250,000-£499,999 (percentage)	4
£500,000 and above (percentage)	8
Revenue cost (£ million)	690

	Tax regime 2 Marginal rates	*Tax regime 3 Marginal rates*
Price of residential property		
£0-£99,999 (percentage)	0	0
£100,000-£249,999 (percentage)	3	2%
£250,000-£499,999 (percentage)	5	5
£500,000 and above (percentage)	8	8
Revenue cost (£ million)	-60	690

	Tax regime 4 Marginal rates	*Tax regime 5 Marginal rates*
Price of residential property		
£0-£109,999 (percentage)	0	0
£110,000-£249,993 (percentage)	3	2
£250,000-£499,999 (percentage)	5	5
£500,000 above (percentage)	8	8
Revenue cost (£ million)	190	860

This does not include any allowance for behavioural changes.

Mr. Cousins: To ask the Chancellor of the Exchequer in which neighbourhoods in Newcastle exemptions and remissions of stamp duty apply; what the value of the exemptions and remissions so far granted has been; and whether the boundaries of the neighbourhoods will be revised in the light of the new index of multiple deprivation. [188711]

Mr. Timms: The list of wards in Newcastle which qualify for deprived areas relief are Walker, Monkchester, Elswick, West City, Byker, Scotswood, Benwell, Woolsington, Moorside, Fawdon, Blakelaw, Kenton, Wingroye, Fenham, Newburn, Walkergate and Denton.

The value of relief given in the listed Newcastle wards between inception of the relief at the end of November 2001, and the end of March 2004, is estimated at around £4 million.

There will be no changes to the qualifying areas before December 2006.

Tax Credits

Mr. George Osborne: To ask the Chancellor of the Exchequer how many people in *(a)* 2003–04 and *(b)* the current financial year to date have been overpaid tax credits; what proportion of the cases of overpayment were due to error by the Inland Revenue; and in what proportion of the cases the Inland Revenue has attempted to recover overpayments. [188243]

Dawn Primarolo: The total number of *(a)* 2003–04 and *(b)* current financial year awards that are overpaid will be available only when all the awards for the years in question are finalised.

Unoccupied Young People

Mr. Jenkins: To ask the Chancellor of the Exchequer how many people in the Tamworth constituency aged between 16 and 24 years were both economically inactive and not in further or higher education *(a)* in 1997 and *(b)* in the latest year available. [188096]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Brian Jenkins, dated 14 September 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about economic inactivity in the Tamworth Parliamentary Constituency. I am replying in his absence. (188096)

Estimates from the Labour Force Survey (LFS) for the twelve months periods ending February 2003 show that there were over 12 thousand residents aged 16–24 in private households in the Tamworth Parliamentary Constituency. Of these, around 10 thousand were not in full-time education and of that figure, fewer than 2 thousand were economically inactive.

The corresponding figures for the 12 months ending February 1997 showed that out of a total of just under 11 thousand 16–24 year olds, nearly 9 thousand were not in full-time education and, of these, less than 2 thousand were economically inactive.

These estimates are based on small sample sizes and are therefore subject to a high degree of sampling variability. They should therefore be treated with caution.

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer how many people in the Bridgwater constituency aged between 16 and 24 years are both economically inactive and not in further or higher education. [186501]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Ian Liddell-Grainger, dated 14 September 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about economic inactivity. (186501)

Estimates from the Labour Force Survey (LFS) for the twelve months ending May 2003 show that there were 9,000 residents in private households aged 16 to 24 in the Bridgwater Parliamentary Constituency. Of these, 6,000 were not in full-time education and, among those, fewer than 1,000 were economically inactive.

These estimates are based on small sample sizes and are therefore subject to a high degree of sampling variability. They should therefore be treated with caution.

Worker:Pensioner Ratio

Denzil Davies: To ask the Chancellor of the Exchequer what his latest estimate is of the ratio of workers to pensioners in the *(a)* United Kingdom, *(b)* each region of England, *(c)* Scotland and *(d)* Wales. [188129]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Denzil Davies, dated 14 September 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about the ratio of workers to pensioners in *(a)* the United Kingdom, *(b)* each region of England, *(c)* Scotland and *(d)* Wales. I am replying in his absence. (188129)

The attached table gives the estimated ratios of people in employment to the population estimates above pension age by gender and region for the three months ending August 2003.

These ratios have been calculated by dividing the estimated employed population aged 16 and over, obtained from the ONS Labour Force Survey (LFS), by the estimated populations of men aged 65 and over and of women aged 60 and over.

Ratio of people in employment to estimates of population above pension age[1] by gender and Government office regions: summer (June to August) 2003 not seasonally adjusted

	Total	*Male*	*Female*
England	2.6	3.8	1.9
North East	2.2	3.2	1.6
North West (inc Merseyside)	2.4	3.6	1.8
Yorkshire and Humberside	2.5	3.7	1.8
East Midlands	2.5	3.7	1.9
West Midlands	2.5	3.6	1.8
Eastern	2.5	3.7	1.9
London	3.3	5.1	2.3
South-East	2.6	3.8	1.9
South West	2.2	3.2	1.7
Wales	2.2	3.2	1.7
Scotland	2.5	3.8	1.8
Northern Ireland	2.7	4.3	1.8
United Kingdom	2.5	3.7	1.8

[1] Pension age is defined as women aged 60 plus and men aged 65 plus. Ratio was calculated as people in employment divided by number of people above pension age.

INTERNATIONAL DEVELOPMENT

AIDS/HIV

Dr. Tonge: To ask the Secretary of State for International Development what steps he is taking to ensure that AIDS/HIV prevention is given a high priority during the UK presidency of the *(a)* G8 and *(b)* EU. [187465]

Mr. Gareth Thomas: The Government's strategy on AIDS "Taking Action: The UK's strategy for tackling HIV and AIDS in the developing world", published in July, signals that HIV and AIDS, with a special focus on Africa, will be a centrepiece for our Presidencies of both the G8 and of the EU in 2005. DFID is currently developing ideas about how best to use our G8 and EU Presidencies to promote accelerated international action on HIV and AIDS.

DFID is working closely with the other countries that hold the EU Presidency during this period (including Ireland, who hosted an important meeting on new HIV prevention technologies during their Presidency) and the European Commission to ensure that the European contribution to preventing the spread of HIV and AIDS is as effective as possible.

Chechnya

Keith Vaz: To ask the Secretary of State for International Development how much *(a)* financial and *(b)* humanitarian assistance Russia has received from the UK in relation to the recent terrorist atrocities in Beslan. [188296]

Mr. Gareth Thomas: Following a crisis, DFID assesses whether needs can be met within a country before deciding to respond. To date there has been no specific funding request to DFID relating to the terrible events in Beslan, largely because needs seem to have been adequately met by resources within the country. Indeed, agencies such as the World Food Programme, the World Health Organisation, the United Nations Children Fund and the Red Cross who responded to needs in Beslan, have recently received support from DFID for their programme in the region.

DFID has a long-standing programme of humanitarian assistance in the North Caucasus. Last year DFID channelled approximately £3.5 million largely through United Nations agencies and the International Confederation of the Red Cross to meet immediate humanitarian and protection needs.

Burma

Mr. Bercow: To ask the Secretary of State for International Development what recent discussions he has had with the International Labour Organisation about breaches of its standards by the Government of Burma. [188339]

Mr. Gareth Thomas: The UK plays an active part in the International Labour Organisation (ILO) and fully supports its efforts to end the use of forced labour in Burma. DFID's embassy in Rangoon maintains regular contact with the ILO liaison office there. The EU has repeatedly condemned Burma's lack of progress on forced labour, most recently on 5 June, at the International Labour Conference in Geneva. The EU issued a statement at the ILO's Governing Body in March. The ILO will consider what progress Burma has made at its Governing Body meeting in November.

CDC/Actis Capital

Gregory Barker: To ask the Secretary of State for International Development whether CDC investments qualify as bilateral aid. [189061]

Hilary Benn: I confirm that CDC investments still qualify as bilateral aid and full details of these investments are set out in Table 7 of Statistics on International Development, a copy of which is available in the Library of the House.

Departmental Buildings (Lost and Stolen Property)

Mr. Bercow: To ask the Secretary of State for International Development if he will list the items that his Department has reported to the police as lost or stolen from his Department's buildings or property in the United Kingdom and overseas since 1997. [188319]

Mr. Gareth Thomas: The number of items reported lost or stolen to the police in the UK and overseas is as set out. Information for 1997 is not readily available and could not be obtained without incurring a disproportionate cost.

	Item	*Quantity*
1998	Laptop	1
1998	Computers	10
1998	Laptop	1
2000	Vehicle	1
2001	Telephones	3
2001	Colour printer	1
2001	Laser printers	2
2001	Scanners	2
2001	Fax machine	1
2001	Laptop	1
2001	Vehicle	1
2002	Video camera	1
2002	Vehicle	1
2002	Vehicle	1
2002	Laptop	1
2002	Laptops	2
2002	Vehicle	1
2002	Laptop	1
2002	Laptop	1
2002	Digital camera	1
2002	Laptop and projector	1
2002	Building materials	1
2002	Laptop and projector	1
2003	Laptop	3
2003	Laptops	1
2003	Laptop	1
2003	Laptop	1
2004	Laptop	1
2004	Laptop	1
2004	Digital camera	1

Departmental Costs

Mr. Bercow: To ask the Secretary of State for International Development how much his Department spent on replacing light bulbs in the last year for which figures are available; and if he will make a statement on energy efficiency in his Department's buildings in the UK and overseas. [188330]

Mr. Gareth Thomas: DFID spent £4,311 in its London offices on replacement light bulbs during 2003–04. No information is available for our East Kilbride offices, as it is currently being refurbished and the lighting system is therefore being replaced. Information on expenditure on light bulbs in our overseas offices is not centrally available and could not be obtained without incurring a disproportionate cost.

DFID is committed to implementing the standards set out in the Government's Framework for Sustainable Development on the Government Estate. The recent refurbishments of our UK offices have given us the opportunity to improve the energy efficiency of our buildings, for instance with installation of Building Management Systems which allow us to monitor and manage energy usage to a much greater extent than in the past.

The design for the refurbishment of our East Kilbride office has received an "excellent" rating under the Building Research Establishment Environmental Assessment Methodology (BREEAM); for instance, DFID has installed energy efficient heating systems, and also lighting systems which are movement sensitive and take account of natural lighting levels. Through our green awareness programme DFID is encouraging overseas offices to consider the implementation of similar energy efficiency measures wherever appropriate.

Mr. Bercow: To ask the Secretary of State for International Development how much money his Department has spent on *(a)* opinion polling and *(b)* focus groups in each year since 1997. [188332]

Mr. Gareth Thomas: In 1998, DFID commissioned Opinion Leader Research (OLR) to undertake baseline focus group research among the UK public. In 2003, DFID commissioned OLR to undertake further focus group research to explore ways of increasing understanding and support for international development in the UK. DFID also commissions two annual opinion polls on public attitudes to development. One poll, undertaken by the Office for National Statistics (ONS), monitors the opinion of the UK adult population, and the second, undertaken by Market and Opinion Research International (MORI), monitors the opinion of schoolchildren. In 1999, we also undertook a readership survey of "Developments" magazine, in order to test its impact and reach. The results of the focus group research and the opinion polls are used to inform, and monitor the impact of, our work on development awareness and education.

The annual cost of focus group research and opinion polls is detailed in the following table:

Year	*Focus groups*	*Cost (£)*	*Opinion polls*	*Cost (£)*	*Total (£)*
1997–98	OLR Baseline Study	43,000	—	—	43,000
1998–99	—	—	—	—	—
1999–2000	—	—	ONS Poll	28,200	44,704
	—	—	MORI Poll	14,700	
	—	—	Developments Survey	1,804	
2000–01	—	—	ONS Poll	33,000	47,629
	—	—	MORI Poll	14,629	

Year	Focus groups	Cost (£)	Opinion polls	Cost (£)	Total (£)
2001-02	—	—	ONS Poll	34,300	45,815
			MORI Poll	11,515	
2002-03	—	—	ONS Poll	31,880	43,395
			MORI Poll	11,515	
2003-04	OLR Research	50,309	ONS Poll	32,990	95,519
			MORI Poll	12,220	
2004-05	OLR Research	—	ONS Poll	36,120	To be confirmed
			MORI Poll	To be agreed	To be confirmed

Mr. Bercow: To ask the Secretary of State for International Development what the equivalent monetary cost of theft from his Department was in each year since 1997, broken down by (*a*) United Kingdom locations and (*b*) overseas offices. [188333]

Mr. Gareth Thomas: The cost to DFID, in pounds, of items reported stolen is as set out. Information for 1997 is not readily available and could not be obtained without incurring a disproportionate cost.

£

	United Kingdom	Overseas
1998	3,111	16,357
1999	0	0
2000	111	24,319
2001	203	6,472
2002	10,595	29,797
2003	10	2,674
2004	0	2,192

Departmental Mobile Phones

Mr. Bercow: To ask the Secretary of State for International Development how many mobile phones owned by his Department have been reported lost or stolen since 1997. [188331]

Mr. Gareth Thomas: Within the Department for International Development, 28 mobile phones have been reported lost or stolen since 1997.

Departmental Satellite and Cable Subscriptions

Mr. Bercow: To ask the Secretary of State for International Development what the cost was of satellite and cable subscriptions in his Department's buildings in the UK and overseas in each year since 1997; and if he will list the premium channels to which his Department subscribes. [188328]

Mr. Gareth Thomas: DFID subscribes to the Parliamentary TV System to allow access to the Parliamentary Annunciator System, the Division Bell and Commons and Lords TV channels in the UK. Other services and channels are included in the package: these are selected by the Information Committee of the Houses of Parliament. The annual costs of the subscription since 1997 are given in the table.

£

	Amount
1997	[1]
1998	19,770
1999	19,770
2000	[2]20,500
2001	[2]20,500
2002	20,500
2003	23,099

[1] No figures are available.

[2] Estimated figure.

DFID has no other cable and satellite subscriptions in the UK and there is no central provision of cable and satellite services to overseas offices. Information about any local purchases overseas could not be obtained without incurring a disproportionate cost.

Infant Mortality Rate

Norman Baker: To ask the Secretary of State for International Development what proportion of global infant mortality he estimates results from unsafe water and sanitation; and how this is taken into account in the design of the programmes funded by his Department in pursuit of the Millennium Development Goal to reduce the under-five mortality rate. [188053]

Mr. Gareth Thomas: UN data on infant mortality are not routinely disaggregated by cause of death. It is estimated, however, that diarrhoea causes more than 1.5 million child deaths each year, constituting about 15 per cent. of under-five deaths. Childhood diarrhoea is closely associated with insufficient water, inadequate sanitation, contaminated water and poor hygiene practices.

The Millennium Development Goals (MDGs) are strongly inter-dependent and DFID programme interventions include strict controls over appraisal and design to reflect this. DFID's Water Action Plan, published in March 2004, sets out DFID's priorities for the integrated provision of safe water, sanitation and hygiene promotion at national, regional and international levels. Significant progress to reduce childhood deaths from diarrhoea requires increased coverage of both preventative interventions and curative, such as the provision of effective health care (including oral re-hydration therapy and drug treatments).

Iraq

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on responsibility for the management of the Development Fund for Iraq. [188343]

Hilary Benn: Under the United Nations Security Council resolution 1546 (8 June 2004) resources in the Development Fund for Iraq (DFI) are managed and disbursed solely at the discretion of the Interim Iraqi Government. The International Advisory and Monitoring Board (IAMB) continues its work as an audit oversight body for the DFI. The IAMB oversees audits conducted by international accounting firms of (i) oil export sales, (ii) the accounting for the proceeds from oil export sales, (iii) the DFI financial statements, and (iv) the disbursement procedures for DFI resources.

In March 2004 the IAMB approved the Coalition Provisional Authority's appointment of KPMG to conduct audits in two stages: first for DFI activities up to the end of December 2003, which reported on 15 July; and second for the six months to 28 June 2004, on which KPMG expects to report in early October 2004. As with the first stage audit reports, the IAMB will make the reports of the second stage available on its website (http://www.iamb.info).

Oil export sales and DFI operations after 28 June 2004 will be examined by external auditors to be appointed by the Government of Iraq. The IAMB will work with the Government of Iraq to ensure the early appointment of appropriately qualified external auditors.

Mr. Bercow: To ask the Secretary of State for International Development what the current levels of *(a)* water and *(b)* electricity provision in Iraq are; and what the targets for improvement in the next 12 months are. [188351]

Hilary Benn: Estimates suggest that immediately after the 2003 conflict, 60 per cent. of urban and 30 per cent. of rural populations had access to safe water. In October 2003, the United Nations and World Bank's Needs Assessment of Iraq proposed a 2007 target of increasing water access in urban areas by 30 per cent., and in rural areas by 45 per cent., from immediate post-conflict levels. Considerable work has taken place since May 2003 to improve the quantity, quality and reliability of water supplies.

In Basra the water supply situation remains difficult but is now better than before the 2003 conflict. Informal estimates by the former Coalition Provisional Authority (South) indicated that, in the south, coverage increased by 10 per cent. to 15 per cent. from May 2003 to July 2004. Major infrastructure work which is mainly US funded is planned over the next year. United Nations agencies are providing up to 800,000 litres of drinking water per day to vulnerable groups and inhabitants of rural areas. Drinking water is also sold by bottle or tanker. The restoration of 14 Basra Governorate water treatment plants is on schedule for completion by the end of October 2004.

In Baghdad, civil engineering work has now been completed at three wastewater treatment plants. The UN is operating water tankers and supplying water purification tablets to meet shortfalls. Water specialists from the USA are working with local government officials in Baghdad Municipality's water department to improve water treatment throughout the city.

The supply of electricity in Iraq has improved since May 2003. Production now averages 4,750 MW, compared with the pre-conflict level of 4,400 MW. Most of Iraq is now receiving between nine and 15 hours of electricity daily.

Significant programmes of long-term rehabilitation of electrical infrastructure are being undertaken alongside planning for the expansion of generating capacity with new plants. However, security problems continue to slow the progress of reconstruction and make precise forecasting difficult. The Interim Iraqi Government has set a target of 6,000 MW by the end of 2004. The United Nations and World Bank's Needs Assessment proposed a target of 8,760 MW by 2007.

Mr. Carmichael: To ask the Secretary of State for International Development how much funding his Department has allocated to the Adam Smith Institute for work in relation to the reconstruction of Iraq; what the nature of the work is; and if he will make a statement. [188428]

Hilary Benn: DFID has not allocated any funding to the Adam Smith Institute for work in relation to the reconstruction of Iraq.

DFID has contracted the consultants Adam Smith International Ltd. (ASIL) to provide services to assist with reconstruction in Iraq as follows:

Programme	*Contract cost (£)*	*Programme details*
Emergency Public Administration Programme (EPAP)	3,181,205	This programme provides capacity building support to the Iraq public administration. Activities include the provision of long and short-term technical advice, support and training to key central ministries, to enable them to begin the process of re-establishing effective and accountable government in Iraq
Technical Support to the Coalition Provisional Authority (CPA) South	491,406	Provision of technical experts to the former Coalition Provisional Authority in southern Iraq in the areas of economic reform and justice. This work completed on 28 June following the handover of sovereignty to the Iraqi Interim Government
Total	3,672,611	

Pakistan

Mr. Bercow: To ask the Secretary of State for International Development what assistance his Department is providing to Pakistan for the reform of its education system. [188364]

Mr. Gareth Thomas: DFID has made a significant contribution to the reform of Pakistan's education system. During 2003–04, DFID spent £2.2 million on a number of initiatives, including support to the National Education Assessment System, a programme that assessed children's performance nationally and informed education policy. DFID also supported the North West Frontier Province Education Programme, the Northern Areas Education Programme, Sindh Primary Education Project and the Punjab Middle Schooling Project. These programmes have supported the Government of Pakistan to improve the decentralised management of human and financial resources for education, as well as strengthening teacher training for primary education, with particular emphasis on education for girls.

DEPUTY PRIME MINISTER

Housing

Mr. Jenkins: To ask the Deputy Prime Minister how many households were living in temporary accommodation in the Tamworth constituency in each year since 1997; and how many of those households included dependent children. [188125]

Keith Hill: Information is not collected at constituency level, only at local authority level. A summary of information reported by Tamworth district council about the number of homeless households in temporary accommodation as at 31 March of each year since 1997 is tabled as follows. The number of households in temporary accommodation containing dependent children or expectant mothers has been collected only since March 2002.

Households in temporary accommodation[1] arranged by Tamworth district council, as at 31 March

	Total households	*Of which: with dependent children[2]*
1997	109	n/a
1998	83	n/a
1999	88	n/a
2000	92	n/a
2001	105	n/a
2002	94	90
2003	83	75
2004	not reported	not reported

[1] Households in temporary accommodation arranged by the local authority pending inquiries, or after being accepted, under homelessness legislation.
[2] Includes expectant mothers. Data collected only since March 2002.
Source:
ODPM P1E homelessness returns (quarterly).

Indices of Deprivation

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the electoral wards under which each Super Output Area in the Indices of Deprivation 2004 falls. [188272]

Phil Hope: There are 32,000 Super Output Areas and this is too large to send in this format. I have contacted the Office for National Statistics and it will arrange for the hon. Member to receive a copy of these on CD format.

Local Government

Mr. Drew: To ask the Deputy Prime Minister how many ballots there have been to set up *(a)* parish and *(b)* town councils in each of the last three years; and what the result was in each case. [188310]

Mr. Raynsford: In accordance with the provisions set out in the Local Government and Rating Act 1997, the Secretary of State, my right hon. Friend the Deputy Prime Minister may by Order create parish and town councils following petitions from electors in the area of the proposed parish which are presented to principal local authorities. Where parishes are created, they come into existence on the 1 April of the year following the Order being made. The following table shows for each year since 1 April 2000 the outcome of petitions received from principal local authorities in that year or before.

Principal authority	*Area(s) which petitioned for parish status*	*Outcome*
2000–01		
Ashfield	Hucknall	Declined
Bromsgrove	Lickey End	One new parish created
Harlow	Church Langley	Declined
Newcastle upon Tyne	Blakelaw and North Fenham	One new parish created
Nottingham	Wollaton	Declined
Restormel	St. Austell	Declined
St. Edmundsbury	Brackland	Considered by district review but declined
Wyre Forest	Kidderminster	Declined
Total	Two parishes created	
2001–02		
Basildon	Noak Bridge	One new parish created
Bradford	Keighley	One new parish created
Bradford	Oakworth	Declined
Burnley	Padiham	One new parish created
Brentwood	West Hornden Herongate and Ingrave	Two new parishes created
Dudley	Stourbridge	Invalid petition
Leeds MBC	Shadwell	One new parish created
Newcastle-under-Lyme	Silverdale	One new parish created

Principal authority	*Area(s) which petitioned for parish status*	*Outcome*
North West Leicestershire District Council	Ellistown and Battleflat	One new parish created
Stockport MBC	Offerton Estate	One new parish created
Warwick	Royal Leamington Spa	One new parish created
Total	10 parishes created	
2002-03		
North East Lincolnshire	Great Coates	One new parish created
Wear Valley	West Auckland	One new parish created
Total	Two parishes created	
2003-04		
Bedford	Brickhill	One new parish created
Bradford	Clayton	Four new parishes created
	Sandy Lane	
	Wilsden	
	Wrose	
Leeds	Drighlington	Three new parishes created
	Gildersome	
	Kippax	
Sefton	Formby	One new parish created
Shepway	Folkestone	Two new parishes created
	Sandgate	
Total	11 parishes created	
2004-05		
Fylde	Saint Anne's on the Sea	One new parish created
Total so far	1 parish created	

Mr. Drew: To ask the Deputy Prime Minister what opportunities there will be for parish and town councils in his 10-year vision for local government. [188316]

Mr. Raynsford: The vision for local government sees an important role for citizen engagement and participation so that they have greater influence over the delivery of public services. There are a variety of possible models to give communities a stronger voice at local level, one of which is through parish and town councils. The Office of the Deputy Prime Minister intends to issue a discussion document looking at the issue of citizen engagement, including the role of parish and town councils, later this year.

Local Government Pensions

Mr. Cousins: To ask the Deputy Prime Minister what proposals he has *(a)* to protect the interests of staff over the age of 40 and *(b)* for a transitional scheme, in changes to the local government pension scheme. [188722]

Phil Hope: The proposals to amend the Local Government Pension Scheme, on which the Office of the Deputy Prime Minister consulted earlier this year, are planned to come into effect in April 2005. They fully protect all members rights accrued up to that time. Those members who reach 60 years or over by 31 March 2013, and whose age and membership of the Scheme when added total 85, will also continue to accrue membership to that date on the same basis as they did prior to April 2005. In these circumstances, further transitional arrangements are not required.

Park Homes (Fire Safety)

Bob Spink: To ask the Deputy Prime Minister (1) if he will make it his policy to require all park home sites to provide individual fire protection for each residence rather than communal fire points; [188728]

(2) what regulations there are regarding fire protection on park home sites; and what plans he has to amend these. [188729]

Keith Hill: The relevant statute for the licensing and control of residential park homes is the Caravan Sites and Control of Development Act 1960. Section 5 of the 1960 Act provides local authorities with the power to regulate fire precautions on park home sites, by enabling the local authority to impose conditions on the site licences issued to site owners. The Act enables the First Secretary of State, my right hon. Friend the Deputy Prime Minister to issue model standards. My right hon. Friend the Deputy Prime Minister has exercised this power most recently in 1989, in Circular 14/89: "Caravan Sites and Control of Development Act 1960—Model Standards". The model standards represent the standards that are normally expected as a matter of good practice on sites for residential mobile homes or static holiday caravans, or both. The local authority must have regard to the model standards in issuing or reviewing the conditions of a site licence. In addition, the Act provides that a local authority is required to consult with the fire authority for the park as to the extent to which the model standards relating to the fire precautions are appropriate to the land. Ultimately, it is up to the local authority on what conditions they apply to site licences. As part of the on-going park home reform, the model standards are currently being revised and an informal consultation is

taking place with stakeholders and a formal consultation paper will be published in the summer of 2005.

Currently it is not expected that this revision will require individual fire protection for each residence.

Bob Spink: To ask the Deputy Prime Minister if he will list the councils and fire authorities which require individual fire extinguishers for park home residences rather than fire points within 30 metres of each residence; and if he will make a statement. [188730]

Keith Hill: This information requested is not held centrally, and could be provided only at disproportionate cost. There are no powers for the Fire Safety Service to require the information.

Section 5 of the Caravan Sites and Control of Development Act 1960 gives local authorities the responsibility for the regulation of fire precautions on park home sites, by enabling the local authority to impose conditions on the park homes site licences the authority issues. The local authority must have regard to Secretary of State, my right hon. Friend the Deputy Prime Minister's model standards in issuing or reviewing the conditions of a site licence. In addition, the Act provides that a local authority is required to consult with the fire authority for the park as to the extent to which the model standards relating to the fire precautions are appropriate to the land, and if the conditions (if any) are found to be unsuitable, the local authority must consult with the fire authority about the conditions that ought to be attached to the licence instead. Ultimately though, it is matter for the local authority to decide upon the appropriate conditions to apply to site licences and there is no requirement that information about a site licence is provided to central Government.

A local authority has the power to enter a site and monitor the upkeep of site licensing conditions.

Regional Observatories

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the answer of 1 September 2004, *Official Report*, columns 742-44W, from the Deputy Prime Minister, which Government Department has responsibility for overseeing the expenditure of the regional observatories. [188269]

Phil Hope: Regional observatories are voluntary partnerships formed in the regions. Central Government does not oversee their expenditure.

Supporting People Programme

Derek Conway: To ask the Deputy Prime Minister what the level of Supporting People programme grants are for each London borough. [188589]

Keith Hill: The Supporting People programme grant for each of the London boroughs for 2004-05 was:

London borough	*Supporting People programme grant 2004-05 (£)*
Barking and Dagenham	4,997,640
Barnet	7,490,089
Bexley	2,777,648
Brent	13,723,511
Bromley	5,645,494
Camden	39,696,525
City of London	741,115
Croydon	8,881,039
Ealing	11,643,789
Enfield	11,849,724

Waltham Forest	7,967,877
Wandsworth	11,860,631
Westminster	18,250,145

Telecommunications Masts

Derek Conway: To ask the Deputy Prime Minister when he will implement the recommendations of the Stewart Report, section 1:36 within planning policy guidance note 8. [188588]

Keith Hill: Section 1:36 of the Stewart Report recommends that telecommunication development should be subject to the normal planning process. The Stewart Report made this recommendation in order to improve local consultation. The arrangements the Office of the Deputy Prime Minister put in place following the Stewart Report provide for the same consultation on mobile phone masts up to 15 m in height as is required by full planning permission.

Derek Conway: To ask the Deputy Prime Minister what representations he has received from local planning authorities on the recommendations of the Stewart Report on permitted development of masts at 15 metres or below. [188591]

Keith Hill: Since the publication of the revised Planning Policy Guidance Note 8: Telecommunications in August 2001 10 local planning authorities have made representations about the Government's response to the recommendation of the Stewart Report on permitted development of masts up to 15 metres in height.

Mr. Shepherd: To ask the Deputy Prime Minister whether, in the light of the recent statement by Sir William Stewart, Chairman of the Health Protection Agency and the National Radiation Protection Board on whether Tetra had any harmful effects, he plans to remove the permitted development rights granted to licensed

telecommunications operators under the Town and Country Planning (General Permitted Development) Order 1995 (Part 24 of Schedule 2). [188819]

Keith Hill: The Government currently have no plans to remove the permitted development rights granted to licensed telecommunications operators under Part 24 of the "Town and Country Planning (General Permitted Development) Order 1995".

The National Radiological Protection Board's (NRPB) independent Advisory Group on Non-ionising Radiation (AGNIR) published a report on "Possible Health Effects from Terrestrial Trunked Radio (TETRA)" in 2001. The report noted that the signals from TETRA base stations, like their mobile phone counterparts, are not pulsed. NRPB advise that there is no reason to believe that signals from TETRA base stations should be treated differently from other base stations.

TRADE AND INDUSTRY

Renewable Energy

Mr. Austin Mitchell: To ask the Secretary of State for Trade and Industry if she will make a statement on subsidies available for companies working to find and develop renewable energy sources. [187296]

Mr. Mike O'Brien: The Renewables Obligation is the key policy mechanism by which the Government are encouraging the growth necessary to reach the UK's renewable energy targets. It requires all licensed electricity suppliers in England and Wales to supply a specified and growing proportion of their electricity from renewables. Renewable energy is also exempt from the Climate Change Levy, a tax on commercial energy use.

In addition the Government also provides a range of other support for industry-led research and development and demonstration projects for longer term renewables and low carbon energy generation technologies, through the DTI and the Carbon Trust. Further details can be found at http://www.dti.gov.uk/energy/renewables/index.shtml and http://www.thecarbontnist.co.uk/

Age Discrimination

Mr. Waterson: To ask the Secretary of State for Trade and Industry what plans she has to introduce legislation against age discrimination in the work place following the judgment in the case of Rutherford and Bentley *v.* Towncircle Ltd.; and if she will make a statement. [188254]

Jacqui Smith: The Rutherford and Bentley case is not about age discrimination—it is about sex discrimination, and the Government welcomes the Court of Appeal judgment that UK legislation is not unlawful. The Government have undertaken public consultation on forthcoming age legislation, which will come into force in 2006, including proposals on upper age limits for unfair dismissal and statutory redundancy payments.

British Nuclear Group

Llew Smith: To ask the Secretary of State for Trade and Industry when she received from BNFL its first near term work plans and its lifecycle baseline analysis for British Nuclear Group sites; and what procedure is in place for amendment to these planning documents. [187502]

Mr. Mike O'Brien: The first lifecycle baselines for British Nuclear Group sites were received on 30 September 2003. The first near term work plans for BNFL sites were received on 15 March 2004. Updating lifecycle baselines and near term work plans will be an annual process.

British Telecom (Service Obligations)

Mr. Drew: To ask the Secretary of State for Trade and Industry what powers she has to instruct BT to meet its obligations to customers who have a medical priority in the event of breakdown or disruption due to planned maintenance. [188391]

Mr. Mike O'Brien: The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

Business Link

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the estimated administrative cost is of devolving Business Link services to the regions. [186347]

Nigel Griffiths: The combined estimated administrative cost to the Department of Trade and Industry and the Regional Development Agencies, of devolving the management of Business Link Operators to the Regional Development Agencies is less than £650,000.

Business Support Agencies

Mr. Bellingham: To ask the Secretary of State for Trade and Industry how her Department measures the success of its business support agencies. [186318]

Nigel Griffiths: The common monitoring framework for all DTI business support product provision measures immediate benefits to assisted businesses, quality of service they receive and the process required to deliver a good service.

All business support products will also be included in an annual Business Support Cross Product Monitoring Survey. The monitoring survey aims to measure the client experience and subsequent impact and effectiveness of each scheme.

In addition DTI undertakes regular evaluations of the economic benefits of each its products and services and these are published on the DTI website.

Combined Heat and Power

Richard Younger-Ross: To ask the Secretary of State for Trade and Industry (1) what discussions the

Sustainable Energy Policy Group ministerial committee has had in relation to the Combined Heat and Power Strategy; [187581]

(2) what discussions *(a)* the Sustainable Energy Policy Network (SEPN) Advisory Board, *(b)* the SEPN Programme Board and *(c)* the SEPN Strategy Group have had in relation to the Combined Heat and Power Strategy. [187582]

Mr. Mike O'Brien: The Sustainable Energy Policy Network (SEPN) Ministerial Committee, the SEPN programme board and SEPN strategy group regularly have wide ranging discussions on energy policy issues, including the contribution of Combined Heat and Power (CHP) to the objectives set out in the Energy White Paper.

Minutes of the Sustainable Energy Policy Advisory Board's discussions can be found on the SEPN website at http://www.dti.gov.uk/energy/sepn/structure.shtml#advisory. The CHP Strategy was not on the Board's agenda at the three meetings held since its creation in December 2003.

Corporate Venturing UK

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the total funding is that has been given by her Department to support Corporate Venturing UK since it was launched. [186343]

Nigel Griffiths: The total funding provided by this Department to Corporate Venturing UK since its inception is £1,465,415.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on her Department's proposed funding arrangements for Corporate Venturing UK. [186344]

Nigel Griffiths: The Department has no plans to provide further funding for Corporate Venturing UK.

Cybersquatting

Michael Fabricant: To ask the Secretary of State for Trade and Industry what statistics the Government collate on *(a)* incidences and *(b)* the cost to British business of cybersquatting on British companies and individuals. [187952]

Mr. Mike O'Brien: The Government do not run the internet and we do not have responsibility for internet domain names. Statistics for Top Level Domain names are held on the WIPO (World Intellectual Property Organisation) Arbitration and Mediation Center website (www.arbiter.wipo.int/.domains/index.html). Since 1999 WIPO has recorded 554 instances of disputes for generic top level domain names (.int .com etc.) in which the complainant was domiciled in the UK.

Nominet UK is responsible for .uk internet domain name registration. As of 31 August there were over 3.6 million .uk registrations in Nominet's register database. To date, Nominet has received 1,813 disputes into its Dispute Resolution Procedure since September 2001.

Nominet's Dispute Resolution Procedure is free of charge and Nominet provides it's administrative and mediation services free. The domain name registry responsible for .com, .net etc. offer similar dispute resolution procedures; where they are administered by WIPO they are subject to fees as set out at (www.arbiter.wipo.int/domains/fees/index.html).

Michael Fabricant: To ask the Secretary of State for Trade and Industry if she will make a statement on the Government's policy towards the practice of cybersquatting; and what steps the Government are taking to reduce cybersquatting. [187957]

Mr. Mike O'Brien: WIPO defines cybersquatting as the pre-emptive, bad faith registration of trademarks as domain names by third parties who do not possess rights in such names. Cyber squatters exploit the first come first served nature of the domain name registration system to register as domain names third parties' trademarks or business names of famous people as well as variations thereof. A common motive for cybersquatting is the intention to sell the domain name back to the trademark owner or to attract web traffic to unrelated commercial offers.

The Government support the development of affordable alternative dispute resolution procedures by domain name registries.

It is ICANN's (Internet Corporation For Assigned Names and Numbers) responsibility to co-ordinate, at a global level, the internet domain name system. ICANN's board have adopted a Uniform Domain Name Dispute Resolution Policy for all registrars serving the .com, .net, and .org domains.

Nominet UK manages the database of .uk domain name registrations. Nominet have a Dispute Resolution Procedure developed in close consultation with UK stakeholders.

Defence Information Infrastructure (Future) Contract

Helen Jones: To ask the Secretary of State for Trade and Industry what assessment she has made of the consequences for *(a)* employment opportunities and *(b)* skills in the north-west of the award of the Defence Information Infrastructure (Future) contract to each of the current bidders. [188263]

Jacqui Smith *[holding answer 13 September 2004]:* No assessment by DTI has been made of the UK employment implications related to either of the bidders for the MoD's Defence Information Infrastructure (Future) procurement.

European Directives (Environment)

Sue Doughty: To ask the Secretary of State for Trade and Industry if she will list each environment-related European Directive the implementation of which involves her Department; and what steps her Department is taking towards implementation in each case. [187213]

Mr. Mike O'Brien: This Department is involved in the implementation of all environment-related European Directives, because of their implications for business, but takes the lead on the following current measures:

(a) The End-of-Live Vehicles (ELY) Directive (2000/53/EC). Implementation has been partially effected by the ELV Regulations 2003 (S.I. 2003/2635), and will be completed by the forthcoming ELV (Producer Responsibility) Regulations, on which public consultation took place earlier this year.

(b) The Waste Electrical and Electronic Equipment Directive (2002/96/EC) and The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Directive (2202/95/EC). Draft Regulations to transpose these Directives were published for consultation on 30 July 2004.

(c) The Packaging and Packaging Waste Directive (1994/62/EC). DTI has introduced Regulations (SI 2003/1941, amended by SI 2004/1188) relating to the essential requirements (composition and definition) of packaging and packaging waste.

(d) The proposed Directive on Batteries and Accumulators and Spent Batteries and Accumulators (COM(2003)723 final). A first consultation, seeking stakeholder views on the proposed measure, has recently closed, and responses are being assessed.

(e) The proposed Directive to amend the Whole Vehicle Type Approval Directive, specifying reusability, recyclability and recoverability standards for vehicle design (COM(2004) 162 final). Negotiations have not yet began on this proposal.

Sue Doughty: To ask the Secretary of State for Trade and Industry how many full-time equivalent staff have been assigned to work on each environment-related European Directive, the implementation of which involves her Department. [187214]

Mr. Mike O'Brien: The equivalent of 13 full-time executive, administrative economic, and legal staff have been assigned to work on all the range of environment-related European Directives on which DTI takes the lead in implementation.

Gas and Electricity Supply

Mr. Bill O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has had of increases imposed by Centrica gas suppliers on prices to domestic customers; what action she is taking to ensure greater diversity in generating electricity with greater use of coal; and if she will make a statement. [188097]

Mr. Mike O'Brien: While gas retail prices are a commercial matter for the companies concerned, consumers are normally free to seek a better deal and can switch energy supplier. Although some gas suppliers have announced gas prices recently, even after these price rises the real price of domestic gas will be significantly lower than that seen over most of the last 30 years

We are continuing to monitor developments regarding diversity in the electricity generation market e.g. through the Joint Energy Security of Supply Working Group (JESS) which consists of officials from Government, Ofgem and National Grid Transco.

We recognise the value of coal fired generation, especially its ability to meet peaks in demand and cover supply intermittency. We believe it will have a continuing role in a diverse energy balance provided that its associated carbon emissions can be reduced through clean coal technologies. We plan to publish around the end of the year a Carbon Abatement Technologies Strategy aimed at supporting the development of low carbon technologies from fossil fuels such as coal.

MOX Plant (Sellafield)

Mr. Hancock: To ask the Secretary of State for Trade and Industry how much public money has been given to the MOX Plant at Sellafield in each year since 1990; what the projected sums are for future years; and if she will make a statement. [187524]

Mr. Mike O'Brien: The construction and operation of the Sellafield MOX Plant (SMP) has been funded by BNFL from income from the company's commercial operations. No publicly voted money has been provided to the company.

The Nuclear Decommissioning Authority (NDA), which will become operational from 1 April 2005, will assume full financial responsibility for the UK's civil public sector nuclear assets and liabilities.

A number of BNFL's assets will transfer to the NDA in April 2005, including SMP. Money voted by Parliament intended for the clean up programme will not be used to subsidise commercial operations such as SMP.

Mr. Hancock: To ask the Secretary of State for Trade and Industry how much revenue was forecast to be generated by the MOX Plant at Sellafield at its inception in each year to 2004; what the outturn has been; what the projections are for future years; and if she will make a statement. [187525]

Mr. Mike O'Brien: The Government commissioned an independent review of the Sellafield MOX Plant (SMP) economic case by Arthur D. Little in 2001. The consultants analysis in the report, stated that: "there is a robust economic case for proceeding with SMP" and that "the expected Net Present Value (NPV) of the national economic interest case for SMP is £216 million".

Details of SMP annual revenues are commercially confidential. The recently published audited 2004 Annual Accounts for BNFL noted that the most recent financial forecasts for SMP, which are used both for economic appraisal and accounting for SMP contracts, has shown some deterioration from last year. This reflects recent difficulties in achieving production ramp up and BNFL's current best estimate of the future production profile.

Mr. Hancock: To ask the Secretary of State for Trade and Industry which countries were expected to place orders with the MOX Plant at Sellafield at its inception; and how many have done so to date. [187526]

Mr. Mike O'Brien: The economic case for the Sellafield MOX Plant (SMP) presented to the Environment Agency in 1997 was based on MOX business from Japanese, German, Swiss and Swedish customers. To date, SMP has secured contracts from German, Swiss and Swedish customers plus commitments from Japanese customers. I understand from BNFL that the company is hopeful of securing Japanese MOX contracts in the future.

Mr. Hancock: To ask the Secretary of State for Trade and Industry how much profit the MOX plant at Sellafield is expected to make in its lifetime. [187527]

Mr. Mike O'Brien: This is a commercially confidential figure under Exemption 13—Third Party Commercial Confidences of the Code of Practice on Access to Government Information and the Government are working with BNFL to ensure that the best value for money is achieved for the taxpayer with respect to the operations of this plant.

Nuclear Decommissioning Authority

Llew Smith: To ask the Secretary of State for Trade and Industry what progress has been made since December 2003 in respect of the consideration by the European Commission of details provided by the Government on the proposed financing of the Nuclear Decommissioning Authority. [187604]

Mr. Mike O'Brien: The European Commission is still considering the matter. We hope for a decision soon.

Nuclear Waste

Llew Smith: To ask the Secretary of State for Trade and Industry what response has been received from the European Commission following the plan presented by the United Kingdom on 1 June in respect of the nuclear waste storage silo B30 at Sellafield. [187503]

Mr. Mike O'Brien: As of 7 September, UK authorities had received no formal or substantive response from the Commission to the plan presented on 1 June in respect of B30 at Sellafield. The Commission has however issued a press release dated 3 September in which it states that it will refer the UK to the European Court of Justice. The UK remains keen to engage in a full and co-operative dialogue with the Commission aimed at satisfactorily resolving the remaining Euratom Treaty safeguards issues at the B30 plant.

Overhead Power Lines

Mr. Charles Kennedy: To ask the Secretary of State for Trade and Industry what steps the Government has taken to evaluate the impact of new overhead power lines on the economy of communities reliant on tourism. [187491]

Mr. Mike O'Brien: This is one of a number of issues for Government to take into account when considering an individual application for consent to a particular proposal for a new overhead line. In Scotland it is for Scottish Ministers to take that decision.

Renewable Energy

Sue Doughty: To ask the Secretary of State for Trade and Industry how many householders have taken advantage of the Clear Skies renewable energy grants scheme since the scheme started operating; and how much has been awarded in grants. [188171]

Mr. Mike O'Brien: Since the start of Clear Skies 4,204 household applications have been made with a total value of £2,489,050. Of these 3,939 have been accepted and 2,347 have been paid, with a total value of £1,297,050.

Sue Doughty: To ask the Secretary of State for Trade and Industry if she will make a statement on future plans for the Clear Skies renewable energy grants scheme. [188172]

Mr. Mike O'Brien: The Department is currently considering how best to allocate the recent Spending Review Settlement for sustainable energy. While the settlement was a good one in the context of a tight spending review, it unfortunately will not allow us to do everything.

We are currently considering the case made by the industry to make a further extension to Clear Skies in the context of the overall funding made available for renewables and low carbon generation in SR2004.

An announcement about continued funding will be made shortly.

Renewables Obligation

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will make a statement on the timescale for the consultation on the renewables obligation. [188419]

Mr. Mike O'Brien: There are two separate consultations on the Renewables Operation under way at present.

First, the Government launched a consultation on the terms of reference for the Review of the Renewables Obligation which will take place in 2005/06. The review will address the effectiveness of the Obligation to date, the future profile of the Obligation, its working arrangements and the transition to market over time for renewables technologies including taking account of support under the Obligation and the Emissions Trading Scheme. The consultation period on the terms of reference ends on 30 September. A preliminary consultation is planned for early next year followed by a statutory consultation of all stakeholders later in 2005 with a view to any necessary changes that can be made by secondary legislation taking effect from 1 April 2006.

In addition, on 8 September the Government published a separate consultation paper on a number of limited changes to the Renewables Obligation to strengthen the development of electricity generation capacity using renewable energy sources in the UK. This is a more limited consultation concerning measures to:

- extend the profile of the Obligation to 2015/16;
- allow tradability between Northern Ireland Renewables Obligation Certificates (NIROCs) and GB ROCs;
- introduce measures that will further secure the buy-out fund in the event of a shortfall occurring;
- consider the introduction of a single recycling mechanism for the separate buy-out funds;
- introduce more flexibility for small generators.

The period for this consultation ends on 1 December, and the Government plans to make any necessary changes to take effect from 1 April 2005.

Mr. Drew: To ask the Secretary of State for Trade and Industry whether the calculation of the effectiveness of renewable obligations will include the operation of renewable obligation certificates. [188420]

Mr. Mike O'Brien: Yes. The operation of Renewables Obligation Certificates (ROCs) are an important element of the Renewables Obligation. The forthcoming review of the Renewables Obligation in 2005/06 will include, among other things, an assessment of the effectiveness of the operation of the ROCs market.

State Aid

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what estimate her Department has made of the levels of state aid to industry in other EU member states relative to the UK and of whether this results in unfair competition. [186419]

Mr. Mike O'Brien: The European Commission publishes regular reports on levels of state aid spending in member states, based on information which member states are required to provide, and the results are available on the Commission's website at: http://europa.eu.int/comm/competition/state_aid/scoreboard/

EU rules on state aid provide a safeguard against any member state funding businesses in a way that will distort competition and trade within the single market. The Government sees this regime as essential in ensuring a level playing field for businesses across the EU, and we are committed to the objectives agreed at Lisbon and other European Councils of less and better targeted state aid.

Telephone Billing

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will require British Telecom to allow its competitors to offer a single telephone bill for its customers. [186331]

Mr. Mike O'Brien: The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

Tidal Energy

Nick Harvey: To ask the Secretary of State for Trade and Industry what steps she is taking to promote tidal energy; and what plans she has to increase investment in its further development. [187041]

Mr. Mike O'Brien: The main form of support for all renewable technologies is the Renewables Obligation (RO) which provides a stable and long term market for renewable electricity. Electricity generation from both wave and tidal stream technologies is eligible for the RO.

However, these technologies are still at the developmental stage. Therefore the principal form of support to date has been through the DTI's Technology Programme that since 1997 has committed around £15 million towards the development of these technologies.

On 2 August the Government announced a further £50 million funding primarily focused on supporting the UK's marine renewables industry through the next phase of development of these technologies, which includes small scale demonstration and pre-commercial stages.

The Department is now working closely with the Carbon Trust, Scottish Executive and other stakeholders looking at mechanisms for applying the funding, subject to State Aid approval.

Nick Harvey: To ask the Secretary of State for Trade and Industry what estimate she has made of the potential contribution to the UK's energy needs of tidal power. [187042]

Mr. Mike O'Brien: A study has been commissioned to provide a spatial quantification of renewable sources of energy—wave, tidal and offshore wind across the waters of the UK continental shelf. In addition to the spatial variation of these resources, temporal variations will also be assessed. This study (ATLAS) will assist in deciding which areas of the sea will next be subject to Strategic Environmental Assessment.

The first stage of the study which has just been completed provides information on the energy levels with a resolution of about 12 km. The second stage will involve the conversion of the raw energy potential into the amount of energy presently available. It will also allow higher resolution in specific areas such as through main channels. The study is expected in the autumn and we intend to publish it.

Additionally, there have been two previous studies[1,2] which examined the potential tidal stream power resource in the UK. The later of those studies completed in 1996 under the EC JOULE-II energy research programme identified a total of 42 potential sites in UK waters with a combined annual output totalling some 31 TWh/yr which represents 8 per cent. of UK annual electricity demand in 2003.

[1] Tidal Stream Energy Review ETSU T/05/00155, 1993

[2] Marine Currents Energy Extraction: Resource Assessment, Final Report, EU-Joule contract JOU2-CT93-00355, 1995

Wind Farms

Mr. Ben Chapman: To ask the Secretary of State for Trade and Industry what estimates have been made of the costs of steel production in the construction of wind farms. [186600]

Mr. Timms: A typical 2 MW wind turbine weighs around 260 tonnes and approximately 95 per cent. of that by weight is steel. Installed costs of onshore wind turbines are around £700,000 per MW, of which the turbines can account for around 75 per cent., although this will depend on factors such as the cost of the foundations and grid connection etc. One a per tonne basis, steel costs even at current market prices would account for less than 10 per cent. of the cost of the turbine.

However, the cost of the steel itself is not necessarily the driving cost fact in all components of the turbine. For example, the tower section of the turbine is a relatively simple structure and in this case the amount of steel used will be the primary cost factor. However, other sections such as the nacelle, which contain complex components such as the turbine generator etc, might account for 25–40 per cent. of weight and 25 per cent. of the cost of the turbine. Although steel is still the primary component by weight, other raw materials and the processes involved in making these complex components account for a more significant proportion to total costs.

Nick Harvey: To ask the Secretary of State for Trade and Industry whether the 50 MW threshold, above which she determines planning applications for wind farms, is based on the wind farm's theoretical maximum output, or its actual projected output. [187039]

Mr. Mike O'Brien: When looking at the capacity of a power station for the purposes of applications made under section 36 of the Electricity Act 1989, it is the rated capacity which counts. That is the capacity which can be generated by the station and fed through the alternators without causing damage to the alternators.

Nick Harvey: To ask the Secretary of State for Trade and Industry what constitutes a single wind farm for the purposes of planning applications; and whether there is a maximum distance between two clusters of turbines, beyond which they would be regarded as two wind farms. [187040]

Mr. Mike O'Brien: The Department is of the view that a wind farm could be considered as one where it used the same common services such as transmission cables, electricity sub-station and control room. If separate services were to be used then it would be two stand alone proposals and fall to be determined as two separate applications. While there is no maximum distance between each turbine the Department would expect the turbines to be spaced in such a manner that the distance between each turbine is the optimum for generation and satisfying environmental concerns.

Mr. Ben Chapman: To ask the Secretary of State for Trade and Industry what estimates have been made of levels of carbon dioxide production as a result of building wind farms. [187570]

Mr. Mike O'Brien: A number of studies have estimated the overall environmental cost of building wind power generation based on energy payback or life cycle analysis. These calculations project the energy output as a ratio of energy required to build, maintain and decommission the power station.

The average wind farm in the UK will pay back the energy used in its manufacture within three to five months, and over its lifetime a wind turbine will produce over 30 times more energy than was used in building, maintenance and decommissioning according to a study commissioned by the British Wind Energy Association.

DEFENCE

Afghanistan

Mr. Bercow: To ask the Secretary of State for Defence if he will make a statement on *(a)* the number of fighters serving with the militias in Afghanistan and *(b)* the arms available to them. [188362]

Mr. Ingram: It is difficult to estimate accurately the number of fighters serving with militias in Afghanistan accurately, due to the difficulty of obtaining reliable intelligence reporting and the precise definition of what constitutes a militia fighter. Nevertheless, we estimate there to be around 50–60,000. They are predominantly armed with Soviet-era small arms and heavy weapons from the 1950s-1980s period.

Mr. Bercow: To ask the Secretary of State for Defence what recent discussions he has had with other members of NATO on the need for additional resources for the International Security Assistance Force in Afghanistan. [188363]

Mr. Ingram: The United Kingdom strongly supports the expansion of the International Security Assistance Force (ISAF) as an essential part of the international community's efforts to stabilize and rebuild Afghanistan. Our leadership of Stage 1 of ISAF expansion and our deployment of Harrier GR7 aircraft to support both ISAF and coalition operations are examples of this commitment. In this context, we routinely engage with our NATO allies to discuss what additional resources are needed to facilitate ISAF expansion.

Coastal Protection (Northern Ireland)

Mr. Dodds: To ask the Secretary of State for Defence how many coastal protection vessels have been deployed in Northern Ireland waters by the Royal Navy in each year since 1997; and which the vessels were. [187417]

Mr. Ingram: During the period in question, four Royal Navy vessels were initially assigned to Northern Ireland patrol duties: HMS Itchen, HMS Blackwater, HMS Spey and HMS Arun. These ships were progressively withdrawn during 1998 and replaced by the current patrol ships HMS Cottesmore, HMS Dulverton and HMS Brecon which, as announced by my right hon. Friend the Secretary of State for Defence (Mr. Hoon) on 21 July 2004, will be paid off by April 2007.

Departmental Budget

Mr. Keetch: To ask the Secretary of State for Defence when his Department is planning to release its budget. [187128]

Mr. Ingram: Details of the 2004–05 budget can be found at Table 1 of the current edition of the Ministry of Defence's 'Government Expenditure Plans 2004–05–2005–06' (Cm 6212).

Iraq

Adam Price: To ask the Secretary of State for Defence whether British service personnel worked as part of the team of the US military judge advocate in Iraq, Colonel Mark Warren. [185908]

Mr. Ingram: One United Kingdom officer worked with Colonel Warren.

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 19 July, 2004 *Official Report*, column 245W, on Iraq, how many enquiries by *(a)* civilian authorities and *(b)* military police resulted from these incidents; what the conclusions were; and if he will make a statement. [186420]

Mr. Ingram: Eight incidents that led to allegations against United Kingdom forces and compensation being paid to Iraqi people have been investigated by the Royal Military Police. Three concluded that no crime could be established and five have been referred to the relevant prosecuting service.

Mr. Bercow: To ask the Secretary of State for Defence how many Iraqi detainees and prisoners of war were held by British forces in Iraq on 29 June. [188320]

Mr. Ingram: There were no prisoners of war or detainees held by British forces in Iraq on 29 June. However, 49 internees were held.

Adam Price: To ask the Secretary of State for Defence whether a British officer was responsible for supervising Lieutenant-Colonel Steven Jordan during his time at Abu Ghraib in 2003 and 2004. [188302]

Mr. Ingram *[holding answer 13 September 2004]:* No. At no time have United Kingdom officers had direct responsibility for supervising any of the US personnel posted to Abu Ghraib.

Adam Price: To ask the Secretary of State for Defence whether Colonels Campbell James and Chris Terrington were part of a joint reporting or command chain with the US army during their time in Iraq. [188303]

Mr. Ingram *[holding answer 13 September 2004]:* Colonel Terrington and his successor, Colonel Campbell-James were embedded within the C2 (Intelligence) Division of the US Combined Joint Task Force 7.

Mr. McNamara: To ask the Secretary of State for Defence what rules govern *(a)* the handling of captured firearms and ammunition in Iraq, *(b)* the personal retention of captured weaponry and *(c)* selling such weapons; how many (i) officers and (ii) soldiers have been found in breach of such rules; how many have been subject to disciplinary action; and what sanctions have been applied. [176025]

Mr. Ingram: In Iraq, all captured enemy ammunition is handled by qualified Explosive Ordnance Disposal personnel, in accordance with the Ammunition and Explosive regulations and Joint Service Publication 482. Captured weapons are transferred to a central facility for destruction, repair, re-distribution to the Iraqi Security Forces, or when given approval, returned to owners. Personal retention of captured weapons is not permitted. In some cases, operational memorabilia is cleared for return to the UK for retention by the capturing units. Service Police conduct anti-smuggling checks on equipment, vehicles, containers and baggage transported back to the UK and service flights are subject to checks by HM Customs and Excise.

As at 31 August 2004, a total of three service personnel had been reported by the Royal Military Police for possession of captured firearms from Iraq.

Mr. McNamara: To ask the Secretary of State for Defence what instructions were made available to interrogators and other soldiers involved in the handling of prisoners in Iraq from March 2003 onwards in order to prevent European Convention on Human Rights violations under Article 3 occurring through each of the five techniques identified by the Court in 1978. [174551]

Mr. Ingram: All UK armed forces personnel are instructed that Iraqi prisoners should be treated in accordance with the Geneva Conventions, which include the prohibition of torture. Each major unit also has a number of personnel trained to a greater degree in prisoner handling.

All UK interrogators must successfully complete a stringent course prior to undertaking any operational interrogations. During the course they are specifically instructed that individuals being questioned must, again, be treated at all times in accordance with the Geneva Conventions.

Harry Cohen: To ask the Secretary of State for Defence further to his statement of 7 January 2004, *Official Report*, column 139WH, on the case of Baha Musa, when he expects the investigation to be completed; whether its outcome will be placed in the public domain; and if he will make a statement. [171623]

Mr. Ingram: The investigation into the death of Baha Musa has concluded and the case is now being considered by the Army Prosecuting Authority. Any ensuing trial would be held in public.

Porton Down

Mr. Key: To ask the Secretary of State for Defence what progress has been made on the relocation of Defence Science and Technology Laboratories facilities and personnel to Porton Down; and if he will make a statement. [186357]

Mr. Ingram *[holding answer 13 September 2004]:* Work to relocate Dstl facilities and personnel to Porton Down, has focused on the selection of a strategic partner who will provide the new facilities at Porton Down, and become the facilities management supplier to Dstl for 15 years from 2006.

Four companies have now been short-listed to receive the invitation to tender (ITT), which is expected to be released towards the end of 2004. We hope that a preferred bidder will be appointed in autumn 2005.

RAF Croughton

Norman Baker: To ask the Secretary of State for Defence for what reasons UK forces at RAF Croughton, are not allowed access to Commissary and BX services run by the US. [188752]

Mr. Ingram *[holding answer 13 September 2004]:* In accordance with the terms of the NATO Status of Forces Agreement the US Visiting Force is permitted to "import free of duty the equipment for the force and reasonable quantities of provisions, supplies and other goods for the exclusive use of the force" (Article XI (4)).
These provisions, supplies and other goods are made available through Army Air Force Exchange Services (Base Exchange—BX) and Defense Commissary Agency stores.

Her Majesty's Customs and Excise regulations require the United States Visiting Force to refrain from selling goods imported or purchased tax and/or duty free to any persons other than members of the US Force, its civilian component and their dependants.

Norman Baker: To ask the Secretary of State for Defence what provision comparable to the Commissary and BX service available to US forces at RAF Croughton, exists for UK forces. [188753]

Mr. Ingram *[holding 13 September 2004]:* RAF Croughton is made available to the United States Visiting Force under the terms of the NATO Status of

Forces Agreement 1951. The United Kingdom forces are not stationed at RAF Croughton and there is, therefore, no need to provide facilities comparable to the US Commissary and BX service.

Warrior

Mr. Gerald Howarth: To ask the Secretary of State for Defence what recent assessment he has made of the propensity of the Warrior to engage in *(a)* undemanded firing of weapons and *(b)* other actions attributable to design faults in the electrical and safety systems. [186641]

Mr. Ingram: Technical investigations have been carried out since 1999, following a small number of reported incidents involving the undemanded firing of the Warrior chain gun. The investigations concluded that there is a very low risk of the undemanded firing of the chain gun or main armament. A Post Design Service task is currently in progress with the Design Authority to explore whether any design changes may be justified. In addition, a safety notice has been issued to the Warrior user community informing them of the problem, to ensure the continued safe operation of the vehicle.

Two other technical investigations into the undemanded power traverse of the turret and undemanded operation of the rear door have also been carried out. Solutions to address both these problems are also being pursued by the Design Authorities. A modification programme to prevent the undemanded power traverse of the turret is due to commence this month.

FOREIGN AND COMMONWEALTH AFFAIRS

Bangladesh

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent attempt to assassinate Sheikh Hasina, the parliamentary opposition leader in Bangladesh. [188313]

Mr. Alexander: As my right hon. Friend the Foreign Secretary said in his press statement of 22 August, we were shocked to hear of the bombings in Dhaka on 21 August and the many deaths and injuries they caused. A copy of the statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/news/policy/press-releases. We extend our sympathies to all those injured, and to the families of the victims. We condemn these bombings and call on all concerned to refrain from further violence, and to exercise restraint. We welcome the Bangladeshi Prime Minister's public expression of determination to see those responsible brought to justice, and hope that this can be done through an investigation process in which all parties, and the public, can have confidence.

Departmental Pamphlets

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of printing his Department's pamphlet, "Inclusive Government: mainstreaming gender into foreign policy"; and how many pamphlets were printed. [188457]

Mr. Straw: The printing cost of the Foreign and Commonwealth Office's booklet "Inclusive Government: mainstreaming gender into foreign policy" was £2,730. We printed 3,000 copies.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187318]

Mr. Rammell: On the Foreign and Commonwealth Office UK estate, there are:

No rooms are set aside specifically for the use of smokers; there are, however, licensed bars at the Main Building in London and at Hanslope Park in which smoking is permitted in designated areas.

Two rooms are set aside for worship, one in the FCO Main Building in Whitehall and the second at Hanslope Park—both rooms are designated as Multi-Faith. In the Old Admiralty Building (OAB) there are no rooms set aside solely for worship although two meeting rooms have been identified which may be used for multi-faith worship if not being used for their primary purpose.

No rooms are specifically set aside for nursing mothers and pregnant women, although First Aid Rooms in the Main Building, OAB and Hanslope Park may be used if desired.

European Union (Cost-Benefit Analysis)

Michael Fabricant: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date the Government last undertook a cost-benefit analysis of United Kingdom membership of the European Union, including *(a)* indirect costs and benefits and *(b)* direct costs and benefits. [188781]

Mr. MacShane: UK membership of the European Union is vital for British jobs and prosperity. There is broad consensus among academics that UK membership of the European Union promotes growth, competitiveness and employment through the operation of the internal market. Our trade with Europe accounts for 3 million British jobs. 53 per cent. of our total imports of goods and services are from Europe. 50 per cent. of our total exports of goods and services go to Europe. And 65 per cent. of our investment overseas now goes to Europe.

The Government continually consider the direct and indirect costs and benefits of specific EU legislative proposals, in the context of ongoing European policy development.

Ewa Jasiewicz

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government regarding the detention of Ewa Jasiewicz; and if he will make a statement. [188068]

Mr. Mullin: We were informed of Ms Jasiewicz's detention on 12 August when she called our embassy in Tel Aviv to report that she had been refused entry. Following legal appeals and counter-appeals by Ms Jasiewicz and the Israeli authorities, we understand that Ms Jasiewicz returned to the UK on 1 September. The issue of entry and exit to Israel is a matter for the Israeli authorities. However, our ambassador in Tel Aviv has recently written to the Israeli Ministry of Foreign Affairs to raise our concerns over the treatment of British journalists and representatives of British media organisations.

Iran

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on negotiations with Iran regarding its nuclear weapons programme. [186868]

Mr. MacShane: Discussions between senior officials have taken place during the summer. A further report on Iran's nuclear programme by the Director-General of the International Atomic Energy Agency (IAEA) will be discussed at the meeting of the Agency's Board of Governors, which began on 13 September.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Iran about the Bushehr nuclear plant. [188368]

Mr. MacShane: Discussions with Iran, relating to its' nuclear programme, have taken place between senior officials during the summer. There has been no recent ministerial discussion with the Iranian Government on this subject.

Iraq

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the political parties registered for elections in Iraq; and if he will break them down by *(a)* religious and *(b)* ethnic affiliations. [187616]

Mr. Rammell: The timetable for the organisation of the elections has not yet reached the stage of registration. The Independent Electoral Commission for Iraq timetable foresees registration taking place in November. We anticipate that a broad range of political forces and independent candidates will take part in the elections.

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs what support his Department is giving to the preparation of women candidates for parliamentary elections in Iraq. [187619]

Mr. Rammell: This Government will make every effort to assist the holding of representative elections in Iraq in January next year, including helping implement the provision in the Transitional Administrative Law that calls for a target of 25 per cent. representation in the Transitional National Assembly by women. The stipulation in the electoral law that every third candidate on election lists should be female bodes well in this regard.

The Department for International Development, through its Political Participation Programme which is being administered by the British Council, is spending £5 million on helping Iraqi women's organisations participate in the elections.

Laos

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Government of Laos concerning the arrest of four Christians in Kasy District in Vientiane province on 2 August; [187838]

(2) what representations he has made to the Government of Laos concerning the intimidation of Christians by the authorities in parts of Laos in recent months, including in Nam Thuam village, Vieng Samay village and Hua Muang village; and if he will make a statement; [187839]

(3) by what methods the British Government monitor abuses of religious freedom in Laos; and if he will make a statement. [187840]

Mr. Alexander: We are aware of reports of the mistreatment of Christians in Laos. Our embassy in Bangkok (which is accredited to Laos) monitors the situation. Although Lao people are officially free to worship, they may not preach in public. The Lao authorities themselves acknowledge incidents where officials have not permitted freedom of worship for Christians. We understand, however, there has been some limited progress, with a number of churches being allowed to re-open and an overall drop in the number of believers detained.

Our contacts with the Laos authorities are very limited. We are not therefore able to confirm individual reports, nor to raise individual cases on a regular basis. Ministers and officials have, however, raised our concerns over freedom of religion on a number of occasions, both in bilateral contacts and through the European Union. Most recently, on 18 June, our ambassador to Thailand raised the persecution of Christians with Deputy Foreign Minister Phongsavath Boupha.

We will continue to raise our concerns with the Lao Government when opportunities arise; and to encourage it to implement recent reforms on religious freedom.

Maldives

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the treatment of political prisoners in the Maldives. [188340]

Mr. Alexander: We remain concerned about prisoners detained without charge in the Maldives, and raise this regularly with the Maldivian authorities. Our Acting High Commissioner recently discussed this issue with

the Maldivian Attorney General, and on 6 September was part of an EU delegation which met the Maldivian Minister of Foreign Affairs. The EU delegation called upon the Maldivian government to immediately repeal the state of emergency and restore all fundamental rights to the detainees. We welcome the steps taken by the Maldivian Government to enter into an agreement with the International Committee of the Red Cross on prison monitoring, and look forward to the early conclusion of such an agreement.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the human rights situation in the Maldives. [188341]

Mr. Alexander: In December 2003, the Maldives established a Human Rights Commission (HRC) to protect, promote and preserve human rights. However the bill that would give the HRC the necessary legal power has not been passed, and we continue to have concerns, including about freedom of expression and association, and detention without charge. Following the arrests of nearly 200 people, including Special Majlis MPs, during and after the demonstrations of 12 and 13 August, we and EU partners called on the Maldivian authorities to repeal the state of emergency and restore fundamental rights to those detained. My hon. Friend the Parliamentary Under Secretary of State at the Foreign and Commonwealth Office (Mr. Rammell) reiterated our support for the President's reform proposals, and stressed the importance of ensuring that the Special Majlis, and the people of the Maldives are free to discuss constitutional change, during a meeting on 25 August with the Maldivian Special Envoy.

NATO Russia Council

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to develop the NATO-Russia Council as a tool in the war against terrorism. [188367]

Mr. MacShane: The struggle against terrorism was one of the drivers behind the foundation of the NATO-Russia Council in 2002. On 7 September the NATO-Russia Council issued a statement condemning the recent atrocities in Russia and undertaking to intensify common efforts against this shared threat, including working on measures to allow Russian naval forces to join allied units in NATO's maritime interdiction force in the Mediterranean.

Nicholas Baker

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 12 February 2004, *Official Report*, column 1656W, on Nicholas Baker, what progress has been made in the case of Mr. Nicholas Baker; what discussions on the case the Department has had with the Japanese Government over the last four months; and what further steps have been taken. [188337]

Mr. Mullin: Mr. Baker's appeal is currently ongoing in the Japanese Courts.

The Foreign and Commonwealth Office has discussed Mr. Baker's case with the Japanese authorities on a number of occasions over the last four months, at both ministerial and official level, most recently in August.

We will continue to raise Mr. Baker's case with the Japanese authorities at every appropriate opportunity. We remain in touch with Mr. Baker and his family about his case and will inform them immediately of any developments.

Regulation of Investigatory Powers Act

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to publish annually the number of interceptions of communications he approves under the Regulation of Investigatory Powers Act 2000. [188052]

Mr. Straw: No. The Annual Reports of the independent Interception of Communications Commissioner publish the numbers of interception warrants issued by my right hon. Friends the Home Secretary and the First Minister in Scotland. In line with longstanding policy, endorsed by successive Interception Commissioners, the figures for warrants issued by the Foreign Secretary and the Secretary of State for Northern Ireland are not published. The reasons are explained in the latest Annual Report published on 22 July 2004 (HC883).

Sudan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he first received reports of Janjaweed activity in Darfur; when he first raised the question of Janjaweed activities in Darfur with his counterpart in Khartoum; what assurances were then sought; and if he will make a statement. [187273]

Mr. Mullin: Attempts by the Government of Sudan to recruit militias, as part of their response to the Sudan Liberation Army (SLA) uprising, was first reported on 12 May 2003. The term "Janjaweed" was first used by the British Government on 8 September 2003, following its use at negotiations in Abeche. However, different groups use the term rather loosely to mean different things. The Government of Sudan understand it to mean "bandits"; whereas displaced persons will use it for almost any armed Arab on horseback.

We have been raising with the Government of Sudan their response to the SLA since May 2003. In May of this year the Sudanese Minister of Foreign Affairs visited London. During his visit my right hon. Friends the Foreign Secretary, the Secretary of State for International Development and I all raised the need for the Sudanese Government to disarm the militias and protect their civilians from the human rights atrocities that have been taking place. When the Foreign Secretary travelled to Khartoum and Darfur at the end of August he re-iterated this need to both the Minister of Foreign Affairs and the Sudanese President.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions concerning the situation in Darfur his Department has had with officials from *(a)* the Sudanese embassy in London and *(b)* Sudanese Government officials in Khartoum between 22 July and 7 September; and on what dates, and where, these discussions took place. [188486]

Mr. Straw: We are in regular touch with the Sudanese authorities, both through our embassy in Khartoum and the joint Department for International Development/Foreign and Commonwealth Office Sudan Unit in London. During the period specified, the main contacts included:

26 July—the British ambassador in Khartoum met Naguib El Kheir, Minister of State for Foreign Affairs.

29 July—the UK Special Representative for Sudan met the Sudanese ambassador in London.

2–3 August—the UK Special Representative for Sudan visited Sudan. Those he met included Saddiq al Mahdi (Umma Party), Yahya Hussein (Minister at the Presidency), Mohamed Yousef (Minister of Humanitarian Affairs), Qutbi Al Mahdi (Presidential Political Adviser), Mustafa Ismail (Foreign Minister).

6 August—the Foreign and Commonwealth Office Africa Director met the Sudanese ambassador in London.

12 August—the UK Charge d'Affaires in Khartoum attended the UN/Government of Sudan Joint Implementation Mechanism with Jan Pronk, UN Secretary General's Special Representative (UNSR) and EU ambassadors and Dr. Mustafa Osman Ismael, the Sudanese Foreign Minister and his team.

16 August—the UK Charge d'Affaires in Khartoum met Dr. Awad El Jaz, the Sudanese Minister of Energy and Mining

18 August—the UK Charge d'Affaires in Khartoum attended a meeting at the Foreign Ministry with the International Organisation for Migration Mission

19 August—the UK Charge d'Affaires in Khartoum attended the Joint Implementation Mechanism at the Foreign Ministry with Jan Pronk, UNSR and EU ambassadors and Dr. Mustafa Osman Ismael, Sudanese Foreign Minister and his team

23–24 August—I visited Sudan. I called on Mustafa Ismail and President Bashir. I met other members of the Government at a lunch.

2 September—the British ambassador in Khartoum called on Salah Ghosh (Director General National Security)

6 September—the British ambassador in Khartoum called on Yahya Hussein (Minister at the Presidency)

7 September—the UK Special Representative for Sudan met the Sudanese ambassador in London.

Ann Clwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the Government's assessment of whether the atrocities committed in Darfur constitute genocide and *(b)* the implications of Secretary of State Powell's comments on genocide in Darfur to the US Senate Foreign Relations Committee on 9 September. [188995]

Mr. Mullin: There is no doubt that grave crimes against humanity have been committed in Darfur. These may amount to genocide. What Colin Powell said to the US Senate Foreign Relations Committee underlines the need for all the evidence to be examined by an international commission of inquiry, which we would like the Security Council to set up.

The evidence currently available further underlines the need for sustained international action to press the Government of Sudan to carry out its responsibilities. That is what we are seeking through the Security Council.

During my own visit to Sudan this week, I will also be making clear to the Government of Sudan its prime responsibility to protect its own citizens and to bring to justice all those responsible for human rights abuses.

UK Presidency

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what preparations the Government are making for the forthcoming UK Presidency of the EU. [188297]

Mr. MacShane: Each Government Department and devolved Administration has established its own structure for preparing for the Presidency, including teams within the European Union Directorate of the Foreign and Commonwealth Office and the UK Permanent Representation to the EU. The Cabinet Office European Secretariat has an overall co-ordinating role.

During our Presidency we will hold two European Councils in Brussels. Other formal Ministerial Councils and meetings of officials will take place in Brussels and Luxembourg.

Some informal ministerial meetings will take place in the UK during the UK Presidency. Planning for these and other official level events is under way.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what the main themes for the forthcoming UK Presidency of the EU will be. [188298]

Mr. MacShane: The Government's main priority for the UK Presidency of the EU in 2005 will be to take forward the EU policy agenda in an efficient, effective and impartial way, with a strong emphasis on the agenda which we will inherit from the preceding Dutch and Luxembourg Presidencies. That agenda is set out in detail in the Council's Multi-Annual Strategic Programme, covering the three year period from 2004–06, copies of which have been placed in the Library of the House.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs whether a logotype for the UK Presidency of the EU has been agreed. [188299]

Mr. MacShane: The logo and a number of related issues are under discussion between Government Departments. It is not the usual practice for a future Presidency to publish its logo before the preceding Presidency has done so: the Luxembourg Presidency logo has only recently been unveiled.

Zimbabwe

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Zimbabwean Government on its raid on the MDC offices in Bulawayo. [188877]

Mr. Mullin: Our embassy in Harare is monitoring the situation carefully. We condemn the intimidation and harassment of the Government of Zimbabwe's opponents, and will continue to make this clear.

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make urgent representations to the Zimbabwean Government on the arrest of MDC member Mr. Nelson Chamisa. [188878]

Mr. Mullin: Mr. Chamisa was released without charge on the afternoon of 10 September. The British embassy in Harare was in contact with Mr. Chamisa after his arrest and will continue to monitor the situation.

We regularly raise human rights issues with the Government of Zimbabwe.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Access Management Grant Scheme

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what the take-up of the Access Improvement Grant Scheme by local authorities has been; what assessment she has made of the effectiveness of the Scheme in meeting its stated objectives; and what will become of the Scheme as a result of Rural Strategy 2004. [186987]

Alun Michael: Take-up of the Access Management Grant Scheme has been very good. 24 access authorities, covering 96 per cent. of mapped access land in mapping areas 1 to 5, have bid for funding to support their preparatory planning work. Five local authorities have, so far, submitted bids for infrastructure work. Most authorities are still at the planning and consultation stage and we expect them to submit infrastructure bids during the autumn.

The Scheme has been running for five months and it is therefore too early to assess how well it will meet all the objectives set for its first year. The Countryside Agency has reported on progress in the first three months, during which period the Scheme has proved successful and popular with local authorities. The Agency will be carrying out a more detailed assessment of the Scheme's overall performance in October. This will inform decisions on the level of funding and priorities for next year.

I have extended funding for a further two years, to provide the necessary support to enable local authorities to complete access planning and on-site infrastructure work by March 2007.

This work is an important early step in delivering the Rural Strategy 2004 objective of making the countryside more accessible for all. As the scheme currently runs only until March 2007, it will not be incorporated into the streamlined funding arrangements announced in the Strategy, which we plan to complete by March 2007. If a requirement for funding is identified beyond March 2007, we will review how best to meet it within the context of the new arrangements.

Biofuels

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what the latest figures are that she has collated on the sale of biofuels. [186570]

Mr. Morley: Currently, around two million litres of biodiesel are sold each month in the UK. We are not aware of any sales of bioethanol. Biodiesel sales have been stimulated by the existing 20p per litre duty rate cut. A similar incentive for bioethanol will come into force in January 2005.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of biofuels sold were produced from imported vegetable oil in the last year for which figures are available. [186571]

Mr. Morley: Currently, around half of the two million litres of biodiesel sold each month in the UK comes from imported biodiesel and this is mainly produced from virgin rape seed oil. It is known that some palm oil is used in the production of biodiesel. Total imports of palm oil in 2001, the latest year for which figures are available, amounted to 1.28 million tonnes but information is not collected on the use of the oil. A further one million litres of biodiesel a month comes from recycled waste vegetable oil produced in the UK.

Cattle Passports

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate how many cattle have been killed because the British Cattle Movement Service has rejected a passport application or notification in each of the last five years for which records are available. [189082]

Alun Michael: Figures are not held for the number of calves that have been killed as a consequence of being refused passports. There is no compulsion for these calves to be destroyed, heifer calves refused passports may live out full and productive lives on the farm where they were born and any calves born to them may be registered in the normal way.

The British Cattle Movement Service merged with the Rural Payments Agency on 1 April 2003.

TRANSPORT

A120

Mr. Hurst: To ask the Secretary of State for Transport when he expects to announce proposals for the improvement of the A120 road east of Braintree. [188557]

Mr. Jamieson: Following the outcome of the recent Spending Review, we are currently considering funding allocations across departmental programmes, including the Targeted Programme of Trunk Road Improvements. Subject to the outcome of this exercise the Highways Agency intend to present at Public Consultation this autumn, proposals for delivering the dualling of the A120 between Braintree and Marks Tey. I shall review the findings of this exercise, together with the outputs of the work currently being undertaken by the Highways Agency, with the intention of being able to take a position on this proposal by Spring 2005.

Disabled Parking

Mr. Caton: To ask the Secretary of State for Transport if he will make a statement on the entitlement of those diagnosed with myasthenia gravis to disabled parking provision. [188627]

Mr. McNulty: I refer my hon. Friend to my answer of 9 September 2004, *Official Report*, column 1327W, to my hon. Friend the Member for Putney (Mr. Colman).

Safety Cameras

Sandra Gidley: To ask the Secretary of State for Transport who is responsible for auditing safety camera partnerships; and to which bodies the partnerships are answerable. [188336]

Mr. Jamieson: A partnerships' accounts and its operation in line with the Department for Transport 'Handbook of rules and guidelines for the operation of the national road safety camera programme for England and Wales' is audited by the auditor appointed by the Audit Commission for the partner with lead responsibility for financial matters, most often one of the local authorities within the partnership.

The rules and guidance (a copy of which is in the Library) require a partnership to submit its proposed programme to the Department for Transport for approval. Partnerships include one or more police authorities and local highway authorities. Partnership staff are employed and managed by them, and each partnership is answerable to them for its operation in line with the rules and guidance for the programme.

HOME DEPARTMENT

People Smuggling

Harry Cohen: To ask the Secretary of State for the Home Department what steps are taken to co-ordinate Government resources in monitoring non-commercial aircraft movements to detect people smuggling; and if he will make a statement. [183225]

Mr. Browne: The Government monitors the movement of non-commercial aircraft through the Border Agencies Working Group, a forum that brings together representatives from the control authorities, the Civil Aviation Authority and Transec. The Group co-ordinates an on-going series of multi-agency operations at small ports and airfields, which assess levels of risk, and provides a forum for the control authorities to develop shared intelligence.

Additionally the Immigration Service regularly assesses the risks to the UK immigration control and will be monitoring whether the recent disruption by the police of an alleged facilitation attempt using light aircraft in Kent was a "one-off" or is part of a trend to target small airfields. The border agencies and law enforcement are actively engaged in a series of joint working initiatives to identify and combat external risks and organised criminal activity targeting the UK borders at small ports and airfields.

Antisocial Behaviour

Harry Cohen: To ask the Secretary of State for the Home Department how his Department's TOGETHER campaign attempts to tackle antisocial behaviour in Leyton and Wanstead. [187741]

Ms Blears: TOGETHER is a campaign for both practitioners and the public across all of England and Wales. The approach includes prioritising local concerns about antisocial behaviour, getting the right people from local agencies working with the community to tackle the problem and making effective use of available sanctions and providing feedback to the community on progress at all stages.

On the practitioner side, the campaign is an ambitious programme that is designed to provide help, resources and know-how to every practitioner across the country. It has three core aims; to make the use and application of tools and powers simple and effective, to take the best of what is developed locally and spread it nationally, and to create a change in culture so that action is taken. The TOGETHER Academy, ActionLine and Website—backed up by practical step-by step guides and antisocial behaviour ambassadors remove excuses for inaction and raise the level of practice across England and Wales.

On the public side it is for individual Crime and Disorder Reduction Partnerships to decide how to take forward the campaign at a local level. The TOGETHER campaign pack gives the tools for local authorities, police and community groups to run a TOGETHER campaign in their area.

Burglary (Wandsworth)

Martin Linton: To ask the Secretary of State for the Home Department if he will publish the results of the evaluation of the Reducing Burglary Initiative for the London borough of Wandsworth. [187828]

Ms Blears: My hon. Friend the Member for Slough (Fiona Mactaggart) said in reply to my hon. Friend's oral question about the Reducing Burglary Initiative on 14 June 2004, *Official Report*, column 515 that the report of the findings of the process evaluation of the initiative would be published in the summer, though this will not identify projects individually. However, because of delays in finalising the report for publication, it will now be published later this autumn.

Crime Trends

Mr. Oaten: To ask the Secretary of State for the Home Department what assessment he has made, using the Home Office Trends in Crime model, of the impact on crime rates of *(a)* economic and *(b)* demographic changes in each year since 1995. [187234]

Ms Blears: The Home Office Trends in Crime model is an empirical model which attempts to explain annual changes in recorded crime in England and Wales by reference to annual changes in a number of economic, demographic, and criminal justice variables. It has been developed by joint external and internal research effort with the purpose of providing the Home Office with a tool for identifying those determinants of crime that are both within and outside of its control.

The model is robust, but highly aggregated. As such it cannot account for all the factors that impact on crime rates. It has nonetheless demonstrated that economic and demographic factors have been important determinants of changes in crime over time.

The model has not been used to attribute annual changes in crime to each of the explanatory variables. However, the model predicts that, if other factors remain constant, a permanent 1 per cent. increase in the growth rate of consumption expenditure reduces the

growth rate of crime by about 1.7 per cent. On a similar basis, an increase of 1 per cent. in the growth rate of the proportion of young males in the population would increase the growth rate of crime by about 0.5 per cent.

Departmental Staff

Mr. Oaten: To ask the Secretary of State for the Home Department if he will provide his Department's staffing levels for 1998–99, in the format set out in table 6.1 of his Department's Annual Report and Accounts 2003–04. [181494]

Fiona Mactaggart *[holding answer 29 June 2004]:* Since 1998–99, the Central Home Office has been re-organised to meet its Public Service Agreements (PSAs) and it not possible to make a direct staffing level comparison in the format set out in the Department's 2003/04 Annual Report. This comparison is further made more difficult as a result of the current Spending Review and Strategic Plan commitments to reduce staffing levels. The streamlining Department's headquarters resulting in a reduction of staff numbers by 30 per cent. to focus resources on the front-line will mean further format comparisons will be as difficult. There will also be similar reductions in the headquarters of Prison Service and Immigration and Nationality Directorate (reducing in total headquarter staff numbers by 2,700 full-time equivalents).

The following table provides the closest comparison. Staff that were recorded in Criminal Policy Directorate, Police Policy Directorate and Organised and International Crime Directorate are now organised within the Criminal Justice Group, Crime Reduction and Community Safety Group, Community Policy Group and Correctional Services.

Staff distribution—1998–99 Central Home Office (excluding agencies)	*Civil service full-time equivalents*	*Casuals*	*Secondments*	*Total*
Criminal Policy Directorate	457	0	0	457
Police Policy Directorate	682	17.5	414	1,113.5
Organised and International Crime Directorate	102	0	23	125
Immigration and Nationality Directorate	4,500	100	0	4,600
Fire and Emergency Planning Directorate	209	2	11	212
Constitutional and Community Policy Directorate	176	0	0	176
Research Development and Statistics Directorate	226	12	0	238
Planning and Finance Directorate	167	0	0	167
Corporate Resources Directorate (in 2003/04 called Human Resources, Corporate Development Services Directorate)	652	6	2	660
Legal Advisors	33	—	—	33
Communication Directorate	99	—	—	99
Ministerial and Central Secretariat	77	—	—	77
Prison Service Monitoring Unit	4	—	—	4
HM Inspectorate of Prisons	12	—	—	12
Prisons Ombudsman	15	—	—	15
Total Central Home Office (excluding Agencies)	7,411	1,37.5	450	7,998.5
Home Office agencies				
Prison Service	38,352	1,043	0	39,395.
United Kingdom Passport Agency	1,1185	315	0	1,500
Forensic Science Service	1,284	11	0	1,295
Fire Service College	185	0	0	185
Total Home Office	48,417	1,464.5	450	50,331.5

Immigration

Mr. Cousins: To ask the Secretary of State for the Home Department how many extension of leave to remain applications had not been decided by the end of the original leave to remain period as at *(a)* 1 January 2003 and *(b)* 1 January 2004; and how many of those outstanding cases had been outstanding for (i) over six months and (ii) over 12 months on such dates. [186954]

Mr. Browne: The requested information on outstanding applications is not readily available and could only be obtained by examination of individual case records at disproportionate cost.

It is the aim of General Group in the Immigration and Nationality Directorate to decide 70 per cent. of all new chargeable applications within three weeks and 100 per cent. within 13 weeks.

Name that Tag Campaign

Mr. Oaten: To ask the Secretary of State for the Home Department how many individuals have been successfully prosecuted as a result of the "name that tag" campaign; and how much reward money has been paid out as a result. [187062]

Paul Goggins: No prosecutions have been brought as a direct result of "name that tag" as yet, but police investigations are well under way following information received.

Crimestoppers are not aware of any money at present having been paid out yet as a reward under the "name that tag" campaign.

Table 2e of the "Crime in England and Wales 2003–2004" Home Office Statistical Bulletin 10/04 shows that the proportion of people perceiving high

levels of vandalism, graffiti and other deliberate damage to property in their local area has decreased from 35 per cent. according to the 2002–03 British Crime Survey, to 28 per cent. according to the 2003/04 BCS.

Operation Scrap-It

Harry Cohen: To ask the Secretary of State for the Home Department how Operation Scrap-It affects the residents of Leyton and Wanstead. [187743]

Ms Blears: Operation Scrap-It started in October 2003 and will run until March 2006. It entails building up the infrastructure (pound space, removal trucks, skills and knowledge) across all London boroughs to meet the agreed target that nuisance vehicles will be removed within 72 hours of reporting by October 2004. The rest of the country will then be able to learn from this good practice.

This scheme is already proving successful in my hon. Friend's constituency.

LB Redbridge only started the removal of untaxed vehicles on 7 September 2004, nine vehicles from Wanstead were removed on the first day.

Between the period 1 May 2004 to 31 August 2004, LB Waltham Forest (Leyton) have removed 45 vehicles. This has included six untaxed vehicles, 39 abandoned vehicles and 10 surrendered vehicles.

Operation Scrub-It

Harry Cohen: To ask the Secretary of State for the Home Department how Operation Scrub-It has affected the residents of Leyton and Wanstead. [187746]

Ms Blears: Graffiti can lead to an area becoming more and more run-down, with a corresponding increase in crime and fear of crime. Untackled graffiti undermines faith in the services that authorities provide.

That is why Sections 48–52 of the Anti-social Behaviour Act 2003 enable a local authority to serve a "graffiti removal notice" on the owners of street furniture, statutory undertakers and educational institutions whose property is defaced with graffiti. If the owner does not remove the graffiti in compliance with the notice, the local authority may do so and recover its costs.

In response to concerns about the regulatory impact of these powers, we are currently piloting the new powers in 12 areas of the country. The pilots began on 31 March 2004 and we will consider further roll-out once these are completed. The 12 authorities piloting these powers are:

Barnsley metropolitan borough council
Bristol city council
Cambridge city council
Dartford borough council
Doncaster metropolitan borough council
Epping Forest district council
Kirklees metropolitan borough council
London borough of Merton
London borough of Westminster
Northampton borough council
Southampton city council
Wansbeck district council (with Northumberland county council)

Transsexual People

Lynne Jones: To ask the Secretary of State for the Home Department how many incidents were reported to the police in which hatred of transsexual individuals is involved in the most recent period for which figures are available, broken down by police authority. [187390]

Ms Blears: Information concerning the number of incidents reported to the police in which hatred of transsexual individuals was involved is not recorded.

CULTURE, MEDIA AND SPORT

Art Galleries

Bob Russell: To ask the Secretary of State for Culture, Media and Sport which art galleries, broken down by region, have received funding from arts councils in each of the last five financial years for which figures are available; and how much funding was granted in each case. [187978]

Estelle Morris: Over 1,300 arts organisations receive funding from Arts Council England on an on-going basis. The Arts Council has a funding agreement with these organisations which is reviewed regularly to ensure the funds invested are meeting the terms of the agreement. Regular funding to arts organisations is paid out of grant-in-aid.

In total, 245 Visual Arts organisations receive core funding from Arts Council England. The full list is too long to be printed in *Hansard*, but copies have been placed in the Libraries of both Houses. A breakdown of funding by region is provided in the following table. Regularly funded organisations are awarded funding towards core costs for the period mirroring the Treasury's spending review cycle. The most recent announcement of allocations to Regularly Funded Organisations was made in March 2003, and provides funding up to 2005–06.

Visual Arts Organisations—total by region

Region	2003–04 (£)	2004–05 (£)	2005–06 (£)	Total number of organisations
East	1,077,076	1,214,727	1,349,332	13
East Midlands	604,850	809,688	952,036	17
London	10,973,477	12,392,161	13,809,144	60
National	395,570	392,000	526,382	5
North East	1,621,016	1,898,894	2,329,783	23
North West	2,025,674	2,618,336	3,008,199	24
South East	2,634,428	2,854,981	3,069,174	29
South West	1,644,667	1,895,411	2,191,050	22
West Midlands	2,330,717	2,825,232	2,892,737	30
Yorkshire	1,692,700	2,087,075	2,351,150	22

Ministerial Air Travel

Mr. Paul Marsden: To ask the Secretary of State for Culture, Media and Sport if she will list for each year since 1997 the number of miles flown by each Minister in her Department on official departmental business. [181863]

Mr. Caborn: Records on this issue are not held centrally and to gather figures would be at disproportionate cost to the Department.

However, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2003–04 is currently being assembled and will be published shortly. All ministerial and civil service travel is undertaken in accordance with the rules set out in the Ministerial Code, Travel by Ministers, and Civil Service Management Code, copies of which are available in the Libraries of the House.

Parks (London)

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport what plans there are for the refurbishment of parks in London. [184282]

Mr. Caborn: The only parks for which the Department is responsible are the eight Royal Parks. Plans for their upkeep and refurbishment are set out in the Royal Parks Corporate Plan 2004–05, copies of which will be placed in the Libraries of both Houses shortly.

Recruitment Costs

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what the recruitment costs of *(a)* the chairman of the Film Council, *(b)* the chairman of Resource: The Council for Museums, Archives and Libraries and *(c)* the chairman of the Commission for Architecture and the Built Environment were; and what (i) the salary of each chairman and (ii) the combined salary cost of each chairman's staff was in the latest year for which figures are available. [185877]

Estelle Morris: I refer the hon. Member to the answer I gave to the hon. Member for North-East Cambridgeshire (Mr. Moss) on 21 July 2004, *Official Report*, columns 303–04W. The chairs of the three bodies concerned do not have dedicated support staff.

WORK AND PENSIONS

Attendance Allowance

John Barrett: To ask the Secretary of State for Work and Pensions how many people have been in receipt of attendance allowance in the *(a)* Edinburgh, Central, *(b)* Edinburgh, North and Leith, *(c)* Edinburgh, West, *(d)* Edinburgh, Pentlands, *(e)* Edinburgh, South and *(f)* Edinburgh, East and Musselburgh parliamentary constituencies in each year since 1997. [187947]

Maria Eagle: The information is in the table.

People in receipt of attendance allowance by parliamentary constituency as at February on a yearly basis since 1997

Thousand

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
All	8.9	8.9	9.4	9.4	9.4	9.4	9.5	9.8
Edinburgh, Central	1.3	1.2	1.3	1.2	1.4	1.3	1.3	1.4
Edinburgh, East and Musselburgh	1.6	1.7	1.8	1.8	1.8	2.0	1.6	1.8
Edinburgh, North and Leigh	1.7	1.5	1.8	1.6	1.5	1.5	1.5	1.6
Edinburgh, Pentlands	1.1	1.2	1.3	1.2	1.3	1.4	1.5	1.5
Edinburgh, South	1.9	1.8	1.9	2.0	2.0	1.9	1.8	1.7
Edinburgh, West	1.2	1.4	1.5	1.6	1.4	1.3	1.7	1.7

Note:
Figures taken from a 5 per cent. sample at February of each year. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported case load. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

IAD Information Centre.

Disability Living Allowance

Mr. Flook: To ask the Secretary of State for Work and Pensions on what dates since 1 July the customer service computer was not working in the Cardiff Office of the Appeals Service for disability living allowance. [188820]

Maria Eagle: The administration of the Appeals Service is a matter for the Chief Executive of the Appeals Service, Christina Townsend. She will now write to the hon. Member.

Letter from Christina Townsend to Mr. Adrian Flook, dated 14 September 2004:

The Secretary of State has asked me to respond to your question regarding which days since 1 July the customer service computer was not working in the Cardiff office of the Appeals Service for Disability Living Allowance.

The computer system in Cardiff has been fully operational and available for use each day since 1 July. However, the issue as I understand it concerns the external customer contact email address for that office.

For a period between the end of June to the end of July, emails sent to the Cardiff office email address were not monitored or actioned due to an administrative reorganisation within the office. I can only apologise for this error but can confirm that during this period, all other channels of communication were functioning as normal.

I hope this reply is helpful.

Benefit Claimants

Dr. Starkey: To ask the Secretary of State for Work and Pensions in relation to applications for benefits from residents of *(a)* Aylesbury and *(b)* Milton Keynes in each year since 2000, how many applicants

were required to take a medical examination; what benefits were applied for that required a medical examination; and how many of those medical examinations were undertaken at (i) Luton, (ii) Aylesbury and (iii) Euston. [187566]

Maria Eagle: The available information is in the following tables.

The only benefit requiring a medical examination dealt with by Aylesbury and Milton Keynes district offices is incapacity benefit.

Incapacity benefit claimants, whose claims were administered by Aylesbury or Milton Keynes district offices and who had medical examinations.

	2000	2001	2002	2003	2004
Aylesbury	648	943	963	3057	2393
Milton Keynes	905	945	1268	779	0

Location of Medical Examination Centres carrying out examinations of incapacity benefit claimants from Aylesbury and Milton Keynes district offices.

		2000	2001	2002	2003	2004
District Office:	*Exam Centre:*					
Aylesbury	Aylesbury	594	827	876	1496	1331
Aylesbury	Euston	0	13	9	5	8
Aylesbury	Luton	21	62	59	70	52
Aylesbury	Other	33	41	19	1486	1002
	Total	648	943	963	3057	2393
Milton Keynes	Aylesbury	816	384	662	582	—
Milton Keynes	Euston	2	3	2	3	—
Milton Keynes	Luton	37	491	487	158	—
Milton Keynes	Other	50	67	117	36	—
	Total	905	945	1268	779	—

Notes:

1.The Department for Work and Pensions centralised work for Milton Keynes at Aylesbury from 1 July 2003. Medical Services are therefore unable to give specific figures relating to applicants of Milton Keynes in 2004 as all work is referred to Medical Services from Aylesbury.

2. The other category includes where a customer has had a Domiciliary visit or visited another Medical Examination Centre apart from Luton, Aylesbury or Milton Keynes.

3. The "other" category for Aylesbury district office cases in 2003 and 2004 is high as it contains 1447 (2003) and 954 (2004) customers who attended Oxford Medical Examination Centre. These customers attended Oxford as they live in Oxford but the referrals show as Aylesbury due to centralisation; the Department for Work and Pensions centralised work for Oxford at Aylesbury in 2003.

Medical Services data

CONSTITUTIONAL AFFAIRS

Clinical and Educational Negligence

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the consultation on removing eligibility from children and placing it on parents in the case of clinical and educational negligence cases; and what assessment has been made of the implications of using conditional fee agreements in such cases. [188408]

Mr. Lammy: We have no plans to remove the financial eligibility for legal aid from children and place it on their parents. In November 2002 we consulted on revising the guidance in relation to funding judicial review applications in the name of the child, which had particular relevance in education cases. The revised guidance was implemented from April 2003. The Legal Services Commission has issued a consultation paper, "A New Focus for Civil Legal Aid—encouraging early resolution; discouraging unnecessary litigation" which contains proposals on the use of conditional fee agreements generally, and the appropriate balance between private and public funding. The consultation closes on 15 October and we will announce the way forward thereafter.

District Judges

Mr. Llwyd: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many district judges are employed in the criminal jurisdiction of England and Wales; and how many there were in 1997. [188981]

Mr. Leslie: As at 1 September 2004 there were 126 district judges (magistrates courts) and 148 deputy district judges (magistrates courts) in post, in the Magistrates Courts of England and Wales. Prior to 2000, district judges and deputy district judges were formerly known as stipendiary magistrates and acting stipendiary magistrates. In 1997 there were 91 stipendiary magistrates and 85 acting stipendiary magistrates.

PRIME MINISTER

Ministerial Visits

Sue Doughty: To ask the Prime Minister whether he sanctioned the visits of any members of his Government to *(a)* the Democrat and *(b)* the Republican conventions in the United States. [188110]

The Prime Minister: No member of the Government attended in an official Government capacity the Democratic or Republican conventions in the United States.

Peerages

Mr. Paterson: To ask the Prime Minister what the place of residence, at the time of their elevation, was of each peer created since 1 May 1997, broken down by *(a)* nation within the UK and *(b)* region of England, for peers resident in England at the time of elevation. [188266]

The Prime Minister: 323 people have been elevated to the peerage since 1 May 1997.

The place of residence at the time of their elevation is shown in the following table. Information for judicial peers is not held in the format requested.

Residence at time of elevation

	Number
England	
North West	19
North East	5
Yorkshire/Humberside	15
East Midlands	3
East of England	24
West Midlands	12
South East	38
South West	13
London	147
Scotland	19
Wales	9
Northern Ireland	9
Judicial (no home address)	10

EDUCATION AND SKILLS

Academic Performance

Keith Vaz: To ask the Secretary of State for Education and Skills what steps the Government are taking to prevent isolation and lack of commitment among students who are not achieving as much as their peers. [188292]

Mr. Miliband: Ensuring the personalisation of teaching and learning is the effective response to difficulties of isolation and lack of commitment, the work of the Primary and Key Stage 3 National Strategies is central to this. Both Strategies help teachers give careful attention to pupils' learning needs, set challenging targets for them linked to high quality assessment, and offer tools to make lessons pacy, challenging and more enjoyable.

Citizenship Lessons

Mr. Jenkins: To ask the Secretary of State for Education and Skills (1) what assessment the Department has made of citizenship lessons within the national curriculum since their introduction; [188120]

(2) what *(a)* assistance and *(b)* guidance the Department gives on teaching the citizenship curriculum in secondary schools. [188124]

Mr. Stephen Twigg: The Department has commissioned the National Foundation for Educational Research (NfER) to conduct an eight year longitudinal study of the impact of the subject on pupils' knowledge, understanding and skills. The study began in 2002 and reports of the first two years are available at www.nfer.ac.uk. Ofsted's section 10 inspections and QCA's monitoring reports provide effective progress reports on school practice and provision and have shown that good progress is being made. They are available from www.ofsted.gov.uk and www.qca.org.uk respectively.

The QCA has developed and sent to all schools a range of guidance to support the introduction of citizenship education, including schemes of work and guidance on assessment and curriculum planning. The Department published in June a self evaluation tool for schools to help them monitor progress in developing citizenship education. The Department has also put in place a package of support for continuing professional development of teachers in citizenship education.

Departmental Energy Efficiency

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will make a statement on energy efficiency in his Department's buildings. [186680]

Mr. Stephen Twigg: My Department remains committed to reducing energy usage in all its Department's buildings. A range of measures are in place and regularly reviewed and updated to ensure improved performance meets the requirements of the national policy "Framework for Sustainable Development on the Government Estate".

Non-classroom Learning

Sue Doughty: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the role of out-of-classroom education and field trips in school education; [188166]

(2) what the Government's strategy is for ensuring *(a)* equality of access and *(b)* increased access for all schools and their pupils to out-of-classroom learning; [188167]

(3) what assessment he has made of the merits of including out-of-classroom learning in Ofsted school inspections. [188168]

Mr. Stephen Twigg: Our "Five Year Strategy for Children and Learners" sets out our commitment to high standards for all within a broad and rich curriculum. Out of classroom learning is key to an enriched curriculum. It can take many forms, for example, through fieldwork, a statutory requirement of the Geography curriculum; through visits to farms and projects within school grounds, accessible to schools through our Growing Schools web service; through heritage and cultural visits, where high quality provision is provided through our Renaissance in the Regions programme; through music, where our Music Manifesto pledges access for every young person to a range of music experiences; through our PE and School

Sports Strategy where we are creating a national network of 400 Specialist Sports Colleges and School Sport Partnerships to increase and enhance school sport. Schools will decide which out of classroom opportunities best meet the needs of their pupils. The Ofsted school inspection framework covers, and will continue to cover, all aspects of a school's provision, including out-of-classroom learning. needs of their pupils. The Ofsted school inspection framework covers, and will continue to cover, all aspects of a school's provision, including out-of-classroom learning.

Secondary School Teachers

Mr. Jenkins: To ask the Secretary of State for Education and Skills what action the Department is taking to increase the number of people training to enter the secondary school sector as teachers. [188123]

Mr. Miliband: Since September 2000, £6,000 training bursaries have been offered to postgraduate trainee teachers. An additional £4,000 Golden Hello is also available to those who train in and go on to teach priority subjects in a maintained secondary school. From September 2005, the value of the training bursary for those training in mathematics and science will increase to £7,000 and the Golden Hello payment for those subjects will rise to £5,000 for trainees entering Postgraduate Certificate in Education and equivalent courses at that time. These incentives have helped to increase recruitment to courses of initial teacher training for secondary school teachers by almost one-third between 1999–2000 and 2003–04.

The Teacher Training Agency's Use your head. Teach, advertisement campaign for 2004–05 will focus on the recruitment of teachers for secondary schools and priority subjects

Written Answers to Questions

Wednesday 15 September 2004

INTERNATIONAL DEVELOPMENT

International Competition

Mr. Hurst: To ask the Secretary of State for International Development what plans he has to assist poor countries to protect their farmers and traders against unfair international competition; and if he will make a statement. [188556]

Hilary Benn: DFID supports the inclusion of 'Special Products' and the 'Special Safeguard Mechanism' in order to assist farmers and traders in poor countries.

Loosely defined, 'Special Products' are those that are of particular importance to the rural development, and food security, of the country in which they are grown. The farmers of these products should thus be subject to lesser liberalisation commitments.

The 'Special Safeguard Mechanism' would allow developing countries to temporarily protect agricultural products from sudden import surges, which threaten the viability of domestic producers.

Both concepts were included in general terms in the July 2004 World Trade Organisation Framework agreement, setting out the negotiating agenda for the ministerial meeting in Hong Kong in December 2005 and will be consolidated and refined as the negotiations progress.

DFID is currently funding a project involving developing country delegates, research institutes and NGOs to assist with this process, and to assist farmers and traders in poor countries.

TRANSPORT

Advertising/Public Relations

Mr. Damian Green: To ask the Secretary of State for Transport how much was spent by his Department in *(a)* 1996–97 and *(b)* the last year for which figures are available on (i) advertising and (ii) public relations. [186453]

Charlotte Atkins: The Department for Transport was formed on 29 May 2002. It has spent £10.3 million on advertising primarily on the THINK road safety campaign.

For details of expenditure on public relations, I refer the hon. Member to my predecessor's reply to the hon. Member for South-West Bedfordshire (Andrew Selous) on 22 July 2004, *Official Report*, column 650W.

Airports

Bob Spink: To ask the Secretary of State for Transport what representations he has received regarding the High Court ruling on a judicial review of airports in Britain; and what impact this will have on the Cliffe site in the Thames Estuary. [187968]

Charlotte Atkins: The Secretary of State has not received any representations regarding the High Court granting of permission for the three legal challenges to the Future of Air Transport White Paper to proceed to judicial review.

The Government's policy was set out in the White Paper, including their conclusions on the Cliffe option.

Airstrips

Mr. Drew: To ask the Secretary of State for Transport what his policy is regarding proposals to license individual airstrips; and what measures he will put in place to help those airline charities which would be affected by increased charges. [188606]

Charlotte Atkins: The Civil Aviation Authority (CAA) is responsible for the day-to-day regulation of airstrips and has no new proposals to license individual airstrips. Existing provisions for the licensing of aerodromes for the public transport of passengers and instruction in flying are contained in Article 101 of the Air Navigation Order 2000.

As regards flights in aid of charity, arrangements have been in place since 1988 for CAA permission to be given, for example so that a private individual can donate a flight as a prize in a charity draw. The conditions under which such flights may be conducted are set out in an Aeronautical Information Circular (AIC 76/2003 (White 88)). The CAA makes no charge in relation to this permission.

An airline does not need permission for a flight in aid of charity, as its operations are subject to the requirements for public transport flying.

Caravans (Motorway Restrictions)

Mr. Greg Knight: To ask the Secretary of State for Transport what plans he has to repeat the trial scheme restricting caravans to the inside lane on the M5 on other motorways in England and Wales; and if he will make a statement. [188578]

Mr. Jamieson: The Highways Agency currently has no plans to repeat the trial elsewhere on the network.

Mr. Greg Knight: To ask the Secretary of State for Transport when he expects to evaluate the effectiveness of the pilot scheme on the M5 at Bristol which restricts vehicles towing caravans to the inside lane; if he will publish his evaluation; and if he will make a statement. [188579]

Mr. Jamieson: The Highways Agency is currently evaluating the effectiveness of the pilot scheme, which ended on 28 August. It is anticipated that an announcement will be made when the evaluation is complete this autumn.

Departmental Fraud Costs

Mr. Damian Green: To ask the Secretary of State for Transport what estimate his Department has made of

the cost of fraud to *(a)* his Department and *(b)* the executive agencies affiliated to his Department in each of the last five years. [186406]

Charlotte Atkins: The answer covers the period since the Department was formed on 29 May 2002 and since that date the estimated cost of fraud (including theft) in my Department including the executive agencies are as follows:

	Central department	*Agencies*	*Total (£)*
2002–03	757	73,560	74,317
2003–04	8,439	76,164	84,603

Assets have been valued at cost, net book value or replacement cost depending on the circumstances of the individual case. Recoveries from perpetrators or others, e.g. insurance claims, have been netted off. Some incidents are still under investigation and final values may change.

Departmental Thefts

Mr. Damian Green: To ask the Secretary of State for Transport if he will list the items that his Department has reported lost or stolen to the police from his Department's buildings and property since 2001. [186405]

Charlotte Atkins: The answer covers the period since the Department was formed on 29 May 2002 and since that date the following items listed below have been reported to the police by my Department as lost or stolen:

The answer to the question only includes buildings occupied by staff in the Central Department. To obtain a full answer including the executive agencies would involve disproportionate cost.

Theft of wallet

Theft of personal cheques (2 occurrences)

Loss of building passes (2 occurrences)

Mr. Damian Green: To ask the Secretary of State for Transport what the equivalent monetary cost of theft to *(a)* his Department and *(b)* the Executive agencies affiliated to his Department was in each year since his Department was established. [186408]

Charlotte Atkins: The answer covers the period since the Department was formed on 29 May 2002 and since that date the estimated cost of theft in my Department including the Executive agencies is as follows:

£

	2002–03	*2003–04*
Central Department	757	7,659
Agencies	47,043	57,349
Total	47,800	65,008

Assets have been valued at cost, net book value or replacement cost depending on the circumstances of the individual case. Recoveries from perpetrators or others, e.g. insurance claims, have been netted off. Some incidents are still under investigation and final values may change.

M1

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons the southbound carriageway of the M1 motorway was closed at Junction 11 on 23 August; who authorised the closure; for how long the motorway was closed; and what assessment he has made of the necessity for closure. [188580]

Mr. McNulty: At approximately 14:50 hours on Monday 23 August, a pedestrian jumped from the bridge that crosses the motorway at Hatters Way, Luton into the path of an oncoming lorry. He sustained fatal injuries. The death has been recorded by HM Coroner's office as suicide.

Bedfordshire Police immediately closed the southbound carriageway in order to carry out their investigations.

A symbol signed diversion route was set up for road users affected by the carriageway closure. Other strategic signs were set further north of the incident warning of the closure.

This was a particularly difficult investigation and clear up task for all involved. The body of the deceased was further struck by other approaching vehicles; thus raising both the sensitivity and the complexity of the police operation.

The carriageway was re-opened to traffic at 18:10 hours.

M20

Jonathan Shaw: To ask the Secretary of State for Transport if he will ensure that the siting of noise abatement fencing along the M20 between junctions 4 and 5 takes appropriate account of the approval of additional housing in the area. [188920]

Mr. Jamieson *[holding answer 14 September 2004]*: It is the responsibility of the local planning authority, Tonbridge and Mailing borough council to consider Whether noise mitigation measures should be provided by the developer of sites in their area in line with current guidance on planning and noise.

Currently there are proposals for a noise bund within Leybourne Grange development site near the M20 at Junction 4.

In addition the Highways Agency is carrying out further studies to determine what noise mitigation measures would be appropriate at existing housing sites between Junctions 4 and 5.

Medway/London Rail Services

Jonathan Shaw: To ask the Secretary of State for Transport if he will take steps to prevent the implementation of the reduction in the Cannon Street service from Medway to London proposed by the Strategic Rail Authority. [188882]

Mr. McNulty: The Strategic Rail Authority is continuing to develop the train service specification for the integrated Kent franchise in the light of responses to its consultation earlier this year. When final decisions

are made, a stakeholder briefing document will be issued giving information on consultees' comments and the final train specification.

PowerShift Grants

Mr. Chaytor: To ask the Secretary of State for Transport how many applications for Powershift grants for the Toyota Prius were *(a)* submitted and *(b)* approved in (i) 2002–03, (ii) 2003–04 and (iii) 2004–05 to date; and how many of the approvals were for (A) new and (B) demonstrator vehicles. [188996]

Mr. Jamieson *[holding answer 14 September 2004]*: The Toyota Prius is listed on the PowerShift Register and is eligible for a £700 grant where used in England/Wales/Northern Ireland. A separate scheme operates in Scotland. The number of applications approved and paid for PowerShift grants for Toyota Prius from year 2002 to date in England/Wales/N Ireland are as follows:

(a) Applications submitted and for which a grant offer letter has been issued[1]

	Number
2002–03	1
2003–04	412
2004–05	1,045

[1] Number of applications that have failed before reaching grant offer stage is not recorded onto the applications database.

(b) Grants paid

	Number
2002–03	0
2003–04	146
2004–05	[1]117

[1] To end August.

A grant is available to the first owner (person or organisation) to register a PowerShift approved vehicle, subject to meeting the usual eligibility criteria (i.e. must operate in England, Wales or Northern Ireland). This includes dealer demonstrator vehicles that are registered, but the number of applications in respect of demonstrator vehicles is not recorded separately.

Railways

Mr. Gordon Prentice: To ask the Secretary of State for Transport how many dismantled railway lines in the UK have been *(a)* re-instated and *(b)* safeguarded since 1990; and what the cost of re-instated lines was in each case. [188569]

Mr. McNulty: No consolidated record is kept of the position of dismantled railway lines. The Strategic Rail Authority (SRA) is aware of 13 re-instated lines available for use by passenger trains. Safeguarding is a matter for local authorities and the SRA is not aware of any central register. The SRA does not maintain a central record of the costs of re-instated railway lines.

Andrew Bennett: To ask the Secretary of State for Transport (1) why the new signalling system promised for Stockport station is not yet operational; [188226]

(2) why engineers have been brought from India to fix the old signalling system at Stockport station; [188227]

(3) when the new signalling system at Stockport station will be operational; [188228]

(4) why the crossover points between Heaton Chapel station and Stockport station have been removed. [188229]

Mr. McNulty: These are operational matters for Network Rail. Network Rail will respond directly to my hon. Friend.

Recruitment/Consultants

Mr. Damian Green: To ask the Secretary of State for Transport how much was spent by his Department in *(a)* 1996–97 and *(b)* the last year for which figures are available on (i) headhunters, (ii) recruitment consultants and (iii) management consultants. [186403]

Charlotte Atkins: I refer the hon. Member to the answer given by my predecessor to the hon. Member for South-West Bedfordshire (Andrew Selous) on 22 July 2004, *Official Report*, column 650W.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bathing Water (South-West)

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what central Government funding is available in the South West region to meet the cost of compliance with the EU Bathing Water Directive. [186966]

Mr. Morley: There is no central Government funding available to meet the cost of compliance with the EU Bathing Water Directive for the South West or any other region. It is for sewerage undertakers to comply with the Directive, and the costs are taken into account by Ofwat in setting price limits.

Departmental Costs

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department spent on *(a)* head-hunters and recruitment consultants and *(b)* management consultants in (i) 1996–97 and (ii) the latest year for which figures are available. [185990]

Alun Michael: Defra came into being in June 2001. From information held centrally, the Department spent £520,354 in financial year 2002–03, and £619,213 in financial year 2003–04, on recruitment services.

The Department also spent £190,212 in financial year 2002–03, and £189,319 in financial year 2003–04, on recruitment advertising.

Information on management consultants is not held centrally and the information cannot be provided at proportionate cost.

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs how much the

Department and its predecessors spent on recruitment consultants in *(a)* 1996–97 and *(b)* the last year for which figures are available. [184430]

Alun Michael: Defra came into being in June 2001. From information held centrally, the Department spent £520,354 in financial year 2002–03, and £619,213 in financial year 2003–04, on recruitment services.

The Department also spent £190,212 in financial year 2002–03, and £189,319 in financial year 2003–04, on recruitment advertising.

Information on management consultants is not held centrally and the information cannot be provided at proportionate cost.

Employment Tribunals

Malcolm Bruce: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases against her Department, the agencies for which it is responsible and its predecessor organisations have been brought to employment tribunals in each year since 1997 in relation to *(a)* equal pay, *(b)* sex discrimination, *(c)* race discrimination, *(d)* disability discrimination and *(e)* unfair dismissal; how many cost awards were made against (i) respondents and (ii) applicants; and how much has been spent (A) settling and (B) contesting claims. [181460]

Alun Michael: Defra came into existence in 2001. Since then the number of cases brought against the Department and the agencies for which it is responsible is as follows:

	Equal pay	*Sex discrimination*	*Race discrimination*	*Disability discrimination*	*Unfair dismissal*
2001	—	—	—	—	1
2002	—	1	1	3	4
2003	—	1	—	—	1
2004	1	1	1	6	2
Total	1	3	2	9	8

The one equal pay case is currently on-going pending appeal and no costs have been awarded as yet. One of the six unfair dismissal cases for 2004 has been settled, all other 2004 cases are continuing. For the other cases listed there were no awards made against my Department and its agencies during the years quoted but a total of £30,553 has been paid in agreed settlements.

The total amount spent on contesting these claims could be provided only at disproportionate cost.

Fur Farms

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many fur farms are licensed in England. [188727]

Mr. Bradshaw: None. The Fur Farming (Prohibition) Act 2000 has banned fur farming in England since 31 December 2002.

Parish/Town Councillors

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what help is available for the training of parish and town councillors and clerks; and what level of funding her Department provides to assist in such training. [188314]

Alun Michael: The Government wish to encourage all town and parish councils to reach the standards of the best. To achieve this, councillors and clerks need a wide range of skills to act as the voice of their communities, deliver services and create strong local partnerships. Therefore, town and parish councils should be actively supporting their councillors and clerks to participate in training and continuing professional development.

The Rural White Paper (November 2000) established the "QUALITY" town and parish council scheme and provided £2 million in assistance to help councils meet the new quality standards and establish a national strategy to provide training and support for parish and town councils.

The National Training Strategy for parish and town councils was published in November 2001 in partnership with the Government, the Countryside Agency, the National Association of Local Councils and the Society of Local Council Clerks. Jointly, these organisations have used the £2 million mentioned above to:

Establish County Training Partnerships made up of local bodies that specialise in providing training for the parish council sector (38 partnerships established);

Develop a professional qualification for clerks, the Certificate in Local Council Administration (over 600 registrations for the certificate, 138 certificates awarded so far);

Create a distance learning package for clerks and councillors (completed by some 800 clerks as of 1 September 2004);

Produce a handbook for councillors, "The Good Councillors Guide" (80,000 copies issued); and

Produce an award winning training video, "What's on the Agenda".

In addition, through the Countryside Agency, Defra is providing over £300,000 this year to continue developing County Training Partnerships and County Associations of Local Councils to act as support infrastructure for parish and town councils. Some £40,000 of this money is used to provide a bursary scheme to help small councils meet their training costs.

Potato and Vegetable Farming

Mr. Grogan: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department is making for allocating single farm entitlements with authorisation to grow potatoes and vegetables; and what criteria will be applied in the process. [186982]

Alun Michael: Forms will be issued in March 2005 for farmers to apply, by 16 May, for the allocation of Single Payment Scheme entitlements and for payment against those entitlements. As part of the application process, eligible farmers will be able to ask for a number of their entitlements to have an authorisation attached. Those allocated entitlements with an authorisation will be able to grow fruit, vegetables and potatoes on the equivalent number of hectares which they will need to have to support their annual claim for payment against those entitlements.

Eligibility for the allocation of entitlements with authorisations will be restricted by regional ceilings, which represent the average number of hectares of fruit, vegetables and potatoes that were grown in each region in the period 2000–02. Allocations to individual farmers will be based first on the number of hectares they grew of those crops in 2003. If there is any headroom remaining between the regional ceiling and the number of individual claims based on 2003 production, then 2004 production may also be taken into account. If there still remains headroom under the ceiling then 2005 production may additionally be taken into account. With this in mind, farmers who wish to claim entitlements with authorisations will be asked to provide details of their 2003, 2004 and 2005 production of fruit, vegetable and potatoes on their application forms. Entitlements, including those with authorisations, will be allocated by the end of 2005.

Mr. Grogan: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of Common Agricultural Policy reform regulations on the availability of land for let to specialist potato and vegetable growers in 2005. [186983]

Alun Michael: Some concerns have been raised that the introduction of the Single Payment in 2005 could affect the willingness of landowners to let land in that year. The Department has discussed these issues with representatives of the farming industry and their professional advisers and our view remains that the interests of both landowners and growers can be protected by appropriate contractual arrangements between the two parties.

Refrigerators

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs how many refrigeration unit storage and treatment facilities have been found to be in breach of regulations relating to the implementation of European Council Regulation No. 2037/2000 since it came into force; and what action was taken in each case. [187017]

Mr. Morley: The Environment Agency has concluded three successful prosecutions against operators of fridge storage facilities. These have resulted in penalties of £35,000, £15,000 and a four-month custodial sentence respectively, reflecting the seriousness with which the Government and the Courts regard these offences. In addition a number of warning letters and enforcement notices have been served, requiring fridge treatment plant operators to comply with licence conditions.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* storage and *(b)* treatment facilities for refrigeration units there are in England and Wales; and how many of these have been inspected by the Environment Agency since European Council Regulation No. 2037/2000 came into force. [187018]

Mr. Morley: 78 sites are licensed to store fridges, although all may not be operational. 19 sites are licensed for the treatment of fridges.

The sites have been inspected in accordance with the Environment Agency's Operator and Pollution Risk Appraisal (OPRA) system and the Waste Management Facility Site Inspection Methodology. Under OPRA, these sites would initially have been inspected at monthly intervals. The assessments of operators' performance consider both the type and severity of non-compliance and the environmental significance of that breach or non-compliance.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what the total cost to *(a)* central Government and *(b)* local authorities of meeting the requirements of European Council Regulation No.2037/2000 as they relate to refrigeration units has been since 1 January 2002. [187019]

Mr. Morley: The Government were responsible for securing provision for additional costs that local government faced as a result of the ozone depleting substance Regulation 2037/00.

A special grant of £40 million was provided for additional costs that local authorities in England incurred as a result of implementing the Regulation for the period 2002–03.

£6 million was provided in the 2002–03 local government finance settlement to cover the period 1 January to 31 March 2002.

The Spending Review of 2002 included provision within the Environmental, Protective and Cultural Services block for the continuing costs for 2003–04 onwards, which was incorporated into the special/hazardous wastes allocation.

Estimates for future expenditure have also been incorporated into the Spending Review for hazardous wastes. The actual amounts are significantly less than in 2002–03, because of the decrease in cost of the disposal of refrigeration units and the consequences of implementing producer responsibility under the waste electronic and electrical equipment directive (WEEE).

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the ozone depleting substances covered by European Council Regulation No. 2037/2000 have been recovered from *(a)* domestic refrigeration and *(b)* commercial refrigeration units since the implementation of the regulation, broken down by (i) refrigerant fluid and (ii) foaming agent. [187020]

Mr. Morley: The information is not available in the form requested as the data on the recovery of ozone

depleting substances (ODS) do not identify the equipment from which they were recovered. In addition, it is not possible to calculate the percentage of ODS recovered from the refrigerant fluids. This is because, it is not known how much refrigerant fluid is in the unit on arrival at the licensed waste management site, as many units are damaged in use or transit, and fluid will have escaped before the units are received for disposal.

The following information is given.

The sites recovering ODS from foam, principally in relation to domestic units, range from a recovery rate of 40 per cent. to 80 per cent. of the theoretical maximum. The Environment Agency is currently investigating the reasons for this large variation.

The total amount of ODS including CFCs recovered from all equipment was: 387 tonnes in 2002 and;

494 tonnes in 2003.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures are in place to ensure that *(a)* handling, *(b)* removal and *(c)* storage of refrigeration units results in minimal leakage of ozone depleting substances; and what measures exist to ensure an accurate monitoring of leakage. [187021]

Mr. Morley: Sites for the storage of fridges are regulated under the Waste Management Licensing Regulations 1994. A site licence is required and the standard permit requires storage of fridges to comply with a number of conditions, many of which are specifically aimed at reducing damage to refrigeration units while they are in storage. Compliance with these conditions is assessed during routine inspections.

Since most storage takes place outside, monitoring of leakage using instrumentation does not take place. However, the Environment Agency visually inspects the conditions under which fridges are stored and compliance with storage conditions minimises the risk of leakage from the coolant circuit.

Monitoring equipment is employed at the treatment facilities and emissions are analysed at the destruction facilities for recovered ozone depleting substances.

Severely Disadvantaged Areas

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms are located within land designated as *(a)* moorland within the upland severely disadvantaged area and *(b)* other land within the upland severely disadvantaged area. [186560]

Alun Michael: The number of farms that have submitted an area aid application for 2004 and are located within land designated as *(a)* moorland within the severely disadvantaged area is 30 and *(b)* other land within the severely disadvantaged area is 2,778.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms straddle the border between land classified as moorland within the upland severely disadvantaged area and other land within the upland severely disadvantaged area. [186561]

Alun Michael: The number of farms that have both land classified as moorland within the upland severely disadvantaged area and other land within the upland severely disadvantaged area is 3,068.

Sudden Oak Death Syndrome

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the risk from sudden oak death syndrome to woodlands in the Chilterns Area of Outstanding Natural Beauty; and if she will make a statement. [187259]

Mr. Bradshaw: Central Science Laboratory and Forest Research have prepared a Pest Risk Assessment (PRA) for the whole of Great Britain which concludes that a number of tree species are potentially at risk from Phytophthora ramorum, the cause of Sudden Oak Death. The PRA also compared long-term British climatic data with that in Oregon where the disease is also present. This suggests that it is principally the south and the west of the country that are at the highest risk. The Forestry Commission completed a nation-wide survey of trees earlier this year and no evidence of the disease was found in trees at any of the 1,217 sites visited, which included some sites in the Chilterns Area of Outstanding Natural Beauty. The Forestry Commission has just completed a second more limited survey of 109 plots in England and Wales. While some of the 73 samples taken are still being processed, to date none of these have proved positive for P. ramorum.

Travel Costs

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs what the travel costs were of civil servants in *(a)* her Department, *(b)* the predecessor Department and *(c)* the related agencies in each year since 1997. [183903]

Alun Michael: The following table shows overall departmental expenditure recorded since the Department was formed in 2001. These figures exclude agency figures which are shown in the agency table. There are no figures provided for the period prior to Defra's formation as Defra was formed primarily from two predecessor Departments and as this information could only be provided incurring disproportionate cost.

£000

Year end 31 March	*Departmental travel*
2001–02	11,192
2002–03	7,170
2003–04	7,069

The figures for 2001–02 and 2002–03 include travel expenses incurred as a result of foot and mouth disease.

All travel was in accordance with the requirements of the Civil Service Management Code.

The expenditure figures for related agencies of civil servants in the Department for Environment, Food and Rural Affairs is as follows:

£000

	Defra agencies
2001-02	4,065
2002-03	4,205
2003-04	4,951

Note:
The Defra agencies include: Centre for Environment, Fisheries and Aquaculture Science, Central Science Laboratory, Pesticide Safety Directorate, Rural Payments Agency, Veterinary Laboratories Agency, Veterinary Medicines Directorate.

Veterinary Antibiotics

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the total tonnage of veterinary antibiotics used in the UK, in the most recent year for which figures are available, were used for *(a)* farm animals and *(b)* domestic and other animals. [187478]

Mr. Bradshaw: The VMD collects and publishes figures annually on the UK sales of veterinary antimicrobials, including those sold for use in both food producing and non-food producing animals. It is reasonable to assume that there is a close correlation between these figures and the quantities of antimicrobials used in the UK. These figures are collected on a voluntary basis and the reports are available on the VMD web site at www.vmd.gov.uk under the publications and general tabs or from Dr. Kay Goodyear (telephone 01932 338409).

The most recent available figures show that of the 457 tonnes of active ingredient of veterinary therapeutic antimicrobials sold for use in 2002, 403 tonnes were products indicated for use in food-producing animals only, 24 tonnes were indicated for use in non food-producing animals only and 30 tonnes were indicated for use in both food-producing and non food-producing animals.

Water (South-West)

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has held with Ofwat about recent increases in water rates in the South West. [186964]

Mr. Morley: The Secretary of State has not met with Ofwat recently. However, I have meetings with Philip Fletcher, Director General of Water Services, from time to time at which we discuss a range of issues including water prices.

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs what central Government funding is available to defray the cost of replacing and updating water and sewerage pipes in the South West. [186965]

Mr. Morley: There is no central Government funding for pipe or sewer replacement for any area. It is for water and sewerage undertakers to maintain their networks, and the costs are taken into account by Ofwat in setting price limits.

Water Framework Directive

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs what progress she has made on implementing the Water Framework Directive; and if she will make a statement. [186356]

Mr. Morley *[holding answer 13 September 2004]:* The Water Framework Directive sets out a staged timetable, up to 2015, for member states to transpose it into national law and implement its requirements.

The directive was transposed into English law at the turn of the year and implementation is well under way. Notification of the UK competent authorities was sent to the European Commission on 22 June 2004. The next key stage is the characterisation of river basin districts, identifying the pressures and impacts of human activity on the water environment, which must be completed by 22 December 2004. The Environment Agency, as competent authority for England and Wales, is working hard to ensure timely delivery of this analysis. They published initial characterisation results for public review on 1 September 2004.

Woodland Grant Scheme

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications were made to the Woodland Grant Scheme in each of the last three years; how many were successful; and what was the total sum of grant awarded in each year. [187151]

Mr. Bradshaw: For the Forestry Commission's Woodland Grant Scheme in England the number of applications made, number approved and the value of the grants in the approved schemes since 2001 are given in the following table.

Financial year	Woodland grant scheme applications	Approved schemes	Value of grants in approved schemes (£ million)
2001-02	2,500	2,184	17.9
2002-03	2,801	2,239	18.4
2003-04	3,017	2,333	23.0

Note:
The processing of applications takes a number of weeks so applications may have been received in a different year to that in which they were approved.

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications under the Woodland Grant Scheme were received between 1 April and 28 June; what the total sum of money applied for was; how many of these applications have been successful; and what the total sum of grant approved is. [187152]

Mr. Bradshaw: The Forestry Commission received a total of 700 applications for a total of £3.9 million between 1 April and 28 June 2004 of which £1.1 million has so far been approved. The current status of all these applications is given in the following table.

Status	Number
Application withdrawn by applicant or rejected by the Forestry Commission	58

Status	Number
Awaiting information from the applicant in order to continue processing	148
Applications currently being processed by the Forestry Commission	246
Grant offer made	152
Offer accepted by applicant	96
Total	700

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs what grants will be available from her Department or the Forestry Commission between now and 31 March 2006 to assist the creation of new woodlands. [187256]

Mr. Bradshaw: The Forestry Commission will continue to pay the woodland creation grants approved in existing Woodland Grant Scheme (WGS) contracts. These contracts extend beyond 31 March 2006 and include capital grants for establishment, additional grants for afforestation of improved agricultural land and for creating new woodland with public access. A range of premiums will also be paid to support the National Forest, Community Forests, South West Forest and the North West's 'Forest Futures' initiative.

Subject to meeting the technical and administrative requirements of the WGS, grants will also be paid on those applications received before the WGS closed to new applications for new planting, but which have yet to be approved.

Payments will also be made under the associated Farm Woodland Premium Scheme operated by Defra. This makes annual payments in accordance with the terms of the scheme for up to 15 years. This scheme will apply to some of the WGS applications which have yet to be approved.

It is expected that from mid 2005 new applications for grant aid will be accepted by the Forestry Commission for woodland creation under the English Woodland Grant Scheme. This will be in time for planting to take place in the 2005-06 planting season, with grant payments being made from April 2006.

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs how many woodland grants were made by her Department or by the Forestry Commission in respect of woodlands in *(a)* the Chilterns Area of Outstanding Natural Beauty and *(b)* Buckinghamshire in each of the last four financial years; what the sum of such grants was in each such year; and if she will make a statement. [187257]

Mr. Bradshaw: The Forestry Commission made the following payments in the Chilterns AONB and Buckinghamshire under the Woodland Grant Scheme in the last four years.

a) Chilterns AONB

Financial Year	Number of Claims Paid	Claim Value £000
2000-2001	170	200.2
2001-2002	167	273.7
2002-2003	174	273.5
2003-2004	120	187.3

b) Buckinghamshire

Financial Year	Number of Claims Paid	Claim Value £000
2000-2001	176	238.8
2001-2002	186	327.6
2002-2003	179	270.0
2003-2004	134	198.6

In addition to the Woodland Grant Scheme, the Farm Woodland Premium Scheme administered by Defra made annual payments to farmers in compensation for income forgone as a consequence of converting agricultural land to woodland.

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications for woodland grants her Department and the Forestry Commission has received during the current financial year in respect of woodlands in *(a)* the Chilterns Area of Outstanding Natural Beauty and *(b)* Buckinghamshire; what the total sum applied for was; how many such applications, and to what aggregate value, have been approved; and if she will make a statement. [187258]

Mr. Bradshaw: Between 1 April and 28 June the Forestry Commission received nine applications for a total of £19,000 on land within the Chilterns AONB and 11 applications for a total of £22,000 on land within Buckinghamshire. The current status of these applications is given in the table below together with the value of those approved.

a) Chilterns AONB

Status	Number
Application withdrawn by applicant or rejected by the Forestry Commission	1
Awaiting information from the applicant in order to continue processing	1
Application currently being processed by the Forestry Commission	4
Grant offer made	1
Offer accepted by applicant	2 (Value of £1,600)

b) Buckinghamshire

Status	Number
Application withdrawn by applicant or rejected by the Forestry Commission	1
Awaiting information from the applicant in order to continue processing	4
Application currently being processed by the Forestry Commission	2
Grant offer made	2
Offer accepted by applicant	2 (Value of £1,900)

In addition to the Woodland Grant Scheme, the Farm Woodland Premium Scheme administered by Defra and which makes annual payments to farmers in compensation for income forgone as a consequence of

converting agricultural land to woodland is included with the one grant offer made in the Chilterns AONB area.

HOME DEPARTMENT

Age of Criminal Responsibility

Mr. Wiggin: To ask the Secretary of State for the Home Department what research he has commissioned on the effects of changing the age of criminal responsibility; and if he will make a statement. [186818]

Paul Goggins: We have no plans to change the current age, 10 in England and Wales, and have not commissioned research on the subject.

Crime

Mr. Anthony D. Wright: To ask the Secretary of State for the Home Department how many *(a)* successful and *(b)* unsuccessful criminal prosecutions were brought for crimes perpetrated in each Norfolk constituency in each year since 1997; and how many criminal charges were pressed for crimes perpetrated in Great Yarmouth in each year since 1997. [186717]

Paul Goggins: Statistics of defendants charged with offences are not collected centrally, nor is it possible to break down the court proceedings data collected centrally to constituency level.

The following table, however, gives the number of defendants *(a)* convicted and *(b)* not convicted in the Norfolk police force area as a whole:

Defendants convicted and those not convicted of offences of all types at all courts in the Norfolk police force area, 1997 to 2002

	Defendants convicted	*Defendants not convicted*[1]
1997	19,137	1,764
1998	17,537	1,564
1999	16,330	1,597
2000	15,083	3,351
2001	16,661	5,448
2002	16,608	5,234

[1] Includes defendants whose proceedings were discontinued, those discharged under Sec 6 MCA 1980, and those, whose charges were withdrawn, dismissed or acquitted.

Statistics for 2003 will be published in the autumn.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will publish *(a)* the growth forecasts and *(b)* the forecasts of the number and proportion of young men in the population used as assumptions in the Trends in Crime model, Home Office Online Report 38/04. [187236]

Paul Goggins: The growth forecasts used as assumptions in the trends in crime model are those published by Her Majesty's Treasury in the Budget report 2004.

Projections for the proportion of young men in the population are published on the Government Actuary's Department (GAD) website.

Departmental Properties/Staff

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to the answer of 13 July 2004, *Official Report*, column 1053W, on departmental properties/staff, if he will place a list of the properties in the Library. [187338]

Fiona Mactaggart: The addresses of Home Office properties are not disclosed for national and personal security reasons.

Financial Advice

Matthew Taylor: To ask the Secretary of State for the Home Department how many contracts his Department had with *(a)* Barclays, *(b)* Royal Bank of Scotland, *(c)* UBS Warburg and *(d)* Bank of Scotland for advice on private finance initiative and public private partnership contracts in each financial year since 2001–02; and what fees were paid in each case. [186694]

Fiona Mactaggart: From the best information available, there have been no such contracts placed with these organisations in the time period specified.

Hate Crime

Mr. Woodward: To ask the Secretary of State for the Home Department what hate crime legislation introduced in the Criminal Justice Act 2003 remains to be implemented; and when it will be implemented. [186887]

Paul Goggins: Sections 145 and 146 are the only provisions in the Criminal Justice Act 2003 specifically relating to hate crime; these provide for courts to treat motivation by racial or religious prejudice, or prejudice related to disability or sexual orientation, as an aggravating factor in sentencing for any criminal offence. These sections are not yet in force, but section 145 is simply a re-enactment of existing legislation, contained in section 153 of the Powers of Criminal Courts (Sentencing) Act 2000, that is already in force. The commencement date for these sections of the 2003 Act is currently under consideration and will be announced in due course.

HMS Daedalus

Mr. Hoban: To ask the Secretary of State for the Home Department whether his Department has made a formal expression of interest in HMS Daedalus to the Ministry of Defence on behalf of *(a)* the Prison Service, *(b)* another agency of his Department and *(c)* Hampshire Constabulary. [188145]

Paul Goggins *[holding answer 13 September 2004]:* I can confirm that my Department has not made a formal expression of interest in HMS Daedalus on behalf of the Prison Service or any other part of the Home Office. The acquisition of properties for use by the police is a matter for the appropriate police authority and Chief Officer of Police.

Lost Passports

John Barrett: To ask the Secretary of State for the Home Department how many passports sent to his

Department for immigration purposes have been lost in each of the last five years; and how many were subsequently found. [181998]

Mr. Browne: Statistics on the number of letters issued for passports reported lost or mislaid in the Immigration Nationality Directorate would be available only at disproportionate cost.

However, in General Group, which processes all applications for variation of leave to remain from in-country applicants and considers applications for Home Office travel documents from non-British nationals, there were 53 issued from April 2001 to March 2002; 335 issued from April 2002 to March 2003; and 469 issued from April 2003 to March 2004. This should be balanced against the number of decisions made in the same period which were 380,000; 403,000; and 534,000 respectively.

Prisons

Mr. Llwyd: To ask the Secretary of State for the Home Department how many Prison Custody Officer certificates have been issued by his Department for staff at HMP Bronzefield. [187102]

Paul Goggins: Her Majesty's Prison Bronzefield opened on 17 June 2004 and 135 Prison Custody Officers have been certificated.

Mr. Llwyd: To ask the Secretary of State for the Home Department how many Prison Custody Officer certificates have been withdrawn by his Department for each privately run prison in each month since 1 January 2003. [187103]

Paul Goggins: From January 2003 to March 2004, three Prison Custody Officer Certificates were withdrawn from Her Majesty's Prison Dovegate, one certificate at Her Majesty's Prison/Young Offenders Institution Altcourse and one certificate at Her Majesty's Prison/Young Offenders Institution Doncaster.

Since April 2004, one Prison Custody Officer certificate has been withdrawn at Her Majesty's Prison Dovegate and one certificate was withdrawn at Her Majesty's Prison Wolds.

Mr. Llwyd: To ask the Secretary of State for the Home Department how many Prison Custody Officer certificates have been issued by his Department for each privately run prison in each month since 1 January 2003. [187104]

Paul Goggins: The information requested is as follows.

	Certificates issued from January 2003 to March 2004	*Certificates issued since April 2004*[1]			
		April	*May*	*June*	*July*
HMP/YOI Altcourse	31	9	0	8	0
HMYOI Ashfield	123	12	1	1	9
HMP/YOI Doncaster	33	0	0	14	0
HMP Dovegate	132	2	3	3	9
HMP Forest Bank	69	1	0	20	0
HMP Lowdham Grange	66	11	0	11	0
HMP/YOI Parc	47	11	3	0	16
HMP Rye Hill	94	9	0	4	1
HMP Wolds	3	4	1	1	0
Total	598	59	8	62	35
Overall total since January 2003		762			

[1] The Office for Contracted Prisons took over responsibility for Prison Custody Officer certification on 1 April 2004.

Her Majesty's Prison Bronzefield opened on 17 June 2004 and 135 Prison Custody Officers have been certificated.

Retirement Age

Mr. Andrew Turner: To ask the Secretary of State for the Home Department what the *(a)* set retirement age applying to all or most personnel and *(b)* maximum age beyond which applications for employment will not be considered is in (i) his Department and (ii) its agencies. [186375]

Fiona Mactaggart: The Civil Service Management Code gives departments and agencies the authority to determine policy on normal retirement age for their own staff subject to the conditions set out in Chapter 11.3.

In answer to part 'A' of your question all non-industrial Home Office staff working in grades between Administrative Assistant and Grade 6, including equivalent grades will have the option to retire at any point between the ages of 60 and 65. The normal retirement age for the Senior Civil Service is 60. However, Heads of Departments and Agency Chief Executives have the flexibility to retain members of the Senior Civil Service beyond 60 if they judge it to be in the public interest and are satisfied about the fitness and efficiency of the individual to carry out his or her duties.

In answer to part 'B' of your question, Home Office policy continues to be that there should be no age discrimination on selecting candidates who have the relevant skills and qualifications and are considered to be capable of delivering value for money (i.e. a return on recruitment costs and training requirements before the normal retirement age). Up to and including Grade 6. European Law also prevents us from imposing age limits as part of the selection procedure.

Sentencing Guidelines

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the Sentencing Guidelines Council will review the magistrates court guidelines. [187245]

Paul Goggins: The Sentencing Guidelines Council will in due course produce guidelines on all criminal offences. These will supersede the magistrates courts guidelines.

Young Offenders

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* male and *(b)* female prisoners under the age of 18 years were (i) serving a custodial sentence and (ii) on remand in each of the last three years in England. [186523]

Paul Goggins: The requested information is provided in the table.

Population of juveniles in STCs, LASCHs and prison establishments, by custody type and sex England, 30 June

	Immediate custodial sentence	Remand
Male		
2002	2,242	549
2003	2,016	518
2004	1,959	544
Female		
2002	173	44
2003	156	41
2004	150	32

Source:
Information on population in STCs and LASCHs is from the Youth Justice Board.
Information on population in prison establishments is from the Prison Service information system.

Mr. Oaten: To ask the Secretary of State for the Home Department how many young offenders aged 18 to 21 are in prison *(a)* under sentence, *(b)* on remand and *(c)* in total; and how many there were on average in each category in each of the last five years. [187231]

Paul Goggins: The table shows information from the Prison Service information system on the number of young offenders aged 18–20 who were in prison establishments in England and Wales *(a)* under immediate custodial sentence *(b)* on remand and *(c)* in total in each of the last five years.

Population of young offenders aged 18–20[1] in prison establishments, by custody type England and Wales, 30 June

	Immediate custodial sentence	Remand	Total
2000	6,670	2,103	8,780
2001	6,728	1,867	8,597
2002	6,766	2,189	9,018
2003	6,779	1,920	8,789
2004	6,543	1,890	8,513

[1] The figures include young offenders who have turned 21 but who have not been reclassified as adults.

SOLICITOR-GENERAL

Criminal Cases Review (Angela Cannings Judgment)

Vera Baird: To ask the Solicitor-General if she will take steps to ensure that those whose convictions are reviewed under the process set up after the Angela Cannings decision with no further action resulting are notified that a review has taken place. [172613]

The Solicitor-General: The review of cases identified following the Angela Cannings judgment follows a three-stage review process. First, the relevant CPS areas identify the key features in cases and then they are passed to a Central Review Team comprising prosecutors who are highly experienced in complex criminal casework. A smaller number of cases are then passed to the Interdepartmental Group for final consideration.

The review process is not determinative of whether any conviction is unsafe or not. Offenders' legal representatives will be written to where it is felt there may be features which warrant further consideration by either the Court of Appeal or Criminal Cases Review Commission. The Crown Prosecution Service will in each case where an offender is written to make an independent decision on whether to contest the appeal.

As the review process initiated by the Attorney-General is not determinative of the safety of any conviction it is not the intention of the Interdepartmental Group to notify each offender whose case does not contain features identified by the Court of Appeal in Angela Cannings. It is however open to any convicted person if it is felt he or she was wrongly convicted to appeal out of time to the Court of Appeal or to bring the case to the attention of the Criminal Cases Review Commission.

CABINET OFFICE

Departmental Expenditure

Mr. Swayne: To ask the Minister for the Cabinet Office what the cost of running her Office's canteen facilities was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185381]

Ruth Kelly *[holding answer 20 July 2004]:* Since April 2002 canteen facilities at the Cabinet Office's core London buildings have operated on a nil subsidy basis.

In 2003–04, the Government Car and Despatch Agency, an Executive Agency of the Cabinet Office, incurred some £35,000 for the running of a canteen facility at its London Headquarters site. For the remainder of the Department's estate, either no such expenditure was incurred or figures can be obtained only at disproportionate cost.

Owing to changes in the Cabinet Office's accounting system, figures for 1996–97 cannot be readily retrieved without incurring disproportionate cost.

Directgov

Miss McIntosh: To ask the Minister for the Cabinet Office (1) which elements of the production and operation of the Directgov website are being outsourced to India; [181131]

(2) for what reason elements of the production and operation of the Directgov website are being outsourced to India; [181132]

(3) what the security implications are of elements of the production and operation of the Directgov website being outsourced to India; [181133]

(4) what assessment he has made of the economic effect on the United Kingdom of elements of the production and operation of the Directgov website being outsourced to India; [181134]

(5) if he will make a statement on the outsourcing of the production and operation of E Gov ventures to foreign countries. [181135]

Ruth Kelly: Outsourcing is a long established element of business. The UK gains economically from free and open global markets, and the Government believe companies should source from whichever country best fulfils their need.

Directgov website, powered by a bespoke content management system and application known as DotP, is government information organised and delivered by multiple departments. Directgov provides consistent information on UK government services for citizens and businesses, at home and overseas.

DotP is part of the secure central infrastructure that this Government are putting in place to ensure best value electronic government services. There has always been an outsourced element of DotP involving the private sector—these companies have obligations to make certain such work is carried out adopting government policy on security and competition, whether the work is carried out in the UK or overseas. The central infrastructure will continue to be developed in a way that ensures its viability and in line with government policy on security and competition. The intellectual property belongs to Her Majesty's Government. Any outsourcing under the contract has not resulted in a loss of UK jobs.

The approach to production and operation (i.e. the maintenance) of Directgov content is a matter for participating departments. As far as we are aware, at this time none of the elements of content production or maintenance are being outsourced to India.

Non-departmental Public Bodies

Mr. Stunell: To ask the Minister for the Cabinet Office if she will list the date of the most recent annual general meeting of each non-departmental public body held in accordance with Cabinet Office guidelines. [188811]

Ruth Kelly: Cabinet Office guidelines state that non-departmental public bodies should hold Annual Open Meetings where practical and appropriate. The Cabinet Office does not hold lists of the dates of such meetings.

The annual publication 'Public Bodies' indicates which NDPBs hold public meetings. Copies of 'Public Bodies' are available in the Library.

CONSTITUTIONAL AFFAIRS

Community Legal Service

Mr. Llwyd: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many Community Legal Service franchises have been granted in Wales to firms undertaking *(a)* criminal work and *(b)* family work; and if he will make a statement. [188977]

Mr. Lammy: There are currently 212 solicitors' offices in Wales which hold either a full or temporary Specialist Quality Mark for Crime and a General Criminal Contract with the Legal Services Commission to provide legal advice and representation to people accused of or charged with a crime.

There are currently 286 solicitors' offices in Wales which hold contracts in the family category of law.

Welsh Language

Mr. Llwyd: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Department has adopted a Welsh language policy. [189085]

Mr. Lammy: My Department is committed to meeting the requirements of the Welsh Language Act. The Court Service, the Magistrates Court Committees in Wales and the Office of the Information Commissioner have schemes in place approved by the Welsh Language Board. The Legal Services Commission is in the process of finalising their draft scheme.

Documents produced by my Department are already published in Welsh, as well English whenever there is a clear need to do so.

After extensive discussion between the former LCD (and then the DCA) and the Welsh Language Board a draft Welsh Language Scheme for the remainder of the DCA was sent to the Board in September 2003 for final approval. The Board replied to my officials last December raising a number of new and unexpected issues.

A resolution to these issues was reached with the Board in August 2004, and my staff are currently making a few minor amendments to our draft scheme. I hope that we can now move forward to approval of the final scheme very soon.

CULTURE, MEDIA AND SPORT

2012 Olympics

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport how much funding has been allocated for the 2012 Olympic bid. [189052]

Tessa Jowell: As stated in the Command Paper Cm 5867 laid before the House in June 2003, the Mayor and I agreed that DCMS and the London Development Agency should contribute to the costs of the bid organisation and associated planning in equal shares to a combined limit of £30 million.

Academic Consultation

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many times her Department has consulted members of the academic community with regard to *(a)* physical activity, *(b)* gambling and *(c)* alcohol since January; and if she will make a statement. [188749]

Mr. Caborn: The Department has consulted members of the academic community formally and informally on about 100 occasions so far this year in respect of gambling. There have been no consultations on either physical activity or alcohol since January.

Betting

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what plans she has to undertake a review of fixed odd betting terminals; and if she will make a statement. [188857]

Mr. Caborn: I expect to see in November 2004 the report of the independent research on the usage of fixed odds betting machines, which was commissioned by the Association of British Bookmakers at my request. We shall be including provision in our proposed Gambling Bill for the statutory regulation of these and other machines which do not fall within the definition of gaming machines in the current law, but which nevertheless have all the essential characteristics of gaming machines.

Departmental Paper Sources

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what procedures are in place to ensure that paper and card products used by her Department originate from a sustainable source; and if she will make a statement. [189300]

Mr. Caborn: The Department takes seriously the commitment to sustainable procurement in respect of the supply of all goods and services. Contracts for the supply of paper and card products specify that content must be at least eighty percent recycled where the product allows. In respect of A4 copier paper only one hundred percent recycled paper is purchased. The onus is upon the supplier to show compliance.

Departmental Recycling

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if she will make a statement on the Department's recycling policy. [188697]

Mr. Caborn: 100 per cent. of Confidential Waste is shredded and recycled. Other recyclable office paper is separated from general waste by providing staff with two waste bins and is all recycled. 80 per cent. of all card is also recycled, only high gloss card being excluded. It is the policy of the Department to recycle or compost all usable waste. In procurement the Department seeks to limit the amount of packaging in which goods are delivered, thereby reducing the amount waste to be disposed of.

Digital Terrestrial Broadcasting

Mr. Gordon Prentice: To ask the Secretary of State for Culture, Media and Sport when she expects digital terrestrial broadcasting to be available in Pendle; and if she will make a statement. [188567]

Estelle Morris: Ofcom do not hold data on Digital Terrestrial Television (DTT) coverage in individual constituencies. However, according to Ofcom, DTT services are available to those constituents that receive their television signals from the Winter Hill or Pendle Forest transmitters. This includes viewers in Nelson, Barrowford, Brierfield and most of Colne.

At present around 73 per cent. of UK households can access DTT services, but the Government are committed to ensuring that at Switchover everyone who can currently get the main public service broadcasting channels in analogue form (BBC 1 and 2, ITV, Channel 4/S4C and Channel 5) can receive them on digital systems.

Much progress has been made in the discussions between the Government, Ofcom and the Public Service Broadcasters and while the broadcasters have not reached a full consensus on the optimum timetable, some—including the BBC—have suggested that 2012 may be the most appropriate date for the completion of Switchover.

Historic Buildings

Bob Russell: To ask the Secretary of State for Culture, Media and Sport how many applications to build on sites of Scheduled Ancient Monuments have been approved in each of the last five years for which figures are available. [188774]

Mr. Caborn: Scheduled monument consents that are granted by the Department are not recorded by the types of works that are to be undertaken on them. Therefore this information is unavailable.

English Heritage inspectors take into careful consideration any works to scheduled monuments that are applied for, assessing the archaeology of the site and its national importance before advising the Department if consent should be granted.

Ofcom

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress in winding-up the heritage regulators whose work has been assumed by Ofcom. [188233]

Estelle Morris: The regulatory functions of the Independent Television Commission, Radio Authority, Oftel, and the Broadcasting Standards Commission were transferred to Ofcom on 29 December 2003; under transitional arrangements the bodies remained formally in existence, principally to provide for completion of the Annual Accounts. These have since been published and laid before the House, apart from those for Oftel, which will be published shortly. An Order formally abolishing these bodies will be brought forward in due course. In addition, the functions of the Secretary of State formerly performed by the Radiocommunications Agency have been transferred to OFCOM, but no winding up will be required in that case as the RA was part of the DTI.

Royal Palaces

Mr. Alan Williams: To ask the Secretary of State for Culture, Media and Sport what living accommodation at St. James's Palace was allotted to members of the Royal Family prior to the move by HRH Prince Charles to Clarence House; to which members; and what the current disposition of that accommodation is. [188563]

Mr. Caborn: Prior to the Prince of Wales moving into Clarence House, St. James's Palace provided the official London residences for the Prince of Wales, the Princess

Royal and Princess Alexandra. The move has had no impact on the apartments of the Princess Royal and Princess Alexandra.

The former official residence of the Prince of Wales is being converted into office accommodation which will be used by staff from the Prince of Wales's household. Their previous offices in St. James's Palace are to be taken over by the Royal Collection Department.

Mr. Alan Williams: To ask the Secretary of State for Culture, Media and Sport what residential accommodation at Buckingham Palace was allocated to members of the Royal Family, and to which members, *(a)* in 1999 and *(b)* on the latest date for which figures are available. [188564]

Mr. Caborn: Buckingham Palace is the official London residence for The Queen and The Duke of Edinburgh. The Duke of York and Earl and Countess of Wessex also have residential accommodation in the Palace for use when they are in London. The position is unchanged between 1999 and now.

Tourism

Brian Cotter: To ask the Secretary of State for Culture, Media and Sport what the level of Government grant in aid was to each regional tourist board in England in each year since 1997 *(a)* per head of population and *(b)* in real terms; and what the proportion was of (i) overseas and (ii) domestic tourists in England in each regional tourist board area in the same period. [188666]

Mr. Caborn: The Department for Culture, Media and Sport (DCMS) provided grant in aid to the English Tourism Council (ETC, formerly the English Tourist Board) between 1997–98 and 2002–03. Grant in aid was paid by the ETC to the Regional Tourist Boards (RTBs) as shown in the following table:

Grant in aid at 2002–03 prices

Tourism Board	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*£000 2002–03*
Cumbria	275	266	239	399	646	449
East of England	557	432	427	633	868	806
Heart of England	528	545	494	692	931	793
London[1]	513	432	382	433	1,964	1,900
Northumbria	284	241	273	394	570	447
North West	331	322	314	438	614	575
South East	363	315	303	385	552	544
Southern	519	526	471	606	759	766
South West	496	536	512	568	842	663
Yorkshire	572	564	504	597	755	655

[1] In 2001–02 and 2002–03, £1.9 million p.a. was passed from DCMS to the Greater London Authority (GLA). As well as £1.5 million for the promotion of London overseas as a destination and as a gateway to the rest of the UK, this included £400,000 for the development of tourism infrastructure, equivalent to the funding formerly passed to the London Tourist Board via the ETC. This funding is maintained under the current DCMS-GLA Agreement for 2003–06. £1.9 million passed to the GLA in 2003–04.

In 2003–04, DCMS funding for tourism development in the regions passed to the Regional Development Agencies (RDAs). The 2003–04 grant in aid payments to the RDAs are shown in the following table:

Grant in aid in 2003–04

Regional Development Agency[1]	*£000*
East of England	543
West Midlands	252
East Midlands	252
North East	333
South East England	744
South West England	403
Yorkshire and the Number	360
North West	713

[1] In 2001–02 and 2002–03, £1.9 million p.a. was passed from DCMS to the Greater London Authority (GLA). As well as £1.5 million for the promotion of London overseas as a destination and as a gateway to the rest of the UK, this included £400,000 for the development of tourism infrastructure, equivalent to the funding formerly passed to the London Tourist Board via the ETC. This funding is maintained under the current DCMS-GLA Agreement for 2003–06. £1.9 million passed to the GLA in 2003–04.

Grant in aid per head of the resident population for each Regional Tourism Board area is shown in the following table:

Grant in aid per head of resident population[1] *at 2002–03 prices*

Tourism Board	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*£ 2002–03*
North East	0.11	0.09	0.11	0.16	0.23	0.18
North West and Cumbria[1]	0.09	0.09	0.08	0.12	0.19	0.15

Heart of England	0.06	0.06	0.05	0.07	0.10	0.08
East of England	0.11	0.08	0.08	0.12	0.16	0.15
London	0.07	0.06	0.05	0.06	0.27	0.26
Southern and South East[1]	0.11	0.11	0.10	0.12	0.16	0.16
South West	0.10	0.11	0.10	0.12	0.17	0.13

[1] Population Trends provides population figures for the standard administrative Government Office Regions (GORs). These are not identical to the areas covered by the RTBs but have been used as the best available approximation. It was necessary to combine North West and Cumbria, and also Southern and South East, to match the GOR figures.

Source:
Population Trends

The proportion of overnight tourism visits to each region[1] is shown in the following table:

[1] The International Passenger Survey and UK Tourism Survey provide estimates for the number of trips, including an overnight stay, made within the UK by overseas and domestic tourists respectively. It should be noted that, at regional level, these surveys have a relatively high margin of error.

Percentage

Tourism Board	*Proportion of total domestic tourism visits*			*Proportion of total overseas tourism visits*		
	2000	*2001*	*2002*	*2000*	*2001*	*2002*
East of England	9	10	11	7	6	7
Heart of England	17	17	18	9	9	11
London	13	13	12	51	50	48
Northumbria	8	7	7	2	2	2

Tourism South East	19	20	19	16	17	16
South West	13	15	15	6	6	6
Yorkshire	9	8	9	4	4	4

Note:
Regional UK Tourism Survey data is only available on a consistent basis back to 2000 due to a major change in the survey methodology.

Source:
International Passenger Survey, UK Tourism Survey.

Brian Cotter: To ask the Secretary of State for Culture, Media and Sport what the level of Government grant in aid was to the English Tourism Council in each year since 2000. [188742]

Mr. Caborn: In April 2003, functions of the British Tourist Authority and the English Tourism Council (ETC) were merged to form VisitBritain. Grant in aid for the ETC for the period 2000–03 was as follows:

Grant in aid to ETC

	£ million
2000–01	11
2001–02	9.6
2002–03	11.6

In addition, £3.8 million was awarded to the ETC in 2001–02 and further £1 million in 2002–03 from the Reserve to help tourism recover from the impact of foot and mouth and the terrorist attacks of 11 September 2001. In 2002–03, the ETC was also awarded £3.6 million over two years from the Invest to Save Budget to support the development of the EnglandNet project to establish an on-line tourism network for England.

Grant in aid allocation to VisitBritain for the domestic marketing of England was £10 million in 2003–04 and £12.9 million is available for 2004–05.

TV Licensing

Jim Dowd: To ask the Secretary of State for Culture, Media and Sport what TV Licensing's policy is on the number of times a household which has declared that it does not hold a TV licence because it has no television is re-contacted to verify that declaration; how much such re-contacting cost in the latest year for which figures are available; how many households fell within this category in the most recent year for which figures are available, expressed *(a)* in numerical terms and *(b)* as a proportion of UK households; and if she will make representations to TV Licensing to make these procedures less burdensome on householders. [189036]

Estelle Morris: The BBC has statutory responsibility for the administration of the television licensing system and TV Licensing carries out the day to day administration under contract to the Corporation. I have therefore asked the BBC's Head of Revenue Management to consider the questions raised by my hon. Friend and to write to him direct, placing a copy of the letter in the Library of the House.

As part of BBC Charter Review, the Government will be considering how the Corporation should be funded after the expiry of the current Charter, including whether the existing arrangements might be improved.

DEPUTY PRIME MINISTER

Business Services

Michael Fabricant: To ask the Deputy Prime Minister (1) whether he has commissioned reports on how customer relationship management technology could be adapted to support local authorities in their development of joined-up services in relation to business; [188133]

(2) if he will make a statement on his Department's progress in ensuring that single business accounts are in place by the start of April 2006. [188221]

Phil Hope: Through the Local e-Government programme, the Office of the Deputy Prime Minister has supported the development of customer relationship management (CRM) technology appropriate to local authorities' needs. That CRM technology is a fundamental building block for local e-government, helping to transform local authorities' service delivery, including transactions with business. Building on that within the Local e-Government programme, the Office of the Deputy Prime Minister has also supported a

National Project on Working With Business (WWB), to provide a framework, called the Single Business Account, for local authorities to improve specifically their provision of information and transactional services for local businesses. The project completed its work earlier this year.

The WWB Project's outputs include a "Single Business Account" toolkit, which draws on data collected via authorities' CRM technology, and a "Single Business Account" pilot. The Office of the Deputy Prime Minister is currently supporting the dissemination of these and the Project's other products to ensure that all local authorities in England are aware of them and make maximum use of them. In particular, the products should help to ensure that they meet the shared target to have e-enabled 100 per cent. of their priority services by end 2005 in ways that their customers will use.

Further details about the project are available from enquiries@workingwithbusiness.org.uk

Council of Ministers

Sue Doughty: To ask the Deputy Prime Minister (1) if he will provide a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188212]

(2) if he will provide a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188213]

Phil Hope: I refer the hon. Member to the answer given to the hon. Member by my right hon. Friend the Member for Blackburn on 13 September 2004, *Official Report*, column 1452W.

Essex Careers and Business Partnership Ltd

Bob Russell: To ask the Deputy Prime Minister what assistance can be given under the Local Government Pension scheme to employees of the Essex Careers and Business Partnership Ltd., owned jointly by Essex, Southend and Thurrock councils, now in liquidation; and if he will make a statement. [188821]

Phil Hope: Essex Careers and Business Partnership Ltd. established its own pension arrangements for employees; they were not members of the Local Government Pension Scheme. Consequently, the loss of any pension rights as a result of the company's liquidation needs to be resolved initially on that basis.

Bob Russell: To ask the Deputy Prime Minister if he will inquire into the decision of Essex, Southend and Thurrock councils to place the Essex Careers and Business Partnership Ltd. into liquidation from 31 March; and if he will make a statement. [188822]

Mr. Raynsford: Essex Careers and Business Partnership Ltd. (ECBP) was a private company delivering Careers Company services across Essex, Southend and Thurrock. Up until 31 March 2004 ECBP delivered these services under a contract with the Connexions Partnership (Connexions Essex Southend and Thurrock), and as a private company it is for the shareholders to decide if and when the company should be placed in liquidation.

Since the company went into liquidation the full range of 'Careers Service' activities has been delivered by Connexions Essex, Southend and Thurrock, and all ECBP staff working on Connexions activities have transferred under TUPE conditions to the Connexions Partnership.

Housing

Bob Spink: To ask the Deputy Prime Minister what time limit he put on his policy that everyone should have access to decent housing; and what progress has been made in delivering that policy. [187964]

Keith Hill: The Government's target is to

"By 2010, bring all social housing into a decent condition with most of this improvement taking place in deprived areas, and for vulnerable households in the private sector, including families with children, increase the proportion who live in homes that are in decent condition."

The Office of the Deputy Prime Minister is making good progress in delivering our target. In 2004 the Office of the Deputy Prime Minister will have cut the number of non-decent homes by 1 million, while £18 billion will have been invested in existing council and housing association homes since 1997. The Office of the Deputy Prime Minister has also helped over 130,000 vulnerable households in the private sector to bring their homes into decent condition.

Bob Spink: To ask the Deputy Prime Minister what he determines as constituting decent housing. [187965]

Keith Hill: A decent home is one that meets the statutory minimum standard for housing, is in a reasonable state of repair, has reasonably modern facilities and services and provides a reasonable degree of thermal comfort.

Further details are available in the document "A Decent Home—the definition and guidance for implementation" published February 2004, a copy of which is available in the Library of the House of Commons.

Mr. Jenkins: To ask the Deputy Prime Minister what impact the additional funding granted to his Department in the 2004 Spending Review will have on the provision of affordable housing *(a)* in the Tamworth parliamentary constituency and *(b)* in the West Midlands. [188114]

Keith Hill: The funding provided in the Spending Review will, along with efficiency improvements, produce 75,000 social rented homes and 40,000 homes for essential public sector workers and low cost homeownership over the three years to 2007–08. Decisions have not yet been taken on how Regional Housing Pot funding for 2006–07 and 2007–08 (including the additional funding for affordable housing) is split between regions. This needs to reflect the different pattern of needs across regions and the Government's national housing priorities, including

development of the growth areas, and targets. The Office of the Deputy Prime Minister aims to complete this work, which raises some complex issues, by the end of the year.

The Office of the Deputy Prime Minister will announce decisions on allocation of funding within regions next summer in the light of recommendations from Regional Housing Boards, which are due in May next year.

Housing (Windows Regulations)

Mr. Laurence Robertson: To ask the Deputy Prime Minister what rules regulate the fitting of windows into houses, with particular reference to FENSA certificates; and if he will make a statement. [188908]

Phil Hope: The installation of both new or replacement windows or doors in dwellings in England and Wales must meet all the relevant requirements in the Building Regulations 2000, as amended. In particular, such windows and doors must allow adequate means of escape in case of fire, adequate ventilation for both the occupants of the dwelling and any combustion appliances in it, reasonable provision for the conservation of fuel and power used in the dwelling and, where necessary, safety glazing to protect against injuries from impact. Special considerations may apply in the case of some listed buildings or those in conservation areas.

FENSA certificates are documents provided by window and door installers who are registered members of the Fenestration Self-Assessment Scheme. The certificates states to the householder that the windows and doors installed meet fully the requirements of the Building Regulations. Where windows and doors are installed by a person who is not a FENSA registered installer, the installation must be notified to the local authority, which will then have the responsibility for checking that the work complies with the Building Regulations.

Local Government Pensions

Mr. Cousins: To ask the Deputy Prime Minister what considerations guided him in proposing the change from an 80 to an 85 age/years of service formula in the Local Government Pension Scheme; and when he proposes to implement this change. [188723]

Phil Hope: Proposals to phase out the 85 year rule in the Local Government Pension Scheme are part of the Government's general policy to implement an age 65 retirement date for the public sector. They will also ensure compliance with age discrimination legislation, which must be in place no later than October 2006, and assist in our intentions to ensure the affordability and sustainability of the Scheme. The changes are planned to take effect from 1 April 2005.

Regeneration Projects

Mrs. Spelman: To ask the Deputy Prime Minister how much expenditure has been allocated to regeneration projects in the North East, broken down by parliamentary constituency, in each year since the establishment of his Department; and what the planned expenditure is in the next financial year. [188293]

Phil Hope: It is considered that the information requested can be provided only at disproportionate cost.

Regional Assemblies

Ann Winterton: To ask the Deputy Prime Minister for what reason a preamble is to be included on the proposed ballot paper for the referendum on a regional assembly in the North East of England. [188805]

Mr. Raynsford: The purpose of the preamble is to ensure that electors are informed of the implications, particularly for local government, of voting on the establishment of a regional assembly.

The form of the ballot paper, including the wording of the preamble, is prescribed by the Regional Assemblies (Preparations) Act 2003*(a)* , which was enacted by Parliament last year.

LEADER OF THE HOUSE

Recyling

Bob Spink: To ask the Leader of the House what the latest available 12 month figures are for the proportion of his Office's redundant documentation, waste paper and card that is recycled; and if he will make a statement on his Office's recycling policy. [188699]

Mr. Hain: The Privy Council Office has responsibility for the day-to-day building management of the Office of the Leader of the House of Commons.

100 per cent. of non-confidential paper and card waste is recycled by the Privy Council Office, in conjunction with Westminster City Council.

The Office's policy is to:

- reduce the amount of waste produced;
- reduce the amount of waste by only disposing of waste that cannot be reused or recycled;
- dispose of waste that cannot be reused or recycled in a way which causes the minimum impact to the environment; and
- manage the Office's waste in line with the '3 Rs waste hierarchy' (reduce; reuse; and recover).

PRIME MINISTER

Chancellor of the Duchy of Lancaster

Mr. Beith: To ask the Prime Minister if he will list the ministerial responsibilities he has assigned to the Chancellor of the Duchy of Lancaster. [189119]

The Prime Minister: The Chancellor of the Duchy of Lancaster will have a cross-Government role in the co-ordination of Government policy. He will also be responsible for the work of the Strategy Unit and the Policy Directorate. He is, a Member of Cabinet and will sit on a number of Cabinet Committees. He will also be responsible for Duchy business.

DEFENCE

Armed Forces Modernisation

John Robertson: To ask the Secretary of State for Defence what assessment his Department has made of

the ability of the United Kingdom to conduct military operations independently of the United States after the modernisation of the armed forces. [187567]

Mr. Hoon: The force structure changes detailed in the "Future Capabilities" paper that was published in July 2004 (Cm 6269) will provide a broad spectrum of capabilities to ensure that the UK is capable of conducting limited national operations, or of being the lead or framework nation for coalition operations at small and medium scale where the US is not participating. The full spectrum of capabilities is not required for large scale operations, as the most demanding operations could only conceivably be undertaken alongside the US, either as a NATO operation or a US-led coalition, where we have choices as to what to contribute.

Arms Exports

Richard Younger-Ross: To ask the Secretary of State for Defence how the Government monitors where permitted armament exports end up. [188132]

Mr. MacShane: I have been asked to reply.

The Government undertakes monitoring of such equipment in the recipient country when we believe this would genuinely help to minimise the risk of diversion and where such monitoring is practical. In addition, UK Overseas Posts have standing instructions to report any misuse of UK-origin defence equipment. Such misuse would be taken fully into account when the Government assesses any subsequent licence applications We may also, if appropriate, revoke other related licences, and consider whether to prosecute if any criminal offences had been committed.

Parliamentary Questions

Harry Cohen: To ask the Secretary of State for Defence when he will reply to questions reference 174180, 173337 and 173317 tabled by the hon. Member for Leyton and Wanstead. [178806]

Mr. Ingram: I replied to my hon. Friend on 10 June 2004, *Official Report*, column 604W, 14 July 2004, *Official Report*, column 724W and 1 September 2004, *Official Report*, columns 725–72W respectively.

Royal Military Academy, Sandhurst

Mr. Mackay: To ask the Secretary of State for Defence if he will make a statement on the future of the Royal Military Academy, Sandhurst. [187481]

Mr. Caplin: The Ministry of Defence remains committed to the delivery of officer training at the Royal Military Academy, Sandhurst. Recent improvements to the site include substantial refurbishment of Victory College, and the building of a new Officers' Mess annex.

Russia

Mr. Bercow: To ask the Secretary of State for Defence if he will make a statement on the destruction of biological weapons material in the Russian Federation. [188334]

Mr. Hoon: Under the G8 Global Partnership against the Spread of Weapons and Materials of Mass Destruction, a number of countries have undertaken to consolidate and secure collections of pathogenic material in the Russian Federation and other countries of the Former Soviet Union. In the biological area the UK has given priority to the risks of proliferation of scientific expertise rather than materials.

Mr. Bercow: To ask the Secretary of State for Defence what support his Department is providing for the reform of the military in the Russian Federation. [188366]

Mr. Hoon: The Ministry of Defence has a bilateral Defence Relations Activity Programme designed among other objectives to facilitate appropriate military reform. Key elements are:

Military to Military Co-operation

The Naval programme has established affiliations between UK and Russian counterparts and progressed into exercises conducted by both ships and training establishments. Army co-operation has covered specific activities of UK expertise, including countering Improvised Explosive Devices and Peace Support Operations. It is intended to advance this programme through the development of unit affiliations leading to field exercises in the peace support arena.

The Russian Resettlement Project

Trains members of the Russian armed forces in skills that will assist them in finding civilian employment following discharge. Since 1995, we have trained 20,800 former members of the Russian armed forces, of which 70 per cent. have found gainful employment.

The Arctic Military Environmental Co-operation (AMEC) Agreement

The Arctic Military Environmental Co-operation (AMEC) Agreement between Norway, USA, Russia and UK aims to deal with the legacy of Soviet military equipment and ameliorate its impact on the Arctic environment. Since joining in 2003, the UK has become involved in a range of projects, including the dismantling and stabilisation of nuclear powered submarines and surface ships.

Financial Reform

The Russian MOD requested advice on financial control in the military, which was delivered via in-depth briefings at the MOD to Deputy Defence Minister Kudelina in early 2004.

NATO-Russia Council (NRC)

The UK also supports Russian military reform as a member of the NRC, which facilitates engagement between the 26 member states of NATO and Russia. It provides a forum for discussion of key issues, including defence reform.

Mr. Bercow: To ask the Secretary of State for Defence what discussions he has had with his counterparts in EU member states about increasing the contribution of the European Union to non-proliferation efforts in the Russian Federation. [188369]

Mr. Hoon: None.

EDUCATION AND SKILLS

Academic Performance

Keith Vaz: To ask the Secretary of State for Education and Skills whether there is evidence from trends in academic performance that *(a)* pupils and *(b)* students from (i) white and (ii) other ethnic communities are increasing their level of performance. [188291]

Mr. Stephen Twigg: The Youth Cohort Study has been run by the Department for a number of years and collects information from young people after they have finished compulsory education. The following table shows the percentage of pupils that achieve five or more GCSEs at grade A* to C:

Attainment of five or more GCSE grades A-C in year 11 by ethnic group: 1991–2001*

	1991	1992	1993	1994	1995	1996	1997[1]	1998	1999	2000	2001
Weighted sample	24,922	—	18,020	—	15,899	—	14,662	—	13,698	—	16,707
Percentage											
All	37	—	42	—	44	—	46	—	49	—	51
White	37	—	43	—	45	—	47	—	50	—	52

Higher Education Statistics Agency (HESA)

Archaeology

Mr. Hurst: To ask the Secretary of State for Education and Skills whether he plans to retain archaeology as a GCSE examination subject. [188549]

Mr. Charles Clarke: The Qualifications and Curriculum Authority (QCA) is regulator of the public examinations system. It oversees the work of the examinations awarding bodies, to ensure that their administration, marking and awarding procedures run smoothly. Awarding bodies are independent organisations and, as such, Ministers have no powers to intervene in their actions.

The QCA does expect awarding bodies to offer a broad portfolio of qualifications, but cannot insist on them offering specific subjects. QCA can, however, insist that the awarding bodies give sufficient notice to centres and give support to centres in finding suitable alternative qualifications. In this instance the QCA felt that appropriate notice had been given by AQA to drop its GCSE Archaeology specification and, considering the fact that most candidates were post-16 (there were only 92 pre-16 candidates for GCSE archaeology in 2003), the AS qualification seemed a suitable alternative.

When Ministers consider the final report of the Working Group on 14–19 Reform we will ensure that any proposals for reform will allow a wide range of qualification areas and subjects to be available to ensure choice and breadth of knowledge for learners.

Departmental Press Officers

Matthew Taylor: To ask the Secretary of State for Education and Skills what his projection is of the number of press officers employed in his Department for 2004–05. [187554]

Mr. Stephen Twigg: It is anticipated that 20 press officers will be employed in this Department in 2004–05.

European Languages Day

Mr. Brady: To ask the Secretary of State for Education and Skills what steps his Department is taking to mark European Languages Day. [188037]

Mr. Stephen Twigg: The Department, in conjunction with the Foreign and Commonwealth Office and CILT, the National Centre for Languages, will be marking the day with a public event, to be held at the Foreign and Commonwealth Office. The programme for the day of celebrations will include the European Awards for Languages ceremony, which will recognise the innovation and achievement of 17 different language learning projects across the education spectrum, and the launch of the Languages Work project.

Medical Training

Jim Dowd: To ask the Secretary of State for Education and Skills how many students *(a)* were admitted to and *(b)* graduated from medical training in the UK in each of the past 10 years. [189003]

Dr. Howells: The available information covering medical school intake and graduate output at institutions in England is given in the table. Information for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved Administrations.

Actual Medical School intake and output in England 1993/94 to 2003/04

Academic year	*Intake*	*Graduate Output*
1994/95	3,814	2,911
1995/96	3,486	2,983
1996/97	3,594	3,025
1997/98	3,749	3,261
1998/99	3,735	3,097
1999/2000	3,972	3,373
2000/01	4,300	3,286
2001/02	4,713	3,280
2002/03	5,277	3,522
2003/04	[1]6,030	n/a

[1] This figure is provisional until December 2004 when a finalised figure will be cleared.

Higher Education Funding Council for England (HEFCE).

Public Services Funding

Mr. Gale: To ask the Secretary of State for Education and Skills if he will identify, for *(a)* his Department and *(b)* the agencies and task forces for which his Department is responsible, each funding stream for public services in (i) the Isle of Thanet and (ii) the Canterbury City local authority area. [181730]

Mr. Charles Clarke *[holding answer 1 July 2004]:* The Department provides funding for schools and their pupils aged 3–15, other education services, Children, Young People and Family Services, and the Youth Service, in the Isle of Thanet and Canterbury City, through Kent county council and local partnerships. In 2004–05, Kent county council and local partnerships in the county receive funding from the Department through the funding streams set out as follows. Schools can already spend most of these funds in any way they choose and we will be working with schools and local authorities to take further steps to rationalise funding streams, including a Single Improvement Grant.

Recurrent funding for education in Kent

School standards grant

Standards fund:

Advanced Skills Teachers

Aim Higher

Beacon Schools

Behaviour Improvement Programme

Building schools' capacity for continuing professional development

Early Excellence Centres

Education Health Partnerships

Enterprise Learning Pathfinders

Ethnic minority achievement grant

Excellence in Cities and Excellence Clusters

Extended schools

Federations

Key Stage 3 National Strategy: central coordination

LEA support for workforce remodelling

Leadership incentive grant

Leading Edge schools

Music services

Primary expansion

Primary Strategy Central Coordination

School development grant

School travel advisers

Specialist schools grant

Study support quality development programme

Summer schools for gifted and talented children

Targeted improvement grant

Targeted support for Key Stage 3

Targeted support for primary strategy

Training schools

Vulnerable children

Targeted transitional grant

Teachers' performance pay funding

Teachers' threshold pay grant

Capital funding for education in Kent

Academies capital[1]

Capital support for the expansion of successful and popular secondary schools[1]

Devolved formula capital

Excellence in Cities (City Learning Centres)

Failing Schools and Fresh Start[1]

ICT in schools (including ICT infrastructure, hands-on support, Broadband Interconnectivity and eLearning Credits

Interactive whiteboards

Modernisation funding

New pupil places (basic need)

Non-maintained special schools[1]

Private Finance Initiative

School travel plans

Schools Access Initiative

Seed Challenge

Specialist schools capital

Targeted capital funding

Voluntary aided schools capital

[1] Capital funding stream available to Kent, though the county does not currently have an allocation in 2004–05.

Recurrent and capital funding for children, young people and family services in Kent

Adoption and special guardianship grant

Child and adolescent mental health services
Children's fund partnerships
Children's social services supported capital expenditure (revenue)
Choice protects grant
Connexions partnerships
Integrated children's services grant
Safeguarding children's grant
SENDA funding for the youth service (to help the youth service become compliant with the Special Educational Needs and Disability Act)
Sure Start general grant:
Non-ring-fenced funding:
Delivery support fund
Children's information service
Workforce development (recruitment and training)
Nursery schools development
Extended schools
New child care places in disadvantaged areas (revenue)
New child care places in other areas (revenue)
New child care places (capital for out of school child care)
New child care places in disadvantaged areas (capital for playgroup conversion)
New child care places in other areas (capital for playgroup conversion)
Ring-fenced funding lines:
SEN and inclusion (children with special needs and disabled children)
Children's centres (revenue)
Children's centres (capital)
Support childminder scheme
Neighbourhood nurseries (revenue)
Neighbourhood nurseries (capital)
Sustainability of child care places
Sure Start local programme funding
Teenage pregnancy
Unaccompanied asylum-seeking children leaving care
Transforming youth work development fund.

Recurrent and capital funding for post-16 learning and skills provision (outside higher education) in Kent

The Learning and Skills Council (LSC) is responsible for the funding of post-16 learning and skills provision (outside higher education) in the Isle of Thanet and City of Canterbury local authority areas. The Department provides funding to the LSC through the following funding lines:

Learning Participation
School Sixth Forms
Capital
Local Intervention and Development
Administration.

Recurrent and capital funding for higher education in Kent

There are five institutions in Kent LEA: three higher education institutions (HEIs) and two further education colleges who run higher education courses. All of these receive funding from Higher Education Funding Council for England (HEFCE). As there are no HEIs on the Isle of Thanet there is no funding by HEFCE. HEFCE provided funding for the following funding lines:

Teaching (core funding, additional places, widening access and improving retention)
Research (quality related research, capability fund)
Moderation of Teaching and Research
Rewarding and Developing Staff.

Truancy

Mr. Ruffley: To ask the Secretary of State for Education and Skills how many children in *(a)* Suffolk county council and *(b)* Bury St. Edmunds constituency played truant from school in each of the last five years. [187179]

Mr. Ivan Lewis: The information requested is as follows:

Suffolk county council

Academic year (September to May)	*Compulsory school age*	*Number of pupils that missed at least a half day due to unauthorised absence*	*Average sessions missed per pupil due to unauthorised absence*	*Percentage of half days missed due to unauthorised absence*	*Attendance (Percentage)*
Primary					
2003	40,340	3,783	8	0.3	95
2002	40,686	3,826	8	0.3	95
2001	41,317	3,414	8	0.2	95
2000	40,358	2,994	8	0.2	95
1999	39,058	3,002	8	0.2	95
Secondary					
2003	49,322	10,382	15	1.1	92
2002	48,668	8,001	16	0.9	92
2001	47,925	6,352	14	0.6	92
2000	47,180	4,529	14	0.5	93
1999	45,750	4,545	18	0.6	93

Bury St. Edmunds

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the level of voter registration necessary for the October 2004 and April 2005 elections in Afghanistan to ensure a credible democratic mandate for the resulting President and Government; what progress towards that level has to date been made; and if he will make a statement. [188073]

Mr. Rammell: The UN/Afghan official Joint Elections Management Body reports that over 10.5 million voters have been registered in Afghanistan; voter registration is now closed. Although there is no current detailed census information for Afghanistan, this figure clearly represents the overwhelming majority of those eligible to vote. This is a significant achievement and a clear demonstration of the desire of the Afghan people to participate in the democratic process.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Afghan Transitional Administration on the timing of elections in Afghanistan. [188355]

Mr. Rammell: We regularly discuss arrangements for the elections with members of the Afghan Transitional Administration (ATA) at official level. My hon. Friend the then Minister for Trade, Investment and Foreign Affairs (Mike O'Brien) last discussed this subject with President Karzai and other members of the ATA in Berlin on 1 April.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice his Department is providing to the Afghan Transitional Administration on voter registration. [188359]

Mr. Rammell: Voter registration in Afghanistan has been conducted by the joint Afghan/UN Joint Elections Management Body. The UK was not asked to provide advice on voter registration and has not done so. We have contributed £11 million to the UN voter registration programme.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will break down funding that has been pledged by *(a)* the United Kingdom and *(b)* other United Nations member states for the electoral process in Afghanistan by main category; and how much of that funding has been delivered. [188360]

Mr. Rammell: The UK has contributed approximately £11.8 million to assist with voter registration for the elections in Afghanistan, as well as approximately £3.125 million for the holding of the presidential elections themselves. These funds have been delivered.

Detailed and up-to-date information on the elections, including figures for funding pledged and received by all the relevant donor countries is available on the website of the Afghan/UN Joint Elections Management Body: http://www.elections-afghanistan.org.af.

Anglican Church Property (Algiers)

Mr. Frank Field: To ask the Secretary of State for Foreign and Commonwealth Affairs what stage the negotiations with the Rt. Rev. Dr. Mouneer Anis of Egypt concerning the Anglican church property in Algiers have reached; and if he will make a statement. [188324]

Mr. Rammell: Foreign and Commonwealth Office officials met Bishop Mouneer in London on 28 June to discuss the Holy Trinity Church in Algiers. We agreed that we should work together over the coming months to agree a way forward. Work on this has already begun and will continue until a solution is found. We last contacted the Bishop on 3 September to inform him that we have gathered the relevant documentation, and to ask him to nominate a legal adviser. We await his reply.

Departmental Recycling

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188688]

Mr. Rammell: The Foreign and Commonwealth Office's policy is to recycle all of its paper waste and thin card, generated in the UK. In 2003–04, 240.76 tonnes of this material were disposed of to recycling. This represents a high proportion of the total. An exact proportion cannot be given as small amounts of paper and card can be inadvertently disposed of in general waste which is not, at present, further sorted and measured.

EU Commission

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the National Assembly for Wales will be consulted by the Government before the EU Commission publishes proposals relevant to its powers; and if he will make a statement. [188976]

Mr. MacShane: The Government are in continual contact with the devolved Administrations about European proposals in their areas of interest, including at Ministerial level, through the Joint Ministerial Committee on Europe (JMC(E)). The Government seeks to reflect the views of the devolved Administrations in the UK negotiating position, which balances the interests of all parts of the UK. In general, the Government are in frequent contact with the devolved Administrations and other relevant parties when responding to specific Commission proposals.

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans there are for the devolved Administrations of the United Kingdom to have representation *(a)* on relevant United Kingdom delegations in the EU Council of Ministers and *(b)* in preparatory meetings of COREPER; and if he will make a statement. [188980]

Mr. MacShane: Ministers from the devolved Administrations attend meetings of the EU's Council of Ministers when there are items on the agenda within their devolved responsibilities.

Officials from the devolved Administrations are accredited to the delegation of the United Kingdom Permanent Representation to the European Union and attend meetings of relevant Council working groups. They are in regular contact with the officials who represent the United Kingdom on these working groups.

During the UK Presidency of the EU in the second half of 2005 an official from the Scottish Executive will chair a Transport Working Group and an official from the Welsh Assembly Government will chair the Culture Working Group. These officials will brief the United Kingdom's Permanent Representative for meetings of COREPER.

Other officials from the devolved Administrations will sit in the United Kingdom seats on a range of other Council working groups during the UK Presidency of the EU.

Falun Gong

Mrs. Anne Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the persecution of the Falun Gong in China; and what action the Government are taking to draw attention to this. [188634]

Mr. Rammell: We have serious concerns about human rights abuses against Falun Gong adherents in China. We regularly raise these concerns with the Chinese Government. At the most recent round of the biannual UK/China Human Rights Dialogue, held in London on 13–14 May, we again noted our concerns about the mistreatment of Falun Gong practitioners in detention, and handed over a list of individual cases of concern which included Falun Gong prisoners. I also recently raised the issue of human rights with Vice Foreign Minister Zhang Yesui during my visit to China in July.

Gibraltar

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the comments made by the Secretary of State for Defence during the Gibraltar Tercentenary celebrations in August that the enlargement of the European Union would have implications for Gibraltar, if he will make a statement on what those implications are. [188483]

Mr. Straw *[holding answer 14 September 2004]:* As the Government have often made clear, enlargement will bring a range of benefits, including economic ones, to both existing and new member states. Gibraltar with its record of economic dynamism is well placed to take advantage of these increased opportunities within an enlarged Union.

Intelligence Workers

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the rules are regarding British intelligence workers being asked to assist in the prosecution of someone abroad who may face the death penalty if convicted; and if he will make a statement. [188937]

Mr. Straw: The British intelligence and security services operate strictly in accordance with statutory provisions and requirements laid down by Parliament. Those requirements take full account of obligations under international law. In particular these services have regard to section 6 of the Human Rights Act 1998 and the safeguards in respect of disclosure of intelligence information in section 2(2) of the Security Service Act 1989 and sections 2(2) and 4(2) of the Intelligence Services Act 1994.

Iran

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress was made in discussions at the end of July between Iran, France, the UK and Germany concerning Iran's nuclear programme; what future talks are planned; and if he will make a statement. [188485]

Mr. Straw *[holding answer 14 September 2004]:* France, Germany and the UK have jointly drafted a resolution on Iran's nuclear programme for discussion at the meeting of the Board of Governors of the International Atomic Energy Agency, taking place in Vienna this week.

Talks are continuing on a regular basis between senior officials.

Iraq

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the number of United Kingdom personnel working with Iraqi ministries *(a)* before 30 June and *(b)* since 30 June. [188344]

Mr. Rammell: On 1 June, there were some 180 UK personnel working for the Coalition Provisional Authority in Iraq, and who were involved in restructuring or assisting Iraqi Ministries or other Iraqi institutions. By the end of September there will be some 35 UK personnel working with Iraqi Ministries, 36 working with Iraqi Governorates or other institutions, and 87 assisting with police and prison training.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what support his Department is providing for *(a)* the establishment of systems of criminal and civil justice in Iraq and *(b)* the new Iraqi governments. [188349]

Mr. Rammell: We are providing support in Basra to strengthen the overall capacity of the criminal justice institutions by funding a training seminar to streamline co-operation and communication between the Iraqi police, prison service and judiciary at the provincial and national level. We are also providing six prisons advisors in the south to work with the Iraqi Correctional Service to improve standards and procedures.

We are providing capacity building assistance for the Iraq Special Tribunal tasked with bringing to justice members of the former regime suspected of committing war crimes. This includes support for training judges, prosecutors and court administrative staff.

The Department for International Development is also providing assistance to the judiciary including training for judges in international human rights standards. All other reasonable requests for assistance from the Iraqi Interim Government are considered.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what support his Department is providing to the Iraqi Special Tribunal. [188350]

Mr. Rammell: We have allocated £1.3 million for a capacity building assistance programme for the Iraqi Special Tribunal. This includes supporting training of a full Iraqi forensic team for the IST and training for judges and court administration staff.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of Islamic countries to encourage them to send troops to Iraq. [188356]

Mr. Rammell: The UK has a regular dialogue with Islamic countries in the region and elsewhere on matters relating to Iraq, including possible military deployments. The UK welcomes any contribution to the Multi-National Force. Any decision on troop deployments to Iraq ultimately rests with the Iraqi Interim Government.

Israel

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Israeli Government that it should ensure that the route of the security wall does not become the border of the Israeli state. [188498]

Mr. Rammell: As my right hon. Friends the Prime Minister and Foreign Secretary have stated on numerous occasions, final status issues such as the border between Israel and a future Palestinian State can only be decided by the two parties during final status negotiations. We have made our view clear to the Israeli Government, most recently when the Foreign Secretary met with Israeli Vice Prime Minister Olmert on 8 September.

Libya

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage *(a)* economic reform and *(b)* political liberation in Libya. [188370]

Mr. Rammell: The Government welcomes Libya's recent actions, in particular Libya's courageous decision to abandon weapons of mass destruction. The Government are working closely with Libya on governance, reform and human rights.

Since early 2004, through the Foreign and Commonwealth Office's Global Opportunities Fund, we have been developing and funding projects in Libya, including on administrative, economic and prison reform.

Ministerial Travel

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of chartering an aeroplane for his recent trip to Sudan. [188456]

Mr. Straw: The gross cost of chartering an aircraft for the return trip UK-Sudan-Kenya was £168,000. Accompanying media contributed £60,200, making a net cost of £107,800.

Nuclear Non-proliferation Treaty

Julie Morgan: To ask the Secretary of State for Foreign and Commonwealth Affairs what the goals of the Government are for the Nuclear Non-Proliferation Treaty Review Conference in 2005. [188604]

Mr. MacShane: The Government are strongly committed to the nuclear Non-Proliferation Treaty, which is the cornerstone of the nuclear non-proliferation regime. The UK's goals for the review conference are to make the case for stronger and more effective counter-proliferation measures and to emphasise the importance of compliance with the treaty. We will do this in the context of emphasising the UK's good record on nuclear disarmament, and we will produce a final report of the studies that we have conducted on the verification of nuclear disarmament. We look forward to working with the chair and other countries before and during the conference itself to help secure a successful outcome.

Oil-for-Food Programme

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on progress of the inquiry into allegations of corruption in the Oil-for-Food Programme. [188346]

Mr. Rammell: The first report of the UN independent high-level inquiry into allegations of corruption and mismanagement of the Oil-for-Food (OFF) Programme, issued on 9 August, provides background information on the OFF Programme and the status of the inquiry, including its terms of reference and staffing details. A copy of the report is available on the OFF website: www.iic-offp.org/documents/IICSR.pdf. The report does not draw any substantive conclusions. We hope that the independent inquiry will issue a second report, on the role of UN staff and contractors, by the end of 2004. The UK continues to support the UN inquiry into the allegations of corruption of the OFF Programme. We are co-operating fully with the inquiry.

People's Mujahedin Organisation

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the findings of the Coalition authorities on the activities of the People's Mujahedin Organisation of Iran personnel in Camp Ashraf in Iraq. [187551]

Mr. Rammell: The status of the residents of Camp Ashraf in Iraq was, until 28 June, a matter for the US authorities and has since then been the responsibility of the Iraqi Interim Government. We understand that each of the residents of Ashraf has been informed about his or her status.

Private Military Companies

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to bring forward legislation to introduce a regulatory regime for private military companies. [188354]

Mr. Rammell: There is an important and legitimate role for the private sector in providing security in post-conflict situations, such as in Iraq and Afghanistan. National armed forces do not always have the capacity to provide security to the international community's reconstruction and humanitarian efforts in these difficult security situations.

The growth in the size and importance of the UK private security industry operating overseas strengthens the case for regulation of this sector. Developing such regulation is a complex undertaking, as set out in the Government's Green Paper "Private Military Companies", published on 12 February 2002. There are a number of difficult questions of definition in deciding how to approach such regulation. The cost of regulation is also potentially high, for both Government and industry.

My right hon. Friend the Foreign Secretary has instituted a further detailed review of options for regulation over the next few months The Government will keep Parliament fully informed of its thinking in this area.

Terrorism

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the efforts of the Government of Saudi Arabia to track down and bring to justice suspected terrorists; and if he will make a statement. [188074]

Mr. Rammell: The Government of Saudi Arabia have made clear their determination to fight terrorism. A number of suspected terrorists have been arrested and others killed in exchanges of fire with the Saudi Authorities. We are cooperating closely with the Saudi authorities in the fight against terrorism.

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the assessment of the House of Commons Foreign Affairs Committee in its report Foreign Policy aspects of the War Against Terrorism, published on 21 July, that Iraq has become a battleground for al-Qaeda. [188072]

Mr. Rammell: We will publish our full response to the Foreign Affairs Committee's report in the usual way by means of a Command Paper in due course. We continue to believe that most attacks in Iraq are the work of elements of the former regime and other disaffected Iraqis, although international jihadists have also been involved in attacks in Iraq.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on progress towards a referendum in Western Sahara. [188410]

Mr. Rammell: We seek a just, lasting and mutually acceptable solution to the Western Sahara dispute that provides the people of the Western Sahara with an opportunity to exercise their right to self-determination. We believe UN efforts to find a solution to the dispute should be maintained.

The next Secretary-General's Report on the Western Sahara will be published in October. This will cover the negotiations undertaken by the UN Special Representative to Western Sahara, Alvaro de Soto, since he was tasked with taking UN efforts forward in June 2004.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Administration on Moroccan sovereignty in Western Sahara. [188411]

Mr. Rammell: We have regular discussions with the US Administration on the question of Western Sahara. These have focused on ensuring that the UN process leads to a fair and lasting solution to this dispute that provides the people of the Western Sahara with an opportunity to exercise their right to self-determination.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has discussed the Western Sahara with the Government of Spain; and what his policy is on the Joint Franco-Spanish Strategy in the territory. [188412]

Mr. Rammell: We have regular discussions with the Spanish Government on the question of Western Sahara. These have focused on ensuring that the UN process leads to a fair and lasting solution to this dispute that provides the people of the Western Sahara with an opportunity to exercise their right to self-determination.

We welcome new initiatives intended to resolve the Western Sahara dispute. It is important that UN efforts to resolve this dispute are maintained and any proposed initiatives are carried out in conjunction with UN efforts to find a solution.

Zimbabwe

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what issues on Zimbabwe the Government are considering taking to the United Nations General Assembly; and what progress has been made. [188620]

Mr. Straw: Since 2001, we have tabled resolutions on Zimbabwe at the United Nations Commission on Human Rights, but they have been defeated by no-action motions. We are currently discussing with our EU partners what action to take at the UN General Assembly this autumn.

WORK AND PENSIONS

Carer's Allowance

Mr. Pickthall: To ask the Secretary of State for Work and Pensions how many people in the UK are paid carer's allowance; and how many applications have been rejected in the last 12 months for which figures are available. [188306]

Maria Eagle: The latest available information is that as at 31 May 2004 some 425,455 carers in Great Britain were being paid a carer's allowance[1], and that in the six months ending 30 June 2004[2] some 32,700 claims for the allowance were disallowed.

Information about claims for, and recipients of, carer's allowance in Northern Ireland is a matter for my right hon. Friend the Secretary of State for Northern Ireland.

Sources:

[1] DWP Information and Analysis Division 100 per cent. sample at 31 May 2005.

[2] DWP Carer's Allowance Unit Management Information Statistics. The figure includes some 27,000 claims that were disallowed because the person being cared for was not receiving an attendance allowance, or the care component of disability living allowance paid at the middle of higher rate, or the equivalent rates of constant attendance allowance paid under the Industrial Injuries Disability Benefit scheme or the War Disablement Pension scheme. Reliable data for the number of claims disallowed before 1 January 2004 are not available.

Employment Zones

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what proportion of the population live in an Employment Zone. [186423]

Jane Kennedy: We estimate that approximately five million people live in Employment Zone areas, representing just under 9 per cent. of Great Britain's population.

Housing and Council Tax Benefits

Mr. Webb: To ask the Secretary of State for Work and Pensions how many housing and council tax benefit claimants there were in *(a)* each local authority and *(b)* total in 2002–03. [189121]

Mr. Pond: The average number of housing benefit claimants during 2002–03 was 3,804,900; the average number of council tax benefit claimants was 4,590,900. The information for each local authority has been placed in the Library.

Pension Protection Fund

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what percentage of compensation he expects the Pension Protection Fund to provide to pensioners losing all or part of their occupational pensions when the scheme comes into existence. [188326]

Malcolm Wicks: When the Pension Protection Fund is introduced in April 2005, the level of compensation provided to members of eligible defined benefit schemes and defined benefit elements of eligible hybrid schemes will be as follows:

100 per cent. level of compensation subject to PPF Rules to those above the scheme's Normal Pension Age (NPA) immediately before the assessment date (the first day of the assessment period), and to those below NPA who are either in receipt of survivors' benefit or already in receipt of their pension on the grounds of ill health immediately before the assessment date.

90 per cent. level of compensation subject to PPF Rules to those below NPA immediately before the assessment date, subject to an overall compensation cap.

This is subject to Royal Assent being granted to the Pensions Bill.

Further details of the PPF compensation provisions can be found in Schedule 7 of the draft Bill.

Pensions

Mr. Willetts: To ask the Secretary of State for Work and Pensions pursuant to the answer of 14 June 2004, *Official Report*, column 729W, on pensions, what a pensioner's income from the State Pension was in each year in *(a)* cash and *(b)* real terms, broken down by the components identified in footnote 3. [186768]

Malcolm Wicks: The information is in the tables.

The maximum rate of basic State Pension plus the average amount of additional State Pension in payment for recently retired men aged 65 and women aged 60 in:

(a) Cash terms

£

	1996	*1997*	*1998*	*1999*	*2000*	*2001*
BSP Maximum Rate	61.15	62.45	64.70	66.75	67.50	72.50
Average additional State Pension	14.80	15.70	13.35	14.65	14.15	15.25

(b) Real terms (2004–05 prices)

	1996	1997	1998	1999	2000	£ 2001
BSP Maximum Rate	74.75	74.50	74.20	75.35	74.00	78.10
Average additional State Pension	18.10	18.70	15.30	16.55	15.50	16.40

Notes:
1. Average additional State Pension figures are derived from a 5 per cent. sample of DWP administrative data taken at March in each year.
2. State Pension is calculated as the maximum rate of basic State Pension plus the average amount of additional State Pension in payment for recently retired men aged 65 and women aged 60. Weekly rates are shown.
3. The real value of Retirement Pension is calculated by uprating the cash value in April of each year to April 2004 prices. In each year the April increase in basic State Pension is related to the increase in the Retail Price Index in the year to the previous September. In most years the increase in the Retail Price Index in the year to April is not exactly the same as the increase in the year to the previous September. Measuring the real value of BSP in April inevitably appears to show some small reductions or increases that would not appear if the new level of basic State Pension were introduced in September. These small variations do not affect pensioner living standards as any differences in inflation are automatically reflected in the following year's uprating.

Mr. Cousins: To ask the Secretary of State for Work and Pensions if he will estimate the sum required to produce an annuity of the same size as the minimum income guarantee/pension guarantee credit for pensioners with pension inflation protection in each year of the MIG pension guarantee credit scheme. [188810]

Malcolm Wicks: Table 1 estimates the amount that would be required to produce an inflation-protected annuity equal to the standard MIG/guarantee credit for a single person.

Table 2 estimates the amount that would be required to close the gap between a full basic state pension and the standard MIG/guarantee credit.

Table 1: The amount required to ensure an RPI escalating annuity income equal to the MIG/PC guarantee at the point of retirement

	Guarantee (£)	RPI escalating annuity rate (percentage)	Amount required to produce an income equal to the guarantee (£)
1999	82.25	6.94	62,000
2000	86.05	6.83	65,000
2001	92.15	6.54	73,000
2002	98.15	6.03	85,000
2003	102.10	5.45	97,000
2004	105.45	5.23	105,000

Notes:
1. The guarantee rate is for a single person, entitled to the highest age premium in the years before the age related premia were equalised.
2. The RPI escalating annuity rate has been provided by the Annuity Bureau for a single male aged 65; it is the top rate in December of each year (except 2004 where the top rate at September has been used) for a £100,000 sum.
3. The amount required has been rounded to the nearest £1,000.

Table 2: The amount required to purchase an RPI escalating annuity sufficient to close the gap between a full basic state pension and the MIG/PC guarantee at the point of retirement

	Guarantee (£)	Full BSP (£)	Amount guarantee exceeds BSP (£)	RPI escalating annuity rate (percentage)	Amount required to produce an income equal to the gap between the guarantee and a full BSP (£)
1999	82.25	66.75	15.50	6.94	12,000
2000	86.05	67.50	18.55	6.83	14,000
2001	92.15	72.50	19.65	6.54	16,000
2002	98.15	75.50	22.65	6.03	20,000
2003	102.10	77.45	24.65	5.45	24,000
2004	105.45	79.60	25.85	5.23	26,000

Notes:
1. The guarantee rate is for a single person, entitled to the highest age premium in the years before the age related premia were equalised.
2. The BSP is the maximum single person rate.
3. The RPI escalating annuity rate has been provided by the Annuity Bureau for a single male aged 65; it is the top rate in December of each year (except 2004 where the top rate at September has been used) for a £100,000 pot.
4. The amount required has been rounded to the nearest £1,000.

Pensions (Capita Forecasts)

Mr. Drew: To ask the Secretary of State for Work and Pensions if he will make a statement on the delay in the announcement of pension forecasts by Capita. [189086]

Malcolm Wicks: We are not aware of any delays in relation to the issue of pension forecasts by Capita.

If a member of a pension scheme is concerned that they have not received all the information they are expecting, they should contact the scheme in the first instance.

Mr. Drew: To ask the Secretary of State for Work and Pensions how many complaints the Department has received concerning the late announcement of pension forecasts by Capita. [189087]

Malcolm Wicks: The Department has not received any complaints concerning the late announcement of pension forecasts by Capita.

Retirement Age

Llew Smith: To ask the Secretary of State for Work and Pensions what research has been commissioned by his Department on the effects on the health of men over 65 years in the 10 most deprived local authorities in the United Kingdom of raising the retirement age to 70 years. [189108]

Malcolm Wicks: There is no such thing as a state retirement age; many employers choose to set a retirement age for their employees typically at 60 or 65. The Government are currently consulting with key stakeholders on the future of retirement age in light of the 2006 age legislation, and will consider the effects of their final decision on individuals and employers.

The state pension age, the age at which an individual may receive their state pension is currently 65 for men and 60 for women. As announced in the 2002 Pensions Green Paper "Simplicity Security and Choice: Working and saving for retirement", the Government have no plans to increase the state pension age beyond 65. Our aim is to provide the choice and opportunity for all individuals to work longer if they wish and to retire at a point that best suits their circumstances. A number of new measures to support this approach were introduced in the 2002 Pensions Green Paper.

As we are not planning to increase state pension age beyond 65 we have not conducted nor commissioned the specific research raised in the question. However, DWP research report 182 "Working after State Pension Age: Quantitative Analysis" finds that those choosing to work beyond state pension age are much more likely than those not working to report excellent or very good health status. The findings from this report also indicate that those remaining in work beyond state pension age were as least as likely to maintain good health status as all other groups, and found some limited evidence that work could lead to improvements in health status. A copy of the report is available in the Library.

Stakeholder Pensions

Mr. Kidney: To ask the Secretary of State for Work and Pensions what recent assessment he has made of *(a)* the take-up of stakeholder pensions, *(b)* the number of employers who offer access to a stakeholder pension and *(c)* the proportion of employer-designated schemes that have no members; and if he will make a statement on the future development of stakeholder pensions. [188472]

Malcolm Wicks: Figures from the Association of British Insurers (ABI) show that at 30 June 2004 2,042,864 stakeholder pensions had been sold since their introduction in April 2001. Official figures for the 2002–03 tax year confirm that 98 per cent. of sales have been to people in work and that the majority of stakeholder pensions are being bought by those on modest incomes; over three-quarters (860,000) of stakeholder pension plans with contributions in them in that year were for workers earning under £30,000 a year and around two-thirds (660,000) were for those workers earning under £20,000 a year. Stakeholder pensions are now an established product and provide an important route for people to save for their retirement.

In total just over 500,000 employers offer their employees access to a stakeholder pension scheme. Of those around 270,000 employers have designated a stakeholder pension scheme as required by law. The remainder do so voluntarily, for example as additional or optional pension provision where a company pension scheme is in place. Many more employees now have access to a good value pension arrangement through their place of work irrespective of their position in the company.

The Employers Pension Provision 2003 survey indicates that around three quarters of employer designated schemes have no members. Research shows that an employer contribution is the most important factor in encouraging pension take-up by employees. Where there is an employer contribution, average take-up by the workforce is around 70 per cent.; compared with 13 per cent. where there is no employer contribution. We will continue to work with employers so they are aware of the important role they play in helping their employees provide for their retirement. Through our Informed Choice Programme we have a range of measures to encourage work place savings. Our initiatives will make it easier for employers to promote good schemes in the workplace, will extend the issue of combined forecasts of State, personal and occupational pension showing projected entitlement and establish the best ways of ensuring that their employees are provided with a decent standard of pension information through the workplace.

From April 2005 the stakeholder pension will become part of the Sandler stakeholder suite of savings products. The new structure will enable providers to market stakeholder pensions more actively and it will also be possible for firms to provide advice to more people. It will continue to offer a good deal for the consumer. Stakeholder pensions are part of our wider plans to help people to save for a decent income in retirement. These include our Informed Choice Programme, The Employer Task Force and the Pension Commission, all of which will assist in increasing private pension access and provision.

Unemployment Benefit

Hugh Bayley: To ask the Secretary of State for Work and Pensions what the cost of unemployment benefits has been *(a)* at current prices and *(b)* as a percentage of gross domestic product in each year since 1979. [188956]

Mr. Pond: I refer my hon. Friend to the written answer I gave my hon. Friend the Member for Vale of Clwyd (Chris Ruane) on 7 September 2004, *Official Report*, columns 1205–206W.

Work Injuries

Mr. Dismore: To ask the Secretary of State for Work and Pensions what steps he is taking to promote rehabilitation services for people injured at work; and if he will make a statement. [R] [186481]

Jane Kennedy: The Government are taking many steps to promote rehabilitation services for people injured or sick, whether the cause is work related or not. These include the Department's work to produce and publish a Framework for Vocational Rehabilitation.

This framework will demonstrate the Government's commitment to vocational rehabilitation, and in the short term will help to improve understanding of what vocational rehabilitation is and the support that currently exists.

In the longer term, the framework will take additional steps to further promote rehabilitation services for people injured at work.

The Health and Safety Commission in their new strategy recognised the need to strengthen their role in promoting healthier workplaces and in getting people back to work through a much greater emphasis on rehabilitation. The Health and Safety Executive has therefore developed a best practice approach to help employers and managers, in partnership with their employees and their representatives, to proactively manage long-term sickness absence and help those who are absent from work due to sickness. In addition, existing occupational health services also have a role in promoting a return to work after an accident has occurred. NHS Plus, a network of occupational health departments in the NHS, provides such services, which are particularly focused on small and medium sized enterprises.

TREASURY

Civil Service Recruitment

Mr. Llwyd: To ask the Chancellor of the Exchequer what discussions he had with the First Secretary of the National Assembly for Wales prior to his announcement in the Spending Review of job cuts affecting National Assembly employees; and when these discussions took place. [188979]

Mr. Boateng: The Chancellor of the Exchequer and the First Minister of the Welsh Assembly Government have discussions from time to time on various matters.

Inland Revenue Customer Service Survey

Mr. Lidington: To ask the Chancellor of the Exchequer what the cost to public funds was of the Inland Revenue's Customer Service Survey conducted by BMRB International in 2004. [188614]

Dawn Primarolo: I refer the hon. Member to the answer given to the hon. Member for North Norfolk (Norman Lamb) on 15 June 2004, *Official Report*, column 832W.

Special Measures

Mrs. Browning: To ask the Chancellor of the Exchequer which Government Departments are subject to special measures. [185087]

Mr. Boateng *[holding answer 19 July 2004]*: All Government Departments are required to provide the Treasury with monthly expenditure reports. This year, as a condition for agreeing significant access to the Reserve in 2002–03, the Home Office and the Department for Constitutional Affairs have been asked to discuss their monthly expenditure reports with the Treasury. During 2003–04 both Departments have done so and made considerable improvements in their financial management systems. This has been welcomed by the Treasury.

As part of the normal relationship between these Departments and the Treasury there will be continued sharing of information and discussion of the issues. These measures are being refined and will become part of a common approach to sharing in-year financial information between Treasury and all Departments.

WALES

Turner and Newall

9. **Hywel Williams**: To ask the Secretary of State for Wales, what discussions he has had with ministerial colleagues in the Department for Work and Pensions in respect of pensions for staff at Turner and Newall. [187929]

Mr. Hain: None. However, I am aware that Department for Work and Pensions Ministers have been in discussion with company and trade union representatives about this matter.

Further Education

10. **Mr. Caton**: To ask the Secretary of State for Wales, what discussions he has held with Secretaries in the Welsh Assembly Government about the impact of the 2004 spending review on further education provision in Wales. [187930]

Mr. Touhig: SR2004 marks a once in a generation step change in the Government's financing of Wales and a huge investment in our future. The Assembly's budget will rise to almost £13.5 billion a year by 2007–08, and has been welcomed by Assembly Ministers. These resources will significantly enhance the Welsh Assembly Government's ability to enable further education provision in Wales

Higher Education Act

11. **Mr. Prisk:** To ask the Secretary of State for Wales, what recent discussions he has had with Secretaries in the National Assembly for Wales on the Higher Education Act 2004. [187931]

Mr. Hain: Regular ones.

The Higher Education Act, transferring power for student support and the tuition fee to the Assembly, which has established an independent review under the chair of Professor Teresa Rees.

Anti-social Behaviour

12. **Huw Irranca-Davies:** To ask the Secretary of State for Wales what discussions he has had with Cabinet colleagues on the effect of anti-social behaviour measures in Wales. [187932]

Mr. Touhig: My right hon. Friend and I have regular discussions with Ministerial colleagues on matters affecting Wales.

Following the Government's lead, the Police, Community Safety Partnerships and others in Wales, are increasingly using the wide range of powers put in

place to tackle anti-social behaviour. New figures show that in the year to 31 March 2004 there was a 170 per cent. rise in the number of ASBOs issued in Wales.

Teachers

13. **Mr. Swayne:** To ask the Secretary of State for Wales what discussions he has had with the Assembly Executive regarding the teaching profession in Wales. [187933]

Mr. Touhig: I regularly meet the Assembly Minister for Education and Lifelong Learning to discuss a range of education issues.

Defence-related Jobs

Paul Flynn: To ask the Secretary of State for Wales what discussions he has had with the First Secretary on the number of defence-related jobs in Wales. [187927]

Mr. Touhig: The defence industry supports many thousands of high quality jobs in Wales and we are keen to encourage further investment in this area. To this end, my right hon. Friend and I have regular discussions with the Assembly and with Cabinet colleagues to explore the possibilities for securing more such quality jobs for Wales.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Wales how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion, and *(c)* nursing mothers and pregnant women in each building and set of offices for which his Department is responsible. [187315]

Mr. Touhig: The Wales Office has a total of 53 staff in the offices in London and Cardiff. In view of the number of staff and size of the offices, it is not possible to set rooms aside for any of these purposes.

The London staff can use DCA facilities. All DCA London HQ buildings have a room set aside for smokers. Male and female prayer rooms are available in Selborne House, Clive House and Steel House. Rest rooms are also available in these buildings for nursing mothers and pregnant women.

In Cardiff, staff can access facilities of the National Assembly for Wales at Cathays Park and Cardiff Bay. Two rooms are set aside for smokers in Cathays Park and one in Cardiff Bay. One prayer room is available in Cathays Park for use by all faiths. Nursing mothers and pregnant mothers have the use of two first aid rooms, one in Cathays Park and one in Cardiff Bay.

TRADE AND INDUSTRY

Computer Technologies

Sue Doughty: To ask the Secretary of State for Trade and Industry (1) what estimate she has made of the current and projected use of peer-to-peer file sharing home computer technologies with reference to the type of files exchanged and the volume of material exchanged; [188155]

(2) if she will provide an impact assessment of the growth of use of peer-to-peer file sharing home computer technologies for affected commercial sectors; [188156]

(3) if she will make a statement on her Department's strategy for the future public use of peer-to-peer file sharing home computer technologies. [188157]

Ms Hewitt: We believe that peer-to-peer file sharing activity currently involves music files more than other types of content, but this could change as broadband take-up increases. The British Phonographic Industry has published research indicating that 8.0 million people in the UK claim to be downloading music—with 92 per cent. of them (7.4 million people) using illegal sites. In my reply of 19 April 2004, *Official Report*, column 69W, to a question asked by the hon. Member for Lichfield (Michael Fabricant) about illegal downloading of music, we acknowledged the serious impact on our creative industries from illegal downloading of music and welcomed the positive steps recently taken by the music industry to promote the availability of legitimate music tracks on the internet.

We hope that the development of further imaginative ways of marketing digital content will be given greater impetus by recommendations in due course from the Creative Industries Forum on intellectual property, which was announced in a written statement by my right hon. Friend, the Minister for the Arts, on 19 July 2004, *Official Report*, column 2WS. In particular, we hope the forum will explore the opportunities presented by digital media to provide consumers with attractively priced, reliable and secure alternatives to illegal downloading.

"Fairness for All" White Paper

Keith Vaz: To ask the Secretary of State for Trade and Industry (1) how many respondents there were to the Fairness For All White Paper; and if she will make a statement on the content of the responses; [187940]

(2) what plans she has to take the proposals contained in the Fairness For All White Paper forward following the consultation period; and on what timetable; [187941]

(3) what plans she has to meet stakeholder organisations for further discussions on the Fairness For All White Paper. [187942]

Ms Hewitt: The consultation following the release of Fairness for All, officially closed on 6 August 2004. Over 450 responses have been received from a wide variety of stakeholders, interested groups and individuals. The Government is currently assessing all the responses it has received in detail and will publicly respond in due course.

The Government will continue to adopt an open and inclusive approach to involving stakeholder organisations in developing our proposals on the Commission for Equality and Human Rights (CEHR). As part of this approach we have already met with stakeholders through the independent advisory task force on 7 September. This meeting has advised on, and informed, the ongoing analysis of the 'Fairness for All' consultation.

The Government is committed to improving equality and human rights for all in our society. This underpins our vision of a modern, fairer and more prosperous

Britain. We are fully committed to the creation of the CEHR which we believe will help create a more equal and cohesive society.

The establishment of the CEHR will require primary legislation, and we intend to bring a Bill before Parliament as soon as time allows. We anticipate setting up a steering group to continue for 12–18 months to manage the planning and implementation of the key milestones towards the launch day. The CEHR will not be fully operational before the end of 2006 at the earliest.

Bodies (Funding)

Mr. Henry Bellingham: To ask the Secretary of State for Trade and Industry what the *(a)* current and *(b)* projected levels of funding are from her Department for (i) the Manufacturing Advisory Service and *(b)* Enterprise Insight. [186340]

Jacqui Smith: The information is as follows:

(i) Manufacturing Advisory Service

(a) In the current financial year (2004–05) the Department will provide funding of £4 million for the Manufacturing Advisory Service.

(b) In the following three years, the Department's expenditure in support of the regional operations of the Manufacturing Advisory Service will be £5 million in 2005–06, £6 million in 2006–07, and £6 million in 2007–08, as announced in the 2004 Spending Review. In addition, the Department will also fund a contract to manage the Manufacturing Advisory Service national network over the same period. The size of this contract has not yet been determined.

(ii) Enterprise Insight

(a) In the current financial year (2004–05), the Department is providing funding for Enterprise Insight of £753,000.

(b) This funding will rise to £5 million per annum in 2006–07 and 2007–08, as announced in the 2004 Spending Review.

Business Regulations

Mr. Bellingham: To ask the Secretary of State for Trade and Industry how many business regulations since 2002 have incorporated clauses to set a deadline for a regulation to cease to have effect unless renewed. [186355]

Nigel Griffiths: Two.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry how many regulations which affect small businesses have been abolished by her Department over the past year. [186351]

Nigel Griffiths: The information requested is not held centrally.

Companies Act 1985

Mr. Djanogly: To ask the Secretary of State for Trade and Industry how much money has been paid into court pursuant to the provision of section 430(11) of the Companies Act 1985 in each of the past 10 years. [188600]

Jacqui Smith *[holding answer 13 September 2004]:* This information is not collected centrally by legislative provision and could be provided only at disproportionate cost due to the amount of information to be processed and the need to retrieve information from files not currently in use. This information is therefore being withheld under the Code of Practice on Access to Government Information on the grounds that it would require an unreasonable diversion of resources.

Departmental Recycling

Bob Spink: To ask the Secretary of State for Trade and Industry what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if she will make a statement on the Department's recycling policy. [188696]

Ms Hewitt: Between April 2003 to March 2004, over 98 per cent. of the Department's waste from its HQ operations was recovered for recycling or energy production.

The Department has a recycling strategy in line with the Government's framework for sustainable development, with appropriate procedures and facilities in place.

Departmental Staff (Upper Age Limits)

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry whether *(a)* her Department and *(b)* agencies for which it is responsible (i) have a set retirement age which applies to all or most personnel and (ii) have a maximum age beyond which applications for employment will not be considered; and what the age is in each case. [186093]

Ms Hewitt: The retirement age for all DTI staff in grades below the Senior Civil Service is 65. For staff in the Senior Civil Service the normal retirement age is 60.

We require applicants for employment to have sufficient time to complete the required probation period (generally 12 months) for their grade or specialism before they reach age 65.

Economic and Social Research Council

Mr. Drew: To ask the Secretary of State for Trade and Industry what proposals there are to increase funding for the Economic and Social Research Council. [188402]

Ms Hewitt: The Government's commitment to the continuing excellence of UK science was reinforced by the outcome of the 2004 Spending Review, in which it announced annual real growth in the public science base of 5.8 per cent., through the DTI and DfES, which will see it climb to over £5 billion by 2007. That is more than a billion pounds more than this year and nearly double the expenditure in 1997. Under existing plans, the Economic and Social Research Council is expected to receive an additional £15.8 million next year as a result of the previous Spending Review. Allocations to Research Councils and other bodies through the Science Budget, for 2006–07 onwards, will be announced early in 2005.

Manufacturing Advisory Service

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the Manufacturing Advisory Service. [186345]

Jacqui Smith: The Manufacturing Advisory Service has been a huge success as a source of practical help to small and medium-sized manufacturing companies. It plays a vital role in helping our manufacturers to improve their productivity and to compete effectively in an increasingly global economy. In the period from its establishment in April 2002 to June 2004 the Manufacturing Advisory Service has delivered £66.8 million in added value to manufacturing companies it has assisted, with average productivity improvements running at 30 per cent. Its success was recognised in the recent 2004 Spending Review, as a result of which the Department's funding for MAS will increase to £17 million over the period 2005–06 to 2007–08, match funded by the regional development agencies. We are working with the regional development agencies and other stakeholders to ensure that we take full advantage of this additional funding to build on the success that has already been achieved.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the total annual projected resource budget is for the Manufacturing Advisory Service. [187106]

Jacqui Smith: Following the 2004 Spending Review announcement, the Department's expenditure in support of the regional operations of the Manufacturing Advisory Service will be £5 million in 2005–06, £6 million in 2006–07, and £6 million in 2007–08, match funded by the Regional Development Agencies. In addition, the Department will separately fund a contract to manage the MAS national network over the same period. The size of this contract has not yet been determined.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the annual projected resource budgets are for each of the regional manufacturing advisory services. [187107]

Jacqui Smith: The Department is currently in discussion with the Regional Development Agencies about the regional allocation of the Department's funding for the regional operations of the Manufacturing Advisory Service over the 2004 Spending Review period. The Regional Development Agencies will be expected to match fund the Department's own contribution.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the annual resource budgets have been for each of the regional manufacturing advisory services since 2002. [187108]

Jacqui Smith: The Department's budget allocation in support of the regional centres of the Manufacturing Advisory Service in the South East, London, West Midlands, North West, Yorkshire and the Humber, South West, and Wales, over the period 2001–02 to 2004–05, has been £1,350,000 each. The allocation to the North East has been £940,000, to the East Midlands £1,441,000 and East of England £1,145,000. The Department's budget allocation has been matched funded by the Regional Development Agencies in each region.

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what the total annual budget for the Manufacturing Advisory Service as a whole has been since 2002. [187112]

Jacqui Smith: The Department's total budget allocation for the regional operations of the Manufacturing Advisory Service over the period 2001–02 to 2004–05 has been £12.9 million, match funded by the Regional Development Agencies. The Department's budget allocation for the management of the Manufacturing Advisory Service national network over the same period has been £1.2 million.

Medical Research (Animals)

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans her Department has to improve protection for the *(a)* employees and *(b)* investors of companies which carry out medical research involving animals; and if she will make a statement. [186333]

Ms Hewitt: The Government are determined to tackle animal rights extremists who attempt to stop individuals and companies going about their legitimate business.

On 30 July, together with my right hon. Friend the Secretary of State for Home Affairs, I announced a series of tough new measures which will help deal with the illegal activists who harass, threaten or physically attack those involved in vital, life-saving scientific research. Animal research has helped save hundreds of millions of lives, and is only carried out where absolutely necessary and under stringent controls. This research is subject to the strictest regulation: Britain has the most tightly controlled regime governing animal experiments in the world.

The new proposals strengthen on-going action by the Government, the police, the Crown Prosecution Service and the courts to deal with criminal extremists and underline the Government's commitment to protecting the scientific community.

Ministerial Visits

Mr. Rosindell: To ask the Secretary of State for Trade and Industry (1) how many official visits she has made to the London Borough of Havering in the last 12 months; [189238]

(2) how many official visits she has made to Romford Market. [189239]

Ms Hewitt: None.

Research Councils (Grants)

Mr. Drew: To ask the Secretary of State for Trade and Industry what the level of Government grant to each research council was in each of the last three years. [188401]

Ms Hewitt: The specific allocation made to each of the seven UK Research Councils, from the Office of Science and Technology 's Science Budget, for the last three years, is fully outlined in the DTI's publication, entitled the Science Budget, 2001–02 to 2003–04. Copies of the document were placed in the Libraries of the House.

Science and Innovation Investment Framework

Sue Doughty: To ask the Secretary of State for Trade and Industry what qualitative analysis was undertaken in the preparation of the paper Science and Innovation Investment Framework 2004–2014, published in July, to determine the likely consequences of the proposed investment strategy on the types of research projects undertaken in the United Kingdom. [188078]

Ms Hewitt: A range of analysis was used in the preparation of the Science and Investment Framework 2004–2014 including a public consultation to which around 200 responses were received from individuals and organisations including businesses, charities, higher education institutes and representative organisations. The framework builds on the substantial work of the DTI Innovation report and the Lambert Review of Business-University Collaboration, both published in 2003. The proposed investment strategy does not attempt to determine the types of research projects that should be undertaken. Allocation of funding to specific projects will continue to be governed by excellence and relevance to the needs of potential users and the nation. The framework identifies the strategy to underpin the Government's ambition, shared with its partners in the private and not-for-profit sectors, is for the UK to be a key knowledge hub in the global economy, with a reputation for outstanding scientific and technological discovery as well as turning the knowledge into new products and services.

Science Expenditure

Sue Doughty: To ask the Secretary of State for Trade and Industry if she will estimate the proportion of the United Kingdom total science spending which is fully independent of commercial interests; and what trends the Government have identified relating to past and future variations in this proportion of science spending in the UK. [188076]

Ms Hewitt: The Government's commitment to the continuing excellence of UK science was reinforced by the outcome of the 2004 Spending Review, in which it announced annual real growth in the public science base of 5.8 per cent., through the DTI and DfES, which will see it climb to over £5 billion by 2007. That is more than a billion pounds more than this year and nearly double the expenditure in 1997. The Government fully recognise the role that public and private organisations including businesses and charities play in the investment of the science base. As, outlined in the Science and Innovation Framework 2004–14, we aim to further encourage collaboration between the various organisations. No estimate has been made of the proportion of the total spend which is fully independent of such interests.

NORTHERN IRELAND

Abortions

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of terminations performed in the Province in each of the last 10 years. [187453]

Angela Smith: The following table provides figures for the number of medical abortions recorded in Northern Ireland hospitals for each year from 1995 (the earliest year available) to 2003 (the latest year available).

	Number
1995	72
1996	64
1997	80
1998	71
1999	76
2000	82
2001	75
2002	76
2003 (Provisional)	73

Altnagelvin Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he to increase the number of critical care beds at Altnagelvin Hospital. [188677]

Angela Smith: The number of critical care beds at Altnagelvin Hospital has increased significantly in recent years. The hospital currently has nine critical care beds—five intensive care beds and four high dependency beds.

Critical care capacity at Altnagelvin and other hospitals is kept under regular review and we would expect continued expansion in bed numbers in future years in response to continued increases in demand.

Ambulances

Lembit Öpik: To ask the Secretary of State for Northern Ireland how many of the total ambulance accidents in the last two years in Northern Ireland were attributed to *(a)* driver error and *(b)* mechanical failure; and if he will make a statement. [188373]

Angela Smith: Of the 121 road traffic accidents involving Northern Ireland Ambulance Service ambulances in the last two years for which information is available (15 April 2002–14 April 2004), 16 have been attributed to driver error and none to mechanical failure. The Department of Health, Social Services and Public Safety does not hold information about accidents involving other ambulance service providers in Northern Ireland.

Lembit Öpik: To ask the Secretary of State for Northern Ireland how many road traffic accidents involving Mercedes Sprinter ambulances in the last two years in Northern Ireland were attributed to *(a)* driver error and *(b)* mechanical failure; and if he will make a statement. [188374]

Angela Smith: Of the 64 road traffic accidents involving Northern Ireland Ambulance Service Mercedes Sprinter A and E ambulances in the last two years (15 April 2002–14 April 2004), 12 have been attributed to driver error and none to mechanical failure. My Department does not hold information about accidents involving other ambulance service providers in Northern Ireland.

Births

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* recorded births and *(b)* birth defects there were in Northern Ireland in each of the last 10 years. [187770]

Angela Smith: *(a)* The number of recorded births in Northern Ireland each year from 1994 to 2003 (the latest year for which the data are available) is given in the following table.

Number of recorded births (live and still) in Northern Ireland, 1994 to 2003

	Births
1994	24,251
1995	23,838
1996	24,535
1997	24,218
1998	23,790
1999	23,089
2000	21,605
2001	22,074
2002	21,507
2003	21,756

(b) Information on all birth defects is not available. However, information is collected by the Chief Medical Officer on the number of children born each year suffering from a number of selected congenital malformations in Northern Ireland. This information is provided in the following table for the years 1994 to 2003.

Number of selected congenital malformations, 1994 to 2003

	Anencephalus	*Hydrocephalus*	*Spina Bifida*	*Downs Syndrome*
1994	3	6	19	29
1995	3	10	12	25
1996	6	5	6	38
1997	3	9	9	45
1998	7	10	11	42
1999	5	13	8	27
2000	0	13	9	32
2001	5	11	13	36
2002	6	9	9	12
2003[1]	3	6	12	32

[1] Figures not yet published by CMO.

Cancer

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what *(a)* conclusions he has drawn and *(b)* actions he has taken following the publication of the second cancer statistics report of the Northern Ireland Cancer Registry. [188676]

Angela Smith: The "All-Ireland Cancer Statistics Second Report 1998–2000" is a comprehensive and constructive outcome of the Memorandum of Understanding between Northern Ireland, the Republic of Ireland and the National Cancer Institute in America. The report's data harmonisation, analysis and research will undoubtedly help to enhance our understanding of cancer. The report highlights areas of success and makes recommendations for action to improve cancer outcomes.

Detailed consideration of the report's findings and recommendations is being undertaken as part of the work of the Northern Ireland Regional Cancer Services Framework Steering Group, which is chaired by the Chief Medical Officer. The Framework Steering Group was set up in January 2004 to consider the future development of cancer services, including prevention, early detection, screening and treatment. The Framework Steering Group, which aims to build on existing health promotion initiatives such as the Tobacco Action Plan, is expected to complete its recommendations by December 2004.

Education

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many *(a)* controlled grammar, *(b)* voluntary grammar, *(c)* Catholic maintained grammar, *(d)* controlled secondary, *(e)* Catholic maintained secondary, *(f)* grant maintained integrated, *(g)* controlled integrated and *(h)* independent schools in Northern Ireland provide post-primary education between the ages of 11 and 16 years; and how many pupils are educated in each. [188759]

Mr. Gardiner: The number of schools and enrolments are as follows:

	Number of schools providing post-primary education between the ages of 11 and 16	*Year eight to 12 enrolments at these schools*	*Total enrolment at these schools*
Controlled Grammar	17	10,838	14,883
Voluntary Grammar	53	35,529	48,464
Catholic Maintained Grammar	0	0	0
Controlled Secondary	68	34,884	37,289
Catholic Maintained Secondary	76	39,057	44,275
Grant Maintained Integrated	14	6,876	8,070
Controlled Integrated	4	1,951	2,007
Independent Schools	13	353	781

Mr. Lidington: To ask the Secretary of State for Northern Ireland what percentage of pupils educated in grammar schools in Northern Ireland gained five or more GCSEs at Grade A* to C in each of the last five academic years. [188760]

Mr. Gardiner: Figures for 2003–04 are not yet available. The percentage of grammar school pupils gaining 5 or more GCSEs at Grade A*-C in each of the previous five academic years is as follows:

	Percentage achieving 5+ GCSEs at Grades A-C*
1998–99	95
1999–2000	95
2000–01	95
2000–02	95
2002–03	96

Mr. Lidington: To ask the Secretary of State for Northern Ireland what percentage of pupils from Northern Ireland gained five or more GCSEs at Grade A*-C in each of the last five academic years; and what the figures were for England and Wales. [188761]

Mr. Gardiner: Figures for 2003–04 are not yet available. The percentage of pupils gaining 5 or more GCSEs at Grade A*-C in each of the previous five years is as follows:

Percentage achieving 5+ GCSEs at Grades A-C*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Northern Ireland	56	57	57	59	59
England	48	49	50	52	53
Wales	48	49	50	50	51

Mr. Lidington: To ask the Secretary of State for Northern Ireland what percentage of pupils from Northern Ireland gained two or more 'A' levels at Grade A*-E in each of the last five academic years; and what the figures were for England and Wales. [188762]

Mr. Gardiner: Figures for 2003–04 are not yet available. The percentage of pupils gaining two or more A Levels at Grade A-E in Northern Ireland, England and Wales is as follows:

Percentage achieving 2+ A levels A-E	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Northern Ireland	92	93	93	95	95
England[1]	82	83	87	89	90
Wales	91	92	93	94	94

[1] Includes FE sector colleges

Mr. Lidington: To ask the Secretary of State for Northern Ireland what percentage of pupils from Northern Ireland left school with no formal academic qualifications in each of the last five academic years; and what the figures were for England and Wales. [188763]

Mr. Gardiner: Figures for 2002–03 and 2003–04 are not available. The percentage of Northern Ireland pupils leaving school with no formal qualifications in each of the previous five years is as follows:

	Percentage
2001–02	5.2
2000–01	4.8
1999–2000	3.6
1998–99	2.7
1997–98	3.1

My right hon. Friend the Secretary of State for Education has advised me that equivalent information is not available for England and Wales.

Health Inequalities

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what progress has been made towards removing inequality in *(a)* enjoyment of good health and *(b)* health services in Northern Ireland. [187766]

Angela Smith: There has been significant progress in removing inequality. This includes the comprehensive public health strategy, "Investing for Health", which has set an ambitious cross-governmental agenda to improve health and well-being and reduce health inequalities. It also has been addressed through the continuous development of the capitation formula, which ensures that the allocation of resources between Boards reflects need and the higher costs of delivering services in rural areas. More generally, the level of investment in primary care and hospitals throughout Northern Ireland will benefit everyone, but particularly those who are most in need.

Health Service

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients were detained on mental health grounds in Northern Ireland hospitals in each of the last 10 years. [188499]

Angela Smith: Information on the number of patients detained annually on mental health grounds in Northern Ireland hospitals is available from the Psychiatric Census, which is carried out in mental illness and learning disability hospitals on 31 March each year. Figures for the position since 1996 are as follows.

	Number of detained patients
1996	345
1997	383
1998	390

	Number of detained patients
1999	408
2000	365
2001	348
2002	—
2003	394

Information is not available prior to 1996 and figures for 2004 are not yet available. Figures for 2002 have not been returned by all hospitals; therefore it is not possible to provide a total Northern Ireland figure for that year.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans there are to increase the number of specialist stroke units in the Province. [188526]

Angela Smith: There are already a number of specialist stroke units in Northern Ireland. In line with the evidence-based strategy for Stroke Services, stroke implementation teams have been established within each of the Health and Social Services Board areas. These teams will identify gaps in the current provision of stroke services and will explore the potential to increase further the number of specialist stroke units.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what public consultation process will occur following departmental recommendations from the review of public health functions in the Province. [188674]

Angela Smith: The recommendations from the Review of Public Health Function in Northern Ireland under consideration. Decisions on consultation have still to be taken.

Digital Hearing Aids

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate has been made of the number of people in Northern Ireland who would benefit from a digital hearing aid who do not yet have one; and what plans there are to increase the number of patients using digital hearing aids. [188532]

Angela Smith: There are estimated to be over 100,000 hearing aid users in Northern Ireland, and audiologists consider that around 90 per cent. of these could benefit from a digital hearing aid (DHA).

The new hearing aids were introduced on the health service, on a phased basis, in October 2003 and are supplied to new hearing aid users, if appropriate. It will take a number of years to re-assess every existing user's suitability for a DHA.

The Department of Health, Social Services and Public Safety has included the wider provision of the new hearing aids in its Priorities for Action 2004–05, setting a target to supply 5,000 DHAs per year. An additional £0.5 million per year has been provided for this purpose, making a total of £1 million per year allocated to the provision of DHAs.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients have been provided with digital hearing aids in each of the last 12 months. [188533]

Angela Smith: Information on the numbers of persons provided with digital hearing aids is not available for each of the last 12 months. However, during the period from October 2003 to the end of January 2004, approximately 2,000 persons were provided with digital hearing aids.

Hospital-acquired Infections

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much was spent on infection control procedures at hospitals in Northern Ireland in each of the last 10 years. [187442]

Angela Smith: The information requested is not available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* MRSA and *(b)* total staphylococcus aureus cases have been reported in the Province in each of the past five years. [187808]

Angela Smith: The information requested is as follows.

Laboratory reports of MRSA bloodstream infections in Northern Ireland: 2000–04 (to 6 September)

2000	130
2001	190
2002	184
2003	252
2004	153
Total	909

Laboratory reports of all cases of staphylococcus aureus bloodstream infections (including MRSA) in Northern Ireland: 2000–04 (to 6 September)

2000	352
2001	426
2002	492
2003	595
2004	362
Total	2,227

These figures are based on voluntary reports made by Trust laboratories.

Medical School

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment has been made of the need for a second medical school in the Province. [188542]

Angela Smith: I am aware that the University of Ulster intends to investigate the feasibility of a new medical school, based at its North West campus. Subsequently it will be necessary to consider how any proposal from the university might meet the tests of viability and sustainability, as well as how such a proposal would be funded and developed within the wider context of tertiary education within Northern Ireland.

Prosthetic Limbs

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on *(a)* funding for and *(b)* development of services for those with prosthetic limbs. [187784]

Angela Smith: Funding for the prosthetic service is provided from the Physical and Sensory Disability Programme of Care. In 2003-04 expenditure on the prosthetics service totalled just over £1 million.

Representatives of the Prosthetic Users Forum met officials in the Department of Health, Social Services and Public Safety in the Autumn of 2003 to discuss the prosthetics service and in March 2004, Green Park Healthcare Trust submitted to the Department a copy of the report 'Needs Assessment for Northern Ireland Regional Prosthetic Service'. This included a service development plan for 2004-05 costing £360,000.

The Department has included as an action in its Priorities for Action 2004-05:

'Boards and Trust should collaborate with Green Park Trust to develop the range of prosthetics available. In particular, this should include wider provision of an improved range of prosthetics for some 125 users by 31 March 2005. Boards should submit final figures for 2004-05 in their September progress reports'.

An additional £250,000 was allocated by the Department for this purpose.

A further meeting between representatives of the Prosthetics Users Forum and Departmental officials is being arranged and this will assist in developing future plans to further develop the prosthetics service.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on services in the Province for those with prosthetic limbs. [187785]

Angela Smith: A regional prosthetics service is provided by Green Park Healthcare Trust, on the Musgrave Park Hospital site, which serves just under 1,800 prosthetic users across a spectrum of ages and disabilities. The service benchmarks its performance against other prosthetic centres throughout the UK.

It is endeavouring to rise to the challenges of increased user expectation and new technology. Consideration is being given to further development. The service won the Prosthetics and Orthotics Services Innovation Award 2004, run by the Limbless Association in the UK.

Public Employees (Religion)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the religious breakdown is of the employees of the Child Support Agency for Northern Ireland. [188737]

Mr. Spellar: The following table details permanent and casual non-industrial NICS staff in the Child Support Agency as at 1 January 2004.

Community Background	*Number*	*Percentage*
Protestant	798	45.1
Catholic	943	53.3
Not determined	29	1.6
Total	1,770	

Public Transport

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many passengers travelled on *(a)* Ulsterbus, *(b)* Citybus and *(c)* Northern Ireland Railways in each of the last five years. [188732]

Mr. Spellar: The following table shows the number of passengers who travelled on Ulsterbus, Citybus and on Northern Ireland Railways over the last five years. The figures are in millions.

Million

	Ulsterbus	*Citybus*	*Northern Ireland Railways*
1999-2000	48.2	21.3	5.9
2000-01	46.8	20.3	5.9
2001-02	44.8	20.2	6.2
2002-03	46.0	19.9	6.3
2003-04	45.9	19.5	6.9

Racism

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much was allocated to combating racism in Northern Ireland in each year since 1997. [187414]

Mr. Paul Murphy: You asked about the level of funding provided to combat racism in Northern Ireland since 1997.

As I and my ministerial colleagues have repeatedly stated publicly the nature and evidence of racist-inspired violence and harassment of minority ethnic communities in Northern Ireland is both abhorrent and unacceptable to all right-minded people.

In response, action continues to be taken across Government and in partnership with our colleagues in the statutory, voluntary, community and business sectors aimed at combating it and redressing the distress of those suffering it.

It is also the intention of the various funding initiatives to help build the capacity of the communities concerned and the good relations with regard to the other communities here.

In the years since 1997, the following funding has been allocated to support minority ethnic communities as well as addressing racism within Northern Ireland:

	Sum awarded (£)
1998-99	883,944.41
1999-2000	794,847.09
2000-01	284,194.42
2001-02	701,857.46
2002-03	1,401,293.33
Total	4,065,836.60

The table details the total funding made available from the following range of sources for the period 1 April 1998 to 31 March 2003 inclusive:

European programmes managed by Government Departments;

Equality Commission NI;

Community Relations Council; and

Government Departments and non-departmental bodies.

The funding has been provided to meet core funding central management and administrative costs, and enable organisations to develop and provide services.

Details of funding provided since March 2003 is currently being collected and will be advised by supplementary answer at the earliest opportunity.

Warm Homes Scheme

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the take-up has been of the Warm Homes scheme in each Northern Ireland constituency for 2003, broken down by *(a)* numbers of installations and *(b)* total cost of work involved. [188735]

Mr. Spellar: The information is as follows:

Constituency	Cost	Number of homes (£)
South Down	858,206.81	837
Fermanagh and South Tyrone	642,868.21	473
Newry and Armagh	605,482.16	570
Belfast North	401,833.58	461
West Tyrone	535,021.67	452
Upper Bann	512,632.66	566
Mid-Ulster	481,125.69	426
Strangford	329,061.64	305
Lagan Valley	372,350.89	346
Belfast West	309,711.43	412
Foyle	327,759.35	381
Belfast East	248,275.24	282
East Antrim	246,630.49	277
Belfast South	212,373.11	241
East Londonderry	290,392.94	312
North Antrim	301,131.06	324
South Antrim	217,508.13	277
North Down	224,916.53	204
Total	7,117,281.59	7,146

Waste Disposal

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the most recent annual cost of disposing of *(a)* all waste and *(b)* disposable nappies in each council area in Northern Ireland. [187767]

Angela Smith: The three District Council Waste Management Partnerships are required to submit Annual Performance Reports to the Department of the Environment. The scope of these reports has recently been revised to include details of the combined costs for the treatment and disposal of wastes and the first new data set is due in October 2004. Information on disposal of disposable nappies is not collected separately by district councils. However, on receipt of the Annual Performance Reports, the Department will estimate the cost of treating and disposing of disposable nappies for Northern Ireland as a whole, as well as treatment and disposal costs for all wastes by district council. I will write to the hon. Lady when this information is available and a copy of the letter will be placed in the library.

HEALTH

Vegetarianism

Mr. Hancock: To ask the Secretary of State for Health if he will make it his policy *(a)* to devise a legal definition of the word vegetarian and *(b)* to ensure that vegetarian food products are clearly labelled; and if he will make a statement. [187522]

Miss Melanie Johnson: The Government is aware of vegetarian consumers' concerns that some food products may be inappropriately labelled as 'suitable for vegetarians'.

Consumers are protected by the Food Safety Act 1990 and the Trade Descriptions Act 1968, which contain general provisions outlawing false or misleading labelling. The Government therefore has no plans to introduce a legal definition of 'vegetarian'. It does, however, believe that establishing Food Standards Agency (FSA) advice for industry and enforcement authorities setting out minimum standards for use of the terms 'vegetarian' and 'vegan' may be helpful. The FSA plans to hold a stakeholder meeting on 24 September to explore this option.

Abortions

Mrs. Iris Robinson: To ask the Secretary of State for Health how many women from Northern Ireland had terminations in England or Wales in each of the past five years. [188672]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave to my hon. Friend, the Member for Heywood and Middleton (Jim Dobbin) today.

Jim Dobbin: To ask the Secretary of State for Health how many women undergoing an abortion in England and Wales in *(a)* 2002 and *(b)* 2003 had had (i) one, (ii) two, (iii) three, (iv) four and (v) five or more previous abortions. [189000]

Miss Melanie Johnson: This information is published in the annual Abortion Statistics, series AB, Office for National Statistics and Department of Health, Statistical Bulletin 2003/23 and Statistical Bulletin 2004/14, copies of which have been placed in the Library.

Criminal Record Bureau

Mr. Lansley: To ask the Secretary of State for Health whether Criminal Record Bureau checks performed by one NHS organisation can be transferred for use by another. [188001]

Mr. Hutton: In principle, Criminal Records Bureau (CRB) disclosures are transferable between national health service employers and, in order to reduce bureaucracy and cost, the CRB has produced guidance to help employers through the procedure. But it is for the new employer to decide whether to accept a disclosure issued previously, having regard to such factors as the age of the disclosure, the similarity of the positions applied for and the nature of the information disclosed on the previous occasion.

Ectopic Pregnancies

Jane Griffiths: To ask the Secretary of State for Health how many ectopic pregnancies there were per 1,000 population for each major ethnic group in the last year for which figures are available. [187014]

Dr. Ladyman: The table shows the number of hospital episodes for ectopic pregnancies and the number of hospital deliveries, 2002–03. The information is taken from the hospital episode statistics (HES).

Ectopic pregnancies, national health service hospitals, England. Number of hospital episodes for ectopic pregnancy and number of hospital deliveries, 2002–03

	Number of ectopic pregnancies	*Number of deliveries*	*Percentage*
Asian	286	34,438	0.83
Black	447	22,206	2.01
Chinese and other	164	11,508	1.43
Mixed	69	3,554	1.94
White	4,819	306,830	1.57
Not given	3,022	168,036	1.80
Total	8,870	546,572	1.62

Note:
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed). Ethnicity data on HES should be used with care and may not yet be robust enough to support analysis of ethnic differences.

Source:
HES.

Free Eye Tests

Mr. Jenkins: To ask the Secretary of State for Health how many old age pensioners in the Tamworth constituency have benefited from the introduction of free eye tests in each year since 1997. [188127]

Dr. Ladyman: Data for the number of sight tests by constituency or by the number of pensioners are not collected centrally. Free sight tests for patients aged 60 and over came into effect on 1 April 1999.

The total number of national health service sight tests paid for patients aged 60 and over in the Shropshire and Staffordshire Strategic Health Authority for the years 1999–2000 to 2003–04 are shown in the table.

	Sight tests
1999–2000	105,830
2000–01	120,100
2001–02	115,940
2002–03	138,050
2003–04	139,450

Note:
Some patients aged 60 and over will be eligible for sight tests for other reasons as well, for example, on income grounds. The classification for such patients will depend on the patient and the practitioner.

Sight tests cannot be equated to the numbers of patients. Although most people do not come back for a sight test within the year, some patients suffering from medical conditions are advised to have re-examinations sooner.

Free School Fruit

Mr. Jenkins: To ask the Secretary of State for Health how many children in the Tamworth constituency benefit from the free fruit in schools scheme. [188126]

Dr. Ladyman: 3,774 children in the Tamworth constituency are benefiting from the school fruit and vegetable scheme. This represents a 100 per cent. take-up in 31 schools.

Sandra Gidley: To ask the Secretary of State for Health how many children in the Romsey constituency benefit from the free fruit in schools scheme. [187168]

Miss Melanie Johnson: Romsey will join the school fruit and vegetable scheme in November 2004, when children aged four to six will start receiving a free piece of fruit or vegetable each school day. There are 966 eligible children at schools with a Romsey post code.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health what mechanism has been put in place to enable the smooth transfer of a general practitioner transferring from one primary care trust's performers' list to another. [188000]

Mr. Hutton: The mechanism by which a general practitioner moves from one primary care trust's primary medical performers list to another is specified in regulations 17(3) and (4) of the NHS (Performers Lists) Regulations 2004 (SI 2004/585). Information about operation of medical performers lists is available on the Department's website at: http://www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/PrimaryCare/ManagementPrimaryCarePractitioners/fs/en

Gloucestershire Aneurism Screening

Mr. Dhanda: To ask the Secretary of State for Health what assessment his Department has made of the Gloucestershire Aneurism Screening Project; and if he will assess the case for extending the project across England. [186309]

Dr. Stoate: To ask the Secretary of State for Health (1) if he will introduce a national screening programme for abdominal aortic aneurysms; [187052]

(2) what assessment he has made of the screening pilot project for abdominal aortic aneurysms in Gloucestershire; and if he will make a statement. [187053]

Miss Melanie Johnson *[holding answer 7 September 2004]:* The United Kingdom national screening (NSC) committee makes recommendations to Ministers on all aspects of screening programmes. It is currently considering the evidence for, and the feasibility of, implementing a screening programme for abdominal aortic aneurysms, including the implications for the national health service, before advising Ministers.

While screening has the potential to save lives or improve health through early diagnosis of serious conditions, there are benefits and drawbacks. The Government will take all factors into account, in particular the advice of the NSC, but also the experience of the Gloucestershire project, before reaching decisions.

Home Deliveries

Mrs. Helen Clark: To ask the Secretary of State for Health what care an NHS trust is required to provide to women wishing to have a home birth. [186115]

Dr. Ladyman: If a National Health Service trust provides a home birth service, it should ensure that suitably skilled midwives are available to attend the woman and to provide care and support throughout the labour and birth. Appropriate transfer arrangements should also be in place in case the woman or baby needs specialist medical care.

Hospital Infections/MRSA

Mr. Burstow: To ask the Secretary of State for Health when Towards cleaner hospitals and lower rates of infection: A summary of action was commissioned; when it was signed off and ready for publication; and when it was decided to publish it. [185798]

Miss Melanie Johnson: We have an ongoing programme of work on infection control and hospital cleanliness, informed by advice from the Chief Medical Officer (CMO) and the Chief Nursing Officer, which has produced publications such as the CMO's Getting Ahead of the Curve and Winning Ways. A summation of this work was commissioned by the Secretary of State on 1 July 2004 to improve public understanding of what was being done. The Secretary of State approved a final text of Towards Cleaner Hospitals and Lower Infection Rates on 9 July 2004 and the document was published and posted on the Department's website on 12 July 2004.

Clive Efford: To ask the Secretary of State for Health what plans he has to ensure that the same *(a)* methods and *(b)* criteria are used to detect MRSA in all acute hospitals and in each department within those hospitals. [187065]

Miss Melanie Johnson: The detection and identification of methicillin resistant Staphylococcus aureus (MRSA) in samples is set out in the Bacteriology Standard Operating Procedures (BSOP) issued by the Health Protection Agency. All National Health Service laboratories accredited by Clinical Pathology Accreditation (UK) must have in place standard operating procedures that are based on, or give equivalent results to these BSOP Standards.

Patients who develop infection will have samples taken as part of their clinical care but trusts will also carryout screening for MRSA infection and colonisation. The NHS is recommended to use the report of a working party of the British Society for Antimicrobial Chemotherapy, the Hospital Infection Society, and the Infection Control Nurses Association, published in 1998. This gives guidance on which patients should be screened for infection or colonisation by MRSA but policies will need to take account of local circumstances.

Infant Mortality

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 1 July 2004, *Official Report*, column 409W, on infant mortality, if he will set out *(a)* the baseline for the target to reduce the gap by 10 per cent. by 2010, *(b)* what the gap should be in 2010 if the target is met and *(c)* the current size of the gap between routine and manual groups and the population as a whole. [187853]

Dr. Ladyman: The baseline is the average of the three years 1997–99. In the baseline period, the infant mortality rate per 1,000 live births among routine and manual groups was 13 per cent. higher than the overall rate in all social groups (6.3 deaths per 1,000 live births compared with 5.6). I would underline that the target is to reduce the gap by at least 10 per cent. For the target to be met, in 2010 the infant mortality rate among the routine and manual group will be at most 11.7 per cent. higher than in all social groups. On the latest available data, 2000–02, the infant mortality rate among the routine and manual group was 16 per cent. higher than in all social groups.

Notes:

1. Social groups are as defined in the National Statistics socio-economic classification.

2. Figures for 'all social groups' and 'routine and manual groups' are for live births within marriage and joint registrations only, as social class can be allocated only to those groups where the occupation of the child's father can be identified.

3. The 'routine and manual' category consists of people in lower supervisory employment, sales and retail assistants, agricultural workers and technical occupations, semi-routine occupations, and routine occupations.

Mental Health

Mr. Burstow: To ask the Secretary of State for Health if he will outline his Department's plans for the "Mind Out for Mental Health" campaign; what evaluation has been made of it; and how much has been spent on it. [187859]

Ms Rosie Winterton: The "Mind out for Mental Health" campaign ended on 31 March 2004. In June, we announced a new five-year strategic plan to tackle stigma and discrimination on mental health grounds, which will build on the work of the "Mind out for Mental Health" campaign and will be formally launched on World Mental Health Day, 10 October.

The "Mind out for Mental Health" campaign was evaluated twice: at the end of 2001–02 and 2002–03. Additional research was carried out on "Read the Signs", a strand of the campaign specifically targeted at young people. Copies of the evaluation reports have been placed in the Library.

A total of £3,473,000 was spent on the campaign since its launch in March 2001.

Myasthenia Gravis

Mr. Colman: To ask the Secretary of State for Health if he will increase the numbers of consultants and nurses qualified to diagnose and treat myasthenia gravis. [188270]

Mr. Hutton: Information on the number of consultants, doctors and nurses specifically qualified to diagnose and treat myasthenia gravis is not collected centrally.

As at March 2004, there were 427 consultants in neurology. Since September 1997, numbers have increased by 149, or 54 per cent., and we are working towards increasing their numbers further.

We are encouraging more doctors to practise neurology by expanding the number of specialist registrar (SpR) opportunities in the specialty.

In 2003–04, central funding has been distributed to support the implementation of 10 additional SpR posts in neurology. All the posts have now been implemented. Trusts also have the opportunity to create up to 20 locally funded SpR training opportunities. Trusts were surveyed in February 2004, when six locally funded opportunities had been implemented, with the remaining 14 planned to have been implemented by August 2004.

In 2004–05, neurology has been allocated a further two centrally funded posts and strategic health authorities have been given freedom to agree as many additional SpR training opportunities as are necessary to achieve Working Time Directive compliance, subject to obtaining educational approval.

The number of nurses overall employed in the national health service has increased by 77,500 since 1997 and we are increasing the number of training places for nurses and midwives. Between 1996–97 and 2003–04, the number of students entering training to become a nurse or midwife has increased by 9,300, or 62 per cent.

National Service Framework for Children

Mr. Dawson: To ask the Secretary of State for Health when he proposes to publish the national service framework for children. [186073]

Dr. Ladyman *[holding answer dated 22 July 2004]:* The national service framework was published today.

NHS and Primary Care Trusts (Funding)

Mr. Lidington: To ask the Secretary of State for Health pursuant to the answer of 13 July 2004, *Official Report*, column 1100W, on NHS and primary care trusts (funding), under which part of the Code of Practice on Access to Official Information he declines to make available figures collected by strategic health authorities on the financial position of NHS trusts and primary care trusts. [188047]

Mr. Hutton: This information is considered to be exempt under Part II of the Code of Practice on Access to Government information.

NHS Targets

Mr. Burstow: To ask the Secretary of State for Health which previously published targets set for the NHS remain in place which are not listed in either the list of future targets or those to be achieved by March 2005 in the planning and priorities framework for 2005 to 2008. [188158]

Mr. Hutton: There are only 20 new national requirements set out in National Standards Local Action, the health and social care standards and planning framework for 2005 to 2008.

Fewer national requirements will create more scope for local priorities so that the national health service and social care has much more flexibility to deliver personalised services for patients and to recognise local needs and priorities.

While there is a need to focus on new priorities, it is essential that levels of service set through previous planning rounds are maintained. The Department will continue to monitor and report on all the commitments made.

Orthotics

Mr. Oaten: To ask the Secretary of State for Health what plans he has to develop the pathfinder programme with regard to orthotics. [187120]

Mr. Hutton: The pathfinder project was designed to deliver real changes at local level and to improve care for patients and included a consultation period with all the key stakeholders to determine how the findings of the orthotic pathfinder report can be adopted nationally and what resources services would need to achieve this.

This report differs from previous reports in that it describes a project that was designed to deliver the changes necessary to improve patient care rather than merely comment on the state of existing services. The document details the experiences of six trusts as they went through a process of change and the benefits that can be achieved if these changes were rolled out across the rest of the NHS. It details the specific changes made to improve the access to and clinical effectiveness of orthotic clinics.

The report has been published on the national health service purchasing and supply agency website and stakeholders have now the opportunity to respond. The report is intended not only to force the debate for change, but also to serve as a resource for those working to develop local solutions to local problems. We hope the information it contains can be widely shared, explored and evaluated both within and beyond the orthotic community. It would be premature to comment in advance of the community's response to this report and further evaluation on how we develop this important area of health.

Working Time Directive

Miss McIntosh: To ask the Secretary of State for Health what recent assessment he has made of the impact in the NHS of the working time directive on *(a)* the training of junior hospital doctors, *(b)* nurses and *(c)* accident and emergency departments in hospitals. [187949]

Mr. Hutton: Compliance with the working time directive (WTD) is a legal requirement for all employers. Responsibility for its implementation in the national health service rests with local operational authorities. We have vested responsibility for monitoring compliance with strategic health authorities (SHAs), as part of mainstream NHS performance management.

NHS trusts' plans to comply with the WTD were agreed with SHAs, which continue to support their achievement throughout the NHS. These plans take account of the need to maintain the quality of medical education and training; to develop the contribution made by staff in other disciplines; and to continue to provide excellent services to patients.

Written Answers to Questions

Thursday 16 September 2004

WALES

Departmental Staff

Mr. Llwyd: To ask the Secretary of State for Wales how many staff are employed in the Wales Office; how many there were in 1997; and if he will make a statement. [188997]

Mr. Hain: Staff numbers for the Wales Office, since its establishment on 1 July 1999, are shown in table 5.7 of the Wales Office Annual Report 2004 (Cm 6228), a copy of which can be obtained from the Library of the House.

DEPUTY PRIME MINISTER

Bexley Council (Asset Sales)

Derek Conway: To ask the Deputy Prime Minister if he will investigate the process by which Bexley council proposes to dispose of the North Cray school site in Sidcup to London and Quadrant. [188590]

Phil Hope: Disposal of land by local authorities is governed by section 123 of the Local Government Act 1972. Authorities have discretion to dispose of land in any manner they wish. The First Secretary of State, my right hon. Friend the Deputy Prime Minister's only power is to grant or withhold consent where authorities wish to dispose of land at less than the best consideration reasonably obtainable and the proposed disposal falls outside the scope of the General Disposal Consent in ODPM Circular 06/2003. There are no statutory powers available to launch an investigation into the disposal process used in any specific case. If an individual feels the correct procedures have not been followed the best course of action would be to approach the Local Government Ombudsman.

Canvey Island (Housing)

Bob Spink: To ask the Deputy Prime Minister how many additional houses he anticipates will be built on Canvey Island over the next 10 years; and how many school-age children he estimates will live in those houses. [189304]

Keith Hill: It will be for Castle Point borough council, as the local planning authority, to decide how many homes should be built on Canvey Island once the Regional Spatial Strategy for the East of England has been issued. It will also fall to the local authorities to consider how many school-age children are likely to live in any additional Canvey Island housing, having regard to local demography, types of housing to be provided and local educational standards.

Care Homes

Sue Doughty: To ask the Deputy Prime Minister how many local authority run care home beds there were in Surrey in each year since 1997. [188169]

Dr. Ladyman: I have been asked to reply.

The table shows the number of local authority staffed care home places in Surrey, as at 31 March for the years 1997 to 2001.

Number of local authority staffed care home places in Surrey at 31 March, 1997 to 2001

	Rounded numbers Number of places
1997	1,760
1998	970
1999	860
2000	860
2001	520

Source:
RA.

I understand from the chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Deprived Wards (Weston-super-Mare)

Brian Cotter: To ask the Deputy Prime Minister what the *(a)* score and *(b)* rank are for each of the wards in Weston-super-Mare according to the Index of Multiple Deprivation 2004 for each of (i) the seven domain indices, (ii) the sub-domains and (iii) the two supplementary indices. [188670]

Phil Hope: The Index of Multiple Deprivation (2004) is based on Super Output Areas (SOAs) rather than wards. SOAs are geographical units which are based on consistent areas of between 1,000 to 3,000 people. They are designed to measure small areas more effectively and to be consistent over time. Tables which show each of the wards in Weston-super-Mare and each of the Super Output Areas which make up these wards have been made available in the Library of the House. The scores and ranks of these SOAs are given as requested. In the ranks, 1 is most deprived. One of the Super Output Areas, in Wrington, is partially in this ward and partially in the adjacent ward. This SOA is included.

Disabled Facilities Grant Programme

Sue Doughty: To ask the Deputy Prime Minister what plans he has to abolish the means testing of the disabled facilities grant for the parents of disabled children in England. [188185]

Phil Hope: The Government are sympathetic to the difficult situation faced by families with disabled children, and announced a review of the operation of the DFG programme on 5 January 2004. In answer to a parliamentary question in the other place, the right hon. Lord Rooker said that the Office of the Deputy Prime Minister, jointly with the Department of Health will be reviewing the disabled facilities grant programme, in the context of the Spending Review 2004. A number of

financial and policy issues affecting the programme, including the operation of the means test and the maximum grant limit will be evaluated.

Energy Efficiency

Hugh Bayley: To ask the Deputy Prime Minister how many *(a)* pensioners and *(b)* other people have received help to insulate their homes in York in each year since 1997. [188947]

Keith Hill: The information requested is not collected centrally, and could be provided only at disproportionate cost.

Housing

Llew Smith: To ask the Deputy Prime Minister what assessment he has made of the cost of bringing hard to heat homes in the current housing stock up to standards described in his programme for decent homes. [188613]

Keith Hill: The Government and their partners are exploring the most effective means of improving the energy efficiency of hard-to-heat homes in different circumstances, for example where gas supplies are not available or where construction precludes the installation of traditional cost-effective insulation measures. This work is being pursued in the wider context of progress against the UK Fuel Poverty Strategy.

Hugh Bayley: To ask the Deputy Prime Minister how many new *(a)* social rented and *(b)* affordable homes have been provided in York in each year since 1997. [188948]

Keith Hill: The number of new registered social landlord dwellings for rent and low cost home ownership dwellings that have been built within York, as reported by the Housing Corporation, are tabled as follows:

	Registered social landlord dwellings for rent	*Low cost home ownership dwellings*[1]
1997-98	101	14
1998-99	0	0
1999-2000	155	6
2000-01	119	28
2001-02	50	3
2002-03	29	1
2003-04	35	12

[1] May include some refurbishment of existing dwellings

Leasehold Property Sales

Mr. Dismore: To ask the Deputy Prime Minister what steps he is taking to allow the purchase of leasehold property, especially under Right to Buy, by Muslims on the same or a similar basis to freehold, who want to take advantage of the Budget provisions to allow purchase of property without the payment of interest and double stamp duty. [188014]

Keith Hill: The Government are aware of the barriers faced by social tenants who wish to use Sharia'a compliant loan finance packages to purchase their homes under the Right to Buy and Right to Acquire schemes. These barriers exist in respect of both freehold and leasehold sales. To address them, the Government are considering ways of facilitating the sale of social homes to such tenants on voluntary terms. It intends to issue proposals for consultation soon.

Millennium Dome

Bob Spink: To ask the Deputy Prime Minister if he will make a statement on the schedule of maintenance and repairs for the Millennium Dome. [189319]

Keith Hill: The dome has been maintained under the terms of the contracts with MDL and Anschutz in order to hand over the dome for the construction of the arena and surrounding waterfront development. It has also been maintained sufficiently to enable it to be hired for short-term events in order to mitigate running costs.

The planned preventative maintenance regime that has been adopted covers the following categories of maintenance: fabric and supporting steelwork; air management system; water and drainage systems; services and plant; lighting; CCTV; voice alarm; fire alarm; landscaping; perimeter fence; and operational buildings required.

Regional Assemblies

Ann Winterton: To ask the Deputy Prime Minister if he will make a statement on the proposed *(a)* question and *(b)* preamble on the ballot paper for the referendum on a regional assembly in the North East of England; and what assessment he has made of the Electoral Commission's statement on the proposed referendum question. [188804]

Mr. Raynsford: The form of the question and preamble on the ballot paper for the referendum on a regional assembly in the North East is prescribed by the Regional Assemblies (Preparations) Act 2003*(a)*. The question was amended during the passage of the Act to take account of the Electoral Commission's comments and those of others.

Unauthorised Roadside Sales

Bob Russell: To ask the Deputy Prime Minister if he will introduce additional measures to enable local authorities more easily *(a)* to prosecute owners of vehicles and *(b)* to remove vehicles which are placed for sale on the highway; and if he will make a statement. [187982]

Mr. Morley: I have been asked to reply.

Defra is currently consulting through it's 'Clean Neighbourhoods' document on a raft of measures that will improve the suite of powers available to local authorities in the management of our local environment. These would be taken forward once a suitable legislative opportunity arises. The document includes proposed measures on nuisance vehicles.

The proposal is to create a definition of 'nuisance' vehicle that would include vehicles that were detrimental to the amenity of an area or causing a nuisance. Local authorities would have the power to remove these vehicles immediately and recover the costs of doing so. It would become a prosecutable offence for being responsible for such a vehicle.

What constitutes a nuisance or detrimental to the amenity of an area would be clarified in regulations and will be subject to the results of the consultation. Vehicles which are placed on the highway for sale is being considered as part of this process.

Bob Russell: To ask the Deputy Prime Minister what legislation is available to local authorities *(a)* to prosecute owners of vehicles and *(b)* to remove vehicles which are placed for sale on the highway; and if he will make a statement. [187983]

Mr. Morley: I have been asked to reply.

Legislative powers available to local authorities currently cover vehicles that are abandoned. The Government recognises the link between abandoned vehicles and other irresponsible or inconsiderate vehicle ownership and is looking to give local authorities more powers to deal with these issues.

Defra is currently consulting through it's 'Clean Neighbourhoods' document on a raft of measures that will improve the suite of powers available to local authorities in the management of our local environment. These would be taken forward once a suitable legislative opportunity arises. The document includes proposed measures on nuisance vehicles.

The proposal is to create a definition of 'nuisance' vehicle that would include vehicles that are detrimental to the amenity of an area or causing a nuisance. Local authorities would have the power to remove these vehicles immediately and recover the costs of doing so. It would become a prosecutable offence for being responsible for such a vehicle.

What constitutes a nuisance or detrimental to the amenity of an area would be clarified in regulations and will be subject to the results of the consultation. Vehicles which are placed on the highway for sale is being closely considered as part of this process.

SOLICITOR-GENERAL

Pre-trial Reviews

Miss McIntosh: To ask the Solicitor General what recent assessment she has made of the effectiveness of pre-trial reviews in the magistrates courts. [187946]

The Solicitor-General: Service has played an active, collaborative part in the Effective Trial Management Programme (ETMP), an initiative involving criminal justice agencies, and the judiciary, to plan, design and introduce non-legislative case management reforms heralded in the Government's White Paper, Justice for All.

During 2003, ETMP has tested a range of improvements to the pre-trial process in six criminal justice areas. These have included measures designed to ensure that pre-trial hearings in the magistrates' courts are held only where necessary to progress a case to an effective trial.

For example, in Essex, the first Area to introduce changes to the management of magistrates' courts cases, almost all contested cases are progressed outside of formal court hearings by case progression officers based in the courts, the CPS, and the police, working with the local judiciary, and a named contact for the defence.

There has been an independent evaluation of the changes introduced in Essex, which has calculated that this process change could result in a saving of 8,640 hearings in a year, leading to more efficient utilisation of courtroom time; a decrease in ineffective trials; and improved timeliness. Other test areas have introduced similar changes.

Guidance on how cases might be managed most effectively and efficiently from pre-charge through to conclusion, including the good practice and learning points from the ETMP test areas, is now contained within the Criminal Case Management Framework (CCMF). The Lord Chief Justice, the Secretary of State for Constitutional Affairs and Lord Chancellor, the Attorney General and Baroness Scotland jointly issued the Framework on 21 July 2004. It states that "hearings before the court may take place if there is a material failure likely to affect the proper progress of the case."

All other remaining criminal justice areas are now planning, designing or implementing similar changes to the process.

TREASURY

Acceptance in Lieu

Mr. Boris Johnson: To ask the Chancellor of the Exchequer how many *(a)* museum quality and *(b)* pre-eminent objects were granted conditional exemption by the Acceptance in Lieu Panel in each year since 1994. [187509]

Dawn Primarolo: Conditional exemption is granted or refused by the Inland Revenue rather than by the Acceptance in Lieu Panel. Exemption depends on the making of an acceptable undertaking in relation to preservation and access as well as on the standard of quality referred to in the question. The Inland Revenue have taken advice on quality from the Acceptance in Lieu Panel in cases where pre-eminent quality is required, following the changes in Finance Act 1998; prior to that the Inland Revenue sought advice directly from appropriate experts.

The available information is as follows: the figures show the number of objects or groups which remain exempt, net of the relatively small number of cases where relief given in the years shown has, subsequently been withdrawn, e.g. following a sale. The year shown is the year in which the exemption claims were finally granted and not the year of death or other transfer which determines the quality standard applicable to the claim.

	Number of objects or groups of objects	
Year	*Museum Quality*	*Pre-eminent*
1994-95	3,525	—
1995-96	7,651	—
1996-97	1,406	—
1997-98	3,135	—
1998-99	4,085	—
1999-00	2,690	—

Year	Number of objects or groups of objects: Museum Quality	Pre-eminent
2000–01	7,101	14
2001–02	1,395	36
2000–03	3,067	61
2003–04	1,060	700
2004–05 (to date)	—	99

Mr. Boris Johnson: To ask the Chancellor of the Exchequer what percentage of *(a)* museum quality and *(b)* pre-eminent objects considered by the Acceptance in Lieu Panel were granted conditional exemption in each year since 1994. [187510]

Dawn Primarolo: The Acceptance in Lieu Panel have assessed the quality of objects which were subject to the "pre-eminent" test laid down by Finance Act 1998. Objects subject to the previous test were referred by the Inland Revenue directly to appropriate experts. Formal assessment of quality is the last substantive step in processing a claim, and apart from cases currently being finalised all cases which have reached the relevant quality standard have been granted exemption. The information available for cases rejected by the Revenue's advisers is as follows.

All cases considered up to and including 1999–2000 were subject to the quality standard applicable prior to Finance Act 1998; the split of rejected cases in subsequent; years between that standard and the pre-eminent standard required by Finance Act 1998 is not readily obtainable from the records available.

Year	Proportion rejected by value: Percentage
1994–95	0.2
1995–96	0.2
1996–97	0.5
1997–98	0.4
1998–99	1.3
1999–00	0.9
2000–01	0.2
2001–02	0.8
2002–03	3.0
2003–04	0.4
2004–05 (to date)	6.9

Employment (Yorkshire)

Hugh Bayley: To ask the Chancellor of the Exchequer how many *(a)* men and *(b)* women were in work in (i) City of York parliamentary constituency, (ii) City of York Council area and (iii) Yorkshire and the Humber in (A) May 1997 and (B) each May since then. [188954]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Hugh Bayley, dated 16 September 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how many *(a)* men and *(b)* women were in work in (i) City of York Parliamentary Constituency, (ii) City of York Council area and (iii) Yorkshire and the Humber in (A) May 1997 and (B) each year since. I am replying in his absence. (188954)

The attached table gives the estimates of people in employment by gender in the City of York Parliamentary Constituency, York Unitary Authority and Yorkshire & Humberside region for the twelve months ending February each year from 1997 to 2004.

As with any statistical sample survey, estimates from the Labour Force Survey (LFS) are subject to sampling variability. In particular, for smaller areas such as York Parliamentary Consistency, changes in the estimates from year to year may arise from sampling fluctuations and the pattern of change over a run of years should be considered rather than changes in individual years.

People in employment by gender in the City of York parliamentary constituency, York Unitary Authority and Yorkshire and Humberside region: 12 months ending February each year, not seasonally adjusted

Allergy Relief Products

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer (1) what the VAT rate on allergy relief products was in each year between 1974 and 1996; and if he will make a statement; [188933]

(2) if he will apply a zero VAT rate on allergy relief products; and if he will make a statement. [189151]

John Healey: Allergy relief products prescribed by a doctor and dispensed by a registered pharmacist have been VAT zero-rated since VAT was introduced in 1973.

Allergy relief products administered to patients in the course of medical care or treatment in a clinic or hospital have always been exempt from VAT.

A number of specific zero rates are available for goods designed specially for use by chronically sick or disabled people. Many allergy sufferers are not chronically sick or disabled; however, these reliefs may apply to allergy relief products in certain limited circumstances.

Since the introduction VAT, in the UK, allergy relief products supplied in all other circumstances are liable to VAT at the standard rate which, since 1 April 1991, has been 17.5 per cent. Prior to that, the standard rate of VAT was as follows: from 1 April 1973—10 per cent.; from 29 July 1974—8 per cent.; from 18 June 1979—15 per cent.

Long-standing formal agreements with our European partners allow us to keep our existing VAT zero rates, but do not allow us to extend them or introduce any new ones. It is therefore not possible to extend the scope of our zero rates to allergy relief products which do not currently benefit from zero-rating.

Civil Service (Job Losses)

Bob Spink: To ask the Chancellor of the Exchequer which services within his Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189632]

Mr. Boateng: Full details of the workforce changes announced in the Spending Review are being worked through, and we are consulting all stakeholders including unions and staff.

Departments will come forward in due course with details of workforce changes once plans are finalised.

Diesel (Taxation)

Mr. Streeter: To ask the Chancellor of the Exchequer what the level of taxation per litre is on diesel produced naturally from used cooking oil. [189292]

John Healey: The duty rate for diesel produced from biomass or waste cooking oil and used as a road fuel is 27.10 pence per litre providing that it meets the specification for biodiesel as set out in HM Customs and Excise Public Notice 179E "Biodiesel and Bioblend". If it does not meet the specification, it is dutied as a fuel substitute at the same rate as ultra low sulphur diesel (ULSD) which is 47.10 pence per litre.

Milk Tokens

Mr. Frank Field: To ask the Chancellor of the Exchequer how many eligible claimants of tax credit have been waiting for over six months for their milk tokens. [189279]

Dawn Primarolo: The Inland Revenue provides the Department of Health (DoH) with monthly extracts from its database of people who, on the basis of information they report to the Revenue as tax credits claimants, are entitled to milk tokens.

The number of cases for which such notification to DoH is delayed for six months after the calculation of the award is thought to be very small. I understand from DoH that they currently have no delays in issuing milk tokens to eligible claimants based on data supplied by the Revenue.

Parliamentary Questions

Mr. Carmichael: To ask the Chancellor of the Exchequer when he will reply to the question tabled by the hon. Member for Orkney and Shetland on 22 July on the value of applications made to the Crown Estate's Research Committee. [189472]

Mr. Timms: I did so on 14 September 2004, *Official Report*, column 1508W.

Tax Collection (Costs)

Tim Loughton: To ask the Chancellor of the Exchequer what the cost of collection of *(a)* national insurance, *(b)* income tax, *(c)* capital gains tax and *(d)* inheritance tax was in each year since 1997. [189430]

Dawn Primarolo: For years up to and including 2001–02, the costs of collecting income tax, capital gains tax, inheritance tax and national insurance contributions can be found on page 45 of the Inland Revenue Annual Report for the year ending 31 March 2002 (published in December 2002). Figures for 2002–03 are contained within Appendix 2 of the Inland Revenue Annual Report for the year ending 31 March 2003 (published in December 2003).

Tax Credit

Norman Lamb: To ask the Chancellor of the Exchequer what action is being taken to ensure that the Inland Revenue's computer system is able to cope with the complexity of tax credit claims and payments; how many overpayments of tax credit have been made in the current financial year; what the value of those overpayments is; and how many overpayments are subject to recovery. [188897]

Dawn Primarolo: The new IT systems for tax credits have been introduced as planned and are delivering the processes for finalising tax credit awards for 2003–04 and renewing claims for 2004–05. Information about the number of overpayments in relation to 2004–05 tax credits awards will be available after those awards are finalised.

Mr. Frank Field: To ask the Chancellor of the Exchequer when the tax credit appeal by the constituent of the hon. Member for Birkenhead, Mr. Matthew Morrison of Beckwith Street, Birkenhead, lodged on 19 April, will be heard. [189280]

Dawn Primarolo: The Inland Revenue aims to settle tax credit appeals by agreement with the customer, wherever possible. For appeals that go to tribunal, the Appeals Service aims to hear cases within 12 weeks of receipt of a submission. The Inland Revenue wrote to Mr Morrison about his case on 24 August 2004.

Mr. Maude: To ask the Chancellor of the Exchequer what the total value is of tax credit overpayments not recovered because the Inland Revenue accept that the

overpayment arose because of a mistake by the Inland Revenue and the person could reasonably have thought their award was right. [187842]

Dawn Primarolo: The information requested for 2003–04 awards is not yet available.

Mr. Maude: To ask the Chancellor of the Exchequer what the total value is of compensation awarded for tax credit errors made by the Inland Revenue. [187844]

Dawn Primarolo: Compensation payments can be made for mistakes or unreasonable delays. For payments during 2003–04, I refer the hon. Member to my reply to my hon. Friend the Member for Hamilton South (Mr. Tynan) and to the hon. Member for Northavon (Mr. Webb) on 20 July 2004, *Official Report*, columns 190–91W.

Later payments up to the end of August 2004 totalled £570,000.

Mr. John Taylor: To ask the Chancellor of the Exchequer if he will make a statement regarding the performance of the Tax Credits Office at Preston, and in particular its Disputes Team, with reference to the case of a constituent of Onslow Crescent in Solihull whose name has been communicated to him. [189159]

Dawn Primarolo: The Tax Credit Office (TCO) aims to reply to 80 per cent. of complaints within 15 working days and is on line to achieve this target this year.

The TCO is in contact with the hon. Member and his constituent about his constituent's claim.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent research has been conducted on the number of vehicles being abandoned; and if she will make a statement. [188724]

Mr. Morley: The most recent data on the numbers of vehicles being abandoned in England has been collated through Defra's Municipal Waste Management Survey of 2002–03 and the Abandoned Vehicle Survey of 2002–03. Although these show an increase in the total amount of abandoned vehicles, the trend has significantly slowed since 2001–02.

Abattoirs

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many abattoirs in the UK are licensed to kill over 30 month old cattle. [188491]

Alun Michael: There are currently 20 abattoirs in the UK contracted to slaughter cattle for the over 30 months scheme.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether cattle over 30 months may be transported to slaughter in the same lorry as those under 30 months. [188494]

Alun Michael: Cattle over 30 months can be transported to slaughter in the same lorry as those under 30 months, providing that all necessary animal movement and welfare legislation is adhered to.

Apples

Mr. Beggs: To ask the Secretary of State for Environment, Food and Rural Affairs what special programmes are in place to support and encourage apple growing in England. [186287]

Alun Michael: There are no programmes specifically to subsidise apple growing, but, Defra funds a substantial research and development programme of benefit to apple and other fruit growers. Growers are also eligible for assistance under the England Rural Development Programme. In particular, Defra's Countryside Stewardship Scheme funds the conservation of about two-thirds of England's traditional orchards.

Bastroe Channel

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 16 July 2004, *Official Report*, column 1340W, on the Bastroe Channel, what the findings were of the independent environmental impact assessment of the Bastroe Channel project by experts appointed by the Council of Europe. [187615]

Mr. Morley: The report of the independent on the spot appraisal conducted on behalf of the Standing Committee of the Bern Convention on 22–24 July 2004 will propose that the Standing Committee make the following recommendations to the Government of Ukraine:-

1. to immediately suspend ongoing works in the Bystre canal estuary and abandon implementation of phase two of the project, for the purpose of preventing any significant modification of natural habitats of species listed in appendices I and II of the Convention and settled in the neighbouring maritime and shoreline areas; to carry out in-depth monitoring in physical and biological terms of the evolution of the Bystre estuary and canal;

2. to act on the recommendations set out in the UNESCO/Ramsar appraisal report (October 2003), which called for a fuller and more in-depth environmental impact study, analysing and comparing the costs to the public of the possible alternatives and the consequences of the works at transfrontier level;

3. to organise an international workshop in autumn 2004, under the auspices of the Council of Europe, with a view to drawing up a strategic plan for the sustainable development of the Vilkova region. This event, held at the invitation of the Prime Minister of the Ukraine, should bring together, alongside the ministries responsible inter alia for regional planning, environment, tourism and transport, representatives of scientific bodies (Academy of Sciences, Kyiv University, Institute of Ecology etc), local authorities (municipality of Vilkova) and local NGOs, as well as the main international organisations concerned by the project (MAB/UNESCO, Bonn/AEWA, Bern, Ramsar conventions and ICPDR).

4. invite the other two countries signatory to the trilateral agreement on cooperation in the natural reserves of the Danube delta and lower reaches of the Prut, namely Moldova and Romania, to participate in this event.

5. to ask for the assistance of international organisations to draw up this plan, in particular WWF International and IUCN, and that of the multi lateral lending agencies for its implementation (EU, EBRD, World Bank etc);

6. to reinforce protection of the active part of the delta by including the delta isle of Limba, located close to the mouth of the Chilia arm, right bank, in the core zone of the biosphere reserve, as well as the habitats of major ecological interest, lying to the south of Vilkova and currently included in the reserve's buffer and transit zones.

It is expected that the Bureau of the Standing Committee, meeting this month, will request that this report be placed on the agenda of the Standing Committee annual meeting on 29 November for consideration, together with a draft recommendation which the Standing Committee will be invited to adopt.

Chemicals Regulation

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what assessments she has made of the effect on the number of experiments on animals of the new REACH regulations; and if she will make a statement. [187479]

Alun Michael: The EU proposal on REACH requires information to be gathered on chemicals in order to provide the basis for protecting human health and the environment. This information may come from a number of sources, one of which is animal testing. The Commission has estimated that this draft Regulation will require data to be gathered on approximately 30,000 chemicals. Of these, 20,000 are thought to be produced or imported in quantities of less than 10 tonnes. At this tonnage the current Commission proposal requires 25 animals per chemical, although it should be remembered that in most cases the tests are expected to demonstrate that the chemical concerned is safe and therefore involves no threat to humans or animals. It is a key objective of the UK Government's work on REACH to keep animal testing to a minimum. Discussions are continuing on that basis.

The Commission proposal would require further data as tonnage increases to reflect the greater potential human and environmental exposure. The tests performed need to comply with the relevant requirements for the protection of laboratory animals set out in Directive 86/609/EEC where, among other things, methods used must be refined in such a way as to minimise the amount of suffering caused to the animals concerned. Further, the chemical industry already has some of this data and there are other sources of information such as modelling of data and grouping of chemicals to read-across data from one chemical to another, all of which will reduce the amount of new testing that will be required. If recent experience from a major testing programme in the USA were to be duplicated in Europe, the number of new animal tests that will need to be undertaken will be significantly lower than the estimates talked about to date.

It is an overall objective, for the UK Government, in negotiating this Regulation, to ensure that animal testing is kept to the minimum necessary to protect human health and the environment. One of the ways we aim to do this is by applying an intelligent approach to testing.

The Government welcomes the Commission's efforts to minimise animal testing and recognises that several provisos have been included in the legislative proposal to encourage maximum use of existing data, avoid duplication of testing and use alternative methods wherever appropriate.

CITES

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's policy on the Convention on International Trade in Endangered Species; and what steps the Government can take to influence the EU position on CITES. [188117]

Mr. Morley: The UK has always sought to maintain a balanced approach to CITES issues—basing its decisions on sound science. This means, promoting worthwhile and practicable conservation measures while upholding the principle of sustainable development. The views of the UK Government on these issues are widely respected both within the EU and CITES as a whole, and as such have been, and continue to be, very influential in shaping the EU position on CITES issues.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the resumption of a legal ivory trade; and what representations she has made to the Convention on International Trade in Endangered Species on this issue. [188119]

Mr. Morley: The UK Government and the other EU member states take the view that no decision on commercial trade in ivory should be taken outside the framework agreed at the last Conference of CITES Parties in Santiago. This allowed for a one-off sale of ivory stocks held by Botswana, Namibia and South Africa subject to certain strict conditions, which have yet to be met.

It is our view that it would be inappropriate to consider any wider resumption in the commercial trade in ivory until there has been a proper assessment of the wider impact of this proposed one-off sale. This is therefore the line that the UK and other member states will take at the forthcoming CITES conference in Bangkok.

Combined Heat and Power

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs which combined heat and power plants she has visited in her official capacity. [187579]

Mr. Morley: None. Ministers and officials all meet regularly with the Combined Heat and Power Association and members of the industry. Departmental Ministers have visited a number of CHP schemes.

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs if she will give further details of the very serious challenges to be overcome highlighted in her foreword to the Combined Heat and Power Strategy. [187580]

Mr. Morley: The Strategy details a range of interventions in the market to help support CHP which, by their very nature, are needed to overcome the challenges ahead. We recognise the current unfavourable economic climate for CHP, which largely results from high gas prices and low electricity prices. We are therefore not complacent and will continue to monitor progress towards the CHP target and work in active partnership with industry to ensure delivery of the Strategy.

Cormorant Predation

Mr. Salter: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 20 May 2004, *Official Report*, column 1084, on cormorant predation, what additional measures will be introduced to help angling clubs and fishing owners protect fish stock in freshwater fisheries from cormorant predation. [189283]

Mr. Bradshaw: After careful consideration of cormorant population dynamics and modelling I am announcing a new strategy to help fishery owners and angling interests deal with the problems caused by cormorants.

A revised licensing system will make it simpler to apply for licences to cull cormorants where serious damage to fisheries can be shown. The new system will presume that where significant numbers of cormorants are present at a site, and it is clear that these are feeding on fish stocks, serious damage is occurring, or there is a risk of serious damage. However this will continue to be confirmed on a case-by-case basis, to ensure that Defra is satisfied that there is no other solution in accordance with the law, and to ensure that there are significant numbers of cormorants feeding which are causing, or are likely to cause, serious damage. Defra will continue its research into non-lethal methods of managing cormorant populations. Further work will be undertaken, in the near future, to test the applicability of fish refuges, optimise their design and to determine their most cost-effective spatial arrangement for them in still waters, as well as looking at ways to resolve problems in rivers.

The licensing system will be made simpler in the following ways Licences will be:

Issued for a period of up to two years;

Revoked or amended by Defra as necessary;

Issued between 31 August and 15 April;

Issued in advance to prevent problems occurring;

Issued without an assessor's visit unless it is a new licence application or where circumstances have significantly changed. Every site will be visited at least once every two years, with site visits being undertaken more often if this is considered necessary;

Licences can be amended by telephone, fax or by email

We will also ensure that the Environment Agency and other Defra agencies are aware of the changes and encouraged to follow permitted procedures where appropriate.

In addition to the measures above, where it is necessary to protect salmon and sea trout smolts, we will be prepared to issue licences to kill birds during the smolt run up to 1 May This extension will also apply to protect designated spawning sites, such as gravel shallows on rivers, for appropriate species of fish and fisheries. In addition those sites planning fresh stockings of fish in still waters will be able to obtain licences where such fish would be particularly vulnerable to attack.

The new licensing system is expected to lead to an increase in the number of cormorants culled. Mathematical modelling by the Central Science Laboratory suggests that the overall cormorant population would be reduced but would stabilise at a number significantly higher than its historic level. We will ensure that the cormorant population will be monitored through a refined Wetland Bird Survey count and, if necessary, the number of licences reduced in future years to ensure the stabilisation of the population.

The consequences of the new policy will be assessed on an annual basis and the number of cormorants allowed to be killed under licence adjusted as necessary to ensure stabilisation of the population. Defra will cease to issue licences for a period, and may consider revocation or suspension of licences currently issued, should the cormorant population not respond in the manner predicted. This will provide an added safety mechanism and will protect the conservation status of the bird, (as required under the Birds Directive), while providing enough flexibility to resolve fishery problems.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which her Department is represented in advance of each meeting; [188190]

(2) if she will make a written ministerial statement outlining for each meeting of the Council of Ministers at which her Department is represented as soon as is practicable following that meeting of *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188191]

Alun Michael: I refer the hon. Member to the answer given by my right hon. Friend the Foreign Secretary on 13 September 2004, *Official Report*, column 1451W.

Designated Accommodation

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many rooms are set aside for *(a)* the use of smokers, *(b)* worship, broken down by religion and *(c)* nursing mothers and pregnant women in each building and set of offices for which her Department is responsible. [187317]

Alun Michael: The implementation of these policies is decentralised so details are not readily available for the whole Defra estate. But the information for the Department's major headquarters sites in London,

Guildford and York and for the site of the Rural Development Service at Reading is as follows:

	Smoking	*Worship*	*Nursing pregnant*
9 Millbank	[1]	First aid room	First aid room
Cromwell House	1	First aid room	First aid room
Eastbury House	1	First aid room	First aid room
Ergon House	1	First aid room	First aid room
1a Page Street	1	First aid room	1
Nobel House	1	First aid room	First aid room
Whitehall Place East	1	First aid room	First aid room
Guildford	4	1	First aid room
Reading	1	On request	
York	3	On request	1

[1] Shares facility with Nobel House.

In the interests of providing a healthy working environment, Defra pursues a non-smoking policy in the workplace but provides smoking rooms wherever possible. The Department is committed to policies of equal opportunity and tolerance and responds to the needs of religious worship where this is required (for the Christian Fellowship, for Ramadan or for private contemplation for example). Also any conference room or meeting room can be booked for the purpose of religious observance. Similarly Defra seeks to serve the needs of nursing and expectant mothers. At smaller sites, provision for worship and nursing mothers is often combined with other facilities such as quiet rooms or first aid rooms for reasons of practicality and cost effectiveness.

Farming

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the farms in Essex which are predominantly *(a)* dairy and *(b)* cattle and sheep. [188726]

Alun Michael: As at the June 2003 Agricultural Census there were 33 holdings that were predominantly dairy and 396 that were predominantly cattle and sheep in Essex.

These figures include the unitary authorities of Thurrock and Southend-on-Sea. The Agricultural Statistics Act 1979 prevents the disclosure of the addresses of these holdings.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assistance will be offered to farmers who have suffered crop loss and crop value loss owing to weather conditions during harvest this year; and if she will make a statement. [187970]

Alun Michael: It is clear that there have been difficulties during one of the wettest harvest periods on record, particularly in some parts of the country. Defra officials had a detailed meeting with representatives of the NFU on 1 September where it was agreed that the position is still evolving and it would not be possible to establish an overall position for another 10 to 14 days. Until there is a fuller picture, it is not clear whether any measures to alleviate the situation would be warranted. Follow-up meetings are planned between my officials and industry representatives to discuss the issue.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of the single farm payment on *(a)* dairy farmers, *(b)* cattle farmers and *(c)* sheep farmers in farms located within land designated as (i) moorland within the upland severely disadvantaged area and (ii) other land within the upland severely disadvantaged area; and if she will make a statement. [186559]

Alun Michael: Defra's assessment of the likely impact of the Single Payment is available on the website at: www.defra.gov.uk/farm/capreform/implementation/docs/webnoterev16.pdf

This includes information concerning the impact on farms of different types and farms within the Less Favoured Areas and I am placing a hard copy of the information in the Library of the House.

Foot and Mouth

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the evidential basis was for the conclusion in the report, Origin of the UK Foot and Mouth Disease Epidemic in 2001, that the February 2001 UK outbreak and the September 2000 South African outbreak had a common origin rather than the South African outbreak being the origin of the UK outbreak; and if she will publish the results of the phylogenetic analyses which were undertaken; [183398]

(2) what outbreaks of the foot and mouth virus have been identified by the Government as providing a plausible common origin for the February 2001 UK outbreak and the September 2000 South African outbreak; [183399]

(3) if she will publish the results of further analyses of the genome sequences of isolates from the February 2001 UK and the September 2000 South African foot and mouth disease outbreaks and their likely origins, performed since the publication of the report on the Origin of the UK Foot and Mouth Disease Epidemic in 2001; [183400]

(4) whether a foot and mouth disease outbreak isolate with a closer phylogenetic relationship to the February 2001 UK outbreak than the September 2000 South African outbreak has been identified. [183402]

Margaret Beckett: The conclusion, in the report of the Origin UK Foot and Mouth Disease Epidemic in 2001, that the UK and South African epidemics are likely to arise from a common origin, rather than the South African outbreak being the source for the UK outbreak, is based on knowledge of the history of the disease pattern and control measures in place in both countries rather than any direct evidence from phylogenetic analyses. The detailed evidence for this conclusion is set out clearly in the main body and annexes 5 and 6 of the report published by my Department in June 2002. The report may be found at http://www.defra.gov.uk/corporate/inquiries/lessons/fmdorigins.pdf.

Phylogenetic analyses alone cannot attribute causal relationships between outbreaks and can only provide data on the similarity between isolates. The following

two papers have been published on the possible origin of the UK 2001 outbreak. They include details of the phylogenetic analyses, the first comparing only VP1 sequence data and the second on the complete genome sequences:

Knowles, N.J., Samuel, A.R., Davies, P.R., Kitching, R.P. and Donaldson, A.I. (2001). Outbreak of foot-and-mouth disease virus serotype O in the UK caused by a pandemic strain. *Veterinary Record* 148: 258–259.

Mason, P.W., Pacheco, J.M., Zhao, Q.-Z. and Knowles, N.J. (2003). Comparisons of the complete genomes of Asian, African and European isolates of a recent foot-and-mouth disease virus type O pandemic strain (PanAsia). *Journal of General Virology* 84: 1583–1593.

No viruses have been submitted to the World Reference Laboratory (WRL) for foot and mouth disease which have a closer relationship to either the South Africa 2000 or the UK 2001 than these two viruses have to each other. The most closely related virus that is in the WRL collection to these viruses originated from Japan in 2000. However, as indicated above, this should not be taken to indicate a causal relationship between the Japanese and other isolates. Due to the widespread distribution of the pan-Asia strain and its limited genetic diversity, phylogenetic analysis is unlikely to provide further information on any possible common origin for the UK and South African outbreaks.

Copies of the two scientific papers referred to above will be placed in the Library of the House.

Fuel Poverty

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs how much public money was spent in insulating and improving heating in *(a)* elderly and *(b)* low income homes in each of the last 25 years. [186107]

Mr. Morley: Since the establishment of Defra in June 2001, the Warm Front scheme, which provides a range of insulation and heating measures to private households in England, has spent approximately £296.6 million. Of this, around £220 million has been spent on the elderly.

The Energy Saving Trust, which is grant funded by my Department, also provides support to local authorities to run local energy efficiency programmes.

GM Crops

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her policy to ensure co-existence measures between GM and non-GM crops are in place before supporting the addition to Europe's common catalogue of seeds varieties of GM maize. [188756]

Mr. Morley *[holding answer 13 September 2004]*: It is the Government's clear policy to introduce measures on the issue of the co-existence of GM and non-GM crops before commercial cultivation takes place in the UK. We do not expect commercial cultivation of GM crops in the UK before 2008. The recent decision to add 17 varieties of GM maize to the EU Common Catalogue of seed varieties does not alter this as the varieties in question are not appropriate for cultivation in UK conditions.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on recent decisions of the European Commission relating to plans for commercial growing of 17 different varieties of GM maize, as submitted by Monsanto. [188308]

Mr. Morley: The European Commission has approved the addition of 17 varieties of GM maize to the EU Common Catalogue of seed varieties. The Common Catalogue is an amalgam of individual member states national seed lists and it is a routine procedure for varieties on individual national seed lists to be added to the Catalogue. These 17 varieties are already on either the national seed lists of France or Spain.

The 17 maize varieties all contain the same GM transformation event which confers resistance to the European corn borer. This GM event was given EU wide approval for commercial cultivation in 1998, and maize varieties containing this GM event have been grown in Spain since then.

While adding these varieties to the EU common catalogue means they could theoretically be grown in the UK it is not expected that any farmer in the UK will attempt to grow them. This is because these varieties are very late maturing and in UK conditions they would not produce a crop with anything like the feed value that livestock farmers require from maize. Nor would they ripen to produce a grain crop. In addition the pest to which the maize varieties are designed to be resistant is not a problem in the UK. We understand that Monsanto do not intend to offer these seed varieties for sale in the UK.

Harvest

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from *(a)* farmers in the Vale of York and *(b)* farmers elsewhere in England regarding the impact of the bad weather in August on the harvest; and what measures her Department proposes to take to alleviate the situation. [187560]

Alun Michael: The Department has received representations from farming interests and Defra officials had a detailed meeting with representatives of the NFU. It is clear that there have been difficulties during one of the wettest harvest periods on record particularly in some parts of the country. However, it was agreed at the meeting that the position is still evolving and it would not be possible to establish an overall position until there is a fuller picture to establish whether any measures to alleviate the situation would be warranted. The Department is in close touch with the industry and the EU Commission on this issue.

Hazardous Waste

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 July 2004, *Official Report*, column 1298W, on hazardous waste, how many landfill sites are able to accept hazardous waste. [185612]

Mr. Morley: Currently, there are 11 merchant dedicated hazardous waste landfill sites (which would receive hazardous waste on a commercial basis accepting hazardous waste). Of these six are operating under PPC permit and five are operating under current Waste Management Licence (WML).There are eight in-house dedicated hazardous waste landfill sites (which are used to dispose of waste from their own operations such as factory process waste) accepting hazardous waste. Of these two are operating under PPC permit and six under WML. Finally, there are 13 non-hazardous sites each with a separate cell for stable non-reactive hazardous waste accepting hazardous in the separate cells. Of these two are operating under PPC permits and 11 under WML.

Some sites have been issued with PPC permits but are not yet operational usually due to sites undergoing engineering/construction (approximately nine sites). In addition, there are a number of applications pending.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs how many hazardous waste dumping incidents were reported to the Environment Agency in each of the last five years for which figures are available, broken down by region. [188095]

Mr. Morley *[holding answer 13 September 2004]*: The Environment Agency reports the data broken down by Agency Regional boundaries and is available for the calendar years 2001–04. The table shows the total numbers of incidents of deposits involving hazardous materials on land and in water, recorded in each of the years for each region. Data for 2004 are for the year to date.

Region	*2001*	*2002*	*2003*	*2004*
Anglian	90	89	117	66
EA Wales	29	54	61	45
Midlands	128	120	78	47
North East	88	106	143	112
North West	86	48	74	38
South West	44	70	36	33
Southern	75	62	65	49
Thames	58	83	90	43
Total	598	632	664	433

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the postponement of the meeting of the Hazardous Waste Forum that was due to take place on 3 September. [188094]

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Hazardous Waste Forum meeting, due for 3 September, was cancelled; and on what date the meeting will now take place. [188755]

Mr. Morley *[holding answer 13 September 2004]*: The chair of the forum suffered a bereavement in the week before the meeting, necessitating her absence, and there were no other senior officials available to take her place. All members were given over a week's notice of the cancellation, and in the process, the secretariat sought views of the forum on the need for a further meeting before the next planned one at the end of November.

In the light of comments from a minority of members, a further, likely smaller scale, meeting of the forum is being rescheduled for 11 October. In the meantime the Department continues to maintain regular contact with stakeholders on the forum. The secretariat for the forum has specifically requested feedback from its members on any pressing regulatory or other issues since 16 July which need to be shared with the forum, or discussed at the 11 October meeting.

Illegal Fly-tipping

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what action the Government recommend against those guilty of illegal fly-tipping; and what discussions she has had with the Environment Agency on policy implementation. [188406]

Mr. Morley: The illegal disposal of waste, or fly-tipping, is a serious criminal offence. The current penalties for those found guilty of this offence is a maximum fine of up to £20,000 and two years imprisonment for incidents involving non-hazardous waste and unlimited fines and five years imprisonment for incidents involving hazardous waste. The Government is currently consulting on proposals as part of the Clean Neighbourhoods consultation to increase these penalties.

The Government would like to see the Environment Agency and local authorities take more effective action to prevent and detect fly-tipping and to prosecute those responsible. We are developing, in close consultation with the Agency and local authorities, a whole range of measures to support this strategy and to aid the Agency and local authorities in implanting our policy.

My officials frequently discuss the implementation of Government policy with Environment Agency officials, and Ministers also discuss issues at regular bi-lateral meetings.

Landfill

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs how many waste landfill sites have applied for a hazardous waste site permit. [183404]

Margaret Beckett: 30 sites have applied for a hazardous waste landfill site PPC permit. This number comprises 18 merchant sites (which would receive hazardous waste on a commercial basis) and 12 in-house sites (which are used to dispose of waste from their own operations such as factory process waste), and includes those sites for which a permit has been refused.

In addition, there are 44 sites that have applied for a PPC permit to build a cell that can accept stabilised non-reactive hazardous waste in a non-hazardous landfill site.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how much methane gas per year is produced by landfill sites in England; how much is put to use; and what plans she has to increase this latter figure. [187548]

Mr. Morley: In a report commissioned by Defra it is estimated that in 2000, approximately 660,000 tonnes of methane was emitted from UK landfills, accounting for 27 per cent. of the total methane released from the UK.

The amount of methane that is used has significantly increased over the last five years and information held by the Office of Gas and Electricity Markets (Ofgem) indicates that there is currently 612,674 KW installed capacity at a total of 269 UK landfill gas power stations. This is out of a potential capacity that could be readily exploited for utilisation of approximately 800,000 KW.

The proportion of methane in landfill gas that is used has increased in response to two main drivers and is expected to continue to increase. These drivers are:

(i) The Landfill Regulations (England and Wales) 2002

These regulations require landfill operators to collect, treat and use landfill gas (e.g. electricity generation) to the extent possible. The requirements for improved landfill gas management form an important part of new landfill permits being permitted by the Environment Agency in accordance with the Pollution Prevention and Control (PPC) regulatory regime.

(ii) The Renewables Obligation

As part of its revised policy for renewable energy in the UK, the Government introduced the Renewables Obligation for England and Wales. This Obligation requires power suppliers to derive a specified proportion of the electricity they supply to their customers from renewable resources and includes strong financial incentives for suppliers. Landfill gas currently provides approximately one-quarter of the UK's installed generating capacity for renewable power.

Light Pollution

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs how many complaints concerning light pollution were received by each local authority in England in each of the last 10 years; and if she will make a statement. [187574]

Alun Michael: Data on complaints about light pollution are not collected by central Government.

The Government are consulting through the Clean Neighbourhoods consultation on proposals to broaden the scope of the statutory nuisance regime in the Environmental Protection Act 1990 to include artificial light. To be a statutory nuisance, it would have to be emitted from premises and be prejudicial to health or a nuisance. The closing date for responses to the consultation is 24 September 2004.

Lions

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department will oppose the proposed ban on the international trade of lion trophies and skins; and if she will make a statement. [188060]

Mr. Morley: The UK, in common with the other EU member states, is currently maintaining an open position on this matter and would like to explore the scope for an agreed solution with the range states before coming to a final decision.

Ministerial Air Travel

Mr. Paul Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list for each year since 1997 the number of miles flown by each Minister in her Department on official departmental business. [181873]

Margaret Beckett: The information requested could be obtained only at disproportionate cost. However, since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. The Government have also published on an annual basis the cost of all Ministers' visits overseas. Copies of the lists are available in the Libraries of the House. These report information reaching back to 1995–96. Information for 2003–04 is currently being assembled and will be published shortly. All ministerial travel is undertaken in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Libraries of the House.

Planning Policy Statement 22

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether Planning Policy Statement 22 was subject to rural proofing by her Department. [188461]

Alun Michael: The question appears to be based on a misapprehension about rural proofing. It is the responsibility of each Government department to rural proof its policies, and this principle is included in current guidance on regulatory impact assessment. Defra officials are able to provide rural evidence and guidance in support of this while I meet Ministers regularly to help the process along.

Defra officials made a substantial contribution to the consultation on Planning Policy Statement 22: Renewable Energy and its accompanying Good Practice Guide. By working closely with the Office of the Deputy Prime Minister, we have ensured that PPS22 gives appropriate guidance on considerations of landscape and biodiversity alongside strong support for the development of renewable energy resources.

PR Costs

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs what the salary costs to the Department were for employees working in public relations and publicity in each year since 1997. [183853]

Alun Michael: Defra was formed in June 2001. Figures on expenditure on public relations and publicity by all sections of Defra are not held centrally and could be provided only at disproportionate cost. However the salary costs for staff employed on the full range of communications activities by the Communications Directorate of the Department since its formation in June 2001 were:

	Months	*£ million*
2001-02	10	2.5
2002-03	12	4.1
2003-04	12	3.5

Private Sewers

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the adoption of private sewers following her consultation on the recommendations contained in the W. S. Atkins Report. [188085]

Mr. Morley *[holding answer 13 September 2004]:* The Department plans to publish a response to the consultation in the early autumn. This will summarise responses, give the Government's views and set out the issues that need to be addressed before a final decision can be made. A decision paper should be published early next year.

Recycling

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what amounts of *(a)* waste cooking fats and *(b)* batteries were disposed of in each of the last three years; how much of each was recycled; what plans she has to increase those figures; and if she will make a statement. [187549]

Mr. Morley: There are no precise figures for the amount of waste cooking fats disposed of or recycled. However, it is estimated that between 70,000 to 90,000 tonnes of used cooking oil is collected each year for use in animal feed. The remainder goes to incineration at energy plants.

Between 60,000 to 70,000 tonnes of used cooking oil going to animal feed comes from catering premises. However, from 1 November 2004, this use will be prohibited under the terms of the Animal By-Products Regulation (Regulation EC No. 1774/2002). It is thought that other markets, including the growing bio-diesel industry, will absorb this stream of used cooking oil. In the short-term, these alternative markets are likely to be elsewhere in the EU. A Cabinet Office sponsored working group, including industry representatives from the various potential markets for used cooking oil, is considering current and potential UK capacity for domestic use of used cooking oil.

No precise data for the recycling of end of life automotive batteries are currently collected. However, discussions with the battery manufacturing and distributing sector, and the lead recycling industry, suggest that in 2002 and 2003, the UK recycled over 90 per cent. of spent automotive batteries. In each year, an estimated 7.5 million automotive batteries entered the waste stream. In 2002, the UK sold 25,100 tonnes of consumer batteries but only 125 tonnes were collected separately and sent for recycling.

The proposed forthcoming batteries Directive will ensure that recycling levels for all types of portable battery increase. Collection and recycling targets will have to be met four years from transposition date and the UK will have 18 months to transpose the Directive after it is agreed. There has been a significant increase in the number of local authorities introducing battery collection schemes and G&P Batteries will be opening a recycling plant for portable primary batteries in 2005.

Refrigerators

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the principal factors behind failures to recover all potential ozone depleting substances from refrigeration units. [187022]

Mr. Morley: A significant but highly variable proportion of the original ozone depleting substance (ODS) within a refrigerant unit will have been lost during the working life of the appliance. The failure of the coolant system and consequent loss of ODS is one of the reasons why refrigeration units may be discarded by householders.

The licence conditions for storage and treatment facilities of refrigeration units include measures that will minimise the loss of ODS, but further losses may occur during the extraction of the coolant (known as phase 1 degassing), as even the best equipment and procedures will not remove 100 per cent. of the coolant. Other sources of loss may include inappropriate transportation/handling or accidents/vandalism at storage facilities.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much CFC12 has been recovered from *(a)* refrigeration circuits and *(b)* refrigeration unit foams since European Council Regulation No. 2037/2000 came into force; [187023]

(2) how much CFC11 has been recovered from refrigeration unit foams since European Council Regulation No. 2037/2000 came into force. [187024]

Mr. Morley: The information on CFCs is not held in the form requested, as the data on the recovery of ozone depleting substances (ODS) does not distinguish between the type of ODS, or the equipment from which it was recovered.

The following information is provided.

The total amount of ODS including CFCs recovered from all equipment was:

387 tonnes in 2002 and;

494 tonnes in 2003.

In addition, a significant number of refrigerators leave the UK for treatment—

418,000 in 2002 and 377,000 in 2003—and it will fall to the receiving EU state to recover the associated ODS, and report upon it.

Sustainable Development Impacts

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken by her Department to review arrangements for public reporting of sustainable development impacts. [188256]

Mr. Morley: The arrangements for public reporting of our progress towards sustainable development for the UK are being reviewed as part of the UK Government's consultation 'Taking it on: developing UK sustainable development strategy together'. This consultation closed on 31 July 2004. Defra, in partnership with other Government Departments, is currently considering the responses received, and we aim to launch the resulting new strategy, including a monitoring and reporting structure, next year.

The Government also reports annually on the management of its own land and buildings in the 'Sustainable Development in Government' Report; this provides an overview of departmental progress against targets in the Framework for Sustainable Development on the Government Estate. The Government has committed to review the framework during 2004–05.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements her Department has in place to report publicly on key sustainable development impacts. [188257]

Mr. Morley: The UK Government, with Defra as overall lead department, reports annually on its progress towards sustainable development for the UK in the 'Achieving a better quality of life' series of reports. The most recent annual report, covering our actions and progress in 2003 and including updates for the 15 headline indicators of sustainable development, was published on 16 March 2004. A wider set of 147 indicators of sustainable development 'Quality of life counts' were published at the same time. In addition the headline indicators are updated on the Government's sustainable development website, as and when new data become available. These reporting arrangements are being reviewed as part of the consultation 'Taking it on: developing UK sustainable development strategy together'..

The Government also reports annually regarding the management of its own land and buildings in the 'Sustainable Development in Government' Report; this provides an overview of departmental progress against targets in the Framework for Sustainable Development on the Government Estate. The last report was published in November 2003.

Warship Dismantling (Hartlepool)

Mr. Carmichael: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on *(a)* the four ghost ships moored in Hartlepool and *(b)* proposals for a further nine former US navy ships to be dismantled in Hartlepool. [188433]

Mr. Morley: The four US ships are currently docked in Able UK's Graythorp dock on Teesside. The necessary permissions are being sought by Able UK for dismantling to take place at this location. The process of granting the permissions is not a forgone conclusion. Relevant applications will be considered and the outcome will depend upon the relevant regulators.

In the meantime, dismantling work is prevented and the dock facility is subject to regular inspection by the Environment Agency in liaison with the Health and Safety Executive. The results of environ mental monitoring indicate that storage of the four US naval ships at the Graythorp dock has not had a detrimental impact or posed a significant threat to the environment or human health.

There are no plans for any further US naval vessels to be towed to the UK at present. The nine ships that are currently in the US are not permitted to be moved to the UK and the US authorities have given a written undertaking that no more ships will be sent unless and until the necessary permissions are in place at the Teesside facility.

Waste Management

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library copies of all documents relating to discussions in Cabinet Committee meetings on the granting of powers to local authorities to charge householders for the collection, processing and disposal of unsorted household waste that has reached the public domain. [188069]

Mr. Morley: It has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has held with companies offering technologies for differential and variable charging for waste collection and disposal; and if she will make a statement. [188071]

Mr. Morley: The Department has not held any discussions with companies offering technologies for differential and variable charging for waste collection and disposal.

I have accepted an invitation from PM Group plc to visit their manufacturing facility at Bradford to see a demonstration of their waste weighing systems but, owing to other commitments, the visit has not yet taken place.

Water Industry

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs if she will set out the latest water leakage figures, broken down by water company. [188267]

Mr. Morley *[holding answer 14 September 2004]*: The Director General of Water Services publishes leakage figures annually in the 'Security of Supply, Leakage and the Efficient Use of Water' reports, copies of which are available in the Library of the House. In 2003-04 total water company leakage, in Megalitres per day, was reported as follows:

	Megalitres per day
Anglian	215
Bournemouth and West Hants	22
Bristol	53
Cambridge	14
Dee Valley	10
Dwr Cymru	230
Folkestone and Dover	8
Mid Kent	30
Northumbrian North	160
Northumbrian South	70
Portsmouth	30
Severn Trent	510
South East	69
South Staffordshire	71
South West	84
Southern	92
Sutton and East Surrey	24
Tendring Hundred	5
Thames	945
Three Valleys	150
United Utilities	480
Wessex	75
Yorkshire	295

Written Briefings

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the subject and date of each written briefing prepared by her special advisers for all Labour hon. Members since May 1997; and what the total cost is to date. [184863]

Margaret Beckett: The Code of Conduct for Special Advisers sets out special advisers' duties and responsibilities. This includes helping to brief party MPs and officials on issues of Government policy. No central record of such briefings is maintained by the Department. Any written briefings will be distributed by the party.

HOME DEPARTMENT

Cultural Objects

Mr. Don Foster: To ask the Secretary of State for the Home Department if he will reconsider his rejection of the recommendation in paragraph 36 of the First Report of the Culture, Media and Sport Select Committee, Session 2003-04, HC59, on cultural objects: developments since 2000, to introduce a performance objective for the theft of cultural objects; and if he will make a statement. [188900]

Caroline Flint: The reasons we set out in our joint response with the Department for Culture Media and Sport for not accepting this recommendation remain valid.

Whether thefts involve cultural items is not currently recorded by all police forces and would be difficult to do in a consistent way due to the problem of defining "cultural objects".

We are looking to minimise the number of targets on forces to allow them more flexibility to focus on their own local problems and priorities.

The Home Office considers that driving down the theft of cultural items is just one means to the ends of reducing organised crime and drug trafficking, rather than a target in itself.

Setting such a target would, therefore, add to the bureaucratic demands on forces for little, if any, benefit.

We have no plans, therefore, to review our decision.

Al-Muhajiroun

Mr. Rosindell: To ask the Secretary of State for the Home Department what steps the Government is taking to monitor the activities of the Islamic group Al-Muhajiroun. [186837]

Mr. Blunkett: The appropriate authorities closely monitor every word and statement that Al-Muhajiroun's representatives make. We are fully aware of their activities. We have made our position very clear -Al Muhajiroun represents neither the Muslim community or their views. We absolutely reject their offensive statements, as have the vast majority of Muslims in the UK.

Cannabis

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department what assessment he has made of the effects of reclassifying cannabis from a class B to a class C drug. [186556]

Caroline Flint: The reclassification of cannabis from a Class B to a Class C drug allows the police to focus a greater amount of resources on tackling Class A drugs, such as heroin and crack cocaine. Early indications are encouraging in terms of achieving this, but detailed figures are not yet available.

Computer Misuse

Sue Doughty: To ask the Secretary of State for the Home Department if he will make a statement on the action being taken by the Government to address the use of peer-to-peer computer file sharing to obtain illegal film and images of violence and sexual abuse. [188163]

Paul Goggins: It is illegal to publish some extreme images under the Obscene Publications Act 1959, whether by peer-to-peer or other means. The Government is currently considering whether the law relating to pornographic material featuring violence and sexual abuse should be strengthened.

Disability Discrimination Act

Bob Russell: To ask the Secretary of State for the Home Department whether all prisons comply with the Disability Discrimination Act 1995 in respect of *(a)* prisoners, *(b)* staff and *(c)* visitors; and if he will make a statement. [187974]

Paul Goggins: The Prison Service is working constructively to ensure that as a service provider, it responds positively to the needs of disabled prisoners,

staff and visitors. A strategy document was issued to all Prison Service staff in June 2003. This explained the implications for prisons of the changes in the Disability Discrimination Act (DDA) due to come into effect on 1 October 2004.

The prison estate consists of a wide variety of buildings of differing ages and security levels and therefore access for prisoners to all prisons and prison facilities poses some difficulties. However the Prison Service's policy for all prisoners is to address their needs, including disability related needs, through the sentence planning process. This will allow prisons to make reasonable adjustments to ensure that prisoners are not discriminated against.

The Prison Service has significant experience of operating within the employment provisions of the DDA as non-operational staff have had protection since its first introduction. On 1 October, all operational staff will be covered by the DDA. Policies have been revised to ensure that the treatment for individual staff with disabilities is compliant with the employment aspects of the DDA.

A national disability compliance audit of all Prison Service establishments from a visitors' perspective has not been undertaken. Given the potential scope of the exercise this would not be practicable. It remains the responsibility of each establishment to address the individual requirements of those with particular needs, bearing in mind resource implications and reasonableness. Establishments and Visitors' Centres remain vigilant to the fact that the interpretation of disability within the Disability Discrimination Act is wide.

GPS Tracking Scheme

Keith Vaz: To ask the Secretary of State for the Home Department whether the new GPS tracking of offenders scheme will *(a)* replace and *(b)* complement the treatment, supervision and surveillance scheme that is in place for offenders. [188300]

Paul Goggins: The GPS pilot tracking schemes will not replace the treatment, supervision and surveillance schemes that are currently in place for offenders, but will complement them. Tracking technology is a way of enhancing the management of offenders on such schemes. It will give public protection agencies an added layer of information about the offender's movements and will aid intervention if they breach the requirements of their court order or release licence.

Hate Crime

Mr. Woodward: To ask the Secretary of State for the Home Department what plans the Government has to amend the law to protect *(a)* transsexuals, *(b)* people with learning difficulties and *(c)* people with disabilities from hate crime; and if he will make a statement.[186869]

Fiona Mactaggart: All categories of people are already protected by the criminal law. In particular they are protected from violence and threats of violence by offences such as assault, actual bodily harm and grievous bodily harm. They are also protected from harassment by legislation, including the Protection from Harassment Act. In sentencing for these crimes, courts take particular account of the vulnerability of the victim and the motivation for the crime. The Government has no plans to amend the law to apply differently or specifically to these groups of people.

Health Information (Confidentiality)

Mr. Boswell: To ask the Secretary of State for the Home Department what action he will take to encourage sharing on a confidential basis of health information relating to residents of secure training centres between private contractors responsible for their medical services and the national health service.[188234]

Paul Goggins: We would encourage those involved in giving medical advice and treatment to young people in secure training centres to share information with each other as much as possible, within the requirements of the law on the confidentiality of medical records.

Pay Systems

Malcolm Bruce: To ask the Secretary of State for the Home Department if he will place in the Library the most recent review of *(a)* his Department's pay systems, *(b)* the pay systems of the non-departmental public bodies for which he is responsible and *(c)* the departmental equal pay action plan. [181349]

Fiona Mactaggart: There is no single document that could be described as a formal review of the Department's pay systems. However, there is a regular evaluation of the Department pay systems to ensure that they meet its business needs and in response to employee representative pay claims. Changes in the reward arrangements are subject to the public sector pay policy, Her Majesty's Treasury pay remit process and the normal collective bargaining with employee representatives. These changes in pay terms and conditions are then published for staff in the Department to see.

Non-departmental public bodies have delegated authority for their pay and grading arrangements and are individually responsible for their pay systems. Again there is no single document that could be described as a formal review. Changes in pay systems are made within the context of public sector pay policy, Her Majesty's Treasury pay remit process and the normal collective bargaining with employee representatives.

A copy of the Department's equal pay action plan will be placed in the Library.

People's Mujahedin Organisation of Iran

Mr. Hancock: To ask the Secretary of State for the Home Department what plans he has to remove the People's Mujahedin Organisation of Iran from his list of terrorist organisations; and if he will make a statement. [187550]

Mr. Blunkett: As a matter of policy, the Government does not comment on whether a particular organisation is being considered for proscription or de-proscription under section 3 of the Terrorism Act 2000. Such decisions are only taken after the most careful consideration and on the basis of the best possible security advice.

Prisons

Jane Griffiths: To ask the Secretary of State for the Home Department what assessment he has made of the impact of the proposed reduction in the number of fire safety officers on the operation of the Prison Service. [187956]

Paul Goggins: The reduction of staff within Fire Safety Section is a result of reorganisation of the Section and is part of the overall headquarters efficiencies. The reduction in staff is tempered by changes in working requirements that has removed identified unnecessary work from the section. It is considered that the level of provision of advice to the Service will not be adversely affected.

Ross Cranston: To ask the Secretary of State for the Home Department how much the Prison Service has spent on equal pay tribunal cases since 1997. [187959]

Paul Goggins: On 9 September 2004 the Prison Service had spent

£1,034,741 since 1997 on equal pay tribunal cases.

Ross Cranston: To ask the Secretary of State for the Home Department how many job evaluation exercises have been carried out by the Prison Service in respect of *(a)* administrative and *(b)* Prison Service staff since 1997; and what the outcome was. [187960]

Paul Goggins: The Prison Service introduced Phase 1 of its review of pay and grading in July 2000. Affecting 2,500 middle and senior managers, including those in administrative and operational disciplines, it replaced more than 150 existing grades with a seven-payband common structure supported by a job evaluation system.

Development of Phase 2 of the review, which would have applied to 38,000 lower-graded staff in disciplines that included administrative and operational grades, was halted in April 2002 and the project work subsumed within pay modernisation.

In the process of developmental work, and to date, the Prison Service has carried out 507 individual job evaluations.

Ross Cranston: To ask the Secretary of State for the Home Department how many equal pay cases against the Prison Service at employment tribunals have found *(a)* for and *(b)* against the Service since 1997; and what the financial implications of those decisions have been. [187961]

Paul Goggins: On the information available, there have been findings against the Prison Service in eight equal pay claims since 1997. These findings are currently subject to appeal by the Prison Service and it is therefore not possible to provide a realistic estimate of the financial implications.

Mr. Dismore: To ask the Secretary of State for the Home Department how much the Prison Service has spent since 1997 defending employment tribunal cases in respect of equal pay claims. [188220]

Paul Goggins: On 9 September 2004 the Prison Service had spent £1,034,741 since 1997 defending equal pay tribunal cases.

Mr. Dismore: To ask the Secretary of State for the Home Department whether the Prison Service plans to review its job evaluation system in the light of recent employment tribunal cases. [188223]

Paul Goggins: The Prison Service uses a job evaluation system called Equate, which underpins the jobs of middle and senior managers within Phase 1 of its Pay and Grading scheme. There are no plans to review it in the light of the case of Bailey and Others *v.* Home Office.

However, it is proposed to explore the need for a job evaluation scheme that can be used to evaluate jobs that do not fall within Phase 1.

Mr. Dismore: To ask the Secretary of State for the Home Department whether the Prison Service plans to appeal against employment tribunal decisions made during the last 12 months in respect of equal pay claims between administrative support and prison officer grades. [188224]

Paul Goggins: The Prison Service lodged an appeal in the case of Bailey and Others *v.* Home Office on 26 August 2004.

Mr. Drew: To ask the Secretary of State for the Home Department how many organisations which expressed an interest in drug rehabilitation work for the Prison Service have not tendered for the work. [188400]

Paul Goggins: Prison Service Contracts and Procurement Unit (CPU) received 57 expressions of interest in response to the public notice dated 26 November 2003. All were sent Pre-Qualifying Questionnaires (PQQ). CPU received 41 completed PQQ's by the closing date on 30 January 2004 and rejected 11 of these. Twenty-nine invitations to tender were sent on 20 May 2004 of which 24 tenders were received on 20 July 2004.

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 22 July, *Official Report*, column 609W, on prisons, what assessment he has made of the effects of operating with a shortfall in the operational requirement for prison healthcare staff; what steps he is taking to address the shortage; and if he will make a statement. [187476]

Paul Goggins: No such assessment has been made centrally. Prison managers and primary care trusts are responsible for ensuring that an establishment's health workforce includes people with the skills and competencies necessary to implement its prison health delivery plan.

Prostitution Initiative

Harry Cohen: To ask the Secretary of State for the Home Department how his Department's Prostitution Initiative affects the residents of Leyton and Wanstead. [187742]

Caroline Flint: On 16 July this year the Home Office published "Paying the Price", a consultation paper on the issues related to prostitution. The consultation exercise, which runs until 26 November, will form the basis for the development of a co-ordinated strategy to deal with prostitution.

The existence of prostitution in a neighbourhood can significantly affect local residents through associated noise and traffic, prostitution-related litter, harassment, anti-social behaviour and criminality. Through the civil and criminal law, environmental means and support for those trapped in prostitution to change their lives, a co-ordinated strategy for prostitution will enable local partnerships to deliver real improvements for local communities suffering the detrimental effects of prostitution in their neighbourhoods.

Copies of "Paying the Price" have been placed in the Library and are available from the Home Office website at: www.homeoffice.gov.uk/inside/consults/index

We welcome views from my hon. Friend and his constituents.

Rehabilitation

Mr. Keith Bradley: To ask the Secretary of State for the Home Department when he will publish the National Rehabilitation Action Plan. [188084]

Paul Goggins: *[holding answer 13 September 2004]*: On 19 July 2004, I published the National Reducing Re-offending Action Plan. Over 60 action points have been agreed across Government, covering all the key areas to support the rehabilitation of offenders, in a concerted effort to reduce re-offending. For each agreed action point, the Plan suggests complementary activity for the consideration of those working at the regional and local level. Copies of have been placed in the Library of the House.

Sentencing Guidelines

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the Government have assessed overseas sentencing guidelines to study the relationship between guidelines and prison capacity. [187246]

Paul Goggins: In taking forward its work, the Sentencing Guidelines Council will be looking at experience of sentencing guidelines in other jurisdictions and, amongst other things, their effect on the prison populations.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the functions are of the Sentencing Guidelines Council's research staff. [187247]

Paul Goggins: The function of the Sentencing Guidelines Council's research staff is to support the Council's work in framing guidelines that take account of, amongst other things: the need to promote consistency in sentencing; the sentences imposed by courts in England and Wales for offences to which the guidelines relate; and the cost-effectiveness of different sentences in preventing re-offending.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how he intends the new guidelines system will help increase public confidence in the criminal justice system. [187248]

Paul Goggins: The membership of the Sentencing Guidelines Council encompasses not only sentencers but also representatives who bring experience of policing, criminal prosecution, criminal defence and the promotion of the welfare of victims of crime. The Council must take account of, amongst other things, the need to promote public confidence in the criminal justice system when framing or revising guidelines, and proposed guidelines will be subject to public consultation before being finalised. The courts must then apply the guidelines in all cases and give any reasons for departing from them when deciding on the sentence to be passed. This is a more collaborative and transparent system, which is open to public scrutiny, and should engender greater public confidence in sentencing practice.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the effect the new guidelines system will have on sentencing policy. [187249]

Paul Goggins: Sentencing policy will be reflected in the sentencing guidelines. The legislation also provides for the Home Secretary at any time to ask the Council to frame or revise guidelines relating to a general matter affecting sentencing, to a particular category of offender, or to a particular offence.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans he has *(a)* to commission research into public attitudes on sentencing guidelines and *(b)* to develop a sentencing information system to provide judges with data about sentencing in similar cases. [187250]

Paul Goggins: We have no current plans to commission research into public attitudes on sentencing guidelines but public consultation forms part of the process in developing guidelines. The Council will be providing sentencing data and analysis to sentencers on a regular basis, including data on sentencing patterns across the country in order to inform discussions at a local level.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the main aims are of the Sentencing Guidelines Council; and what assessment has been made of when these aims will be fulfilled. [187263]

Paul Goggins: The Sentencing Guidelines Council is responsible for framing and revising definitive guidelines on all criminal offences, which will enable all courts to approach the sentencing of offenders from a common starting point. It will take some years to produce comprehensive guidelines and the Council will have a continuing remit to revise them as necessary.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the efficiency of the two-stage sentencing guidelines process. [187264]

Paul Goggins: The Sentencing Advisory Panel provides advice to assist the Sentencing Guidelines Council in framing and revising sentencing and allocation guidelines. The membership of the Panel is broader than that of the Council, including academics and public representation, and consultation on its advice includes public consultation in addition to 28 statutory consultees. This ensures that the Council's deliberations on framing guidelines are informed by views from all interested parties.

Sex Offenders

Mr. Shepherd: To ask the Secretary of State for the Home Department whether all sex offenders in the bail hostel in Aldridge will be included in the West Midlands tagging trial. [188008]

Paul Goggins *[holding answer 13 September 2004]:* No sex offenders from this hostel will be tracked. The pilots of satellite tracking began on 2 September in Greater Manchester, Hampshire and the West Midlands. All three areas will test the technology with prolific offenders and domestic violence offenders, but only the Greater Manchester area will test the technology with sex offenders.

Young Offenders

Mr. Oaten: To ask the Secretary of State for the Home Department how many young offenders aged 18 to 21 were received into prison in 2003 *(a)* under sentence, *(b)* unconvicted awaiting trial and *(c)* convicted awaiting sentence. [187232]

Paul Goggins: Information from the Prison Service information system records that in 2003 there were 13,261 young offenders aged 18 to 20 received into prison establishments in England and Wales under immediate custodial sentence. There were 9,013 received as untried and 8,359 received as convicted unsentenced into prison establishments in England and Wales.

Total receptions cannot be calculated by adding together receptions in each category, because there is double counting.

Young Offenders Institutions (Staff Checks)

Ms Keeble: To ask the Secretary of State for the Home Department whether criminal records bureau checks are carried out on all staff working in young offenders institutions, including those operated by the private sector. [188312]

Paul Goggins: Prison Service policy requires the Governor of each establishment, including young offender institutions to arrange for a Criminal Records Bureau check on all those appointed to work with children under 18 years of age. These arrangements also apply to young offender institutions operated by the private sector.

MINISTER FOR WOMEN

Work-life Balance

23. **Miss McIntosh:** To ask the Minister for Women what recent initiatives she has taken to improve work-life balance for women. [189166]

Ms Hewitt: The Government introduced a package of new laws to support working mothers and their partners in April 2003, including improved maternity pay and leave and the right to request flexible working. We have actively encouraged business to adopt best practice and provide greater flexibility and choice in the workplace. We have invested in child care and continue to do so. Additional funding for Sure Start will support an additional 100,000 new child care places by 2008.

Politics (Participation)

24. **Linda Perham:** To ask the Minister for Women what action she is taking to encourage teenage girls to participate in politics. [189167]

Ms Hewitt: I am delighted to say that "Citizenship" is now taught in all schools, as part of the National Curriculum, to develop young people's knowledge and understanding of their roles, rights and responsibilities in relation to the democratic process, including the electoral system and the importance of voting.

The Women and Equality Unit produced last year a special resource pack for teachers and young people that includes ideas on how to cover women's equality issues in Citizenship classes.

Gender Balance

25. **David Taylor:** To ask the Minister for Women what discussions she has had with Cabinet colleagues on the encouragement of a greater level of entry by women into relevant academic areas to facilitate more representative gender balance in key professional areas; and if she will make a statement. [189168]

Jacqui Smith: We are delighted that women are excelling and are now attaining more degrees than ever before. In 1993, 8 per cent. of women held degrees. By 2002, this had increased to 14 per cent. Around 50 per cent. of all students on law, accountancy and medicine undergraduate courses are female. However, we must not get complacent. Occupational segregation still exists. Women are still under-represented in certain sectors and senior positions. Women represent less than 25 per cent. of all managers and senior executives, and only 15 per cent. of those working in science, engineering and technology jobs. That is why earlier today my right hon. Friend was delighted to launch a new resource centre in Bradford, dedicated to promoting women in science, engineering and technology.

Pensions

26. **Mr. Carmichael:** To ask the Minister for Women what discussions she has had with the Secretary of State for Work and Pensions regarding the pension gap. [189169]

Jacqui Smith: We have introduced a raft of measures both to help women in retirement and to help women of working-age build better pensions. Almost all the 2.5 million carers who have benefited from the Second State Pension are women, two-thirds of those receiving pension credit are women, and the introduction of, and increases to, the national minimum wage disproportionately benefits women. We have also launched the Informed Choices for Working and Savings publication.

SCOTLAND

Black Watch Museum

Mr. Peter Duncan: To ask the Secretary of State for Scotland what plans he has to visit the Black Watch Museum in Perth. [187935]

Mr. Darling: I have no current plans to do so.

Boundary Commission for Scotland

Mr. Peter Duncan: To ask the Secretary of State for Scotland whether he has received the final report of the Boundary Commission for Scotland. [187937]

Mr. Darling: I have not yet received the Fifth Periodical Report of the Boundary Commission for Scotland. As I indicated to the hon. Member on 7 September 2004, *Official Report*, column 940W, while the Commission has until December 2006 to report to me, in the light of its progress so far it seems likely that the report will be received much sooner than this deadline. However, the timing is a matter for the Commission.

Business Competitiveness

Mr. Peter Duncan: To ask the Secretary of State for Scotland when he last met the First Minister to discuss business competitiveness in Scotland. [187934]

Mr. Darling: I regularly meet the First Minister and discuss a wide range of issues.

Correspondence

Mr. Peter Duncan: To ask the Secretary of State for Scotland pursuant to his evidence to the Scottish Affairs Select Committee on 29 June, what steps he has taken to improve the performance of his Department in responding to correspondence. [186380]

Mrs. McGuire: The Scotland Office annual report shows that from April 2003 to March 2004 the 15-day target for responding to correspondence was met in 81 per cent. of cases. Internal monitoring procedures are in place to ensure that the 15-day performance target is achieved where possible.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Scotland (1) if he will make a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188194]

(2) if he will make a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188195]

Mrs. McGuire: I refer the hon. Member to the answer given by my right hon. Friend the Foreign Secretary on 13 September 2004, *Official Report*, column 1451W.

Departmental Buildings

John Thurso: To ask the Secretary of State for Scotland what proportion of electricity used by buildings in his Department has come from renewable sources in each year since 1997. [186654]

Mrs. McGuire: Information in the form requested is not available.

Departmental Expenditure

John Thurso: To ask the Secretary of State for Scotland how much his Department has spent on electricity use for each year since 1997. [186655]

Mrs. McGuire: The Scotland Office was established on 1 July 1999.

Since that date electricity costs of the Scotland Office and Office of the Advocate-General are as follows:

	£
1999–2000[1]	11,855
2000–01	22,807
2001–02	19,526
2002–03	28,439
2003–04	23,703

[1] Part year.

The information relates to buildings where the Scotland Office are major occupiers. Costs relating to buildings shared with the Scottish Executive are not separately identifiable.

John Thurso: To ask the Secretary of State for Scotland how much his Department has spent on water and sewerage services in each year since 1997. [186656]

Mrs. McGuire: The Scotland Office was established on 1 July 1999.

Since that date water and sewerage costs of the Scotland Office and Office of the Advocate-General are as follows:

	£
1999–2000[1]	1,067
2000–01	3,656
2001–02	4,221
2002–03	7,018
2003–04	11,699

[1] Part year.

The information relates to buildings where the Scotland Office are major occupiers. Costs relating to buildings shared with the Scottish Executive are not separately identifiable.

Gershon Review

Mr. Peter Duncan: To ask the Secretary of State for Scotland what effect he expects the Gershon review of Civil Service manpower to have on payments to the Scottish Consolidated Fund. [186384]

Mrs. McGuire: The arrangements for payments to the Scottish Consolidated Fund are set out in the Statement of Funding Policy, which was published by HM Treasury in July 2004. These arrangements have not changed. In the 2004 Spending Review, the Government announced efficiency gains by departments, which will be redeployed to front line delivery following the Gershon review. It will be for the Scottish Executive to make decisions on efficiency gains in devolved areas.

Ministerial Responsibility

Mr. Peter Duncan: To ask the Secretary of State for Scotland (1) if he will list the policy decisions he has made as Secretary of State for Scotland and Transport; [186381]

(2) if he will list the policy issues on which he has responsibility both as Secretary of State for Scotland and Secretary of State for Transport. [186382]

Mr. Darling: My policy responsibilities for Transport and for Scotland are set out in the Annual Reports from the Department for Transport and Scotland Office. Naturally within each area I give due consideration to the full range of my responsibilities when reaching decisions on policy.

Scottish Executive Secondees

Mr. Peter Duncan: To ask the Secretary of State for Scotland how many staff in his Department are on secondment from the Scottish Executive. [187936]

Mrs. McGuire: There are presently 56 staff on loan to the Scotland Office from the Scottish Executive. In addition, 26 staff are on loan from the Scottish Executive to the Office of the Advocate-General for Scotland.

CABINET OFFICE

Departmental Expenditure

Mr. Swayne: To ask the Minister for the Cabinet Office what the total cost of printing departmental headed notepaper was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185382]

Ruth Kelly: The majority of management units within the Cabinet Office use an electronic Word template to produce departmental headed notepaper at little or no cost to the Department. However, a small number of Management Units do produce their own headed notepaper at an estimated cost of £30,000 in 2003–04.

Financial information prior to the 1997–98 financial year was produced on a previous accounting system and cannot be readily retrieved without incurring disproportionate cost.

EDUCATION AND SKILLS

Academic Standards

Mr. Clappison: To ask the Secretary of State for Education and Skills what representations he has received on changes in the academic standard of *(a)* GCSE and *(b)* A levels; and what research he has commissioned into changes in the academic standard of each. [188812]

Mr. Miliband: The Qualifications and Curriculum Authority (QCA) is the body with statutory responsibility for ensuring that the standards of GCSE and A level qualifications are maintained over time. QCA has a rolling programme of standards reviews, which began in 1997. The reports are available on the QCA website.

Following the 2002 Inquiry into A Level Standards, QCA has also appointed an independent panel to advise it publicly on whether or not standards are being maintained. They will report for the first time in the autumn.

Education (York)

Hugh Bayley: To ask the Secretary of State for Education and Skills what the capital investment in schools in the City of York has been in each year since the formation of the City of York unitary council. [188944]

Mr. Miliband: The majority of schools capital funding is now allocated to local authorities and schools by needs-related formulae. Authorities invest according to priorities agreed locally in their asset management plans. The following table shows the total of my Department's capital allocations to the City of York local education authority and its schools since the formation of the unitary authority in 1996–97.

City of York LEA capital allocations

	£000
1996–97	830
1997–98	1,263
1998–99	1,501
1999–2000	4,281
2000–01	6,877
2001–02	3,987
2002–03	[1]24,379
2003–04	9,561
2004–05	[2]9,047

[1] Includes £12.4 million of PFI credits.
[2] Further allocations may be made.

Education Finance

Brian Cotter: To ask the Secretary of State for Education and Skills pursuant to his answer of 26 April 2004, *Official Report*, column 798W, on education finance, if he will break down the total education funding per child in *(a)* primary and *(b)* secondary schools in (i) England and (ii) North Somerset; and if he will estimate the sums that would be available for education in North Somerset if the average funding per pupil for primary and secondary schools in North Somerset were the same as for England. [188685]

Mr. Miliband: The information requested is not available by sector (primary and secondary) as this is not how the funding is distributed. Therefore the following two tables set out the information requested using pupils aged 3–10 as the most appropriate figures for primary funding and pupils aged 11–15 as the most appropriate for secondary funding. The formula for the Education Formula Spending Share calculation comprises a basic entitlement for each pupil, which is the same across the country, plus a top-up for each pupil with additional educational needs, which is again the same across the country, plus top-ups for areas where it costs more to recruit and retain teachers. Local education authorities with a greater proportion of pupils with additional educational needs or higher average earnings will receive a higher level of funding per pupil.

Pupils aged 3–10

	North Somerset (£ per pupil)			England (£ per pupil)			North Somerset Estimated total (£ million)
	SSA/EFS	Grants	Total	SSA/EFS	Grants	Total	
1997–98	2,020	180	2,190	2,220	170	2,380	34.9
1998–99	2,190	100	2,300	2,390	80	2,470	37.0
1999–2000	2,280	180	2,460	2,480	150	2,630	39.8
2000–01	2,340	320	2,660	2,540	320	2,860	43.2
2001–02	2,360	400	2,760	2,600	430	3,020	46.8
2002–03	2,380	420	2,810	2,640	460	3,100	48.6
2003–04	2,650	340	2,990	2,930	360	3,290	52.3
2004–05	2,740	330	3,070	3,020	380	3,400	54.5

Pupils aged 11–15[1]

	North Somerset (£ per pupil)			England (£ per pupil)			North Somerset Estimated total (£ million)
	SSA/EFS	Grants	Total	SSA/EFS	Grants	Total	
1997–98	2,960	30	2,990	3,220	30	3,260	33.7
1998–99	3,020	60	3,080	3,290	40	3,320	34.8
1999–2000	3,080	120	3,200	3,340	100	3,440	36.1
2000–01	3,180	260	3,440	3,460	270	3,730	40.5
2001–02	3,220	340	3,560	3,520	410	3,930	43.5
2002–03	3,260	380	3,630	3,570	440	4,010	45.4
2003–04	3,250	490	3,740	3,560	520	4,080	47.2
2004–05	3,400	490	3,880	3,700	550	4,250	50.0

Notes:

1. The North Somerset estimated totals have been calculated by multiplying the England per pupil total for each year, by the total number of relevant pupils (aged 3–10 and 11 -15) in North Somerset in the relevant year.
2. 2003–04 and 2004–05 figures are provisional as some grants have not yet been finalised/audited. Updates will be available in the autumn.
3. Figures reflect education Standard Spending Assessment/Education Formula Spending settlement (all sub-blocks), plus all revenue grants in DfES Departmental Expenditure Limits relevant to EFS pupils aged 3–10 and 11–15.
4. Figures exclude Education Maintenance Allowance, grants not allocated at LEA level and the pensions transfer to EFS for 2003–04 and 2004–05. For those LEAs in receipt of advance of grant under the transitional support arrangements for 2004–05, advance grant funding is included in the year of payment (2004–05).
5. The pupil numbers used are those underlying the SSA/EFS settlement calculations plus PLASC 3-year-olds maintained pupils and estimated 3–4 year olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
6. Per pupil figures are rounded to the nearest 10.
7. Total figures are rounded to the nearest £0.1 million.
8. 1997–98 figures for LEAs subject to Local Government Reorganisation in that year have been estimated, pro-rata to their post LGR figures.
9. Real terms at 2003–04 prices, based on GDP deflators as at 30 June 2004

GCSEs

Mr. Willis: To ask the Secretary of State for Education and Skills what percentage of students in each year from 1997–98 to 2003–04 achieved Grade C or above in GCSE *(a)* mathematics, *(b)* science and *(c)* English. [188830]

Mr. Miliband *[holding answer 14 September 2004]:* The information requested is as follows:

Percentage of 15-year-old pupils achieving grade C or higher at GCSE/GNVQ

	English	Mathematics	Science
2003	56	48	48
2002	55	49	48
2001	54	48	48
2000	54	46	47
1999	53	45	46
1998	51	43	45

Note:

GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

Mrs. Iris Robinson: To ask the Secretary of State for Education and Skills how many pupils in England obtained *(a)* fewer than five GCSEs at A*-C grades and *(b)* no GCSEs at A*-C grade in each year since 1990. [188574]

Mr. Miliband: The information requested is as follows:

	Number of 15 year old pupils[1] achieving less than five A*-C grades at GCSE/GNVQ	Number of 15 year old pupils[1] achieving no A*-C grades at GCSE/GNVQ	Total number of 15 year old pupils[1]
2003	292,589	151,641	622,122
2002	293,833	150,480	606,554
2001	301,680	156,699	603,318
2000	294,666	153,121	580,393
1999	302,412	159,382	580,972
1998	308,779	164,741	575,210
1997	321,874	172,907	586,766
1996	329,498	176,887	594,035
1995	326,893	178,998	578,197
1994	301,637	161,798	532,273
1993	307,459	164,635	522,447
1992	335,654	186,462	544,068

[1] GCSE/GNVQ results are reported as standard as the results of

pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

Learning and Skills Council/HEFCE/Sector Skills Agency

Mr. Willis: To ask the Secretary of State for Education and Skills how many staff are employed in administration roles within the *(a)* Learning and Skills Council, *(b)* Higher Education Funding Council for England and *(c)* Sector Skills Agency. [187487]

Mr. Ivan Lewis: The overall number of staff in post in each organisation, as at August 2004, is set out in the following table.

Organisation	*Number of staff*[1]
Learning and Skills Council for England	3,871
Higher Education Funding Council for England	256
Sector Skills Development Agency	84

[1] Staff in post figures are expressed as full-time equivalents.

Looked-after Children/Care Leavers

Mrs. Brooke: To ask the Secretary of State for Education and Skills what plans he has to extend the funding which was available for the purchase of capital equipment for looked-after children and care leavers in 2002–03 and 2003–04 to future years; and what plans there are for alternative funding. [188994]

Mr. Miliband *[holding answer 14 September 2004]:* Overall support for capital investment in schools, including buildings and information and communications technology, has risen to £4.9 billion in 2004–05, and will rise to £5.5 billion in 2005–06. Increasingly, we provide this support direct to local authorities, and let them set priorities locally. Looked-after children can benefit from this investment, and we have no plans to extend the specific Quality Protects Information Technology Grant, which ended in 2003–04.

Pupil Funding (Coventry, South)

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what the most recent figures are for the per pupil funding level for *(a)* schools, *(b)* sixth forms and *(c)* further education colleges in the Coventry South region. [189157]

Mr. Miliband: The total funding per pupil aged 3–15 for 2004–05 in Coventry LEA is £3,920.

The further education funding system is different to schools. Funding is paid for learning aims as well as an entitlement per 16 to 18 payment. Under the Learning and Skills Council's (LSC's) funding formula the basic cost to the public purse of delivering three A-levels in a sixth form college and a further education college to a student in the 2004–05 academic year will be £3,045. This figure comprises £766 for the delivery of each A-level learning aim, and £747 for each student for the entitlement element of their learning programme. Under the LSC's funding formula the basic cost to the public purse of delivering three A-levels to a student at an English maintained secondary school will be £3,212. This figure comprises £785 for the delivery of each A-level learning aim, £750 for each student for the entitlement element of their learning programme, and £107 for each student to meet additional employers' contributions to teachers' pensions.

These figures do not represent all funding that colleges and school sixth forms receive and are not directly comparable. For example the further education funding rates include consolidated funds for pay and staff training that are not reflected in the school sixth form rates. Also, in each case additional funding may also be available to take account of the higher costs of delivering learning in particular geographical areas, in higher cost subjects, or to students with particular disadvantages or individual needs.

Science Education

Sue Doughty: To ask the Secretary of State for Education and Skills whether researchers from humanities disciplines focusing on public understanding of science and cultural studies of science will be supported by the funding increases announced in the paper Science and Innovation Investment Framework 2004–14, published in July; and if he will make a statement. [188079]

Ms Hewitt: I have been asked to reply.

As outlined in the Science and Innovation Investment Framework, the Government intends to increase the scale of its activities in advancing the Science and Society agenda. This includes activities to promote public confidence and engagement in science. Expenditure in this area will be supported through the Office of Science and Technology's Science and Society budget which will, overall, increase from £4.25 million per year in 2005–06 to over £9 million per year by 2006–07. Arts and humanities research clearly provide important theoretical and practical bases for public engagement with science and technology. Applications for financial support for researchers from the arts and humanities disciplines will be treated in the same way as those from the natural and social sciences.

Standard Spending Assessments

Brian Cotter: To ask the Secretary of State for Education and Skills what the average Standard Spending Assessment/formula spending share funding per head has been for all services in *(a)* England and *(b)* North Somerset in each year since 1997; and if he will estimate the sums that would be available for services in North Somerset if the average SSA/FSS funding per head were the same as the English average. [188659]

Mr. Miliband: The DfES does not hold funding information for all services in England. The recurrent funding allocated by Government for education through SSA/FSS and grants in the DfES departmental expenditure limit for England and North Somerset is set out in the following table.

The formula for the education formula spending share calculation comprises a basic entitlement for each pupil, which is the same across the country, plus a top-up for each pupil with additional educational needs, which is again the same across the country, plus top-ups for areas where it costs more to recruit and retain teachers. Local education authorities with a greater proportion of pupils with additional educational needs or higher average earnings will receive a higher level of funding per pupil.

Per pupil aged 3–19.

	North Somerset (£ per pupil)			*England (£ per pupil)*			*North Somerset Estimated total (£ million)*
	SSA/EFS	*Grants*	*Total*	*SSA/EFS*	*Grants*	*Total*	
1997–98	2,580	110	2,690	2,790	110	2,900	77.8
1998–99	2,670	80	2,760	2,900	60	2,950	80.2
1999–2000	2,740	150	2,890	2,950	130	3,080	84.4
2000–01	2,810	290	3,100	3,030	300	3,330	91.6
2001–02	2,820	370	3,190	3,080	410	3,490	98.1
2002–03	2,660	600	3,260	2,960	620	3,580	102.2
2003–04	2,800	600	3,400	3,100	610	3,710	107.5
2004–05	2,900	590	3,500	3,210	630	3,840	112.5

Notes:
1. The North Somerset estimated totals have been calculated by multiplying the England per pupil total for each year, by the total number of pupils aged three to 19 in North Somerset in the relevant year.
2. 2003–04 and 2004–05 figures are provisional as some grants have not yet been finalised/audited. Updates will be available in the autumn.
3. Figures reflect education standard spending assessment/education formula spending settlement (all sub-blocks), plus all revenue grants in DfES departmental expenditure limits relevant to EFS pupils aged three to 19.
4. Figures exclude education maintenance allowance, grants not allocated at LEA level and the pensions transfer to EFS and Learning and Skills Council for 2003–04 and 2004–05. For those LEAs in receipt of advance of grant under the transitional support arrangements for 2004–05, advance grant funding is included in the year of payment (2004–05).
5. The pupil numbers used are those underlying the SSA/EFS settlement calculations plus PLASC three-year-olds maintained pupils and estimated three to four-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
6. Per pupil figures are rounded to the nearest £10.
7. Total figures are rounded to the nearest £0.1 million.
8. 1997–98 figures for LEAs subject to local government reorganisation in that year have been estimated, pro-rata to their post LGR figures.
9. Real terms at 2003–04 prices, based on GDP deflators as at 30 June 2004.

Stored Publications

Dr. Cable: To ask the Secretary of State for Education and Skills how many departmental publications are in storage; and where they are located. [183864]

Dr. Howells: The majority of Departmental publications are stored on sites managed by Prolog—the Department's storage and mailing contractor. There are currently 5,320 titles in storage, the majority of which are located in Nottingham.

The range of publications stored includes materials to support teaching staff in the delivery of Key Stages 1, 2 and 3, former Department of Health publications that transferred to this Department as a result the Machinery of Government changes announced in June 2003 and titles in alternative formats, including ethnic languages, Braille, audio tape and large print.

We are working towards reducing the number of publications in storage. The Department has recently taken forward a programme of stock rationalisation in which overstocked and obsolete products were identified and recycled. We have also introduced a 'print on demand' facility, whereby low turnover items are stored electronically and only printed when requested.

Furthermore, we are in the process of rolling out an online ordering system for schools which allows head teachers to access print materials electronically and order them in the multiples they need when they need them.

HOUSE OF COMMONS COMMISSION

September Sittings

Mr. Dalyell: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what estimate the Commission has made of the cost to the House arising from the interruption of building work in preparation for the sitting of the House this September. [187938]

Mr. George Osborne: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the additional cost to the House is of providing for the September sitting; and what impact the September sitting has had on the *(a)* nature and *(b)* cost of contracts with external contractors. [188128]

Sir Archy Kirkwood: I refer the hon. Members to the answer given to the hon. Member for Salisbury on 9 September 2004, *Official Report*, column 1330W.

Unfair Dismissal

Mr. Greg Knight: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many employees have been dismissed during the past three years; how many of those dismissals have resulted in a claim for unfair dismissal being pursued; how many unfair dismissal claims are current; and if he will make a statement. [189161]

Sir Archy Kirkwood: The information requested is as follows for the period 14 September 2001 to 13 September 2004:

	Number
Staff dismissed	21
Claims pursued for unfair dismissal	5
Current claims	2

CULTURE, MEDIA AND SPORT

New Opportunities Fund

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if she will set out the distribution of the New Opportunities Fund over the next three years broken down by main heading, including the Children's Hospice Service. [189070]

Estelle Morris: The following table outlines the New Opportunities Fund's existing commitments until 2006–07. The New Opportunities Fund and the Community Fund have undergone an administrative merger and are now operating as the Big Lottery Fund. Full merger will take place as soon as legislation permits. New funding will be available to the Big Lottery Fund by 2006–07. My right hon. Friend the Secretary of State recently announced proposed themes for future funding and the Big Lottery Fund will be consulting on these shortly.

				Forecast grant drawdown[1]		
Initiative	Amount available to distribute (£ million)	Awards committed as at 31 March 2004	Paid out as at 31 March 2004	2004–05	2005–06	2006–07

Total	3,239.26	2,429.15	1,286.13	545.59	628.70	424.14

[1] The drawdown of funds to grant recipients is estimated on the forecast rate of spend, and therefore may be subject to change.
[2] Approximately 58 per cent. of these awards are for children's palliative care projects in England.

Aboriginal Artefacts

Mr. Greg Knight: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the lenders on securing the return of two bark etchings and an Aboriginal ceremonial headdress on loan to the Museum Victoria in Melbourne, Australia; why such items have not been returned; and if she will make a statement. [189148]

Estelle Morris: DCMS has been following this matter with interest and is liaising closely with the British Museum (which has been leading on this issue for the lenders), the Foreign and Commonwealth Office, and the Australian High Commission. The Foreign and Commonwealth Office has represented the UK Government position directly to the Victorian State Government and to the Federal Government of Australia.

The items in question are currently on loan from the British Museum and Royal Botanic Gardens, Kew to Museum Victoria. Their return from Australia has been delayed by two Emergency Declarations imposed by an Aboriginal inspector under the Aboriginal and Torres Strait Islander Protection Act 1984. The current Declarations expire on 18 September. While a Declaration is in force, the removal of an item contrary to its terms is a criminal offence. Museum Victoria is therefore currently unable to return the items to the British Museum and Kew Gardens.

Like the lenders, we are concerned about the potentially negative impact of this issue upon future loans to Australian museums, and are keen for the loan agreements entered into by Museum Victoria to be honoured.

Mr. Greg Knight: To ask the Secretary of State for Culture, Media and Sport if she will prevent further loans of cultural artefacts to Australia in the light of the seizing of Aboriginal etchings recently on loan to that country from the UK. [189149]

Estelle Morris: Decisions on whether or not to loan objects in museum collections are matters for the institution concerned, and the Government has no power to influence this decision. In making any decisions concerning loans of objects overseas, Trustees would obviously want to consider the particular circumstances of the countries to which the items would be sent. The government will take into account the risk that any item will not be returned to this country before granting any application for an export licence in relation to an item which a museum proposes to lend overseas.

Departmental Publicity

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what her Department's expenditure was on *(a)* advertising consultants, *(b)* public relations consultants and *(c)* press officers, broken down by grade in (i) 1997–98 and (ii) the latest year for which figures are available. [184346]

Mr. Caborn: The Department did not incur any expenditure on advertising consultants or public relations consultants in either 1997–98 or 2003–04, the latest year for which figures are available. Expenditure on press officers for 2003–04, broken down by grade, was:

Grade	*£*
A	66,124
A/TP	56,325
B	315,021

Information requested for earlier years could be provided only at disproportionate cost.

Free TV Licences

Siobhain McDonagh: To ask the Secretary of State for Culture, Media and Sport how many pensioners in Mitcham and Morden have received free television licences. [189356]

Estelle Morris: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide breakdowns by parliamentary constituency of the number of free licences issued. However, 2001 Census data for Parliamentary constituencies identifies that there are approximately 3,650 people aged 75 or over living in the Tamworth constituency.

Historic Buildings

Bob Russell: To ask the Secretary of State for Culture, Media and Sport how many requests in the last three years for which figures are available were *(a)* made and *(b)* granted for the spot listing of buildings of historic or architectural interest threatened with imminent demolition; and of these how many related to industrial premises. [188773]

Mr. Caborn: I regret that there is no facility, within either the English Heritage or DCMS listing databases, to separate out the listing requests made or granted that related to buildings that were threatened with imminent demolition or were industrial premises.

Information and Communication Specialists

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how many information and communication technology specialists there are in full-time employment in the Department. [189581]

Mr. Caborn: My Department has three information and communication specialists in full-time employment.

Lottery Grants

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much Lottery money has been granted to Healthy Living centres, breaking down funding by *(a)* distribution body and *(b)* region, when the grants were made; and if she will make a statement. [188748]

Estelle Morris: The New Opportunities Fund Healthy Living Centres initiative was designed to reduce health inequalities throughout the UK and improve the health of the worst off in society. Between the launch of the initiative in 1999 and the final awards being made in September 2002, a total of £267,775,226 was committed to 351 projects UK-wide.

It is not possible to break down funding in the way requested, but the following table shows total funds committed by the New Opportunities Fund by region:

Region	*£ million*
East Midlands	16.22
Eastern	11.00
London	34.47
North East	18.79
North West	31.37
South East	20.81
South West	14.67
West Midlands	14.23
Yorkshire and the Humber	35.59
England wide	7.62
England total	204.18
Northern Ireland	12.64
Scotland	31.72
Wales	17.65

The number of grants awarded by year in England only is as follows:

	Number
1999	54
2000	157
2001	45
2002	1

Other Lottery distributors may have awarded other grants to Healthy Living Centres, but this information could be provided only at disproportionate cost.

Marine History

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport what proportion of her time she has spent on work on the marine historic environment in the last 12 months. [189200]

Mr. Caborn: Officials carry out marine historic environment duties on behalf of my right hon. Friend the Secretary of State. Within the last 12 months various licences have been issued that allow archaeologists and recreational divers access to protected wrecks. In addition the Departments consultation paper "Protecting our Marine Historic Environment: Making the System Work Better" was published in March 2004.

Renaissance in the Regions Programme

Dr. Iddon: To ask the Secretary of State for Culture, Media and Sport whether it is her intention to fund in future the North West Renaissance in the Regions hub for improvements in the delivery of museum services to the same level as the pathfinder hubs in the north east, south west and the Midlands. [189400]

Estelle Morris: As set out in the 2004 Spending Review White Paper, it is our intention to extend the Renaissance in the Regions programme to all nine English regions. Our spending plans for 2005–08, which will be announced later in the year, will strike a balance between that objective and the other spending priorities we have to deliver during the period.

Dr. Gibson: To ask the Secretary of State for Culture, Media and Sport what plans she has to develop the Renaissance in the Regions programme in the east of England. [189486]

Estelle Morris: As set out in the 2004 Spending Review White Paper, it is our intention to extend the Renaissance in the Regions programme to all nine English regions. Our spending plans for 2005–08, which will be announced later in the year, will strike a balance between that objective and the other spending priorities we have to deliver during the period.

Televised Sporting Events

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport what powers she has to insist that recorded highlights of major sporting events including international football matches, are shown on terrestrial television. [188426]

Estelle Morris: None. Provisions of the Broadcasting Act 1996, as amended by the Communications Act 2003, ensure that when rights to live coverage of events on the statutory list are made available they should be offered to the free-to-air broadcasters who reach 95 per cent. of UK audiences (currently BBC1, BBC2, ITV1 and Channel 4), either for live coverage (Category A events) or for delayed coverage or highlights (Category B events). It is a matter for the relevant broadcasters whether they acquire these rights and show the sporting events.

Television Reception

Mr. Drew: To ask the Secretary of State for Culture, Media and Sport (1) what discussions she has had with *(a)* the BBC and *(b)* BSkyB on the options that will be available for free-to-view digital satellite television in areas where this is the only practical way of receiving terrestrial stations; [188413]

(2) what plans she has to enhance the affordability of digital television when the only means of access is via satellite. [188416]

Estelle Morris: The Department is in ongoing discussions with broadcasters, including the BBC and BSkyB, and with Ofcom about the further development of digital television services. BSkyB has announced plans to offer a free-to-air satellite service; in their report "Building public value" BBC declared that they "will work with others to develop, market and promote" a free digital satellite service. Ofcom have indicated that they will consider whether regulatory intervention is needed to secure a viable free-to-view satellite proposition before switchover.

Tourism Revenues (Royal Family)

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the amount of revenue generated by tourism related to the royal family in summer 2004. [189204]

Mr. Caborn: No estimate is made of the amount of revenue generated by the royal family in relation to tourism. The royal family and its heritage is a major factor in attracting visitors to Britain. They are a key part of Britain's successful tourism industry which is worth £76 billion to the economy. The royal family is very supportive of the tourism industry and their commitment will continue to bring great economic benefits to Britain.

FOREIGN AND COMMONWEALTH AFFAIRS

Australian Embassy (Jakarta)

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will make a statement on the level of threat faced by British missions and their staff in South East Asia following the Australian embassy bombings in Jakarta; [189267]

(2) if he will make a statement on the security arrangements in place for British Missions and their staff in South East Asia; and whether those arrangements have been reviewed, following the Australian embassy bombings in Jakarta. [189268]

Mr. Rammell: We take the security of all our staff, both overseas and in the UK, extremely seriously. The level of threat faced by British Missions in South East Asia and other parts of the world is high. Security arrangements for all our Posts are regularly reviewed. We have implemented a number of measures to enhance the security of our Missions in South East Asia in recent years, and have reviewed them again following the bombing outside the Australian Embassy.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him dated 20 July from the right hon. Member for Manchester, Gorton with regard to Ms. Ruma Begum Churi. [188856]

Mr. Mullin: My right hon. Friend the Foreign Secretary replied to my right hon. Friend on 10 September.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs what role he has agreed with the Chief Minister of Gibraltar the Foreign and Commonwealth Office will play in the tercentenary celebrations [160695]

Mr. MacShane *[pursuant to his reply, 11 March 2004, Official Report, c. 1701W]*. We are playing a full part in celebrating the warm relationship that we have enjoyed with the people of Gibraltar for the past 300 years. The Government are participating in an extensive programme of commemorative events taking place in both Gibraltar and the UK. The Royal Gibraltar Regiment and military units from the United Kingdom, including the Royal Marines, the Royal Engineers, the Royal Air Force, Royal Navy ships and the Royal Fleet Auxiliary are taking part in a total of more than 20 events throughout the year. My right hon. Friend the Foreign Secretary hopes to attend an event to commemorate the Gibraltar Tercentenary later this year.

Iraq

Norman Lamb: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 March 2004, *Official Report*, column 1528W, on Iraq, whether the Government have received further clarification on the investigations by the Pentagon Inspector General into the awarding of contracts for the provision of mobile telecommunications in Iraq; and if he will make a statement. [188338]

Mr. Rammell *[pursuant to my replies, 15 December 2003, Official Report, c. 734W and 10 March 2004, Official Report, c. 1528W]*: Following inquiries by the British embassy in Washington to the United States Department of Defense, the British ambassador has received notification that the two British citizens originally named in my reply of 15 December 2003 are not under investigation by the US Defense Criminal Investigations Service (DCIS) in this regard. We are not aware of investigations into any other British Citizens. The DCIS had previously been looking into allegations concerning the handling by staff of the Coalition Provisional Authority of the award of licences for the provision of mobile telecommunications services in Iraq.

Our position remains that we are aware of no formal or credible allegations against any British citizens in this connection and, specifically, that we have no reason to doubt the integrity of the British citizens involved in the award of these licences.

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the process by which voters will be registered for the parliamentary elections in Iraq.[189075]

Mr. Rammell: The Independent Electoral Commission for Iraq is responsible for producing the electoral role through voter registration. Voter registration forms will be distributed to Iraqis around the country on 1 November enabling voters to register for elections in January 2005.

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many voters are registered in Iraq. [189076]

Mr. Rammell: The Independent Electoral Commission of Iraq is in the process of taking forward voter registration and the final figure will not be known until shortly before the end of January 2005 when the elections are due.

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs which body will be in charge of the voter registration process in Iraq. [189077]

Mr. Rammell: The Independent Electoral Commission of Iraq is responsible for the organisation, oversight and implementation of the elections including the registration of voters.

Kirsty MacColl

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Mexican authorities in relation to legal proceedings following the death of Kirsty MacColl in a speedboat incident; what discussions he has had with Ms MacColl's family on the outcome of the case; what assistance the Foreign Office provided to the family during the legal process; and if he will make a statement. [188930]

Mr. Mullin: Under international law, the British Government cannot interfere in the legal proceedings of another country. Nevertheless, we have frequently raised our interest in this case with the Mexican authorities, including through ambassador and counsellor meetings with the Minister for Europe in July 2003; the Director General of Consular Protection and the Tourism Minister in November 2003; and the Director General for Europe and the Chief Adviser to the Tourism Minister in August 2004. In addition, the case was also raised during High Level Talks when my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (FCO) (Bill Rammell) visited Mexico in October 2003. Consular Directorate also briefed the new Mexican Consul in London last week.

We continue to provide all the consular assistance we properly can. Staff in our Consular Directorate are in regular contact with the 'Justice for Kirsty Campaign'. We have met them twice in London. Embassy staff met the Campaign team and facilitated meetings with local and Government authorities on their trip to Mexico in March 2004.

We hope to raise the case again during Sir Michael Jay's, the Permanent Under Secretary at the FCO, visit to Mexico for High Level Talks later this year.

Poppy Cultivation

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress his Department is making in seeking to meet the targets of reducing poppy cultivation by 75 per cent. by 2003 and eradicating it completely by 2013. [188361]

Mr. Rammell: The UK remains committed to supporting the Afghan government in implementing its

National Drug Control Strategy, which aims for a 70 per cent. reduction in opium poppy cultivation by 2008, and elimination by 2013.

The United Nations Office on Drugs and Crime (UNODC) will publish its annual report on the level of poppy cultivation in the autumn. We anticipate an increase in cultivation levels. Although unwelcome, experience of counter narcotic policies in Pakistan and Thailand, which both had much lower initial levels of production and were more stable countries, shows that cultivation tends to increase before declining.

In the first year of implementation of the strategy, the basic counter narcotics structures have been put in place: drug control legislation, a Counter Narcotics Directorate, the Ministry of Interior's Afghan Special Narcotics Force, the Counter Narcotics Police and a central eradication capability. Work is also in hand to develop alternative livelihoods for farmers dependent on opium poppy cultivation. These measures provide a sound basis for the future development of robust institutions and programmes to combat opium production and trafficking. Progress remains linked to the wider security situation in Afghanistan and to the implementation of other areas of institution building such as policing and judicial systems.

CONSTITUTIONAL AFFAIRS

No Win, No Fee Cases

Sir Michael Spicer: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether he plans to publish information as to the number of solicitors willing to take on no win, no fee cases. [189155]

Mr. Lammy: The information requested is not collected centrally. But the Law Society in its Solicitors' Firms Business survey 2003 found that, of those solicitors firms that use CFAs, 92 per cent. used them in personal injury cases, 24 per cent. in employment and pension cases, 17 per cent. in clinical negligence and 18 per cent. in professional negligence.

INTERNATIONAL DEVELOPMENT

CDC/Actis Capital

Gregory Barker: To ask the Secretary of State for International Development (1) whether his responsibilities in relation to CDC/Actis Capital have changed with regard to the reorganisation of public shareholder interests under the Shareholder Executive; [188850]

(2) what reserved rights he retains in CDC/Actis Capital with regard to the reorganisation of public shareholder interests under the Shareholder Executive. [188851]

Hilary Benn: My responsibilities for CDC Group plc and Actis Capital LLP have not changed as a result of the involvement of the Shareholder Executive in DFID's shareholder responsibilities. I maintain responsibility for HMG's interests in both CDC and Actis.

The Shareholder Executive now has delegated responsibility for advising me on HMG's interest in Actis. DFID officials retain direct responsibility for advising me on CDC. The Shareholder Executive provides advice to my officials in relation to the discharge of my shareholder responsibilities for CDC.

The reserved rights I retain in CDC Group plc and Actis Capital LLP have not changed as a result of the involvement of the Shareholder Executive in DFID's shareholder responsibilities.

For CDC, the reserved rights that I retain as the owner of 765,036,042 ordinary shares (the remaining one is held by HM Treasury Solicitors) and one special rights preference share are set out in detail in the Commonwealth Development Corporation Act 1999 and the Memorandum and Articles of Association of CDC.

As for Actis, the Members Agreement which I placed in the library of the House on July 14 this year sets out the rights I retain over Actis.

Gregory Barker: To ask the Secretary of State for International Development what plans he has made to review CDC/Actis Capital investee *(a)* accountability standards and *(b)* compliance procedures. [188966]

Hilary Benn: Since 1999, the conduct of CDC's business has been governed by a set of responsible business principles which set out standards for corporate ethics, accountability, environmental and labour practices etc. Equivalent standards are required from CDC's investee companies. These were monitored by the Business Principles Committee of the CDC board.

As part of the reorganisation of CDC, these principles and requirements were reviewed and it was agreed that they should in future also apply to Actis. They have accordingly been written into the Members' Agreement establishing Actis, a copy of which has been placed in the Library. The Business Principles Committee of the Actis Supervisory Board will now oversee their application.

The business principles are also mandated in CDC's management contract with Actis and CDC will continue to monitor compliance through the CDC board Business Principles Committee.

Gregory Barker: To ask the Secretary of State for International Development whether a formal environmental impact assessment was carried out regarding CDC's Higaturu Oil Palms investment. [188967]

Hilary Benn: Environmental impact assessments were not the norm when Higaturu was first established in the 1970s. Since then Higaturu has commissioned several environmental studies.

Most recently, in late 2002/early 2003, Higaturu achieved certification to ISO14001 for environmental management: this requires that companies have mechanisms in place for identifying potential environmental impacts and their amelioration or avoidance. Such plans are updated twice a year, and include provisions for incorporating stakeholder feedback. The environmental management system is externally audited at least annually.

Gregory Barker: To ask the Secretary of State for International Development if he will list the environmental concerns relating to CDC/Actis Capital's Higaturu Oil Palms investment that arose *(a)* in the biannual Investment Valuation Review and *(b)* via the Business Principles Unit; and if he will list the action plans developed in response. [188969]

Hilary Benn: CDC's and Actis' investment reviews are confidential and commercially sensitive. CDC has in place appropriate procedures for monitoring that Actis complies with its Business Principles, including monitoring of the management of the environment by investee companies.

Gregory Barker: To ask the Secretary of State for International Development what representations he has received regarding investee environmental regulation exemption requests in Papua New Guinea. [188970]

Hilary Benn: I have received no representations regarding investee environmental regulation exemption requests in Papua New Guinea.

For the record, CDC does not ask for or receive exemptions on environmental regulations on investments made on its behalf by any of its managers.

Gregory Barker: To ask the Secretary of State for International Development if he will list the monitoring visits at Higaturu Oil Palms since 1999 that CDC/Actis Capital has *(a)* directly performed and *(b)* independently contracted. [188971]

Hilary Benn: Monitoring visits commissioned by the Pacific Rim Palm Oil Ltd. (PRPOL) Board have been effectively contracted by CDC as its owner. Since 1999, independent environmental studies have been contracted from at least four expert consultancy firms. There have been two CDC visits focused on environmental issues in 1999 and 2002 as well as a number of general monitoring visits by other CDC staff. There have been two visits by the PRPOL Board including its non-executive directors and by PRPOL's environmental manager.

Gregory Barker: To ask the Secretary of State for International Development if he will list the criteria for deciding whether CDC/Actis Capital investments are considered of *(a)* high, *(b)* medium and *(c)* low environmental risk; and who performs environmental studies of (i) high, (ii) medium and (iii) low risks. [188972]

Hilary Benn: CDC's practice has been to rate investments as high, medium or low environmental risk in accordance with a matrix similar to that used by the International Finance Corporation.

High risk activities are those which, due to their type, scale or location have the potential for substantial adverse impact on the environment surrounding the facility and/or globally.

Medium risk activities are those which could cause adverse impacts but these are unlikely to be irreversible or persistent. Remedial measures can more easily be implemented, and the impacts are not as diverse or sensitive as in the high risk category.

Low risk activities are those which typically have minimal impact.

For investments involving high risk to the environment, a formal environmental assessment by an external consultant is required. Where the environmental risk is rated medium, an environmental appraisal by an in-house specialist is required. In investments where the environmental risk is low, a routine environmental appraisal is carried out. Going forward, CDC will require Actis and other fund managers it uses to apply similar procedures and maintain similar standards.

Gregory Barker: To ask the Secretary of State for International Development how many CDC/Actis Capital investment projects have been terminated on grounds of *(a)* environmental risk and *(b)* labour conditions. [188973]

Hilary Benn: Since 1999, there have been no occasions when environmental risks and/or labour conditions have forced an early exit from an investment.

Gregory Barker: To ask the Secretary of State for International Development if he will list the institutional investors in CDC/Actis Capital by contribution *(a)* amount and *(b)* proportion. [189053]

Hilary Benn: There are no institutional investors in either CDC or Actis.

Gregory Barker: To ask the Secretary of State for International Development what CDC/Actis Capital's policy is towards initial public offerings as a method of attracting private capital, broken down by sector. [189054]

Hilary Benn: Initial public offerings (IPOs) are a well-established method of attracting private capital. CDC does not seek to influence Actis or other fund managers it may employ in determining the suitability of an IPO in particular cases, whether by sector or any other criterion.

Gregory Barker: To ask the Secretary of State for International Development if he will list CDC investment programmes aside from Actis Capital. [189055]

Hilary Benn: In addition to funds managed by Actis, CDC has funds under management with Aureos Capital, a fund specialising in small and medium-sized enterprises (SMEs) in developing countries. Aureos is owned 50:50 by Actis and NorFund.

Gregory Barker: To ask the Secretary of State for International Development if he will list by *(a)* country, *(b)* sector, *(c)* amount and *(d)* proportion CDC/Actis Capital investments in (i) SME firms and (ii) funds that invest in SME firms. [189056]

Hilary Benn: CDC does not invest directly in Small and Medium sized Enterprises (SMEs) but invests in them through Aureos Capital. Data on these investments are not classified by sector. Data on amount, country and the proportion of CDC's investment devoted to SMEs in the relevant country are as follows:

CDC investments held through Aureos funds

	Country	*Amount (£000)*	*Proportion (Percentage)*
Acacia fund	Kenya	1,533	25
Aureos Capital fund	n/a	1,368	50
Aureos Central America fund	Costa Rica	2,187	28
Aureos East Africa fund	East Africa	1,099	20
Aureos South Africa fund	South Africa	307	28
Aureos West Africa fund	West Africa	857	36
Ayojana fund	Sri Lanka	902	50
Central America Venture fund	Costa Rica	6,154	38
Fedha fund	Tanzania	1,019	31
Ghana Venture Capital fund	Ghana	839	34
Indian Ocean Regional fund	Mauritius	2,802	39
Kula fund	Papua New Guinea	1,707	32
Mauritius Venture Capital fund	Mauritius	307	20
Mozambique Investment Company	Mozambique	894	26
NDBVI fund	Sri Lanka	925	50
Takura Investment fund	Zimbabwe	11	31
Tanzania Venture Capital fund	Tanzania	896	33
Zambia Venture Capital fund	Zambia	1,592	20

Gregory Barker: To ask the Secretary of State for International Development what representations he has received regarding CDC/Actis Capital investment in Iraq. [189057]

Hilary Benn: I have received no representations about either CDC or Actis in respect of Iraq. There are currently no CDC investments in that country.

Gregory Barker: To ask the Secretary of State for International Development what resources CDC/Actis Capital *(a)* has directed and *(b)* will direct to small and medium enterprises in (i) Iraq and (ii) Afghanistan; and if he will make a statement. [189058]

Hilary Benn: CDC has directed no resources towards Small and Medium-sized Enterprises (SMEs) in either Iraq or Afghanistan. It will consider propositions to do so in future on their merits.

Gregory Barker: To ask the Secretary of State for International Development what representations he has received from Rwandan officials regarding the transfer of its equity interest in the Commercial Bank of Rwanda to CDC/Actis Capital. [189060]

Hilary Benn: The Rwandan Minister of Finance, Dr. Donald Kaberuka, made an oral request at the UK—Government of Rwanda Partnership Talks, 1–2 May 2003, that DFID finance a forensic audit of the sale of Banque Commerciale du Rwanda (BCR). The sale had not been advertised at that time and CDC was not mentioned as a potential bidder.

Minister Kaberuka wrote to DFID in July 2004 after CDC were selected as the preferred bidder and requested that the forensic audit be carried out. DFID is currently carrying out a limited tender for the work and exploring options to ensure that the audit will be seen as properly independent.

The successful bid for an equity interest in BCR by Actis (having now taken over this function from CDC) was entirely independent of any contacts between DFID and Rwanda officials. It is not our policy to intervene or interfere in any way with the commercial judgment of Actis.

Gregory Barker: To ask the Secretary of State for International Development if he will list CDC/Actis Capital holdings in funds *(a)* solely managed, *(b)* joint managed and *(c)* not managed by CDC/Actis Capital; and how much capital has been in each fund since 2002. [189062]

Hilary Benn: CDC invests all its funds through fund managers, whose performance it directs and monitors; to that extent, all CDC's investments are solely managed. The following data, which are at cost, relate exclusively to Actis:

£000

	December 2002	*December 2003*	*June 2004*
(a) Funds solely managed by Actis			
Commonwealth Africa Investment Fund	13,873	13,873	13,873
South Asia Regional Fund	31,965	31,603	24,784
Nandi	18,566	10,050	3,695
Actis Fund 1	1,203,583	1,239,787	1,163,623
Actis Fund 2	—	—	988
(b) Funds jointly managed by Actis with Norfund			
Aureos SME Funds	27,002	24,029	25,400
(c) Fund investments managed by Actis on behalf of CDC			
Capital Alliance Private Equity	1,887	2,340	2,340
Gujarat Venture Capital	1,296	1,243	1,216
H&Q Asia Pacific	3,877	3,854	3,811
Nusantara Investment Fund	3,025	3,025	3,025

£000

	December 2002	December 2003	June 2004
Praxis Active Equity Fund	3,316	3,431	3,489
South Africa Franchise Equity Fund	421	460	460
Total invested portfolio at cost	1,308,810	1,339,630	1,246,702

Gregory Barker: To ask the Secretary of State for International Development what the status is of CDC/ Actis Capital's Aureos investment; and what its returns have been since 2001. [189063]

Hilary Benn: Aureos is a fund jointly established by CDC and Norfund (the Norwegian Government's investment fund). CDC's investments under management with Aureos Capital amount to £25 million. As Aureos has attracted some 50 other investors into its funds, it would be a breach of their commercial confidentiality to disclose return rates on these investments.

Gregory Barker: To ask the Secretary of State for International Development what the status of CDC/ Actis Capital's partnership with CGU in China is; and if he will list its *(a)* holdings, *(b)* projects and *(c)* quarterly returns since 1997. [189064]

Hilary Benn: CDC operates an investment partnership in China with Aviva, as CGU is now known. The holdings, projects and returns of that partnership are a matter of commercial confidentiality.

Gregory Barker: To ask the Secretary of State for International Development what debt is owed to CDC/ Actis Capital. [189065]

Hilary Benn: Total debt owed to CDC at cost as at 30 June 2004 was £411 million. The breakdown by borrower and amount of this debt is commercially sensitive information.

Iraq

Mr. Bercow: To ask the Secretary of State for International Development what steps his Department is taking to promote economic development in Basrah.[188345]

Hilary Benn: Iraq's economic growth will depend not only on extensive reconstruction to make good the dilapidation of infrastructure under Saddam-Hussein, but also on wide-ranging economic reforms to promote private sector growth. We are encouraging the Iraqi Interim Government to agree an IMF programme, and debt reduction through the Paris Club.

The international community pledged over US$32 billion for reconstruction at the Madrid Donors' Conference in October 2003. The UK and the US are also leading the G7 in pushing for generous relief of Iraq's debt. Iraq's oil revenues, currently estimated at over $20 billion per year (and with the capacity to rise substantially in the future) will, of course, be a major source of finance for growth. The Interim Government have asked for help with public administration and economic policy reform and DFID is helping with both. The aim is to strengthen planning and budgeting and to plan economic reforms that will help all of Iraq, but particularly the poorer areas such as Basra.

In southern Iraq, DFID has funded an Emergency Infrastructure Programme that has helped to stabilise and improve infrastructure. We are starting to implement a £20.5 million project for Capacity Building for Southern Iraq Governorates (including Basra). The project will focus on strengthening planning and budgeting in the governorates so they are better able to support to the local economy and community. We are also funding a £16.5 million programme to promote employment and sustain infrastructure.

TRANSPORT

A13

Bob Spink: To ask the Secretary of State for Transport when he expects road works on the A13 at Pitsea in Essex to be completed and diversions removed. [189303]

Mr. Jamieson: This section of the A13 is the responsibility of Essex county council, the local highway authority. The council is carrying out the repair works which are scheduled for completion by the middle of November 2004.

Ambulances

Lembit Öpik: To ask the Secretary of State for Transport (1) how many road traffic accidents involving Mercedes Sprinter style ambulances there were in the last two years in England; and if he will make a statement; [188376]

(2) how many of the total ambulance accidents in the last two years in England were attributed to *(a)* driver error and *(b)* mechanical failure; and if he will make a statement; 188377]

(3) how many road traffic accidents involving Mercedes Sprinter ambulances in the last two years in England were attributed to *(a)* driver error and *(b)* mechanical failure; and if he will make a statement. [188378]

Mr. Jamieson: The information requested is not held centrally.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Transport (1) if he will make a Written Ministerial Statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188192]

(2) if he will make a Written Ministerial Statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states

that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188193]

Mr. Jamieson: I refer the hon. Member to the answer given on 13 September by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs *Official Report*, column 1451W.

Electrically Assisted Pedal Cycles

Mr. Greg Knight: To ask the Secretary of State for Transport what plans he has to encourage the greater use of electrically assisted pedal cycles in the UK; and if he will make a statement. [188577]

Mr. Jamieson *[holding answer 15 September 2004]*: Electrically assisted pedal cycles complying with the requirements in The Electrically Assisted Pedal Cycles Construction and Use Regulations 1983 are able to use facilities provided for ordinary bicycles. The Government are committed to encouraging more cycling as a healthy, useful and enjoyable means of travel.

Our White Paper, "The Future of Transport", confirmed our long-term aim to increase levels of cycling and followed the publication in June of "Walking and Cycling: an action plan". That plan includes more than 40 practical actions from across Government to encourage and promote walking and cycling through improved facilities, training, education and promotion.

Electronic Consultation Papers

Mr. Gray: To ask the Secretary of State for Transport whether his recent consultation paper, Driving at Work, is available in paper as well as electronic versions; how many pages long it is when printed out; and if he will issue a printer friendly version of this and other electronic consultation papers. [188496]

Mr. Jamieson: "Driving at Work" is a guidance leaflet published by the Department and the Health and Safety Executive in September 2003. It is available in paper form from HSE Books and can be printed from the electronic version at http://www.hse.gov.uk/pubns/indg382.pdf. Both versions are 24 pages long.

The Department's consultation papers are available in hard copy from and can also be printed from our web-site using the PDF and Word format icons at the top of each document.

Eurostar

Mr. Yeo: To ask the Secretary of State for Transport what free capacity will be generated by the relocation of Eurostar services from Waterloo station. [186724]

Mr. Darling: Any relocation of Eurostar services from Waterloo station is a matter for Eurostar. The most effective use of track capacity is kept under review by the rail industry.

Farnborough Airfield

Mr. Hancock: To ask the Secretary of State for Transport whether Farnborough Airfield will be included in his strategy for dealing with the future needs of airport capacity in the UK. [189116]

Charlotte Atkins: The White Paper "The Future of Air Transport" recognises the potential of small airports, including Farnborough Airfield, to cater for business aviation demand, which is necessary due to capacity constraints at the main South East airports.

However, it is for the operator of Farnborough Airfield to bring forward any development plans, which will need to be considered through the planning system in the normal way.

Highways Agency

Ann Winterton: To ask the Secretary of State for Transport if he will make a statement on the operation of the Highways Agency's four-stage complaints procedure; and what plans he has to review its structure and operation. [188802]

Mr. Jamieson: The Highways Agency is conducting a review of its complaints procedure that is due to be completed during the current financial year.

Oxford/Cambridge Motorway

Mr. Rosindell: To ask the Secretary of State for Transport what assessment has been made of the need for a motorway between Oxford and Cambridge. [189246]

Mr. Jamieson: The Secretary of State has made no assessment of the needs for a motorway between Oxford and Cambridge.

Ports

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will list the outstanding UK deep sea container terminal development applications *(a)* which have been referred to his Department prior to formal planning applications being submitted in the form of HRO, HEO, TWAO or a standard planning application, *(b)* which have been subject to a scoping study and are awaiting or in the process of a public inquiry and *(c)* for which he has received the inspector's report following a public inquiry; and in each case when he (i) received the report and (ii) expects to announce his decision. [189097]

Mr. Jamieson: There are three outstanding applications for deep sea container terminal developments requiring approval by the Secretary of State. The positions on each are as follows:

The inspector's report into P&O's application for a Harbour Empowerment Order to construct a port at Shellhaven (London Gateway) was received in the Department on 26 February 2004. A decision will be announced when Ministers have completed their consideration of the report and all relevant issues.

The application by Hutchison Ports to construct a port at Bathside Bay is currently at a public inquiry which I understand is due to close this week.

The application by Hutchison Ports for a further container terminal at Felixstowe South is due to be considered at a public inquiry starting on 26 October.

Mrs. Dunwoody: To ask the Secretary of State for Transport whether he expects the proposals for major container port developments at Hunterston and Scapa Flow to be taken through the decision process by the

autumn 2005 deadline set out in paragraph 7.28 of the Government's White Paper entitled the Future of Transport: A network for 2030. [189098]

Mr. Jamieson: The timing of these decisions is a matter for the Scottish Executive, to whom the applications for approval would be made.

Mrs. Dunwoody: To ask the Secretary of State for Transport what his Department's interpretation is of the alternative test required by the Habitats Directive when assessing environmental damage that may be created by a deep sea container terminal development proposal. [189105]

Mr. Jamieson: In line with the European Commission's methodological guidance on the assessment of plans or projects significantly affecting Natura 2000 sites we take the view that consideration of alternatives is not confined to alternative local sites.

Public Transport (York)

Hugh Bayley: To ask the Secretary of State for Transport how much the Government have provided to City of York Council in grants and other funding for public transport in each year since the unitary council was formed. [188950]

Charlotte Atkins: The table as follows details the funding City of York Council has received for all transport related issues in each year since the formation of the unitary council in April 1996.

£million

	Transport Policies and Programme/ Local Transport Plan Capital Funding	*Rural Bus Subsidy Grant*	*Rural Bus Challenge*	*Countryside Agency*	*Strategic Rail Authority*
1996-97	3.340	0	0	0	0
1997-98	2.212	0	0	0	0
1998-99	1.127	0.073	0.180	0	0
1999-2000	1.983	0.073	0	0	0
2000-01	2.262	0.073	0.236	0	0
2001-02	5.995	0.093	0	0	0
2002-03	6.155	0.107	0	0.007	0
2003-04	7.881	0.109	0	0.044	0
2004-05	6.302	0.123	0	0.041	1.600
Total	37.257	0.651	0.416	0.092	1.600

Notes:

1. The Transport Policies and Programme/Local Transport Plan Capital Funding covers all aspects of transport (e.g. maintenance, road safety and public transport). There is no specific allocation within these figures for public transport; it is for the local authority to set priorities and allocate funds accordingly from its Single Capital Pot budget.
2. The Rural Bus Subsidy Grant; Rural Bus Challenge, Countryside Agency and Strategic Rail Authority monies are all allocated solely to public transport.
3. In addition, the local authority receives Revenue Support Grant (RSG) from the Government each year. This is a block allocation for all council services, which includes support for public transport. However, it is not possible to identify any specific allocations for public transport from within the RSG allocation.

Royal Train

Mr. Greg Knight: To ask the Secretary of State for Transport how many journeys were made by the Royal Train in each of the last five years. [189218]

Mr. McNulty: During the last five years, the Royal Train has made the following number of journeys:

1999-2000: 24

2000-01: 17

2001-02: 15

2002-03: 19

2003-04: 18

More detailed information about these journeys is published in the Annual Reports on the Grant-in-Aid for Royal Travel by Air and Rail. Copies of which have been placed in the Library of the House.

Transport-related Emissions

Adam Price: To ask the Secretary of State for Transport what assessment he has made of the percentage contribution of transport-related emissions to overall UK greenhouse gas emissions. [188478]

Mr. Jamieson: The precise percentage contribution of transport-related emissions to overall UK greenhouse gas emissions depends on how broadly transport-related emissions are defined. In particular, it varies according to how emissions from domestic and international aviation are treated, and whether, on the rail side, a share of the total emissions from power stations is included. The Government regularly publish estimates of the breakdown of greenhouse gas emissions between sectors. The most definitive source of this information is the National Atmospheric Emissions Inventory (available at www.naei.org.uk), which estimates that in 2002 (the most recent year for which data are available) some 20 per cent. of total UK greenhouse gas emissions came from the transport sector. Details of how this figure was calculated are set out in the NAEI.

Type Approval

Ann Winterton: To ask the Secretary of State for Transport if he will make a statement on his Department's process of Type Approval; and what assessment he has made of the recent EU judgment on its operation. [188803]

Mr. Jamieson: Following the European Commission reasoned opinions the agency is producing new performance specifications for self-certification as part of an established programme for traffic control equipment Type Approval.

TRADE AND INDUSTRY

Doorstep Cold Calling

10. **Mr. Truswell:** To ask the Secretary of State for Trade and Industry what steps she is taking to achieve a cross-departmental approach to combat crime and unscrupulous trading associated with doorstep cold calling. [189179]

Mr. Sutcliffe: My right hon. Friend the Secretary of State for Trade and Industry launched a public consultation on the market study report by the Office of Fair Trading on 14 July. Consultees include relevant Government Departments and enforcement authorities.

We have proposed a cross-departmental ministerial group to encourage a more joined-up approach. Ministerial colleagues take this matter very seriously and will be meeting at the earliest opportunity

The result of the public consultation will inform consideration of the issues by the group.

Post Office Closures

11. **John Barrett:** To ask the Secretary of State for Trade and Industry how many urban post offices have closed in the last 12 months. [189180]

Mr. Sutcliffe: I understand from Post Office Ltd. that in financial year 2003–04 there were a total of 1,129 urban post office closures, including 1,109 under the urban network reinvention programme. In the first quarter of this financial year, to the end of June, there were 246 urban post office closures. 206 of those closures were under the urban network reinvention programme.

14. **Mr. Pike**: To ask the Secretary of State for Trade and Industry what recent representations she has received on the sub-post office urban closure programme. [189183]

Mr. Sutcliffe: DTI Ministers and officials regularly receive representations on a wide range of postal services issues, including the urban network reinvention programme.

Mr. Michael Jabez Foster: To ask the Secretary of State for Trade and Industry how many Post Office branches have been proposed for closure by the Post Office under the Post Office reinvention programme; and how many have been subsequently confirmed for closure after the consultation process has been completed. [187843]

Mr. Sutcliffe: This is an operational matter for Post Office Ltd. and I have therefore asked the Chief Executive to reply to the hon. Member.

EU Emissions Directive

12. **Mr. Illsley:** To ask the Secretary of State for Trade and Industry what steps she is taking to minimise any adverse impact of the EU Emissions Directive on industry. [189181]

Mr. Mike O'Brien: The EU emissions trading scheme is a cost effective and market friendly way of reducing CO_2 emissions. Industry's views have been taken at every stage of the process; there have been five consultations so far. The plans for implementation are well developed and will be finalised shortly.

Mass Marketing Scams

13. **Mr. Blizzard**: To ask the Secretary of State for Trade and Industry if she will ask the Office of Fair Trading to investigate mass marketing scams. [189182]

Mr. Sutcliffe: The Office of Fair Trading (OFT) does investigate mass marketing scams. Most mass marketing scams operate from outside the UK. The OFT works with the network of enforcement agencies called ICPEN (International Consumer Protection Enforcement Network) to investigate and take action against cross-border scams.

The OFT have taken a lead within Europe in taking action against scam mail under new powers provided by the Injunctions Directive and the Enterprise Act 2002 ('Stop Now Orders').

Offshore Wind Farms

16. **Mr. Chaytor:** To ask the Secretary of State for Trade and Industry if she will make a statement on the development of offshore wind farms. [189185]

Mr. Mike O'Brien: The UK has some of the best wind resources in the world. It is important that these resources are properly utilised to ensure that the United Kingdom's targets for generating electricity from renewable energy sources can be met. The development of offshore wind farms can potentially provide a major contribution to those targets and the Government are committed to ensuring that the right framework is in place to enable projects to proceed where an assessment of their impacts indicates they are acceptable.

There have been two competitive rounds of site leasing for offshore wind farms. Round 1 has resulted in 11 projects receiving development consents with two of these generating electricity and another at an early stage of construction. Government was able to announce last December that Round 2 will involve projects of a much bigger scale with the potential to provide electricity for up to £4 million homes. The developers of Round 2 projects are currently undertaking the assessment work necessary prior to submission of consent applications.

Business Support (London)

17. **Linda Perham:** To ask the Secretary of State for Trade and Industry what assistance her Department provides to businesses in London. [189186]

Jacqui Smith: Assistance to business is delivered via a number of different agencies, including the London Development Agency (LDA). In financial year 2003–04, Business Link for London exceeded its key performance targets set by the DTI/Small Business Service, achieving:

Market Penetration—82,915 businesses assisted/advised;

Customer Satisfaction—86 per cent.;

Intensive Assistance—5,160 businesses intensively supported.

The DTI's Grant for Research & Development (GranD) is aimed at individuals planning to start-up businesses in England and at small and medium sized enterprises (SMEs) already operating in England. The

grants are offered at the discretion of Government, to help businesses carry out research and development work that will lead to technologically innovative products or processes.

During 2003–04, the DTI/Small Business Service made offers of grant to 145 London start-ups/SMEs. This represented funding in total of just under £9.5 million.

The planned restructuring of business support arrangements in London, that includes the transfer of BL4L contract management and direct delivery of GranD to the London Development Agency from April 2005, will further improve DTI services to customers within the Capital.

In 2003–04, the LDA, which is primarily funded by the DTI:

Created or safeguarded 18,017 jobs (including those attributable to foreign direct investment and regional selective assistance);

Set up or attracted 1,333 businesses to London;

Provided support or advice to 26,937 businesses; and

Created 26,683 learning opportunities

In 2003–2004 the LDA invested over £350 million to create jobs, get people into work, support new and existing businesses and create space for businesses, homes and community facilities.

London businesses can also access a small suite of grants, loans guarantees and subsidised consultancy to address a range of business issues provided by the DTI. These include:

Succeeding through innovation:

Providing practical support for the key stages of innovation or research and development. Initiatives include the Technology Programme, which provides some funding and shares some of the risks in taking new technologies to market.

Raising finance:

Supporting small or high growth companies to obtain investment through the Small Firms loan Guarantee, which guarantees loans from banks and other institutions for small businesses with viable proposals. London businesses can access £50 million via the Regional Venture Capital Funds (RVCFs) o provide risk capital finance in amounts up to £500,000 to Small and Medium Size Enterprises (SMEs) who demonstrate growth potential.

Regional investment:

Encouraging investment in specific areas of England to promote economic regeneration. Selective Finance for Investment is designed for businesses that are looking at the possibility of investing in assisted areas. The programme is discretionary and invariably takes the form of grants or occasionally a loan.

The Manufacturing Advisory Service (MAS) in London offers an integrated service providing free information and advice for manufacturers large and small, although diagnostic services undertaken by highly professional MAS practitioners will be targeted on small and medium sized firms.

Renewable Energy

18. **Mr. Ben Chapman:** To ask the Secretary of State for Trade and Industry if she will make a statement on the Renewables Obligation Order 2005. [189187]

Mr. Mike O'Brien: The Government last week published a consultation paper proposing a number of detailed changes to improve its operation. These include increasing the level of the obligation in the period between 2010–11 and 2015–16. Following the current consultation, the Government plan to lay an order before Parliament early next year.

Miss McIntosh: To ask the Secretary of State for Trade and Industry what recent assessment she has made of the contribution of renewable energy to UK energy needs; and if she will make a statement. [189184]

Mr. Mike O'Brien: Renewable energy will make a significant contribution to our energy mix. We have a target for 10 per cent. of our electricity to come from renewable sources by 2010, and our aspiration is to have 20 per cent. of electricity from renewables by 2020.

Age Discrimination

Mr. Woodward: To ask the Secretary of State for Trade and Industry what estimate the Government have made of the cost of age discrimination to the UK economy in each year since 1997. [186927]

Jacqui Smith: The DTI has not made an estimate of the cost of age discrimination to the UK economy. A Regulatory Impact Assessment (RIA) accompanied the July 2003 'Age Matters' consultation on proposals for legislation to outlaw age discrimination in employment. and vocational training. It estimated that, excluding the positive impact of a likely increase in the labour supply, the economy would benefit by about £600 million over the first 10 years of the legislation taking effect. The RIA is available on: www.dti.gov.uk/er/equality/age.htm As far as the impact of an increase in the labour supply is concerned, "Winning the Generation Game" (Performance and Innovation Unit, April 2000, www.cabinet-office.gov.uk/innovation/2000/wirining/generation.pdf) on the impact of ageing on the economy put the cost of early and involuntary exit from the labour market at about £16 billion each year. Some of this is attributable to age discrimination.

Agency Workers Directive

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on the Agency Workers Directive. [186338]

Mr. Sutcliffe: Our position on the Agency Workers Directive remains that we support the principle of the directive but the text needs to be changed to meet the concerns of all member states. We are committed to using our best endeavours to reach an early settlement.

Airbus

Mr. Cousins: To ask the Secretary of State for Trade and Industry what the cost was of support by the UK Government for the Airbus family of projects in each year since 1997–98 *(a)* gross and *(b)* net after loan repayments. [188599]

Jacqui Smith: The Government are a strong supporter of Airbus and have provided financial support in the form of launch investment since 1984.

The payments by HMG to Airbus and receipts from Airbus to HMG since 1997–98 are set out as follows:

(£ million actual)

	Payments	*Receipts*
1997–98	0	85.4
1998–99	0	134.6
1999–2000	0	167.4
2000–01	0	119.7
2001–02	136	103.4
2002–03	139	88.7
2003–04	255	78.3

Coalminers' Compensation Scheme

David Taylor: To ask the Secretary of State for Trade and Industry when she expects to reach the last decile of registered coal compensation claims for *(a)* chronic obstructive pulmonary disease and *(b)* vibration white finger for former miners or their widows or families in the east Midlands. [189188]

Nigel Griffiths: The Department is currently holding detailed discussions on chronic obstructive pulmonary disease and plans to report progress to Sir Michael Turner, the judge who oversees the respiratory scheme, later this month when he visits the DTI's claims handlers. On claims for VWF, the Department aims to have completed all general damages offers by the end of 2004, and to have all claims settled by the end of 2005.

Consumer Codes

Mr. Oaten: To ask the Secretary of State for Trade and Industry how many consumer codes are awaiting approval by *(a)* her Department and *(b)* the Office of Fair Trading. [R] [188823]

Mr. Sutcliffe: The DTI has no role in the Office of Fair Trading (OFT) Consumer Codes Approval System.

We are advised by the OFT that six codes have completed the first stage of the process and are working towards OFT approval. In addition, OFT have received approaches from a further 40 organisations and of these 13 have already made formal applications.

Cross-channel Ferries

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what recent investigations have been carried out into the competitive nature of cross-channel ferries; and if she will make a statement. [188910]

Mr. Sutcliffe: The European Commission is conducting an investigation into cross-channel transport services, to ascertain whether there is evidence of suspected cartel agreements and related illegal practices concerning fixing of prices and trade conditions for cross-channel transport services; and evidence of suspected market sharing agreements in relation to the provision of ferry services to and from the UK.

It is for the independent competition authorities in the UK, and for the European Commission if there is an effect on inter-state trade, to investigate competition in markets and the effects of mergers on competition in markets.

Export Support

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry whether the lowering of the target rate in the public service agreement indicator for UK Trade and Investment to show positive assistance to new-to-export firms indicates a decreasing level of support to such businesses; and if she will make a statement. [189294]

Mr. Alexander: The target has been raised not lowered. A new PSA indicator, agreed in the recent Spending Review, requires at least 40 per cent. of new to export firms funded by UK Trade and Investment to improve their business performance within two years. The previous target was 30 per cent. Although the overall level of resources being allocated to trade development will be reduced following the spending review, UK Trade and Investment is committed to increasing by 30 percentage points the proportion to trade development resources focused on new to export firms.

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry why her Department has lowered the minimum target rate to be achieved in 2004–06 from that most recently achieved by UK Trade and Investment in assisting new-to-export firms to improve their business performance. [189315]

Mr. Alexander: The target rate has been raised not lowered for the 2005–06 to 2007–08 period.

Foreign Direct Investment

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry which *(a)* five countries and *(b)* industries accounted for the greatest amount of foreign direct investment in the United Kingdom in each of the past five years. [188921]

Mr. Alexander *[holding answer 14 September 2004]:* According to figures recorded by UKTI the five countries that accounted for the greatest amount of foreign direct investment in the United Kingdom in the last five years is:

	1999–2000	2000–01	2001–02	2002–03	2003–04
1.	US	US	US	US	US
2.	Germany	Germany	Japan	Canada	France
3.	Japan	Canada	Canada	Germany	Japan
4.	Canada	Japan	France	Japan	Canada
5.	France	France	Germany	France	Germany

According to figures recorded by UKTI the five industries that accounted for the greatest amount of foreign direct investment in the United Kingdom in the last five years is:

	1999–2000	2000–01	2001–02	2002–03	2003–04
1.	IT, internet and e-commerce	IT, internet and e-commerce	Software	Software	Software
2.	Automotive	Software	IT, internet and e-commerce	IT, internet and e-commerce	IT, internet and e-commerce
3.	Electronics	Electronics	Automotive	Automotive	Electronics
4.	Engineering	Automotive	Electronics	Electronics	Pharmaceuticals and biotechnology
5.	Telecoms	Telecoms	Telecoms	Finance	Management

These figures are based on information provided by companies at the time of the announcement of the decision to invest in the UK. The figures take no account of subsequent developments.

There is no requirement to notify UKTI and so the figures include only those projects where UKTI's Inward Investment Group and its regional partners were involved or which have come to their notice.

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry which 10 foreign companies invested the greatest amount directly in the United Kingdom in each of the past five years. [188993]

Mr. Alexander *[holding answer 14 September 2004]*: Individual statistical returns companies make to the Office for National Statistics and other Government organisations for all surveys, including Foreign Direct Investment (FDI), are confidential, and therefore the information cannot be published.

Insolvency

Sir Michael Spicer: To ask the Secretary of State for Trade and Industry if she will make a statement on the appointment of the insolvency adjudicator. [189153]

Mr. Sutcliffe: Dame Barbara Mills DBE QC was appointed to act as the Independent Complaints Adjudicator for The Insolvency Service from 1 April 2003.

Dame Barbara will consider complaints about the way in which The Insolvency Service has dealt with its users including bankrupts, directors of failed companies and creditors. She will consider whether the complaint is justified and recommend what, if anything, The Insolvency Service should do to put things right.

The Adjudicator's recommendations are independent and her services are free to complainants.

Dame Barbara also investigates complaints about the Inland Revenue, HM Customs and Excise, and the Public Guardianship Office.

Sir Michael Spicer: To ask the Secretary of State for Trade and Industry what the cost has been of the review of insolvency practitioners regulations. [189154]

Mr. Sutcliffe: The current review of insolvency practitioners regulations commenced in November 2003 and is on-going.

The cost to date is estimated to be in the region of £7,367.

International Atomic Energy Agency

Llew Smith: To ask the Secretary of State for Trade and Industry what proposals the United Kingdom ambassador to the Board of Governors of the International Atomic Energy Agency (IAEA) plans to make to the next annual general conference of the IAEA; whether the United Kingdom will be participating in the scientific forum being held as part of the IAEA general conference, on 21 to 22 September; and who the members of the UK delegation to the conference will be. [189109]

Nigel Griffiths: The UK will, as usual, be represented at the Agency's General Conference by a team of officials from different Government Departments, led by the UK's Governor to the IAEA. Throughout the week the UK will be negotiating and working with other member states on a wide range of issues relevant to the Agency's activities: these include nuclear safety and security, nuclear verification safeguards, and promotion of the peaceful uses of nuclear energy and technology. Copies of the UK's statement to the Plenary and resolutions, which have been agreed at the conference, will be placed in the Libraries of the House.

At present, the UK has no plans to participate in the scientific forum being held on 21–22 September, as part of the IAEA General Conference.

Marine Aggregates

Adam Price: To ask the Secretary of State for Trade and Industry if she will make a statement on the amount of marine aggregates in cubic metres dredged off the British coast in each of the last 10 years for which figures are available. [188480]

Keith Hill: I have been asked to reply

The Crown Estate has provided the Office of the Deputy Prime Minister with the following figures for the

extraction of aggregates from British waters over the past 10 years:

	Tonnage extracted	*Cubic metres extracted*[1]
1994	22,064,768	13,374,690
1995	26,122,576	16,068,640
1996	26,613,578	16,496,250
1997	24,876,508	15,301,780
1998	22,866,580	13,928,970
1999	23,678,572	14,442,100
2000	23,656,885	14,042,140
2001	22,689,280	13,771,780
2002	21,875,086	13,273,720
2003	22,226,070	13,525,340

[1] Approximate conversion.

Parental Leave

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans her Department has to increase paid parental leave; and if she will make a statement. [186334]

Mr. Sutcliffe: The Government introduced a substantial package of laws for working parents in April 2003, including increasing paid maternity leave, and a new right to paid paternity and adoption leave.

The Government are committed not to make any changes to the laws for working parents before 2006, after the impact of the existing legislation has been reviewed.

The DTI is taking forward a programme of work to explore what additional support could be provided to people balancing work and caring responsibilities, in ways that meet both individual and business needs. The work has included a series of roundtables in England, Scotland and Wales and a Citizens' Jury.

Post Office Card Accounts

Mr. Peter Duncan: To ask the Secretary of State for Trade and Industry what revised guidance has been issued to post offices on the marketing of Post Office Card Accounts during the last three months. [188452]

Mr. Sutcliffe: Guidance and training for subpostmasters on the procedures associated with the Post Office Card Account (POCA) are operational matters for Post Office Ltd. and I have therefore asked the Chief Executive to respond directly to the hon. Member.

Postal Services

Mr. Rosindell: To ask the Secretary of State for Trade and Industry how many complaints she has received in the last 12 months regarding the postal service in postal districts RM1, RM2, RM5, RM7, RM11 and RM12; and what the figures are for all other London postal districts. [187732]

Mr. Sutcliffe: Complaints regarding the postal service are an operational matter for Royal Mail Group and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Proposed EU Patentability Directive

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry what the differences are between current UK copyright law and the draft of the proposed EU directive on software patentability for which the Minister of State for Industry and the Regions voted at the EU Competitiveness Council meeting on 17–18 May. [189316]

Ms Hewitt: Present UK copyright law protects an original computer program that has been recorded in some form, but does not protect the idea behind the program. The current draft of the directive does not alter copyright protection, but confirms that innovators can gain patent protection for inventions involving the use of computer programs, providing they meet existing patentability requirements, which include making a technical contribution.

Research Councils

Dr. Gibson: To ask the Secretary of State for Trade and Industry if she will estimate the proportion of Research Council grants that will go to staff costs when research councils move to funding the full economic costs of research. [189031]

Ms Hewitt: On currently available data, Research Councils estimate that staff costs, including staff directly employed on the grant such as research assistants, make up approximately 40 per cent. of the Full Economic Cost (FEC) of current grants. Permanent academic staff (Principal Investigators and Co-Investigators) represent approximately one third of this figure.

The Government have allocated an additional £200 million per year from 2007–08 (£120 million from 2005–06) to pay more for each Research Council project. As stated in the "Science and Innovation Investment Framework 2004–14", the Government intends that Research Councils should pay close to 100 per cent. of the FEC of their grant funded research, taking account of capital funding streams, by the beginning of the next decade.

Science Budget

Hugh Bayley: To ask the Secretary of State for Trade and Industry how much money from the Government's science budget had been spent *(a)* in total, *(b)* in Yorkshire and the Humber and *(c)* in the City of York in each year since 1997. [188951]

Ms Hewitt: Total science budget expenditure in each year from 1997–98 to 2002–03 was as follows:

	Science budget (£ million)
1997–98	1,331
1998–99	1,334
1999–2000	1,394
2000–01	1,514
2001–02	1,707
2002–03	2,032

Research Council grants allocated to Higher Education Institutions (HEIs) in Yorkshire and

Humber and the City of York from 1997–98 to 2002–03 were as follows:

£ million

	Total UK Research Council grants	Yorkshire and Humber	York
1997–98	534	39.6	6.5
1998–99	560	44.1	7.1
1999–2000	604	50.2	7.4
2000–01	695	57.1	8.7
2001–02	805	65.0	10
2002–03	820	66.5	11.6

Source:
Higher Education Statistics Agency—Resources of Higher Education Institutions

In addition, over this period, HEIs in Yorkshire and Humber received £117 million (of which £31 million went to the City of York) in infrastructure and knowledge transfer support, which was co-funded from the DfES and the OST science budget.

Small Mines (Compensation)

Mr. Dalyell: To ask the Secretary of State for Trade and Industry when the Government's claims handlers expect to settle outstanding issues in relation to small mine employment and occupational respiratory disease issues. [189156]

Nigel Griffiths: Following agreement in principle in February 2004 good progress has been made in operational planning for the issuing of offers to small mines claimants. Software development scheduled for completion toward the end of September will allow the calculation of full and final offers to commence.

Sunday Trading

Ms Coffey: To ask the Secretary of State for Trade and Industry what plans she has to deregulate Sunday trading. [188757]

Mr. Sutcliffe *[holding answer 13 September 2004]:* We have no plans to do so.

Tissue Products

Sir Nicholas Winterton: To ask the Secretary of State for Trade and Industry what assessment she has made of the cost to public service provider purchasing departments of inaccurate labelling of tissue products in the last year for which figures are available. [188105]

Mr. Sutcliffe: None.

Trading Standards

Mr. Blizzard: To ask the Secretary of State for Trade and Industry what support she will give to local trading standards authorities seeking to protect the public from mass marketing scams. [188450]

Mr. Sutcliffe: We have provided funding to Trading Standards to support and encourage more joined up effective enforcement; the Office of Fair Trading (OFT) has also assisted Trading Standards Departments by providing training to around 2,500 Trading Standards Officers over the past year.

Most mass marketing scams operate from outside the UK. The OFT works with the network of enforcement agencies called ICPEN (International Consumer Protection Enforcement Network) to investigate and take action against cross-border scams.

UK Trade and Investment Website

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry what plans she has to introduce *(a)* new and *(b)* increased charges for information, advice or assistance obtained by British businesses through the website of UK Trade and Investment. [189317]

Mr. Alexander: Arising from the Spending Review 2004 settlement, UK Trade and Investment are seeking to achieve efficiency gains through consideration of greater cost recovery for its services. Officials are considering options on how best to achieve this.

Unsolicited Goods and Services Act 1971

Brian Cotter: To ask the Secretary of State for Trade and Industry how many complaints have been made under the terms of the Unsolicited Goods and Services Act 1971 *(a)* since the introduction of the Act and *(b)* in each of the last five years. [188663]

Mr. Sutcliffe *[holding answer 13 September 2004]:* The Department of Trade and Industry does not collect statistics relating to the number of complaints made under the Unsolicited Goods and Services Act 1971.

Local authority trading standards departments are responsible for enforcement of the Act and will each record their own complaints data.

Working Hours

Denzil Davies: To ask the Secretary of State for Trade and Industry what her estimate is of the percentage change in the hours worked per capita in the UK in *(a)* 1970 to 1980, *(b)* 1981 to 1997 and *(c)* 1998 to the latest available year. [184353]

Mr. Sutcliffe: The information is as follows:

(a) Unfortunately no data for this time period is available on the Labour Force Survey.

(b) The Labour Force Survey reweighted data starts from 1992. The change in hours worked (that is total hours worked and excluding overtime) from spring 1992 to spring 1997 is 0.08 per cent.

(c) The change in hours (that is total hours worked and excluding overtime) worked from spring 1998 to spring 2004 is 0.59 per cent.

WORK AND PENSIONS

Children in Poverty

Mr. Woodward: To ask the Secretary of State for Work and Pensions (1) what estimate the Government have

made of *(a)* how many and *(b)* what percentage of children lived in poverty in (i) St. Helens and (ii) the UK, broken down by region, in each year since 1997; [186825]

(2) what estimate the Government have made of *(a)* how many and *(b)* what percentage of children lived in low-income households in (i) St. Helens and (ii) the UK, broken down by region, in each year since 1997; [186824]

(3) what the Government's performance has been against each of its child poverty reduction targets in *(a)* St. Helens and *(b)* the UK, broken down by region, since 1997. [186806]

Mr. Pond: Poverty and social exclusion are complex and multi-dimensional issues, affecting many aspects of peoples' lives—including their living standards, health, housing, the quality of their environment—and not just low income. The sixth annual "Opportunity For All" report (Cm 6329) sets out the Governments strategy for tackling poverty and social exclusion and presents information on the indicators used to measure progress against this strategy.

Specific information regarding low income for Great Britain and the United Kingdom is available in "Households Below Average Income 1994–95 to 2002–03". Data are not available below regional level.

"Measuring Child Poverty", published in December 2003, outlines the Government's measure of UK child poverty for the long term. This new measure will begin from 2004–05.

All publications listed are available in the Library.

Benefit Claimants (Faversham)

Hugh Robertson: To ask the Secretary of State for Work and Pensions (1) how many people in Faversham are claiming *(a)* jobseeker's allowance and *(b)* incapacity benefit or their equivalents; and how many were doing so in 1997; [189333]

(2) how many people in the Faversham and Mid-Kent constituency are claiming *(a)* jobseeker's allowance and *(b)* incapacity benefit or their equivalents; and how many were doing so in 1997. [189334]

Mr. Pond: The available information is in the tables.

Incapacity benefits claimants: May 1997 and May 2004

	Thousand
May 1997	
Great Britain	2,739.3
Swale local authority	4.3
Faversham and Mid-Kent parliamentary constituency	2.5
May 2004	
Great Britain	2,708.7
Swale local authority	5.1
Faversham and Mid-Kent parliamentary constituency	3.1

Notes:
1. "Incapacity benefits claimants" includes all incapacity benefit and severe disablement allowance claimants, including those receiving national insurance credits only.
2. Figures are shown in thousands and are rounded to the nearest hundred.

Source:
IAD Information Centre, 5 per cent. samples.

Jobseeker's allowance claimants: May 1997 and May 2004

	Swale local authority	*Faversham and Mid-Kent parliamentary constituency*
May 1997	3,508	1,715
May 2004	1,450	634

Count of unemployment-related benefits, Jobcentre Plus computer systems.

Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the total cost of benefits paid was in *(a)* 1997–98 and *(b)* the most recent year for which figures are available. [188592]

Mr. Pond: The total benefit expenditure for Great Britain, in nominal terms, in 1997–98 was £93,342 million; in 2002–03 it was £110,282 million.

Mr. Boswell: To ask the Secretary of State for Work and Pensions how many people have *(a)* nominated agents to collect state benefits on their behalf and *(b)* made formal appointments for third parties to receive and handle the administration of benefits on their behalf on account of their lack of mental capacity. [188231]

Mr. Pond: The only information available is for pension credit and income support.

In Great Britain, as at February 2004, there were 100,400 pension credit claimants and 53,200 income support claimants with an agent.

In Great Britain, as at the end of February 2004, there were 174,700 pension credit and 118,200 income support claimants with appointees.

It is not possible to state how many people have appointees in cases of lack of mental capacity as this information is not collated centrally.

Bereavement Benefits

Mr. Drew: To ask the Secretary of State for Work and Pensions what plans he has to change the operation of the bereaved parents allowance. [188405]

Mr. Pond: Bereavement benefits were introduced on 9 April 2001, and for the first time extended support to both widows and widowers following the death of a spouse. These new benefits concentrate the help available where it is most needed; on immediate needs and on families with children.

Widowed parent's allowance is a weekly benefit payable to widowed parents who satisfy the qualifying conditions. The bereavement payment is a lump sum payment of £2,000 payable immediately to help with costs arising on bereavement. In addition, bereavement allowance is a weekly benefit payable, for 52 weeks following widowhood, to widows and widowers aged 45 and over without dependant children.

We have no plans to change these arrangements.

Sue Doughty: To ask the Secretary of State for Work and Pensions (1) if he will provide a Written Ministerial Statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188202]

(2) if he will provide a Written Ministerial Statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188203]

Mr. Pond: I refer the hon. Member to the written answer given by my right hon. Friend, the Secretary of State for Foreign Affairs, on 13 September 2004, *Official Report*, column 1451.

Mrs. Dean: To ask the Secretary of State for Work and Pensions what training is provided to staff of his Department to enable them to give sufficient advice to those who are bereaved on what benefits are available to them. [188268]

Maria Eagle: Staff who deal with bereavement benefits claims have extensive technical training on those benefits before commencing their job. The training includes both classroom lessons and computer based material. Although primarily aimed at staff who process benefit claims, the training can also assist Personal Advisors and Financial Assessors in gaining a comprehensive understanding of these benefits.

Additionally, further computer-based learning on the availability of bereavement benefits can be accessed by all staff who are likely to come into contact with, and give advice to, recently bereaved customers.

All staff dealing with customers have access to benefit guides, including guides on bereavement benefits.

Canteen Facilities

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the cost of running his Department's canteen facilities was in *(a)* 1996–97 and *(b)* the latest year for which figures are available. [185529]

Maria Eagle: DWP was formed in June 2001 from the former Department of Social Security (DSS), and parts of the former Department for Education and Employment (DfEE) including the Employment Service. The first year for which figures for the cost of running the former DSS canteen facilities are available is the financial year 1998–99 for which the cost was £2.7 million. The most recent figures available for DWP are for the financial year 2003–04 for which the cost was £3.7 million. Information is not available centrally for the former DfEE.

Child Support

Miss McIntosh: To ask the Secretary of State for Work and Pensions what targets his Department has set for the number of errors reported in Child Support Agency cases next year. [187944]

Mr. Pond: The Child Support Agency's targets are published within its annual Business Plan.

The target for the current year is that by 31 March 2005 accuracy on the last decision for all maintenance calculations checked to be correct to the nearest penny in at least 90 per cent. of cases.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions when he will make arrangements to pay the money owing to Jennifer Oakes of Noctorum Avenue, Birkenhead, paid to him in error by the Child Support Agency. [189282]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mike Isaac to Mr. Frank Field, dated 16 September 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, when he will make arrangements to pay the money owing to Jennifer Oakes of Noctorum Avenue Birkenhead paid to him in error by the Child Support Agency.

As individual cases are confidential, I will write to you separately about this case. This is in line with paragraph 12, part 2 of the Code of Practice on Access to Government Information.

Miss McIntosh: To ask the Secretary of State for Work and Pensions if he will make a statement on the change in the number of errors reported under the new Child Support scheme. [187943]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mike Isaac to Anne McIntosh, dated 16 September 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, if he will make a statement on the change of the number of errors reported under the new Child Support Scheme.

In the year to 31 March 2003 the Agency's accuracy rate in calculating child maintenance assessments was 83.8 per cent. against a target of 80 per cent. This tested that the assessment was accurate to the nearest penny. In the year to 31 March 2004 the accuracy rate was 85.7 per cent. for old scheme cases against a target of 82 per cent. and 82 per cent. for new scheme cases against a target of 90 per cent. The new scheme was only introduced on 3 March 2003.

Miss McIntosh: To ask the Secretary of State for Work and Pensions what measures his Department is taking to ensure that the number of Child Support Agency cases containing errors is reduced. [187945]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mike Isaac to Miss McIntosh, dated 16 September 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, what measures his Department is taking to ensure that the number of Child Support cases containing errors is reduced.

The Agency has processes in place to regularly check the accuracy of its work. The teams responsible for that activity provide regular feedback to its operational teams so that they can learn from and remove identified causes of error. This is reinforced by a continuing education programme and regular team meetings at which quality is discussed.

Bob Spink: To ask the Secretary of State for Work and Pensions when he expects to assess all Child Support Agency cases under the new criteria. [187963]

Mr. Pond: I refer the hon. Member to the Written Answer I gave him on 18 December 2003, *Official Report*, column 1092W.

Bob Spink: To ask the Secretary of State for Work and Pensions if he will make a statement on the operation of the Child Support Agency's computer systems. [187971]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mike Isaac to Mr. Bob Spink, dated 16 September 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, if he will make a statement about the operation of the Child Support Agency's computer systems.

Mr. Smith has made regular reports to Parliament on the implementation of Child Support Reform on the 16 July 2003, 18 November 2003, 12 February 2004, 21 April 2004 and 22 July 2004.

The Agency is currently supported in its work by two computer systems: CSCS which is supported and maintained by EDS; and CS2 which is provided as a managed service by EDS. CSCS provides support to those clients whose applications were received before March 2003. CS2 provides support in handling both clients whose applications were received after 3 March 2003 or whose cases are in some relevant way linked to applications made after that date. EDS is meeting its contracted levels of service for CSCS. However, there are well documented defects within CS2 that have caused difficulties for clients. We are consequently withholding a proportion of the monthly payments for the service offered by CS2, under the terms of our contract with EDS. EDS is currently part way through a recovery programme intended to remove those defects.

Mr. Best: To ask the Secretary of State for Work and Pensions (1) whether his Department has set a timetable for the transfer of existing child support agency customers to the new system; [188427]

(2) when existing Child Support Agency claimants will be transferred to the new system for calculating child maintenance; and if he will make a statement. [188444]

Mr. Pond: I refer the hon. Member to the Written Answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

Civil Service Recruitment

Mr. Best: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact on services of the proposals to reduce civil service jobs in his Department. [189128]

Maria Eagle: The Department's plans to reduce its staffing levels are part of a four year programme of modernisation made possible by a significant investment of public money. The investment has enabled the Department to streamline its processes, modernise its IT and improve its service to customers as a result. The first phase of these plans designed to increase the efficiency of benefit processing was announced to the House on 29 June. The latest phase of the Department's continuing modernisation programme was announced by my right hon. Friend, the Secretary of State in a written ministerial statement earlier today.

CSA

Bob Spink: To ask the Secretary of State for Work and Pensions when he expects all absent parents to be assessed under the same criteria for Child Support Agency payments; and if he will make a statement. [186530]

Mr. Pond: I refer the hon. Member to the written answer I gave him on 18 December 2003, *Official Report*, column 1092W.

Departmental Expenditure

Mr. Willetts: To ask the Secretary of State for Work and Pensions how much his Department and its predecessor Department spent on *(a)* mobile phone costs, *(b)* hospitality and *(c)* taxi costs in (i) 1996–97 and (ii) the latest year for which figures are available. [185530]

Maria Eagle: The Department for Work and Pensions was formed in June 2001 from the Department of Social Security (DSS), Employment Service (ES), and parts of the Department for Education and Employment (DfEE). The Health and Safety Executive (HSE) and Health and Safety Laboratory (HSL) were added in 2002–03.

Information is not available in the format requested. Expenditure on taxis is not collected centrally and could be provided only at disproportionate cost. Such information as is available on: *(a)* mobile phones; and *(b)* hospitality is set out in the following table:

	£ million
(a) Mobile phones	
1996–97[1]	1.258
2003–04 (DWP)	3.769
(b) Hospitality	
1996–97[2]	0.147
2003–04 (DWP)	0.123

[1] Figures available for former DSS only.
[2] All DWP components.

Departmental Staff

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many staff were employed in the Department in each of the last three years; and how many were employed on short-term contracts in each year. [188983]

Maria Eagle: Information on the number of staff awarded short term contracts within a given period is not held. Information on the number of staff employed on short term contracts at specific dates over the last three years is in the table.

At 31 March	*Number of staff*
2002	4,206
2003	2,788
2004	4,621

Notes:
Figures are point in time at the date shown.
Figures are expressed in headcount terms.

Mr. Cousins: To ask the Secretary of State for Work and Pensions what the turnover rate of staff in the Department and each of its agencies was in the last year for which figures are available. [188984]

Maria Eagle: Information on turnover in the Department and each of its Agencies for the year ending 31 March 2004 is in the following table.

	Turnover Rate (percentage)
Appeals Service	6.0
Child Support Agency	8.9
Jobcentre Plus	5.7
The Pension Service	7.6
The Department	4.4
Total Department for Work and Pensions	6.1

Destination of Benefit Leavers Survey

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what the cost is of carrying out the Destination of Benefit Leavers Survey; what information he expects to obtain from it; and if he will make a statement. [188912]

Mr. Pond: The 2004 Destination of Benefit Leavers Survey is currently being carried out. The estimated cost of the survey is £488,000. Plans are in place to publish the key findings from the 2004 Destination of Benefit Leavers Survey in early 2005.

The research aims to collect information on the immediate destinations of around 20,000 income support, incapacity benefit or jobseeker allowance (JSA) unknown destination benefit leavers. Specifically, we are looking to obtain information on why the claimant has left benefit (for example, they have moved into work, training or education); details of hours worked and earnings (if the destinations is into work); current activity (at the time of interview); and demographic information not already held administratively by the Department.

This is a repeat of the 2003 survey. A copy of the report (2003 Destination of Benefit Leavers in-house research report No. 132) is available in the Library.

At present, comprehensive information on immediate destinations is collected for JSA recipients only. The information gathered via the destination survey is, therefore, an important and significant development to the Department's analytical evidence base and will enable the Department to monitor and evaluate the number of claimants flowing off benefits and into work from the three key working age benefits.

The survey is part of a wider package of work that is being carried out to improve our information and is an interim measure for collection of destinations data until future income support and incapacity benefit administrative solutions are introduced in late 2004/ early 2005.

Disability Living Allowance

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions (1) what plans he has to allow people to claim disability living allowance if they become ill after the age of 65; and if he will make a statement; [188903]

(2) what the upper age limit is for claiming disability living allowance; for what reason *(a)* there is an upper age limit and *(b)* the limit is set at that age; and if he will make a statement. [188904]

Maria Eagle: It is normal for social security schemes to contain different provisions for people at different stages of their lives, and we have no plans to change the rules which preclude people aged 65 or over from entitlement to disability living allowance unless they claimed and qualified for it before reaching that age. This is because the benefit is focussed on providing help with the disability-related extra costs of people who are severely disabled early, or relatively early, in life. Help with those costs for people for whom the onset of disability comes with old age is provided by attendance allowance as part of the wide range of support that the Government make available to older people so that they can have a decent and secure income in retirement and share fairly in the rising prosperity of the country.

Disabled People

Mr. Drew: To ask the Secretary of State for Work and Pensions if he will list the major initiatives since 1997 that the Government has taken to *(a)* advance the cause of disabled people and *(b)* highlight disability, especially with regard to overcoming discrimination. [188327]

Maria Eagle: Since 1997, we have introduced a wide range of significant measures that have improved civil rights and opportunities for disabled people, including:

	Major initiatives
December 1997	The Government set up the Disability Rights Task Force to consider how best to secure our 1997 Manifesto commitment to look at comprehensive and enforceable civil rights for disabled people.
December 1998	Employment provisions of Disability Discrimination Act extended to employers with 15 or more employees (previously 20 or more).
January 1999	All new rail vehicles have to comply with Rail Vehicle Accessibility Regulations 1998.
June 1999	"See the person" information campaign which aimed to challenge negative stereotypical thinking about disability and disabled people, to raise awareness of the DDA requirement (coming into effect from October 1999) on service providers to consider reasonable adjustments to the ways they deliver services.
July 1999	Disability Rights Commission Act 1999 gains Royal Assent.

	Major initiatives
October 1999	Further DDA rights of access to goods and services came into force, meaning service providers have to alter a policy, practice or procedure which prevents a disabled person accessing a service, or to provide an auxiliary aid or service, or provide a service by a reasonably alternative means.
February 2000	Direct Payments were extended to older disabled people.
April 2000	Disability Rights Commission commenced activity.
June 2000	Attendance Allowance and the care component of Disability Living were extended to an estimated 2,000 self-funders in local authority owned/managed residential care homes.
June 2000	The day of discharge from hospital has been treated, for the purpose of payments of Attendance Allowance and the Disability Living Allowance care component, as being a day out of hospital. This is benefiting an estimated 50,000 people per year.
September 2000	Department of Health began to undertake a project to Modernise Hearing Aid Services. In the first 18 months, 20 sites piloted provision of a service which assessed patients' more thoroughly, providing binaural aids where indicated, and digital hearing aids where this provides the best solution to the patient.
October 2000	Government agrees the EU Article 13 Employment Directive to combat discrimination in employment and vocational training on grounds of disability, age, religion/belief, sexual orientation.
October 2000	The "What have you got to offer?" campaign which targeted SME business sector in particular, and used straightforward examples of the kinds of changes under the DDA, which make services accessible to disabled customers.
December 2000	Public Service Vehicle Regulations 2000 became applicable to all new buses and coaches with more than 22 passengers used on local and scheduled services.
March 2001	Regulations introduced requiring licensed taxi drivers to accept assistance dogs and to carry them free of charge.
March 2001	'Valuing People' was published. This is the first White Paper on learning disability for thirty years.
April 2001	Launch of WORKSTEP programme providing support in jobs for disabled people.
April 2001	The Disability Living Allowance higher rate mobility component was extended to severely disabled three and four year old children who are unable, or virtually unable, to walk. This change provides extra help worth £41.05 a week to the families of over 7,000 severely disabled children.
May 2001	Special Educational Needs and Disability Act 2001 (SENDA) gains Royal Assent. The Act brings within scope of the DDA's discrimination provisions, disabled pupils and students.
June 2001	Introduced statutory minimum requirement for concessionary travel, ensuring that certain groups of disabled people have access to half-fares on local buses.
July 2001	National Extension of New Deal for Disabled People.
August 2001	'Valuing People' Implementation Guidance was published.
December 2001	The Learning Disability Task Force held their first meeting. The Learning Disabilities Taskforce is a team of academic experts, representatives of voluntary organisations, health and social care professionals, family carers and people with learning difficulties charged with finding ways to turn the ideas in Valuing People, into reality.
December 2001	The Mencap helpline was launched. It is funded by the Department of Health and Mencap. They offer advice on learning disability issues.
January 2002	The "Open to Change" campaign which was aimed at encouraging SMEs to find out more about what reasonable adjustments should be made under the DDA, to ensure their services were available to disabled customers.
February 2002	The Valuing People Support Team became fully operational. The team works to improve services for people with learning disabilities through regional programmes of events, networks and support to groups and partnership boards.
April 2002	The Learning Disability Development Fund (LDDF) was introduced. It provides central support for key aspects of 'Valuing People.'
September 2002	First duties of SENDA came into force in September 2002.
October 2002	The Direct Payments Development Fund (DPDF) was announced, to encourage investment in direct payments support services. This money (£9 million over the next three financial years) is being targeted at national, regional and local voluntary organisations, in partnership with local councils, to enable them to play a significant role in the development and promotion of direct payments.
November 2002	The Wheelchair Collaborative was launched to bring about significant improvements in services. It was developed in partnership with the NHS Modernisation Agency, the Department of Health and the Audit Commission.
December 2002	Department of Health Ministers appointed a multidisciplinary External Reference Group to provide advice on issues which the National Service Framework for Long-Term Conditions should cover. This National service Framework focuses on improving the standard and quality of services for people with neurological conditions and addressing some of the common issues that can promote independence for people with long term conditions, like information and support for families and carers, and access community equipment and wheelchairs.
October 2002	Legislation requiring drivers of regulated buses and coaches to provide reasonable assistance to disabled people.
2001–2003	Produced a series of TV 'fillers' to tackle discrimination by using positive portrayals of disabled people in a range of roles and settings. These have generated millions of pounds worth of coverage.
January 2003	Government announced intention to publish a draft Disability Discrimination Bill.
March 2003	Regulations introduced requiring licensed private hire vehicle operators and drivers to accept assistance dogs and to carry them free of charge.
April 2003	The Disability Discrimination (Blind and Partially Sighted Persons) Regulations 2003 came into force. People who are certified as blind or partially sighted, or registered as blind or partially sighted by a local authority, automatically deemed disabled for DDA purposes.
April 2003	Regulations came into force requiring councils to offer direct payments to people using community care services who can choose to have them.
July 2003	DDA 1995 (Amendment) Regulations 2003 approved by Parliament. These include significant measures that will bring over one million additional employers, and a further seven million jobs, within the scope of the DDA. Measures come into effect in October 2004. They implement disability provisions of the Article 13 Employment Directive.
October 2003	Start of the first three Pathways to Work pilots.
November 2003	Began public consultation on setting an end date for rail vehicle accessibility and for refurbishment of rail vehicles.
November 2003	Laid Regulations to give effect to the Article 13 Directive's requirements as they affect occupational pension schemes for disabled employees. Measures come into effect in October 2004.
December 2003	Draft Disability Discrimination Bill published.
April 2004	Information campaign to tell Small to Medium Sized Enterprises about the changes they need to consider under the new October 2004 duties of the DDA. The campaign used Direct mail, radio, press and email to communicate with businesses.
May 2004	The disabled people and carers section of the new Direct.gov site, provides information of practical, personal relevance to disabled people including information on government services, and steps to find out more about those services.
May 2004	The draft bill underwent a thorough pre-legislative scrutiny process by a Joint Committee of both Houses of Parliament. The Committee published its response to Government on 27 May, containing 75 recommendations.

	Major initiatives
July 2004	The Government's response to the Scrutiny Committee's recommendations published. The Bill will further extend disabled people's civil rights in respect of the public sector, transport, premises, private clubs and the definition of disability.

We have also announced future measures to improve and broaden civil rights for disabled people:

	Major initiatives
October 2004	Final rights of access to goods and services in DDA come into effect, which mean that service providers have to, where reasonable, remove, alter or avoid physical features which act as barriers to disabled people accessing their services.
September 2005	SEN DA duty to remove or alter physical features in post-16 education sector comes into force.
January 2005	New buses up to 7.5 tonnes and coaches will have improved access for wheelchair users.
January 2015	All buses up to 7.5 tonnes will be fully accessible.
January 2016	All full size single deck buses over 7.5 tonnes will be fully accessible.
January 2017	All double deck buses will be fully accessible.
January 2020	All coaches will be fully accessible.

Exceptions Service

Mr. Steen: To ask the Secretary of State for Work and Pensions what guidance is given to local job centre offices on responding to inquiries made by recipients of benefits and retirement pension who wish to continue collecting their payments by cash rather than direct payment; what the eligibility criteria will be for those who wish to join the Exceptions Service; and if he will make a statement. [189127]

Mr. Pond: Direct payment is now the normal method of payment. The Department provides Jobcentre Plus staff with the factual information they need to give to customers, in order for customers themselves to choose the account which best meets their needs and circumstances.

All existing customers, not yet paid by direct payment, are being contacted to invite them to provide account details. Customers who advise the Department that they are unable to open or manage an account will be paid by cheque payment.

The cheque payment is only intended for those customers who we cannot pay by direct payment; it is not an alternative payment option.

Hepatitis C

Annabelle Ewing: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 10 February 2004, *Official Report*, columns 1337–9W, on Hepatitis C, whether the proposed housing benefit and council tax benefit regulations to which he referred have been laid before Parliament. [189321]

Mr. Pond: The Social Security (Miscellaneous Amendments) (No. 2) Regulations 2004 (Statutory Instrument 1141 of 2004) were laid before Parliament on 21 April 2004 and came into force on 12 May 2004.

As a result, payments made under the Hepatitis C Ex-Gratia Payment Scheme to people who are infected with Hepatitis C are now disregarded fully when calculating entitlement to housing benefit and council tax benefit.

Housing and Council Tax Benefits

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the value of housing and council tax benefit fraud and error detected in *(a)* each local authority and *(b)* total in 2002–03. [189122]

Mr. Pond *[holding answer 15 September 2004]:* The information is not currently available. The Department is currently developing a methodology that will enable us to produce robust estimates of the value of fraud and error detected.

However, the latest report on estimated Fraud and Error in Housing Benefit, April 2002 to September 2003, was published on 12 August. The findings about the overall levels of housing benefit (HB) fraud and error, in 2002–03, are that around £550 million (5.0 per cent.) of HB expenditure within the scope of the Housing Benefit Review (HBR) sample is estimated to have been overpaid due to fraud or error; and a further £150 million is estimated, via the use of a rough extrapolation, to have been overpaid in HB expenditure outside the scope the HBR sampling.

Copies of the report are available in the Library.

Laryngectomies

Mrs. Helen Clark: To ask the Secretary of State for Work and Pensions what plans he has to review the classification of disabled people who have had laryngectomies. [188887]

Maria Eagle: People who have had laryngectomies can qualify for the full range of social security benefits and pensions if they satisfy the rules which govern entitlement. They can also be disabled persons for the purposes of the Disability Discrimination Act 1995 if they experience a long-term substantial adverse effect on their ability to carry out normal day-to-day activities.

Means-tested Benefits

Mr. Liddell-Grainger: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of *(a)* households and *(b)* people in receipt of means-tested benefits. [186545]

Mr. Pond: The information is in the table.

Income related benefit recipients, Great Britain: May 2002

	Income-related[4] benefit recipients
Claimants	6,250,000
Total adult beneficiaries	7,440,000
Total beneficiaries	10,330,000

Notes:

1. The figures are based on 1 per cent. and 5 per cent. samples and are therefore subject to a degree of sampling variation.
2. Due to the procedures used to remove overlaps between the figures, the figures are rounded to the nearest ten thousand.
3. Council tax benefit data excludes any Second Adult Rebate cases.

4. Housing benefit data excludes any Extended Payments.
5. Income related benefits are classed as income support, income-based jobseeker's allowance, housing benefit and council tax benefit.
6. "Claimants" are benefit units in which the customer and/or partner are in receipt of income related benefits.
7. "Total adult beneficiaries" refers to the sum of all customers and partners in receipt of income related benefits.
8. "Total beneficiaries" refers to the sum of all customers, partners and dependants in receipt of income related benefits.
9. Benefit units may be a single person, couple or family.
10. Overlaps between benefits have been removed.

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2002. DWP Information Centre, per cent., sample (IS/JSA).

Myasthenia Gravis

Mr. Caton: To ask the Secretary of State for Work and Pensions if he will make a statement on benefit entitlement for those diagnosed with myasthenia gravis. [188633]

Mr. Best: To ask the Secretary of State for Work and Pensions if he will make a statement on benefit entitlement for individuals diagnosed with myasthenia gravis. [189132]

Maria Eagle: We do not pay benefits based on medical diagnosis.

Incapacity benefit is intended to provide a source of income for sick and disabled people of working age who are unable to work.

Entitlement to disability living allowance is based on walking difficulties and/or the need for personal care which results from severe disability. The customer's medical condition is not, necessarily, the key factor. Rather it is the disablement that results from it and the effects of that disablement.

We are ensuring that the benefit system encourages and promotes work where possible. However, we recognise that those with the most severe conditions may never be able to work, and benefits provide security for those for whom work is not an option.

New Deal for Disabled People

Mr. Goodman: To ask the Secretary of State for Work and Pensions whether organisations who have contracts to help deliver the New Deal for Disabled People will be paid for getting unemployed disabled people into work above the targets which those organisations have been set for so doing. [188597]

Jane Kennedy: Target levels for organisations supporting the delivery of the New Deal for Disabled People are agreed and specified within the Department's contracts with them. Any variation of those contracts is at the discretion of the Department and subject to our agreement through contract re-negotiation.

Pension Collection (Giros)

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if he will arrange for those pensioners who continue to draw their pensions by way of Giros to have the option of having the Giros sent to the local Post Office where they will be cashed. [189281]

Mr. Pond: Under normal arrangements when customers are paid by cheque, payment is sent to their home address.

Cheques can be paid into bank/building societies as well as being cashed at Post Offices; however, all cheques over the value of £350 have to be paid into a bank/building society account.

Sending cheques directly to the Post Office does not provide the same opportunity for casual agent encashment.

There are no plans in place to change these existing arrangements.

The same outcome would be achieved if customers choose to have their pension or benefit paid by Direct Payment into an account which is accessible at the Post Office. Many current accounts, basic bank accounts as well as the Post Office Card Account offer this facility.

Payment by Direct Payment would also provide customers with additional benefits. Depending on the account they choose, customers will be able to take advantage of all financial services available including:

discounts on some bills paid by direct debit;

a cheque-book and a debit card;

and they will be able to withdraw as much or as little of their money as they want at any one time.

Pension Credit

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions how many inquiries have been received by the pension credit application line in each calendar month since creation. [188683]

Malcolm Wicks: The number of calls to the application line in each month between April 2003 and July 2004 is shown in the table.

Calls to pension credit application line, April 2003 to August 2004

	Calls received by application line (total)	*Calls in which an application was taken over the line*	*Calls in which the customer asked for a paper application form*	*Other calls*
2003				
April	20,810	6,110	170	14,530
May	32,750	11,630	460	20,660
June	60,240	29,790	850	29,600
July	118,220	60,180	2,050	55,990
August	181,860	87,460	4,730	89,670
September	427,900	140,430	17,570	269,900
October	482,780	146,680	31,240	304,860
November	318,280	94,630	21,060	202,860
December	193,560	57,600	14,130	121,830

Calls to pension credit application line, April 2003 to August 2004

	Calls received by application line (total)	Calls in which an application was taken over the line	Calls in which the customer asked for a paper application form	Other calls
2004				
January	495,560	138,870	26,140	330,550
February	433,790	136,980	11,420	285,390
March	430,070	136,310	13,400	280,360
April	346,890	105,380	12,630	229,150
May	234,580	37,780	9,640	187,160
June	315,200	60,220	9,960	245,020
July	239,990	28,880	8,910	202,200
August	151,540	53,210	6,420	91,910

Notes:
1. Numbers of calls are rounded to the nearest 10.
2. 'Other calls' include a small number which received the engaged tone or a recorded message.

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions what proportion of residents of Dumfries and Galloway are in receipt of pension credit. [188684]

Malcolm Wicks: The number of individual recipients of pension credit in Dumfries and Galloway at the end of August represented approximately 7.1 per cent. of the total population and 27.2 per cent. of the population aged 60 or over.

Pension Service

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many local pension centres there are; and how many staff are employed in each. [188982]

Mr. Pond: There are currently 26 pension centres in addition to the centre at Tyne View Park which comprises of the National Pensions Forecasting Telephone Centre, the International Pension Centre and the National pension centre.

Details of staffing are set out in the table.

August 2004

Pension Centre	Number of staff
Bath PC	400
Birmingham PC	366
Blackpool PC	187
Burnley PC	506
Cwmbran PC	238
Dearne Valley PC	372
Derby PC	290
Dundee PC	494
London PC (Glasgow)	484
Leicester PC	280
Liverpool PC	253
Motherwell PC	499
London PC (Newcastle)	584
Norwich BH PC	255
Norwich KH PC	308
Nottingham PC	238
Plymouth PC	360
Seaham PC	371
Stockport PC	688
Stockton PC	317
Swansea PC	529
Walsall PC	253
Warrington PC	483
Wolverhampton PC	378
Wrexham PC	382
York PC	285
Pension Centres Total	9,800
IPC	997
NPC	986
NPFTC	700

August 2004

Pension Centre	Number of staff
Tyne View Support Team	123
Management and Support	19
Tyne View Park Total	2,825
Total Pension Centres	12,625

Notes:
1. Tyne View Park (Newcastle) is often considered as one Pension Centre incorporating National Pension Centre, International Pension Centre and National Pension Forecasting Telephone Centre. However for the purpose of this response a breakdown of these areas, in addition to Management and Support staff is provided.
2. The table shows the number of core processing and Management and Support staff in post at the end of August 2004. Staff working on Local Services, Projects and Central Functions are not included.

Pensioners

Mr. Cousins: To ask the Secretary of State for Work and Pensions what his policy is on home visits to pensioners; and how many home visits were carried out in each quarter since the introduction of pension credit. [188988]

Malcolm Wicks: The Local Service of The Pension Service aims to provide a home visit if a pensioner requires one. The vast majority of queries can be dealt with quickly and effectively by a telephone call to a pension centre or to the pension credit application line. Those receiving home visits are typically the most vulnerable and the Local Service aims to provide help for such pensioners when they need it. During a home visit, the Local Service will offer information on pension credit and other entitlements and on other social care issues. The number of home visits carried out since April 2003 is set out in the table.

Home visits by The Pension Service, April 2003 to August 2004

Quarter	Number of visits
2003	
April to June	67,464
July to September	92,557
October to December	112,183
2004	
January to March	148,033
April to June	131,491
July to August[1]	83,504

[1] Latest available.

Siobhain McDonagh: To ask the Secretary of State for Work and Pensions how many pensioners in Mitcham and Morden received the higher rate of winter fuel allowance for over 80s in winter 2003–04. [189349]

Mr. Pond: In winter 2003–04, the number of pensioners in Mitcham and Morden who received the higher rate winter fuel payment for those aged 80 or over was 2,895.

Note:

Figures are rounded to the nearest 5.

Source:

IAD Information Centre, 100 per cent. sample.

Siobhain McDonagh: To ask the Secretary of State for Work and Pensions how many pensioners in Mitcham and Morden received winter fuel allowance in winter 2003–04. [189350]

Mr. Pond: The number of pensioners in Mitcham and Morden who received a winter fuel payment in winter 2003–04 was 14,220.

Note:

Figures are rounded to the nearest 5.

Source:

IAD Information Centre, 100 per cent. sample.

Siobhain McDonagh: To ask the Secretary of State for Work and Pensions how many pensioners in Mitcham and Morden are receiving an additional £100 in 2004–05 to help pay for increases to council tax. [189357]

Mr. Pond: The information requested is not available. For winter 2003–04, there were 7,915 pensioners aged 70 or over in Mitcham and Morden who received a winter fuel payment. We expect a similar number to benefit from the one-off 70+ payment.

Note:

Figures are rounded to the nearest five.

Source:

IAD Information Centre, 100 per cent. sample.

Pensions

Llew Smith: To ask the Secretary of State for Work and Pensions what assessment has been made by *(a)* Ministers and *(b)* officials of his Department of the research published by the TUC in June on pension take-up, with particular reference to Wales. [189107]

Mr. Pond: The TUC has published new research showing which groups of employees have been the most likely to lose membership of a pensions scheme. We welcome the research that the TUC has undertaken on membership of occupational pensions. This draws substantively on data produced by the Government and underscores the importance of the measures we are taking forward through our pension reforms.

The Pensions Bill will rebuild confidence in occupational pensions, it will strengthen the partnership between employers, individuals and the state in pension provision. The introduction of the Pension Protection Fund (supported by a Pensions regulator) will enhance protection for pension scheme members. The Bill also protects employees transferring from one employer to another with a minimum level of pension provision. In addition it will encourage individuals to build up pension savings by offering a cash transfer sum when leaving a pension scheme.

Through our informed choice agenda we will work with our pension partners to explore and test different approaches aimed at maximising membership of employer-provided schemes. One of these is automatic enrolment where new employees automatically become members of their employer's pension scheme unless an individual opts out.

The TUC research does not contain specific information relating to Wales. However, based on the data that is available, Wales does not appear to be significantly different to the rest of the United Kingdom in terms of trends in occupational pensions.

Mr. Best: To ask the Secretary of State for Work and Pensions what assessment he has made of the operation of the new direct payment scheme for pensioners; and if he will make a statement. [189134]

Mr. Pond: Independent research commissioned by DWP which is soon to be published shows that there are very high levels of satisfaction among benefit and pensions customers who have transferred to direct payment and those who have started claiming and chose to receive direct payments. Overall 91 per cent. of customers were happy with the process of setting up direct payments (the figure for pensioners was 88 per cent.). Similarly, overall 93 per cent. of customers were happy with the process of having payments made into an account (the figure for pensioners was 92 per cent.).

The main benefits of direct payment were seen to be the increased convenience and security. Some people also feel it helps them manage their money more effectively. Most customers felt there were no disadvantages to receiving their benefit or pension by direct payment.

The full research report will be published shortly.

Chris Ruane: To ask the Secretary of State for Work and Pensions what arrangements are being made to ensure that carers with an existing power of attorney may continue to withdraw pensions from the Post Office. [188004]

Mr. Pond *[holding answer 13 September 2004]:* Payment direct into a bank or building society account including Post Office card account is the normal method of payment for benefits, pensions and allowances.

The Post Office has arrangements with a wide variety of banks and building societies and depending on the account held, customers including those with power of attorney, are able to withdraw money across the counter at any post office branch.

The Post Office card account is also available for the payment of pensions but does not support power of attorney. A power of attorney is unable to open a card account in their own name to receive pensions. However they can make use of the DWP appointee procedure to obtain pension as the carer.

The Department is in the process of contacting all customers, including those with an existing power of attorney, who have not provided account details and asking them to do so. Customers including those

holding power of attorney are being provided with all the information they need on all of their account options, including which accounts can be used at post office branches. It will be for them to decide which type of account best suits their individual needs and circumstances.

Post Office Card Account

Mr. Drew: To ask the Secretary of State for Work and Pensions what the average time taken to process pension payments through the use of the Post Office card account is. [188609]

Mr. Pond: Information is not available in the format requested.

Payments made through the Post Office card account use the same process as all payments direct to bank accounts. Payments are sent to BACS Ltd. in advance of the relevant three-day payment cycle. The process is designed to ensure that a payment is available for collection; in the case of the Post Office card account, by 9.00 am on the date it is due.

Statutory Appointees for State Benefits

Mr. Boswell: To ask the Secretary of State for Work and Pensions what formal obligations are imposed on statutory appointees for state benefits to act in the best interests of those entitled to them; and what sanctions are taken against those who fail to meet those obligations. [188230]

Mr. Pond: Applicants to become an appointee are interviewed and are required to sign a declaration (on form BF56).

This requires them to spend any money they receive from social security benefits, pensions and allowances and Inland Revenue tax credit, on behalf of, and in the interests of the benefit customer.

They are required to sign that they have read, understood and accept the conditions of being an appointee.

If the appointment is confirmed, the appointee is given form BF57 which repeats the message given in the BF56.

If an appointee fails to meet their obligations, the Secretary of State may, in addition to any further action that might be appropriate, revoke the appointment.

Transitional Protection Scheme

Mr. Purchase: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 13 January 2004, *Official Report*, column 725W, on the Transitional Protection Scheme, whether local authorities will be provided by 1 January 2005 with *(a)* an estimate at an individual local authority level, based upon local authority certified estimate returns submitted to the Department by 31 August, of the likely financial consequences in the current financial year of the impact of the Transitional Protection Scheme and *(b)* estimates at an individual local authority level of the potential financial implications for the 2005–06 and 2006–07 financial years of the impact of the Transitional Protection Scheme. [188780]

Mr. Pond: The amount of transitional protection to be provided to local authorities will not be known until after the end of the financial year when authorities have their subsidy claims audited.

Further advice and information has been issued to local authorities enabling them to estimate the potential gains/losses under the new subsidy system and consequently whether they may be affected by the transitional protection arrangements. HB/CTB circular S11/2003 gave further detailed information specifically on the transitional protection scheme. HB/CTB S2/2004 notified local authorities of the change to the transitional protection scheme which increased the level of protection for local authorities. Copies of both circulars are available in the Library.

Officials will be consulting shortly with local authority representatives to progress the details of how the transitional protection scheme will operate in practice.

HEALTH

Ambulances

Ann Winterton: To ask the Secretary of State for Health what plans his Department has to commission an independent inquiry into the operation of the Mersey Regional Ambulance Service. [188806]

Miss Melanie Johnson: The Department has no plans to commission an independent inquiry into the operation of the Mersey Regional Ambulance Service.

Ann Winterton: To ask the Secretary of State for Health what resources his Department provides to regional ambulance services; and what assessment he has made of current levels of demand on regional ambulance services. [188807]

Ms Rosie Winterton: There are 31 national health service ambulance trusts in England. Primary care trusts (PCTs) commission health services to meet the needs of their local population, in partnership with strategic health authorities (SHAs) and other local stakeholders. In line with "Shifting the Balance of Power", it is the responsibility of PCTs to determine how best to use their overall allocations to meet national and local priorities. In calculating overall budget allocations for PCTs, the Department takes into account a range of factors, including changes in demand-led activities such as ambulance journeys.

The annual number of incidents attended by ambulance services increased by seven per cent., in 2003–04. As part of the review of ambulance policy and services currently underway, we are examining the possible reasons for this increase.

Ann Winterton: To ask the Secretary of State for Health (1) what assessment he has made of the *(a)* performance and *(b)* emergency response provision of the Merseyside Regional Ambulance Service; [188808]

(2) what progress has been made by the Mersey Regional Ambulance Service in achieving national performance targets; and if he will make a statement. [188809]

Miss Melanie Johnson: The information requested on performance of the Mersey Regional Ambulance Service can be found in the statistical bulletin, "Ambulance Services, England": 2003–04. A copy of the bulletin is available in the Library and can also be found on the Department's website at www.publications.doh.gov.uk/public/sb0411.htm.

Asperger's Syndrome

Jonathan Shaw: To ask the Secretary of State for Health (1) what plans he has to review the practice guidelines for assessing the ability of people with Asperger's syndrome to live independently; [188883]

(2) what assessment he has made of the reasons a low percentage of adults with Asperger's syndrome are living fully independent lives; [188884]

(3) what assessment he has made of the assistance people with Asperger's syndrome need to live fully independent lives; [188885]

(4) for what reason people with Asperger's syndrome are referred to as presenting a low risk to independence in the Department's publication Fair Access to Care 2003. [188886]

Dr. Ladyman: There are no plans to review the "Fair access to care services" practice guidance, which was updated in March 2003.

It is a matter for social services to assess the needs of people including those with Asperger's syndrome. Each individual, regardless of any underlying condition is assessed on individual need and in the light of local eligibility criteria.

The example in "Fair access to care services" does not mean that everyone with Asperger's syndrome has low support needs.

Breastfeeding

Ms Drown: To ask the Secretary of State for Health if he will raise with *(a)* Cow & Gate and *(b)* Milupa Department of Health guidance on breastfeeding to prevent encouragement of weaning before six months. [188455]

Miss Melanie Johnson: The Department has widely published advice on ideal ways of weaning. However, current European legislation, implemented in the United Kingdom, provides that weaning foods may be labelled as suitable for infants from four months of age. The European Commission has indicated that it intends to review the labelling of these foods. When this review takes place, the Department and the Food Standards Agency will work closely to ensure that the labelling of weaning foods supports the Department's advice.

Carers

Bob Spink: To ask the Secretary of State for Health what further assistance and sources of advice he intends to provide for carers; and if he will make a statement. [189072]

Dr. Ladyman: This Government are the first ever to recognise the contribution and concerns of carers. It developed the national carers' strategy in 1999 with carers and the organisations that represent them.

The carers grant was introduced in 1999 to support councils in providing breaks and services for carers in England. The grant has been increased annually and has provided an extra £325 million over the last five years. It is worth £125 million this year and will continue at least until 2005–06, by which time it will be £185 million.

The Carers (Equal Opportunities) Act received Royal Assent on 22 July 2004. The Act will ensure that carers are able to take up opportunities which those without caring responsibilities take for granted.

The Office of the Deputy Prime Minister launched the Beacon Council scheme on 7 July 2004. Supporting carers is one of the themes for the forthcoming round.

To support carers' access to information the Department is funding Carers UK to provide advice and information in a variety of formats.

Commission for Patient and Public Involvement in Health

Dr. Gibson: To ask the Secretary of State for Health how many employees the Commission for Patient and Public Involvement in Health has; and when their contracts will end. [188108]

Ms Rosie Winterton: The Commission for Patient and Public Involvement in Health (CPPIH) has a full staffing complement of 197 whole-time equivalent (wte) posts. At present, the CPPIH has 141.5 wte posts and 40.5 posts filled by temporary staff, including individuals on fixed term contracts and agency staff.

The impact of the abolition of the CPPIH on staff contracts will be assessed on an individual basis with staff, as the details of the new arrangements are developed.

Dr. Gibson: To ask the Secretary of State for Health how much was spent on offices for the Commission for Patient and Public Involvement in Health *(a)* in total and *(b)* broken down by region. [188109]

Ms Rosie Winterton: During the 2003–04 financial year, the Commission for Patient and Public Involvement in Health spent £1.1 million on accommodation.

The following table shows a breakdown of costs by region.

	£
National centre	338,779
North East regional office	71,302
North West regional office	70,999
Yorkshire regional office	80,579
East Midland regional office	61,025
London regional office	125,282
South East regional office	126,562
South West regional office	53,928

Community Health Councils

Peter Bottomley: To ask the Secretary of State for Health who devised the community health councils' replacement systems. [188238]

Ms Rosie Winterton: The arrangements that have replaced community health councils were developed by the Government in consultation with the public, parliamentarians, the national health service, the voluntary sector and many more interested stakeholders.

Peter Bottomley: To ask the Secretary of State for Health when he expects to publish an assessment of the benefits of replacing community health councils. [188239]

Ms Rosie Winterton: There are no plans to publish an assessment of the benefits of replacing community health councils.

Continuing Care

Sandra Gidley: To ask the Secretary of State for Health how many people received fully funded NHS continuing care in each year since 1997, broken down by strategic health authority; and if he will make a statement. [185996]

Dr. Ladyman *[pursuant to his reply, 7 September 2004, Official Report, c. 1072W]:* I regret that my previous reply was incorrect. It should read as follows:

The number of people receiving national health service continuing care in 2002–03 and 2003–04, broken down by strategic health authority (SHA), is shown in the following table. The move to SHA took place in 2002. Therefore, it is not possible to provide data broken down by SHA preceding this date.

Strategic Health Authority	*Number of people receiving continuing NHS healthcare* 2002–03	2003–04
Avon, Gloucestershire and Wiltshire Strategic Health Authority	927	741
Bedfordshire and Hertfordshire Strategic Health Authority	700	830
Birmingham and the Black Country Strategic Health Authority	1,165	1,107
Cheshire and Merseyside Strategic Health Authority	1,084	1,074
County Durham and Tees Valley Strategic Health Authority	904	1,374
Coventry, Warwickshire, Herefordshire and Worcestershire Strategic Health Authority	561	690
Cumbria and Lancashire Strategic Health Authority	343	376
Essex Strategic Health Authority	834	698
Greater Manchester Strategic Health Authority	1,039	984
Hampshire and Isle of Wight Strategic Health Authority	673	530
Kent and Medway Strategic Health Authority	770	770
Leicestershire, Northamptonshire and Rutland Strategic Health Authority	137	215
Norfolk, Suffolk and Cambridgeshire Strategic Health Authority	127	435
North and East Yorkshire and Northern Lincolnshire Strategic Health Authority	410	705
North Central London Strategic Health Authority	294	320
North East London Strategic Health Authority	812	733
North West London Strategic Health Authority	500	1,468
Northumberland, Tyne and Wear Strategic Health Authority	461	1,081

Service and Financial Framework Return, Local Delivery Plan Return.

Dentistry

Mr. Gordon Prentice: To ask the Secretary of State for Health how many dental practices in East Lancashire have *(a)* wholly private, *(b)* wholly NHS and *(c)* mixed lists. [188568]

Miss Melanie Johnson: The Department does not collect information on dentists with wholly private lists, nor on the private work of dental practices doing national health service work.

The number of general dental services (CDS) and personal dental service (PDS) practices in the East Lancashire area is shown in the table.

Primary care trust	*Number of CDS and PDS dental practices*
Blackburn with Darwen	25
Burnley, Pendle and Rossendale	44
Hyndburn and Ribble Valley	22

Source:
Department of Health statistics.

Digital Hearing Aids

Bob Spink: To ask the Secretary of State for Health what progress has been made in providing the latest digital hearing aids in Essex; and if he will make a statement. [189071]

Dr. Ladyman: Since September 2000, the modernising hearing aid services project has been retaining audiologists and generally modernising services in a

phased way to enable them to offer digital hearing aids to people who would benefit from them. The roll-out will be complete by April 2005.

Digital hearing aids require different service delivery models as they incorporate information technology-based assessment and fitting procedures. A total of £30.75 million was made available from 2000 to 2003 for this project and a further £94 million will be available from 2003 to 2005.

I am informed that the audiology department at Southend Hospital National Health Service Trust is now fully funded and up and running. All new patients are fitted with digital hearing aids. There is a programme in place for patients who have an analogue hearing aid to have appointments to have the digital aid fitted if they want one.

Food Labelling

Norman Baker: To ask the Secretary of State for Health if he will ask the Food Standards Agency to publish good practice guidelines for the use of the term, suitable for vegetarians, on food labels and menus. [188055]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave to the hon. Member for Portsmouth, South (Mr. Hancock) on 15 September 2004, *Official Report*, columns 1643–44W.

Norman Baker: To ask the Secretary of State for Health what steps he intends to take to prevent the inclusion in foods labelled as vegetarian of processing agents derived from animals. [188056]

Miss Melanie Johnson: On 24 September, the Food Standards Agency (FSA) plans to hold a stakeholder meeting to discuss the labelling of vegetarian products. The meeting will consider whether establishment of FSA advice for industry and enforcement authorities on use of the terms 'vegetarian' and 'vegan' would be helpful.

The Food Safety Act 1990 and the Trade Descriptions Act 1968 already contain provisions outlawing false or misleading labelling. The FSA considers that the presence of processing agents derived from animals in a food labelled as 'suitable for vegetarians' would contravene this legislation, which is enforced by local authorities.

Forum Support Organisations

Mr. Drew: To ask the Secretary of State for Health what plans he has to continue support for individual health forums currently provided by forum support organisations. [188395]

Ms Rosie Winterton: We will shortly be consulting with patients' forums about the nature of the support provided to them in the future. The details of the future arrangements will be developed after this consultation has taken place.

General Practitioners

Sue Doughty: To ask the Secretary of State for Health how many full-time general practitioners were working for the NHS in each primary care trust in the Surrey and Sussex Strategic Health Authority in each year since 1997. [188176]

Ms Rosie Winterton: The number of full-time general practitioners working for the national health service in each primary care trust in the Surrey and Sussex Strategic Health Authority in each year since 1997 is shown in the table.

Health Forums

Mr. Drew: To ask the Secretary of State for Health what plans he has to reform the procedures for the selection and appointment of members to health forums. [188390]

Ms Rosie Winterton: We intend that responsibility for making appointments to patients' forums will be transferred to the NHS Appointments Commission (NHS AC). We will be working with the NHS AC, patients' forums, the Commission for Patient and Public Involvement in Health and other interested parties to consider the detail of future selection and appointment procedures.

Health Services (Teesside)

Dr. Evan Harris: To ask the Secretary of State for Health whether the University hospital of Hartlepool is compliant with the European Working Time Directive; and what steps are being taken to ensure it is compliant. [188815]

Miss Melanie Johnson *[holding answer 14 September 2004]:* The Working Time Directive (WTD) is a legal requirement on which implementation is being taken forward locally.

Validated information relating to individual trusts is not collected centrally. The WTD is a legal requirement and strategic health authorities are working with their trusts to support delivery.

Dr. Evan Harris: To ask the Secretary of State for Health (1) whether he has *(a)* received and *(b)* reconsidered the draft consultation document on the future of North Tees and Hartlepool Hospital Services produced by the Tees Services Review; [188816]

(2) whether the University Hospital of Hartlepool at Holdforth Road will continue to provide *(a)* in-patient paediatrics, *(b)* consultant-led obstetric deliveries, *(c)* emergency surgery and *(d)* accident and emergency services for trauma and major injuries after the implementation of the Tees Services Review; [188817]

(3) what terms of reference he has issued to Professor Dargi regarding the planned review of hospital services by the Tees Health Services Review. [188818]

Mr. Hutton *[holding answer 14 September 2004]:* I am aware of the thinking emerging from the Tees Services Review. The Department has asked Professor Ara Darzi to carry out a further review, working with the County Durham and Tees Valley Strategic Health Authority. Professor Darzi's terms of reference are:

> To consider how the fullest possible range of services can be maintained at Hartlepool Hospital, taking into account work already undertaken in the course of the Tees Services Review and the wider context of proposed provision of primary and secondary care services, both north and south of the Tees; to report by the end of October 2004.

Proposals for the future of health services in the Tees Valley will be developed further in the light of Professor Darzi's work. This will include detailed proposals for services to be provided at Hartlepool Hospital. Consultation of the public and patients will then follow.

As my right hon. Friend the Secretary of State has already confirmed—8 June 2004, *Official Report*, column 132—Hartlepool will still have a full and proper hospital service after the review has taken place.

Health Services (Torbay)

Mr. Sanders: To ask the Secretary of State for Health how many NHS patients were registered with GPs in the Torbay Primary Care Trust area in each of the last five years for which figures are available. [188135]

Ms Rosie Winterton: The number of national health service patients registered with general practitioners in the Torbay Primary Care Trust area for the last five years is shown in the table.

Patients of Unrestricted Principals and Equivalents (UPEs)[1] *for Torbay Primary Care Trust Group*

Number

	Torbay PCT 5CW	*Torbay PCG* 4FC69
1999	n/a	137,830
2000	n/a	137,613
2001	140,471	n/a
2002	140,790	n/a
2003	142,209	n/a

n/a = not available.

[1] UPEs include general medical service unrestricted principals, personal medical service (PMS) contracted GPs and PMS salaried GPs.

Notes:

Data as at 1 October 1999 and 30 September 2000–03.

2003 patient data has been revised from previously published figures.

Source:

Department of Health general and personal medical services statistics.

Healthy Living Centres

Mr. Don Foster: To ask the Secretary of State for Health how much Exchequer funding has been received by healthy living centres since 1999, broken down by region; and if he will make a statement. [188744]

Miss Melanie Johnson: Healthy living centres (HLCs) are funded by the Big Lottery Fund programme and do not receive funding from the Department. Many HLC plans included funds from statutory bodies, including the national health service and local authorities. The amounts actually provided and the regional distribution are not held centrally.

Mr. Don Foster: To ask the Secretary of State for Health how many healthy living centres have *(a)* opened, *(b)* closed and *(c)* have discussed the possibility of closure with his Department since 1999; and if he will make a statement. [188745]

Miss Melanie Johnson: 257 Big Lottery Fund healthy living centres have opened in England. One has closed and two have discussed the possibility of closure with their regional director of public health.

Hospices

Jeff Ennis: To ask the Secretary of State for Health how much financial support *(a)* adult and *(b)* children's hospices have received in the past three financial years from social services departments. [188572]

Miss Melanie Johnson: The Department does not centrally collate information on about how much financial support hospices received from social services departments.

The latest estimate we have available (from 2000) is that, on average, the national health service funds 28 per cent. of adult and 5 per cent. of children's hospice costs. However, this predates the allocation of an additional £50 million per annum for adult palliative care, which began in 2003–04, representing an increase of about 40 per cent. Funding the services provided by hospices is a matter for negotiation between the hospice concerned and the NHS primary care trusts to which the hospice provides a service. There are no limits to the amount of funding which may be provided; this is for local decision.

Knowledge Management System

Mr. Drew: To ask the Secretary of State for Health what plans he has to maintain the knowledge management system when the Commission for Patient and Public Involvement in Health is wound up. [188389]

Ms Rosie Winterton: We are working with the Commission for Patient and Public Involvement in Health (CPPIH) to identify ways of utilising the knowledge management system once the CPPIH has been abolished.

Lymphoedema Clinics

Mr. Drew: To ask the Secretary of State for Health what access there is to lymphoedema clinics in each primary care trust in the Avon, Gloucestershire and Wiltshire strategic health authority area. [188393]

Ms Rosie Winterton: The information requested is not collected centrally.

It is the responsibility of primary care trusts to commission services to meet the health needs of their local communities.

Military Low Flying

Adam Price: To ask the Secretary of State for Health what assessment he has made of the effects of military low flying on *(a)* hearing and *(b)* other long-term health issues. [188582]

Miss Melanie Johnson: The Department has not funded any research or assessment of the effects of military low flying on hearing and other long-term health issues.

Myasthenia Gravis

Mr. Caton: To ask the Secretary of State for Health (1) what plans his Department has to increase the numbers of consultants and doctors qualified to diagnose myasthenia gravis; [188630]

(2) what plans his Department has to increase the number of nurses qualified to care for patients diagnosed with myasthenia gravis. [188631]

Mr. Hutton: Information on the number of consultants, doctors and nurses specifically qualified to diagnose and treat myasthenia gravis is not collected centrally.

As at March 2004, there were 427 consultants in neurology. Since September 1997, numbers have increased by 149, or 54 per cent., and we are working towards increasing their numbers further.

We are encouraging more doctors to practise neurology by expanding the number of specialist registrar (SpR) opportunities in the specialty.

In 2003–04, central funding was distributed to support the implementation of 10 additional SpR posts in neurology. All the posts have now been implemented. Trusts also have the opportunity to create up to 20 locally funded SpR training opportunities. Trusts were surveyed in February 2004, when six locally funded opportunities had been implemented, with the remaining 14 planned to have been implemented by August 2004.

In 2004–05, neurology has been allocated a further two centrally funded posts and strategic health authorities have been given freedom to agree as many

additional SpR training opportunities as are necessary to achieve Working Time Directive compliance, subject to obtaining educational approval.

The number of nurses overall employed in the national health service has increased by 77,500 since 1997 and we are increasing the number of training places for nurses and midwives. Between 1996–97 and 2003–04, the number of students entering training to become a nurse or midwife has increased by 9,300, or 62 per cent.

NHS Purchasing and Supply Agency

Mr. Oaten: To ask the Secretary of State for Health what long-term plans he has for the NHS Purchasing and Supply Agency. [187118]

Ms Rosie Winterton: Proposals for the reconfiguration of the National Health Service Purchasing and Supply Agency (NHS PASA) are outlined in a report, "Reconfiguring the Department of Health's Arm's Length Bodies", published on 22 July 2004. It is proposed that NHS PASA will be reshaped as part of a major programme to support the NHS in handling purchasing and supply more effectively. The Department's commercial directorate has developed plans to streamline the supply chain in the NHS. As these plans are implemented, a transformed NHS PASA will play a crucial role in applying procurement best practice to maximise savings. NHS PASA should be able to take on procurement and contracting functions from other arm's length bodies (ALBs), helping to reduce the cost of the ALB sector.

Osteoporosis

Sue Doughty: To ask the Secretary of State for Health (1) when the national screening committee plans to review its advice on osteoporosis screening; [188182]

(2) what plans he has to introduce screening for osteoporosis by means of DEXA scan for those who have specified risk factors for osteoporosis; and if he will make a statement. [188183]

Dr. Ladyman: The United Kingdom national screening committee (NSC) advises Ministers about all aspects of screening policy. The NSC assesses proposed new population screening programmes against a set of internationally recognised criteria covering the condition, the test, the treatment options and effectiveness and the acceptability of the screening programme.

The current NSC policy is that there is insufficient evidence to offer population screening for osteoporosis. The National Institute for Clinical Excellence (NICE) has however commissioned a clinical guideline on the prevention, treatment and assessment of osteoporosis for those who have risk factors. The NSC will review its policy on population screening when NICE has published its clinical guideline.

Parliamentary Questions

Paul Farrelly: To ask the Secretary of State for Health when he will answer questions *(a)* 187359, *(b)* 187360 and *(c)* 187361 tabled by the hon. Member for Newcastle-under-Lyme on 22 July for answer on 7 September. [189269]

Mr. Hutton: I replied to my hon. Friend on Tuesday 14 September 2004.

Personal Social Services

Brian Cotter: To ask the Secretary of State for Health what the average standard spending assessment/formula spending share funding per head has been for personal social services in *(a)* England and *(b)* North Somerset in each year since 1997. [188661]

Dr. Ladyman: The personal social services average standard spending assessment/formula spending share (SSA/FSS) allocation per head of total population is shown in the table.

£

	England	*North Somerset*
1997–98	152	127
1998–99	160	135
1999–2000	169	139
2000–01	177	146
2001–02	181	150
2002–03	186	155
2003–04	224	187
2004–05	246	208

Note:
The figures are based on the latest available national and sub-national population estimates, which are derived from the 2001 census.

The comparison shows that North Somerset's funding is always less than the England average. Each authority's SSA/FSS allocation depends on a number of factors including whether it has a large or small population, and whether it suffers from relatively high levels of need and deprivation. As a result an authority with a large population and much deprivation receives a far higher funding share than a smaller authority that has relatively low levels of need and deprivation.

Private Sector Treatment

Bob Russell: To ask the Secretary of State for Health whether there are medical conditions which the national health service will not treat if the patient has previously paid for the same treatment in the private sector. [188932]

Mr. Hutton: The national health service would generally pay for any treatment that a patient had previously received as a private patient, so long as it is a treatment normally provided by the NHS and there is appropriate clinical approval.

Specialist Drug Support

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what measures are to be introduced to allow general practitioners easier access to specialist drug support for their patients. [182292]

Miss Melanie Johnson: The National Treatment Agency (NTA) for substance misuse has introduced a number of measures to allow general practitioners easier access to specialist drug support for their patients.

The NTA issued guidance to local drug treatment commissioners to ensure that enough drug treatment places are commissioned in line with the NTA guidance "Models of Care" and that each local area has identified referral criteria and routes between primary care and drug treatment specialist services.

Since the introduction of the new general practitioners' contractual arrangements in April 2004, the NTA regional teams have worked hard to ensure that most drug action teams have in place a range of contractual arrangements which specify partnership and support arrangements between primary care and specialist drug treatment services. These include nationally enhanced service contracts and local enhanced service contracts.

The Royal College of General Practitioners also has a range of training courses funded by the Department to train GPs to properly identify, refer and provide treatment for drug misusers.

Temporary Clerical and Administration Staff

Mr. Flook: To ask the Secretary of State for Health pursuant to his answer of 1 September 2004 to question reference 185185, on temporary clerical and administration staff, if he will list the benefits to hospital and primary care trusts of using the national framework agreement when hiring temporary clerical and administration staff. [188005]

Mr. Hutton *[holding answer 13 September 2004]:* The use of national framework agreements (NFAs) brings a number of benefits to the national health service, for example:

Competitive commission rates.

Ensuring competitive pay rates for all temporary workers.

The individual trusts no longer have to go through their own tender exercise.

It ensures vetted and verified quality procedures for all agencies.

It provides pre-written specifications and terms and conditions.

The NFA continues to allow trusts the flexibility to form local service level agreements to ensure local variations are accounted for.

The availability of individual trust management information, enabling identification and management of expenditure.

The independent monitoring and review of the NFA and agencies by the NHS Purchasing and Supply Agency.

A choice of nine quality providers offering a comprehensive service and assistance with contract administration.

The assurance that all European Union procurement legislation has been complied with.

DEFENCE

C17

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many hours the lease contract provided for the Royal Air Force to operate fleet of C17s in each year; and how many flying hours the fleet flew in each six monthly period since it entered service with the Royal Air Force. [188462]

Mr. Ingram: The lease contract for the RAF's four C-17 aircraft does not restrict the number of flying hours. However, the support arrangements were initially based on an assumed annual fleet usage rate of 3,000 hours; this has been increased to 5,800 hours per annum in response to operational demands.

The C-17 fleet entered Royal Air Force service in September 2001. Since that time, the fleet has flown in excess of 17,000 hours, broken down as follows:

	Flying hours
September 2001 to February 2002	2,159
March 2002 to August 2002	3,089
September 2002 to February 2003	2,374
March 2003 to August 2003	3,986
September 2003 to February 2004	2,788
March 2004 to August 2004	3,071

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the total cost, including the lease, support, manpower and fuel, of operating the fleet of leased C17s was for each six monthly period since it entered service with the Royal Air Force; and what the budgeted cost of each six monthly period was when the lease contract was agreed. [188466]

Mr. Ingram: The following information on the lease and support costs is taken from the Major Project Report (MPR). Information about the lease contract is not recorded historically on a six monthly basis:

	£ million
2001–02	88
2002–03	104
2003–04	102

Over the same period, the total manpower and fuel costs to operate and support the fleet are 21 million and 31 million respectively, broken down as follows:

£ million

	Manpower	*Fuel*
September 2001 to February 2002	3.4	3.5
March 2002 to August 2002	3.5	5.2
September 2002 to February 2003	3.5	4.2
March 2003 to August 2003	3.6	7
September 2003 to February 2004	3.9	5.2
March 2004 to August 2004	3.9	6.6

I am withholding details of the lease costs and underlying aircraft price in accordance with Exemption 13 of the Code of Practice on Access to Government Information as they are commercially sensitive.

Coastal Protection (Northern Ireland)

Mr. Dodds: To ask the Secretary of State for Defence what the costs were of coastal protection vessels in Northern Ireland waters in each year since 1997. [187418]

Mr. Ingram: The Northern Ireland patrol ships do not have distinct, identifiable budgets and the figures could only be collated at a disproportionate cost.

Defence Aviation Repair Agency

Annabelle Ewing: To ask the Secretary of State for Defence when he plans to announce the final decision on the end-to-end review as it relates to the Defence Aviation Repair Agency. [189318]

Mr. Ingram: I refer the hon. Member to the written statement I made earlier today to the House, on the outcome of the Air Depth Support Investment Appraisal work.

European Defence Policy

Ann Winterton: To ask the Secretary of State for Defence if he will make a statement on how much *(a)* manpower and *(b)* finance of the UK's national defence will be tied into the European defence policy. [188795]

Mr. Hoon: Under the Helsinki Headline Goal, the United Kingdom has offered up to 12,500 troops, 18 warships and 72 combat aircraft to EU operations. However, these national forces are made available to EU operations on a voluntary, case-by-case basis, as for NATO or UN operations. UK contributions to such operations are provided from within existing forces.

European Rapid Defence Force

Ann Winterton: To ask the Secretary of State for Defence what forward level of *(a)* manpower and *(b)* financial commitment has been assigned to the European Rapid Defence Force. [188792]

Mr. Ingram: There is no European Rapid Defence Force. National forces declared under the Helsinki Headline Goal are made available to EU operations on a voluntary, case-by-case basis, as for NATO or UN operations. UK contributions to such operations are provided from within existing forces.

Fishery Protection Vessels

Ann Winterton: To ask the Secretary of State for Defence when he will propose a plan of renewal for Royal Navy fishery protection vessels. [188800]

Mr. Ingram: At present, I have no plans for such a proposal.

Future Aircraft Carrier

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to his written statement of 19 July 2004, *Official Report*, column 1WS, on the Future Aircraft Carrier, what role his Department will play in the proposed alliance on the CVF Programme; and what proportion of the risk he estimates his Department will assume. [186642]

Mr. Hoon: Discussions continue with a view to agreeing the roles and responsibilities of Alliance participants, including the risk and reward share arrangements. These are progressing well, the outcome will be announced in due course.

It is planned that an Alliance Management Board (AMB) comprising the leaders of each participant organisation, will lead and collectively manage the project. As in commercial alliancing, the AMB will be led by the MOD as the client.

Iran

Mr. Bercow: To ask the Secretary of State for Defence what action his Department is taking to ensure the return of the Royal Naval marine equipment and weapons held by the Iranian authorities. [188352]

Mr. Ingram: Ministry of Defence Ministers, FCO Ministers and officials continue to press the Iranian authorities to return the boats and equipment, which they hold. Any significant developments will be announced in the House in the usual way.

Iraq

Mr. Bercow: To ask the Secretary of State for Defence what steps his Department is taking to ensure the safety of United Kingdom personnel in Iraq following the transfer of sovereignty. [188318]

Mr. Ingram: United Kingdom military personnel are thoroughly trained before deployment to Iraq and appropriately equipped to allow them to perform the tasks expected of them in theatre.

Mr. Bercow: To ask the Secretary of State for Defence what assessment his Department has made of the required numbers of Iraqi *(a)* armed forces, *(b)* police, *(c)* civil defence corps and *(d)* border police. [188353]

Mr. Ingram: We are working with the Multinational Security Transition Command (MNSTC) and the Iraqi authorities to review the required future manning levels for the Iraqi security forces. The MNSTC currently assesses that the future strength of the Iraqi armed forces will be approximately 100,000; of the police, 135,000; of the Iraqi national guard, 62,000; and of the Department for Border Security, 32,000. These figures remain under regular review.

Mr. Bercow: To ask the Secretary of State for Defence what plans he has to increase assistance by his Department to the Government of Iraq in its efforts to improve security. [188357]

Mr. Ingram: There are currently no plans to increase the substantial support that the Department is providing to the Iraqi Interim Government in its efforts to improve security, although we keep the situation under constant review.

Mr. Soames: To ask the Secretary of State for Defence whether at any stage during June, July or August he imposed a ban on press access to or news coverage of British forces serving in the Iraq theatre of operations. [188594]

Mr. Ingram *[holding answer 13 September 2004]*: The Ministry of Defence has not banned access to, or news coverage of, British forces in Iraq. Sponsored media representatives accompanying British forces in Iraq have, on occasion, had temporary restrictions placed upon their movement, either for their own safety and that of the forces protecting them, or because their reporting could put our personnel at risk.

Mr. McNamara: To ask the Secretary of State for Defence how many Iraqi detainees are held by British troops. [189325]

Mr. Ingram: As at 14 September 2004, there were no detainees, although 26 internees were being held by British troops in Iraq.

Mess Services

Mr. Gordon Prentice: To ask the Secretary of State for Defence what plans he has to introduce mess services common to all ranks; and if he will make a statement. [188570]

Mr. Ingram: Although there are initiatives exploring the possibilities of combining the catering support facilities on bases, there are no plans to introduce messes common to all ranks. The separate messes for officers, senior non-commissioned officers and junior ranks allow individuals to relax and interact within their respective peer groups, and they remain an integral feature of Service life.

Scottish Regiments

John Thurso: To ask the Secretary of State for Defence what the *(a)* establishment, *(b)* funded liability and *(c)* actual strength is of (i) the Highlanders, (ii) the Black Watch, (iii) the Royal Scots, (iv) the Royal Highland Fusiliers, (v) the King's Own Scottish Borders, (vi) the Argyll and Sutherland Highlanders, (vii) the Royal Scots Dragoon Guards and (viii) the Scots Guards. [183824]

Mr. Caplin *[holding answer 13 July 2004]:* Funded liabilities are not broken down below Intermediate Management Group (IMG). The establishment and actual strength of each of the Scottish Regiments, are as follows:

2004	*Establishment*	*Trained strength*
Highlanders[1]	625	525
Black Watch[2]	675	635
Royal Scots	630	555
Royal Highland Fusiliers	630	580
Kings Own Scottish Borderers	670	585
Argyll and Sutherland Highlanders	615	570
Royal Scots Dragoon Guards[3]	500	490
Scots Guards	625	600
F Coy Scots Guards	110	110

[1] Strength totals for 2004 exclude Gurkhas attached to the regiment. There were two in January 2004.

[2] Black Watch totals exclude BW LAD REME.

[3] RSDG totals exclude RSDG LAD REME.

Notes:

1. The figures are at 1 January 2004.
2. All figures have been rounded to the nearest five.
3. Totals are for Regular Army officers and soldiers.
4. FTRS have been excluded.
5. Totals include members of other cap badges, including those of arms/services attached to the unit, but exclude the two REME LADs attached to BW and SDG.
6. Establishment and strength figures refer to the respective units* and do not include cap badge strength permanently employed elsewhere within the Army.

* That is 1st Battalion The Highlanders, 1st Battalion The Black Watch, 1st Battalion The Royal Scots, 1st Battalion The Royal Highland Fusiliers, 1st Battalion The Kings Own Scottish Borderers, 1st Battalion The Argyle and Sutherland Highlanders, The Royal Scots Dragoon Guards, 1st Battalion the Scots Guards and F Company Scots Guards.

Service Deployment

Mr. Gerald Howarth: To ask the Secretary of State for Defence what percentage of *(a)* Royal Navy and Royal Marines, *(b)* Army and *(c)* Royal Air Force trained strength was deployed on operations and other militar tasks for (i) the final quarter of financial year 2003–04 an (ii) the first two quarters of financial year 2004–05. [1884

Mr. Ingram: Information on trained strengt deployed on Operations and other Military Tasks produced quarterly, in arrears, as part of the Ministry o Defence's assessment of performance against Spendin Review 2002 Public Service Agreement targets. It published on the MOD website (www.mod.uk following review by the Defence Management Board and on the Treasury Public Service Performanc Reporting website (http://www.hm-treasury.gov.uk performance/MOD.cfm). Quarter 4 data for 2003–0 (January to March 2004) is given in the table (and available on the MOD and HMT websites):

Percentage of trained strength deployed on operations and other military tasks

	2003–0
	Q
Navy/Marines	17.
Army	22.
RAF	12.

Note:

Percentages exclude those either preparing for, or recoverin from, deployments and are quarterly averages. A list of Militar Tasks can be found on the Department's website (http: www.mod.uk).

Quarter 1 data for 2004–05 (April to June 2004) i currently being collected, and will be published at th end of September. We expect to publish Quarter 2 data for 2004–05 (July to September 2004) at the end o November.

Territorial Army Personnel

Ann Winterton: To ask the Secretary of State for Defence what pension provision is made for Territorial Army personnel who are away from their civilian work for periods of six months or longer. [188801]

Mr. Caplin: The Ministry of Defence has arrangements in place to ensure that reservists who are called-out for active service with the armed forces, including those called out for periods of six months or longer, are not disadvantaged in pension terms. Individuals may have a number of pension options dependent on their personal circumstances:

those individuals who wish to remain in their civilian pension scheme during their period of called-out service can do so and the MOD will meet the cost of the employer contribution to that scheme; or

individuals may opt to have their period of called-out service covered by MOD's Full Time Reserve Service pension arrangements; or

they can opt to be contracted-in to the state pension arrangements (State Second Pension).

Those individuals who have previous service that gave them pension rights from the Armed Forces Pension Scheme (AFPS) may alternatively opt for an enhancement to their AFPS pension rights.

Trooper David Clarke

Mr. Kidney: To ask the Secretary of State for Defence what progress he has made in the investigation of the

death of Trooper David Clarke; what communications he has had with the family of Trooper David Clarke about the progress of the investigation; and if he will make the results of the investigation public. [188585]

Mr. Caplin: The Royal Military Police Special Investigation Branch (SIB) have completed an investigation into the incident in which Trooper (Tpr) Clarke and his colleague Corporal Allbutt died. An Army Board of Inquiry (BOI) is ongoing.

It is not departmental policy to release publicly copies of either SIB or BOI reports. However, regular contact is being maintained with Tpr Clarke's family, who are informed of all significant developments on the various processes under way. The family will receive a copy of the final BOI report when this becomes available.

Vaccination

Mr. Hancock: To ask the Secretary of State for Defence what research his Department *(a)* commissioned and *(b)* evaluated on the simultaneous administration of anthrax and pertussis vaccine following the letter from Dr. Metters of 21 December 1990; and if he will make a statement. [174196]

Mr. Caplin: Research into the simultaneous administration of anthrax and pertussis vaccines is being addressed as part of the Ministry of Defence's Vaccines Interactions Research Programme, which is overseen by an independent research panel. The Programme includes a study by the National Institute for Biological Standards and Control (NIBSC) which has specifically attempted to address and extend tests that NIBSC carried out using anthrax and pertussis vaccines in 1990, and which led to the communication from Dr. Metters.

The preliminary results from the NIBSC study have been published and are available on our website at http://www.mod.uk/issues/gulfwar/research/interact.htm. The final results are being submitted for publication in peer reviewed scientific literature.

PRIME MINISTER

Iraq

Adam Price: To ask the Prime Minister whether he authorised British military personnel to commence meetings with US personnel to plan an invasion of Iraq in mid 2002. [188706]

The Prime Minister: As set out in the Butler Report, the UK and US Governments had frequent discussions about Iraq.

However, the decision to resort to military action to ensure that Iraq fulfilled its obligations imposed by successive UN Security Council Resolutions was taken only after other routes to disarm Iraq had failed. I decided to commit UK forces after securing the approval of the House in the vote on 18 March 2003.

Adam Price: To ask the Prime Minister (1) pursuant to paragraph 404 of the Butler Report, on what *(a)* operational, *(b)* security and *(c)* other basis the Government decided against favouring sources regarded as reliable by the intelligence services that tended to present a less worrying view of Iraqi chemical and biological weapons capability; [188622]

(2) at what point he was informed that two thirds of the total amount of intelligence about Iraqi deception and concealment activities came from a single source; [188623]

(3) at what point he was informed that over four fifths of the intelligence about Iraqi deception and concealment activities came from two sources; [188624]

(4) at what point he was informed that human intelligence sources regarding the evidence of Saddam Hussein on weapons of mass destruction were not extensive; [188625]

(5) whether he had been informed prior to September 2002 of the reliability of the sub-sources who provided the information that Iraq could use chemical and biological weapons of some sort within 45 minutes; [188635]

(6) on which parts of the Joint Intelligence Committee assessments from or prior to March 2002 his statement on 3 March 2002 that Iraq was trying to accumulate weapons of mass destruction was based; [188636]

(7) on which parts of the Joint Intelligence Committee assessments from or prior to March 2002 his statement on 11 March 2002 that there was a threat from Saddam Hussein was based; [188637]

(8) on which parts of the Joint Intelligence Committee assessments from or prior to March 2002 his statement on 11 March 2002 that there was no doubt at all that Saddam Hussein had acquired weapons of mass destruction was based; [188638]

(9) on which parts of the Joint Intelligence Committee assessments from or prior to April 2002 his statement on 3 April 2002 that Iraq had stockpiles of major amounts of chemical and biological weapons was based; [188639]

(10) whether Joint Intelligence Committee assessments from March and April 2002 made definitive claims on the *(a)* existence of stockpiles of weapons and *(b)* development of weapons with regard to Iraq; [188640]

(11) what assessments were provided to him before or during March 2003 from UNMOVIC which suggested that Iraq had far-reaching plans to weaponise VX after 1991; [188846]

(12) what intelligence assessment was available to him on *(a)* 30 May 2003 and *(b)* 2 June 2003 which indicated that trailers found in Iraq were used for the production of biological weapons; [188847]

(13) when he was informed of the content of the overall summary provided by the Executive Chairman of UNMOVIC to the Security Council on 7 March 2003 regarding the extent of Iraq's co-operation with the UN inspectors; [188848]

(14) when he was informed that UNMOVIC had been able to obtain information on Iraq's past mycotoxin programme; [188858]

(15) whether the UNMOVIC Clusters document of March 2003 suggested that Iraq had far-reaching plans to weaponise VX in any period after 1991; [188859]

(16) what assessment was made of the possibility that stocks of growth media which UNSCOM had reported as still unaccounted for in its final substantive report of January 1999 still existed; [188867]

(17) at what point he became aware *(a)* that the Executive Chairman of UNMOVIC had told the Security Council that Iraqi scientists had agreed to be interviewed in private and *(b)* that the Director General of the International Atomic Energy Agency had been successful in conducting interviews with Iraqi scientists in private; [188868]

(18) when he became aware of the contents of the Executive Chairman of UNMOVIC's briefing to the Security Council of 14 February 2003 which stated that the Government of Iraq had encouraged interviewees not to request the presence of Iraqi officials nor to require interviews to be taped; [188869]

(19) when he became aware that UN weapons inspectors had confirmed that evidence had been provided for the prior destruction of chemical and biological warfare agents in *(a)* November 2002, *(b)* December 2002 and *(c)* February 2003; [188870]

(20) which parts of the Joint Intelligence Committee intelligence assessments led him to state on 10 April 2002, *Official Report*, column 11, that Iraq posed a threat to the wider world; [188871]

(21) when British intelligence experts investigated the two trailers found in Iraq; [188873]

(22) when intelligence findings were circulated regarding the two trailers found in Iraq; [188874]

(23) when weapons inspectors found live anthrax in Iraq as referred to in his article in the Independent on Sunday of 2 March 2003; and what evidence he had to confirm that discovery; [188875]

(24) when he was informed that the factory at which anthrax had been produced before 1991 to which he refers in his article in the Independent on Sunday of 2 March 2003 had been under UN monitoring since October 1991; [188876]

(25) whether, prior to the war, Iraq's intention to use nuclear, biological and chemical weapons outside its borders, either by the Iraqi armed forces or through the supply of such weapons to non-state actors, prior to any military attack, had been investigated by the British intelligence service; [188902]

(26) what assessment he made of whether to inform Parliament prior to March 2003 of Hans Blix's report to the Security Council of 14 February 2003, on access to Iraqi sites; [188938]

(27) when he became aware of Hans Blix's report to the UN Security Council on 14 February 2003 on access to Iraqi sites; [188939]

(28) pursuant to paragraph 405 of the Butler Report, when he became aware that in July 2003 the Special Intelligence Service had withdrawn two reports from a new source on trial because the source had by then been discredited; [188940]

(29) when he became aware of UNMOVIC's conclusions on *(a)* the fate of the castor oil extraction plant at Fallujah III in 1998 and *(b)* the extent of production of castor oil in July 2001; [188965]

(30) when he became aware of UNMOVIC's conclusions on the operability of the chlorine plant at Fallujah II, following visits between 9 December 2002 and 2 March 2003; [188989]

(31) when he became aware of the extent to which UNMOVIC has visited the Fallujah II plant between 9 December 2002 and 2 March 2003; [188990]

(32) what intelligence material was available to him to cast doubt upon Dr. Blix's statement on the usefulness of the Iraqi declaration of 8 December 2002; [188998]

(33) how many days it took the Defence Intelligence Staff to complete their initial assessment of the 12,000 page Iraqi declaration of 8 December 2002; [188999]

(34) whether he was aware that drafted statements which conveyed that Iraq would only be likely to use chemical and biological weapons during an invasion were removed from the September 2002 dossier; [189001]

(35) on what evidence he based his claims in the September dossier that the production of nitric acid in the al-Sharqat complex was being used for the purification of uranium; [189004]

(36) what assessment he made of the report by the director general of the International Atomic Energy Agency to the Security Council on 7 March 2003 on whether there was an indication of resumed nuclear activity in Iraq; [189005]

(37) when he became aware of the views of the director general of the International Atomic Energy Agency on the level of nuclear activity in any of the sites inspected as passed to the Security Council on 7 March 2003; [189006]

(38) when he was made aware that the statements in the September dossier on Iraq about mobile biological laboratories were based upon evidence from one defector; [189007]

(39) when he became aware of the results of the findings by UNMOVIC following examination of the sites named in the September dossier, with regard to nuclear, chemical and biological weapons programmes; [189008]

(40) pursuant to paragraph 403 of the Butler Report, when he became aware that the Secret Intelligence Service had raised serious doubts about the reliability of reporting of the sub-source who provided information about Iraqi chemical and biological programmes and intentions; [189009]

(41) on what evidence he based his statement on 2 June 2003 that he stood by the evidence presented to the public on Iraq's weapons programme; [189010]

(42) on what grounds he based his statement to the Liaison Committee on 8 July 2003 that he stood by the evidence put forward in the September dossier; [189011]

(43) on what evidence he based his views, expressed to journalists in his monthly press conference on 30 July 2003, that he believed the intelligence he had received prior to the war regarding Iraq was correct; [189012]

(44) whether he was aware on 25 January that MI6 had withdrawn key reports on Iraq's weapons; [189013]

(45) on what evidence he based his statement in an interview with *The Observer* on 25 January that he believed that the intelligence regarding Iraq was correct; [189014]

(46) when he became aware that Hussein Kamel had claimed in 1995 that there were no remaining stockpiles of agents in Iraq; [189015]

(47) at what point he became aware that the interim report of the Iraqi Survey Group published on 2 October 2003 had not come to a conclusion regarding the purpose of the clandestine laboratories and safe houses within the Iraqi Intelligence Service; [189016]

(48) when he became aware that an e-mail had been sent from the then chair of the Joint Intelligence Committee to the head of the Iraq Survey Group (ISG), with suggestions for the ISG report; [189017]

(49) pursuant to Joint Intelligence Committee assessments, when he became aware that British Intelligence assessments prior to March 2003 stated that a collapse of the Iraqi regime would increase the risk of chemical and biological warfare technology or agents finding their way into the hands of terrorists; [189018]

(50) whether there was an assessment of the validity of the material in the dossier of September 2002 between November 2002 and March 2003; [189019]

(51) pursuant to the inter-departmental advice available to Ministers in early March 2002, what intelligence assessments were available to him in *(a)* April 2002 and *(b)* September 2002 that showed that Iraq posed a threat not just to its neighbours but to the wider world; [189020]

(52) whether intelligence assessments relating to Iraq in 2002 and 2003 made reference to an intention by Iraq to use nuclear, biological and chemical weapons outside its borders *(a)* by the Iraqi armed forces and *(b)* through the supply of such weapons to non-state actors even if Iraq itself was not attacked; [189021]

(53) whether, prior to the war on Iraq, intelligence assessments confirming Iraq's intention to use nuclear, biological and chemical weapons existed that did not relate to Iraq's likely response if it were invaded; [189022]

(54) whether any Joint Intelligence Committee assessments prior to March 2003 asserted that Iraq had the intention to use nuclear, biological and chemical weapons outside its borders, with the exception of the circumstance of a US-led attack; [189023]

(55) prior to March 2003 and pursuant to the Joint Intelligence Committee assessment of 9 September 2002, what assessment the British intelligence service made of the possibility of Iraq threatening to use weapons of mass destruction against other states other than in the context of a US-led invasion; [189024]

(56) what assessments were made by the British intelligence services of whether Iraq sought nuclear, biological and chemical weapons for the purpose of external aggression; [189025]

(57) pursuant to his statement at the TUC conference on 10 September 2002, whether assessments had been made of the possibility that stocks of growth media that UNSCOM had reported as still unaccounted for in its final substantive report of January 1999 no longer existed in usable form; [189026]

(58) pursuant to his speech at the Azores summit on 16 March 2003, when he was informed that UN weapons inspectors had confirmed that evidence had been provided for the prior destruction of chemical and biological warfare agents in *(a)* November 2002, *(b)* December 2002, *(c)* February 2003 and *(d)* March 2003; [189027]

(59) when he was informed that assessments were available before March 2003 which demonstrated that there was a distinction between the materials that UNMOVIC found to be unaccounted for and what was known to exist in Iraq; [189028]

(60) what part of the Joint Intelligence Committee intelligence assessments led him to state on 3 September 2002 that Iraq posed a threat to the security of the world; [189029]

(61) on what evidence it was stated in the September dossier that Iraq was conducting an illicit chemical weapons programme at the Fallujah II plant; [189030]

(62) pursuant to his statement of 18 March 2003, *Official Report*, columns 760–74, on Iraq, with particular reference to the Iraqi declaration of 8 December 2002, whether he made an assessment of the merits of requesting that Defence Intelligence staff make a full assessment on the Iraqi declaration before making further comment upon it; [189041]

(63) whether the new sub-source referred to in paragraph 403 of the Butler Report was the source for the claim made in the September 2002 dossier that Iraq's weapons of mass destruction could be deployed in 45 minutes. [189296]

The Prime Minister: These matters have been examined during the course of the Butler Review and other inquiries, and covered during debates and statements on Iraq and in briefings by my Official Spokesman. All relevant information has been placed in the public domain insofar as that could be done without prejudicing national security.

Written Answers to Questions

The following answers were received between Friday 17 September and Thursday 30 September 2004

INTERNATIONAL DEVELOPMENT

CDC/Actis Capital

Gregory Barker: To ask the Secretary of State for International Development whether external consultants have advised CDC/Actis Capital on the Higaturu Oil Palms investment since 1999; and whether the deal team identified specific areas of concern regarding impact on *(a)* the environment, *(b)* indigenous cultures and *(c)* employed smallholders. [188968]

Hilary Benn: Several external consultants have advised CDC on Higaturu Oil Palms since 1999. All have made recommendations for further improvement of Higaturu's environmental management, which have been incorporated into Higaturu's environmental management plan. None of them identified areas of concern that had not already been recognised or were not part of ongoing management.

Gregory Barker: To ask the Secretary of State for International Development if he will list CDC/Actis Capital's expenditure on *(a)* corporate executive and *(b)* department staff development and team building exercises in each year since 2002. [189059]

Hilary Benn: CDC's expenditure on *(a)* Corporate Executive and *(b)* department staff development and team building exercises from 2002 until the end of June was as follows:

£ million

	Corporate executive	*Staff development and team building*
2002	0.2	0.2
2003	0.2	0.1
2004 (end June)	0.1	0.1

These figures do not include expenditure incurred by Actis since its demerger from CDC earlier this year. As Actis is an independently managed business, in which HMG is only a minority shareholder, it is inappropriate for me to comment on the internal affairs of the business.

Gregory Barker: To ask the Secretary of State for International Development if he will list CDC/Actis Capital public relations consultant expenditure since 1997, broken down by project. [189066]

Hilary Benn: CDC retained a UK public relations agency in 1997 and 1998, but stopped its services in mid 1999. Fees paid were minimal.

Another UK public relations agency was employed in late 2002 and its services were used until April 2004. The costs of the services of this agency were £30,667 in 2002 and £113,512 in 2003. A breakdown by project is not possible as neither agency was retained on a project-specific basis. CDC has not retained any PR consultants since then.

These figures do not include any expenditure incurred by Actis on public relations since its demerger from CDC earlier this year. As Actis is an independently managed business, in which HMG is only a minority shareholder, it is inappropriate for me to comment on the internal affairs of the business.

Gregory Barker: To ask the Secretary of State for International Development (1) what representations he has received on the conditions of smallholders employed by Pacific Rim Palm Oil; [188853]

(2) what representations he has received regarding the Higaturu Oil Palms plantation's effect on *(a)* public health, *(b)* water quality, *(c)* indigenous sacred sites, *(d)* tribal property rights, *(e)* labour rights, *(f)* rainforest sustainability and deforestation and *(g)* species habitat; and if he will make a statement. [188852]

Hilary Benn: I received a letter from Friends of the Earth in June 2004, which enclosed letters from organisations in Papua New Guinea. In my reply to Friends of the Earth, I assured them that DFID takes these matters very seriously but that they should be taken up in the first instance with the company concerned. I understand that Actis, which manages the CDC investment in Pacific Rim Palm Oil Pte Ltd., the owners of Higaturu Oil Palms, held a meeting in late June 2004 with Friends of the Earth about these issues and has also replied to them by letter. In that reply, they invited Friends of the Earth to visit the plantation.

Correspondence

Dr. Tonge: To ask the Secretary of State for International Development when he will reply to the letter from the hon. Member for Richmond Park of 30 April regarding the Baku-Tbilisi-Ceyhan pipeline. [189141]

Hilary Benn: I wrote to the hon. Member about this subject on 23 September. Unfortunately, DFID has no record of receiving her original letter.

Council of Ministers

Sue Doughty: To ask the Secretary of State for International Development (1) if he will provide a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting; [188209]

(2) if he will provide a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting. [188208]

Mr. Gareth Thomas: I refer the hon. Member to the reply given by my right hon. Friend the Foreign Secretary on 13 September 2004, *Official Report*, column 1451W.

Departmental Costs

Mr. Bercow: To ask the Secretary of State for International Development what estimate he has made of the cost of fraud to his Department in each year since 1997, broken down by *(a)* UK locations and *(b)* overseas offices. [188329]

Mr. Gareth Thomas: The estimated cost of fraud to DFID each year since 1997, including the number of cases, is illustrated in the following table. While many of the cases are relatively small in financial terms (the total loss due to fraud in recent years is 0.006 percent of DFID's total spending) the Department remain committed to minimising such losses. This year DFID has reviewed and updated its policy and response to fraud, with advice from anti-fraud specialists.

	UK (£)	*Number of cases*	*Overseas*	*Number of cases*	*Total (£)*
1996–1997	1,986	1	6,287	2	8,273
1997–1998	2,732	2	45,633	2	48,365
1998–1999	nil	—	96,925	9	96,925
1999–2000	79,833	5	11,220	4	91,053
2000–2001	9,489	6	8,750	5	18,239
2001–2002	1,378	3	82,187	9	83,565
2002–2003	8,385	5	94,599	12	102,984
2003–2004	30,000	1	[1]202,917	16	232,917

[1] This is the current estimate since investigations are ongoing for some cases in 2003–2004.

Departmental Projects

Alan Simpson: To ask the Secretary of State for International Development if he will list water services *(a)* delivery and *(b)* consultancy projects his Department has supported in each of the last five financial years; what levels of financial support were given in respect of each project; and which UK based companies were recipients of funding. [189348]

Mr. Gareth Thomas: The information requested is not readily available without extensive research being carried out for which the time and expenditure would incur a disproportionate cost.

Tom Brake: To ask the Secretary of State for International Development what *(a)* overspend and *(b)* underspend has been identified for (i) programmes, (ii) initiatives, (iii) overseas projects and (iv) Department-wide projects funded by his Department in the last financial year. [189190]

Mr. Gareth Thomas: DFID's resource budget covers all DFID expenditure on development assistance. The outturn against the operating budget in 2003–04 is set out in the following table. This includes spending on programmes, projects and other initiatives. Separate figures are given for the Africa and Global Conflict pools:

2003–04

£ million

	Net Resource Provision (voted)	*Net Resource Outturn*	*Under (-) /Over (+) spend*
RfR1: Eliminating Poverty in Poorer Countries	3,015	2,914	-101
RfR1: Other Adjustment	—	-85	-85
RfR2: Conflict Pools	49	45	-4
Total	3,064	2,959	-190

DFID also provided development assistance through our contribution to the EC. This totalled £865 million in 2003–04. The official outturn will not be available until 2006.

The following table shows resource outturn by Departmental Objective. This compares gross resource outturn against programme budgets. It excludes administration costs and other costs (for example, Capital Charges).

2003–04

£ million

	Net Resource Programme Budget	*Net Resource Programme Outturn*	*Under (-)/Over (+) spend*
Reducing Poverty in sub- Saharan Africa	680	639	-41
Reducing Poverty in Asia	514	592	+78
Reducing Poverty in the Rest of the World	425	429	+4
Improve Efficiency of Multilateral Aid	780	676	-104
Developing Innovative Approaches to Development	229	225	-4
Programmes Contributing to Multiple Objectives	73	89	+16
Others	2	-21	-23
Total	2,704	2,630	-74

Conflict Pools 2003–04

	Resource Budget	*Resource Outturn*	*£ million Under (-) /Over (+) spend*
Africa	22	19	-3
Global	27	26	-1
Total	49	45	-4

DFID also invests in capital projects for its own administration, for example, on accommodation and Information Technology projects. Spend against the Administration Capital budget in 2003–04 was as follows:

2003–04

	Admin Capital Budget	*Admin Capital Outturn*	*£ million Under (-) /Over (+) spend*
Central Departments	32	30	-2

Departmental Recycling

Bob Spink: To ask the Secretary of State for International Development what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188701]

Mr. Gareth Thomas: In the UK, in the last 12 months, the Department for International Development has recycled at least 90 per cent. of our redundant documentation, waste paper and card, and has now implemented an Environment Management System to monitor all our environmental impacts including waste streams. DFID also has a clear policy to reduce our production of waste by actively encouraging re-use, recycling and composting of paper and card and recycling of other materials such as glass, metal and wood. DFID also use refurbished and recycled products and materials wherever possible, and all our copying paper is 100 per cent. recycled with at least 75 per cent. post-consumer waste.

Disaster-prone Regions

Mr. Lazarowicz: To ask the Secretary of State for International Development pursuant to the answer of 22 July 2004, *Official Report*, columns 383–84W, on disaster-prone regions, if he will set a date for the implementation of a disaster reduction strategy.[189111]

Hilary Benn: The scoping study designed to inform DFID's proposed strategy for Disaster Reduction is due to be completed within the next few weeks. DFID will then start to draw up a strategy and a plan for its implementation, but we also wish to take account of the outcome of the World Conference on Disaster Reduction to be held in Japan in January 2005 before finalising it. Therefore I envisage that DFID's strategy will be finalised by the end of March 2005. It will include information on an implementation.

Hurricane Ivan

Ms Abbott: To ask the Secretary of State for International Development what assistance his Department plans *(a)* to provide to and *(b)* to request from the European Union for (i) the Cayman Islands, (ii) Jamaica, (iii) Grenada and (iv) other affected parts of the Caribbean following the passage of Hurricane Ivan. [189791]

Hilary Benn: Details of the UK's immediate humanitarian response to affected parts of the Caribbean, following the impact of Hurricane Ivan, were included in the oral statement I made in the House on 14 September and the written statement provided on 16 September.

Since then DFID has announced a further contribution of £368,000 to the International Federation of the Red Cross towards their regional appeal, bringing our overall support to the Red Cross to £0.5 million. DFID has continued to deliver priority relief supplies, including plastic sheeting, potable water and hygiene materials to the Cayman Islands following an urgent request from the Government. Following the completion of field assessments, we are also considering support to the relief efforts of non-governmental organisations working in Grenada and Jamaica.

The European Community has announced it is mobilising £3.65 million in emergency relief and post emergency rehabilitation to help Grenada cope in the aftermath of Hurricane Ivan. This includes the earlier commitment of £1.01 million from the European Commission's Humanitarian Aid Office towards the country's emergency needs and to assist St. Vincent and the Grenadines. The UK share of this European Community humanitarian assistance is about £710,000. The European Union is also planning to mobilise £2.64 million from the allocation to Grenada under the European Development Fund, originally set aside for unforeseen circumstances. This allocation will go towards post emergency reconstruction focusing on the rehabilitation of schools that were severely damaged.

The European Union will also be exploring, with the Government, ways to adapt already committed but as yet un-disbursed funds available to Grenada. In addition, discussions will also be held with the Government concerning a previously earmarked £3.51 million for the development of the water sector in Grenada as to the possibility of using these funds to help with the rehabilitation of the water system that has been severely disrupted.

The full extent of the recovery needs of Grenada and other affected islands will take a little time to be assessed but the extent of destruction and damage indicates significant loss. The World Bank sent a team last week to Grenada. The Organisation of Eastern Caribbean States and Caribbean Development Bank will be starting their assessment this week. The Government of Jamaica plan to announce their initial findings later this week.

I will be making a further written statement to the House following the recess. In the meantime, the DFID website www.dfid.gov.uk contains regularly updated information.

Natural Disasters

Mr. Wood: To ask the Secretary of State for International Development how much overseas aid the UK has provided to assist relief efforts following natural disasters in each of the last five years. [189487]

Hilary Benn: DFID does not keep statistics distinguishing between humanitarian aid provided for natural disasters and humanitarian aid in other contexts centrally; this information could not be obtained without incurring a disproportionate cost. DFID's total humanitarian assistance in the last five years was as follows:

Humanitarian assistance

	Total (£ million)
1999–2000	314
2000–01	297
2001–02	288
2002–03	374
2003–04[1]	381

[1] Provisional.

These figures include UK contributions to European Community Humanitarian programmes and UK contributions to UN humanitarian agencies.

Pakistan

Mr. Bercow: To ask the Secretary of State for International Development what steps his Department is taking *(a)* to encourage democratic reform and *(b)* to assist in institution-building in Pakistan. [188365]

Mr. Gareth Thomas: DFID is working to support improvements to the democratic process in Pakistan, including through initiatives to improve grassroots democracy, the embedding of the recently introduced devolution reforms and extensive capacity-building support for the strengthening of key representative bodies. As part of this, DFID is supporting federal and provincial level programmes of Civil Service Reform and Public Sector Development, as well as targeted support for the Ministries of Finance, Education, and Health and Welfare, the Ministry of Women's Development, Social Welfare and Special Education, Comptroller General of Accounts, National Accountability Bureau, Election Commission of Pakistan and others. DFID is also supporting the Faisalabad District Government to evolve and strengthen district governance systems. DFID is also considering some capacity-building support through civil society to small political parties across the political spectrum.

Efforts are also being made through civil society to secure greater representation and accountability of the state to its citizens by enhanced awareness of their entitlements and the participation, particularly of women, in decision-making at all levels of devolved government. In the 2001–02 Local government elections, for example, 32,222 women were elected into union councils and 3,827 women to tehsil/town and district councils. In addition, through contesting open elections, 16 women were elected as union council, tehsil or district nazims (mayors).

Sudan

Ann Winterton: To ask the Secretary of State for International Development what estimate he has made of the level of funding the Government will commit to the reconstruction of southern Sudan during the six-year interim period; and if he will make a statement. [189547]

Hilary Benn: I have allocated £150 million over the next three years for relief and development in Sudan, after a comprehensive peace agreement. DFID expects funding to continue at this level at least for the rest of the interim period and remains fully committed to helping the people of Sudan reach a sustainable peace and eliminate poverty. DFID looks forward to the peace talks reconvening soon.

Tristan da Cunha

Mr. Nigel Jones: To ask the Secretary of State for International Development what assessment he has made of the impact on the islanders of Tristan da Cunha of the changes in sailing schedules of the Royal Mail Ship St Helena; and if he will make a statement. [189541]

Mr. Gareth Thomas: In January this year, the St. Helena Government (SHG) decided to end the annual call by the RMS St. Helena at Tristan da Cunha. In reaching its decision, SHG considered the alternative access arrangements available to Tristan da Cunha and the take-up of passenger and freight traffic on the ship during recent voyages. Taking account of alternative shipping links with Tristan, which can offer more competitively priced freight and passenger capacity, the conclusion reached was that the annual call had become of limited economic or practical value.

Essential physical access arrangements for Tristan will be maintained by other vessels that call there on other business. These include two South African fishing vessels and a South African research ship which, between them, are expected to make 14 visits to Tristan this year.

The new arrangements for the XRMS St. Helena' will remain under review and further adjustments will be considered in the light of experience. SHG has not ruled out the possibility in future of occasional voyages to Tristan (or the UK) if there were sufficient demand for them.

CONSTITUTIONAL AFFAIRS

Council of Ministers

Sue Doughty: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) if he will provide a Written Ministerial Statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188218]

(2) if he will provide a Written Ministerial Statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states

that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188219]

Mr. Leslie: I refer the hon. Member to the answer given to her on 13 September by the Foreign Secretary.

Fathers 4 Justice

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to meet representatives of the Fathers 4 Justice campaign. [189213]

Mr. Leslie: None. We recently published a consultation paper "Parental Separation: Children's Needs and Parents' Responsibilities", setting out proposals to improve the outcomes for children where parents separate, and also improve the experiences of their parents through provision of better, more focussed services. We are consulting on these proposals until 1 November 2004. Fathers 4 Justice has been invited to submit a response to this.

Freedom of Information

Dr. Julian Lewis: To ask the Parliamentary Under-Secretary of State for Constitutional Affairs, what recent assessment he has made of the preparedness of Government Departments to fulfil the demands made on them for access to information after the Freedom of Information legislation comes fully into effect in respect of *(a)* speed and *(b)* comprehensiveness of reply. [189985]

Mr. Leslie: In accordance with Section 85(5)*(a)* of the Freedom of Information Act, the Secretary of State for Constitutional Affairs is required annually to lay before Parliament a report on his proposals for bringing fully into force those provisions of the Act which are not yet fully in force.

The fourth Annual Report on proposals for bringing fully into force those provisions of the Freedom of Information Act 2000 which are not yet fully in force will be laid before both Houses before 30 November 2004. Government Departments' progress on implementation and preparedness for full implementation of the Freedom of Information Act is surveyed annually for inclusion in this Report.

Additionally, my Department is liaising closely with other Government Departments in preparation for full implementation for the Freedom of Information Act 2000.

Judicial Appointments

Keith Vaz: To ask the Parliamentary Secretary, Department for Constitutional Affairs what judicial appointments the Lord Chancellor made during the summer adjournment of both Houses of Parliament. [189214]

Mr. Leslie: The Lord Chancellor made, or recommended to Her Majesty, 322 judicial appointments during the summer adjournment of both Houses of Parliament. I will forward a table detailing the names of those appointed, and the posts they were appointed to the hon. Member, and I will place a copy in the House of Commons Library.

Statute of Limitations

Mr. Greg Knight: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will seek to alter the statute of limitations so that where a convicted criminal serving a prison sentence comes into money through whatever lawful means after the limitation period has expired, victims or their relatives may take legal action for recompense irrespective of the length of time that has elapsed since the offence took place. [189219]

Mr. Leslie: The government recognises there are concerns about compensation to crime victims or their relatives in these circumstances. We are currently considering a number of options to improve the compensation regime for victims. The civil law on limitation is one of several areas to be considered in this context.

UN Convention

Mr. Austin Mitchell: To ask the Parliamentary Secretary, Department for Constitutional Affairs, when Jersey and Guernsey will apply the UN Convention on the Rights of the Child and the Convention on the Elimination of Discrimination against Women; what consultations he has had with the island authorities; what undertakings he has been given on the formulation and enactment of legislation; and whether he has power to extend the convention to the islands in the way they were extended to the Isle of Man. [189721]

Mr. Leslie: These conventions both cover areas where the Governments of the Crown Dependencies have domestic competence. I understand that the Insular Authorities in Jersey and Guernsey have both made a commitment to have the necessary legislation in place when it is practicable to do so.

Once that legislation is in place and the Insular Authorities request the extension of the conventions, that may be done by declaration, in the same way as they were extended to the Isle of Man.

SOLICITOR-GENERAL

Crown Prosecution Service

David Taylor: To ask the Solicitor-General what plans there are to review the status of witnesses in the Crown Prosecution Service's decisions on prosecuting cases. [187386]

The Solicitor-General: Crown Prosecutors apply the principles set out in the Code for Crown Prosecutors ("the Code") when they make prosecution decisions.

Paragraph 6.7 of the Code sets out, "The Crown Prosecution Service prosecutes cases on behalf of the public at large and not just in the interests of any particular individual. However, when considering the public interest test Crown Prosecutors should always take into account the consequences for the victim of the decision whether or not to prosecute, and any views expressed by the victim or victim's family". While this paragraph applies to victims, similar considerations apply to witnesses.

The Code is currently subject of a review. The review has involved consultation with, among others, victim and witness interest groups.

The Bar Written Standards for the Conduct of Professional Work prohibits prosecution counsel in trials from interviewing a witness about that or any other witness's evidence. Crown Prosecutors follow this practice in all cases.

In 2002, the Attorney General asked the Director of Public Prosecutions to consider whether the time had come for prosecutors to interview key witnesses before trial in order to establish the reliability of their evidence. The Crown Prosecution Service conducted a public consultation in 2003. The Attorney General is in the process of considering the responses to that consultation before reaching a final conclusion as to the appropriate way forward.

The Direct Communications with Victims initiative was successfully rolled out nationally in 2002. Under the scheme, where a charge is discontinued or substantially altered the prosecutors will write to the victim to explain the reasons for the decision. Additionally, a meeting will be offered to explain the decision in cases where a death has occurred, cases of child abuse, sexual offences, racially and religiously aggravated offences and offences with a homophobic or transphobic element.

The No Witness No Justice project is currently being rolled out nationally in CPS Areas. Under the project police officers will consider the specific needs of witnesses. This information will be passed to a prosecutor and to witness care units operated by police and CPS staff. The witness care units will take such action as is necessary to address the needs of the witness.

Significant steps have also been made to ensure that vulnerable and intimidated witnesses can give their best evidence when attending court as a witness through the ongoing implementation of special measures.

TREASURY

Hospital Acquired Infection

Tim Loughton: To ask the Chancellor of the Exchequer how many people who died in the last 12 months had hospital acquired infection attributed as the cause of death on their death certificates. [189440]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Tim Loughton, dated 27 September 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many people who died in the last 12 months had hospital acquired infection attributed as the cause of death on their death certificates. (189440).

It is not possible to give reliable figures on the number of deaths involving hospital-acquired infections from routinely collected mortality data, as information on where the infection was acquired may not be available to the doctor certifying the death.

Immigration

Chris Grayling: To ask the Chancellor of the Exchequer how many immigrants he estimates have entered the United Kingdom from the new EU countries since May. [189534]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Chris Grayling, dated 23 September 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question regarding estimates for the number of people migrating to the UK from the new EU countries since May 2004. (189534)

The information requested is not available.

Estimates of total international migration produced by the Office for National Statistics are compiled from a range of survey and administrative sources on an annual basis. Estimates of people migrating from the EU to the UK are primarily produced from the International Passenger Survey. This survey has a small sample size for the EU accession countries, which results in any estimates being subject to a high degree of error. Consequently, it is our present judgement that we will be unable to release reliable estimates for a single year for the accession countries when the 2004 data are published.

Lisbon Agenda

Mr. Brady: To ask the Chancellor of the Exchequer what his assessment is of whether the EU has made progress towards achieving the Lisbon Agenda aim of making the EU the world's most competitive economy by 2010 in the last two years. [189518]

Mr. Timms: The Treasury published an assessment of the EU's progress towards the Lisbon goals in February 2004, "Advancing Long-term Prosperity: Economic Reform in an Enlarged Europe". That report noted that the EU and the member states had implemented a number of important reforms, but that further action was needed in order to achieve the Lisbon goals by 2010. In September 2004, the Government also published their submission to the High-Level Group headed by Wim Kok and tasked with conducting a mid-term review of the Lisbon strategy. That report described a range of priority areas for reform to deliver a more flexible and outward-looking Europe.

Keith Vaz: To ask the Chancellor of the Exchequer pursuant to the Statement of 13 September, *Official Report*, column 1101, on the Lisbon Agenda, if he will list the 102 benchmarks. [189563]

Mr. Timms: A full list of the 102 structural indicator benchmarks against which Member States' economic performance can be assessed is available on the Eurostat website (http://europa.eu.int/comm/eurostat/), alongside the most recent available data.

Keith Vaz: To ask the Chancellor of the Exchequer when the annual Lisbon Agenda score cards will be introduced. [189572]

Mr. Timms: In its September 2004 report, "Mid-term review of the Lisbon strategy: UK submission to the high-level group", the Government proposed that an annual Lisbon Scorecard, ranking national performance against a core set of headline economic reform indicators should be prepared each year for the

spring European Council. At present, the European Commission compares national economic performance against a range of indicators in its annual report to the spring European Council, highlighting the best and worst three performing member states against individual indicators.

Census Results (Manchester)

Mr. Keith Bradley: To ask the Chancellor of the Exchequer (1) how many 18-year-olds were resident in the City of Manchester at the last census; [189459]

(2) how many 18-year-olds were resident in the Manchester, Withington constituency at the last census. [189460]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Keith Bradley, dated 21 September 2004:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent Parliamentary Questions asking how many 18 year olds were resident in the City of Manchester and the Manchester Withington Constituency at the last Census. (189459 & 189460)

Figures from 'Census 2001—Census Area Statistics for Output Areas, Wards and higher administrative geographies in England and Wales' indicate that on Census day (29 April 2001) there were 6,008 18 year olds resident in Manchester Local Authority District, and 915 18 year olds resident in the Manchester, Withington Constituency.

The 'Census 2001—Census Area Statistics for Output Areas, Wards and higher administrative geographies in England and Wales' DVD is available in the House of Commons Library.

The 'Census 2001—Census Area Statistics for Parliamentary Constituencies in England and Wales' CD was released on the 16th of September 2004 and is now available in the House of Commons Library.

Civil Service Redundancies

Mr. Best: To ask the Chancellor of the Exchequer in which *(a)* departments and *(b)* agencies civil service job losses will be made. [189135]

Mr. Boateng: There will be an overall gross reduction in posts in UK departments of 84,150 by 2008 and departments are pursuing these reductions in line with business need. All relevant departmental reductions were published in the 2004 Spending Review White Paper, which can be accessed via www.hm-treasury.gov.uk

Mr. Best: To ask the Chancellor of the Exchequer what assessment he has made of the number of Civil Service jobs that will be lost in *(a)* Yorkshire, *(b)* Leeds and *(c)* Leeds North West following the Spending Review announcement. [189144]

Bob Spink: To ask the Chancellor of the Exchequer (1) which *(a)* departments, *(b)* agencies and *(c)* public bodies will be affected by job losses resulting from his recent announcement in the 2004 Spending Review; [189351]

(2) how many Civil Service jobs will be lost in Castle Point as a result of the recently announced cuts in Civil Service jobs. [189352]

Mr. Boateng: There will be an overall gross reduction in posts in UK departments of 84,150 by 2008 and departments are pursuing these reductions in line with business need, consulting all stakeholders including union and staff. Departments will come forward in due course with details of workforce changes once plans are finalised.

Crown Estate's Communication Department

Mr. Carmichael: To ask the Chancellor of the Exchequer what the staffing costs for the Crown Estate's Communication Department were in each year since 1997. [188445]

Mr. Timms *[holding answer 13 September 2004]:* The information is as follows:

	£
1996–97	42,000
1997–98	75,000
1998–99	88,000
1999–2000	109,000
2000–01	110,000
2001–02	128,000
2002–03	133,000
2003–04	138,000

Economic Growth

Keith Vaz: To ask the Chancellor of the Exchequer what the *(a)* British and *(b)* European strategy is for combining economic growth while retaining the priority on social inclusion. [189562]

Mr. Timms: The Economic and Fiscal Strategy Report provides an overview of the Government's policies to promote economic growth and social inclusion.

The Government's approach combines flexibility and fairness, recognising that promoting employment opportunities is central to both economic growth and social inclusion. At the European level, the Lisbon Strategy sets ambitious targets for achieving both economic growth and social inclusion, focussing particularly on employment. The European employment guidelines establish three overarching objectives for Member State action to promote full employment, improve quality and productivity at work, and strengthen social cohesion and inclusion.

Employment and Productivity

Keith Vaz: To ask the Chancellor of the Exchequer what measures the Government are taking to ensure increased employment and productivity in the UK. [189564]

Mr. Timms: The Government is committed to raising the rate of UK productivity growth. The Government's approach is set out in "Productivity in the UK: The Evidence and the Government's Approach" (published alongside the 2000 Pre-Budget Report).

The Government's strategy for ensuring employment opportunity for all has been set out in successive Budget and Pre-Budget reports.

...e Government reports on steps to increase productivity and employment in every Budget and Pre-Budget Report.

Fair Trade Products

Mr. Wood: To ask the Chancellor of the Exchequer what incentives the Treasury offers to British businesses which *(a)* sell, *(b)* stock and *(c)* use fair trade products. [189496]

John Healey: The Government are committed to supporting ethical trading wherever possible and through the Department for International Development it provides significant support to the Fairtrade Foundation's efforts in promoting the supply and marketing of Fairtrade products.

Since 1997 the Government have also introduced a range of tax incentives to benefit business, including cuts in the rates of corporation tax, measures to simplify the administrative burden of VAT and permanent enhanced first year capital allowances for small and medium-sized enterprises.

HM Revenue and Customs Department

Mr. Prisk: To ask the Chancellor of the Exchequer pursuant to his Answer of 7 September, ref. 187239, what responsibility *(a)* the Paymaster General and *(b)* the Economic Secretary will have with regard to the proposed HM Revenue and Customs Department. [188465]

Mr. Gordon Brown: An updated list of Ministerial Responsibilities has been published on the HM Treasury website. This establishes the Paymaster General as Departmental Minister for HM Revenue and Customs.

Information and Communication Specialists

Mr. Jenkins: To ask the Chancellor of the Exchequer how many information and communication technology specialists are in full-time employment in the Department. [189597]

Mr. Timms: HM Treasury's HR system shows 14 IT specialists are employed in the Department, working in areas such as the central IT helpdesk, the Information Services team, and the HR Information Systems team.

Job Creation (Mitcham and Morden)

Siobhain McDonagh: To ask the Chancellor of the Exchequer how many jobs have been created in Mitcham and Morden since 1997. [189338]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Siobhain McDonagh, dated 21 September 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question about jobs created in Mitcham and Morden. (189338)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year to year.

The attached table shows the information requested, relating to jobs in Mitchem and Morden, for 1997 and the latest year available, 2002.

Number of employees[1] with workplace in Mitchem and Morden parliamentary constituency: 1997 and 2002

	Number
1997	18,100
2002	22,800
Change from 1997 to 2002[2]	4,700

[1] Employee jobs only, not self-employed jobs.

[2] The 1997 to 2002 change has been rounded to the nearest hundred separately from rounded levels for 1997 and 2002.

Source:

1997: Annual Employment Survey, rescaled. 2002: Annual Business Inquiry.

Tax Credits

Tim Loughton: To ask the Chancellor of the Exchequer how many appeals against rulings on tax credits have been lodged in the last 12 months. [189431]

Dawn Primarolo: In the twelve months to the end of August 2004, Inland Revenue submitted to the Appeals Service about 1,800 written appeals against tax credit decisions.

I understand from the Appeals Service that, of these appeals, about 1,500 were heard by a tribunal by the end of August 2004. Others appeals were settled without a tribunal hearing, were withdrawn, struck out, not accepted as duly made or were outstanding.

Taxation of Pensioners

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer what proportion of total income tax in the last year for which figures are available was derived from pensioners; and if he will make a statement on the taxation of pensioners. [189542]

Dawn Primarolo: I refer the hon. Member to table 3.12 'Income and tax for the elderly, by region and country' and 2.4 'Shares of total income tax liability' on the Inland Revenue website http://www.inlandrevenue.gov.uk/stats/income_distribution/table-312-2001-02.xls and http://www.inlandrevenue.gov.uk/stats/income_tax/table2-4.xls. From 2004-05, as a result of measures introduced since 1997, including the Pension Credit, the government will be spending around £10 billion more in real terms on pensioners. Around 65 per cent. of pensioners now pay no tax at all or tax at 10 per cent.

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer if he will bring forward proposals to reduce the burden of taxation on pensioners' incomes. [189543]

Mr. Timms: Around 65 per cent. of all pensioners pay no tax or tax at 10 per cent. Age-related personal allowances increased from April 2004 in line with earnings from £6,610 to £6,830 for those between 65 and

74, from £6,720 to £6,950 for those over 75. Since April 2004 no pensioner aged 65 or over will pay tax on income of less than £131 a week. Age-related personal allowances rise in line with the rise in average earnings for the remainder of this Parliament.

Personal tax and benefit changes mean that the average pensioner household is 26 per week better off in 2004–05 than would have been the case under the 1997 system. The poorest third of pensioners are now £33 per week better off.

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer if he will estimate the cost to the Exchequer of exempting the state retirement pension from income tax; and if he will exempt the state retirement pension from income tax. [189544]

Dawn Primarolo: It would cost around £4 billion to exempt state retirement pension from income tax. These estimates are based upon the 2001–02 Survey of Personal Incomes and are consistent with the Budget 2004 forecasts.

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer if he will estimate the cost to the Exchequer of making the first £10,000 of occupational pensions income subject to a taxation rate of 10 per cent.; and if he will make the first £10,000 of occupational income subject to a taxation rate of 10 per cent. [189545]

Dawn Primarolo: It would cost around £2 billion to extend the starting rate of income tax to £10,000 for all non-state pensions. It would cost around £19 billion to extend the starting rate of tax to £10,000 for all earned income.

These estimates are based upon the 2001–02 Survey of Personal Incomes and are consistent with the Budget 2004 forecasts.

US/UK Trade Links

Keith Vaz: To ask the Chancellor of the Exchequer what measures the Government is taking to deepen its cooperation with the US on trade and investment. [189573]

Mr. Timms: The US is our biggest single export market. UK trade with the US is worth around £50 billion (taking exports of goods and services together). In 2003–04 the US was by far the largest investing country in the UK with 314 projects creating 10,668 jobs. The Government in the form of UK Trade and Investment in London and the US, and funding for Regional Development Agencies, is committed to maintaining the UK as the primary destination for US inward investment in Europe.

The Government is also actively engaged with the Commission, other Member States and stakeholders such as the Transatlantic Business Dialogue to encourage increased economic cooperation between the ED and the US. The Government welcomes the call at the June 2004 EU-US Summit for stakeholder consultation leading to a new forward-looking strategy to break down remaining barriers to closer cooperation and will participate fully in this process.

LEADER OF THE HOUSE

Civil Service (Job Losses)

Bob Spink: To ask the Leader of the House which services within his Office will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189645]

Mr. Hain: I refer the hon. Gentleman to the answer given by my right hon. Friend the Chief Secretary to the Treasury on 16 September 2004, *Official Report*, column 1659W.

Information and Communication Specialists

Mr. Jenkins: To ask the Leader of the House how many information and communication technology specialists are in full-time employment in his office. [189592]

Mr. Woolas: None. The Privy Council Office provides administrative support to the Office of the Leader of the House of Commons. There are currently no full-time or part-time information and communication specialists employed by the Privy Council Office (PCO). ICT services are provided to PCO by the Cabinet Office, under a Service Level Agreement.

CULTURE, MEDIA AND SPORT

Civil Service (Job Losses)

Bob Spink: To ask the Secretary of State for Culture, Media and Sport which services within her Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189643]

Mr. Caborn: I refer the hon. Member to the answer given by my right hon. Friend the Chief Secretary to the Treasury on 16 September 2004, *Official Report* column 1659W.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Culture, Media and Sport (1) if she will provide a Written Ministerial Statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which her Department is represented in advance of each meeting; [188206]

(2) if she will provide a Written Ministerial Statement outlining for each meeting of the Council of Ministers at which her Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188207]

Mr. Caborn: I refer the hon. Member to the answer given by my right hon. Friend the Foreign Secretary on 13 September 2004, *Official Report*, column 1451W.

Digital Television

Mr. Simon Thomas: To ask the Secretary of State for Culture, Media and Sport how much her Department

has allocated to digital television switchover *(a)* in the financial year and *(b)* for each of the next three financial years. [189210]

Estelle Morris *[holding answer 16 September 2004]:* The Department has to date allocated approximately £380,000 (excluding staff and administrative costs) to digital switchover in the current financial year.

Decisions have yet to be made on allocations for future years.

English Heritage

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport how many official meetings she has had with English Heritage in the last 12 months. [189201]

Mr. Caborn: In the last 12 months my right hon. Friend the Secretary of State has had three formal meetings with the Chairman and Chief Executive of English Heritage. The Minister for Heritage has meetings with them on a regular basis, both formally and informally.

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport how many English Heritage sites she has visited in the last 12 months. [189202]

Mr. Caborn: The Secretary of State has not had an opportunity to visit any English Heritage sites in the last 12 months, but the Minister for Heritage has visited a number of English Heritage managed sites and visited their East of England regional office.

Freeview Service

Tim Loughton: To ask the Secretary of State for Culture, Media and Sport what percentage of the population are able to access Freeview; and what steps she is taking to speed up the availability of Freeview. [189442]

Estelle Morris: At present around 73 per cent. of UK households can access Digital Terrestrial Television services. This figure cannot be increased before Switchover.

The Government are committed to ensuring that at Digital Switchover everyone who can currently get the main public service broadcasting channels in analogue form (BBC1 and 2, ITV, Channel 4/S4C and Five) can receive them on digital systems.

Much progress has been made in the discussions between the Government, Ofcom and the Public Service Broadcasters and while the broadcasters have not reached a full consensus on the optimum timetable, some—including the BBC—have suggested that 2012 may be the most appropriate date for the completion of Switchover. This has been reflected in the draft Digital Replacement Licences, which Ofcom have issued for Channels 3, 5 and Teletext.

Grade II Listed Buildings

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport how much was given in grants to Grade II listed buildings in the last financial year. [189199]

Mr. Caborn: During 2003–04 English Heritage offered £300,000 in grants to Grade II listed buildings.

English Heritage also offered a further £9.8 million in grants through their Heritage Economic Regeneration schemes, which principally target Grade II and unlisted buildings in conservation areas.

Heritage Economic Regeneration

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on heritage economic regeneration schemes. [189226]

Mr. Caborn: English Heritage launched its Heritage Economic Regeneration scheme in 1999. Since then some £50 million has been invested in the regeneration of run down and deprived conservation areas. English Heritage has recently reviewed the scheme and it has been renamed Partnership Schemes in Conservation Areas. New applications will now be considered against regional priorities.

Mobile Libraries

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport what plans she has to increase the use of mobile libraries. [189206]

Estelle Morris: Mobile libraries are becoming increasingly sophisticated in the services that they can offer, and can be particularly useful in providing access to library services for those in outlying communities, or as an outreach tool to the socially excluded by visiting housing estates, but it is for local authorities responsible for library provision to decide how to allocate funding. We are encouraging authorities to understand better and meet the needs of their local communities.

Princess Diana Memorial Fountain

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport whether compensation has been paid to those injured at the Princess Diana Memorial Fountain. [189198]

Mr. Caborn: Compensation has not been paid.

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport how much public money has been spent on the Princess Diana Memorial Fountain since its opening; and what the projected maintenance costs are for the next 10 years, in real terms. [189205]

Mr. Caborn: £83,000 has been spent on the fountain since it opened.

Maintenance costs are expected to be £140,000 in the first year and £118,000 per annum in subsequent years.

Royal Parks

Mr. Rosindell: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on security measures in place in the Royal Parks. [189203]

Mr. Caborn: From 1 April 2004, policing the Royal Parks passed to the Metropolitan police, working

alongside the Royal Parks police in the Royal Parks Operational Command Unit (RPOCU). It would be inappropriate to go into detail about their security measures but these are commensurate with the perceived level of threat at any given time.

The new policing arrangements involve the deployment of Community Support Officers in addition to the police officers and this has made it possible to provide higher visibility policing in the Royal Parks.

Switchco

Mr. Simon Thomas: To ask the Secretary of State for Culture, Media and Sport what progress has been made towards the establishment of Switchco. [189211]

Estelle Morris *[holding answer 16 September 2004]*: Discussions are taking place between the Government, broadcasters, and other stakeholders under the Digital Action Plan, on the role and structure of the organisation that will be responsible for co-ordinating Digital Switchover. An announcement will be made on the outcome of these discussions in due course.

WORK AND PENSIONS

Back-To-Work Bonus

Mr. Frank Field: To ask the Secretary of State for Work and Pensions whether the back to work bonus of £1,000 is payable to unemployed people starting up their own business. [188323]

Maria Eagle: The Back to Work Bonus is payable to all customers aged under 60 in receipt of Jobseeker's Allowance or Income Support and in part time work. This includes people who are moving off benefit in order to start their own business.

To be eligible to apply for a Back to Work Bonus when moving into work that takes them off benefit, a person must have met the qualifying conditions and have been working part time and declaring their earnings. Half of the declared earnings after the appropriate disregard has been applied are accrued. The minimum that can be paid is £5 and the maximum £1,000. The amount the customer receives is dependant on the amount of earnings that has accrued from their part time work.

Jobcentre Plus

Tim Loughton: To ask the Secretary of State for Work and Pensions (1) what changes in the number of civil service jobs have arisen from the introduction of Jobcentre Plus offices; and how many jobs have been contracted out to independent service providers; [189414]

(2) what the refurbishment budget for Jobcentre Plus offices is. [189416]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Tim Loughton, dated 29 September 2004:

The Secretary of State for Work and Pensions has asked me to reply direct to your questions about the changes to the number of Civil Service jobs arising from the introduction of Jobcentre Plus offices, contracting out of jobs, and the costs of the refurbishment programme. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

In our customer-facing offices the number of Civil Service staff has increased as a result of the introduction of the Jobcentre Plus service. This is largely due to the increased advisory activity aimed at helping more customers return to work. For 2003/04 the increase to the headcount was estimated at 4,350, and for 2004/05 a further 1,200. These increases in staff numbers have not resulted in posts being contracted out to independent service providers.

The budget for the estates refurbishment programme is £550m.

As you may be aware, on the 16th September 2004, the Secretary of State made a written statement about the impact of the Department for Work and Pensions Efficiency Programme on meeting the government's efficiency challenge. This includes our plans to centralise benefit processing and contact centres.

I hope this is helpful.

Housing Benefit

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions when he proposes to update assessed average rental values used in the calculation of entitlement to housing benefit. [188682]

Mr. Pond: Claims received from those in the private rented sector will generally be referred to the local Rent Officer for a rental valuation to determine the housing benefit claim. The market evidence that is used to compare properties for the purpose of making these valuations is updated on an ongoing basis by the Rent Service.

In nine pathfinder areas, we are testing a reform of housing benefit for tenants in the private rented sector, called the Local Housing Allowance (LHA). This is a flat-rate allowance based on broadly average market rents in the area for each size of property, and the rates are set by the Rent Officer. Once an LHA rate has been calculated, it will apply to all properties within that particular area and so will not have to be calculated separately for each property. LHA rates are updated monthly in line with any changes to market rents in the area, and are supplied to the relevant local authority. The local authority is then required to publish these figures.

Incapacity Benefit

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many incapacity benefit claimants there are in each *(a)* county, *(b)* metropolitan authority, *(c)* London Borough and *(d)* unitary authority in England. [188987]

Maria Eagle: The information has been placed in the Library.

New Deal (Mitcham and Morden)

Siobhain McDonagh: To ask the Secretary of State for Work and Pensions how many *(a)* people, *(b)* lone parents and *(c)* people with disabilities in Mitcham and Morden have gained work through the new deal. [189358]

Jane Kennedy: The available information is in the table.

New deal in Mitcham and Morden

	People into work though new deal
Total	2,000
New deal for young people	850
New deal 25-plus	580
New deal for lone parents	460
New deal 50-plus	110

Notes:
1. Information is not available at constituency level for new deal for disabled people and new deal for partners.
2. All data is to the end of June 2004 apart from new deal 50-plus which is to the end of March 2003 and is the number of new deal 50-plus employment credit starts.
3. In April 2003, the new deal 50-plus employment credit was replaced by the by the 50 plus element of the working tax credit.
4. Figures are rounded to the nearest 10.

Source:
DWP Information and Analysis Directorate.

Pensioners (Mitcham and Morden)

Siobhain McDonagh: To ask the Secretary of State for Work and Pensions what the average change in income for pensioners in Mitcham and Morden has been from pension credit; and what the total sum paid to pensioners in the constituency in pension credit has been to date. [189336]

Malcolm Wicks: The information requested is not available.

In August 2003 there were 2,500 pensioner households in Mitcham and Morden receiving an average amount of £62.25 a week in Minimum Income Guarantee (MIG).

This is not directly comparable with an average amount for pension credit since there are differences between pension credit and MIG that are attributable to a variety of factors. Following the introduction of pension credit in October 2003, some elements of the support previously provided through MIG are now provide through local authority funding for people in care homes, and through tax credits for children. In addition, average pension credit awards are expected to be lower than MIG because a savings credit of up to £15.51 (single) or £20.22 (couples) is available for people with modest incomes above the guarantee level who previously received nothing from MIG.

In August 2004 there were 3,365 pension credit claimants in Mitcham and Morden receiving an average amount of £51.86.

The total sum of pension credit paid to pensioners in Mitcham and Morden between 6 October 2003 and 31 August 2004 is £7.1 million.

Recycling

Bob Spink: To ask the Secretary of State for Work and Pensions what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188695]

Mr. Pond: The latest figures for waste are for 2003–04. The following figures show the total amount of waste generated from DWP offices (where data is available) and the amount of that waste that is recycled. All our recycled waste shown in this table is paper or cardboard, although other currently unmeasured recycling takes place on furniture and fluorescent tubes.

	Tonnes
Total Waste Arisings	25,834
Total Paper/Card Recycled	13,015

The Department is working to reduce the total amount of waste that it produces, by developing Waste Minimisation plans within each area of the business. At the same time, In accordance with its Sustainable Development Policy Statement, the Department is working with our Estates Partner (Land Securities Trillium) to extend existing recycling facilities for paper products, increase recycling of estate based waste, and consider the potential for recycling other waste streams such as plastics and aluminium cans.

EDUCATION AND SKILLS

Child Care

Mr. Woodward: To ask the Secretary of State for Education and Skills what estimate the Government have made of the percentage of GDP the UK has spent on child care provision in each year since 1997. [186826]

Margaret Hodge: The latest available data on child care expenditure, reported in the 2004 DfES Department Report and by Sure Start, show that child care expenditure has risen from 0.001 per cent. of GDP in England in 1997–98 to 0.02 per cent. in 2002–03. Expenditure on Early Years services has risen from 0.2 per cent. of GDP in England in 1997–98 to 0.251 per cent. of GDP in 2002–03.

Mr. Woodward: To ask the Secretary of State for Education and Skills what estimate the Government have made of the number of privately run nurseries in each year since 1997 *(a)* broken down by region and *(b)* in St. Helens. [187363]

Margaret Hodge: The Department does not collect this information on a regular basis. According to the Childcare and Early Years Workforce Survey for 2003–04 there were 7,700 privately—owned full day care providers in England in 2003 but these are not broken down by region or local authority district.

Of the 1216 neighbourhood nurseries that are now open, 498 are operated by the private sector—over 40 per cent. The regional breakdown is set out in the table.

Region	Number of private neighbourhood nurseries
East of England	18
East Midlands	42
London	61
North East	67
North West	113
South East	27
South West	32
West Midlands	62
Yorkshire and the Number	76

Nine neighbourhood nurseries have been developed in St. Helens. Of these six are privately-run.

Adult Education (London)

Simon Hughes: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in (i) Greater London and (ii) each London borough in each year since 1997. [189474]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the London Learning and Skills Council (LSC) areas is set out in the table:

£000

	April 2001 to July 2001[1]		August 2001 to July 2002		August 2002 to July 2003	
Learning and Skills Council Area	Basic skills	Key skills	Basic skills	Key skills	Basic skills	Key skills
London North	8,753	985	14,099	1,395	18,829	1,921

London South	5,758	998	13,241	1,488	15,398	1,728
Total	61,135	5,436	121,459	8,359	141,443	8,872

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at borough level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Bullying

Mr. Jenkins: To ask the Secretary of State for Education and Skills whether the Department's guidance to schools on its anti-bullying strategy addresses identifying the individual needs of children who are being bullied. [188122]

Mr. Ivan Lewis: We take all bullying seriously and attach great importance to tackling it. All secondary and middle schools have received a copy of our "Don't Suffer in Silence" guidance and it is available free on request to all others. It sets out a range of strategies for supporting children who are being bullied and recognises that different situations require different responses, in order to meet different needs. The guidance emphasises the importance of tackling all sorts of bullying, including bullying because of race, gender, sexual orientation or disability and highlights the rise in bullying via new technology such as mobile phones.

The Anti-Bullying Charter for Action not only reinforces existing guidance but also offers suggestions for dealing with bullying via the use of school councils and peer support and by regularly canvassing children's opinion on the nature and extent of bullying. The Anti-Bullying Alliance has been formed, which will give schools support in implementing the charter.

CAFCASS

Mrs. May: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the backlog of Children and Family Court Advisory and Support Service reports is; and how many children are involved in those cases. [186991]

Margaret Hodge: At 31 July 2004 there were 469 unallocated cases requiring private law reports, representing 5.4 per cent. of the CAFCASS caseload. There has been a dip in performance over the summer, but the overall trend has shown improvement. In March 2004 CAFCASS had 272 unallocated cases, representing 3.2 per cent. of the caseload, compared with 365 unallocated cases in March 2003, representing 4.5 per cent. of the caseload.

At 31 July 2004, there were 287 unallocated public law cases, representing 2.4 per cent. of the caseload. CAFCASS has reduced the backlog considerably; at 31 March 2003 there were 639 unallocated cases, representing 5.1 per cent. of the caseload.

CAFCASS has two measurements for allocating public law cases:

Section 31 cases (care and supervision proceedings) should be allocated within two days from receipt of the request. The current target for CAFCASS is to achieve 70 per cent. of allocations within 2 days by March 2005. CFACASS began collecting information on this basis in November 2003, with the introduction of the "Protocol for Judicial Case Management in Public Law Children Act Cases". In November 2003 CAFCASS was allocating 37.3 per cent. of cases within two days. By July 2004, the proportion had risen to 54.4 per cent.

CAFCASS also has a target to allocate 98 per cent. of all case types within 28 days from receipt of the request. At the end of July 2004, CAFCASS was allocating 93.8 per cent. of cases within 28 days, compared with 79.9 per cent. of cases at the end of April 2003.

CAFCASS does not keep central statistics about how many children are involved in each case.

Cambodia (Adoption)

Mr. Drew: To ask the Secretary of State for Education and Skills if he will make a statement on the suspension of adoption arrangements with Cambodia. [188387]

Margaret Hodge: I made a statement to the House on 22 June 2004 announcing my decision to temporarily suspend the adoption of Cambodian children by UK residents. A copy of my statement has been placed in the House of Commons Library for information.

The temporary suspension was introduced in response to concerns raised by and investigated by officials from the Department for Education and Skills who visited Cambodia, by the British Embassy in Cambodia and, separately, by other relevant stakeholders about the intercountry adoption process in Cambodia.

As explained in my statement, I believe that the safeguards in the Cambodian adoption system are insufficient to prevent children being adopted without proper consents being given by their birth parents and improper financial gain being made by individuals involved in the adoption process.

As stated, I intend to review the temporary suspension when the Cambodian Government passes new adoption legislation or if there is another development I consider to be significant, for example if Cambodia were to implement the 1993 Hague Convention on Protection of Children and Co-operation in respect of Intercountry Adoption.

Only in exceptional circumstances will I consider that the temporary suspension should not apply in a particular case. Any decision relating to a particular case will of course take account of what is in the best interests of the child and all the facts of the particular case.

Children's Homes

Tim Loughton: To ask the Secretary of State for Education and Skills how many children are accommodated in *(a)* public children's homes, *(b)* private children's homes and *(c)* voluntary organisation children's homes. [189451]

Margaret Hodge: Data are not collected on the number of children accommodated in children's homes by the individual categories requested. However, the total number of children placed in children's homes at 31 March 2003 was 6,600.

The term 'children's homes' is defined here as including homes and hostels, secure units, and residential schools that are dual registered as children's homes.

Tim Loughton: To ask the Secretary of State for Education and Skills what the average cost of placement of a 15-year-old in *(a)* private children's homes and *(b)* local authority run children's homes was in the last year for which figures are available. [189463]

Margaret Hodge: Figures on the average cost of placement of a 15-year-old are not held centrally. The only figures we have available relate to the average cost for all children in children's homes in 2002–03. The average weekly cost of a placement in a private children's home was £1,846 and in a local authority run children's home the average weekly cost was £1,812.

Civil Service (Job Losses)

Bob Spink: To ask the Secretary of State for Education and Skills which services within his Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189644]

Mr. Charles Clarke: I refer the hon. Member to the answer he received from my right hon. Friend the Chief Secretary to the Treasury on 16 May 2004, *Official Report*, column 1658W.

Class Sizes

Dr. Pugh: To ask the Secretary of State for Education and Skills what plans the Government has to set lower statutory number limits for *(a)* infant, *(b)* junior and *(c)* nursery classes. [189276]

Mr. Miliband: We have no plans to introduce statutory class size limits for nursery or junior classes, nor do we plan to change the current statutory limit of 30 for infant classes. We introduced the infant class limit because research indicates that restricting infant class sizes to 30 allows teachers to spend more time with individual pupils, and may benefit them in those early years of school when they need to acquire basic skills.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Education and Skills (1) if he will provide a written ministerial statement outlining the key points on the agenda for each of the Council of Ministers' meetings at which his Department is represented in advance of each meeting; [188214]

(2) if he will provide a written ministerial statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by hon. Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188215]

Dr. Howells: I refer the hon. Member to the answer given by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs on 13 September 2004, *Official Report*, column 1451.

Departmental Recycling

Bob Spink: To ask the Secretary of State for Education and Skills what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188698]

Mr. Stephen Twigg: Of the total waste generated by my Department during 2003–04 17.7 per cent. of clean paper and cardboard is recycled.

My Department already has in place a "green housekeeping policy statement". The Waste Management Strategy is being developed in accordance with the Framework for Sustainable Development on the Government estate.

Early-years Teacher Training

Mr. Woodward: To ask the Secretary of State for Education and Skills what the Government's policy is on the training of early years teachers; and if he will make a statement. [187367]

Margaret Hodge: It is a regulatory requirement that a qualified teacher must be involved in early years' education in each maintained setting. It is also set out in Sure Start Unit guidance to local authorities that they should work towards and beyond having one qualified teacher to every ten non-maintained settings. The Sure Start Unit is, therefore, providing the Teacher Training Agency with additional funding to expand the number of primary training places with an early years' specialism. We are also funding local authorities to ensure that all Foundation Stage practitioners, including early years' teachers, receive an average of four days training and development a year.

Education (York)

Hugh Bayley: To ask the Secretary of State for Education and Skills how many free books have been provided for pre-school children in York. [188945]

Margaret Hodge: We do not hold details on the number of free books made available in York. The Sure Start Unit are funding the Bookstart scheme for the year 2004–05 to deliver a bag with two baby books to every six to nine month old baby in England. The pack also includes a booklet explaining how and why it is important to share books with young children, a booklist and an invitation to join the library. On 12 July the Chancellor announced an extension to this scheme to give packs to children at 18 months and three years old. This is in addition to children's access to books through local libraries.

Education Maintenance Allowance

Mr. Frank Field: To ask the Secretary of State for Education and Skills if he will propose changes to the education maintenance allowance regulations to allow pupils who by the time they are 15 years old have successfully completed their GCSEs to qualify for education maintenance allowances while continuing their A level education. [188322]

Mr. Ivan Lewis: I have received a number of representations on this subject. Allowing younger students who have completed their GCSEs to receive EMA is an option we are looking at for future years. In my view there are arguments both for and against such an extension, and I will want to take views from stakeholders in coming to a decision.

Educational Courses

Mr. Hurst: To ask the Secretary of State for Education and Skills what plans he has to increase the opportunities for older people to take educational courses which do not lead to a qualification. [188548]

Mr. Ivan Lewis: Our plans were set out in the White Paper "21st Century Skills; Realising Our Potential" published in July 2003. We are committed to safeguarding a wide range of opportunities for which do not lead to a qualification, including for older people. This is why we have agreed a budget with the Learning and Skills Council of £207.4 million in 2004–05 for adult and community learning secured through local education authorities, compared with £206 million in 2003–04. Over half (51 per cent.) of learners on these courses are aged 55 or over.

English Domiciled Students

Simon Hughes: To ask the Secretary of State for Education and Skills what proportion of English domiciled students in secondary education aged 18 years from each local education authority were accepted through the Universities and Colleges Admissions Service to full-time undergraduate courses in each year since 1994–95 for *(a)* each local education authority and *(b)* each region. [189478]

Dr. Howells: The available information is taken from the Universities and Colleges Admissions Service (UCAS) and covers 18 year old applicants accepted through UCAS to full-time first degree and HMD courses.

The participation rates calculated are based upon all 18 year olds, not just those who have been in secondary education. The population numbers are estimates and can be volatile from year to year, hence participation rates should be used only as a guide to the long term trend in participation in a particular area.

Tables containing the figures have been placed in the House Libraries.

Higher Education (Manchester)

Mr. Keith Bradley: To ask the Secretary of State for Education and Skills how many students whose home address is in the City of Manchester went into higher education in *(a)* 2002–03, *(b)* 2003–04 and *(c)* 2004–05. [189458]

Dr. Howells: The available information from the Universities and Colleges Admissions Service (UCAS) covers applicants accepted to full-time undergraduate courses at UK institutions. The latest figures are for entry in 2003.

Applicants domiciled in Manchester LEA, accepted through UCAS to full-time undergraduate courses at UK institutions

Year of entry	*Accepted applicants*
2001	2,074
2002	2,214
2003	2,414

Source:
UCAS

Mathematics

Mr. Clappison: To ask the Secretary of State for Education and Skills what content has been removed from the course of study required for mathematics at *(a)* GCSE level and *(b)* A level under each examination board since 2001. [189355]

Mr. Charles Clarke: No content has been removed from the programme of study for maths at GCSE. Following a consultation with maths subject associations and schools, in autumn 2002, there was

some alteration to the GCE criteria for the AS Level. Some of the larger topics were moved to A2 (the second year of study for A level) because the consultation revealed that the AS Level was overloaded with content. Maths at AS Level and at A Level remains a rigorous and challenging subject. The changes have been widely welcomed by the maths community.

Minimum Funding Guarantee

Dr. Pugh: To ask the Secretary of State for Education and Skills (1) whether it is his policy that a minimum funding guarantee overrides existing fair funding formulae, and if he will make a statement on the Audit Commission's observation to that effect on page 11 of its publication Education Funding; [189270]

(2) what representations the Department has received from *(a)* local education authorities and *(b)* their representative bodies concerning the effect of the minimum funding guarantee on agreed local authority formulae for distributing funds to schools; [189277]

(3) if he will make a statement on the finding of the Audit Commission study that showed that councils have suspended changes to their formula because they are unclear about the Government's intentions with regard to the minimum funding guarantee. [189314]

Mr. Miliband: The minimum funding guarantee that was introduced in 2004–05 has brought stability and certainty to schools budgets. It was considered appropriate to put in place such stability given the funding difficulties experienced by some schools in 2003–04. As a result of the introduction of the minimum funding guarantee two thirds of schools nationally received an increase above the level of the minimum guarantee while the remaining third of schools received a per pupil increase in funding in line with the guarantee.

The proposals for the minimum funding guarantee (including specifically provisions for exclusions, special cases and small schools) were developed in close consultation with our national partners, including representatives of local authorities and Chief Education Officers. Provision was made in the regulations to enable local education authorities to apply to the Secretary of State to amend the operation of the minimum funding guarantee where there was a clear anomaly in the outcome for individual schools or groups of schools.

Changes to a local education authority's funding formulae are matters for local discretion provided that they operate within the framework of the regulations. While the Audit Commission reports that some councils have suspended proposed changes to their funding formula, the survey was based on a sample of LEAs and was carried out before the start of the financial year 2004–05. Evidence from other authorities shows that there is no inherent need to suspend changes to formulae as a result of the minimum funding guarantee. Some authorities, in fact, have used the guarantee to provide transitional protection to ensure that such changes are phased in appropriately to ensure stability in school budgets.

Dr. Pugh: To ask the Secretary of State for Education and Skills (1) what approaches have been made by Sefton local education authority to his Department seeking to amend Sefton's formula for the distribution of school funding in the last three years; [189313]

(2) whether he has objected to proposals from Sefton local education authority to change their formula for the distribution of funds to schools in the last four years; and if he will make a statement. [189271]

Mr. Miliband: Under regulation 28 of the Financing of Maintained Schools Regulations, the Secretary of State has power to approve 'additional arrangements' whereby the normal national rules for school funding formulae are set aside in favour of a purpose-built local solution, in circumstances where significantly anomalous results would result from the application of the national rules.

During the period in question, Sefton local education authority made one application to the Secretary of State for an additional arrangement under regulation 28, in relation to the application of the minimum funding guarantee during the 2004–05 financial year. This application was turned down because it paid insufficient regard to the impact of the minimum funding guarantee on individual schools. The authority was invited to put forward an amended application, but did not do so.

Nurseries

Tim Loughton: To ask the Secretary of State for Education and Skills (1) how many *(a)* announced and *(b)* unannounced inspections of nurseries took place in each of the last five years; [189405]

(2) how many nurseries were de-registered by Ofsted in each of the last five years; [189406]

(3) how many complaints about child care providers Ofsted has received in each of the last five years. [189465]

Margaret Hodge: These are matters for the Office of Standards in Education (Ofsted) and I have asked HM Chief Inspector for Schools, David Bell, to write to the hon. Gentleman and place a copy of his letter in the Library.

Tim Loughton: To ask the Secretary of State for Education and Skills (1) how many *(a)* nurseries and *(b)* nursery places have been closed in each of the last five years; [189407]

(2) how many registered nurseries there were in each of the last five years, broken down by those *(a)* publicly provided, *(b)* privately provided and *(c)* provided by the voluntary sector. [189404]

Margaret Hodge: The information is not available in the form requested. The available information on the numbers of day nurseries (or full day care providers) and the number of available nursery places in England is shown in the tables.

With the introduction of the National Day Care Standards and the transfer of responsibilities for registration and inspection to Ofsted, childcare providers are now classified according to whether they are full day care, sessional day care, childminder, out of school day care or creche day care places. Previously, childcare providers were classified according to whether

they were day nurseries, playgroups and pre-schools, childminders, out of school clubs or holiday schemes. Therefore, figures for 2003 and 2004 are not directly comparable with figures for earlier years because they are collected on a different basis.

The latest statistics on the number of full day care providers registered in England were published on 22 July 2004 in a report by Ofsted "Registered Childcare Providers and Places in England, 30 June 2004". The report is available on the Ofsted web-site, www.ofsted.gov.uk/publications.

Number of day nurseries and places[1] in England 1999 to 2001

Position as at March 31	*Number of day nurseries[2]*	*Number of places in day nurseries[2]*
2002	[3]	[3]
2001	7,800	285,100
2000	7,500	264,200
1999	7,000	247,700

[1] Figures have been rounded to the nearest 100.

[2] Figures derived from local authority estimates reported on the Day Care Facilities Survey.

[3] Information not available.

Number of registered full day care providers and places[1] in England 2003–04

Position as at March 31	*Number of registered full day care providers[2]*	*Number of places in registered full day care providers[2]*
2004	11,000	456,300
2003	9,600	381,600

[1] Figures have been rounded to the nearest 100.

[2] Data supplied by Ofsted.

The Department does not collect information on the ownership and management of full day care providers on a regular basis. However, according to the Childcare and Early Years Workforce Survey for 2002–03 there were around three quarters of full day care providers who were privately-owned and one in ten who were being run by a voluntary, church or community group in England in 2003. The remainder were run by either the local authority, school/college or by some other form of provider. The figures from this Survey were published in a report by Sure Start in May 2004 "2002–03 Childcare and Early Years Workforce Survey: Day Nurseries and other Full-day Care provision". The report is available on the Sure Start web-site, www.surestart/ensurequality/research/earlyyears/workforce/.

Pre-school Education

Mr. Woodward: To ask the Secretary of State for Education and Skills what the Government's policy is on implementing the recommendations of the Effective Provision of Pre-School Education project; and if he will make a statement. [187366]

Margaret Hodge: The Effective Provision of Pre-School Education (EPPE) project was commissioned by the Department for Education and Skills in 1997 to provide evidence on which the Government could base their development of good quality early years services. The project has already produced a number of significant findings which have informed or supported policy. These include:

- early education produces better effects in small bursts over a long period. This confirms the benefits of our offer of a free part-time early education place for all three and four-year-olds;
- the effects of early years provision are greatest and most sustained for disadvantaged children, hence our focus on targeted improvement of services through Sure Start Local Programmes, Children's Centres and other initiatives. Children's Centres will cover all the 20 per cent. most deprived wards by 2008;
- an early start at pre-school (under three years) was linked with better intellectual attainment and children having better relationships with other children (peer sociability) at age three years. We have also recently announced that we will pilot early education for 12,000 disadvantaged two-year-olds;
- integrated services produce better cognitive outcomes for children, and we are now building on the lessons of Early Excellence Centres and Sure Start Local Programmes, in our multi agency Children's Centres, and in extended schools;
- qualified teacher involvement is important to improved outcomes, and we now require teacher input as part of the Children's Centre core offer, and
- the home environment and parents have a major impact on children's development, and early years services are more effective when working closely with parents. There is a strong emphasis on parental involvement in Sure Start programmes.

Protection of Children Act

Sandra Gidley: To ask the Secretary of State for Education and Skills how many names are on the Protection of Children Act list; and how many names have been added in each month since its inception. [187110]

Margaret Hodge: As of 22 September 2004, there are a total of 1,072 individuals confirmed on the Protection of Children Act List. Under the Protection of Children Act 1999 an individual can be provisionally included on the list until sufficient information has been gathered which enables a final decision. A breakdown of the number of individuals added to the List, following their period of provisional inclusion, in each of the last 12 months is shown in the following table. This information was not routinely collected before July 2003.

Month	*Number of cases*
July 2003	8
August 2003	5
September 2003	0
October 2003	0
November 2003	5
December 2003	4
January 2004	5
February 2004	24
March 2004	9
April 2004	0

Month	Number of cases
May 2004	8
June 2004	15
July 2004	17
Aug 2004	6
Sept 2004	2

Pupil Exclusions

Simon Hughes: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary pupils on average were (i) permanently excluded from school and (ii) unable to access a place in school in each of the last five years in (A) Greater London, (B) each London local education authority and (C) England. [189476]

Mr. Stephen Twigg: Requested information on the number and percentage of excluded pupils is given in the tables.

We do not hold information centrally on the numbers of excluded pupils unable to access a place in school. However, from September 2002 all local education authorities (LEAs) have been committed to providing suitable full-time education for permanently excluded pupils from the sixteenth day of their exclusion. Since then all but a handful of LEAs have met this commitment. Currently only two LEAs are not meeting it and the Department is working with them to help them achieve it.

Maintained primary schools[1]: Number and percentage of permanently excluded pupils by Local Education Authority area 1998/99 to 2002/03 (provisional)[2]

		1998/99		1999/2000		2000/01		2001/02		2002/03[p]

School Furniture

Mr. Baron: To ask the Secretary of State for Education and Skills what representations he has received in favour of commissioning research into the possible relationship between back pain and school furniture as the part of its plan to refurbish every secondary school in the next 15 years; and what plans he has to commission such research. [188669]

Mr. Ivan Lewis: There has been no formal representation made to the Department since the announcement of the Building Schools for the Future programme regarding a possible relationship between back pain and school furniture. However, informal discussions have been held with the National Back Pain Association in the recent past and we are aware of that organisation's concerns in this regard. The Department has no plans to commission research on this issue but is developing an ergonomic website which will allow teachers and building professionals to determine the correct size of furniture for a particular pupil, supported by child size data gathered recently by a survey jointly funded by the Department.

Special Schools

Bob Spink: To ask the Secretary of State for Education and Skills if he will issue guidance that pupils with emotional and behavioural difficulties should not be sent to moderate learning difficulties special schools. [189049]

Mr. Ivan Lewis: The Special Educational Needs Code of Practice gives guidance to local education authorities on carrying out their statutory duties for identifying, assessing and making provision for children with special educational needs, including those who have behaviour, social and emotional needs. The Code of Practice makes clear that local education authorities must make decisions about the placement of children with statements of SEN on an individual basis, taking account of parental preference.

Stable Families

Mr. Wiggin: To ask the Secretary of State for Education and Skills what steps the Government are taking to promote stable families. [186975]

Margaret Hodge: We believe that all children deserve the chance to grow up in a stable loving family, and we

are increasing the support available to families who want it. We know that poverty places great stress on families and can be a major contributing factor to family breakdown. There are around 500,000 fewer children living in relative poverty than there were in 1997, and there have been significant increases in child benefit, and more generous support through new tax credits. We have also introduced the biggest ever package of legal changes to help working parents balance work and family, including the right to request flexible working—for fathers, as well as mothers and over one million people are now taking this up.

The Every Child Matters Green Paper put supporting parents and carers at the heart of our approach to ensure that every child reaches their full potential in life. Through the development of Sure Start, Children's Centres and Extended Schools we are now bringing together support for all children and families in a more integrated way. We are expanding the Children's Centre programme to create 2500 centres by 2008.

Every Child Matters also highlighted the role of relationship counselling and family mediation services. Current arrangements are being amalgamated to form a new Strengthening Families Grant programme to fund voluntary and community sector organisations providing relationship support. A family focused, single grant programme will help to promote stable families. However, the Government recognises that some relationships will inevitably break down and the recently published Parental Separation: "Children's Needs and Parents' Responsibilities" Green Paper details a range of measures to provide more effective support to families in relation to contact and residence after divorce and separation.

Although Governments cannot create stable families, we believe that these—and other—measures are playing a valuable role in supporting families.

Sure Start (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills what funding has been allocated to the Tamworth constituency under the Sure Start scheme since its inception. [188113]

Margaret Hodge: Sure Start Tamworth is a round four Sure Start programme. It has an indicative capital allocation of £1,000,000. Its revenue allocation is £599,000 for 2003–04 and £613,975 for 2004–05.

Under the neighbourhood nurseries scheme, the Manna House Neighbourhood Nursery in Tamworth received £151,200 revenue grant and £58,780 NOF funding for capital.

Teacher Recruitment

Miss McIntosh: To ask the Secretary of State for Education and Skills how many new teachers were recruited in *(a)* 1997, *(b)* 2000 and *(c)* 2003. [189522]

Mr. Miliband: The number of new recruits to initial teacher training in England in those years was as follows:

Academic year	*Recruits*[1]
1997/98	27,810
2000/01	29,510
2003/04	41,090

[1] Includes conventional (PGCE/BEd) and employment-based training routes.
Source:
Teacher Training Agency

The numbers of teachers taking up posts for the first time in maintained schools in England in the 1997–98 and 2000–01 financial years were as follows. Data for 2003–04 are not yet available:

Financial Year	*New entrants to teaching*[1]
1997/98	27,420
2000/01	28,150

[1] 10–20 per cent. of part-time teachers may not be included in the data.

Database of Teacher Records.

Teacher Salaries

Simon Hughes: To ask the Secretary of State for Education and Skills what the average total salary was in each year since 1997 of *(a)* a primary school teacher and *(b)* a secondary school teacher in (i) Greater London, (ii) each London local education authority and (iii) England. [189477]

Mr. Miliband: The following table gives the average total salary for full-time regular qualified teachers in the maintained nursery and primary and secondary sectors in each London local education authority, Greater London and England in each year from 1997. 2002 is the most recent information available. The figures include all allowances and cover all grades.

University Bursaries

Mr. Clappison: To ask the Secretary of State for Education and Skills what support from university bursary schemes has been proposed for students from families with joint incomes above *(a)* £22,500 and *(b)* £33,533; which universities offer such support; and if he will estimate (i) the number of students likely to be helped and (ii) the total value of such help in the next three years. [189078]

Dr. Howells: The level of bursary and other financial support and the criteria for eligibility, will be a matter for the universities themselves to decide how to implement and operate, subject to approval by the Director of Fair Access to Higher Education. We expect institutions that wish to charge higher fees from 2006 to draw up their access plans, including details of bursary and other financial support, this autumn.

I have also commissioned Sir Alan Langlands to oversee a report on how the public sector and the professions can sustain and improve recruitment opportunities for graduates, especially those who do not qualify for the full £3,000 support.

DEPUTY PRIME MINISTER

High Hedges

Mr. Wood: To ask the Deputy Prime Minister when he will issue guidance to local authorities in respect of provisions to address problems with high hedges contained in the Anti-social Behaviour Act 2003. [189504]

Phil Hope: Draft guidance to local authorities on dealing with complaints about high hedges under the provisions in Part 8 of the Anti-social Behaviour Act 2003 was issued for public consultation on 29 March. The consultation closed on 30 June and the Office of the Deputy Prime Minister is now finalising the guidance and other operational details before bringing this Part of the Act into effect. The Office of the Deputy Prime Minister expects this will be towards the end of 2004.

Town Centre Regeneration

Mr. Rosindell: To ask the Deputy Prime Minister (1) how much has been given in grants to redevelop town centres in the last 12 months; [189227]

(2) if he will make a statement on funding for regeneration of town centres. [189235]

Keith Hill: This Government are fully committed to ensuring the regeneration of our town and city centres. It is a vital element in meeting a wide range of the Office of the Deputy Prime Minister's objectives, including the development of sustainable communities.

There are no statistics held centrally as to how much has been given in grants to redevelop town centres. This could be provided only at disproportionate cost. While it is not clear as to the exact proportion that is spent on town centres specifically, in the current financial year (2004–05) nearly £3.27 billion of Government funding has been allocated to regeneration programmes of all kinds. This is due to increase to £3.55 billion in 2005–06.

Funding for town and city centre regeneration can be secured from a wide range of different sources, and is being carried out through partnership working across central and local government, regeneration agencies and local stakeholders. The nature of local economic growth and the development of town and city centres requires local authorities to determine local policies which meet the specific needs of their area. To do so they need to develop their own strategies and prioritise resources, which will vary in each case.

Funding for the regeneration of town and city centres can be secured from sources including the Single Regeneration Budget, European Regional Development Fund and European Social Fund, the lottery, New Deal for Communities, Regional Development Agencies, English Partnerships, Urban Regeneration Companies, local government, Business Improvement Districts, section 106 agreements, and private sector funding.

Mr. Rosindell: To ask the Deputy Prime Minister if he will make a statement on future plans for the regeneration of *(a)* the London borough of Havering and *(b)* Romford town centre. [189228]

Phil Hope: Government plans for Havering include an investment of £6 million to improve the public transport interchange at Rainham station through the Office of the Deputy Prime Minister's Thames Gateway Programme. The Office of the Deputy Prime Minister is also supporting the opening up of Rainham Marshes, providing £2 million to enable the public to have improved access to the Marshes.

Future plans include proposals for Havering Riverside, which is identified as a major location for growth in the Office of the Deputy Prime Minister's "Creating Sustainable Communities" (published July 2003) and is an Opportunity Area in the London Plan. The regeneration strategy will be taken forward by the Mayor, the London Borough of Havering and the London Thames Gateway Development Corporation through the East London sub-regional development framework.

The London Plan sets the framework for the scale of growth of Romford within London and the east London sub-region. The Mayor of London's sub regional development framework, currently in preparation, will also address the issue of regeneration in Romford. However, the main vehicle for bringing forward detailed proposals is the review of the Unitary Development Plan.

Mr. Rosindell: To ask the Deputy Prime Minister what assessment he has made of the implications for revitalising town and city centres of the Government's plans to build more new and affordable homes. [189229]

Keith Hill: No specific assessment has been made of the implications for revitalising town and city centres of the Government's plans to build more new and affordable homes.

However, there is considerable evidence of urban renaissance in towns and cities across the country, and much of this recent investment has included residential development.

Major mixed use developments like the new Bull Ring in Birmingham, and investment in new or improved civic squares, high quality architecture like the Lowry Centre in Salford, the Urbis Building in Manchester, the Winter Gardens in Sheffield and the Newcastle-Gateshead Millennium Bridge, have played a key role in encouraging population growth in town and city centres.

For example, Manchester's city centre population rose from under 1,000 in 1991 to over 15,000 today. Liverpool's has increased from 2,300 to more than 9,000 over the same period. Birmingham, Leeds and Bristol have experienced similar growth.

In short, revitalising town and city centres is a vital element in delivering the government's housing plans.

Mr. Rosindell: To ask the Deputy Prime Minister what assessment he has made of the impact of the Government's Sustainable Communities Plan on town centres which are not included in the Plan, with particular reference to Romford. [189231]

Phil Hope: "Sustainable Communities: building for the future" is a policy document, which identifies growth areas, including Thames Gateway, but also refers to growth across London. Proposals in "Sustainable Communities" have to be tested through the normal regional and local plan making process, and any specific proposals for development would be the subject of planning applications. The impact of the proposals, including any impact on nearby town centres, would be considered through these processes.

Mr. Rosindell: To ask the Deputy Prime Minister if he will make a statement on regeneration of town centres in London. [189232]

Keith Hill: Government policy, set out in Planning Policy Guidance Note 6 (Town Centres and Retail Development) seeks to encourage regeneration of town centres.

Within London, policy on the regeneration of town centres is principally a matter for the Mayor of London and the London boroughs. The London Plan sets out the general policy of promoting the strategic importance of London's town centres in accommodating economic growth, meeting the needs of Londoners and improving the sustainability of London's development. It also seeks to ensure that there is a robust strategy for each town centre taking account of the relationship with nearby centres. The local development frameworks to be prepared by the London boroughs will ensure that there is full community involvement in the development of regeneration proposals and are intended to promote a positive approach to managing development.

Brownfield/Greenfield Land

Llew Smith: To ask the Deputy Prime Minister what his estimate is of the area of *(a)* brownfield land and *(b)* greenfield land that will be used to deliver his Department's household projections in England by 2021 published on 8 September. [189340]

Keith Hill: The Government do not make estimates of land required to deliver household projections as it is the responsibility of Regional Planning Bodies and Local Planning Authorities to consider the amount of land needed for housing. However, the Government are committed to maximising the re-use of brownfield land. The Office of the Deputy Prime Minister set a target that by 2008, 60 per cent. of additional housing should be provided on previously-developed land and through conversions of existing buildings. In 2002 the actual proportion was 66 per cent.

The Planning and Compulsory Purchase Act 2004 requires Regional Planning Bodies to prepare statutory Regional Spatial Strategies, replacing existing Regional Planning Guidance. These strategies will be required to identify the amount and distribution of housing in each region having regard to the Government's latest published household projections and national planning policy for housing as set out in PPG3. They will also need to consider other factors including the needs of the regional economy, environmental implications and the capacity of urban areas and existing or planned infrastructure to accommodate new housing.

Where the amount and location of previously-developed land varies across regions, Regional Planning Bodies and Local Planning Authorities are expected to work together to focus new housing in areas where previously-developed land is available in preference to developing greenfield sites. They should set out in their Regional Spatial Strategies and Local Development Frameworks targets for land recycling which contribute to the national target.

Castle Point Borough Council

Bob Spink: To ask the Deputy Prime Minister what the objectives are of the head official from his Department who has been placed with Castle Point borough council. [189467]

Mr. Raynsford: The objectives of the lead official who has been appointed to Castle Point borough council are to advise Ministers on the capability and capacity of the council to achieve sustained recovery following their assessment as 'poor' under the Comprehensive Performance Assessment and to monitor the implementation of the authority's recovery plan.

Bob Spink: To ask the Deputy Prime Minister how many hours per week will be spent in Castle Point borough council by the head official from his Department *(a)* within the council and *(b)* on the council's business. [189468]

Mr. Raynsford: The lead official has no fixed number of hours per week to work with Castle Point borough council, but will spend such time as is necessary to form a view on the council's prospects for recovery and to monitor its rate of progress. This will include time spent at the council's offices in discussion with members and officers.

Civil Service (Job Losses)

Bob Spink: To ask the Deputy Prime Minister which services within his Office will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the Civil Service announced in the Spending Review. [189631]

Phil Hope: I refer the hon. Member to the answer given by my right hon. Friend the Member for Brent, South (Paul Boateng) on 16 September 2004, *Official Report*, column 1659W.

Compulsory Purchase Orders

Mr. Wood: To ask the Deputy Prime Minister how many compulsory purchase orders have been *(a)* initiated, *(b)* successfully completed and *(c)* completed at the initial price in the last two years; and what the most common obstacles for completion of such orders are. [189494]

Keith Hill: This information is not held centrally and could be provided only at disproportionate cost.

Failing Councils

Bob Spink: To ask the Deputy Prime Minister what criteria he considers in deciding whether to place a district or borough council which is judged as failing under administrative control; and if he will list the councils where this *(a)* has taken place and *(b)* is under consideration. [189353]

Mr. Raynsford: The Government's powers to intervene in the manner in which a local authority exercises its functions are set out in section 15 of the Local Government Act 1999 and may be used where the Secretary of State, my right hon. Friend the Deputy Prime Minister is satisfied that the authority in question is failing to meet its statutory duty to achieve best value, as set out at section 3 of the same Act.

The Office of the Deputy Prime Minister has so far used these powers on two occasions; in respect of the London Borough of Hackney, in 2001; and in respect of Kingston-upon-Hull council, in 2003.

Market Towns

Mr. Rosindell: To ask the Deputy Prime Minister how many visits he has made to market towns over the past 12 months. [189234]

Phil Hope: In the last twelve months my right hon. Friend the Deputy Prime Minister has visited a number of market towns on departmental business including market Warsop, Bingley, Kendal and Harrogate.

Millennium Dome

Bob Spink: To ask the Deputy Prime Minister how many people are employed on the Millennium Dome project; and what the total wage bill is for this financial year. [189312]

Keith Hill: English Partnerships (EP) currently employs seven members of staff at the Millennium Dome, at an annual salary cost of £225,756. This does not include those other EP corporate staff who may spend part of their time dealing with Dome-related matters as part of normal business, but who are not employed exclusively in relation to the Dome or the Greenwich Peninsula.

Parish Boundaries

Mr. Hunter: To ask the Deputy Prime Minister if he will take steps to ensure that *(a)* local authorities and *(b)* parish councils are obliged to inform landowners of proposed changes to parish boundaries which might affect the prospect of housing development on their land. [189530]

Mr. Raynsford: Procedures to be followed by local authorities when consulting on reviews of parish arrangements in their area including any proposed changes to parish boundaries are contained in the Local Government and Rating Act 1997.

Local authorities are under statutory obligation to secure that persons who may be interested in proposals to change parish boundaries are informed of reviews and recommendations. This may include advertising in the local press, notices in local libraries and, particularly in smaller areas, an individual notification to affected households. In areas that are already parished it may be appropriate to call a parish meeting to consider proposals to change parish boundaries.

Planning Guidance (Rural Areas)

Sir Michael Spicer: To ask the Deputy Prime Minister what assessment he has made of the effects of planning guidance on *(a)* B1 and *(b)* B8 categories in rural areas; and what plans he has to issue further guidance on these categories. [189379]

Keith Hill: No specific assessment of this kind has been made. The Office of the Deputy Prime Minister commissioned a wider study into planning for economic development. The report of this study, which we published in May 2004, will help inform the review of national planning policy guidance, including Planning Policy Guidance note 4, "Industrial and Commercial Development and Small Firms".

In August 2004 the Office of the Deputy Prime Minister published Planning Policy Statement 7 (PPS7), "Sustainable Development in Rural Areas". PPS7 makes clear that local planning authorities should plan for and support a range of economic activity in rural areas, subject to sustainability considerations and with most new development being focused on existing towns and villages.

Copies of PPS7 and the research report, "Planning for Economic Development" are available in the Library of the House.

Rossendale Council (Asset Sales)

Janet Anderson: To ask the Deputy Prime Minister whether his Department has had discussions with Rossendale borough council about the possible sale of the site of the former civic hall in Whitworth. [188492]

Phil Hope: Within the context of the Office of the Deputy Prime Minister's monitoring the council's overall performance, the topic of asset management is periodically discussed with the council. However decisions concerning asset sales are taken solely by the council.

Janet Anderson: To ask the Deputy Prime Minister if he will list requirements made by his Department of Rossendale borough council in respect of asset sales. [188493]

Phil Hope: My right hon. Friend the Deputy Prime Minister has no requirements of Rossendale borough council (RBC) in relation to asset sales other than those generally required by law. Like all local authorities, RBC is expected to submit its asset management plan to its regional Government office for assessment, with the aim of reaching a "Good" standard. As a council categorised as poor under the Comprehensive Performance Assessment regime, RBC is also required to agree an Improvement Plan with the Office of the Deputy Prime Minister, against which its performance is regularly monitored.

Smoke Alarms

Bob Spink: To ask the Deputy Prime Minister what his policy is on encouraging further take-up of smoke alarms in domestic properties; and if he will make a statement. [189309]

Mr. Raynsford: Most fire and rescue services already undertake work to encourage and publicise fire prevention, including installing smoke alarms for vulnerable households. Smoke alarm ownership in the home has increased from nine per cent. in 1987 to the current level of 80 per cent.

The National Fire and Rescue Framework sets out the Government's objectives to increase smoke alarm ownership. Fire and rescue services are encouraged to implement smoke alarm installation programmes, targeting those at most risk by offering fire safety advice to householders and supplying and fitting smoke alarms free of charge where a dwelling has none. To underpin this work, a key feature of the Fire and Rescue Services Act 2004, is the new duty on all fire and rescue services to promote fire safety in their area.

The Government will continue to promote smoke alarm ownership through a series of national community fire safety campaigns.

Supporting People Programme

Mr. Hancock: To ask the Deputy Prime Minister pursuant to the answer of 7 September 2004, *Official Report*, column 1172W, on the Supporting People programme, what *(a)* monitoring and *(b)* research he has conducted on the operation of the Supporting People programme in the last three years; and if he will make a statement. [189118]

Keith Hill: The Supporting People programme has been in operation since 1 April 2003. Since this time, the Office of the Deputy Prime Minister has undertaken—and continues to undertake—comprehensive monitoring and research of its operation to enable the Government to better understand the programme and to ensure that it is meeting the housing related support needs of vulnerable people. This includes:

(a) continuing and regular monitoring of the effectiveness of the Supporting People programme on a variety of information including progress with reviews, contracting and the operation of the Commissioning Body. Data are collected from Administering Authorities on a quarterly basis and analysed, this helps us to ascertain if any authorities are struggling and what support they might need. The Office of the Deputy Prime Minister is also now collecting and analysing data on a quarterly basis from Administering Authorities in relation to Supporting People key performance indicators.

(b) Undertaking research into the Supporting People programme. Research that has been published, or is due for publication includes:

Value for Money analysis, Starfish. Published April 2003.

Developing an Allocation Formula, Matrix MHA. Published April 2003

Support Needs of Homeless Households, Research and Information Services. Published December 2003

Review of the Supporting People Programme: Independent Report, RSM Robson Rhodes. Published February 2004

Review of development of policy and costs of housing related support, Matrix. Published March 2004

Analysis of local Supporting People shadow strategies, Leeds Metropolitan University. Published June 2004

Developing a Distribution Formula, Matrix MHA. Underway, due to complete October 2004.

SP Benefits Realisation, Matrix. Due to be published Autumn 2004.

Baseline User Survey, BMRB Social Research. Due for publication Autumn 2004.

Service Packages Project, Matrix. Due to be published Autumn 2004.

Safer Communities Supported Housing Fund Evaluation including Teenage Parent ADP evaluation, School for Policy Studies, University of Bristol. Underway, due to complete 2006.

Health pilots, University of Bristol. Underway, due to complete 2006.

Sustainable Communities Plan

Mr. Rosindell: To ask the Deputy Prime Minister if he will make a statement on progress with the Government's Sustainable Communities Plan. [189233]

Keith Hill: The Office of the Deputy Prime Minister is making excellent progress with the Sustainable Communities Plan. Following the 2004 Spending Review, we will spend £38 billion on creating sustainable communities over five years to March 2008. Since 2002, this money has already helped to increase housebuilding by 10 per cent., delivered 34,553 affordable homes for rent and assisted over 10,000 key workers into home ownership. The Office of the Deputy Prime Minister has cut rough sleeping by over 70 per cent. since 1998 and we are exceeding our target to build 60 per cent. of new homes on brownfield land. Since 1997, the Office of the Deputy Prime Minister has made around £1 million social homes decent and increased grant to local authorities by 30 per cent. in real terms. The Office of the Deputy Prime Minister will celebrate this success with the international Sustainable Communities Summit, in Manchester, in January 2005.

Telecommunications Masts

Bob Spink: To ask the Deputy Prime Minister on how many occasions in each of the last five years a local planning authority has paid costs to the communications industry as a result of losing an appeal following refusal of permission for new or additional antennae. [189558]

Keith Hill: The information requested is not held centrally, and could be provided only at disproportionate cost. The Planning Inspectorate maintains an annual statistics report, but these figures cannot be obtained from that report. This question could not be answered without specific research.

Unauthorised Roadside Sales

Bob Russell: To ask the Deputy Prime Minister what advice he has given to local authorities on dealing with unauthorised sales carried out on roadside sites; and if he will make a statement. [187984]

Mr. Morley: I have been asked to reply.

Defra is currently consulting through it's 'Clean Neighbourhoods' document on a raft of measures that will improve the suite of powers available to local authorities in the management of our local environment. These would be taken forward once a suitable legislative opportunity arises. The document includes proposed measures on nuisance vehicles.

The proposal is to create a definition of 'nuisance' vehicle that would include vehicles that were detrimental the amenity of an area or causing a nuisance. Local authorities would have the power to remove these vehicles immediately and recover the costs of doing so. It would become a prosecutable offence for being responsible for such a vehicle.

What constitutes a nuisance or detrimental to the amenity of an area would be clarified in regulations and will be subject to the results of the consultation. Vehicles which are placed on the highway for sale is being considered as part of this process.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Wood: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the human rights of women and children jailed in Afghanistan under the Taliban regime for misdemeanours who remain in prison. [189501]

Mr. Rammell: Life has improved in Afghanistan for all, including women and children, since the fall of the Taliban. Prison conditions have also improved, although there is still a lot to do, and the UK remains concerned about some of the reported conditions in prisons across Afghanistan. We are aware that there are still cases where women remain in prison who have been jailed for committing 'crimes' such as being raped or being abandoned by their husbands. We are pushing the Afghan Government to implement fully international human rights standards, including the humane treatment of prisoners. We welcomed President Karzai's decree on prisoner release last month and are pressing for this to be enforced. In practical terms, the UK has given £1 million to support the work of the Afghanistan Independent Human Rights Commission (AIHRC), which has a particular focus on the rights of women and children. The UK has also supported the NGO Womankind, whose projects included working with inmates at a women's prison in Kabul.

Bangladesh

Mr. Soley: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in Bangladesh; and if the UK will assist in dealing with attacks on political activists. [189298]

Mr. Alexander: We are concerned about the current political situation in Bangladesh and the poor relationship between the two main political parties. This continues to detract from the proper functioning of the country's democratic institutions. We regularly urge the Prime Minister and Leader of the Opposition to take a constructive and co-operative approach to tackle the key challenges that Bangladesh faces.

We have been shocked by recent violence in Bangladesh, especially the attack on an opposition rally in Dhaka on 21 August. In a public statement on 22 August, my right hon. Friend the Foreign Secretary condemned this attack and called on all concerned to refrain from further violence and to exercise restraint. A copy of this statement is available on the Foreign and Commonwealth Office website: www.fco.gov.uk/news/press-releases. He also called on the Bangladeshi authorities to ensure that those responsible are brought to justice. On 26 August EU Heads of Mission, including the British High Commissioner, called on the Bangladeshi Foreign Minister to deliver an EU declaration condemning the attack, and affirming the importance of adequate protection to all political groups. We continue to emphasise these messages through our High Commission, and remain ready to assist the Bangladeshi authorities where we can.

Colombia

Julie Morgan: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on UK relations with Colombia. [188583]

Mr. Rammell: The UK has good relations with Colombia. We support the efforts that President Uribe is making to bring peace and security to his country in the face of the huge problems that Colombia faces. The armed conflict, fuelled by the illegal drugs trade, causes great suffering to the Colombian people. Cocaine from Colombia also causes great harm in the UK. Human rights form a central component of our policy on Colombia. We consistently urge the Colombian Government to take stronger action to improve the human rights situation in the country, and in particular to ensure that UN recommendations regarding human rights are implemented. To achieve this goal, we are working closely with the Colombian Government and other partners, including the UN, EU, NGOs and the trades unions.

Julie Morgan: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the killing of the trade unionists Leonel Goyeneche, Hector Alirio Martinez and Jorge Prieto Chamucero in Arauca, Colombia this year and *(b)* the implications for human rights in that country. [188584]

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of

Colombia on the murder on 5 August of trade unionists Jorge Chamucero, Hector Martinez and Leonel Goyeneche; and if he will make a statement. [189382]

Mr. Rammell: I have expressed our concerns about the deaths in Arauca personally with President Uribe of Colombia when we met at the Panamanian presidential inauguration on 1 September. I raised them again with the Colombian Foreign Minister when we met in London on 8 September 2004. Our Embassy in Bogota has also raised the case at the highest level. We made it clear at the outset that in our view, given the circumstances, a civil investigation, rather than a military one, should be undertaken into these deaths. As I told President Uribe, we were therefore pleased that the Colombian Government did decide to pursue this course of action, and that NGOs and trades unionists locally were kept informed of the process. The Colombian Government made it clear that if a human rights abuse had been committed, they too would find it unacceptable and would take strong measures against the perpetrators. We note that, following the investigation, the Prosecutor General has ordered the arrest of the military personnel involved in the deaths.

We continue to urge the Colombian Government to implement all outstanding UN human rights recommendations. We have made it plain that we are very willing to assist in this process, and with other partners are in close touch with the Colombian Government, the UNHCHR Representative, NGOs and trades unions to help carry matters forward.

Correspondence

Mr. McNamara: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to reply to a letter from the hon. Member for Kingston upon Hull, North forwarded to the Foreign Office by the Prime Minister's Communications Unit on 18 August. [189327]

Mr. Rammell *[holding answer 16 September 2004]*: My noble Friend the Baroness Symons of Vernham Dean replied to my hon. Friend on 17 September 2007.

Cuba

Mr. Wood: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations the UK has made to the *(a)* US Administration and *(b)* United Nations on lifting the US trade embargo against Cuba. [189495]

Mr. Rammell: The UK's policy on Cuba, and its position on the embargo, is well understood by the US Administration. We—and our EU partners—believe in constructive engagement and dialogue with the Cuban authorities, and we make our objections against the US embargo known every year at the United Nations General Assembly. On 4 November 2003, we again voted to adopt the resolution on the necessity of ending the economic, commercial and financial embargo imposed by the USA against Cuba.

Departmental Services

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs which services within his Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189633]

Mr. Alexander: I refer the hon. Member to the reply my right hon. Friend the Chief Secretary to the Treasury (Mr. Boateng) gave him on 16 September 2004, *Official Report*, column 1659W.

EU Constitution

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of printing the Government's recent White Paper on the EU Constitution; whether this document will be posted with the proposed Constitution to every household in the UK; and what estimate he has made of the cost of printing 30 million copies of the White Paper. [189346]

Mr. Straw: The cost of printing 1,500 copies of the Government's White Paper on the Treaty establishing a Constitution for Europe was £2,385. There are no plans currently to send the White Paper to every household in the UK. As no tendering process has yet been entered into for this work a cost estimate is not available at this time. A copy of the White Paper is available online at www.europe.gov.uk.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the cost of posting a copy of the proposed EU Constitution to every household in the UK; whether other Government literature will be enclosed; and when he expects this mass-mailing to take place. [189347]

Mr. Straw: No decisions have yet been made on the distribution of the proposed EU Constitutional Treaty. As no tendering process has yet been entered into for sending a copy to every household a cost estimate is not available at this time. A copy of the Provisional Treaty text is available online at www.europe.gov.uk.

EU Directives

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the EU directives outstanding without implementation *(a)* over two years, *(b)* over three years, *(c)* over four years and *(d)* over five years for each member state. [189520]

Mr. MacShane: The European Commission is responsible for monitoring and enforcing the implementation of Directives in EU member states. The best available data on member states progress in implementing Directives is therefore available on the Commission's own website at: http://www.europa.eu.int/comm/secretariat_general/sgb/droit_com/pdf/mne_country_20040831_en.pdf).

The European Commission's Single Market Scoreboard also records implementation relating to the Internal Market. The full text of the latest Internal Market Scoreboard is at: http://www.europa.eu.int/comm/internal_market/score/index_en.htm.

Explosion (Yanggang Province)

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on reports of a large explosion in Yanggang Province in North Korea on North Korea's National Day this year. [189345]

Mr. Straw: I refer the right hon. and learned Gentleman to the written statement made by my hon. Friend the Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Bill Rammell) on 16 September 2004, *Official Report*, columns 186–88WS, concerning his visit to the Democratic People's Republic of Korea.

General Affairs and External Relations Council

Mr. Hood: To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome was of the General Affairs and External Relations Council held on 13 September; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [189216]

Mr. MacShane: The answer is as follows:

Outcome of the 13 September 2004 General Affairs and External Relations Council

My right hon. Friend the Foreign Secretary, John Grant (UK's Permanent Representative to the EU) and I represented the UK at the General Affairs and External Relations Council (GAERC) in Brussels on 13 September.

Conclusions were agreed on Sudan/Darfur, Great Lakes Region, ASEM, Iraq and Belarus.

General Affairs Session

EU Financial Framework For 2007–2013

The Council held a policy debate on the proposed EU financial framework for the 2007–13 period, endorsing the methodology proposed by the Presidency for work on the dossier until the end of the year with the aim of enabling agreement to be reached during 2005.

The Council also took a number of decisions without debate, such as the conclusions on progress in planning operation ALTHEA in Bosnia-Herzegovina, and a list of the 24 persons it intends to appoint as Members of the Commission for the 2009 period.

External Relations Session

Sudan/Darfur

The Council remained concerned about the situation in Darfur. It expressed readiness to support the African Union (AU) mission in the region and to contribute to an expanded mission. It also agreed that the EU will take appropriate measures, including sanctions, against the Government of Sudan and all other parties if no tangible progress is achieved in meeting the Council's and the UN Security Council's demands. Conclusions were agreed.

Great Lakes Region

The Council expressed concern over the recent increase in tension in the region and urged the leaders of the Democratic Republic of Congo (DRC) and Burundi as well as neighbouring countries, in particular Rwanda and Uganda, to continue implementation of their respective peace accords. The Council reaffirmed its conviction that the resolution of conflicts in the Great Lakes Region requires a regional approach. The Council also supported a more focused and robust mandate of MONUC (United Nations Mission in the DRC). Conclusions were agreed.

ASEM

The Council reviewed the issue of ASEM (Asia-Europe meeting) enlargement from the perspective of the upcoming ASEM Summit in Hanoi (8 October) and underlined the importance it attached to EU-Asia relations. It decided that, in the absence of progress in Burma by the time of the Summit, it would tighten restrictive measures against the regime and increase support to the Burmese people. Conclusions were agreed.

Iran

Ministers discussed the Iranian nuclear issue over lunch. They confirmed their full support for the efforts undertaken by France, Germany and the UK and reiterated their request to Iran to comply with suspension commitments. Ministers also discussed human rights in Iran.

Iraq

The Council expressed its strong condemnation of the continued kidnappings and acts of terrorism in Iraq and called for all hostages to be immediately released unharmed. Endorsing the preliminary findings of an EU exploratory mission in Iraq concerning possible EU activities in the field of civilian crisis management, it asked for these findings to be further examined and elaborated with a view to assistance proposals being prepared in good time for the 5 November European Council. Conclusions were agreed.

Belarus

The Council discussed its concerns over the proposed presidential referendum, which is to be held in parallel with the parliamentary elections on 17 October 2004. This change to the constitution will allow the president to run without limitation in future presidential elections. The Council stressed the need to hold such a referendum in accordance with OSCE and Council of Europe standards and norms. It underlined the need for a fair and constructive dialogue with the opposition before any referendum on changing the constitution could be conducted. Furthermore, there should be an improvement in the freedom of access to the media for all political groupings.

The Council once again reiterated its hope that Belarus will take its rightful place among European democratic countries. Conclusions were agreed.

AOB—Western Balkans

The Hungarian delegation raised the question of violent incidents in Vojvodina (Serbia). The Presidency asked EU Heads of Mission and the EU Monitoring Mission to report on these developments.

AOB—Libya

The Italian delegation asked for a possible derogation to the arms embargo against Libya to allow for co-operation in the field of illegal immigration to be taken up in the Council bodies.

Gibraltar

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with Spanish counterparts concerning the re-opening of discussions on sovereignty-sharing over Gibraltar; when these discussions took place; and which country initiated the talks. [188484]

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on diplomatic discussions between his Department and the Spanish Government over joint sovereignty of Gibraltar. [189196]

Mr. Straw *[holding answer 14 September 2004]:* Members of my Department have regular discussions with their Spanish counterparts on a wide range of issues, as do I and my ministerial colleagues. It is natural that these should include Gibraltar. Since the election of the PSOE government, the Spanish side has several times expressed a wish to re-open discussions on a number of issues concerning Gibraltar, including sovereignty. As we have consistently made clear, there will be no change to Gibraltar's sovereignty without the consent of the people of Gibraltar.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many hostile actions have been taken against Gibraltar by Spain in each of the last three years. [189194]

Mr. MacShane: The daily lives of Gibraltarians in a number of areas have faced difficulties in recent years. Examples include delays in crossing the border, disruption to cruise ship movements, a limit on the provision of telephone connections to Gibraltar and restrictions on the use of airspace and diversion of incoming flights.

My ministerial colleagues and I raise these issues when we meet our Spanish counterparts, and press them to rethink their approach. I have made clear in public in Spain and in Spanish when necessary that such actions are neither justified, nor helpful, nor acceptable.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the celebrations to mark the 300 years of British rule over Gibraltar. [189195]

Mr. MacShane: We are playing a full part in celebrating the warm relationship that we have enjoyed with the people of Gibraltar for the past 300 years. The Government are participating in an extensive programme of commemorative events taking place in both Gibraltar and the UK. The Royal Gibraltar Regiment and military units from the United Kingdom, including the Royal Marines, the Royal Engineers, the Royal Air Force, Royal Navy ships and the Royal Fleet Auxiliary are taking part in a total of more than 20 events throughout the year. My right hon. Friend the Defence Secretary visited Gibraltar on 4 August to be present at events celebrating the Tercentenary and the granting of the Freedom of the City to the Royal Navy. My right hon. Friend the Foreign Secretary hopes to attend an event in the UK to commemorate the Gibraltar Tercentenary later this year.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what impact the change of government in Spain has had on discussions on Gibraltar. [189244]

Mr. MacShane: Following the change of government in Madrid, Ministers and officials have continued to have regular discussions with their Spanish counterparts on a wide range of issues. It is natural that these should include Gibraltar.

There are signs that the Spanish Government is prepared to consider greater co-operation with Gibraltar, including between local authorities in the Campo region. I welcome this, and encourage such contacts. But, as I have made clear to my Spanish counterpart, there will be no change in Gibraltar's sovereignty without the consent of the people of Gibraltar.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what ministerial visits to Gibraltar are planned over the next 12 months. [189245]

Mr. MacShane: Foreign engagements for my right hon. Friend the Foreign Secretary and other Ministers are kept under constant review. It is not our practice to announce such visits until they are firm. Because of the unpredictable nature of world events, final decisions on overseas visits are often not possible until very shortly before the day of travel and occasionally not until they are underway.

Heads of Government (British Citizenship)

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* United Kingdom passport holders and *(b)* individuals granted British citizenship are permitted to retain this status if they become head of government of a foreign state. [189103]

Mr. Mullin: A person holding British citizenship may continue to retain this status upon becoming the head of government of a foreign state, whether or not they hold a UK passport.

Iceland

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on Iceland joining the European Union. [189240]

Mr. MacShane: As I discovered for myself when I visited Iceland on 21–22 July, there is currently an informed debate in Iceland about the pros and cons of European Union membership. Iceland is already a member of the European Economic Area and the Schengen free movement zone. It is for the Icelandic people themselves to decide whether to join and of course the United Kingdom would welcome Iceland as a partner in the EU.

Information and Communication Technology

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs how many information and communication technology specialists are in full-time employment in the Department. [189585]

Mr. Alexander: The Foreign and Commonwealth Office employs 354 full-time Information and Communication specialists.

Intelligence Sharing

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the extent to which British intelligence on relevant security issues and global terrorism is shared with the Russian authorities. [189291]

Mr. Straw *[holding answer 16 September 2004]:* The British and Russian security and intelligence services continue to cooperate in the campaign against global terrorism. We value such cooperation with the Russians as with other countries. The details of intelligence exchanges are confidential. I am withholding further details under exemptions 1*(a)* and 1*(c)* of Part 2 of the Code of Practice on Access to Government Information.

International Atomic Energy Agency

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals the United Kingdom plans to put to the conference on the global threat reduction initiative at the International Atomic Energy Agency meeting in Vienna on 18 and 19 September; and whether non-governmental organisations will be given *(a)* access and *(b)* accreditation to the conference. [189110]

Mr. MacShane: The UK did not put new proposals to the Conference on the Global Threat Reduction Initiative in Vienna on 18 and 19 September. We are already carrying out work in this area through the Global Partnership, and will listen with interest and respond to any proposals made by other countries. The meeting will be open for NGOs to register and attend.

Iran

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations concerning Iran's nuclear programme the Government will make to the International Atomic Energy Agency in its September meetings; and if he will make a statement. [189092]

Mr. Straw: Together with the Governments of France and Germany the UK has drafted a resolution on Iran for discussion at the current meeting of the Board of Governors of the International Atomic Energy Agency (IAEA).

As has been recent practice, UK statements on Iran at the Board of Governors' meeting and to the IAEA General Conference will be published once they have been delivered.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has received since February from human rights organisations operating in Iran; and if he will list the human rights violations those organisations reported. [189093]

Mr. Straw: The Foreign and Commonwealth Office maintains close contacts with the semi-official Islamic Human Rights Commission in Tehran, other individuals and organisations in Iran with an interest in human rights issues, and international human rights organisations which follow events in Iran. These individuals and organisations continue to report a wide range of human rights violations in Iran. Because human rights violation is so widespread in Iran, and because many of the representations we receive are confidential in nature, we cannot list here all the individual violations reported to us.

We continue to make our views on human rights clear to the Iranian authorities bilaterally, through the European Union and through action at the United Nations, and to press them to bring their practices into line with international law and standards.

Iraq

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 3 August 2004, *Official Report*, column 683W, on Iraq, whether hon. Members other than Ministers had an input into the preparation of the September 2002 Dossier, Iraq's Weapons of Mass Destruction. [188758]

Mr. MacShane: As I made clear in my answer on 3 August (published on 1 September 2004, *Official Report*, column 683W), the Joint Intelligence Committee was responsible for producing the dossier. The final draft was made available for information to members of the Intelligence and Security Committee.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs when he was informed that post-war validation had raised serious doubts about the reliability of reporting from the sub-source referred to in paragraph 403 of the Butler Report. [189278]

Mr. Straw *[holding answer 16 September 2004]:* These matters have been examined exhaustively in the course of the Butler review and other inquiries. All relevant information has been placed in the public domain insofar as that could be done without prejudicing national security.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 1 September 2004, *Official Report*, columns 683–4W, on Iraq, when the translation of Iraq's declaration of the status of its programmes of weapons of mass destruction was completed; and if he will place a copy of the translation in the Library. [189288]

Mr. MacShane *[holding answer 16 September 2004]:* Translation of the text of the declaration, of which 648 pages were in Arabic, was completed on 20 December 2002.

The supporting documentation (much of which consisted of purchase orders and invoices) were reviewed, summarised and assessed over the ensuing weeks, and this work had been completed by 19 March 2003.

The declaration remains a confidential document of the United Nations, and I cannot, therefore, place a copy in the Library of the House.

Islamic Organisations

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with prominent Islamic organisations in the UK. [189136]

Mr. Straw: The Foreign and Commonwealth Office (FCO) and FCO Ministers regularly meet a wide range of Muslim organisations, both nationally and locally, as Ministers travel to the regions regularly to meet grassroots organisations. Some of the national organisations include the Muslim Council of Britain, Islamic Society of Britain, Islamic Forum Europe and Union of Muslim Students, among others.

The topics of discussion include a wide range of foreign policy issues of interest to the Muslim community.

Israel

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence he has reviewed on the *(a)* development and *(b)* use of (i) biological and (ii) chemical weapons and agents by Israel. [189295]

Mr. MacShane *[holding answer 16 September 2004]:* We are aware of no credible evidence of development or use of chemical or biological weapons or agents by the State of Israel. Israel has signed, but not ratified, the Chemical Weapons Convention and has neither signed nor ratified the Biological and toxin Weapons Convention. It therefore has no legal obligation not to develop these weapons, and nor is it subject to any international monitoring.

Krishna Maharaj

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs what information has been made available to the Consular Service, in relation to Krishna Maharaj, on the failures to investigate Adam Hosein and Jamie Majais for possible involvement in the murders of Duane and Derrick Moo Young. [189137]

Mr. Mullin: These are a matter for Mr. Maharaj's legal team. The Government remain in close contact with Mr. Maharaj's lawyers who update us on developments in the case and on various avenues they are pursuing.

Maldives

Mr. Soley: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* political situation in the Maldives and *(b)* arrest of Members of Parliament. [189299]

Mr. Alexander: We have welcomed recent moves towards further democratic reform in the Maldives, in particular the proposals in President Gayoom's speech of 9 June. My right hon. Friend the Foreign Secretary wrote to the President in July to express our support for many of his proposals and to encourage him to ensure that a free and open debate on reform in the Maldives is allowed. We are concerned at the continuing detention of many of those arrested following the pro-reform demonstrations on 12 and 13 August, including members of the Special Majlis, and have urged the Government to repeal the state of emergency, restore all fundamental rights to the detainees, and reconvene the Special Majlis.

Middle East

Mr. Clappison: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Syrian policy towards terrorism in the Middle East; and what representations he has made to the Syrian Government about the presence of Hamas in Syria. [188813]

Mr. MacShane: We have continuing concerns about Syrian support for Palestinian terrorist organisations and judge that Syria can do more to constrain their activities. While office closures are welcome, Syria should more tightly control the activities, including the travel and contacts with the Occupied Territories, of known Hamas, Palestinian Islamic Jihad and other leaders. We have repeatedly made our views known to the Syrian authorities.

Muslims (Human Rights Abuses)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made regarding abuses of human rights against Muslims who choose to convert to another faith; and if he will make a statement. [189301]

Mr. Rammell: The Government condemn instances where individuals are persecuted because of their faith or belief, wherever these happen and whatever the religion of the individual or group concerned. We are concerned about the plight of apostates throughout the world including those Muslims who are punished for choosing to convert to another faith. Both bilaterally and with our EU partners we regularly raise specific cases of religious persecution with the Governments concerned. Over the past year we have formally raised the treatment of religious minorities with both the Pakistani and Bangladesh Governments. The Foreign and Commonwealth Office's Panel on Religious Freedom, which brings together representatives from all of the faith communities in the UK, has also discussed the issue of apostasy.

Non-EU Countries (Governmental Visits)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs from which non-EU countries' governments inward visits to the UK are planned in the next three months. [189305]

Mr. Rammell: The President of Korea Mr. Roh Moo-hyun accompanied by Mrs. Roh Moo-hyun will pay a State Visit to the United Kingdom in December.

Dr. Manmohan Singh, Prime Minister of the Republic of India arrived in the United Kingdom on 15 September for a two-day visit as a Guest of Her Majesty's Government. No other non-EU Guest of Government visits are planned within the next three months.

The Foreign and Commonwealth Office also sponsors visits which enable influential individuals, e.g. Parliamentarians, and public servants to carry out a

working programme in their area of expertise. The full programme of visits for the next three months is not yet fixed but is expected to include visitors from China, Nigeria, Taiwan, Argentina, Vietnam, Malaysia, the Gambia, Afghanistan, Egypt, Bahrain, Syria and other Middle Eastern countries, South Africa, Sudan, Japan, India, Zambia, Russia, Pakistan, Bolivia, Uruguay, Mexico, Sri Lanka, Seychelles, Mauritius, Ghana, Tanzania, USA, Peru and Philippines.

Nordic Countries

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs what bilateral meetings are planned between the UK and the Nordic countries. [189241]

Mr. MacShane: Frequent bilateral meetings of Ministers, officials and parliamentarians take place between the United Kingdom and the Nordic countries on an ongoing basis. There is also frequent contact in the context of EU, NATO, UN and other multilateral meetings.

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on bilateral relations with *(a)* Iceland, *(b)* Denmark, *(c)* Norway, *(d)* Sweden, *(e)* Finland and *(f)* the Faroe Islands. [189242]

Mr. MacShane: Bilateral relations between the United Kingdom and the Nordic countries are excellent. Strong working relationships exist variously in the EU, NATO, UN and a wide range of international organisations. We co-operate closely on issues such as the environment, international development, human rights and peacekeeping. The UK has a healthy trading relationship with these countries. There are regular official and ministerial contacts and all party parliamentary groups have well-established links with the respective Parliaments. Further information about the relationship with individual Nordic countries can be found in the country profiles section of the Foreign and Commonwealth Office website: www.fco.gov.uk and web pages of each of our embassies.

Nuclear Non-proliferation Treaty

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received in respect of compliance with the Nuclear Non-Proliferation Treaty by *(a)* Iran, *(b)* North Korea, *(c)* South Korea and *(d)* the United Kingdom, with particular reference to provisions under articles one and six of the treaty. [189104]

Mr. MacShane: Issues of compliance with the Nuclear Non-proliferation Treaty (NPT) form an integral part of our dialogue with a number of Governments and other bodies. These include meetings of the review process of the NPT, the International Atomic Energy Agency, and the G8 non-proliferation meetings. My right hon. Friend the Foreign Secretary is confident that the United Kingdom continues to fulfil all of its obligations under Articles I and VI of the Treaty.

South Africa

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with *(a)* UK investors in the South African mining industry and *(b)* the South African Government on the implications of the South African Mineral and Petroleum Resources Development Act 2002 on the 1994 agreement between the Government of the Republic of South Africa and the Government of Great Britain and Northern Ireland for the Promotion and Protection of Investments, which came into force in 1994; when these discussions took place; and what mechanisms exist for settlement of claims UK investors may have against the South African Government resulting from the expropriation of privately-owned common law mineral rights under the 2002 Act.[189091]

Mr. Straw: Foreign and Commonwealth Office and UK Trade and Investment officials have regular discussions with UK companies investing in South Africa. In June 2002, I took the opportunity of a meeting with the South African Foreign Minister to underline the importance we attached to the South African Government consulting industry on the details of the draft Mining Bill.

Remedies exist for UK companies in dispute with the South African Government under South African law. In addition, under the provisions of the UK/South Africa Investment Promotion and Protection Agreement any dispute between a UK investor and the South African Government may be submitted to international arbitration.

Terrorism

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs which ethnic groups have been responsible for each of the 20 largest terrorist attacks, in terms of loss of life, across the world in the last four years; and if he will make a statement. [189311]

Mr. MacShane: The Government regard all acts of terrorism as criminal and unjustifiable, wherever and by whomever they are committed. Terrorism threatens democracy, and aims to destabilise legitimately constituted governments and undermine tolerance and the rule of law. The Government do not seek to assign responsibility specifically on the basis of ethnicity.

UN International Day of Peace

Mr. Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to encourage observance of the International Day of Peace declared by the United Nations General Assembly Resolution 36/67 of 30 November 1981, with particular reference to observance in the UK. [189143]

Mr. Rammell: The UK supports the initiative for an International Day of Peace, which aims to promote a global ceasefire and non-violence, including by encouraging rebel groups involved in conflict to agree to a cessation of hostilities to allow aid agencies to obtain access to civilians. General Assembly Resolution 36/67 first established an International Day of Peace, and the UK was a co-sponsor of General Assembly Resolution 55/282 of September 2001, which determined that this day would be observed on 21 September. The Foreign

and Commonwealth Office has provided support to the British NGO, 'Peace One Day', which campaigns to promote observance of this day both in the UK and worldwide.

Zimbabwe

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government have taken to protect current and former British passport holders in Zimbabwe. [189344]

Mr. Straw: We provide the same level of consular protection to British passport holders in Zimbabwe as to those in any other country. However, we are unable to provide consular protection to former British passport holders who have renounced their British citizenship to become single Zimbabwean nationals. Former British passport holders can apply to the Home Office, through the British Embassy in Harare, to have their citizenship re-instated, provided they meet the necessary criteria.

TRANSPORT

Roads (Luneside, East)

Geraldine Smith: To ask the Secretary of State for Transport what assessment has been made of vehicular access to Luneside East, Lancaster; and what estimate he has made of the change in traffic consequent on the Luneside East Development. [189548]

Mr. Jamieson: A traffic impact assessment was prepared for the Luneside East scheme and both Lancaster city council, as Planning Authority, and Lancashire county council, as Highway Authority, considered its traffic impacts. Both authorities concluded that traffic generated by the scheme could be accommodated by the existing road network and the city council, therefore, granted outline planning permission in December 2002.

Civil Service (Job Losses)

Bob Spink: To ask the Secretary of State for Transport which services within his Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189636]

Charlotte Atkins: I refer the hon. Member to the answer given by my right hon. Friend, Chief Secretary of the Treasury of 16 September *Official Report*, column 1659W.

Departmental Expenditure

Andrew Selous: To ask the Secretary of State for Transport how much his Department has spent on *(a)* mobile phones, *(b)* hospitality and *(c)* taxi costs in (i) 1996–97 and (ii) the latest year for which figures are available. [185245]

Charlotte Atkins *[holding answer 21 July 2004]:* The central part of the Department for Transport spent £15,000 on hospitality/entertainment in respect of all members of the Department in 2003–04. All expenditure on official entertainment and hospitality is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles set out in "Government Accounting". The giving and receiving of hospitality is conducted fully in accordance with the guidance set out in the "Ministerial Code, and Guidance on Contacts with Outside Interest Groups including Lobbyists".

Costs in relation to mobile phones and taxi costs are not readily available and would be so only at disproportionate cost.

The Department for Transport was established in 2002 and therefore figures are not available prior to this date.

Departmental Recycling

Bob Spink: To ask the Secretary of State for Transport what the latest available 12-month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188690]

Charlotte Atkins: The waste handling contract for the Department's London headquarters building enables us to recycle all documentation, paper and card. Our policy aim is to recycle 100 per cent. of paper and card and we provide separate bins for such material and encourage staff to use them. In 2003–04, this resulted in the Department recycling 53 tonnes of paper, which represented 44 per cent. of total waste recycled. As we only record figures for the amount of documentation, waste paper and card that is actually recycled, we are unable to say what proportion this represents of total disposal of all such materials.

To further encourage paper recycling the Department:

(a) only uses uncoated paper containing 100 per cent. post-consumer waste, and coated paper containing a minimum of 75 per cent. post-consumer waste;

(b) undertakes an annual review of its stocks of printed materials and organised the pulping of any deemed to be redundant, for recycling; and

(c) instituted a 'print-on-demand' facility, so that no more copies of printed materials need be produced than are forecast to be used.

The Department also manages an award-winning framework contract to procure recycled printing papers for all its printing needs. The contract let in partnership with Defra and DTI is currently used in total by 18 Departments, agencies and NDPBs, and the number is growing. The management and use of this contract by public bodies has so far:

(a) diverted over 22,000 tonnes of potential landfill back into use; *(b)* led paper mills to develop new recycled products; and

(c) contributed to improving the quality of those already on the market.

The Department in consultation with its agencies is considering how it will develop a corporate departmental sustainable waste management strategy as required under the Framework for Sustainable Development on the Government Estate. However, our already existing policy remains that as many waste streams as possible should be recycled where appropriate and possible.

Humberside Safety Camera Partnership

Mr. Greg Knight: To ask the Secretary of State for Transport how much money has been raised in gross by the Humberside Safety Camera Partnership in each year since its inception. [188573]

Mr. Jamieson: The Humberside Safety Camera Partnership joined the National Safety Camera Programme in April 2003. Partnership accounts are audited by an auditor appointed by the Audit Commission. The audited 2003–04 accounts for Humberside are not yet available.

Mr. Greg Knight: To ask the Secretary of State for Transport how many persons were employed by the Humberside Safety Camera Partnership at its inception. [188740]

Mr. Jamieson: The Humberside Safety Camera Partnership, made up of the police, magistrates courts and local authorities, joined the cost recovery programme in April 2003. It employed a complement of 48.6 full-time equivalent posts. This means that some staff spend part of their time with the partnership and the rest with their parent authorities.

London, Tilbury and Southend Line

Bob Spink: To ask the Secretary of State for Transport if he will make a statement on overcrowding on the London, Tilbury and Southend rail line. [189365]

Mr. McNulty: I refer the hon. Member to the written reply given to him on 13 September 2004, *Official Report*, column 1382W.

Bob Spink: To ask the Secretary of State for Transport what assessment he has made of the safety consequences of passengers standing on the London, Tilbury and Southend rail line; and if he will make a statement. [189366]

Mr. McNulty: None. Trains are designed to accommodate standing passengers and to operate safely when fully loaded.

Bob Spink: To ask the Secretary of State for Transport what assessment he has made of the impact on overcrowding on the London, Tilbury and Southend line of the removal of four four-coach Class 357 trains from that line. [189515]

Mr. McNulty: None. The redeployment of rolling stock was agreed by the Strategic Rail Authority (SRA) to cover a potential shortfall in rolling stock elsewhere on the network. The rolling stock formations now in use on the c2c route are expected to accommodate demand. The SRA and c2c continue to monitor the impact of the changes on crowding levels on the route.

Manchester Airport

Mr. Brady: To ask the Secretary of State for Transport (1) what assessment he has made of projected passenger numbers at Manchester airport in his deliberations on the proposed phase three Metrolink extension; [188015]

(2) what representations he has had from Manchester airport following his decision regarding phase three of the Manchester Metrolink extension; [188016]

(3) what assessment he has made of the alternative available public transport links to Manchester airport in the absence of the Metrolink extension; [188017]

(4) what assessment he has made of the impact of the Metrolink phase three extension on future journey times between Manchester airport and the city centre; [188018]

(5) what assessment he has made of the economic benefits to Manchester airport of the Metrolink phase three extension; [188019]

(6) what assessment he has made of the contribution of an extension of the Metrolink to Manchester airport to an integrated transport strategy for South Manchester. [188020]

Manchester Public Transport

Mr. McNulty: It is for Greater Manchester Passenger Transport Executive (GMPTE) as promoters of Metrolink to undertake any consultation and assessment. The Manchester Airport Line formed part of the original three line package of Metrolink extensions. However, following increased costs, the GMPTE submitted an alternative package replacing the airport line with a spur to East Didsbury.

It was for GMPTE to undertake the assessment of alternatives. GMPTE's assessment of the original package took account of: future journey times between the airport and the city centre; projected passenger numbers; economic benefits to the airport; alternative public transport links if Metrolink Phase III was not approved; and the contribution to an integrated transport strategy for South Manchester.

We have had no representations from Manchester airport. We have received one letter from British Airways based at Manchester Airport.

Mr. Brady: To ask the Secretary of State for Transport (1) what assessment he has made of the contribution of an extension of the role of Metrolink in the economic competitiveness of Greater Manchester *(a)* in its present form and *(b)* with the completion of the phase three extension; [188021]

(2) what assessment he has made of the cost-to-benefit ratio of the phase three extension to the Greater Manchester Metrolink; [188022]

(3) what assessment he has made of the benefits to the local economy of the phase three extension to the Manchester Metrolink; [188023]

(4) what assessment he has made of *(a)* the contribution of the Manchester Metrolink to the process of creating a shift from car usage to public transport and *(b)* the likely impact of the phase three extension on that process; [188024]

(5) what assessment he has made of whether alternative public transport options have the capacity to meet passenger demand in the absence of the phase three Manchester Metrolink extension taking place; [188026]

(6) what estimate he has made of the projected traffic levels on *(a)* the M56, *(b)* the M60, *(c)* the M62 and *(d)* all major routes within the area of the proposed

phase three extension of the Manchester Metrolink over the next (i) five, (ii) 10 and (iii) 20 years if the Metrolink extension (A) is and (B) is not put in place; [188029]

(7) what estimate he has made of *(a)* the additional road space needed in the Manchester area in the absence of the Metrolink extension and *(b)* the cost of providing that additional road space; [188030]

(8) what assessment he has made of the implications for air quality along the proposed routes of the Metrolink phase three extension *(a)* of building and *(b)* of not building the extension. [188034]

Mr. McNulty: The Department for Transport's consideration of Manchester Metrolink and the Phase III extensions was based on an assessment undertaken by the Greater Manchester Passenger Transport Executive (GMPTE). This took account of the impact on: the regional and local economy; shift from car use to public transport; cost and capacity of alternative public transport and road options; the effect on the local and regional road network; and changes in air quality. The Department's judgement of the benefit cost ratio for the Phase III extensions (Oldham/Rochdale, Ashton-under-Lyne and East Didsbury) is 1.6:1.

The Secretary of State took the decision not to approve Metrolink Phase III—along with the proposed schemes in Leeds and South Hampshire—because of a further substantial increase in costs. As the Secretary of State announced on 20 July, no government could accept the schemes as they are on the basis of their escalating costs and he could therefore not approve Phase III of Metrolink in its current form. In Manchester, costs had doubled and the project was reduced to less than the three lines originally proposed. The Department is working closely with GMPTE on developing alternative proposals.

Mr. Brady: To ask the Secretary of State for Transport whether he has instructed officials to undertake a fundamental review of public transport options in Greater Manchester. [188025]

Mr. McNulty: It is for the Greater Manchester Transport Executive to consider the transport solutions that best meet the needs of the area. We will be working closely with the Manchester authorities as they undertake this work.

Mr. Brady: To ask the Secretary of State for Transport what funds he is making available to keep the Oldham and Rochdale line open for local railway services in the absence of the phase three Metrolink extension; and what funds he is making available for the cost of upgrading the infrastructure. [188027]

Mr. McNulty: There are no current plans to upgrade the infrastructure. The existing heavy rail services will continue to be provided and funded under the current First North Western Franchise and its planned replacement.

Mr. Brady: To ask the Secretary of State for Transport what guarantees he has offered regarding the funding of essential costs of track and systems renewals on the existing Manchester Metrolink. [188028]

Mr. McNulty: None. It is for the Greater Manchester Passenger Transport Executive, as the promoters of Metrolink, to decide if track and systems renewals are essential and to make its own priorities and bid for funding if appropriate.

Mr. Brady: To ask the Secretary of State for Transport what guidance he sought from Greater Manchester Police before reaching a decision over the phase three extension to the Manchester Metrolink. [188032]

Mr. McNulty: The decision to withdraw funding approval for Metrolink Phase 3 was taken because of escalating costs. Therefore, there was no guidance sought from Greater Manchester Police before reaching this decision.

Mr. Brady: To ask the Secretary of State for Transport what consultations he has undertaken with Greater Manchester Health Authority regarding the role of Metrolink in *(a)* improving access to health care and *(b)* reducing traffic congestion on hospital sites. [188033]

Mr. McNulty: It is for the Greater Manchester Passenger Transport Executive (GMPTE), as promoters of Metrolink, to undertake any consultation with the Greater Manchester Health Authority throughout the development and assessment of the Metrolink and to present its findings to the Department for Transport. GMPTE's original assessment of the scheme did include information on access to health care, however, no information was provided specifically on reducing traffic congestion on hospital sites.

Motorway Traffic Officers

Mr. Wood: To ask the Secretary of State for Transport what plans he has to introduce motorway traffic officers to the *(a)* M62, *(b)* M1, *(c)* M606 and *(d)* M621 motorway in West Yorkshire. [189498]

Mr. Jamieson: The programme for implementation of the traffic officer service in West Yorkshire on the M62, M1, M606 and M621 will commence in autumn 2005.

Ports

Mrs. Dunwoody: To ask the Secretary of State for Transport when his Department intends to conclude the updating of The Project Appraisal Framework for Ports, published in 2003. [189099]

Mr. Jamieson: The Government announced its intention to update the Project Appraisal Framework for Ports in paragraph 7.29 of the Future of Transport White Paper. This will form part of the review of the ports policy framework to be launched after autumn 2005.

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will make a statement on the Autumn 2005 review date for a response to the global growth in shipping traffic and new port capacity. [189106]

Mr. Jamieson: We expect that, by Autumn 2005, the Secretary of State for Transport will have taken decisions on the proposals for major container port development currently outstanding and due to be determined by him. As the Secretary of State said in his statement to the House on 20 July we intend to take a long-term approach to port development and will

review the policy framework for ports by the end of next year. Para 7.28 of The Future of Transport makes clear that one of the key issues that the review will show we should respond to forecast global growth in shipping traffic by providing new port capacity.

Railways

Mr. Yeo: To ask the Secretary of State for Transport what the cost implications are of giving control over the railways in the Greater London Authority area to the Mayor of London; and if he will make a statement.[186722]

Mr. Darling: "The Future of Rail" white paper set out proposals for the Mayor to be able to buy additional services or propose savings on rail services in London. Transport for London would pay any additional costs (or recoup any savings).

The white paper also set out a number of issues in respect of London for further consideration or work. Assessing the cost implications of the various options will be an important part of this further work.

Mr. Jenkins: To ask the Secretary of State for Transport what Government subsidy was given to rail providers for the last year for which figures are available; and what it was calculated to be *(a)* per passenger and *(b)* per passenger mile. [189575]

Mr. McNulty: Details of subsidy paid to each train operator in 2003–04 are set out in Appendix 3 to the Strategic Rail Authority's annual report 2003–04. Total numbers of passenger journeys made with each train operator in 2003–04 are shown in Section 8 of the Strategic Rail Authority's National Rail Trends Yearbook 2003–04. Details of subsidy per passenger kilometre travelled with each train operator in 2003–04 are set out in Appendix 5 to the Strategic Rail Authority's annual report 2003–04.

Copies of the annual report and the yearbook are available in the Libraries of the House.

Roads

Mr. Yeo: To ask the Secretary of State for Transport what the level of road congestion on *(a)* motorways and *(b)* all roads has been in each year since 1997. [186853]

Mr. Darling: The measure that has been used is derived from comparing actual traffic speeds with those that would be achievable in the absence of congestion. Full details of the methodology are available on the Department's website at www.dft.gov.uk/stellent/groups/dft_transstats/documents/page/dft_transstats_021863.pdf

Under this measure the estimated average congestion delay on motorways in England was 3.8 seconds lost per vehicle kilometre in 2000. Congestion in large urban areas in England was estimated as 24.8 seconds lost per vehicle kilometre in 2000 and 24.9 seconds lost per vehicle kilometre in 2002. These are the latest figures currently available. Estimates have not been made for years prior to 2000.

The Department has always acknowledged the limitations of measuring congestion in this way and is currently developing new, more detailed data sources and new measures of traffic congestion.

John Thurso: To ask the Secretary of State for Transport what his estimate is of the total cost to the Government of public expenditure on road investment taken from the Capital Departmental Expenditure limit, but excluding capital grants to the private sector within the Resource Department Expenditure Limit, in each year from 2001–02 to 2010–11 *(a)* at outturn prices and *(b)* at today's prices. [164715]

Mr. Jamieson: Figures for outturn and forecast public expenditure on road investment on the English strategic roads network within the Department's Capital Departmental Expenditure Limit to 2005–06 are set out in the following table. Future spending is being reviewed as part of the Spending Review 2004 and announcements about spending levels beyond 2005–06 will be announced in due course.

The expenditure in 2001–02 and 2002–03 is higher since in those years structural maintenance was scored as capital expenditure. From 2003–04 onwards it scores as resource expenditure to bring the statistical treatment for budgeting purposes into line with accounting practice under Resource Accounting and Budgeting (RAB).

£ million

Financial year	*Outturn prices*	*2003–04 prices*
2001–02	1,022	1,086
2002–03	1,081	1,111
2003–04	649	649
2004–05	799	781
2005–06	563	537

The Government's policy as set out in "A New Deal for transport: Better for Everyone" (1998 Cm 3950) is that there are a number of trunk roads which mainly serve local and regional traffic and are more appropriately managed at local level. Therefore the Highways Agency has been transferring responsibility (together with an appropriate level of resources) over to local highway authorities to enable decisions to be better integrated with local transport and land use planning issues. The result will be to reduce the trunk road network by 30 per cent. or around 3,000 km in total. So far about two thirds of these roads have been detrunked. The data have not been adjusted to take this into account.

Trunk roads (excluding motorways) within Greater London were transferred to Transport for London in July 2000.

US Visas

Mr. Carmichael: To ask the Secretary of State for Transport pursuant to his Answer of 13 September 2004, *Official Report*, column 1389W, on US visas, what form representations to US authorities on the abolition of the crew list visa scheme have taken; what further representations the Government intends to make; and if he will make a statement on this proposal. [189535]

Mr. Jamieson: The representations referred to, took the form of two submissions to the US State Department. The first letter, in February 2003, on

behalf of the UK and a number of other governments, put forward arguments in favour of retaining the crew list waiver scheme. A second letter was sent in September 2003 seeking to ameliorate the effects of the US proposals. We have no current plans to make further specific representations, but shall keep the matter under review.

The US proposals are based on a judgment by a sovereign government about the appropriate immigration and border controls to meet, inter alia, their national security requirements.

TRADE AND INDUSTRY

Bogus Prizes

Mr. Hancock: To ask the Secretary of State for Trade and Industry if she will regulate the practice of offering bogus prizes, via tickets and scratch cards, which have to be claimed using expensive premium telephone lines; and if she will make a statement. [187749]

Mr. Mike O'Brien: The practice of offering bogus prizes to be claimed using premium rate telephone lines is already regulated by the Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS) through a Code of Practice approved by the Communications regulator, the Office of Communications (Ofcom).

British Nuclear Fuels

Llew Smith: To ask the Secretary of State for Trade and Industry what discussions *(a)* she, *(b)* other departmental ministers and *(c)* departmental officials have had with the European Commission on the proposed restructuring of British Nuclear Fuels plc; and what the state aid implications are. [187605]

Mr. Mike O'Brien: The Department has not specifically discussed the re-organisation of BNFL with the European Commission. The re-organisation will result in aid to the Nuclear Decommissioning Authority. The Government notified this aid to the European Commission in December 2003. The notification included details of the proposed re-organisation.

Carbon Sequestration

Adam Price: To ask the Secretary of State for Trade and Industry what investment is being made in carbon sequestration technologies. [188477]

Mr. Mike O'Brien: Since 2001 we have either provided, or have committed to, some £518,000 of funding in support in of a variety of projects and studies investigating carbon sequestration. Additionally, we are developing a Carbon Abatement Technology Strategy of which carbon sequestration technologies are expected to be a major component. It is planned to publish this Strategy around the turn of the year.

Civil Service (Job Losses)

Bob Spink: To ask the Secretary of State for Trade and Industry which services within her Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189642]

Ms Hewitt: As the Chief Secretary to the Treasury has already explained, full details of the workforce changes announced in the Spending Review are being worked through and we are consulting all stakeholders including unions and staff. Departments will come forward in due course with details of workforce changes once plans are finalised.

Electricity

Mr. Peter Duncan: To ask the Secretary of State for Trade and Industry if she will make a statement on her policy towards locational pricing structures for electricity transmission. [188681]

Mr. Mike O'Brien: The Government, with Ofgem, consulted on the criteria that should govern the transmission charging methodology under the British Electricity Trading and Transmission Arrangements (BETTA) due to come into affect in April 2005. http://www.dti.gov.uk/energy/consultations/transcharging_doc:pdf

It is now for the National Grid Company as GB System Operator to devise a suitable charging methodology in consultation with the industry that facilitates effective competition and, as far as practicable, is reflective of costs. It is then for the industry regulator, Ofgem, to approve this methodology.

Mr. Wiggin: To ask the Secretary of State for Trade and Industry under what regulations Welsh Water is barred from generating electricity. [188941]

Mr. Mike O'Brien: There is nothing in the Electricity Act 1989, as amended, which would bar Welsh Water from generating electricity. Section 36 of the Electricity Act 1989 details what consents are required to construct, operate or extend a generating station. Generating electricity is a licensable activity and standard licence conditions have to be met, unless exempt under the Electricity (Class Exemptions from the requirement for a licence) Order 2001. It is the regulator's office, the Office of Gas and Electricity Markets (Ofgem) which grants licences.

Mr. Tynan: To ask the Secretary of State for Trade and Industry what impact the recent increase in the wholesale price of gas has had on predictions for the costs of various forms of electricity generation as laid out in the energy White Paper. [189043]

Mr. Mike O'Brien: The recent increase in the wholesale price of gas, if sustained, will impact on the cost of gas-fired generation as against other forms of generation. Some of these other forms of generation, including low carbon options, would look relatively more attractive compared with gas-fired generation

Employer Training

Mr. Cousins: To ask the Secretary of State for Trade and Industry how many *(a)* employers and *(b)* staff in each Tyne and Wear district have been assisted by the Tyne and Wear Employer Training Pilot since it began. [188710]

Jacqui Smith: The information is as follows.

(a) The total number of employers in Tyne and Wear assisted by the Employer Training Pilot since it began is 911.

The total number of employers by each Tyne and Wear district are as follows:

	Number of employers
Newcastle	302
North Tyneside	109
South Tyneside	88
Gateshead	204
Sunderland	208

(b) The total number of employees in Tyne and Wear assisted by the Employer Training Pilot since it began is 7,170.

The total number of employees by each Tyne and Wear district are as follows:

	Number of employers
Newcastle	2,374
North Tyneside	645
South Tyneside	624
Gateshead	1,789
Sunderland	1,738

EU Nuclear Regulation

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment she has made of the revised proposed legislative texts produced by the European Commission on the safety of nuclear installations and radioactive waste management, released on 8 September 2004; what evaluation has been made of the differences between the new texts and those in the proposed council directives Cmd. 2003/32, released in January 2003; and what comments on these proposals were made by the United Kingdom to the Commission. [189102]

Mr. Mike O'Brien: On 8 September 2004, the College of Commissioners agreed to adopt the European Commission's revised proposals dealing with nuclear installation safety and radioactive waste management and these were formally circulated to Member States on 14 September 2004. A full evaluation is being made readiness for discussions in the relevant Council Working Group. However, the texts do not differ greatly from those considered by the Council under the Irish Presidency. The UK has made it clear to the Commission on several occasions that it would prefer any Community initiative in these fields to be developed on the basis of non-legally binding instruments.

End-of-Life Vehicles Directive

Bob Spink: To ask the Secretary of State for Trade and Industry what progress has been made in implementing the End-of-Life Vehicles Directive; and if she will make a statement. [188725]

Mr. Mike O'Brien: The End-of-Life Vehicles Regulations 2003 (S.I.2003/2635) came into effect in England and Wales on 3 November 2003, and equivalent legislation was introduced shortly after in Scotland and Northern Ireland. These Regulations implement a number of provisions in the End-of-Life Vehicles Directive. Consultation on draft Regulations to implement the remaining provisions of the Directive, which take effect from 2006, was carried out earlier this year. It is the Government's intention to present the End-of-Life Vehicles (Producer Responsibility) Regulations 2004 to the House shortly.

European State Aids

Mr. Brady: To ask the Secretary of State for Trade and Industry what the total value is of applications to the European Commission to allow state aids that have been *(a)* approved, *(b)* approved with modifications, *(c)* declined and *(d)* considered but deemed not to fall within state aid rules, broken down by member state, for the last five years. [189519]

Mr. Alexander: Comprehensive information on spending on state aids is published by the European Commission and is available on the Commission's website at http://europa.eu.int/comm/competitio/state_aid/scoreboard/.

The latest report includes information on the value of state aid spending in 2002, trends in spending between 1998 and 2002, and the percentage and numbers of cases approved or rejected by the Commission between 2001 and 2003, all broken down by member state. The report does not include full statistics on the number of applications approved with modifications, or considered but found not to fall within state aid rules, or a breakdown of their value, however, and we do not have independent estimates of these across EU member states.

Gas and Electricity Consumer Council

Mr. Best: To ask the Secretary of State for Trade and Industry what assessment she has made of the effectiveness of the Gas and Electricity Consumer Council in protecting the interests of gas and electricity consumers. [189146]

Mr. Mike O'Brien: Since its establishment in November 2000, the Council has been an effective representative of the consumer interest, both in investigating and resolving individual complaints and in strategically engaging with the industry and Ofgem to address sectoral problems, for instance, mis-selling and the transfer process.

Gas/Oil Prices

Jonathan Shaw: To ask the Secretary of State for Trade and Industry what assessment she has made of the relationship between changes in wholesale gas prices and oil prices. [189484]

Mr. Mike O'Brien: In Continental Europe, where the energy markets are not fully competitive, gas prices are contractually linked to oil prices. In comparison the UK has gas-to-gas competition. However, due to arbitrage across the interconnector, we are also importing Continental European prices. Our analysis suggests that though the link between oil and gas prices exists, it is complex and dynamic.

Ofgem launched a probe into the price movements of last autumn and more recently into forward gas prices. We await the conclusions of this probe.

India

Mr. Luff: To ask the Secretary of State for Trade and Industry what assessment she has made of the opportunities for British companies to contribute to transport infrastructure projects in India; and what assistance her Department is providing to British companies who are involved in bids for such projects. [187130]

Mr. Alexander: The modernisation of India's existing transport infrastructure is a major priority for the Government of India. The UK has particular interest in Airport and Port Modernisation and Privatisation. There have been two UK Trade and Investment supported missions to India over the last two years in the airports sector to assess and identify opportunities, and future missions for both the airports and ports sectors are being planned. There have also been two inward visits to the UK, by Indian officials, for each of the sectors within in the same period. There are many projects being planned or constructed across the country. UK companies are closely involved in these projects either in planning or construction. The UK Trade and Investment team is assisting several companies in their dealings with the Government both in bidding for tenders and managing the relationship where contracts have been won.

Internet Fraud

Mr. Best: To ask the Secretary of State for Trade and Industry what discussions she has had with the telecommunications industry about internet dialler fraud. [189131]

Mr. Mike O'Brien: The Government have been in ongoing discussions with the telecommunications industry in order to find solutions to this problem.

Jaguar (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry if she will make a statement on discussions her Department has held with Ford Motor Company regarding the future of Jaguar Motor Car Productions in Coventry. [189387]

Jacqui Smith: Ministers and officials are in regular contact with the management of Ford Motor Company, as with other major manufacturers in the UK.

Jaguar's announcement on Friday 17 September, covering their plans for the Brown's Lane site, is obviously disappointing, particularly given the workforce's efforts to improve quality and productivity at Brown's Lane. However, given the company's financial performance, tough decisions had to be taken.

I have encouraged Jaguar's management to ensure that their workforce and trade unions remain informed and consulted, and that they discuss what further steps might be taken to mitigate further job losses. However, it's important to note that no compulsory redundancies have been announced.

I am pleased that the company has not taken the decision to close Brown's Lane. Jaguar's Headquarters and administrative centre will remain in Coventry, as will the company's historic Wood Veneer Manufacturing Centre. And I am encouraged that the world leading R and D Centre at Whitley is being retained and welcome the employment opportunities for Brown's Lane workers created by the growth and success at Aston Martin.

I hope that the announcement will help enable Jaguar to address its financial difficulties thereby securing a sustainable long-term future for the company, its products and its workforce here in the UK.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what discussions her Department has had with trade unions at national level about the future of Jaguar Motor Car Productions in Coventry. [189388]

Jacqui Smith: My right hon. Friend the Secretary of State has discussed the situation at Jaguar with both the company and trade union representatives.

Laura Ashley

Lembit Öpik: To ask the Secretary of State for Trade and Industry what discussions she has had with Laura Ashley regarding the proposed downsizing of the workforce in the UK; and if she will make a statement. [189613]

Jacqui Smith: None.

Nuclear Decommissioning Authority

Mr. Peter Ainsworth: To ask the Secretary of State for Trade and Industry what estimate she has made of the proportion of the Nuclear Decommissioning Authority's income which, in each of its first five years of operation, will derive from operating spent nuclear fuel reprocessing plants at Sellafield. [188775]

Mr. Mike O'Brien *[holding answer 15 September 2004]*: The Government expects that approximately half of the NDA's total commercial income in the three years covered by the 2004 Spending Review will derive from the management of spent nuclear fuel on behalf of commercial customers.

Nuclear Power Plants

Llew Smith: To ask the Secretary of State for Trade and Industry whether she has established a timetable to review the prospects for new building of nuclear power plants. [188611]

Mr. Mike O'Brien: The Government are continually assessing progress towards the four goals of energy policy set out in the Energy White Paper published 2003: 'Our energy future—creating a low carbon economy'. There has been no change to the position set out in the White Paper. If the Government were to take the view that, at some point, nuclear build might be necessary, there would need to be the fullest public consultation and the publication of a further white paper setting out proposals, before the Government reached a decision.

Llew Smith: To ask the Secretary of State for Trade and Industry if she will place in the Library a copy of the communication, dated 3 September 2004, from the

European Commission in respect of the difficulties faced by the Commission nuclear inspectors in applying Euratom safeguards to the B-30 nuclear waste storage silo at Sellafield; and what response Her Majesty's Government has made to the communication. [188612]

Mr. Mike O'Brien: Officials tell me they have no knowledge of such a communication in the Department.

I refer the hon. Member to my answer to his question of 1 September, which stated that, as of 7 September the UK authorities had received no formal or substantive response from the Commission to the plan presented on 1 June in respect of the B30 plant. The only formal communication since received (late 10 September) has been a letter from the Commission confirming an appointment with the UK authorities to discuss these issues at official level.

Mr. Tynan: To ask the Secretary of State for Trade and Industry if she will review her Department's policy on the economic position of nuclear power in the light of the recent increase in the wholesale price of gas. [189042]

Mr. Mike O'Brien: The 2003 energy White Paper concluded that, although the economics of nuclear power currently make it an unattractive option, the nuclear option should be kept open. But the conclusions of the White Paper remain the same. We have no proposals for new nuclear build but the Government do not rule out the possibility that at some point in the future new nuclear build might be necessary to meet our carbon targets. Before any decision to proceed with building of new nuclear power stations there would need to be the fullest public consultation and the publication of a White Paper setting out proposals.

The Department continues to monitor the economics of all low carbon generation options, including nuclear, in the light of changes in the cost of fossil fuel generation.

Mr. Tynan: To ask the Secretary of State for Trade and Industry if she will review her Department's position that nuclear power is uneconomic in the light of the recent report by the Royal Academy of Engineering. [189044]

Mr. Mike O'Brien: The Department has seen the recent report by the Royal Academy of Engineering on nuclear power. The conclusions are based on assumptions such as the discount rate and plant capital cost which are relatively favourable to nuclear generation compared with other low carbon generation options. The Department does not therefore see any reason to change the position on nuclear power stated in the 2003 energy White Paper.

Mr. Peter Duncan: To ask the Secretary of State for Trade and Industry what recent discussions she has had with the Scottish Executive on the future of nuclear energy generation in Scotland. [188680]

Mr. Mike O'Brien: There have been no such recent discussions.

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will publish the advice that Bectel has given to the Nuclear Decommissioning Authority, including its major report into the future of the nuclear industry. [188421]

Mr. Mike O'Brien: Bechtel has advised on the procedures and technical systems that the Nuclear Decommissioning Authority will need to adopt to manage the clean up and decommissioning of civil nuclear sites by contract. That advice has been provided in various forms by the Bechtel consultants working with officials to establish the NDA.

Bechtel has not provided any wider report into the future of the nuclear industry as a whole.

Mr. Drew: To ask the Secretary of State for Trade and Industry what discussions she has had with the British Nuclear Group/BNFL over the future of the Berkeley site. [188422]

Mr. Mike O'Brien: My officials were recently made aware of British Nuclear Group's proposal to establish a special Task Force to look at the future of its Berkeley site.

Mr. Drew: To ask the Secretary of State for Trade and Industry what contingency plans she has put in place in the event of there being insufficient engineering staff to run the remaining Magnox reactor sites. [188423]

Mr. Mike O'Brien: Reactor sites personnel will work closely with the regulators to ensure that sufficient engineering staff are available. Operators of Magnox reactor sites, as with other nuclear licensed sites are required to comply with the Conditions attached to their licence by HSE. These Conditions require that, before a licensee makes an organisational change, including changes to engineering support staff, it must consider the safety implications. HSE can, if necessary, prevent the change from taking place until satisfied that the safety implications are understood and that there will be no lowering of safety standards. Similar considerations apply regarding compliance with the limits and conditions of the authorisation issued to the site licensee by the Environment Agency under the Radioactive Substances Act 1993.

Harry Cohen: To ask the Secretary of State for Trade and Industry what security lapses have occurred in respect of trains carrying nuclear material since September 2003; and if she will make a statement. [188927]

Mr. Mike O'Brien: The movement of civil nuclear material in the UK is conducted in accordance with the Nuclear Industries Security Regulations 2003, which are administered and enforced by the Office for Civil Nuclear Security (OCNS).

In December 2003, OCNS inspectors conducted a spot check of the security arrangements in place at Willesden Brent Sidings in London where BNFL's Direct Rail Services (DRS) marshal trains carrying spent nuclear fuel. This disclosed that approved guarding arrangements were not being carried out satisfactorily. Immediate action was taken by DRS to rectify the matter and there has been no recurrence.

Fuller details of the incident, and the remedial action taken by DRS are contained in the 2004 Annual Report by the Director of Civil Nuclear Security, a copy of which is available in the Libraries of the House.

Harry Cohen: To ask the Secretary of State for Trade and Industry whether nuclear material is transported *(a)* to and *(b)* from Bradwell power station; and if she will make a statement. [188928]

Mr. Mike O'Brien *[holding answer 16 September 2004]:* Bradwell nuclear power station ceased generation in March 2002 and is in the process of defuelling. Therefore no fuel is transported to the site, only from the site. This is scheduled for completion in 2005.

Radio Devices

Mr. Don Foster: To ask the Secretary of State for Trade and Industry what representations she has received on the use of iTrips and similar such devices; and if she will make a statement. [188626]

Ms Hewitt: I am not aware of any representations about the use of iTrips or similar devices.

Research and Development

Sue Doughty: To ask the Secretary of State for Trade and Industry what proportion of public investment in research and development went to projects for which all or part of the results are kept from publication on grounds of commercial confidentiality in the latest period for which figures are available; and what trends the Government have identified relating to past and future variations in this proportion of public investment in research and development in the UK. [188077]

Ms Hewitt: The information is not available. In general, the Government tries to keep to a minimum results produced from publicly funded projects which are kept from publications on grounds of commercial confidentiality.

Rural Phone Boxes

Mr. Peter Duncan: To ask the Secretary of State for Trade and Industry if she will make a statement on Government policy on BT's proposed withdrawal of rural phone boxes. [188454]

Mr. Timms: The regulation of the provision of public call boxes is a matter for Ofcom. Ofcom is due to consult publicly on the matter this autumn in the context of universal service provision of telecoms services.

Science and Innovation Investment Framework

Sue Doughty: To ask the Secretary of State for Trade and Industry what definition of the terms *(a)* public sector and *(b)* business research and development used in the paper Science and Innovation Investment Framework 2004–2014, published in July, with particular reference to table 1.1 of that paper. [188075]

Ms Hewitt: The sources for the statistics quoted in the Science and Innovation Investment Framework 2004–2014 paper are the UK Office for National Statistics R&D surveys for the UK data and OECD for international comparisons. R&D statistics for OECD countries are compiled in line with guidelines set out in the OECD's Frascati Manual.

(a) Public sector includes:

All UK-based departments, offices and other bodies which furnish, but normally do not sell to the community, those common services, other than higher education, which cannot otherwise be conveniently and economically provided, as well as those that administer the state and the economic and social policy of the community;

UK-based non-profit institutions controlled and mainly financed by government, but not administered by the higher education sector; and

UK-based non-market, private non-profit institutions serving households.

(b) The business sector includes:

All UK-based firms, organisations and institutions whose primary activity is the market production of goods or services (other than higher education) for sale to the general public at an economically significant price;

The UK-based private non-profit institutions mainly serving them.

The public sector is essentially composed of UK Government Departments, the Research Councils, Higher Education Institutions and private non-profit institutions. The business sector is all private enterprises in the UK.

Sellafield

Norman Baker: To ask the Secretary of State for Trade and Industry if she will make a statement on the court action being taken by the European Commission in respect of access arrangements for nuclear inspections at Sellafield, with particular reference to pond B30. [188054]

Nigel Griffiths: The Commission issued a press release dated 3 September 2004. The Department continues to seek a formal response on the detailed basis for the Commission's action, but I understand as of 10 September has yet to receive this. We have also continued to emphasise that the UK remains keen to engage in a full and co-operative dialogue with the Commission aimed at satisfactorily resolving the remaining Euratom Treaty safeguards issues at the B30 plant.

Access for nuclear safeguards inspections is provided according to the terms of Chapter 7 of the Euratom Treaty and the UK's safeguards agreements with the International Atomic Energy Agency (IAEA). The European Commission's published reports on its implementation of Euratom safeguards show that there is very considerable inspection effort in the UK (some 2400 days in 2002)—about half of which effort is at the Sellafield site. Safeguards inspectors have not been denied access for their verification and inspection activities at the Sellafield site, or elsewhere in the UK. Safeguards inspectors, as much as anyone else, have of course to be protected by UK regulations relating to radiological dose/safety—this is a factor in their access to the B30 plant. It has also been clearly acknowledged that poor visibility caused by the condition of the material in the B30 pond hinders safeguards verification there.

Norman Baker: To ask the Secretary of State for Trade and Industry what discussions she has had relating to the termination of fuel reprocessing at Sellafield, with particular reference to *(a)* the timescale and *(b)* the cost to public funds. [188061]

Mr. Mike O'Brien: Discussions have taken place as part of the wider process of restructuring BNFL. BNFL expects to complete their existing order book for reprocessing spent fuel at THORP by around 2010. Operation of THORP beyond completion of the existing order book would be dependent on there being new contracts for reprocessing further spent fuel at the plant which, in the first instance, is dependent on there being customer demand.

The Government's position on the future of THORP was set out in the July 2002 White Paper on Managing the Nuclear Legacy. We expect existing THORP contracts to be honoured. There are currently no proposals for new contracts for reprocessing further spent fuel at THORP. Before any such new THORP contracts could be concluded or changes made to existing contracts that increased the volume of spent fuel to be reprocessed at THORP, the approval of the Secretary of State for Trade and Industry would be required. Before making a decision on any such future proposal, the Government would review it against the specific criteria that were set out in the White Paper and would consult publicly.

Small Businesses

Mr. Wiggin: To ask the Secretary of State for Trade and Industry what research her Department has commissioned on reducing the administrative burden for small businesses. [186664]

Nigel Griffiths: In August 2004, the Department commissioned Kingston University to undertake the first stage of a research project designed to identify the effects of regulation on small businesses at different stages of growth.

Mr. Cousins: To ask the Secretary of State for Trade and Industry what recent action her Department has undertaken to support small businesses in the City of Newcastle upon Tyne. [186842]

Nigel Griffiths: Businesses can also access various DTI funding streams via Business Link Tyne and Wear.

Tyne and Wear Small Business Fund, through the Regional Development Agency's Single Programme Funding, (managed by Tyne and Wear Development Company and delivered by each local authority) is a 50 per cent. Capital Equipment Grant of between £500 and £2,500 available to pre-start and new businesses—up to 12 months old.

The core funding provided to Business Link Tyne and Wear, has provided a foundation on which the Business Link has sourced additional funding projected at £14.5 million for the benefit of businesses in Tyne and Wear, for the year 2004–05. In 2003–04 around £7.5 million was made available to SME's based in Tyne and Wear as part of projects managed by Business Link Tyne and Wear. One of these projects offers a subsidy of up to 50 per cent. for management development training and upskilling the workforce to SME's across Tyne and Wear.

The Employer Training Pilot, was piloted in Tyne and Wear during financial year 2003–04, and has been made available to businesses throughout the north east from April 2004. This helps businesses to improve the skills of their workforce by providing training tailored to their needs.

Ross Cranston: To ask the Secretary of State for Trade and Industry what representations she has received following the cross-cutting review of Government services for small businesses about *(a)* lack of consumer focus and *(b)* inefficiency charged to recipients of Government grants through expensive collateral costs, including consultants' and accountants' fees; and if she will make a statement. [188814]

Nigel Griffiths: I have received many representations from businesses and business representative organisations about improving the customer focus of Government services, in particular by simplifying and improving the accessibility of the support available.

The Department has responded to this customer feedback in a number of ways. For example, following DTI's recent work on its business support portfolio, the range of support available has been rationalised to nine easy to use and easy to access products. Information on the website and in brochures is written in plain English, explaining what the products are and how to access them. Application processes have also been reviewed to make them easier for the customer to comply with. The changes mean that it is no longer necessary for businesses to make use of external professional advice or intervention to apply for and use the business support products.

Responding to concerns expressed by small businesses that they find it difficult to establish their regulatory responsibilities, my Department has published a "No-Nonsense Guide to Government rules and regulations for setting up your business". This brings together in one place, information about all the regulatory requirements applying to start-up and developing businesses.

Working with other Departments, the DTI has also improved the customer focus of its e-services through the launch of the businesslink.gov web portal in April. The site joins up national e-government services for the UK's four million small and medium-sized businesses, providing a single access point to information from all Departments that are important to small businesses, such as the Inland Revenue and the Health and Safety Executive. The site is currently securing about 100,000 visitors each week, and has recently won the International Visual Communication Association's Gold Award for the best website of 2004.

Solar PV

Mr. Best: To ask the Secretary of State for Trade and Industry what steps her Department will take *(a)* to encourage further investment in the UK solar PV manufacturing industry and *(b)* to safeguard jobs in this sector when the first phase of the solar PV major demonstration programme ends. [188225]

Mr. Mike O'Brien: The DTI has this week announced a further £6 million of funding to extend the Major Photovoltaics Demonstration Programme (PV MDP)

until March 2006; this brings the total funding allocated to this Programme to £31 million. In addition the Department has committed a total of £10 million to the large scale and domestic field trials. The DTI also supports Solar PV through its Technology Support Programme and through the Research Councils. This demonstrates the Governments intention to continue to support this industry and should encourage industry to continue to invest as well.

A low carbon buildings programme, as recommended by the DTI/Carbon Trust Renewables Innovation Review, is expected to supersede these two programmes and help safeguard jobs in this sector. We continue to work closely with the Regional Development Agencies on investment by indigenous employers and on attracting inward investment. The Department particularly welcomes the announcements earlier this year on investment in solar manufacturing capability by Sharp and Romag.

Telephone Charges

Adam Price: To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* the fraudulent misuse of premium rate numbers on the internet and *(b)* Government efforts to solve the problem. [188475]

Mr. Mike O'Brien: The regulation of Premium Rate Services is a matter for the Independent Committee for the Supervision of Standards of Telephone Information Services, with statutory backing from the Office of Communications (Ofcom).

The Government have recently asked Ofcom to review the regulation of Premium Rate Services (PRS) and Ofcom is due to report back at the beginning of October.

Adam Price: To ask the Secretary of State for Trade and Industry what consideration has been given to banning premium rate internet lines as a means of tackling fraudulent misuse of premium rate numbers. [188476]

Mr. Timms: The regulation of premium rate services is a matter for the Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS), with statutory backing from the Office of Communications (Ofcom).

The Government have recently asked Ofcom to review the regulation of Premium Rate Services (PRS) in order to examine strengthening ICSTIS' powers and Ofcom is due to report back at the beginning of October. ICSTIS, the Government and Ofcom have been considering all options, including banning PRS internet lines, for dealing with their fraudulent misuse.

Mr. Hurst: To ask the Secretary of State for Trade and Industry what steps she has taken to tackle improper premium rate charges for telephone calls being added to telephone bills through internet connections; and if she will make a statement. [188546]

Mr. Mike O'Brien: The regulation of Premium Rate Services is a matter for the Independent Committee for the Supervision of Standards of Telephone Information Services (ICSTIS). The Government recently asked the Office of Communications (Ofcom) to carry out a review of PRS regulation in order to examine strengthening ICSTIS' powers. It is due to report back at the beginning of October.

Tissue Products

Sir Nicholas Winterton: To ask the Secretary of State for Trade and Industry if she will introduce legislation on the accurate labelling of tissue products; and what recent representations she has received from the Association of Makers of Soft Tissue Papers on the labelling of tissue products. [188104]

Mr. Sutcliffe: We have received no representation from the Association of Makers of Soft Tissue Papers. I have received your related letter of 2 September 2004 and will respond in due course. There are no plans to introduce legislation on the labelling of tissue products.

Unsolicited Goods and Services Act 1971

Brian Cotter: To ask the Secretary of State for Trade and Industry how many prosecutions there have been under the Unsolicited Goods and Services Act 1971 *(a)* since the introduction of the Act and *(b)* in each of the last five years. [188664]

Mr. Sutcliffe *[holding answer 13 September 2004]*: The Department of Trade and Industry does not collect statistics relating to the number of prosecutions made under the Unsolicited Goods and Services Act 1971.

Local authority trading standards departments are responsible for enforcement of the Act and will each keep a record of prosecutions they have taken.

Weapon Component Exports

Richard Younger-Ross: To ask the Secretary of State for Trade and Industry what steps are being taken to block the practice by some armaments manufacturers and exporters of exporting components of particular weapons to particular states where they can then be assembled and so avoid Government refusal to export particular weapons. [188131]

Nigel Griffiths: HMG assesses export licence application for component against the consolidated EU and national arms export licensing criteria in the same way as main equipment. Full account of the equipment's potential end-use and destination as well as the stated end-use and destination is taken when making our licensing assessment. HMG also considers whether components are for use in licensed production and if so take account of any associated risks in the licensing assessment. HMG would not issue a licence where there was a clear risk the equipment would be misused or diverted. On making this decision HMG use information form a wide variety of sources, including overseas posts, NGOs, intelligence and historical licensing records.

Working Hours

Denzil Davies: To ask the Secretary of State for Trade and Industry what her estimate is of the average number of hours worked by UK employees in the latest year for which figures are available. [184354]

Mr. Sutcliffe: The average of hours worked (that is total hours excluding overtime) for the last year is as follows:

Spring	*Hours*
2004	34.38
2003	34.45

These figures are produced monthly in Labour Market Trends, an ONS publication.

CABINET OFFICE

Departmental Accounting Practice

Mr. Bacon: To ask the Minister for the Cabinet Office who the Finance Director of the *(a)* Central Office of Information and *(b)* Cabinet Office is; what accountancy qualifications each Director holds; and on how many occasions there has been a qualified opinion on (i) the resource accounts and (ii) other accounts of each in the last five years. [183433]

Ruth Kelly: The Finance Director of the Central Office of Information is Graham Beasant, who is a Chartered Management Accountant.

In the last five years:

No Resource Accounts have been qualified.

No Trading Fund Accounts have been qualified.

The Finance Director of the Cabinet Office is Jerry Page, who is a Chartered Management Accountant.

In the last five years:

Resource Accounts 1999–2000 received a qualified opinion and Resource Accounts 2002–03 received a disclaimer opinion, (that is the Comptroller and Auditor General was unable to form an opinion because the Accounts were not presented to him in sufficient time).

Appropriation Accounts ceased in 2000–01 with the introduction of Resource Accounts. During their life, no Appropriation Accounts were qualified.

The main reason for the disclaimer opinion on the 2002–03 accounts was because of deficiencies in the Cabinet Office financial systems and processes, which meant that the accounts took several months to prepare. The Cabinet Office is currently undertaking a major overhaul of its financial systems and processes to help it meet the Treasury's Faster Closing timetable, and consequently future years' accounts should be produced much more quickly, avoiding any disclaimed opinions.

Drugs

Paul Flynn: To ask the Minister for the Cabinet Office how much the report produced by the Strategy Unit about the impact of interventions on the drug supply chain from international production to distribution within the UK cost; and whether it was funded using public money. [187545]

Mr. Milburn: The Strategy Unit took forward a study on high-harm-causing drugs, working closely with the Home Office and other key Departments. The study reviewed the impact of interventions on the drug supply chain from international production to distribution within the UK.

The Strategy Unit undertakes a range of public and private work. The total budget for the Unit for the last financial year (2003–04) was £4.7 million.

The Government's National Drug Strategy and a press notice are available on the Home Office website at www.drugs.gov.uk/ReportsandPublications/NationalStrategy/1038840683

Public Shareholdings

Gregory Barker: To ask the Minister for the Cabinet Office if she will make a statement on her Department's authority over the Government's public shareholder interests. [189074]

Ms Hewitt: I have been asked to reply.

While my Department has no direct authority over all of the Government's public shareholder interests, the Shareholder Executive, now located in the DTI, was set up last year as a small cross-cutting team with the remit to improve fundamentally the professionalism of Departments in exercising their shareholder roles. Its Chief Executive reports directly to the Cabinet Secretary in relation to this role. The Shareholder Executive discharges its responsibility by providing advice to a range of Departments on their shareholdings and by being directly responsible for a number of other shareholdings. Specifically, it reports to me on the DTI's shareholder role in relation to Royal Mail, BNFL, UKAEA and ECGD, to the Chief Secretary to the Treasury in respect of Partnerships-UK and Royal Mint (once the current review of the Mint is completed) and to the Secretary of State for International Development on Actis.

Strategy Unit

Mr. Liddell-Grainger: To ask the Minister for the Cabinet Office how many projects undertaken by the Strategy Unit since its creation have had a direct impact on *(a)* the Bridgwater parliamentary constituency and *(b)* the South West; and what assessment he has made of their effect on those areas. [186539]

Mr. Milburn: The Strategy Unit carries out a range of functions including:

long-term strategic reviews of major areas of policy;

studies of cross-cutting policy issues;

working with Departments to promote strategic thinking and improve policy-making across Whitehall; and

work to improve the quality and standards of Government social research.

A full list of the unit's projects is available on its website at www.strategy.gov.uk.

No assessment of the regional impact of the unit's work has been carried out.

DEFENCE

Aircraft Carriers (Escorts)

Ann Winterton: To ask the Secretary of State for Defence what level of escorts the two proposed aircraft carriers will require. [188799]

Mr. Ingram: The level of escort required by aircraft carriers is dependent upon the environment in which it is operating, although routinely such ships operate as part of a Task Group. Current surface escort ships include Type 42 Anti-Air Warfare Destroyers and Type 22 and 23 Frigates. The capability currently provided by Type 42 will be enhanced by the introduction of the Type 45 destroyer, equipped with the Principal Anti-Air Missile System (PAAMS).

Armed Forces Staffing Levels

Mr. Soames: To ask the Secretary of State for Defence, what the UK armed forces full-time strength *(a)* numbers and *(b)* requirements are for each of the three forces. [189803]

Mr. Ingram: I refer the hon. Member to Tri-Service Publication (TSP) 3:UK Armed Forces Strengths and Requirements.

This is available in the House of Commons Library and is updated on a monthly basis.

TSP 3 for 1 August 2004 was published on 14 September 2004. The 1 September 2004 issue is due for publication between 29 September and 13 October.

AWE Aldermaston

Llew Smith: To ask the Secretary of State for Defence what environmental impact assessment has been conducted on the planned hydrodynamics explosives testing facility at AWE Aldermaston; and what his estimate is of the cost of the facility. [189341]

Mr. Ingram: A number of options for such a facility are still under consideration and mature costings are therefore not available. Environmental impact is one of a range of issues that will be addressed in the normal way as our plans develop.

Chinook ZD576

Mr. Arbuthnot: To ask the Secretary of State for Defence who defined the terms of reference of the RAF Board of Inquiry into the aircraft accident of Chinook ZD576 on 2 June 1994; and who advised the President of the Board of Inquiry of the terms of reference. [189324]

Mr. Ingram *[holding answer 16 September 2004]:* The Air Officer Commanding No. 1 Group, as the convening Officer, with advice from No. 1 Group Flight Safety Staff, drafted the Terms of Reference. The Board, including the President, were then given a brief by the Air Officer Commanding 1Gp on their Terms of Reference before starting the Board of Inquiry.

Civil Emergencies

Mr. Wood: To ask the Secretary of State for Defence what assessment he has made of the likely impact of proposed changes in defence spending on resources available to respond to UK civil emergencies. [189499]

Mr. Ingram: Our White Paper "Delivering Security in a Changing World: Future Capabilities" made clear our continued commitment to supporting the civil authorities charged with the safety and security in the United Kingdom, both through routine tasks and our preparedness to support them in a time of crisis. The changes we have announced, underpinned by the increases in defence spending provided in the 2004 Spending Review, will make our armed forces even more flexible and adaptable.

Civil Service (Job Losses)

Bob Spink: To ask the Secretary of State for Defence which services within his Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review. [189640]

Mr. Caplin: I refer the hon. Member to the answer given to him on 16 September 2004, *Official Report*, column 1659W, by my right hon. Friend the Chief Secretary to the Treasury.

Coastal Protection (Northern Ireland)

Mr. Dodds: To ask the Secretary of State for Defence what assessment he has made of the impact on security of his decision to decommission three coastal protection vessels in Northern Ireland. [187419]

Mr. Ingram: The decision to withdraw from service by April 2007 the three hunt-class patrol vessels from Northern Ireland coastal waters reflected the Chief Constable's and General Officer Commanding's assessment of the improved security situation in Northern Ireland.

Colchester Garrison

Bob Russell: To ask the Secretary of State for Defence (1) whether the sale of family accommodation and land at Colchester Garrison to Annington Homes included provision for Annington to share with the Government the proceeds of future sales to others; and if he will make a statement; [187992]

(2) how many units of family accommodation at Colchester Garrison were sold to Annington Homes; [187993]

(3) what the average price per dwelling received was from the sale of family accommodation at Colchester Garrison to Annington Homes. [187994]

Mr. Caplin: Under the terms of the 1996 Sale Agreement the Exchequer benefits from a Profit Share arrangement following subsequent disposal by Annington Homes Ltd. of surplus houses handed back by the Ministry of Defence. This arrangement applies for the first 15 years following the 1996 sale and is based on a sliding percentage of the profit made by the Company after allowable overheads have been deducted. To date the Exchequer has received approximately £100 million under this arrangement.

1,400 properties in the Colchester area were included in the 1996 sale and leaseback agreement with Annington Homes Ltd. The average price received for all properties included in the 1996 arrangement with Annington Homes Ltd was in the region of £29,000.

Colombia

Mr. Hancock: To ask the Secretary of State for Defence if he will end UK military aid to Colombia; and if he will make a statement. [189751]

Mr. Ingram: No. British military assistance to Colombia is focused primarily on Explosive Ordinance Disposal training, and provision of British military education. It complements Colombian efforts to reduce the number of deaths, both civilian and military, from explosive devices, and introduces Colombian military personnel to British defence concepts in key areas such as Rules of Engagement and democratic and accountable control of the armed forces. In view of the clear humanitarian benefits this British military assistance offers to the Colombian people, we do not intend to suspend it.

Mr. Hancock: To ask the Secretary of State for Defence what British military assistance has been received by the Colombian Army 2nd Division. [189752]

Mr. Ingram: The Colombian Army 2nd Division has received no specific British military assistance.

Contract DC4BESL/1002

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the time scale for the supply of equipment for the contract DC2ESL/3122 Op Telic. [184350]

Mr. Ingram: The invitation to tender, which included this Operation Telic clothing requirement, sought the best delivery schedule possible. The deliveries against orders placed are expected to meet the required delivery date of January 2005.

Cooking Oils

Mr. Streeter: To ask the Secretary of State for Defence (1) what plans his Department has to sell its used cooking oils to overseas purchasers; and if he will make a statement; [189290]

(2) if he will make a statement on his Department's plans to collect used cooking oils and sell them to be used in the manufacture of diesel. [189293]

Mr. Caplin *[holding answer 16 September 2004]:* I will write to the hon. Member and place a copy of my letter in the Library of the House.

Defence Attachés

Mr. Keetch: To ask the Secretary of State for Defence what the cost was of defence attachés in each financial year since 2001–02. [187125]

Mr. Ingram: The overall cost of Defence Attachés in each financial year since 2001–02 are not held centrally. Costs readily available are as follows:

Financial Year	*Costs identified (£ million)*
2001–02	37.2
2002–03	37.1
2003–04	38.1

Under the terms of the MOD/FCO Service Level Agreement, costs are shared with the FCO which pays 30 per cent. of the total in respect of accommodation, fixed communications, security and some other support costs. The figures above are the 70 per cent. total costs of Defence Attaches attributable to the Defence Budget. These figures include:

Salary.

Cost of Allowances, Travel and Subsistence.

Direct Representational Expenses.

Utilities, vehicles, office machinery, IT, children's school fees.

Medical/Dental costs.

Personal Security enhancements.

Associated Support costs.

Defence Aviation Repair Agency

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will list his Department's turnover for *(a)* the Defence Aviation Repair Agency for each of the financial years 2001–02 to 2003–04 and *(b)* the Army Base Repair Organisation for each of the financial years (i) 2002–03 and (ii) 2003–04. [189192]

Mr. Ingram *[holding answer 16 September 2004]:* Turnover figures for both the Defence Aviation Repair Agency (DARA), and the Army Base Repair Organisation (ABRO) are published annually in their Annual Report and Accounts, copies of which are held in the Libraries of the House. They are also accessible on the Agencies' website: www.dara.mod.uk and www.abro.mod.uk respectively.

DARA's Turnover Figures

Financial Year	*£ million*
2001–02	228.9
2002–03	196.6
2003–04	189.5

ABRO's Turnover Figures

Financial Year	*£ million*
2002–03	157.2
2003–04	150.8

Defence Diversification Agency/Council

Harry Cohen: To ask the Secretary of State for Defence what the activities of the Defence Diversification Agency are; who the senior employee is; how much it spent in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04; and what its budget is for 2004–05. [188918]

Mr. Ingram: The Defence Diversification Agency continues to pursue its original aims of encouraging the wider use of defence science and technology in the civil sector, encouraging the transfer of suitable civil technology into military programmes and assisting the defence industry with their own diversification planning. The Agency is headed by Professor Damien McDonnell OBE. Gross expenditure in 2001–02 was £2.6 million, in 2002–03 £4.1 million and 2003–04 £4.6 million. The budget for the current year is £5.5 million.

Harry Cohen: To ask the Secretary of State for Defence if he will list the members of the Defence Diversification Council; and how frequently it meets. [188919]

Mr. Ingram: The formation of a Defence Diversification Council has not been pursued pending the completion of an internal review of the Defence Diversification Agency.

Defence Information Infrastructure Contract

Helen Jones: To ask the Secretary of State for Defence when he expects to announce the preferred bidder for the Defence Information Infrastructure (Future) contract. [188264]

Mr. Ingram *[holding answer 13 September 2004]:* It is intended that the identity of the Preferred Bidder for the Defence Information Infrastructure (Future) contract will be announced early in 2005.

Helen Jones: To ask the Secretary of State for Defence what discussions he has had with the Secretary of State for Trade and Industry on the consequences for jobs and skills in North West England of decisions he may take on the Defence Information Infrastructure (Future) contract. [188265]

Mr. Ingram *[holding answer 13 September 2004]:* No discussions have taken place between my right hon. Friends the Secretary of State for Defence and the Secretary of State for Trade and Industry with reference to the impact of the Defence Information Infrastructure (Future) (DII(Future)) contract. However, as part of the Assessment Phase for DII (Future), officials from the Supplier Relations Group in the Defence Procurement Agency have liaised with the Aerospace and Defence Unit of the DTI in respect of the UK impact of the respective bidders' proposals.

Defence Spending Review

Miss McIntosh: To ask the Secretary of State for Defence what assessment he has made of the implications of *(a)* the Defence Spending Review and *(b)* the proposals set out in his oral statement on future capabilities for defence on 21 July for (i) RAF Leeming, (ii) RAF Linton on Ouse, (iii) AAC Dishforth and (iv) Alanbrooke Barracks; and if he will make a statement. [186618]

Mr. Ingram: The Defence White Paper "Delivering Security in a Changing World: Future Capabilities" published on 21 July set out our future plans for Defence. The White Paper took account of the Spending Review 2004 settlement for Defence. As the White Paper set out, we intend to disband a Tornado F3 squadron based at RAF Leeming by the end of October 2005. The Hawk squadron will continue to be based there. The future role of the base will be considered as part of a wider review of Defence Airfields. RAF Linton on Ouse and AAC Dishforth are also within the scope of the Defence Airfield Review, which will be completed in 2005.

There are no plans to close Alanbrooke Barracks at Topcliffe. We are, however, examining the type of unit that is based there as a result of work on the Future Army Structure. The future need for the Airfield at the barracks is to be considered under the Defence Airfield Review. This is not expected to have any impact on the Army's use of the barracks.

Departmental Recycling

Bob Spink: To ask the Secretary of State for Defence what the latest available 12 month figures are for the proportion of the Department's redundant documentation, waste paper and card that is recycled; and if he will make a statement on the Department's recycling policy. [188694]

Mr. Caplin: At this current time the Ministry of Defence does not hold data on the proportion of its paper, cardboard and redundant documentation that is consigned for recycling.

MOD policy on waste management and recycling is set out in Joint Services Publication 418, the MOD Environment Manual, a copy of which is available in the Library of the House. Departmental policy also takes account of the requirements of the waste targets contained within the Framework for Sustainable Development on the Government Estate.

Departmental Staff

Hugh Bayley: To ask the Secretary of State for Defence how many *(a)* regular military personnel, *(b)* Territorial Army and other part-time military personnel and *(c)* civilian personnel have been employed by his Department in (i) total, (ii) Yorkshire and the Humber, (iii) North Yorkshire and (iv) City of York in each year since 1979. [188952]

Mr. Caplin: The information requested is as follows:

(a) (i) The total number of UK regular forces as at 1 April for each year since 1979 is as follows:

	Total
2004	207,020
2003	206,920
2002	204,690
2001	205,650
2000	207,620
1999	208,640
1998	210,140
1997	210,820
1996	221,870
1995	233,340
1994	254,490
1993	274,850
1992	293,440
1991	298,060
1990	305,710
1989	311,650
1988	316,900
1987	319,850
1986	322,510

	Total
1985	326,220
1984	325,910
1983	320,620
1982	327,650
1981	333,760
1980	320,600
1979	314,900

(ii) The total number of UK regular forces in (ii) Yorkshire and Humber, (iii) North Yorkshire and (iv) City of York as at 1 July for each year since 1979 is given in the following table:

	Yorkshire and Humber	North Yorkshire	York
2004	n/a	n/a	n/a
2003	n/a	n/a	n/a
2002	13,840	12,070	680
2001	12,800	11,030	650
2000	13,060	11,240	740
1999	11,040	9,590	700
1998	12,090	10,220	750
1997	10,960	9,500	810
1996	12,150	10,130	940
1995	12,320	10,620	560
1994	12,790	10,820	2,070
1993	13,340	11,790	1,130
1992	15,770	13,430	1,050
1991	15,260	12,660	1,110
1990	15,520	12,840	1,040
1989	15,250	12,290	1,100
1988	15,360	12,290	1,210
1987	14,450	11,120	1,180
1986	14,750	11,520	1,090
1985	14,770	11,730	1,150
1984	14,780	12,030	1,160
1983	14,870	11,750	1,150
1982	13,500	10,470	620
1981	13,610	10,620	630
1980	14,620	11,520	670
1979	13,920	11,100	700

Notes:
1. The figures in part *(a)* are for UK regular forces, both trained and untrained; they therefore exclude Gurkhas, full-time Reserve Service personnel, the Home Service battalions of the Royal Irish Regiment and mobilised reservists.
2. All figures have been rounded to the nearest 10.
3. n/a denotes unavailable.

(b) (i) The total number of Reserve forces is given in the following table as at 1 April for each year since 1979:

	Total
2004	245,020
2003	257,880
2002	271,520
2001	282,550
2000	293,100
1999	305,440
1998	317,880
1997	321,980
1996	326,640
1995	328,780
1994	333,490
1993	334,270
1992	340,950
1991	339,550
1990	332,010
1989	320,260
1988	313,520
1987	307,790
1986	297,800
1985	286,950
1984	276,800
1983	273,460
1982	275,550
1981	272,990
1980	262,030
1979	255,280

Notes:
1. All tables include Mobilised/Activated Reservists but exclude Reservists serving in a Full Time Reserve Service (FTRS) role.
2. All figures are rounded to the nearest 10.

(ii), (iii) and (iv) Reserve Service personnel data by location are unavailable.

(c) (i) The number of full-time equivalent civilian personnel in the MOD as at 1 April for each year since 1979 is as follows:

	Total
2004	109,050
2003	107,580
2002	110,090
2001	118,170
2000	121,290
1999	123,010
1998	126,290
1997	133,330
1996	135,360
1995	141,140
1994	148,790
1993[1]	159,570
1992	139,450
1991	140,200
1990	141,370
1989	141,320
1988	143,400
1987	164,000
1986	169,460
1985	174,080
1984	181,180
1983	190,330
1982	197,490
1981	208,760
1980	218,030
1979	224,700

[1] Figures from 1993 onwards are calculated according to the revised definition of civilian personnel. Prior to this, numbers given are for permanent, full-time equivalent staff, non-industrial and industrial, including Trading Funds and excluding those on career breaks, long-term sick leave, secondment etc.

Note:
All figures are rounded to the nearest 10.

(ii) The number of full-time equivalent civilian personnel in the Yorkshire and the Humber economic planning region /Government Office Region as at 1 July for each year since 1979 is as follows:

	Total
2004	3,940
2003	3,540
2002	3,450
2001	3,340
2000	3,270
1999	3,430
1998	3,490
1997	3,430
1996	3,830

	Total
1995	4,550
1994[1]	4,970
1993	5,310
1992	5,550
1991	5,710
1990	5,960
1989	5,780
1988	5,890
1987	6,040
1986	6,300
1985	6,340
1984	n/a
1983	n/a
1982	n/a
1981	n/a
1980	n/a
1979	n/a

[1] Figures from 1994 onwards are calculated according to the revised definition of civilian personnel. Prior to this, numbers given are for permanent, full-time equivalent staff, non-industrial and industrial, including Trading Funds and excluding those on career breaks, long-term sick leave, secondment etc. No figures are available prior to 1985.

Notes:

1. All figures are rounded to the nearest 10.
2. n/a denotes unavailable.

(iii), (iv) Reliable data are not available below Government Office Region level.

Detainees (US)

Sir Menzies Campbell: To ask the Secretary of State for Defence what assistance the UK has provided to the US authorities in the detention and interrogation of terrorist suspects; and if he will make a statement. [185050]

Mr. Ingram: Three United Kingdom forces personnel were involved in interrogation and debriefing of individuals held by United States Authorities at Abu Ghraib prison in early 2004, some of whom had suspected links to terrorism. In addition, UK armed forces personnel who are part of the Iraq Survey Group have been involved in interrogation and questioning of US detainees. In no other current operation have UK military personnel interrogated US detainees.

Far East Prisoners of War

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many former Far East prisoners of war in Pendle received an ex gratia award of £10,000. [188571]

Mr. Caplin: The information requested could only be found by manually checking the individual claims of all successful applicants under the Ex Gratia Payment Scheme for Far East Prisoners of War and Civilian Internees, a number now approaching 24,000. This work could be carried out only at disproportionate cost.

FRES Programme

Ann Winterton: To ask the Secretary of State for Defence if he will make a statement on the *(a)* total budget and *(b)* budget timetable for the Future Rapid Effect System programme. [188783]

Mr. Ingram: The full Future Rapid Effect System (FRES) programme cost has yet to be established, but the provision for acquisition could be in the region of £6 billion. Whole life costs are estimated at £49 billion. FRES is in the early stages of its Assessment Phase, during which a range of options to meet the requirement will be considered. Once we are clearer as to the options available we can better determine the funding profile.

Ann Winterton: To ask the Secretary of State for Defence which other countries will be part of the Future Rapid Effect System programme; and whether it will be compatible with the equivalent US system. [188784]

Mr. Ingram: The Future Rapid Effect System is expected to support joint operations with NATO allies. Co-operation during the Assessment Phase is likely to focus on harmonising requirements for interoperability in support of coalition operations and mitigating common areas of technology risk. However, opportunities for collaborating on sub-systems and sharing information on technologies and requirements will be explored during the Assessment Phase, and the scope for future collaboration assessed prior to the Main Gate investment decision.

Ann Winterton: To ask the Secretary of State for Defence which present and future vehicles will carry the Future Rapid Effects System. [188785]

Mr. Ingram: The Future Rapid Effect System (FRES) will not be carried on present and future vehicles. FRES is the generic name for the capability being sought to enhance the deployability of Land Forces. It is anticipated that the capability will be provided by a family of medium-weight, networked armoured vehicles. Concurrently, FRES will replace the CVR(T) series, Saxon and elements of the existing FV430 series.

Ann Winterton: To ask the Secretary of State for Defence whether the Future Rapid Effect System will be operational without other countries providing spares or holding necessary hardware. [188786]

Mr. Ingram: As laid down in our Defence Industrial Policy, we are firmly committed to promoting a strong and competitive UK defence manufacturing industry. Our policy enables us to evaluate industrial capabilities and take decisions on whether there is a need to retain these in the UK against defined criteria. This will be one factor taken into account as part of the main investment decision.

Ann Winterton: To ask the Secretary of State for Defence whether the Future Rapid Effect System will be operational by 2010. [188787]

Mr. Ingram: The Future Rapid Effect System (FRES) has recently achieved Initial Gate approval, and is now in its Assessment Phase. Part of this Assessment Phase work will be to identify and reduce risk in the programme to enable us to define an appropriate In-Service Date (ISD) in both capability and programme terms for endorsement at Main Gate. The ISD will not be formally endorsed until then, but our initial planning assumption is to introduce the early variants of FRES around the end of the decade, with a phased approach to achieving full operational capability.

Ann Winterton: To ask the Secretary of State for Defence what international peacekeeping and stability roles the Future Rapid Effect System will have; and what role it will have in post conflict reconstruction. [188788]

Mr. Ingram: The Future Rapid Effect System (FRES) will be the central pillar of a capable, coherent and highly deployable medium force with broad utility across the spectrum of operations. It is envisaged that its wide operational utility and its ability to deploy rapidly will enhance the UK's ability to contribute to appropriate peacekeeping, stability and post-conflict resolution operations.

Ann Winterton: To ask the Secretary of State for Defence what the projected cost is of each Future Rapid Effect System unit. [188789]

Mr. Ingram: The Future Rapid Effect System Project is in the early stages of its Assessment Phase; it is therefore too early to determine the unit cost. Part of the Assessment work will focus on developing a series of affordable options for meeting the requirement.

Gurkha Service Personnel

Mr. Truswell: To ask the Secretary of State for Defence what representations he has received regarding the provision of *(a)* pensions and *(b)* other forms of support to Gurkha Service personnel who have served with HM forces; and if he will make a statement. [179190]

Mr. Caplin: I receive representations from members of both Houses and from interested individuals and organisations about a range of issues, including pensions and other forms of support to Gurkha Service personnel. These have included comparisons between British and Gurkha soldiers' pay and pensions; confusion about the benefits Gurkhas are entitled to; and comments about their treatment by successive British Governments.

Gurkha pay, allowances and pensions are regularly reviewed. In terms of welfare provision to Gurkhas following discharge from the Army, MOD makes a substantial annual grant to cover the administrative costs of the Gurkha Welfare Trust in support of the charity's work in Nepal.

HMS Vanguard

Mr. Hancock: To ask the Secretary of State for Defence what the original date was for the re-commissioning of HMS Vanguard; what the current forecast is; what procedures have still to be completed; what the reasons are for the delay; what the *(a)* original cost estimate was and *(b)* what the current cost estimate is; and if he will make a statement. [189384]

Mr. Ingram: HMS Vanguard was originally due to return to the fleet in the third quarter of 2004. Her return to fleet is currently forecast for the second quarter of 2005. The main procedures still to be completed are working up of the nuclear reactor, preparations for and undertaking sea trials.

The underpinning reasons for the delay stem from the fact that this is the first time a Vanguard Class submarine has undergone a Long Overhaul Period or been refuelled. It is also the first fit of a new design reactor core and the first use of DML's new nuclear refitting and refuelling facility for Vanguard Class submarines. As is usual with major refits and Long Overhaul periods, there has also been an element of work that cannot be pre-planned in the regeneration of the equipment that has been dormant during the Long Overhaul Period (Refuelling).

The direct cost of the Long Overhaul Period (Refuelling) remains within the originally approved total of approximately £210 million (at outturn prices). However, the Department is currently negotiating with Devonport Management Ltd. on consequential costs as a result of the delay to HMS Vanguard leaving the dockyard. It is too early to say what the outcome of these negotiations will be.

Infantry Battalions

Ann Winterton: To ask the Secretary of State for Defence what the expected financial saving will be from the reduction of infantry battalions; and who will take the decision on which infantry battalions are to be disbanded. [188793]

Mr. Ingram: My right hon. Friend the Secretary of State for Defence announced to the House on 21 July 2004, *Official Report*, columns 343–50, plans to transform the armed forces to ensure they are structured, equipped and trained to meet the challenges of the 21st Century. As part of this transformation the Army will restructure its infantry, taking into account the decision to cease arms plotting and the planned reduction in the number of infantry battalions as a result of the improving situation in Northern Ireland. The manpower freed up from the reductions in infantry battalions will be reinvested across the Army in a rebalancing exercise, to strengthen key enabling capabilities such as signals, logistics, engineers and intelligence and to fill gaps elsewhere in the infantry.

The Army is working on the details of the new structure and recommendations will be made to Ministers for approval before the end of this year.

Mr. Garnier: To ask the Secretary of State for Defence what the interval was between overseas or Northern Ireland operational tours for each infantry battalion since 1 June 1997, and what the *(a)* nature and *(b)* date of each operational tour on which each infantry battalion was deployed. [187340]

Mr. Ingram *[holding answer 7 September 2004]:* The details of operational tours and tour intervals for each infantry battalion since 1 June 1997 are not held centrally and can only be provided at disproportionate cost. I can, however, provide the details from 1 July 2001 to 1 July 2004 and these can be found in the following table.

Deployments have been defined as unaccompanied unit level operational tours.

Regiment	Operational tour	Interval	Operational tour	Interval	Operational tour	Interval	Operational tour
1st Battalion. The Grenadier Guards	Northern Ireland. November 2001-May 2002	14 months	Falkland Islands July 2003 - October 2003	—	—	—	—
1st Battalion. The Coldstream Guards	—	—	—	—	—	—	—
1st Battalion. The Scots Guards	Northern Ireland. May 2001-November 2001	—	—	—	—	—	—
1st Battalion. The Irish Guards	Iraq February-June 2003	5 month	Northern Ireland December 2003—March 2004	—	—	—	—
1st Battalion. The Welsh Guards	Bosnia April-September 2002	—	—	—	—	—	—
1 Battalion. The Royal Scots (The Royal Regiment)	Bosnia. October 2002-March 2003	7 months	Iraq November 2003—April 2004	—	—	—	—
1 Battalion. The Royal Highland Fusiliers (Princess Margaret's Own Glasgow and Ayrshire Regiment)	Falkland Islands. November 2003-April 2004	—	—	—	—	—	—
1st Battalion. The Kings Own Scottish Borderers	Northern Ireland. September 2001-March 2002	14 months	Iraq July - October 2003	—	—	—	—

3rd Battalion, The Parachute Regiment	Northern Ireland December 2001-May 2002	0 months	Falkland Islands (Sub Unit) May-July 2002	5 months	Iraq February-July 2003	10 months	Northern Ireland May 2004-

Note:
Intervals have been rounded where deployment began other than at the start or end of the month.

Iraq

Mr. McNamara: To ask the Secretary of State for Defence what the wording is of the aide memoire card on the law of armed conflict supplied to UK military personnel deploying to Iraq; how many of these cards have been issued; and how many have been printed. [182732]

Mr. Ingram: A copy of the aide memoire will be placed in the library of the house. 20,000 copies were printed and issued as part of a training programme for troops deployed to Iraq.

Adam Price: To ask the Secretary of State for Defence whether members of his departmental staff were informed in July 2003 that the Secret Intelligence Service in that month had withdrawn reporting from a source who claimed that the production of biological and chemical agents had been accelerated by the Iraqi regime, because the source of the reporting had subsequently been deemed unreliable. [185787]

Mr. Hoon: We have nothing further to add to the remarks that were made in the debate on Iraq on 20 July.

Bob Russell: To ask the Secretary of State for Defence how many members of HM Forces were injured in Iraq *(a)* during the war and *(b)* subsequently; and in each case how many were returned to the UK for medical treatment. [188136]

Mr. Dalyell: To ask the Secretary of State for Defence (1) how many British troops have been repatriated from Iraq to the UK because of physical or mental illness; [188779]

(2) how many British troops have been injured in *(a)* combat and *(b)* non-combat duties in Iraq. [188718]

Mr. Ingram: 155 UK military personnel were injured in combat during decisive combat operations but we do not hold centrally the number medically evacuated in the period.

To date 2,703 UK military personnel have been medically evacuated from Iraq. We do not hold centrally records of the number of injured personnel who were treated locally and then returned to duty without being medically evacuated.

Mr. Bercow: To ask the Secretary of State for Defence what plans he has to make a separate status of forces agreement with the Iraqi Government. [188317]

Mr. Ingram: There are no plans at the present time to make a separate status of forces agreement with the Iraqi Government.

Under Article 59 of the Transitional Administrative Law (the law for the administration of Iraq during the transition period—promulgated by the Iraqi Governing Council in March 2004), the Iraqi Interim Government has no powers to conclude any binding international agreements, which would include status of forces agreements. This power will belong to the elected Transitional Government.

Until the Transitional Government is in place, Coalition Provisional Authority Order 17 covers the terms of the MNF presence in Iraq, and includes those areas which would normally be covered in a status of forces agreement.

Mr. Bercow: To ask the Secretary of State for Defence what safeguards have been put in place by his Department to prevent the mistreatment of detainees in Iraq. [188321]

Mr. Ingram: All United Kingdom armed forces personnel deployed to Iraq are trained to treat prisoners in accordance with the Geneva Conventions. In addition, each major unit has a number of personnel specially trained in prisoner handling.

In Theatre there are clear procedures for the running of the Divisional Temporary Detention Facility (DTDF). Their operation is monitored through regular inspections and visits.

Mr. Bercow: To ask the Secretary of State for Defence what plans his Department has to provide security *(a)* before, *(b)* during and *(c)* after elections in Iraq. [188342]

Mr. Ingram: There are some 9,200 UK personnel committed to Iraq whose role is to assist the Iraqi Interim Government and Iraq Security Forces in the provision of security.

Iraqi Government and Multinational Force commanders continue to consider the levels and dispositions of forces required in Iraq in the months ahead, to support the process leading to the election of a Transitional Assembly and Government early in 2005.

If it is judged that further changes to the UK military contribution in Iraq would be appropriate to support this process, we will of course inform the House at the earliest opportunity. At present, however, no decision has been taken.

Mr. Dalyell: To ask the Secretary of State for Defence how many British troops serving in Iraq have subsequently been invalided out of the armed forces. [188778]

Mr. Ingram: As at 31 July 2004 centrally held records show that 46 service personnel who had been deployed on Operation Telic, between 18 January 2003 and 30 June 2004, have subsequently been medically discharged from the Armed Forces either as a result of injuries received or as a result of disease-related causes.

Bob Russell: To ask the Secretary of State for Defence how many members of HM forces have lost their lives in Iraq since 1 July 2003. [188828]

Mr. Ingram: Between 1 July 2003 and 10 September 2004, 23 members of the UK armed forces were killed while engaged on operations in Iraq.

Mr. Wood: To ask the Secretary of State for Defence if he will reintroduce the free parcel service to troops in Iraq. [189488]

Mr. Ingram: I refer the hon. Member to my written ministerial statement of 27 February 2004, *Official Report*, column 70WS, and subsequent answers of 5 March 2004, *Official Report*, column 1155W, to the hon. Member for Portsmouth, South (Mr. Hancock), 1 April 2004, *Official Report*, column 1605W, to the hon. Member for Mid-Norfolk (Mr. Simpson), 5 May 2004, *Official Report*, column 1527W, to the hon. Member for Uxbridge (Mr. Randall), 15 June 2004, *Official Report*, column 811W, to the hon. Member for Burnley (Mr. Pike) and 1 September 2004, *Official Report*, column 713W, to the hon. Member for Batley and Spen (Mr. Wood).

There are no plans to reintroduce the free postal packet service to Service personnel deployed in the Iraq theatre of operations.

Mr. Wood: To ask the Secretary of State for Defence what assessment he has made of the impact of the deployment in Iraq on the ability of the armed forces to assist in UK civil emergencies, with particular reference to the flooding in Cornwall during August. [189500]

Mr. Ingram: No special assessment is necessary. It continues to be the case that, if asked to provide assistance, the Armed Forces would draw on the most appropriate resources available at the time. In the case of the flooding in Cornwall during August, help was provided by Search and Rescue assets permanently based in the South West.

Kenley Airfield

Richard Ottaway: To ask the Secretary of State for Defence what plans he has for future use of Kenley Airfield. [189399]

Mr. Caplin: The future use of Kenley Airfield is kept under review. However, there are no current plans to cease defence gliding activity on that site.

Meteorological/Hydrographic Offices

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will list his Department's turnover for the *(a)* Meteorological Office and *(b)* UK Hydrographic Office for each financial year from 1997–98 to 2003–04. [189193]

Mr. Caplin *[holding answer 16 September 2004]*: Turnover figures for the Meteorological Office and UK Hydrographic Office are included in their Annual Reports and Accounts which are placed in the Libraries of the House and, from 1999–2000, published on the web sites www.met-office.gov.uk and www.hydro.gov.uk respectively.

The Met Office turnover figures are:

Financial Year	*Turnover (£ million)*
1997–98	154.8
1998–99	152.9
1999–2000	151.0
2000–01	154.4
2001–02	154.8
2002–03	157.4
2003–04	160.8

The UK Hydrographic Office turnover figures are:

Financial Year	*Turnover (£ million)*
1997–98	39.9
1998–99	43.6
1999–2000	44.9
2000–01	49.1
2001–02	53.2
2002–03	56.1
2003–04	63.1

Military Operating Structures

Ann Winterton: To ask the Secretary of State for Defence if he will make a statement on the operating structures of the *(a)* Queen's and Light Division and *(b)* Prince of Wales and King's Division. [188782]

Mr. Ingram: I have assumed that the hon. Member is referring to the Regimental structure of the Divisions in Question and have answered the question accordingly. This information is provided in the following table:

Division	*Comprising of*
The Queen's Division	The Princess of Wales's Royal Regiment
	The Royal Regiment of Fusiliers
	The Royal Anglian Regiment
	The London Regiment
Light Division	The Light Infantry
	The Royal Green Jackets
Prince of Wales Division	The Devonshire and Dorset Regiment
	The Cheshire Regiment
	The Royal Welch Fusiliers
	The Royal Regiment of Wales
	The Royal Gloucestershire, Berkshire, Worcestershire and Sherwood Foresters Regiment
	The Staffordshire Regiment
King's Division	The King's Own Royal Border Regiment
	The King's Regiment
	The Prince of Wales's Own Regiment of Yorkshire
	The Green Howards
	The Queen's Lancashire Regiment
	The Duke of Wellington's Regiment

MOD Land

Angus Robertson: To ask the Secretary of State for Defence if he will list the land in Scotland not owned or leased by his Department but over which it has limited rights, including areas of foreshore; and if he will make a statement. [173439]

Mr. Caplin: The information requested is set out as follows.

List of current land over which MOD has limited rights

Location			*Date*
DERA Hebrides Range	South Uist	Restrictions and access	1 November 1968
DERA Hebrides Range	South Uist	Compensation payment for restrictive rights over areas of land known as danger areas	19 May 1973
Galloway Trg. Area	Galloway Forest	Training area	1 January 1987
Cultybraggan Trg. Camp	Cultybraggan	Land for dry training	23 September 1989
Tighnablair Trg. Area	Cultybraggan	Land for Army training	1 June 1990
Barry Buddon	Barry Buddon	Lightkeepers House	1 September 1990
Lossie Forest Trg. Area	Lossie Forest	Land for training	1 January 1992
Tighnablair Trg. Area	Cultybraggan	Land for Army training	16 May 1992
Castle Kennedy Trg. Area	Castle Kennedy Airfield	Army training	1 January 1993
Ardgarten Trg. Area	Ardgarten Forest	Training land	1 July 1993
Glutt Field	Glutt Field	Firing range	16 February 1994
Ardgarten Training Area	Glencroe Hill	Training land	1 June 1994
Loch Ewe Trg. Area	Gairloch Estate	Army training area	1 October 1995

Nimrod

Mr. Hancock: To ask the Secretary of State for Defence if he will make it his policy to retain the skilled workforce at Woodford between the development and production phases of the Nimrod MRA4 through the commissioning of lead items. [188148]

Mr. Ingram: I refer the hon. Member to the answer I gave on 17 May 2004, *Official Report*, column 667W.

Mr. Hancock: To ask the Secretary of State for Defence what the cost is of the upgrade of the Nimrod R1 aircraft, how many aircraft are involved; when the work is due *(a)* to begin and *(b)* to be completed; what the life span of the upgraded aircraft will be; and if he will make a statement. [188150]

Mr. Ingram: Under Project Helix the mission systems on the RAF's three Nimrod R1 aircraft are due to be upgraded, together with associated ground stations and training facilities. The assessment phase for the project began in April 2004 and the demonstration and manufacture phase is planned to start in 2007. The full project is due to be completed in 2018 at an estimated total cost of over £400 million (VAT inclusive).

Under current plans the Nimrod R1 will have a service life well into this century.

Operational Deployments

Mr. Flook: To ask the Secretary of State for Defence what the last three operational deployments were and what the length between each has been for *(a)* 40 Commando, *(b)* 42 Commando, *(c)* 45 Commando and *(d)* Head Quarters, Royal Marines. [189402]

Mr. Ingram: The last three operational deployments of the Royal Marine units specified are:

40 Commando

A single company was deployed to Afghanistan from November 2001 to November 2002, followed by a gap of one month before the whole unit was deployed to Operation Telic (Iraq) from January 2003 to April 2003. A further gap of 14 months ensued before re-deployment of the whole unit to Operation Telic in July 2004.

42 Commando

The whole unit was deployed to Operation Silkman (Sierra Leone) from September 2001 to November 2001; a subsequent gap of three months was followed by deployment of the whole unit to Operation Banner (Northern Ireland) for the period March 2002 to September 2002, thence a gap of four months before it deployed to Operation Telic from February 2003 to May 2003.

45 Commando

The whole unit was deployed to Operation Jacana (Afghanistan) for the period April 2002 to July 2002. A gap of six months ensued before the bulk of the unit was deployed to Operation Telic for the period February 2003 to May 2003. A subsequent gap of six months was followed by deployment of the whole unit to Operation Banner from December 2003 to June 2004.

Headquarters Royal Marines

Headquarters Royal Marines was disestablished as a result of the Fleet FIRST reorganisation in 2002. However, it was not a deployable headquarters. HQ 3 Commando Brigade however, deployed to Operation Agricola (Kosovo) from August 2000 to February 2001, with a gap of 12 months before deployment to Operation Jacana from March 2002 to July 2002. A further gap of five months was followed by deployment to Operation Telic from January 2003 to May 2003.

The dates given represent when the main bulk of the unit was deployed, because the deployment to, and recovery from an operation, are protracted and multi-phased.

Parachute Battalions

Ann Winterton: To ask the Secretary of State for Defence what the *(a)* schedule and *(b)* operations of the three Parachute battalions has been over the last three years. [188791]

Mr. Ingram: The details of the operational deployments of each Battalion of the Parachute Regiment over the last three years are shown in the following table. Deployments have been defined as unaccompanied Battalion level operational tours.

Unit	*Date*	*Location*
1 Para	May and August 2000 (two short deployments)	Sierra Leone
	January–June 2001	Northern Ireland
	January–June 2003	Iraq
2 Para	January–March 2002	Afghanistan
	September 2002–March 2003	Northern Ireland
	December 2003–April 2004	Iraq
3 Para	January–June 2002	Northern Ireland
	January–June 2003	Iraq
	May 2004 to date	Northern Ireland

Provigil

Mr. Hancock: To ask the Secretary of State for Defence how many service personnel have been prescribed Provigil and similar drugs in each of the last six years; what quantities of drugs have been dispensed; and for what reasons. [187496]

Mr. Caplin: Provigil may be prescribed within the Defence Medical Services for legitimate clinical reasons in the same manner as it would be used by the NHS. It is prescribed for the treatment of specific sleep disorders including narcolepsy. Information is not held centrally about the number of Service personnel who have been prescribed Provigil nor the quantities prescribed. However, the quantities purchased by the Medical Supplies Agency between 1999 and 2004 (21,600 tablets) would be consistent with the treatment, through Service primary care facilities, of three to five patients per year at normal rates of usage for the product.

Public Relations

Dr. Cable: To ask the Secretary of State for Defence what the salary costs to the Department were for employees working in public relations and publicity in each year since 1997. [183850]

Mr. Caplin: Salary costs for staff working in public relations and publicity within the Department's central communications organisation from 2001–02 to 2003–04 were as follows:

	£ million
2001–02	5.3
2002–03	5.5
2003–04	5.9

Figures for years prior to 2001–02 are not held centrally and could be provided only at disproportionate cost.

The figures do not include information about staff working in public relations and publicity at command or unit level throughout the Department. Information about this is not held centrally and again could be provided only at disproportionate cost.

QinetiQ Ltd.

Mr. Cousins: To ask the Secretary of State for Defence what income has been received from the equity stake in Qinetiq Ltd.; who exercises the rights of the controlling equity stake on behalf of the Government; and who approved the higher leveraged equity scheme in QinetiQ for senior managers on behalf of the Government. [188713]

Mr. Ingram: Total proceeds to date from the Defence Evaluation and Research Agency Public Private Partnership (DERA PPP), of which the sale of an equity stake is just a part, amount to some £211.1 million. This comprises proceeds from the sale, proceeds from the redemption of debt and from the redemption of preference shares.

A key feature of the DERA PPP was to bring in a strategic partner to improve the management of QinetiQ and help grow the business in preparation for its transfer to the private sector. Although continuing to hold a majority equity stake, operational control of the company is exercised by the Carlyle Group as the Government's strategic partner. Control of the Government's equity stake is exercised by the MOD, via shares held in trust by the MOD Finance Director on behalf of the Secretary of State.

An Incentive Scheme for QinetiQ employees, including a component for senior managers, was approved by Ministers at the time of the transaction.

Quick Reaction Alert Aircraft

Mr. Heath: To ask the Secretary of State for Defence what progress has been made in equipping *(a)* RNAS Yeovilton, *(b)* RAF Marham and *(c)* RAF St. Mawgan to support quick reaction alert aircraft since his statement of 18 July 2002. [189079]

Mr. Ingram *[holding answer 14 September 2004]*: RAF Marham and RAF St. Mawgan became fully equipped to support quick reaction alert aircraft in June 2004. RNAS Yeovilton is due to become fully equipped for supporting quick reaction alert aircraft in the summer of 2005.

RAF Croughton

Norman Baker: To ask the Secretary of State for Defence for what reason an American colonel has been appointed as base commander of RAF Croughton. [189523]

Mr. Ingram: RAF Croughton is made available to the United States Visiting Force (USVF) under the terms of the North Atlantic Treaty Organisation Status of Forces Agreement (SOFA) of 1951. As is the case at all RAF stations made available to the USVF, the United States appoint an installation commander who is responsible for the US mission at the base. At RAF Croughton, a USAF lieutenant colonel fulfils this role.

Regimental Changes

Ann Winterton: To ask the Secretary of State for Defence when the Army Board first consulted the colonels of the 19 regiments over impending changes. [188796]

Mr. Ingram: The Colonels Commandant of the Infantry were first briefed about a possible successor arrangement to the infantry arms plot by members of the Army Board during a meeting on 29 March. The Colonels Commandant have met several times since then to discuss changes to the Infantry structure. It is usual for the Colonels Commandant to brief and consult informally with Regimental Colonels after such meetings.

Regimental Recruitment

Ann Winterton: To ask the Secretary of State for Defence what the recruiting levels were for the regiments in the *(a)* Queen's, *(b)* King's, *(c)* Prince of Wales and *(d)* Light Divisions over the past three years for (i) officers and (ii) other ranks. [188797]

Mr. Caplin: The following tables show the numbers of officers and other ranks enlisted into the Queen's, King's, Prince of Wales' and Light Divisions for the last three financial years (April-March).

Officers

These figures show the regiments joined by officers once their training at the Royal Military Academy, Sandhurst had been completed.

Queen's Division

Financial year	*2001–02*	*2002–03*	*2003–04*
The Princess of Wales' Royal Regiment	6	10	12
The Royal Regiment of Fusiliers	14	10	8
The Royal Anglian Regiment	7	9	10

King's Division

Financial year	*2001–02*	*2002–03*	*2003–04*
The King's Own Royal Border Regiment	4	7	5
The King's Regiment	2	3	4
The Prince of Wales' Own Regiment of Yorkshire	4	4	3
The Green Howards	2	9	5
The Queen's Lancashire Regiment	3	4	4
The Duke of Wellington's Regiment	5	5	2

Prince of Wales' Division

Financial year	*2001–02*	*2002–03*	*2003–04*
The Devonshire and Dorset Regiment	4	6	3
The Cheshire Regiment	1	9	1
The Royal Welch Fusiliers	1	6	5
The Royal Regiment of Wales	1	4	8
The Royal Gloucestershire, Berkshire and Wiltshire Regiment	6	8	4
The Worcestershire and Sherwood Foresters Regiment	6	5	5
The Staffordshire Regiment	3	3	7

Light Division

Financial year	*2001–02*	*2002–03*	*2003–04*
The Light Infantry	11	10	10
The Royal Green Jackets	10	8	11

Other Ranks

Infantry other ranks recruits are enlisted into a Division and not a Regiment. These enlistment figures are taken from the beginning of the training process. Some recruits may have changed employment and cap badge during training.

Financial year	*2001–02*	*2002–03*	*2003–04*
Queen's Division	854	833	765
King's Division	733	733	595
Prince of Wales' Division	976	784	850
Light Division	590	588	464

Saudi Armed Forces Project Office

Mr. Cousins: To ask the Secretary of State for Defence what the total cost was of the Saudi Armed Forces Project Office which was recharged to the Saudi Government in each financial year from 1997–98 to 2003–04. [188598]

Mr. Ingram *[holding answer 16 September 2004]:* The Saudi Government covers the costs of the participation of the Saudi Armed Forces Project Office in the Al Yamamah programme.

The total cost of the Project Office for each financial year from 1997–98 was:

	£ million
1997–98	26.4
1998–99	23.6
1999–2000	25.0
2000–01	27.0
2001–02	24.7
2002–03	32.8
2003–04	29.4

Submarines

Angus Robertson: To ask the Secretary of State for Defence whether a decision has been taken to retrofit the Vanguard Class Ballistic Missile Submarines with a Combat Management System based upon Microsoft Windows 2000; and if he will make a statement. [188102]

Mr. Ingram: No decision has been made on whether to modify the Combat Management System onboard Vanguard Class Submarines, to enable the system to operate on Microsoft's Windows 2000 software. However, an independent review concluded that Windows 2000 operating software, when used in conjunction with the original application software, is both safe and secure. As a result, some Trafalgar Class submarines are being modified to incorporate Windows 2000 into the Tactical Command System, which is used in the launch process for Spearfish torpedoes and Tomahawk missiles.

Sudan

Sue Doughty: To ask the Secretary of State for Defence how many United Kingdom armed forces personnel he plans to commit in the event of United

Nations intervention in Sudan; what estimate he has made of the likely cost of such a mission; and if he will make a statement. [188066]

Mr. Ingram: We currently plan to commit three United Kingdom staff officers to the proposed UN Mission in Sudan following a Comprehensive Peace Agreement between the Government of Sudan and the southern-based Sudan People's Liberation Movement/ Army. This Mission will deploy once the final agreements have been signed by the parties. One officer is currently deployed within the UN Advanced Mission. The UK Assessed Contribution to UN Peacekeeping is 7.43 per cent. in addition to any costs associated with the deployment of UK personnel, which we will meet. We would expect that the UK contribution would be in the region of £20 million, should the Mission deploy as currently envisaged.

In the Darfur region of Sudan, a separate African Union mission is operating. No UK military personnel are currently committed to it. The AU mission is still evolving and any request for UK military support will be considered. We are currently not aware of any UN plans for involvement in this region.

Super Garrisons

Bob Russell: To ask the Secretary of State for Defence if he will make a statement on the establishment of super garrisons. [187991]

Mr. Ingram: We intend to enhance operational capability and value for money in a number of ways, including through our strategy for the Defence Estate. This envisages concentrating units into fewer, larger sites. In the case of the Army, such sites have been referred to informally as "super garrisons". No decisions, however, have yet been taken on their establishment or possible location.

Territorial Army (Iraq)

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what funding is being provided to Territorial Army personnel returning from service in Iraq. [186497]

Mr. Caplin: Such personnel are given paid leave up to a maximum of 40 days, depending on the length of their deployment. The final day of this period of leave is considered to be the last day of mobilised service. In addition, and depending on personal circumstances, TA personnel may continue to receive the Reserve Standard Award (RSA) and the Reserve Hardship Award (RHA) until their last day of mobilised service.

For those self-employed TA personnel returning from Iraq, are-training grant under the Employers Financial Assistance Scheme is also available.

Terrorism (Russia)

Mr. Jim Cunningham: To ask the Secretary of State for Defence what communications his Department has had with the Russian Government over security strategies to deal with terrorist threats. [189147]

Mr. Hoon: The Ministry of Defence and Russian Federation conduct a bilateral Defence Relations Activity Programme designed to develop confidence, promote understanding and discuss security interests. In the last 18 months, the following principal activities have included exchanges related to security strategies to deal with terrorist threats:

Visit by the Russian Defence Minister in July 2004.

Visit by a party of senior Russian officers to the UK, in January 2004, for seminars and discussions under the auspices of the International Institute of Strategic Studies.

Defence Staff Talks were reinstated in December 2003, following a five year gap. The MOD's Policy Director hosted the Russian MOD delegation in London.

Chief of the General Staff visited Moscow, St. Petersburg and the North Caucasus Military District, in June 2003.

In March 2003, Vice Chief of the Defence Staff had discussions with his counterpart, in Moscow.

The NATO-Russia Council is another forum where these issues are discussed.

Troop Deployment

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many British troops are in *(a)* Iraq and *(b)* Afghanistan. [188488]

Mr. Ingram *[holding answer 15 September 2004]:* As at 9 September 2004, there are about 8,000 British troops in Iraq and about 640 in Afghanistan.

Mr. Dodds: To ask the Secretary of State for Defence which battalions of the Army are committed to Northern Ireland; where they are based; and what the average length of duty in Northern Ireland is of each battalion. [187420]

Mr. Ingram: The following resident infantry battalions are currently based in Northern Ireland on accompanied tours of roughly two years:

2nd Battalion The Royal Regiment of Fusiliers, Holywood

2nd Battalion The Royal Anglian Regiment, Ballykelly

1st Battalion The King's Own Scottish Borderers, Omagh

2nd Battalion The Royal Green Jackets, Ballykinler

The following infantry battalions are currently committed to Northern Ireland on a six month unaccompanied tour of duty:

1st Battalion The King's Own Royal Border Regiment, Dungannon

1st Battalion The Royal Green Jackets, Bessbrook

In addition there are three home service battalions of The Royal Irish Regiment whose headquarters are at Holywood, Portadown and Omagh respectively.

Mr. Dodds: To ask the Secretary of State for Defence how many troops were deployed in Northern Ireland in each year since 1997. [187421]

Mr. Ingram: The number of armed forces personnel (Army, Navy and RAF), under the command of the General Officer Commanding Northern Ireland (GOC NI), stationed in Northern Ireland in each year since 1997 are set out in the following table.

As at 31 July	Number of armed forces personnel
1997	16,566
1998	16,107
1999	14,778
2000	13,812
2001	13,763
2002	13,669
2003	13,571
2004	11,450

The GOC NI also has under his command troops that are rear based in Great Britain that can be called forward to the Province as and when required. In addition other troops can be made available to the GOC NI from Land Command if required for example during the marching season.

HOME DEPARTMENT

Animal Rights Protesters

Mr. Paterson: To ask the Secretary of State for the Home Department what steps his Department is considering to protect smaller organisations and businesses from criminal damage committed by *(a)* the Lobster Liberation Front and *(b)* other animal rights protesters. [188895]

Caroline Flint: The Government are determined that legitimate business activity will not be prevented by extremists.

We announced on 30 July in our paper "Animal Welfare—Human Rights: Tackling Animal Rights Extremism" a number of changes to strengthen the law on protests outside homes and harassment.

These new proposals will strengthen on-going action by the Government, police and Crown Prosecution Service and the courts to enforce existing legislation robustly and to ensure effective co-ordination to combat the criminal activities of extremists.

Mr. Whittingdale: To ask the Secretary of State for the Home Department what assessment he has made of the activities of the Lobster Liberation Front. [187482]

Caroline Flint: We are in regular contact with the police about the activities of all extremist groups. Our position towards such groups is clear. We support the right of everyone to express strongly held views and to campaign legally to persuade people to change their mind and the law. We will not however tolerate those who use harassment, intimidation and violence to prevent others from carrying out their lawful business.

Dorset police have made an assessment of their activities and have given advice.

Mr. Whittingdale: To ask the Secretary of State for the Home Department if he will make a statement on the recent attack on the Lander family of Swanage by the Lobster Liberation Front. [187483]

Caroline Flint: I cannot comment on the individual case, but the Government is determined to tackle extremists who attempt to stop people going about their legitimate business. No one has the right to harass and intimidate individuals or their families.

We announced on 30 July in our paper "Animal Welfare—Human Rights: Tackling Animal Rights Extremism" a number of changes to strengthen the law on protests outside homes and harassment. These new proposals will strengthen on-going action by the Government, police and Crown Prosecution Service and the courts to enforce existing legislation robustly and to ensure effective co-ordination to combat the criminal activities of extremists.

Animal Experimentation

Norman Baker: To ask the Secretary of State for the Home Department when he last met *(a)* the British Union for the Abolition of Vivisection and *(b)* the National Anti-Vivisection Society. [188100]

Caroline Flint: My right hon. Friend the Home Secretary has not met either organisation. The last meeting between a Home Office Minister and the British Union for the Abolition of Vivisection took place in October 2001.I was due to meet the British Union for the Abolition of Vivisection in February 2004, but that meeting was postponed. I met the National Anti-Vivisection Society in January 2004.

Norman Baker: To ask the Secretary of State for the Home Department if he will list the *(a)* persons and *(b)* organisations (i) he, (ii) his Ministers and (iii) his officials have met in connection with animal experimentation since 1 January. [188101]

Caroline Flint: Home Office Ministers and officials have regular meetings with the scientific community and animal protection groups in connection with the implementation of the Animals (Scientific Procedures) Act 1986. It is not practicable to list all of the meetings held. However, since 1 January 2004, in addition to meetings with licence holders and other staff working in establishments licensed under the 1986 Act, meetings have been held with the:

Animal Procedures Committee
Association of the British Pharmaceutical Industry
Biotechnology and Biological Sciences Research Council
Canadian Council on Animal Care
Coalition for Medical Progress
Department for the Environment, Food and Rural Affairs
Department of Health
Department for Trade and Industry
European Centre for the Validation of Alternative Methods
Federation of European Laboratory Animal Science Associations
Food Standards Agency
Fund for the Replacement of Animals in Medical Experiments
Health and Safety Executive
Institute of Animal Technicians
International Council for Laboratory Animal Science
Laboratory Animal Breeders Association
Laboratory Animals Science Association
Laboratory Animals Veterinary Association
Medical Health Regulatory Authority
Medical Research Council
National Anti-Vivisection Society
National Centre for Replacement, Refinement and Reduction of Animals in Research

Royal College of Veterinary Surgeons
Royal Society for the Prevention of Cruelty to Animals
Uncaged Campaign
United States Department of Agriculture.

Norman Baker: To ask the Secretary of State for the Home Department pursuant to the written ministerial statement of 1 July 2004, *Official Report*, column 7WS, on the Animal (Scientific Procedures) Act 1986, whether the publishing of anonymised information in relation to section 24 of the Animal Act 1986 *(a)* will include information on whether all possible alternative methods to animal experimentation were exhausted and *(b)* will be compulsory to all bodies undertaking animal experimentation; and whether bodies deemed to be in contravention of the Animals Act 1986 will have their licence removed immediately. [188153]

Caroline Flint: The ministerial statement of 1 July made clear that the Government are pressing ahead with plans to publish anonymised information about projects licensed under the Animals (Scientific Procedures) Act 1986 as part of the Home Office publication scheme under the Freedom of Information Act.

All new project license applicants will be required to provide the information for publication as part of the licence application process—so it will be mandatory but not retrospective.

Final decisions have yet to be taken on the precise details to be provided, as field trial work is still in progress. However, it should be noted as regards alternatives to animal use, that under the 1986 Act the Home Office can only license projects when satisfied that no such alternatives exist.

Action taken on contraventions of the 1986 Act is determined by the particular circumstances of each case. Revocation of a license can be among the options to be considered.

Mr. Hancock: To ask the Secretary of State for the Home Department whether, during his Department's monitoring of the Imutran xenotransplantation programme under the Animals (Scientific Procedures) Act 1986, primates were found dead in procedures of moderate severity. [187047]

Caroline Flint: Yes. 17 animals died between observation periods in procedures of moderate severity out of over 500 non-human primates used in the Imutran studies between July 1994 and March 2000. The evidence available at the time suggested that death occurred quickly with little suffering being experienced by the individual animals. None of the deaths raised issues of non-compliance with the relevant license authorities.

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make a statement outlining his Department's definitions of *(a)* moderate severity and *(b)* substantial severity in animal experiments. [187048]

Caroline Flint: The categorisation of severity limits of protocols is explained in paragraph 5.42 of the Guidance on the Operation of the Animals (Scientific Procedures) Act 1986 (HG321). Protocols regarded as moderate include toxicity tests which do not involve lethal endpoints and many surgical procedures, provided that suffering is controlled and minimised by effective post-operative analgesia and care. Protocols that have the potential to cause greater suffering but include controls which minimise severity, or terminate the protocol before the animal shows more than moderate adverse effects, may also be classed within the moderate severity limit. Protocols regarded as substantial are those that may result in a major departure from the animal's usual state of health or well-being. These include acute toxicity procedures where significant morbidity or death is an endpoint; some efficacy tests of anti-microbial agents and vaccines; major surgery; and some models of disease, where welfare may be seriously compromised. If it is expected that even one animal would suffer substantial effects, the procedure would merit a 'substantial' severity limit.

Mr. Hancock: To ask the Secretary of State for the Home Department what the results were of his Department's most recent monitoring of the progress made by Imutran in achieving each of the objectives in its project licence for xenotransplantation research. [187049]

Caroline Flint: The Imutran xenotransplantation research licensed under the Animals (Scientific Procedures) Act 1986 began in 1994 and ended in 2000. At different points in time, and on different projects, Imutran tackled a number of different, but related, scientific objectives. With one exception, all of the predicted benefits relevant to the licensed studies taken into account in the cost benefit assessment of their project licence applications were delivered. However, by the middle of 1999 it became clear that they were not making progress in identifying a clinically potentially safe and effective means of preventing or controlling delayed forms of xenograft organ rejection and that the incidence of surgical technical failures was rising. We concluded that no new studies should be undertaken unless and until the cause of the technical problems was identified and remedied and an acceptable revised strategy for making scientific progress was devised. As a result, and after discussions with Imutran, its main programme of work was suspended by administrative agreement rather than formal suspension of the licence authorities. Some more basic work was allowed to continue in pursuit of secondary objectives. The Imutran project licences were eventually surrendered to the Home Office for revocation in July 2000.

Mr. Hancock: To ask the Secretary of State for the Home Department what changes his Department has accepted and agreed to the original objectives in the project licence to Imutran for xenotransplantation research. [187050]

Caroline Flint: The Imutran research licensed by the Home Office under the Animals (Scientific Procedures) Act 1986 involving pig to non-human primate xenotransplantation studies began in 1994 and was carried out under three separate project licences. These licences set out related objectives aimed at furthering Imutran's overall strategy ultimately to produce a means of making xenotransplantation clinically feasible. The specific objectives of the licensed work included the production of healthy, genetically altered pigs whose organs would not produce hyperacute rejection when transplanted into other species; demonstration of proof of concept; characterisation of other forms of xenograft rejection; and, having

developed an immunosuppression strategy appropriate for human clinical use, the study of the biocompatibility and performance of solid organ and tissue xenografts. More detailed scientific objectives were also set within this general framework. These detailed objectives were reviewed and refined at intervals while the work was in progress. Where authorised, amendments were largely made to those parts of the programmes characterising later forms of xenograft rejection and its management. The precise technical content of the amendments is commercially confidential.

Mr. Hancock: To ask the Secretary of State for the Home Department if he will order an independent public inquiry into the Imutran xenotransplantation research programme; and if he will make a statement. [187057]

Caroline Flint: No. We have considered the matter very carefully, but concluded that the issues, including those regarding compliance with the authorities granted to Imutran Limited under the Animals (Scientific Procedures) Act 1986 for its xenotransplantation research programme, do not merit such an inquiry. In November 2000, my right hon. Friend the then Home Secretary (Mr. Straw) asked the Chief Inspector of the Animals (Scientific Procedures) Inspectorate to carry out a routine assessment of compliance with the relevant authorities issued to Imutran Limited under the 1986 Act. The Chief Inspector's report, which covered five years work, was published on 13 July 2001 and copies placed in the Library. It confirmed that the general level of compliance was good. No new evidence justifying any form of further inquiry into these matters was found by the Chief Inspector nor has any subsequently been presented by any other source.

Mr. Hancock: To ask the Secretary of State for the Home Department what systems are in place to ensure that the relationships between his inspectors involved in monitoring licences for animal experiments and the companies concerned are clear and objective. [187085]

Caroline Flint: Members of the Inspectorate are highly professional and dedicated and have the complete confidence of Government Ministers. The general civil service codes apply, and in addition inspectors are accountable for their professional conduct to the relevant professional bodies (the Royal College of Veterinary Surgeons and the General Medical Council). As Government employees, they have no conflicts of interest with respect to places, or persons, regulated under the Animals (Scientific Procedures) Act 1986. They are not part of the management structure of the designated establishments, nor do they have any proprietary interest in the outcome of any licensed research programme. In addition, there is an active joint inspection programme, with more than one inspector visiting most places during the course of the year as part of the national inspection programme. Regulated places are also re-assigned between inspectors at regular intervals.

Norman Baker: To ask the Secretary of State for the Home Department how many primates have been involved in projects regulated under the Animals (Scientific Procedures) Act 1986 over the last 10 years *(a)* unclassified, *(b)* mild, *(c)* moderate and *(d)* substantial; in classifications of severity of suffering and if he will make a statement. [188715]

Caroline Flint: This information is not collected centrally. The numbers of scientific procedures involving non-human primates since 1994 are given in table 20 of the annual Command Paper "Statistics" of scientific procedures on living animals, 2003 (Cm 6291), a copy of which is in the Library.

A short table, giving the number of project licences in force at the end of that year according to severity bands, has been included in each annual publication since 1998. It is not, however, possible from that to identify the species used.

Mr. Hancock: To ask the Secretary of State for the Home Department how many animals have died following procedures which broke International Air Transport Association regulations; and if he will make a statement. [189390]

Caroline Flint: I am unable to provide the information requested. Although specific instances may be reported to the Home Office as and when they occur, we do not routinely record the deaths in transit of animals destined for use under the Animals (Scientific Procedures) Act 1986, or the surrounding circumstances. The Department for the Environment, Food and Rural Affairs is responsible for the enforcement of regulations governing the transportation of animals to the United Kingdom.

Mr. Hancock: To ask the Secretary of State for the Home Department for what reason his Department did not take action in respect of the case of the three primates found dead en route to Huntingdon in 1998. [189393]

Caroline Flint: In fact, immediate action was taken. The three animals destined for use in research licensed under the Animals (Scientific Procedures) Act 1986 were found dead on arrival at Charles de Gaulle airport in Paris from the Philippines on 5 August 1998. When the Home Office was notified of the deaths we immediately suspended authority to acquire animals from the source establishment until the causes had been properly investigated and any necessary action taken to prevent a recurrence. The problem was also promptly notified to the Ministry of Agriculture, Fisheries and Food as the Department then responsible for enforcement of the regulations relating to the transportation of animals. While it was not possible to identify the causes of death, it was considered likely that a combination of the large size of the animals in relation to the transport containers and inadequate ventilation were a contributory factor. The source establishment co-operated fully and ensured that the size of the transport containers was increased and ventilation improved. No problems were detected with a further batch of animals imported in December 1998.

Mr. Hancock: To ask the Secretary of State for the Home Department what the evidential basis is for the statement in paragraph 5.12.3 of the Home Office Chief Inspector's June 2001 Compliance Review, that a moratorium was voluntarily proposed and implemented by Imutran management in 1999; and if he will make a statement. [189112]

Caroline Flint: Paragraph 5.12.3 of the report on compliance with the authorities issued under the Animals (Scientific Procedures) Act 1986 to Imutran Ltd. for xenotransplantation research, by the then Chief

Inspector of the Animals (Scientific Procedures) Inspectorate, is based on Home Office and Imutran Ltd. records. The Imutran progress report for January to June 1999 was the starting point for the discussions which led to the moratorium on the Imutran research. The terms of the moratorium were agreed after supplementary enquiries into the content of the report.

Mr. Hancock: To ask the Secretary of State for the Home Department what action his Department has taken with regard to its contract with Imutran following the Home Affairs Select Committee's Report; and what representations he has received. [189392]

Caroline Flint: The Home Office has no contract with Imutran Limited. Until 2000, staff of that company were licensed under the Animals (Scientific Procedures) Act 1986 to conduct xenotransplantation research. The work started in 1994 and the licences were surrendered in July 2000 following a decision by Imutran and its parent company to move the research programme to North America. The Home Office submitted evidence to the Home Affairs Committee in connection with the Imutran research in October 2003. As far as we are aware the Committee has not published a report on the research. The Home Office has received correspondence from Members of Parliament, a campaign group and members of the public about the research and has responded fully to all of the issues raised.

Anti-social Behaviour Orders

Mr. Hurst: To ask the Secretary of State for the Home Department how many anti-social behaviour orders have been made in *(a)* Essex and *(b)* Braintree district. [188558]

Ms Blears: The number of notifications, as reported to the Home Office, of anti-social behaviour orders issued within Essex, from 1 April 1999 up to 31 March 2004 (latest available) is 25. Of these none have had restrictions imposed specific to the Braintree district council area.

Mr. McNamara: To ask the Secretary of State for the Home Department how many anti-social behaviour orders (ASBOs) have been made in each year since their introduction; how many of these were issued to children and young people; and how many and what percentage of those charged with breach of an ASBO have subsequently been sent to young offenders institutes. [189095]

Ms Blears: The available information is given in the attached tables.

Table A: the number of Anti-social behaviour orders (ASBOs) issued at all courts, as reported to the Home Office, by period and age group

England and Wales

Period	Total issued	Age 10 to17	Age 18 to 20	Age 21 +	Age not known
1 April 1999 to 31 May 2000	104	—	—	—	[1]104
1 June 2000 to 31 December 2000	135	61	21	38	15
1 January 2001 to 31 December 2001	322	184	50	77	11
1 January 2002 to 31 December 2002	402	232	41	108	21
1 January 2003 to 31 December 2003	1,023	509	147	366	1
1 January 2004 to 31 March 2004	469	183	85	201	—
Total	2,455	1,169	344	790	152

[1] Data collected by police force area on numbers of ASBOs only.

Table B: Number and percentage of young persons aged 18 to 20 who were prosecuted for breach of their ASBO and subsequently found guilty and sentenced to detention in a Young Offender Institution (YOI), from 1 June 2000 to 31 December 2002[1]

	Number	Percentage
Total proceedings for breach of an ASBO of which:	60	100
Sentenced to detention in YOI	30	50
Total found guilty of breach	57	95

[1] These figures have been compiled through a manual matching process between ASBO breaches reported on the Home Office Court Proceedings Database and data held on the ASBO database. Breach data for 2003 will be available in late Autumn.

Note:
Figures are based on principal disposal (severest penalty imposed) where more than one breach record exists.

Asylum Seekers/Immigration

Mr. Cousins: To ask the Secretary of State for the Home Department how many *(a)* cases and *(b)* children under 18 years were covered by the one-off exercise to allow families who applied for asylum to stay, before 2 October 2000, who had at least one dependant currently under 18 years who had been living in the UK since 2 October 2000, and who were not covered by the specified exclusions set out in the Minister of State's letter of 29 October 2003; and (i) how many of those cases and (ii) for how many children under 18 years decisions are outstanding. [186956]

Mr. Browne: An announcement detailing the results of the exercise including the available statistical information will be made when the exercise is completed and all those potentially qualifying applicants have had the opportunity to respond to our queries.

Good progress has been made in considering the cases originally identified. The bulk of these cases have been processed with the majority, where the applicants have responded to our queries, having been decided. We rely on the applicants we contact replying to our queries promptly and those not doing so are being reminded.

Anomalies we removed on 19 August, will result in a number of previously excluded applicants being reconsidered. In addition, we are encouraging applicants who believe that they should qualify to contact the Immigration Nationality Directorate to have their status assessed.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how many accommodation units the National Asylum Support Service has rented from *(a)* private landlords and *(b)* local authorities in North East Lincolnshire for asylum-seekers in each year since 2002; and how many of these are currently empty. [187297]

Mr. Browne: The information is not available in the precise format requested. The number of occupied bed spaces changes from day to day as asylum seekers move through the asylum process.

Mr. Malins: To ask the Secretary of State for the Home Department if he will list the occasions since 1997 on which he has been found by *(a)* the administrative court, *(b)* the court of appeal and *(c)* the House of Lords to have acted unlawfully in immigration, nationality and asylum matters; and what action (i) he and (ii) his Department has taken to remedy the unlawfulness in each case. [186377]

Mr. Browne: This information could be obtained only at disproportionate cost.

Statistics are published by the Home Office on the number of asylum cases going before the administrative court on judicial review, but not on immigration and nationality cases. The asylum statistics exclude cases relating to asylum support (NASS) for the years 2000 and 2001. In addition, they do not indicate whether the grounds of the challenge were unlawfulness, procedural impropriety or irrationality. It is also not unusual for a challenge to be made on more than one ground.

The information in the following table gives the number of judicial review applications that were made in asylum cases and the outcome of judicial review hearings.

Statistics on the numbers of appeals to the court of appeal and House of Lords are not collected by the Home Office.

All judgments made by the courts are carefully considered, and appropriate action is taken to remedy adverse findings. A successful challenge to certification of an asylum application as clearly unfounded would, for example, normally result in the withdrawal of that certificate.

Data on Home Office actions in response to a successful challenge in the courts are not collected centrally, and could be obtained only by retrieval and examination of individual case files which would be at disproportionate cost.

Asylum appeals
Applications for judicial review, and outcomes, excluding dependants[1], 1997 to 2003[2]

Number of principal appellants
Applications for permission to apply for judicial review

	Applications	*Decisions[3]*	*of which: granted permission to apply*	*Percentage of applicants granted permission to apply[4]*
1997	1,350	1,250	320	26
1998	1,890	1,220	300	25
1999 Q1 Q2, and Q4[5]	1,790	1,125	395	35
2000[6]	1,920	2,095	555	26
2001[6]	2,210	2,300	290	13
2002	3,075	2,980	260	9
2003[2]	2,170	2,240	235	10

The outcome of judicial review hearings

	Allowed[7]		*Dismissed[8]*		*Withdrawn*	
	Total	*As percentage of total determined*	*Total*	*As percentage of total determined*	*Total*	*As percentage of total determined*
1997	—	—	—	—	—	—
1998	—	—	—	—	—	—
1999 Q1 Q2, and Q4[5]	135	57	25	11	75	32
2000[6]	365	48	300	40	95	12
2001[6]	260	68	60	16	60	16
2002	25	30	60	67	5	3
2003[2]	30	35	55	62	5	3

[1] Figures based on administrative court data. Figures (other than percentages) rounded to the nearest 5.
[2] Provisional figures.
[3] Decisions do not relate to applications in any given period.
[4] The number of which granted permission to apply as a percentage of decisions.
[5] Estimated figures.
[6] Figures exclude judicial reviews brought in cases relating to asylum support (NASS).
[7] The decision of the respondent (in this case, the Home Office or the immigration appeal tribunal) was quashed. These figures include consent orders where the JR was conceded by the respondent.
[8] The decision of the respondent was upheld.

Cannabis

Mr. Amess: To ask the Secretary of State for the Home Department if he will make a statement on the level of cannabis abuse since it was reclassified. [188289]

Caroline Flint: The British Crime Survey provides annual figures on the levels of drug use including cannabis. The figures for 2003–04 will be available in December. The level of cannabis use among 16–24 year olds has shown a decline from 28.2 per cent. having used the drug in the previous 12 months in 1998 to 25.8 per cent. in 2002–03.

Chechnya

Bob Russell: To ask the Secretary of State for the Home Department how many people from the Chechyna region

of the Russian Federation were deported in the past 12 months; and to which destinations in the Russian Federation they were sent. [187973]

Mr. Browne: Information on the number of people deported from the UK to the Russian Federation, including those of Chechen origin, and on the destinations to which they were deported, is not available except by examination of individual case files which would incur disproportionate cost.

Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department (1) when he will reply to the letter to him dated 26 July from the right hon. Member for Manchester, Gorton with regard to Farag Alkailani; [188002]

(2) when he intends to reply to the letter to him dated 26 July from the right hon. Member for Manchester, Gorton with regard to Mr. Farag Elkailani. [188855]

Mr. Blunkett: I replied to my right hon. Friend on 23 September 2004.

Criminal Records Bureau

Tim Loughton: Criminal Records Bureau checks have revealed convictions are employed in social services departments. [188925]

Ms Blears: *[holding answer 14 September 2004]:* Information is not available to indicate how many people who have received a Disclosure which have revealed convictions are employed within Social Services.

The Criminal Records Bureau (CRB) does not make judgements on an applicant's suitability for a position and does not therefore record such information. The Bureau's role within the recruitment process is to provide an employer, through a Registered Body, with the necessary information that enables an informed and responsible recruitment decision to be made.

Bob Spink: To ask the Secretary of State for the Home Department what progress has been made in reducing the time taken by the Criminal Records Bureau to produce reports on individuals. [189307]

Ms Blears: For the period July 2003 to July 2004, the Criminal Records Bureau has achieved its service standards for processing Standard and Enhanced Disclosure applications. On average, over 90 per cent. of Standard and Enhanced Disclosures have been issued within two and four weeks respectively.

Departmental Administration Costs

David Davis: To ask the Secretary of State for the Home Department what the cost of printing headed notepaper for his Department was in *(a)* 1996–97 and *(b)* the latest year for which figures are available.[184453]

Fiona Mactaggart *[holding answer 16 July 2004]:* The Home Office does not hold any figures on the cost of printing headed notepaper for the financial year 1996–97 and to obtain this information would incur disproportionate costs.

I am able to provide details on the cost to the Home Office of printing headed notepaper for the last financial year.

FY 2003–04: £35,303

Distraction Burglaries

Sandra Gidley: To ask the Secretary of State for the Home Department what steps the Government are taking to promote schemes which help prevent distraction burglaries, with particular reference to the British Gas Password Scheme. [188854]

Ms Blears: The Home Office has produced a range of booklets, audio and video tapes giving advice to individuals and to practitioners, particularly those who work with older people, on measures which can be taken to reduce distraction burglary. They were promoted at a series of 11 regional conferences between November 2001 and March 2002 and are used at national, regional and local levels to raise awareness of distraction burglary and the preventative measures that can be taken.

In particular, the leaflet 'How to beat the bogus caller' gives both the important message to 'Lock, Stop, Chain and Check' before admitting someone and highlights the fact that many utility companies operate password schemes for older and vulnerable people. To date, over six million leaflets have been distributed nationwide.

Drug Treatment

Brian Cotter: To ask the Secretary of State for the Home Department if he will make a statement on the work the National Treatment Agency for Substance Misuse has undertaken in Weston-super-Mare since its creation; and how many drug treatment centres it has inspected in the town. [188671]

Miss Melanie Johnson: I have been asked to reply.

The National Treatment Agency (NTA) South West regional team, in its role of performance managing drug action team (DAT) treatment plans, carries out quarterly monitoring of the North Somerset DAT, of which Weston-Super-Mare forms a part. The NTA team has also:

given specific additional support to the DAT to improve the quality of its strategic planning;

brought in the expertise of the National Institute for Mental Health in England (NIMHE) to support redesign of the local drug treatment system, focusing specifically on prescribing services; and

worked with the DAT and local drug treatment providers to reduce waiting times and improve access. This information is shown in the table.

Waiting time (weeks) by treatment time

	June 2004	*December 2001*
In-patient	1	31
Residential rehabilitation	0	31
Specialist prescribing	3	31
General practitioner prescribing	3	31
Day care	6	31
Structured counselling	4	5

The NTA has not carried out any inspections of drug treatment agencies in England, as this has not been in its remit. However, The NTA is currently working with the Healthcare Commission on an inspection and review programme for drug treatment services, using the badge and authority of the Healthcare Commission and the expertise of the NTA. A pilot scheme is currently in development for roll-out in 2005–06. This will mean all treatment services in Weston-Super-Mare will be subject to a review at some point in the next three years.

European Weapons Directive

Mr. Cousins: To ask the Secretary of State for the Home Department if he will make a statement on the progress of the European Weapons Directive, and what the position of the UK Government is on each of its principal recommendations. [188708]

Caroline Flint: Such changes as were necessary to meet the requirements of Council Directive No. 91/477/EEC on the control of the acquisition and possession of weapons were incorporated into domestic legislation by means of the Firearms Acts (Amendment) Regulations 1992. There are no outstanding recommendations for action although the Commission is currently reviewing the operation of the directive.

Faith Communities

Mr. Goodman: To ask the Secretary of State for the Home Department what recent consultations have been carried out by his Department with representatives of faith communities; and if he will make a statement. [188596]

Fiona Mactaggart *[holding answer 13 September 2004]:* Outlined as follows are details of recent consultations conducted by the Home Office in which representatives of faith communities have been consulted:

Counter Terrorism Powers: Reconciling Security and Liberty in an Open Society

A discussion paper was published the 25 February 2004 entitled "Counter Terrorism Powers: Reconciling Security and Liberty in an Open Society" which launched a six-month consultation process on the future of counter terrorist powers. Representatives of faith community groups have played an active and important part in this consultation process both by submitting written responses and in attending consultation events.

Needs of Faith Communities in Major Disasters

Work is currently under way to update a document originally produced by the Church of England entitled 'Needs of Faith Communities in Major Disasters'. The Cabinet Office and the Home Office, who are jointly funding the update, worked with representatives from the nine main faith communities and the British Humanist Association to update their individual entries. The document is currently out with emergency planners for consultation and will be issued in the autumn.

Strength in Diversity

The Strength in Diversity pamphlet was published on 19 May 2004 and forms the framework for a robust debate on issues such as citizenship and identity, eradicating racism, tackling inequality and building cohesive communities.

The 'Strength in Diversity' pamphlet was sent to a wide range of faith representatives including the main faith umbrella bodies and a meeting was held with faith representatives to discuss the consultation pamphlet. The consultation period ends on 17 September and the recommendations will form the basis of the Community Cohesion and Race Equality Strategy to be published in the autumn.

Burial Law and Policy in the 21st Century

A six month consultation exercise on burial law and policy in the 21st Century concluded on 31 August 2004. This gave a unique opportunity to consult with members of the public, professionals and faith representatives to establish burial legislation and policy which is streamlined, accessible and inclusive.

A number of faith representatives were included in the consultation process, including the Board of Deputies of British Jews, the Office of the Chief Rabbi, National Council of Hindu Temples, Sikh Council for Inter-faith Relations, the Muslim College and the Muslim Council of Britain.

Ministers of Religion from Abroad: consultation on the English Language Requirement

In June 2004 representatives of all the major faith communities were consulted on a proposal by the government to introduce an amendment to the Immigration Rules in which individuals applying for leave to enter the United Kingdom as Ministers of Religion would be required to demonstrate that they were competent in the use of spoken and written English—proposed at level 6 of the International English Language Testing System (IELTS).

After listening to the views and concerns of faith groups at round table meetings the proposal was modified so that for the time being Ministers of Religion will only be required to have a basic grasp of spoken English before coming to the UK (level 4). It is intended to raise this to level 6—a competent speaker and writer—after two years. The rule change is now in effect.

The National Offender Management Service (NOMS)

The introduction of the National Offender Management Service (NOMS) has been subjected to two formal written consultations in which over 400 responses have been received. Many of these have been from representatives of faith communities. All responses have been analysed and continue to be used to inform the development of the new structure.

Domestic Violence Consultation Paper: 'Safety and Justice'

The Domestic Violence Consultation Paper 'Safety and Justice' was published in June 2003. Representatives of all the major faith communities were consulted (for a full list of organisations consulted see answer to written PQ 151654—30 January). In addition, the Home Office produced—and made available in both paper and electronic format—a summary leaflet, which was also translated into Arabic, Bengali, Chinese, Greek, Gujarati, Hindi, Punjabi, Somali, Urdu, Vietnamese and Welsh.

The Home Office received a total of 470 responses to 'Safety and Justice'. A list of organisations that responded can be found at Annex A of the 'Summary of Responses to "Safety and Justice: the

Governments Proposal on Domestic Violence", copies of which are available in the Library and at: www.homeoffice.gov.uk/crimepol/crimreduc/domviolence/publist.html.

The Prison Service Chaplaincy Council

The Prison Service Chaplaincy Council is made up of representatives from all the major faith traditions. It meets six times each year, and provides both a forum for consultation on a broad range of prison issues (policy and practice) and advice and guidance on all matters relating to prisoner faith issues.

Football Banning Orders

Mr. Drew: To ask the Secretary of State for the Home Department if he will make a statement on the operation of banning orders for football supporters whose club has been relegated from the Football League who try to attend the grounds of other clubs in the Conference League which at the time that the banning order was put in place were *(a)* in and *(b)* not in the Football League. [188619]

Caroline Flint: On 14 September, two Statutory Instruments were laid before Parliament: the Football (Offences) (Designation of Football Matches) Order 2004 and the Football Spectators (Prescription) Order 2004. Subject to annulment in pursuance of a resolution of either House, the Statutory Instruments will come into force on 11 October 2004. The effect will be to extend football banning order and football offences legislation to cover all domestic matches involving a member club of the Premier League, Football League, Football Conference and the League of Wales. Once enacted, any individual subject to a banning order will be precluded from attending any match involving a Conference League club.

Gurkhas

Miss Widdecombe: To ask the Secretary of State for the Home Department pursuant to the answer of 19 April 2004, *Official Report*, column 324W, on Ghurkhas, when he expects to announce the findings of the review of immigration laws as applied to Ghurkhas; and if he will make a statement. [188251]

Mr. Browne *[holding answer 13 September 2004]*: Officials are seeking to bring the review of policy in respect of Ghurkhas who have served in the British Army to an early conclusion, but at this time I cannot say when that might be. The current arrangements for the recruitment of Ghurkhas have served us well for 50 years. We must therefore ensure that as part of this review we carefully examine the broader implications that any change in policy might have to ensure that these special arrangements in respect of Ghurkhas are not undermined.

Hate Crime

Mr. Woodward: To ask the Secretary of State for the Home Department if the Government will introduce a hate crimes register; and if he will make a statement. [186874]

Fiona Mactaggart: The Government have no plans to introduce a hate crimes register.

Mr. Woodward: To ask the Secretary of State for the Home Department if he will publish the results of the Home Office's Understanding and Responding to Hate Crimes project. [186886]

Fiona Mactaggart: This project was a joint initiative between the Metropolitan Police Service (MRS) and the Royal Holloway University of London, with funding from the Home Office. The MRS project team has produced fact sheets covering hate crime information from January to June 2001 for domestic, racial, and homophobic incidents, as well as sexual assaults. These factsheets have been disseminated to borough Community Safety Units (CSUs) in London as reference material. Further information is available on the metropolitan police website at http://www.met.police.uk/urhc/.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for the Home Department pursuant to the answer of 21 April 2004, *Official Report*, column 524W, on departmental officials, whether the secondee from Deloitte & Touche contributed to the specification of the basis on which tenders were invited for the identity card project; and whether the secondment was arranged after a competitive process. [188705]

Mr. Browne: No. The secondee from Deloitte did not contribute to specification of the basis on which tenders were invited for the identity card project.

In common with general practice for secondments to the Home Office, the secondee from Deloitte was identified and appointed on a short-term basis as part of a bilateral arrangement with the company. Other secondees to the identity card programme have been appointed on a similar basis.

Justice and Home Affairs Council

Mr. Hood: To ask the Secretary of State for the Home Department what the outcome was of the Justice and Home Affairs Council held on 19 July; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [185933]

Caroline Flint: I represented the United Kingdom at the Justice and Home Affairs (JHA) Council in Brussels on 19 July.

The Council held an orientation debate on the new JHA multi-annual work programme. I said that the programme should focus on visible action with the aim of bringing practical improvements to EU citizens. Member States agreed on this and most Member States agreed the programme should focus on action that may be taken forward under the existing treaties. Most Member States agreed that mutual recognition should remain the cornerstone of judicial co-operation and that more effective use should be made of Europol. On Immigration and Asylum there was broad support for the emphasis the Presidency had placed on practical co-operation, implementation and the evaluation of existing measures, but differing views on the need for further harmonisation of legislation. One delegation noted that adequate funding would need to be made available to support the new work programme. The

Presidency intends to prepare a final draft of the new programme for discussion at the September informal JHA Council.

The Commission presented its Communication Towards Enhancing Access to Information by Law Enforcement Agencies' (10745/04) which emphasised the importance of wider access to national databases for law enforcement authorities, a common approach to the analysis of criminal and intelligence matters and the need to promote the idea of intelligence-led policing. The Communication was noted by the Presidency who said they would feed it into the discussion on the new JHA multi-annual work programme.

The EU Counter-terrorism co-ordinator updated Member States on work currently being undertaken. The Counter-terrorism co-ordinator agreed with member States on the need for strengthened co-operation between law enforcement and emergency services and for a more concerted approach to civil crisis management within the EU. The Counter-terrorism co-ordinator also indicated work was being taken forward to look at ways for closer constructive engagement with moderate Islamic civil society. The Counter-terrorism co-ordinator also noted the Council would in due course examine how Eurojust may be better able to contribute to counter-terrorism efforts.

Greece updated the Council on its national plan for security at the Olympic games.

In light of growing pressure for the creation of a European register of criminal convictions, the Commission said it was preparing a draft Council Decision for October, which would promote the exchange of information on criminal convictions for serious offences, in particular murder, sexual crimes and terrorism. It was also planning to publish a Framework Decision on the mutual recognition of convictions by December. In approaching this work, the Commission took the view that it was unnecessary to create a single, central European database. Instead they favoured granting national authorities wider access to Member States existing registers. I supported the Commission, stressing that any initiative should include terrorist offences, and noting that attention should also be paid to the supervision of offender's post-conviction.

The Council discussed the position of Europol director and most Member States agreed it would be necessary to begin the process for selecting a new director of Europol again.

On Immigration and Asylum, the Commission presented the Communication on the Establishment of a Single Procedure for the Processing of Applications for Protection in the Member States. The Commission emphasised that introducing unified procedures at a national level for all asylum claims would have benefits in terms of speed and efficiency.

This was followed by a presentation by the Commission on its Communication on Common Readmission Policy (SEC (2004) 946 final). The Commission noted that there had been some improvements in the negotiation of readmission agreements but the overall picture was mixed. The ED needed to fine-tune its approach, for example: lighter negotiating mandates and compensatory measures where agreements covered third country nationals. The negotiation of readmission agreements with countries covered by the EU's New Neighbourhood Policy should be a priority.

The annual report on Migration and Integration (COM (2004) 508 final) was presented by the Commission. The Commission said that the report underlined the fact that the EU needed further immigration for economic and political reasons. The Commissions view was that while it was appropriate for the rules, particularly on economic migration, to be left to the Member States, there was also a need to move forward at a Community level. The Commission proposed speedy agreement in the Council on common principles on integration and that issues should be mainstreamed within wider policy frameworks.

Finally, I have placed in the Library a copy of the list of "A" points which were approved at the Council (Document PTS A 36 11478/04).

Mobile Phones

Mr. Wood: To ask the Secretary of State for the Home Department when he plans to publish statistics on the number of motorists found using hand-held mobile phones while driving since 1 December 2003. [189507]

Paul Goggins: Data on police action (written warnings, fixed penalty notices and court proceedings) for 2003 on the new offence of driving whilst using a hand held mobile telephone will not be available until early 2005.

2004 data will be published in autumn 2005.

Neighbourhood Watch

Mr. Paice: To ask the Secretary of State for the Home Department what evidence he possesses to support the statement by the Minister for Crime Reduction, Policing and Community Safety that the Neighbourhood Watch name and logos are Crown copyright; and why this evidence was not made available before the National Neighbourhood Watch Association registered the name and logo in its name. [188656]

Ms Blears *[holding answer 13 September 2004]:* The hon. Member may be aware that there is a legal dispute concerning the National Neighbourhood Watch Association's registration of the Neighbourhood Watch name and logos as its trade marks. As the question relates to issues in current legal proceedings, it would be inappropriate for me to comment further.

Overseas Police Secondments

Mr. Hancock: To ask the Secretary of State for the Home Department how many police officers are seconded to work in Iraq; from what force areas they are seconded; what the periods of their secondment are; at what cost they are employed in Iraq; what plans he has to increase their numbers; and if he will make a statement. [172324]

Mr. Rammell: I have been asked to reply.

There are currently 44 serving UK police officers seconded to the UK Consulate-General in Basra and the UK Embassy in Baghdad. In addition, 65 officers are

posted to the Jordan International Police Training Centre near Amman in support of training Iraqi police officers there.

These officers are drawn from 36 of the 52 police forces in England and Wales, Scotland and Northern Ireland, and from the Ministry of Defence Police. Their deployments vary from six to 18 months.

The cost of supporting these officers in Iraq and Jordan from 1 April to August 2004 is estimated at £2.4 million.

There are no current plans to increase these numbers.

Mr. Hancock: To ask the Secretary of State for the Home Department how many police officers are seconded to work overseas in countries other than Iraq; from which forces they originate; what the cost was in April; and from which budget the costs are paid. [172328]

Mr. Rammell: I have been asked to reply.

The Government do not hold centrally information about the total number of serving police officers seconded to work overseas. However, the total number of police officers seconded from UK police forces to UN, EU, and OSCE policing/peacekeeping missions is currently 145.

These officers are drawn from 37 of the 52 police forces in England and Wales, Scotland and Northern Ireland, and from the Ministry of Defence Police.

The provisional out-turn estimates for supporting officers in these missions in the Financial Year 2003–04 was £15.6 million.

These costs are met from the peacekeeping element of the Global and African Conflict Prevention Pools, managed jointly by the FCO, MOD and DfID.

People-smuggling Operations

Mr. Oaten: To ask the Secretary of State for the Home Department how many people-smuggling operations were disrupted in the last year for which figures are available. [187083]

Mr. Browne: Reflex, the multi agency task force on organised immigration crime disrupted 38 groups involved in organised immigration crime between April 2003 and April 2004.

Between April 2004 and the end of June 2004 there have been 15 further disruptions.

In addition to the work underway within Reflex, the Immigration Service also undertakes routine investigations against those involved in immigration related crime, including facilitators, procurement or supply of forged documentation and illegal working. Figures are not yet available for the number of smuggling operations disrupted as a result of this activity.

Police (Suffolk)

Mr. Ruffley: To ask the Secretary of State for the Home Department how many incidents of *(a)* anti-social behaviour and *(b)* alcohol-related crime there have been in each of the last seven years in (i) the Suffolk constabulary, (ii) the western area of the Suffolk constabulary and (iii) the eastern area of the Suffolk constabulary. [187191]

Ms Blears: There is currently no data on the number of incidents of Anti Social Behaviour (ASB) due to the subjective nature of ASB itself. The latest data collected on ASB relate to the public perception of ASB in England and Wales and is measured by the British Crime Survey (BCS). Our Anti Social Behaviour strategy is aiming to reduce people's perception of anti social behaviour, as measured by the British Crime Survey (using a measure combining seven strands of anti social behaviour) by 2005–06 against the 2001–02 baseline. Latest figures show that the overall level of perceived ASB has fallen. The proportion of people estimated to perceive a high level of disorder in their local area fell from 19 per cent. to 16 per cent. between 2001–02 and 2003–04.

BCS data show that nearly half of victims of violent crime thought that their attacker was under the influence of alcohol. However, because alcohol-related incidents are not a recorded crime category, we are unable to reliably measure them.

This summer, the Home Office and the Association of Chief Police Officers jointly ran an Alcohol Misuse Enforcement Campaign. This campaign saw 92 Basic Command Units participating in concerted activity with partners to tackle alcohol-fuelled violence and disorder. Ipswich was one of these participating BCUs. Results from this campaign show that, in these 92 areas across eight weekends, there were over 1,000 arrests per week for alcohol-related offences.

Police Complaints Commission

Lady Hermon: To ask the Secretary of State for the Home Department how many arrests of *(a)* police officers and *(b)* civilians have been made in response to investigations carried out by the office of the Police Complaints Commission for England and Wales in each of the last four years. [188643]

Ms Blears: It is assumed that the question refers to the Independent Police Complaints Commission (IPCC) which was established under the Police Reform Act 2002 and commenced operations on 1 April 2004. It replaced the Police Complaints Authority (PCA) which ceased operations on 31 March 2004.

I understand from the IPCC that since 1 April 2004 there have been no arrests of police officers or civilians in response to its investigations none of which have yet reached this stage.

The PCA did not keep records of arrests in response to cases with which they were involved.

Lady Hermon: To ask the Secretary of State for the Home Department how many investigations carried out by the Police Complaints Commission for England and Wales have resulted in *(a)* successful prosecutions and *(b)* disciplinary charges being brought in each of the last four years. [188644]

Ms Blears: It is assumed that the question refers to the Independent Police Complaints Commission (IPCC) which was established under the Police Reform Act 2002

and commenced operations on 1 April 2004. It replaced the Police Complaints Authority (PCA) which ceased operations on 31 March 2004.

I understand from the IPCC that since 1 April 2004 there have been no successful prosecutions or disciplinary charges brought as a result of its investigations, none of which have yet reached this stage.

With regard to the PCA, records were not kept of successful prosecutions or disciplinary charges brought in connection with cases with which it was involved. The Home Office Statistical Bulletin on Police Complaints and Discipline (England and Wales) for the 12 months to March 2003 does however give figures on discipline / misconduct proceedings that resulted from substantiated complaints overall. These are:

	1999–2000	*2000–01*	*2001–02*	*2002–03*
Disciplinary Proceedings—under the Police (Discipline) Regulations 1985	130	63	56	24
Misconduct Proceedings—under the Police (Conduct) Regulations 1999	16	83	78	88
Total	146	146	134	112

Lady Hermon: To ask the Secretary of State for the Home Department what the total cost of the office of the Police Complaints Commission for England and Wales has been in each of the last three years. [188649]

Ms Blears: It is assumed that the question refers to the Independent Police Complaints Commission (IPCC) which was established under the Police Reform Act 2002 and commenced operations on 1 April 2004. It replaced the Police Complaints Authority (PCA) which ceased operations on 31 March 2004.

Accounts for 2003–04 for both the PCA and the IPCC, which existed in shadow form during that year, are currently being audited by the National Audit Office. Once finalised they will be published in accordance with statutory requirements.

	PCA total cost (£)
2002–03	5,420,675
2001–02	4,520,384
2000–01	3,787,696

Lady Hermon: To ask the Secretary of State for the Home Department how many staff are employed *(a)* part-time and *(b)* full-time in the office of the Police Complaints Commission for England and Wales. [188650]

Ms Blears: It is assumed that the question refers to the Independent Police Complaints Commission (IPCC) which was established under the Police Reform Act 2002 and commenced operations on 1 April 2004. It replaced the Police Complaints Authority (PCA) which ceased operations on 31 March 2004.

The IPCC currently employs 264 full-time staff and five part-time staff. These are made up of permanent staff, those on fixed term contracts, public appointees, secondees and temporary staff.

Police Misconduct

Tom Cox: To ask the Secretary of State for the Home Department (1) what the policy of police authorities in England and Wales is on suspending a police officer against whom serious allegations of misconduct have been made by a member of the public pending inquiries into the allegations; and if he will make a statement; [189100]

(2) the policy is of police authorities in England and Wales when serious allegations of misconduct have been made against serving police officers by a member of the public as to whether such an officer is suspended from duty pending enquiries into the allegations that have been made; and if he will make a statement. [187608]

Ms Blears: Under the terms of the Police Reform Act 2002, the chief officer of a force is solely responsible for recording complaints about all officers complained against, up to and including the rank of Chief Superintendent, including special constables, and all police staff. The police authority for the force is solely responsible for recording complaints against all officers above the rank of Chief Superintendent including the chief officer.

Regulations 4 and 5 of the Police (Conduct) Regulations 2004 define the circumstances in which an officer may be suspended. The decision to suspend officers up to and including the rank of Chief Superintendent is taken by the chief officer of the force; for officers ranked higher than Chief Superintendent the decision lies with the police authority.

Home Office guidance states that the decision to suspend should be taken only when the presence of an officer on duty may be detrimental to criminal or disciplinary investigations or proceedings, or when it is in the public interest to do so. This will normally apply only in cases where the complaint or allegation is of a serious nature likely to result in disciplinary or criminal conviction, and an officer is likely to be dismissed, required to resign or demoted. Where the decision to suspend is based on the necessity of maintaining public confidence, an officer must be informed in writing of the specific factors relevant to this decision.

Suspensions are subject to review by the suspending authority at least monthly, to determine whether the conditions that required the suspension still apply. A police authority may also consult with Her Majesty's Inspectorate of Constabulary for professional advice on the suspension of a senior officer. A police authority must obtain approval from the Independent Police Complaints Commission (IPCC) before suspending a senior officer, except in urgent cases, where approval must be obtained within 24 hours of the suspension beginning.

Press Officers

Matthew Taylor: To ask the Secretary of State for the Home Department how many press officers are employed in his Department. [187160]

Fiona Mactaggart: The Department currently employs 39 Press Officers. (Press Officers within the Home Office are employed at the Information Officer (IO) and Senior Information Officer (SIO) grades.)

Last year, the Press Office news desk answered 60,039 calls, issued 583 press notices and held 29 media briefings.

Proceeds of Crime Act 2002

Mr. Challen: To ask the Secretary of State for the Home Department what assets have been recovered under the terms of the Proceeds of Crime Act 2002; and how these proceeds have been disbursed since the Act came into force, broken down by region. [189466]

Caroline Flint: In 2002–03, the last year for which full data are available, a record amount of criminal assets was recovered, under the Proceeds of Crime Act 2002 and earlier legislation, totalling £47 million.

Receipts from recovered criminal assets are allocated to a range of initiatives. The Recovered Assets Incentive Fund was set up last financial year to incentivise asset recovery by asset recovery agencies, including law enforcement and prosecuting authorities. £15.5 million a year for three years has been allocated to the Fund. These sums have been fully committed over the three year period to projects, agreed by the Association of Chief Police Officers and others, that will increase the confiscation of criminal assets.

Of £46.5 million that will be available under the Fund over three years, up to £12 million a year has been allocated to set up four new multi-agency Regional Asset Recovery Teams (RARTs) to disrupt organised crime groups, confiscate more criminal assets and to tackle money laundering. A successful pilot in the West Midlands has been rolled out to the North West, North East, Wales and London. The teams comprise staff from the police, National Crime Squad, Her Majesty's Customs and Excise, National Criminal Intelligence Service, Crown Prosecution Service, Assets Recovery Agency and the Inland Revenue.

An additional seven million a year for three years has been made available separately from the Recovered Assets Incentive Fund for community based projects. Last year four million of the total available was allocated to the Adventure Capital Fund to regenerate communities across England. The remaining three million was allocated to regional government offices, of which £1.5 million funded anti-gun crime initiatives and £1.5 million funded capacity building in crime and disorder reduction partnerships, seven million available this year, three million has been committed to funding a community justice centre pilot scheme in Liverpool; two million to fund support services for victims of crime in England and Wales; and two million to fund new and existing projects to tackle gun crime in England and Wales.

A new police incentivisation scheme introduced this year will enable police forces in England and Wales, and the Police Service of Northern Ireland, to receive a share of the criminal assets they recover locally, in the following year. Separate arrangements exist in Scotland. The scheme has the full support of the Association of Chief Police Officers in England and Wales. Police forces will benefit by receiving a third of all the recovered assets above £40 million in 2004–05, increasing to half for 2005–06. There will be no restrictions on how the police should spend this money so there may be scope in the future for them to devote some of the funds to community-based projects aimed at crime reduction.

For 2006–07 onwards, we are working up a new incentive scheme under which all agencies involved in asset recovery will, where possible, be able to get back 50 per cent. of the assets they recover.

Public Relations/Marketing

Bob Spink: To ask the Secretary of State for the Home Department how much was spent by his Department on public relations and marketing consultants in each of the last three years. [189297]

Fiona Mactaggart: The Home Office has appointed public relations agencies to support a number of campaigns over the last three years, but has not made use of independent PR consultants over this period.

The Home Office has made occasional use of external marketing consultants to help develop marketing strategies which contribute to the delivery of departmental business objectives.

Spending over the last three years was.

	£000
2001/02	Nil
2002/03	Nil
2003/04	260,000

Special Constables

Mr. Drew: To ask the Secretary of State for the Home Department what plans he has to offer financial rewards to special constables. [188424]

Ms Blears: As some Police Forces felt that the payment of an allowance to Special Constables might be beneficial, we introduced The Special Constables (Amendment) Regulations 2002, which came into effect on 10 January 2003. This allows police authorities to submit proposals, recommended by the Chief Constable, for locally funded allowance schemes. Proposals require the Secretary of State's approval. Police Authorities may secure funds from outside sources to help run these schemes.

Four schemes have been approved so far. These are in Cumbria (Workington), West Midlands (H2 Operational Command Unit), Thames Valley (Thames Forest area) and Humberside (forcewide).

Mr. Drew: To ask the Secretary of State for the Home Department if he will secure the removal of the special constable crest from the epaulettes of police uniforms in order to counter perceptions that special constables are inferior to those employed permanently. [188425]

Ms Blears: It is for chief officers to decide what, if any, means of identification should be present on the uniforms of their force's special constables. Forces

adopt a wide range of means of identifying their special constables, with some using the special constable crest on epaulettes and some not.

Home Office advice when asked has been that decisions on how to identify specials in a particular force should be properly evaluated, and include an assessment of any risks to their safety.

Tetra

Ms. Walley: To ask the Secretary of State for the Home Department if he will make a statement on the take-up of TETRA by each police authority in England; and what cost there has been to each police authority in addition to the costs met by his Department. [187431]

Caroline Flint: Airwave will be available to all police forces in England, Wales and Scotland. Currently Airwave is available to 40 forces, and it has more than 68,000 users. Initial feedback suggests that police users are delighted with the new system. Airwave will be available to all forces by the end of April 2005. Costs over and above those met by the Home Office are a matter for individual police authorities.

Vehicle Clamping

Keith Vaz: To ask the Secretary of State for the Home Department what regulations govern the activities of vehicle clamping companies; what recent correspondence he has received regarding such activities; and what action he plans to take to restrict those activities. [187950]

Ms Blears: The number of letters received on the issue of wheel clamping is not available centrally.

The Security Industry Authority (SIA) was created under the powers of the Private Security Industry Act 2001 to regulate this and other areas of the private security industry.

On current plans it will become an offence to engage in wheel clamping activities without an SIA licence with effect from 28 February 2005.

There will be three checks on individuals applying for licences:

An identity check of the licence applicant.

A criminal record check to see if they have any relevant previous convictions.

A check on professional competence to do the job.

The requirement to show professional competence will include sections on proper payment procedures; correct identification and use of signs, lines and enforcement vehicles; and discretionary parking and customer care skills.

Visas

Hugh Robertson: To ask the Secretary of State for the Home Department which Government Department is responsible for altering the terms of a seasonal agricultural worker's visa issued at the British embassy in Bulgaria. [188449]

Mr. Browne: I understand that the matter has now been resolved with the hon. Member.

Witness Protection

David Davis: To ask the Secretary of State for the Home Department how many people have entered a witness protection programme in each year for which figures are available, broken down by police force. [184962]

Paul Goggins: This information is not currently available. The Home Office, in conjunction with the Scottish Executive, the Northern Ireland Office and the Association of Chief Police Officers, has appointed an independent consultant to carry out an assessment of witness protection arrangements nationally. The assessment is covering all cases where witness protection is afforded by UK law enforcement agencies including the police. It will provide us with valuable information about the numbers and circumstances in which witness protection is provided.

The assessment commenced on 2 January; it was announced in the White Paper 'One Step Ahead—a 21st century strategy to defeat organised crime' which I published on 29 March. The assessment is due to be completed over the summer, and a final report will be available in the autumn.

However, even after completion of this assessment, we are not intending to make available publicly any of this information below national level. Such information broken down by individual police force is obviously operationally sensitive and could compromise the integrity of witness protection programmes and the officers who work on them.

999 Services

Mr. Amess: To ask the Secretary of State for the Home Department what representations he has received on the centralisation of the 999 police service in Essex; and if he will make a statement. [184512]

Ms Blears: The Home Office has not received any representations recently on emergency call-handling by Essex police.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Biodiversity Action Plan

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what definitions of the 45 priority habitats identified under the UK Biodiversity Action Plan have been established and agreed within the statutory nature conservation agencies in each county of the UK; and where such definitions have been, or will be, published. [189284]

Mr. Bradshaw *[holding answer 16 September 2004]*: Initial definitions for each of the 45 priority habitats are provided in the relevant priority habitat action plans on the UK Biodiversity Action Plan website (www.ukbap.org.uk). These have been agreed by the statutory nature conservation agencies in the UK. The Countryside Council for Wales published a technical guide to the priority habitats of Wales in 2003. Work to produce a comprehensive interpretation manual for priority habitats at a UK level is well advanced and the Joint Nature Conservation Committee aims to publish this document by the end of this financial year.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has taken pursuant to the Biodiversity Action Plan to integrate biodiversity considerations into policies and programmes affecting *(a)* agriculture, *(b)* water and wetlands, *(c)* woodland and forestry, *(d)* towns, cities and new developments and *(e)* coasts and seas; and if she will make a statement. [189285]

Mr. Bradshaw *[holding answer 16 September 2004]:* In October 2002 the Government published 'Working with the grain of nature', a biodiversity strategy for England. The strategy aims to facilitate implementation of the UK Biodiversity Action Plan (UK BAP) in England, and to ensure that biodiversity is an integral consideration of all policies and programmes. It sets out work plans for integrating consideration of biodiversity into the main economic areas that affect it including agriculture, water and wetlands, woodland and forestry, towns, cities and development and coasts and seas.

Implementation groups have been established to take forward the work plans for these key sectors. They include representatives from government, the agencies, conservation NGOs, and other relevant organisations. A first annual stock take on progress with the strategy was published in October 2003 and a full report will be published in 2006.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of assessments made in 2002 in relation to UK status and trends for the Biodiversity Action Plan priority species were based on *(a)* survey data and *(b)* estimates. [189286]

Mr. Bradshaw *[holding answer 16 September 2004]:* There are currently 391 species action plans (SAPs) being implemented as part of the UK Biodiversity Action Plan (UK BAP). In 2002 Lead Partners were asked to report on progress with targets set in the plans and to estimate the current status and trend of the species.

71 per cent. of the status assessments received were based on survey data and 29 per cent. were either based on estimates (17 per cent.) or no source was given for the assessment (12 per cent.). For trends, 59 per cent. of the assessments received were based on survey data and 41 per cent. were either based on estimates (32 per cent.) or no source was given for the assessment (9 per cent.).

The UK Biodiversity Reporting and Information Group has been investigating the gaps in survey coverage revealed by 2002 reporting and expects the next BAP reporting round in 2005 to show a substantial improvement.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has taken to improve the *(a)* surveillance and *(b)* monitoring of biodiversity since the 2002 biodiversity reporting round; what plans she has for new measures; and if she will make a statement. [189287]

Mr. Bradshaw *[holding answer 16 September 2004]:* Defra and the statutory nature conservation agencies have an extensive ongoing programme of biodiversity surveillance and monitoring mostly undertaken in partnership with the voluntary sector. Since 2002 these programmes have produced: a new atlas of the British flora; annual trends in populations of wild birds; new partnerships for surveillance of bats and other mammals; the first complete assessment of the condition of Sites of Special Scientific Interest in England; and, an internet gateway providing access to over 15 million species records in the National Biodiversity Network. We are also contributing funds to a major new project to assess the abundance of whales, dolphins and porpoises in European Atlantic waters.

As part of the UK Biodiversity Action Plan, a Biodiversity Reporting and Information Group has been established with a mandate to improve the monitoring and reporting of status and trends in priority habitats and species. The Group is currently planning to undertake a major review of status and trends in 2005.

Bovine TB

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether a distinction is made in the transport regulations of tuberculosis positive tested cattle between those over and under 30 months of age. [188495]

Mr. Bradshaw: All TB reactors, both under and over 30 months (OTM) of age must be transported to slaughter under licence (TB 24(C)).

Because TB reactor cattle under 30 months (UTM) of age are excluded from OTM slaughterhouses and vice versa, they must be transported separately.

Combined Heat and Power

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Government continues to estimate that between 300–500 MWe of Micro-CHP capacity will be operational by 2010, as stated in its CHP strategy. [188678]

Mr. Morley: The estimate of 300–500 MWe of Micro-CHP capacity operational by 2010 is still the best estimate we have available. Its reliability will depend upon how successful this new technology is in penetrating the market. We will keep the estimate under review as the market develops.

Richard Younger-Ross: To ask the Secretary of State for Environment, Food and Rural Affairs how many combined heat and power plants benefit from business rates exemption. [187578]

Mr. Morley: CHP plants can claim business rate exemption direct from their Valuation Office, on the strength of a Good Quality CHP certificate and Secretary of State (exemption) certificate. Records are not held centrally of how many plants currently benefit from the exemption.

CITES

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what additional controls she is proposing to deal with trophy hunting, with specific reference to discussions at the Convention on International Trade in Endangered Species. [188118]

Mr. Morley: We believe that sufficient controls already exist to regulate the trade in hunting trophies and this issue has not been included in the agenda for discussion at the Conference of CITES Parties, which is to take place in Bangkok next month. The EU can prohibit the importation of particular species as hunting trophies if it considers the hunt to be unsustainably managed.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what rules govern hunted trophy imports into *(a)* the UK and *(b)* the EU; and if she will make a statement. [188934]

Mr. Morley: Under the Convention on International Trade in Endangered Species (CITES), trade in hunting trophies is permitted only where the specimens were lawfully acquired and the trade will not be detrimental to the conservation of the species. This applies both to imports to the UK and to the EU as a whole.

Import permits are not needed for trophies of species listed in Appendix II of CITES, where these are being imported as personal effects, although the owner will need to provide customs with a copy of the permit issued by the exporting country.

Where there is evidence that hunting trophies are being imported illegally, or that the trade is unsustainable, we shall not hesitate to take action as appropriate. Such action could include making formal representations to the CITES Standing Committee or the EU member states to suspend trade, and advice to HM Customs and Excise to seize trophies that have been imported illegally.

Colchester Oyster

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received to request the European Union to give Protected Geographical Indicator (PGI) status to the Colchester oyster; what action she has taken to secure PGI status; and if she will make a statement. [187972]

Mr. Bradshaw: An application to register 'Colchester Oyster' as a Protected Geographical Indication under the EU Protected Food Name scheme was received earlier this year. Officials have assessed the application against the scheme criteria and are now finalising the application in consultation with the applicant group. The next step will be to consult formally other interested parties within the UK. Subject to the findings of that consultation process, the application will be submitted to the European Commission to consider.

Combined Sewer Overflows

Mr. Truswell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department has taken *(a)* to assess and *(b)* to deal with problems created by combined sewer overflows since 1997; and what plans she has for further action. [188901]

Mr. Morley: As part of the five yearly Periodic Reviews of water company price limits, in 1999 and 2004, the Secretary of State has issued guidance to the Office of Water Services (Ofwat) on what is to be achieved by the water industry in England concerning combined sewer overflows and other intermittent discharges.

Within this framework the Environment Agency and water companies identify and assess problematic combined sewer overflows for improvement in the next five years.

Following the Periodic Review in 1999 a programme of around 4,500 problematic overflows are to be improved by 2005. A further programme is proposed for improvement in the next Periodic Review period from 2005 to 2010.

Conservation Support

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of how much of the money raised through import permits for hunting trophies is returned to support conservation in the country of origin; and if she will make a statement. [189152]

Mr. Morley *[holding answer 16 September 2004]:* It is not possible to make such an assessment as the countries concerned are not required to provide this information.

Cormorants

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the inclusion of cormorants in the issue of licences to kill. [188961]

Mr. Bradshaw: All wild birds, including the cormorant are protected by the Wildlife and Countryside Act 1981, which implements the EC Wild Birds Directive in Great Britain. Licences can be issued under Section 16 of the 1981 Act to kill or take certain birds for specific reasons, either on an individual or general basis. Licences can be granted to kill or take cormorants where it can be shown that such action will prevent serous damage to fisheries or inland waters. These licences are issued on an individual basis.

The general licences allow authorised persons, such as landowners or occupiers, to kill or take these pest birds, such as pigeon, and corvids, as well as to destroy nests and oil or prick eggs of these birds all year round, subject to specified conditions. Bird species considered for placing on a general licence are those which are considered a pest and numbers are plentiful such as pigeons. Although number of cormorants have increased, the estimated GB population size of 23,000 with an England population of just over 11,000 is not sufficient to warrant a general cull without leading to local extinctions and impacts on biodiversity.

I announced on 16 September new measures to deal with the conflicts between cormorants and the fishing community. This does not include the inclusion of the cormorant onto a general licence.

Crustacean Fishing

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the status of Council Regulation (EC) No. 1954/2003—Western Waters; [188894]

(2) whether under Council Regulation (EC) No. 1954/2003—Western Waters, UK shell fishermen could be prevented from fishing by the end of 2004; [188890]

(3) whether under Article 12 of Council Regulation (EC) No. 1954/2003—Western Waters, Spanish fishermen will be permitted to fish for crab stocks in UK waters; and what her policy is on that provision. [188892]

Mr. Bradshaw: Council Regulation (EC) No. 1954/2003 establishes an effort management regime for EU vessels over 15 metres overall length fishing for demersal species, scallops and edible and spider crabs in ICES divisions V, VI, VII, VIII, IX, X and certain parts of the waters managed by the Fisheries Committee for the Eastern Central Atlantic (CECAF) and for vessels over 10 metres overall length fishing for these species in the biologically sensitive area in that part of area VII off the south and west coast of Ireland. The Regulation prohibits directed fishing for these species in Western Waters without a permit and provides for the setting of annual fishing effort allocations for each member state for each area and fishery described above. Those effort allocations are contained in Annex I of Council Regulation 1415/2004 and include effort allocations for UK vessels fishing for crabs in ICES areas V, VI, VII and VIII. These are based on the historic fishing activity of the UK crabbing fleet and so I would not expect UK shell fishermen to be prevented from fishing from the end of 2004. In the unlikely event that any of the UK crab effort allocations were in danger of being exhausted, Article 12 of Regulation 1954/2004 would allow the UK to submit a request to the Commission for an adjustment to its effort allocation either by an increase in the permitted fishing effort in a particular area or by a shift in fishing effort between areas. Such a request would need to be accompanied by a scientific assessment of the stock situation.

Regulation 1415/2004 provides effort allocations for Spain for crabs in ICES areas VIII, IX and CECAF but not in ICES areas V, VI, VII or X. Any request by Spain under Article 12 of Regulation 1954/2003 for increased effort allocations for crabs in UK waters would also need to be accompanied by a full scientific assessment of the stock situation which we would expect to be subject to rigorous scrutiny.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department has to improve the monitoring of UK fisheries to prevent *(a)* illegal incursions from foreign fishing fleets, *(b)* criminal behaviour directed by animal rights groups against lobster fishermen and *(c)* the theft of clams from Poole harbour. [188896]

Mr. Bradshaw: United Kingdom Fisheries Departments maintain aerial and sea surveillance within UK waters to ensure compliance with fisheries legislation by all fishing vessels including those from foreign fleets. These arrangements are regularly reviewed. An essential element of effective enforcement at sea is co-operation between member states. This is something that the Government fully support. The UK is a signatory to the declaration by the recently-formed Scheveningen Group whose aim is to improve co-operation between North Sea coastal member states. We also intend to play a constructive part in discussions on the Community Fisheries Control Agency, one of whose key roles will be to co-ordinate member states' enforcement activities.

British sea fishery officers are not empowered to deal with criminal behaviour by animal rights activists. The Government announced on 30 July in the paper "Animal Welfare—Human Rights: tackling animal rights extremism" a number of changes to strengthen the law on protests outside homes and harassment. These new proposals will strengthen on going action by the Government, police and Crown Prosecution Service and the courts to enforce existing legislation robustly and to ensure effective co-ordination to combat the criminal activities of extremists.

The theft of clams from Poole harbour is a matter for the Southern Sea Fisheries Committee to consider. Under the Poole Fishery Order 1985 (SI 1985 No. 847) the Committee is responsible for imposing and enforcing licensing and other restrictions on the fishing or taking of clams in a large area of Poole harbour. The Committee is also responsible for regulating fisheries elsewhere in the harbour under other legislation.

Departmental Car Use

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what changes there have been in *(a)* road transport vehicle carbon dioxide emissions and *(b)* single occupancy car commuting in her Department against the baseline year. [188258]

Alun Michael: The baseline year for collecting these figures in Defra was 2002–03. Figures for 2003–04 show:

(a) an 11 per cent. reduction in road transport vehicle CO^2 emissions

(b) a 1 per cent. increase in single occupancy car commuting.

Departmental Estate

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what total floor space area of buildings was owned or leased by her Department and its agencies in each year from 1997. [188161]

Alun Michael: The Department for Environment, Food and Rural Affairs was created on 8 June 2001. The total floor space area of buildings owned or leased by the Department and its agencies, including space occupied by other Government Departments or let to external organisations is:

	Square metres
2001–02	415,939
2002–03	388,810
2003–04	383,184

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what the most significant sustainable development impacts are which she has identified in relation to the operation of her Department's estate. [188162]

Alun Michael: The most significant negative sustainable development impacts have been identified as:

Environmental—Use of land and associated landfill impacts (such as leachate and methane gas production) from waste disposal; Use of non-renewable resources; Contributions to global warming due to utility use and project management practices; Contributions to ground level ozone and greenhouse effects from the use of refrigerants and materials during maintenance of buildings; Land take for the development of new properties; Atmospheric emissions contributing to global warming associated with business travel, fleet cars and staff commuting.

Social—Impact of landfill on local community from leachate and methane gas production, noise and visual impacts; Local and global health impacts associated with air emissions, global warming and volatile organic compounds (VOCs); Health, Safety and Welfare impacts of work practices and procedures.

The most significant positive impacts have been identified as:

Environmental—Reduced air emissions from effective green travel and transport planning; Protection of biodiversity through land and ground management; Reduced need for landfill and associate emissions due to increased recycling and recovery of materials; Reduced use of non-renewable resources through appropriate procurement specification and management.

Social—Reduced health, noise and visual impacts from waste disposal due to increased recycling and recovery of materials; Improved staff welfare and health benefits from effective green travel planning.

Economic—Local job creation and improvements to local transport provision resulting from office location, relocation and co-location projects.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what parts of her Department's estate will not be covered by the commitments set out in the Framework for Sustainable Development on the Government Estate. [188255]

Alun Michael: Our aim is for as much as possible of the Defra estate to be covered by the Framework commitments. This means that different approaches may be appropriate for each part of the Framework.

Environmental Management Systems are being introduced at Defra sites except where there are plans for disposal, where we are a minor occupier sharing with another department, or where there are very few staff.

The waste targets currently apply to sites where Defra is the major or sole occupier and there are more than 50 staff.

The entire Defra estate is covered by Framework commitments on travel, energy, water, and biodiversity.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what changes there have been in water consumption by her Department in each year from 1997. [188260]

Alun Michael: The Department for Environment, Food and Rural Affairs was created on 8 June 2001.

Total water consumption in buildings for which Defra has a contractual responsibility is shown below with details of performance against the Government target of 7.7 m^3 per person per year.

	Consumption	*Percentage change*	*m^3 per person p.a.*
2001–02	434,613	—	8.11
2002–03	417,343	-4	8.00
2003–04	416,180	-0.28	7.54

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the non-office sites within the Department's estates which have been identified as being likely to provide opportunities for significant water savings. [188261]

Alun Michael: A detailed survey of Defra's non-office sites was conducted in 2000–01 to establish baselines against which water saving opportunities could be measured. The contractual nature of the work in the Department's laboratories precludes simple year-on-year savings, but during 2003–04 three non-office sites were identified as providing opportunities for significant water savings. They were the Veterinary Laboratories Agency Regional Laboratories at Winchester, Bristol and Exeter.

Departmental Services

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs which services within her Department will be *(a)* affected by and *(b)* subject to job losses consequent on the cuts in the civil service announced in the Spending Review.[189635]

Alun Michael: I refer the hon. Member to the answer given by my right hon. Friend the Chief Secretary to the Treasury on 16 September, *Official Report*, column 1659W.

Departmental Water/Sewerage Charges

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs how much her Department and its agencies spent on water and sewerage services in each year from 1997. [188160]

Alun Michael: The Department for Environment, Food and Rural Affairs was created on 8 June 2001. Expenditure on water and sewerage services in buildings for which Defra and its agencies have a contractual responsibility was:

	£
2001–02	543,004
2002–03	546,333
2003–04	508,339

Diet (Environmental Impact)

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will carry out a lifecycle analysis of the environmental impact of typical *(a)* vegetarian and *(b)* non-vegetarian diets; and if she will make a statement. [188081]

Alun Michael: The Government's broad approach to the challenges of sustainable consumption and production is set out in the framework document, "Changing Patterns", published last year. Part of the approach is to base policy development on evidence about the whole life-cycle of products and services in the economy, to help optimise the use of natural resources and minimise overall environmental impacts. Production and consumption patterns in the food chain have significant implications for resource use and for the environment, so this area will be an important part of my Department's work to build up a robust evidence

base for future policy. Officials are reviewing the body of research presently available, to help us reach a view on what further work may be desirable.

Environmental Targets

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will set out the Government's performance against its main environmental targets since May 1997. [189343]

Mr. Morley: The latest outturn of all Defra's outstanding Public Service Agreement targets and other targets can be found in the Department for Environment, Food and Rural Affairs Departmental Report 2004 published on 29 April 2004, Cmd. 6219. Copies are available from the House Library, The Stationary Office or on Defra's website at http://defraweb/corporate/deprep/default.htm

Defra will report its next outturn against its targets in its 2004 Autumn Performance Report, which will be published later this year.

EU (Co-existence Regimes)

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which EU member states have a co-existence regime in place; and if she will make a statement. [188309]

Mr. Morley: The Danish Government have adopted primary, or framework, legislation to set out their broad approach on rules for the co-existence of GM and non-GM crops. In Germany, framework legislation has been proposed but not yet adopted. In the UK, we have initiated our co-existence consultation process with a series of preliminary workshop meetings. The purpose of these is to gather information before we issue a written consultation package. Our aim is to have a co-existence regime in place before GM crops are grown commercially in the UK.

European Chemicals Agency

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff she estimates will be employed by the proposed European Chemicals Agency under the REACH proposals. [189033]

Alun Michael: The size and composition of the proposed European Chemicals Agency (to be located in Helsinki, Finland) will depend very much on the outcome of the current EU negotiations on REACH and is, therefore, difficult to estimate. Bearing this in mind, the Finnish Government have estimated that approximately 200 people from all over the EU will be employed by the Agency.

The Government support the creation of a European Chemicals Agency. However, we do not expect the Agency to be a large organisation as we expect full use to be made of the expertise that lies with member states. The Government considers that the size of the Agency must be appropriate to secure the confidence of stakeholders and ensure that REACH is operated in a transparent, consistent and harmonised way across the EU.

European Habitats Directive

Chris Grayling: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the complaint made to the European Commission about alleged contravention of the European Habitats Directive by the Irish Government in relation to the salmon drift net fishery; and what assessment she has made of the impact of the alleged contravention on salmon stocks. [189139]

Mr. Bradshaw: Since the UK Government are not party to this complaint we are not aware of how matters stand between the European Commission and the Irish Government in relation to it.

Tagging studies suggest that the Irish Salmon Drift Net Fishery takes less than 1 per cent. of salmon returning to rivers in the north-east of England, but this proportion is greater for stocks in Wales and the west of England, possibly increasing to around 10 per cent. for some rivers in the south and south-west.

Government take every opportunity to press the Irish to phase out this fishery.

Farm Prices

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the Milk Development Council Report, "Dairy Supply Chain Margins 2003–04"; and whether she has accepted the key findings in respect of farm gate and retail price movements and differentials. [189080]

Alun Michael: The lack of transparency regarding prices and margins in the dairy supply chain was an issue highlighted in the recent EFRA committee report on milk pricing. We are still considering the Milk Development Council report and assessing the contribution its recommendations could make to addressing these issues.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons London Economics was commissioned to produce a report on the impact of supermarkets on farm gate prices; and how much this report cost her Department. [189081]

Alun Michael: Defra commissioned this research in order to examine the evidence for a decline in the share of the retail price of food received by farmers and to determine the factors that could account for this. Special attention was to be given to the possible influence of supermarkets. The study was to place the UK experience within the context of other EU member states.

The report was commissioned at the time when the Competition Commission was investigating four grocery multiples bidding for Safeway and in a wider context of concerns about the declining share of farm prices as a proportion of retail spending on food.

The selection of London Economics was the result of a competitive process, based on an invitation to a number of consultancies and academics to submit proposals for this project. London Economics was paid £96,375, excluding VAT, for the report.

Farmed Ducks

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to introduce greater control of intensively farmed ducks; and if she will make a statement. [188307]

Mr. Bradshaw: The welfare of ducks is protected by the Agriculture (Miscellaneous Provisions) Act 1968, which makes it an offence to cause unnecessary pain or unnecessary distress. More detailed standards are laid down in the Welfare of Farmed Animals (England) Regulations 2000 (S.I. 1870). These regulations include specific requirements on inspections, record keeping, freedom of movement, buildings and equipment and feed and water.

There is also a specific Code of Recommendations for the Welfare of Ducks. Flock-keepers are required by law to have access to, and be familiar with this code, which encourages all those who care for ducks to adopt the highest standards of husbandry.

We are currently revising the duck welfare code and a three month public consultation ended on 10 September.

Fisheries

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the percentage of *(a)* plaice, *(b)* cod, *(c)* dab, *(d)* flounder, *(e)* herring, *(f)* haddock, *(g)* skate and *(h)* huss (i) landed in British ports and (ii) in the North Sea which are diseased. [186726]

Mr. Bradshaw: Fish with obvious signs of disease are not generally landed because they would not be marketable. Data on landings of diseased fish are therefore not collected. However, any unusual disease trends in fish catches and landings would be noticed by the industry and reported to Defra via the Sea Fisheries Inspectorate.

Defra undertakes a regular programme of disease surveillance of fish stocks in the North Sea, although sample sites may not necessarily be in areas of commercial fishing activity. The work is carried out by the CEFAS, Weymouth Laboratory and the programme follows standardised methodologies, which have been agreed internationally by the International Council for the Exploration of the Seas (ICES) for sampling and reporting fish diseases.

The percentage of cod, plaice, herring, haddock and flounder with obvious disease signs is very low, usually less than 1 per cent. Dab are unusually susceptible to diseases and in localised areas the prevalence may be up to 10—20 per cent. with lower levels in the northern North Sea. Up to 40 per cent. of dab in some areas such as West Dogger Bank exhibit abnormal pigmentation but it is not known whether this is indicative of disease as no causative agent has been found. Studies are also being carried out on liver nodules (tumours) in dab and these indicate that the condition is present in fish in most areas but with a higher incidence of up to 14 per cent. at Flamborough and West Dogger. Insufficient number of skate and huss are caught during the monitoring programme to allow meaningful disease assessment to be made.

Gangmasters (Licensing) Act

Mr. Beith: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with representatives of the farming industry about the impact of the Gangmasters (Licensing) Act 2004 on *(a)* machinery co-operatives, *(b)* machinery rings and *(c)* voluntary arrangements between farmers which involve the sharing of employees' time. [189120]

Alun Michael: The definition of a gangmaster in the Gangmasters (Licensing) Act 2004 has been drafted as widely as possible to avoid creating loopholes which might be exploited by unscrupulous gangmasters. The licensing requirements in the Act would apply to the supply of labour with machinery or associated with the supply of services by a contractor, however the Act makes provision for the Secretary of State to exclude specific activities from the licensing arrangements through secondary legislation. This flexible approach will ensure licensing applies where there is a risk that gang workers will be exploited while avoiding the imposition of unnecessary burdens on bona fide farming arrangements where the risk of exploitation is minimal.

When the Gangmasters (Licensing) Bill was being debated I confirmed that the Government would bring forward regulations to exempt from the licensing arrangements farming operations which do not involve the supply of gang labour. I also confirmed that the Government would consult widely on the scope of these exclusions.

This process has started and a working group involving all key stakeholders has been brought together to work with us on this. The working group met for the first time on 2 August 2004 and will continue to meet during the autumn. A full draft of the Exclusions Regulations will be made available for comment later in the year. This will give everyone with an interest an opportunity to comment.

GM Seed Directive

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discretion the Government have not to implement a GM seed directive that has been added to the European common catalogue. [188621]

Mr. Bradshaw: The European Common Catalogue, established under Council Directive 2002/53/EC on the Common Catalogue of varieties of agricultural plant species, is an amalgam of individual member states' national lists. Varieties that have been added to the Common Catalogue can normally be freely marketed throughout the EC.

The Common Catalogue Directive makes provision for a member state to apply to the European Commission for authorisation to prohibit the use of a GM variety within its own territory, or to lay down appropriate conditions for cultivation of the variety, where either;

(a) it has established that cultivation of the variety could pose a risk to plant health of other cultivated varieties or species, or there are valid reasons for considering that it may pose a risk to human health or the environment, or

(b) official growing trials, undertaken within that member state's territory, clearly show that the variety does not have a Value for Cultivation and Use (VCU) within that member state.

I assume my hon. Friend's question relates to the recent addition of 17 GM maize varieties to the European Common Catalogue. The maize varieties in question all contain the same GM transformation event, which was given EU wide approval for commercial cultivation in 1998. The approvals process addresses plant and human health and environmental safety issues.

These varieties have not undergone any official UK growing trials, as referred to in *(b)* above. Therefore at present there is no basis for the Government to seek a prohibition on the marketing of these varieties in the UK. However, they are not suited to UK conditions and it is not anticipated that any UK farmer would attempt to grow these varieties.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make monthly statements over the following 12 months on the number of hazardous waste producers contacting her Department and the agencies for which she is responsible who have been unable to find a waste contractor able to take the hazardous waste they produce, giving details of the *(a)* type of waste and *(b)* amount of waste concerned. [187172]

Mr. Morley: The Department, the Environment Agency and Envirowise each have arrangements in place to deal with inquiries from business and industry on hazardous waste, and in particular on the changes brought in by the Landfill Directive. The agency has set up a national call centre, and Envirowise has established a dedicated helpline. Inquiries to the respective organisations are on a range of issues. I have asked my officials to collate information on the inquiries received, and place this data on the Department's website. Waste producers who cannot find a waste contractor able to take their waste are encouraged to follow a number of options including contacting the agency or Envirowise. Other options are to contact a member of the Environment Services Association, their own trade association, or check the options available to them to reduce or eliminate the hazardousness of the waste.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 21 July 2004, *Official Report*, column 250W, on hazardous waste, if she will provide full details of the sampling process used to obtain the cross section of small businesses that received the survey; how many businesses were sent the survey; how many businesses returned the survey; and if she will place a copy of *(a)* the survey and *(b)* the full responses received in the Library. [187174]

Mr. Morley: The survey, about awareness of hazardous waste issues, was distributed to 199 small businesses through the Institute of Directors (54) and the Small Business Service (95 electronically and 50 by post). Approximately 37 businesses returned the survey direct to Defra (17 electronically and approximately 20 by post). The 20 hard copies were not retained, but the original survey has been placed in the Library along with the 17 electronic returns and the compiled results for all 37 responses returned as percentages.

Hydrofluorocarbon Emissions

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what revisions, indicating amounts of increase or decrease, have been made in 2004 to the estimates of UK emissions of hydrofluorocarbons occurring in 2000 which were first reported to the United Nations Framework Convention on Climate Change in 2002 from *(a)* mobile air conditioning, *(b)* commercial refrigeration and *(c)* metered dose inhalers; and if she will make a statement. [188777]

Mr. Morley *[holding answer 15 September 2004]*: The following table shows the emissions of hydrofluorocarbons, expressed in kilotonnes of carbon dioxide equivalent, for the year 2000 that were reported by the UK to the United Nations Framework Convention on Climate Change in i) 2002; and ii) 2004.

Sector	*Emissions for year 2000 reported in 2002 (kt CO2 eq.)*	*Emissions for year 2000 reported in 2004 (kt CO2 eq.)*	*Change: [reported 2004]-[reported 2002] (kt CO2 eq.)*
(a) Mobile air conditioning	481	785	+ 304
(b) Commercial refrigeration	2265	2640	+ 375
(c) Metered dose inhalers	325	894	+ 569

This upward revision in each of these sectors is the result of recent work undertaken for Defra on emissions estimates of hydrofluorocarbons, perfluorocarbons and sulphur hexafluoride. The reasons for the change in emissions in the specific sectors include:

(a) In the mobile air conditioning (MAC) sector, a faster penetration of MAC in the UK vehicle fleet than previously estimated and changes to emission factors used in the emissions model;

(b) For commercial refrigeration, revised activity and equipment lifetime data for certain sub-sectors and changes to the calculation methodology and emission factors used in the emissions model; and

(c) For metered dose inhalers, revised estimates of the hydrofluorocarbons bank size based on new data from manufacturers.

Imported Primates

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many primates, broken down by species, have been imported into the UK in each of the last 10 years; and if she will make a statement. [188716]

Mr. Morley: The following table shows the numbers of species imported. Current records commenced in 1997.

Scientific name and year of import	*Common name*	*Total number per species*
Aotus lemurinus	Douroucolli	
1999	1	1

Scientific name and year of import	Common name	Total number per species
Ateles fusciceps	Spider monkey	
1999	1	1
Callicebus cupreus	Ornate titi	
2001	2	
2002	11	13
Callimico goeldi	Goeldi's tamarin	
1998	1	1
Callithrix argentata	Black tailed marmoset	
2002	1	
2004	1	2
Callithrix geoffroyi	White fronted marmoset	
1999	18	
2002	5	23
Callithrix jacchus	Common marmoset	
1997	18	
1998	24	
1999	38	80
Cebus albifrons	White fronted capuchin	
1999	8	
2002	1	9
Cebus apella	Tufted capuchin	
1998	24	
1999	32	
2001	1	57
Cercopithecus ascanius	Black-cheeked white nosed monkey	
1998	1	1
Cercopithecus hamlyni	Owl-faced monkey	
1999	4	4
Cercopitecus mona	Mona monkey	
1998	10	10
Cercopithecus petaurista	Lesser white nosed monkey	
1998	10	10
Chlorocebus aethiops	Vervet monkey	
2000	1	
2002	1	2
Daubentonia madagascariensis	Aye-aye	
2001	1	1
Galago senegalensis	Senegal Galago	
1997	4	4
Galago demidoff	Dwarf Galago	
1997	10	10
Gorilla gorilla	Gorilla	
2000	2	2
Hapalemur griseus	Grey gentle lemur	
2001	2	
2002	2	4
Hylobates agilis	Dark handed gibbon	
2000	1	
2001	1	2
Hylobates gabriellae	Buff cheeked gibbon	
2000	2	
2001	3	5

Scientific name and year of import	Common name	Total number per species
Hylobates lar	White handed gibbon	
2000	1	
2001	2	3
Hylobates moloch	Silvery gibbon	
2000	2	2
Hylobates muelleri	Muller's gibbon	
2000	1	1
Hylobates spp	Gibbon	
2000	1	1
Leontopithecus chrysmela	Golden headed Lion tamarin	
2000	1	1
Leontopithecus rosalia	Golden lion tamarin	
2002	1	1
Macaca fascicularis	Crab eating macaque	
1997	704	
1998	2442	
1999	1186	
2000	1599	
2001	1967	
2002	2152	
2003	1859	
2004	655	12,564
Macaca mulatta	Rhesus monkey	
1997	184	
1998	96	
1999	124	
2000	153	
2001	46	
2002	74

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* rhesus macaques and *(b)* long-tailed macaques of (i) wild-caught origin, (ii) first generation captive bred and (iii) second generation or more captive bred have been imported into the UK in each of the last 10 years; and if she will make a statement. [188717]

Mr. Morley: The following tables show the numbers of animals imported. None of them were wild caught. Current records commenced in 1997.

Rhesus macaque (macaca mulatta)

	First generation captive bred	Second generation or more captive bred
1997	0	184
1998	0	96

Japanese Knotweed

Adam Price: To ask the Secretary of State for Environment, Food and Rural Affairs what public protection guidance her Department has offered local authorities with regard to the use of Tordon 22k to combat Japanese knotweed. [188467]

Mr. Bradshaw: Japanese knotweed (Fallopia Japonica) is a large and vigorous weed, which is considered a troublesome pest in many parts of the country.

Tordon 22k is highly effective against Japanese knotweed when applied in line with directions for use on the label. Tordon 22k contains the active substance picloram and is fully approved for use on land not intended for cropping, nor is it appropriate for use in or near water, or near trees. There are no specific consents required to use this product but any user must follow all of the conditions of use and directions for use on the product label. This product is for professional use only as an agricultural/horticultural/industrial herbicide. Conditions relating to its sale, supply, storage and use are covered under Schedules 2 and 3 to the Control of Pesticides Regulations 1986.

The Department has not issued specific guidance to local authorities on the use of Tordon 22k, however, the Pesticides Safety Directorate do publish general advice on the use of pesticides. The use of Tordon 22k is recommended in the Environment Agency's Code of Practice for the management of Japanese knotweed on development sites. The Code of Practice is available from www.environment-agency.gov.uk and is currently being revised. English Nature, the Government's statutory nature conservation advisers, refer to Tordon 22k in their herbicide handbook "Guidance on the use of herbicides in nature conservation sites" (available from www.english-nature.org.uk).

Lions

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will support the proposal to upgrade the African lion to Appendix I of the Convention on International Trade in Endangered Species at the next Conference of the Parties. [186274]

Mr. Morley: There are very strict biological criteria that have to be met before a species can be listed on Appendix I of CITES and we also have to be satisfied that a trade ban is the most appropriate method for addressing this problem. Doubts have been expressed as to whether the proposal satisfies these very strict criteria and most of the range states are opposed to an Appendix I listing. The UK, recognising that some lion populations have declined, in common with the other ED member states, is currently keeping an open position and would like to explore the scope for an agreed solution with the range states before coming to a final decision on this matter.

Marine Planning

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what progress she has made in bringing to a conclusion *(a)* the review of marine nature conservation, *(b)* the marine fisheries and environment enforcement review, *(c)* the review of

coastal and marine consent and *(d)* the development of the EU marine strategy; and if she will make a statement. [188447]

Mr. Morley: The Review of Marine Nature Conservation Working Group published its report to Government on 26 July. The report detailed its investigations and made recommendations for improving protection for marine habitats, species and ecosystems in the UK maritime area. The Government are considering the Working Group's report and hopes to respond to its recommendations by the end of the year.

Defra published the Review of Marine Fisheries and Environment Enforcement on 8 July. The Review makes a number of recommendations on organisational options for inshore enforcement bodies, the promotion and licensing of sea angling and charging inshore commercial and recreational fishermen. Interested parties have until 29 September to comment. The Government will consider the Review in the light of these comments with a view to responding before the end of the year.

The Government are still considering the options for possible longer-term reform to modernise and rationalise the current complex coastal and marine consenting regime, following the work by my noble Friend the Lord Rooker on the consents review.

The draft EU Marine Thematic Strategy is being prepared by the European Commission. The UK has played an active role in the working groups, and will be participating in a stakeholder conference in November at which a first draft of the Strategy is due to be discussed. The Commission plan to submit the strategy to the European Council and Parliament by May 2005.

Organic Egg Production

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the implications for competition between UK and other EU producers of the removal of the derogation on flock size and stocking density on pre-1999 organic egg producers; [186580]

(2) what representations she has received concerning the decision to remove the derogation on flock size and stocking density for organic egg producers in production in 1999; and if she will make a statement. [186581]

Mr. Bradshaw: In July we wrote to the industry seeking their views on the expiry of the derogation. 21 responses were received from a variety of industry representatives, including the National Farmers Union, individual producers, producers associations, organic certification bodies and multiple retailers.

After careful consideration of all the representations received and taking account of the interests of the organic poultry sector as a whole, I have decided that organic poultry producers should be allowed to continue to benefit from this derogation, which permits stocking densities and flock sizes higher than normally permitted in respect of livestock producing holdings with existing buildings constructed before 24 August 1999, until 31 December 2010. This will put UK producers on an even footing with those in the rest of the European Union.

Over-30-month Scheme

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to abolish the over-30-month scheme. [188500]

Mr. Bradshaw: The future of the over-30-month Scheme is linked to any change to the over thirty months (OTM) rule. The Food Standards Agency (FSA) advised on 6 July that a move to replace the OTM rule by BSE testing of cattle born after 1 August 1996 continues to be justified on the grounds of the food-borne risk to consumers and proportionality. The Government are still considering the FSA advice. No decision has been made as yet.

Peat Bogs

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will propose Bolton Fell and Solway Moss peat bogs for Special Area of Conservation protection; and if she will make a statement. [188440]

Mr. Bradshaw: Bolton Fell and Solway Moss are being considered for designation as Special Areas of Conservation (SAC). Consultations on these two sites are ongoing in the light of scientific objections raised about their candidature. Once this process has been concluded, and if the sites meet the selection criteria for SAC protection, they will be designated.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list peat bog sites broken down by *(a)* area and *(b)* protected status. [188441]

Mr. Bradshaw: There is no comprehensive list of all peat bogs in the UK. A list of Protected bogs according to country and their designation status has been placed in the Library of the House. National designation as a Site of Special Scientific Interest (SSSI) or Area of Special Scientific Interest (ASSI) in Northern Ireland underpins international designation as a candidate Special Area of Conservation. This underpinning means that there are overlaps between Sites of Special Scientific Interest and candidate Special Areas of Conservation (cSACs). Where the information is available this is shown on the list that has been placed in the Library of the House. Some cSACs may cover peat bog, but may be designated because of another natural feature of importance.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's strategy for protecting peat bogs. [188442]

Mr. Bradshaw: Both blanket bog and lowland raised bog are priority habitats under the UK Biodiversity Action Plan. The Action Plans are published and are posted on the UKBAP website: www.ukbap.org.uk. Statutory site designation plays an important part in the conservation of both these types of bog. Notification as Sites of Special Scientific Interest (SSSIs) or Areas of Special Scientific Interest (ASSIs) in Northern Ireland,

provides protection for over 400 peat bogs, with many of the most important areas managed by statutory conservation agencies through agreements with site owners. Where appropriate, the designation process can include compulsory purchase of the land. The UK has proposed 106 active and degraded raised bogs as candidate Special Areas of Conservation (cSACs) under the Habitats Directive, and 107 blanket bog sites as cSACs. In addition to this site designation, the UK is also encouraging the development of non-peat alternatives as growing media and promoting the use of alternatives. Our aim is for a minimum of 40 per cent. of total market requirements to be peat free by 2005 and 90 per cent. by 2010.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what area of peat bogs has been lost to commercial peat extraction in each year since 1997. [188443]

Mr. Bradshaw: Peat extraction is measured in cubic metres. The following figures shows peat extraction every year since 1997 and are derived from the British Geological Survey's, Minerals Yearbook and the Office of National Statistics:

	Peat extraction (thousand cubic metres)
1997	1,619
1998	1,076
1999	1,653
2000	1,626
2001	1,814
2002	973
2003	2,008

There is currently planning consent for extraction from 3,990.6 ha of raised peat bog in England, of which 72 ha is lapsed. The existence of planning consent does not mean that all or part of the area is necessarily cut. For example, a recent agreement with Scotts Company (UK) Ltd. in 2001 has meant that 1,886 ha of peatland has come out of peat extraction, although planning consent still remains on part of it.

Pollution Indicators (Castle Point)

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what the key pollution indicators are within Castle Point constituency; and what the monitoring systems are for these indicators. [188434]

Mr. Morley: For water quality, the General Quality Assessment scheme (GQA) is the Environment Agency's (EA's) national method for classifying rivers and canals. The scheme provides a way of comparing water quality from one river to another and for looking at changes through time. The EA assesses water quality in four separate ways; chemistry (based on water samples), biology, nutrients and aesthetics. Water samples are collected from about 8,000 monitoring sites monthly. These represent over 40,000 kilometres of rivers and canals. To each sampling site, the Agency assigns a stretch of river that the site characterises. In the Castle Point constituency there are 2 km of monitored river; the Prittle Brook watercourse.

In terms of emissions of air pollutants with reference to sources in a local neighbourhood, the Environment Agency has developed a reporting system for industrial facilities that it regulates, whereby they report emissions of key chemical compounds from their facility to air, water or sewer. Within the Castle Point Constituency, two sites currently report to the Environment Agency's Pollution Inventory; Benfleet Sewage treatment works owned by Anglian Water and Oikos Storage Ltd 's hazardous waste treatment facility at Hold Haven Wharf, Haven Road, Canvey Island. The specific details of emissions from these sites and more detailed water quality information can be downloaded from the EA's website at www.environment-agency.gov.uk

In terms of air quality, Defra monitors air pollution at two locations in the Castle Point Constituency. There is automatic continuous monitoring of ozone, nitrogen oxides, particulate mátter (PM10), sulphur dioxide and carbon monoxide at Chalkwell Park, Westcliffe-on-Sea and at London Road, Grays. These sites are included in the national Automatic and Rural Network (AURN) of air quality monitors and hourly information on concentrations of these pollutants is published on Defra's air quality website at www.airquality.co.uk. Local authorities in the constituency carry out additional assessment of air quality as part of their responsibilities under Local Air Quality Management.

REACH

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the latest estimate is of the cost of REACH to industry in *(a)* its phasing-in period and *(b)* the first 30 years; [189034]

(2) what further impact assessment is being carried out on the REACH proposals; and when this will be published. [189035]

Alun Michael: The information is as follows:

(a) The UK partial Regulatory Impact Assessment primarily reflects the direct costs to industry of REACH which are estimated at £515 million over the 11 year phase in period. This is equivalent to total direct costs across the EU of approximately £2.4 billion. This is in line with European Commission estimates published in October 2003 of a maximum overall cost of the revised proposal to be £7.5 billion.

This is clearly an important issue and one we will continue to develop as the proposal develops through the negotiation process. We have recently let a contract to carry out further impact assessment work to assess the indirect costs passed down the supply chain. The results of this will be published January 2005.

The European Commission has also indicted that it will perform further impact assessment work on three key areas: the withdrawal of substances, the impact on Accession States and the impacts on innovation. We welcome the Commission's further work. The results are expected to be published in December 2004.

(b) The costs to industry following the phase in period will depend upon the number of new substances developed and registered. REACH is fully expected to have a positive impact on this by reducing the testing

requirements for new substances, providing exemptions for research and development, raising the threshold for regulation from 10kg to 1 tonne and by simulating innovation into safer alternatives. Although the exact cost of registering a substance is still to be established, the current cost of notifying a new substance between 1–10 tonnes would be in the region of £100,000. Under the testing proposal put forward by the European Commission, these costs could be reduced to around £30,000.

Refrigerator Recycling

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 5 July 2004, *Official Report*, column 443W, on refrigerator recycling, why the deadline for the publication of the Environment Agency's report auditing the refrigerator recycling scheme has been missed; and when she expects the report to be published. [188750]

Mr. Morley: The Environment Agency expects to publish the report shortly. An early draft of the report has been shared with the operators of the facilities concerned and meetings with these operators took place in August. A final draft of the audit report has been prepared and is being checked to ensure, amongst other things, that it will not compromise any further enforcement action that the Agency may wish to take.

Renewable-sourced Electricity

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of electricity used by buildings in her Department and its agencies came from renewable sources in each year from 1997. [188159]

Alun Michael: The Department for Environment, Food and Rural Affairs was created on 8 June 2001.

The proportion of electricity used in buildings for which Defra and its agencies has a contractual responsibility that came from renewable sources was:

	Percentage
2001–02	19
2002–03	40
2003–04	57

River Thames (Radioactive Discharges)

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what discharges of radioactivity to the river Thames and its tributaries are permitted. [187717]

Mr. Morley: Discharges of radioactivity to the river Thames and its tributaries are authorised under the Radioactive Substances Act 1993 by the Environment Agency from four licensed nuclear sites and 260 other non nuclear sites, such as hospitals, medical and veterinary establishments, universities and general industry. Discharges are made via effluent treatment plant or via sewage treatment works. The sites which are authorised and the levels of radioactive discharges are included in the Environment Agency's Pollution Inventory, which can be found on its web site, www.environmentagency.gov.uk.

RSPCA

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what extra powers, duties and responsibilities will be available to the RSPCA as a result of her agreement that they should become approved prosecutors under section 1(3)*(e)* of the Protection of Animals (Amendment) Act 2000. [188458]

Mr. Bradshaw *[holding answer 13 September 2004]*: The RSPCA's written agreement with my right hon. Friend the Secretary of State, which allows them to perform the functions of an 'approved prosecutor', under Section 1 (3) *(e)* of the Protection of Animals (Amendment) Act 2000, took effect from 1 September 2004 and applies in England only. The Amendment Act supplements the Protection of Animals Act 1911, by allowing a magistrates court to make an order relating to the temporary care or for the disposal, sale or slaughter of animals kept for commercial purposes, that are the subject of a prosecution brought under the 1911 Act by a 'prosecutor'.

The RSPCA is the first body to enter into a written agreement with Defra. The agreement only allows the RSPCA to intervene in cases in which they are already prosecuting under the Protection of Animals Act 1911. The court will only be able to grant an order if it appears necessary for the welfare of the animals, taking account of the evidence of a veterinary surgeon. Once the RSPCA has obtained a court order, they then have the power to enter premises to mark the animals concerned and to carry out the order.

The written agreement requires the RSPCA to issue guidance and provide proper training to ensure that the appropriate level of expertise is achieved and maintained by the staff operating under the agreement. The State Veterinary Service and local authorities will perform a full 'audit' function for every case in which the RSPCA makes an application to the courts for an order under the 2000 Act.

Sea Bass

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library a copy of the European Commission's response to her submission to close the winter bass fishery in the English Channel and Western Approaches. [188130]

Mr. Bradshaw: A copy of the European Commission's response to the UK request for closure of the offshore pair trawl fishery for bass will be placed in the Library along with a copy of the UK request.

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her Department's catering policy to source sea bass from hand line fisheries; and if she will make a statement. [188138]

Mr. Bradshaw: Defra and its catering service providers are working together to increase the consumption of food that has been produced in ways that help sustain productivity and reduce adverse impacts on the environment.

Defra supports the sourcing of sea bass from responsibly managed fisheries. Handlining is a relatively low impact method of fishing and so can help fisheries to remain sustainable. Advice from the international Council for the Exploration of the Seas on sea bass has been that the level of exploitation of the stock appeared to be sustainable. New advice is due shortly which we will be considering carefully with a view to ensuring that the stock remains sustainably exploited. There are also currently no restrictions at a UK or Community level on the method of fishing that can be used to target bass.

In these circumstances I consider it would be inappropriate to encourage Defra's caterers to restrict the source of bass they purchase to hand line fisheries only.

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she proposes to take to persuade the European Commission of the need to close the sea bass fishery in order to reduce the by-catch of dolphins and other cetaceans. [188139]

Mr. Bradshaw: It is disappointing that the Commission did not accept the UK request for the closure of the offshore pair trawl fishery for bass to protect common dolphins. However, the Commission response to the UK request points to some ways in which progress might be made. We will be looking to build on this and the Commission's commitment to cooperate with the UK and other member states to find an effective solution to this bycatch problem.

Shellfishing

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she is taking to prevent the theft of clams from Poole harbour. [187430]

Mr. Bradshaw: The theft of clams from Poole Harbour is a matter for the Southern Sea Fisheries Committee to consider. Under the Poole Fishery Order 1985 (SI 1985 No.847) the Committee is responsible for imposing and enforcing licensing and other restrictions on the fishing or taking of clams in a large area of Poole Harbour. The Committee is also responsible for regulating fisheries elsewhere in the Harbour under other legislation.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what measures her Department is undertaking to assess *(a)* historical shellfish landings as the basis of any management plan and *(b)* current shellfish landings; [188891]

(2) if she will implement a management plan for scallops, crabs and lobsters in the Western Channel. [188893]

Mr. Bradshaw: Data on shellfish landings by UK vessels and into UK ports are collected annually and published in the United Kingdom Fisheries Statistics series. They are not collected specifically for the purpose of agreeing management plans.

The European Commission indicated in October 2003 that it would bring forward proposals for a management plan for scallops, lobsters and crabs in the Channel. It has not yet done so and we are not aware that such proposals are imminent.

Sows (Birthing Methods)

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of sows were recorded as giving birth in crates in each of the last 10 years. [188147]

Mr. Bradshaw: This information is not available. The vast majority of indoor pig units—which represent about 73 per cent. of the breeding herd in England—use farrowing crates. While the Government would prefer to avoid the close-confinement of all sows, there are currently no free-farrowing systems suitable for widespread commercial adoption. Farrowing crates protect piglets from being crushed by the sow—the largest cause of piglet mortality. Defra-funded research has yet to find a solution which provides adequate protection to piglets. The results of our continued research will be fed into the 2008 review of the European pig welfare directive.

Spending Review

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what efficiency savings will be made by her Department in each financial year as announced in the Spending Review, broken down by departmental head. [185891]

Alun Michael: The overall efficiency savings to be delivered by Defra are set out as follows.

Cumulative efficiencies

£ million

	2005–06	*2006–07*	*2007–08*
Defra	91	198	310
Waste services	25	120	299

Defra is required to deliver £610 million in annual efficiencies by 2007–08, which includes £300 million of efficiencies that Defra will be expected to secure within local government expenditure on waste services.

Plans are now being put in place to ensure that the Department, its agencies and NDPBs are able to deliver on the 2004 Spending Review commitments and to attribute savings by departmental head. These will address the cross-cutting and corporate nature of some of the efficiency delivering programmes.

Town Centre Regeneration

Mr. Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the impact of regeneration of town centres on the environment. [189237]

Keith Hill: I have been asked to reply.

There has been no overall assessment of the impact of the regeneration of town centres on the environment. However, there are statutory procedures which ensure that the impact on the environment of regeneration schemes in individual towns is assessed.

Under the provisions of Planning and Compulsory Purchase Act 2004, Sustainability Appraisal is mandatory for Regional Spatial Strategies and, at the local level, Development Plan Documents and Supplementary Planning Documents. The Sustainability Appraisal undertaken must also satisfy the requirements of the Strategic Environmental Assessment Directive (2001/42/EC). Sustainability appraisal is an iterative process that identifies and reports on the likely significant effects of the plan and the extent to which implementation of the plan will achieve the social, environmental and economic objectives by which sustainable development can be defined.

Certain categories of development, including urban development projects[1], must be the subject of an Environment Impact Assessment (EIA). EIA involves a systematic assessment of a project's likely environmental effects.

Thus the environmental impact of major projects and development plan proposals for town centre regeneration, are subject to careful assessment.

[1] Circular 2/99 Environment Impact Assessment provides guidance on the regulations that implement Directive 85/337/EEC, as amended by Directive 97/11/EC

Waste Management/Services

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has assessed the use of technology for weight-based charging for waste collection and disposal in the Isle of Man; and if she will make a statement. [188070]

Mr. Morley: The Department has not to date assessed the Isle of Man's use of technology for weight-based charging for waste collection. So far, our assessments have focused on other international experience, but we will continue to explore new evidence as it becomes available.

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs how she proposes to implement £300 million of efficiency gains on waste services as set out in the Gershon Review. [188593]

Mr. Morley: By 2007–08, Defra will help local authorities to deliver around £300 million worth of efficiency gains on waste and street cleansing services. Building on the Waste Implementation Programme, which has been set up to ensure much improved support is provided to local authorities in implementing waste strategy on the ground, the main features of Defra's approach are to: provide best practice procurement advice, standard contracting approaches and targeted support to help local waste managers achieve effective contracts; support the use of new waste technologies, improve data for investment planning and further develop end-markets to encourage industry in providing an appropriate range of waste handling facilities without involving excessive costs; encourage tiers of local authorities and adjacent authorities to work together to increase efficiency and realise economies of scale; improve the planning process for waste facilities, which can be a cause of delay and extra cost; and, promote better awareness of waste amongst householders, since participation rates can be a determinant of local authority costs.

In taking forward this programme of key actions, Defra will continue to work closely with the Local Government Association and other Government departments, including the Office of the Deputy Prime Minister.

Western Waters (EU Regulation)

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the status of Council Regulation (EC) No 1954/2003 Western Waters; [187424]

(2) what access will be available to Spanish boats to fish for crab stocks in the Western Waters; [187427]

(3) what measures she is taking to improve monitoring of UK fisheries to prevent incursion from foreign fishing boats in the Western Waters. [187428]

Mr. Bradshaw: Council Regulation (EC) No 1954/2003 establishes an effort management regime for EU vessels over 15 metres overall length fishing for demersal species, scallops and edible and spider crabs in ICES Divisions V, VI, VII, VIII, IX, X and certain parts of the waters controlled by the Fisheries Committee for the Eastern Central Atlantic (CECAF) waters and for vessels over 10 metres overall length fishing for these species in the biologically sensitive area in that part of Area VII off the south and west coast of Ireland. The Regulation prohibits directed fishing for these species in Western Waters without a permit and provides for the setting of annual fishing effort allocations for each member state for each area and fishery described above. Those effort allocations are contained in Annex I of Council Regulation 1415/2004. This provides effort allocations for Spain for crabs in ICES Areas VIM, IX and CECAF but not in ICES Areas V, VI, VII or X. Member states are responsible for ensuring that the total effort of vessels flying their flag does not exceed the limits set down in Council Regulation 1415/2004. British Sea Fishery Officers, when boarding foreign fishing vessels in Western Waters, will carry out checks to ensure that the vessels have the necessary permits and are properly recording in their logbooks the time spent in each Western Waters area.

Woodland Grant Scheme

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the deferral of the start of the woodland creation grants scheme until 2006–07. [187153]

Mr. Bradshaw: The Forestry Commission announced in March 2003 that as a result of ongoing reviews, the need to properly consult on their proposals and to gain the necessary EU clearance the new grant scheme, which includes woodland creation grants, would not be introduced before 2005.

Subject to EU approval of the new English Woodland Grant Scheme it is expected that applications for grant woodland creation grants will be accepted by the Forestry Commission from mid 2005. This will be in time for planting to take place in the 2005/06 planting season, with grant payments being made from April 2006.

HEALTH

Abortions

Mr. Cameron: To ask the Secretary of State for Health what guidelines are issued to doctors about informing the parents of girls who are 16 years or under who wish to have an abortion; and if he will make a statement. [189039]

Miss Melanie Johnson *[holding answer 14 September 2004]:* Guidance for health professionals on this issue is provided by the Department in "Best practice guidance for doctors and other health professionals on the provision of advice and treatment to young people under 16 on contraception, sexual and reproductive health (updated July 2004)", available from the Department's website at www.dh.gov.uk . A copy of the guidance has been placed in the Library.

Air Ambulances

Bob Spink: To ask the Secretary of State for Health what representations he has received regarding the funding of Essex Air Ambulance. [187966]

Ms Rosie Winterton: Ministers received one letter from the hon. Member for North-East Hertfordshire (Mr. Heald) in September 2004, one letter from my hon. Friend the Member for Basildon (Angela Smith) in September 2004, one letter from the hon. Member for Southend, West (Mr. Amess) in August 2004 and one letter from the hon. Member for Billericay (Mr. Baron) in September 2002, all regarding the funding of Essex Air Ambulance.

Bob Spink: To ask the Secretary of State for Health what advice he has given regarding the funding of air ambulances; and if he will make a statement. [187967]

Ms Rosie Winterton: Previous research in the early 1990s did not demonstrate that the benefits of helicopter ambulances in terms of outcomes for patients were sufficient to justify investment in these services by the national health service. The Department has since commissioned primary research to examine the role and effectiveness of air ambulance services in the modern NHS. The conclusions from the first stage can be found at www.shef.ac.uk/scharr/mcru/reports/HEASrev.pdf. In light of the findings, the Department is currently considering further research.

The Department has advised that the NHS should meet the cost of clinical staff on air ambulances.

Arm's Length Bodies

Mr. Drew: To ask the Secretary of State for Health what the planned timetable is for the abolition of arm's length bodies, with particular reference to the Commission for Patient and Public Involvement in Health. [188394]

Ms Rosie Winterton: Further details about the timetable for implementation of all the recommendations in "Reconfiguring the Department of Health's Arms Length Bodies" will be published later in the year.

Breast Cancer

Bob Spink: To ask the Secretary of State for Health how many operations for breast cancer were carried out by the NHS in each of the last five years. [189552]

Miss Melanie Johnson: The information requested is shown in the following table. Figures are given to include and exclude chemotherapy.

Count of finished consultant episodes with an operation and primary diagnosis malignant neoplasm of breast (ICD10-C50) including and excluding chemotherapy (OPCS: X352) national health service hospitals, England 1998–99 to 2002–03

	Chemotherapy (X352) included	*Chemotherapy (X352) excluded*
1998–1999	87,141	37,687
1999–2000	95,237	45,036
2000–2001	100,150	50,718
2001–2002	97,139	50,471
2002–2003	95,898	50,768

Notes:

1. A finished admission episode is the first period of inpatient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of inpatients.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–3) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures are grossed for both coverage and missing/invalid clinical data, except for 2002–03, which are not yet adjusted for shortfalls.

Source:

Hospital Episodes (HES), Department of Health.

Brighton and Sussex University Hospitals NHS Trust

Tim Loughton: To ask the Secretary of State for Health what action he is taking to reduce the numbers of patients waiting for more than nine months for treatment at the Brighton and Sussex University Hospitals NHS Trust. [189434]

Ms Rosie Winterton: The local national health service is working to make full use of both NHS and independent sector capacity to ensure that no patients are waiting longer than nine months for inpatient treatment at Brighton and Sussex University Hospitals NHS Trust.

Surrey and Sussex Strategic Health Authority expects that, from the end of September all patients will be offered treatment dates within the nine month maximum waiting time target. However, for personal reasons, some patients may opt for a later treatment date which may result in a waiting time of over nine months.

Cancer

Mr. Drew: To ask the Secretary of State for Health (1) how much the NHS spent on cancer treatment in each year from 2000; and what its planned level of expenditure for 2005 is; [188382]

(2) what the average level of expenditure for each patient diagnosed as suffering from cancer was in the last year for which figures are available. [188386]

Miss Melanie Johnson: Figures on the amount of money spent on an individual disease are not collectedcentrally. It is very difficult to track spending on a particular programme such as cancer, as patients undergo a number of different diagnostic and treatment episodes during their illness.

However, "Securing our Future Health: Taking a Long Term View" published in April 2002 detailed that the National Health Service spends around £2.5 billion a year on cancer services.

The national cancer director published a report in May 2003, detailing that, of the funding committed to the NHS cancer plan, an additional £199 million was spent in 2001–02 and 406 million was spent in 2002–03. We will shortly be repeating this tracking investment exercise to check whether spending on cancer services in 2003–04 reached the additional £570 million committed to in the NHS cancer plan.

Funding for cancer services in 2005 will be included in baseline money sent to primary care trusts (PCTs). It is for PCTs to decide how to spend that money, based on local circumstances and priorities. From next year, PCTs and strategic health authorities will report within their annual accounts the totality of their expenditure on a programme basis each year. This will include cancer as one of the categories of spend.

Mr. Drew: To ask the Secretary of State for Health how much the NHS spent on research into environmental and occupational exposures in relation to cancer in each of the last three years. [188383]

Miss Melanie Johnson: The information requested is not available. However, the National Health Service reported spending £104 million in 2001–02 and £103 million in 2002–03 on research relating to cancer from research and development support funding allocations. 2003–04 returns are currently being processed.

Mr. Drew: To ask the Secretary of State for Health whether the NHS, working through its National Cancer Research Institute, has set up a strategic planning group to investigate research into exogenous causes of cancer. [188384]

Miss Melanie Johnson: The National Cancer Research Institute (NCRI) is a partnership of the major funders of cancer research including Government, the voluntary sector and industry, together with patient representatives. Its purpose is to ensure a national strategic approach on cancer research. The NCRI has undertaken a strategic analysis of cancer research in the United Kingdom and has established strategic planning groups in areas where there appears to be under-investment. One such area is prevention and risk. This encompasses interventions to prevent cancer caused by known exogenous factors. This group is due to report soon.

Mr. Drew: To ask the Secretary of State for Health how many research programmes the NHS is undertaking into the exogenous causes of cancer. [188385]

Miss Melanie Johnson: The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry and works closely with the Health Departments, other Government agencies, the National Health Service and industry.

The majority of funds for research and development in the NHS are allocated to and managed by, NHS organisations. Details of individual projects, including many concerned with the exogenous causes of cancer, can be found on the National Research Register website at www.dh.gov.uk/research.

Care Homes

Mr. Flook: To ask the Secretary of State for Health how many *(a)* care homes and *(b)* care home places were available in Somerset in each of the last six years run by (i) Somerset county council, (ii) Somerset Care and (iii) the voluntary, independent and private sector in Somerset. [189403]

Ms Rosie Winterton: The table shows the number of care homes and places run by the council and the voluntary and private sector in Somerset as at 31 March for the years 1998–2001.

Rounded data

At 31 March	Residential[3] Council staffed	Residential[3] Independent sector	Nursing[2]	Total[4]
Number of homes[1]				
1998	40	160	85	285
1999	20	330	90	435
2000	25	315	85	425
2001	25	320	80	425
Number of places				
1998	350	3,345	2,825	6,525
1999	165	3,870	2,870	6,905
2000	190	3,910	2,825	6,925
2001	195	3,910	2,580	6,680

[1] Figures for residential care are for Somerset Council with social services responsibilities and for nursing care are for Somerset Health Authority.

[2] Includes places in general nursing homes, mental nursing homes and private hospitals and clinics.

[3] Dual registered homes are included under nursing homes.

[4] Figures may not add up due to rounding.

I understand from the chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Simon Hughes: To ask the Secretary of State for Health how many beds are available for the elderly in care homes in *(a)* Greater London and *(b)* each London borough; and how many were available on average in each year since 1997. [189473]

Dr. Ladyman: Table 1 shows the number of nursing care places available for people aged 65 and over in London and by health authority.

Table 2 shows the number of residential care places available for people, aged 65 and over in Greater London and by councils with social services responsibilities.

Table 1: Nursing care places[1] for people aged 65 and over in London at 31 March, 1998 to 2001

Rounded numbers

n/a Data not available.
[1] Includes places in residential LA staffed, independent and dual registered homes.
[2] Aged 65 or over
Source:
RA

I understand from the chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Mr. Rosindell: To ask the Secretary of State for Health if he will make a statement on care home funding in the London borough of Havering. [189251]

Dr. Ladyman: Neither councils nor strategic health authorities are allocated funding to be spent on care homes in particular. It is for councils and strategic health authorities to decide in the light of local circumstances and priorities how much of the general funding that they receive should be spent on care homes.

CHCs

Mr. Prisk: To ask the Secretary of State for Health what estimate he has made of the total floor space being rented by community health councils. [187758]

Ms Rosie Winterton: This information is not held centrally.

Mr. Prisk: To ask the Secretary of State for Health how many community health councils there were in each year since 1997. [187760]

Ms Rosie Winterton: Between 1997 and November 2003 there were 184 community health councils (CHCs). Three CHCs (Bassetlaw, Southern Derbyshire and Hounslow) were closed in November 2003. CHCs were abolished on 1 December 2003 and all CHC offices were closed on that date.

Cleaner Hospitals

Mr. Burstow: To ask the Secretary of State for Health which of the initiatives set out in "Towards cleaner hospitals and lower rates of infection: A summary of action" and his departmental press release 2004/0259 had previously been announced; and when. [184096]

Miss Melanie Johnson: "Towards cleaner hospitals and lower infection rates" presented an update of action by the Department on the issues of hospital cleanliness and infection control. The report set out the most up to date progress on several initiatives which were already in the public domain, including a number which had been included in "Winning Ways", published in December 2003. The report also included several new initiatives,

such as the target for reducing rates of MRSA infections, publication of surveillance by trusts, a science summit, the matron's charter and a new model cleaning contract.

Clinical Staff (York)

Hugh Bayley: To ask the Secretary of State for Health how many (*a*) doctors, (*b*) nurses and (*c*) other clinical staff have been employed by (i) York District Hospital, (ii) all hospitals in York and (iii) hospitals and the community in York in each year since 1997. [188958]

Miss Melanie Johnson: The information requested is shown in the tables.

Commission for Patient and Public Involvement in Health

Dr. Gibson: To ask the Secretary of State for Health how much was spent on setting up and servicing the Commission for Patient and Public Involvement in Health. [188107]

Ms Rosie Winterton: By the end of 2004–05, the total running and set up costs of the Commission for Patient and Public Involvement in Health (CPPIH) to date will be £66.76 million. This includes all costs associated with patients' forums. It also includes CPPIH set up costs in 2002–03 of around £2.5 million.

Community Health Councils

Peter Bottomley: To ask the Secretary of State for Health what the running costs of *(a)* community health councils in the last year of operation and *(b)* the replacement systems have been to date. [188237]

Ms Rosie Winterton: In 2002–03, the last year of the operation of community health councils (CHCs), the total running costs for CHCs was £13,981 million. By the end of 2004–05, the total running and set up costs of the Commission for Patient and Public Involvement in Health (CPPIH) will be £66.76 million. This figure includes all costs associated with patients' forums. It also includes CPPIH set up costs of around £2.5 million in 2002–03.

Consultant Episodes (York)

Hugh Bayley: To ask the Secretary of State for Health how many finished consultant episodes have been completed *(a)* in Yorkshire and the Humber and *(b)* at York District Hospital in each year since 1997. [188959]

Miss Melanie Johnson: The information requested is shown in the table.

Finished consultant episodes in Yorkshire and the Humber and York District Hospital since 1997

	York Hospitals National Health Service Trust	*Yorkshire and the Humber strategic health authorities*
1997–98	60,170	1,040,020
1998–99	64,776	1,269,803
1999–2000	62,167	1,285,415

Finished consultant episodes in Yorkshire and the Humber and York District Hospital since 1997

Delayed Discharges

Brian Cotter: To ask the Secretary of State for Health what the delayed discharge figures are for *(a)* the Avon, Gloucestershire and Wiltshire Strategic Health Authority and *(b)* the Weston Primary Care Trust for each of the last five years, including (i) the number and proportion of patients of all ages occupying an acute hospital bed whose discharge was delayed, (ii) the number and proportion of patients aged 75 years and over occupying an acute hospital bed whose discharge was delayed, (iii) the main reasons for delay and the numbers and proportion of patients of all ages who are delayed for each of the reasons and (iv) the numbers and proportions of patients who have been delayed (A) one to eight days, (B) eight to 14 days, (C) 14 to 28 days and (D) over 28 days. [188751]

Ms Rosie Winterton: The information requested is shown in the tables. Information is provided from the year Avon, Gloucestershire and Wiltshire Strategic Health Authority and North Somerset Primary Care Trust were established.

Dentistry

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 1 September 2004, *Official Report*, column 888W, ref.186199, on NHS Dentistry, (1) whether those people were advised of dentists that they could register with; and what percentage of callers were advised of dentists that they could register with within locally agreed standards; [187852]

(2) how many NHS dentists were accepting new NHS patients at the latest date for which figures are available; and if he will make a statement; [187885]

(3) what assessment he has made of the local distance standards for each primary care trust for access to NHS dentistry; [187886]

(4) what the maximum distance is that patients in England are expected to travel to receive NHS dental care under locally agreed standards. [187887]

Ms Rosie Winterton: In March 2004, 91 per cent. of callers to NHS Direct were referred to a dentist within locally agreed distance standards who was accepting patients for national health service treatment. Information is not held centrally on how many of the patients registered with the dentist to which they were referred. They may have been treated under provisions within the general dental service regulations for occasional treatments.

The number of general dental service or personal dental service dental practices shown on the NHS.UK website as accepting new NHS patients on 8 September is shown in the table.

	Number
Registering children aged 0 to 18 years for NHS treatment	3,938
Providing occasional NHS treatment to non-registered patients	1,572
Registering charge exempt adults for NHS treatment	2,968
Registering charge paying adults for NHS treatment	2,604

Primary care trusts' (PCTs) local distance standards were collected for the dental access performance indicator for 2003–04. They range from two miles to 35 miles in urban areas for routine and urgent calls. In rural areas, they range from two miles to 35 miles for routine calls and 2.5 miles to 50 miles for urgent calls. The majority of PCTs have set standards of 10 miles for routine calls and 15 miles for urgent calls. The maximum distance that patients in PCTs in England are expected to travel to receive NHS dental care under locally agreed standards is 35 miles in urban areas and 50 miles in rural areas.

In order to improve access to NHS dental treatment, we are delegating the commissioning of primary care dental services to PCTs as part of the most far-reaching

reform of NHS dentistry since the inception of the service in 1948. The reform is backed by extra investment of £368 million.

Mr. Burstow: To ask the Secretary of State for Health when his Department plans to update the Dental Workforce Review. [187888]

Ms Rosie Winterton: We are taking a range of measures to increase workforce capacity including:

increasing the dental workforce capacity by the equivalent of 1,000 additional dentists by October 2005;

increasing the number of dental school places by 25 per cent., from October

2005; supported by capital investment of up to £80 million over four years;

expanding of the whole dental team (including a new school for the professions complementary to dentistry), which will free up time for dentists to take on more complex work;

introducing personal dental services (PDS) and the new contractual arrangements (based on PDS) which will produce an environment in which dentists want to do more National Health Service work;

devolving funding to PCTs from October 2005, with a 19 per cent., increase in funding over 2003–04—an extra 250 million a year.

Mr. Brady: To ask the Secretary of State for Health if he will list those European Economic Area countries where practical experience gained using mannequins rather than live patients can satisfy the requirement for mandatory practical instruction for trainee dentists. [188036]

Ms Rosie Winterton: EEC Directive 78/687 requires member states to ensure that dentists "complete at least a five year full-time course of theoretical and practical instruction", guaranteeing that they have acquired "suitable clinical experience under appropriate supervision". It is the responsibility of each member state to ensure that the qualifications they award to dentists comply in every respect with applicable European Union standards which could not be attained without experience of treating live patients. We are not aware of any evidence that this obligation is failing to be met.

Mr. Steen: To ask the Secretary of State for Health what the cost of training a dentist was in each of the last five years; how many dentists were trained in each year; what the total amount spent on training dentists was in each year; and how many of the dentists trained in each year now work for the NHS. [189037]

Ms Rosie Winterton *[holding answer 14 September 2004]:* The information available is shown in the table.

	Dental graduates qualifying from dental schools in England	*Estimated cost of training a dentist £ thousand*	*Estimated expenditure on training dentists £ million*
1998–1999	581	135	79
1999–2000	585	139	81
2000–01	618	143	84
2001–02	591	146	87
2002–03	549	150	90

A majority of new graduates go on to work as independent contractors with National Health Service contracts, but information on the extent of their commitment to the NHS is not held centrally. On 16 July my right hon. Friend the Secretary of State announced that we are to provide 170 additional training places for undergraduates in dentistry from October 2005. The increase will be supported by capital investment of £80 million over the next four years and additional revenue funds reaching £29 million by 2010–11.

Mr. Boris Johnson: To ask the Secretary of State for Health what assessment he has made of the effect of the new Dentists NHS Contract on NHS dentistry provision in Oxfordshire. [187505]

Ms Rosie Winterton: The base contract for local commissioning becomes operational on 1 October 2005 and I am advised that detailed planning is being undertaken in Oxfordshire, to ensure a smooth transition. The new contracting arrangements will improve the quality of patient care, improve access to national health service services and improve working conditions for dentists and their teams. This builds on the recognition that Oxfordshire has used all current flexibilities to improve services and is working proactively to increase access by supporting dentists who wish to move to local commissioning early under the personal dental services (PDS).

The measures in the Health and Social Care (Community Health and Standards) Act 2003 represent the most radical reform of NHS dentistry since 1948. The proposals for NHS dentistry will underpin a modernised, high-quality primary dental service provided through contracts between primary care trusts (PCTs) and dental practices. The service will be properly integrated with the rest of the NHS, providing better access to services and an improved patient experience.

The new arrangements are modelled on five years successful experience of PDS pilots. The PDS continues to provide an opportunity for those dentists and their PCTs who wish to move further and faster towards local commissioning to do so. There are already more than 1,500 dentists in more than 750 practices working under PDS arrangements, out of a total of around 9,000 practices. The Department will support PCTs and volunteer dental practices to move early to local commissioning under existing piloting arrangements.

Mr. Llwyd: To ask the Secretary of State for Health how many dentistry practices in England are accepting NHS patients; how many on average accepted NHS patients in 1994; and how many individual dentists this represents in each case. [188978]

Ms Rosie Winterton: The number of general dental service or personal dental service dental practices, which appear on the NHS.UK website as accepting new national health service patients on 15 September 2004, is shown in the table.

Registering children aged 0–18 years for NHS treatment	3,936
Providing occasional NHS treatment to non-registered patients	1,561
Registering charge exempt adults for NHS treatment	2,969
Registering charge paying adults for NHS treatment	2,604

Information on the number of dentist practices accepting NHS patients is not available for 1994, as NHS Direct was not established, nor is information held centrally on the number of the dentists in the practices on the NHS website. The number of NHS dentists (general and personal dental services) dentists has increased from 15,813 at December 1994 to 19,278 at December 2003, an increase of 3,465.

Mr. Flook: To ask the Secretary of State for Health how many NHS dentists there were in Somerset in each of the last seven years. [189401]

Ms Rosie Winterton: The number of general dental service (GDS) or personal dental service (PDS) dentists in the Somerset area by primary care trust (PCT) at June each year from 1997 to 2004 is given in the table.

Number of dentists at June each year

PCT	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Bath and North East Somerset	84	85	90	92	93	98	98	100
Mendip	38	43	42	49	48	45	51	54
North Somerset	82	89	91	95	98	97	92	107
Somerset Coast	40	42	41	48	45	50	46	50
South Somerset	56	57	56	57	59	57	62	64
Taunton Deane	47	47	45	45	59	61	69	68

Source:
Dental Practice Board

Dentists are counted in each PCT in which they practise.

The figures are based on the number of dentists with an open GDS or PDS contract and include principals, assistants and trainees in the GDS. Dentists have been counted more than once if he/she works in more than one PCT.

The figures provide a snapshot of the number of individual dentists with an open contract at 30 June each year. The total number of dentists in the Somerset PCTs has increased from 347 in June 1997 to 443 in June 2004.

Contraceptive Services

Mr. Laurence Robertson: To ask the Secretary of State for Health if he will make a statement on the contents of the revised guidance for health professionals on the provision of contraceptive services for those under the age of 16. [188906]

Miss Melanie Johnson: This revised guidance was published in July this year to clarify to health professionals that they owe under-16s the same duty of care and confidentiality as older patients, to further improve the uptake of advice by sexually active under 16s, given high teenage pregnancy rates and the associated risks of sexually transmitted infections. The legal framework and professional codes for health professionals remain unchanged.

The new guidance sets out the principles of good practice for health professionals in considerably greater detail than the earlier (1986) guidance. These include providing the young person with the time and support to make an informed choice, including exploring whether the relationship is mutually agreed or whether there may be coercion or abuse, and always encouraging the young person to involve their parent, carer or another trusted adult.

Council of Ministers

Sue Doughty: To ask the Secretary of State for Health if he will make a Written Ministerial Statement outlining for each meeting of the Council of Ministers at which his Department is represented as soon as is practicable following that meeting *(a)* the key items of discussion, *(b)* the positions of the Government on those items, *(c)* the key positions taken by other member states that Ministers consider should be noted by honourable Members and *(d)* any preliminary discussion on the timing and the agenda of the following meeting. [188197]

Mr. Hutton: I refer the hon. Member to the reply given by my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs on Monday 13 September, *Official Report*, column 1451W.

Digital Hearing Aids

Derek Conway: To ask the Secretary of State for Health if he will list *(a)* the present length of wait and *(b)* the number of patients waiting for digital hearing aids in each London hospital. [188765]

Mr. Hutton: The information requested is not available centrally.

Tim Loughton: To ask the Secretary of State for Health what the average waiting time for *(a)* initial audiology appointments for digital hearing aids and *(b)* fitting of digital hearing aids is in each primary care trust in England. [189422]

Dr. Ladyman: This information is not collected centrally. We have invested £94 million over two years which will be used to make digital hearing aids available across England by April 2005.

Tim Loughton: To ask the Secretary of State for Health what action he is taking to speed up universal availability of digital hearing aids. [189423]

Dr. Ladyman: All audiology departments in England will routinely be fitting digital hearing aids by April 2005.

The Department is investing a further £94 million in the financial years 2003–04 and 2004–05. This is additional to a total of £30.75 million invested since the modernising hearing aids services project began in September 2000.

Disabled People

Miss McIntosh: To ask the Secretary of State for Health (1) how much financial support has been

allocated for the provision of disabled care for people in North Yorkshire in each year since 1997; and how much is projected for *(a)* 2004–05 and *(b)* 2005–06; [189328]

(2) what programmes the Government have in place to provide *(a)* care for disabled people and *(b)* support for the families and carers of disabled people; [189329]

(3) what action the Government have taken to ensure that the safety of disabled people is not jeopardised by the reduction in funding to disability charities. [189331]

Dr. Ladyman: The Government do not allocate particular amounts to councils to spend on the care of disabled people. It is for each council to decide how much of its general funding allocation to spend for this purpose. Councils do this in the light of local needs and priorities.

The Government's financial support for social services will increase by an annual average of 6 per cent. in real terms between 2003–04 and 2005–06.

Miss McIntosh: To ask the Secretary of State for Health what criteria were considered in deciding that the Wilf Ward Family Trust would receive less funding over the next three years. [189330]

Dr. Ladyman: This information is not available centrally. The Department does not provide funding directly to the Wilf Ward Family Trust.

Dying at Home

Mr. Laurence Robertson: To ask the Secretary of State for Health (1) what his policy is on the practice of allowing terminally ill cancer patients to choose to die at home; [188962]

(2) what resources he is making available to treat terminally ill cancer patients who wish to die at home; [188963]

(3) what improvements he is making to information available to *(a)* carers, *(b)* healthcare professionals and *(c)* patients about the process of allowing terminally ill cancer patients to choose to die at home. [188964]

Miss Melanie Johnson: I refer the hon. Member to the Government's response to the Health Select Committee report on palliative care, copies of which are available in the Library.

This response reiterates our wish to offer all adult patients nearing the end of life, regardless of their diagnosis, the same access to high quality palliative care so that they can choose if they wish to die at home.

The End of Life Care Initiative commits the Department to invest £12 million over the next three years to train existing staff who already contribute to supportive and palliative care to provide end of life care and support to patients and carers. This investment will enable those approaching the end of life to be identified, their care needs assessed, enable information about the choices available provided to them and a jointly agreed care plan involving all relevant agencies to be put in place.

Dystonia

Mr. Wood: To ask the Secretary of State for Health if he will make a statement on the levels of funding available for *(a)* researching, *(b)* treating and *(c)* raising awareness of dystonia in 2004–05. [189528]

Dr. Ladyman: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC does not normally allocate funds to particular topics. Research proposals in all areas compete for the funding available. When appropriate, high quality research in particularly areas of strategic importance may be given priority in competition for funds, but research excellence and importance to health continues to be the primary considerations in funding decisions.

The MRC spent £1.4 million on research related to dystonia in 2001–02, the latest year for which figures are available.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of individual projects, including a number concerned with dystonia, can be found on the national research register at www.dh.gov.uk/research.

Through section 64 grants to the National Dystonia Society, the Department has funded a range of projects to help increase awareness and understanding of dystonia. In 2004–05, the society will receive £45,000 to support its independent living project.

In terms of raising awareness among health professionals, the content and standard of postgraduate medical training for specialist medicine is the responsibility of the United Kingdom competent authority, the Specialist Training Authority (STA). The STA takes advice from the appropriate Royal College, who appreciate the requirements presented by different conditions and develop their training curricula as appropriate. Measures to increase doctors' knowledge of dystonia and movement disorders are therefore more appropriate for these bodies and the medical profession.

Eating Disorders

Mr. Burstow: To ask the Secretary of State for Health how many finished consultant episodes there were with a primary diagnosis of *(a)* anorexia and *(b)* bulimia, broken down by (i) age and (ii) gender in each year since 1997. [187869]

Ms Rosie Winterton: Information on the number of finished consultant episodes in national health service hospitals of patients with a primary diagnosis anorexia and bulimia, broken down by age and gender in each year since 1997, has been placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the review of eating disorders undertaken by the National Development Group for Specialised Services. [187871]

Ms Rosie Winterton: The national development group for specialised mental health services is near to completing a review of all such services. It anticipates providing a report on its work late in 2004 or early in 2005.

European Health Card

Mr. Burstow: To ask the Secretary of State for Health (1) what proof of identity will be needed to apply for an European health card; [187880]

(2) what security measures will be put in place to verify identity on the European health card to replace the E111 form. [187881]

Mr. Hutton: A United Kingdom-wide consultation on proposals for introducing the European health insurance card is currently under way. It is likely that the application process will require applicants to provide their UK address together with their National Insurance number or their national health service number, since these best ways available of demonstrating residence in the UK and therefore eligibility to receive NHS services. In all but exceptional circumstances, cards will only be issued to UK addresses.

National Service Framework for Older People

Sandra Gidley: To ask the Secretary of State for Health (1) pursuant to his Answer of 1 July, *Official Report*, column 408W, on fall/osteoporosis services, when the Healthcare Commission's review of the delivery of the National Service Framework and older people's services will be published; [183660]

(2) when the findings of the Commission for Healthcare Improvement's consultation on the scope of the review of the National Service Framework for Older People will be made available. [185994]

Dr. Ladyman: I understand from the Chairman of the Healthcare Commission that the findings are available on its website at www.healthcarecommission.org.uk. The results of the initial consultation on the scope of the review were published in October 2003 and the detailed methodology was published in March 2004.

The Healthcare Commission will be producing a national report on the implementation of the National Service Framework for Older People by December 2005. Local reviews will be running throughout 2005.

Forum Support Organisations

Mr. Drew: To ask the Secretary of State for Health whether forum support organisations within the Commission for Patient and Public Involvement in Health (CPPIH) will end in August 2005 prior to the winding up of the CPPIH. [188388]

Ms Rosie Winterton: No decisions have been taken yet about whether to extend the forum support organisation contracts beyond August 2005, when they expire.

Sue Doughty: To ask the Secretary of State for Health how many bone fractures resulting from falls were treated by the NHS in the last period for which figures are available; how many of those suffering from such fractures were known to have osteoporosis; how many were discovered to have osteoporosis in post-fracture screening; and if he will make a statement. [188180]

Dr. Ladyman: Information on the number of bone fractures resulting from falls treated by the National Health Service for the last period for which figures are available is shown in the table. Information on how many of those suffering fractures were known to have osteoporosis and how many were discovered to have osteoporosis in post-fracture screening is not collected centrally.

Primary diagnosis—fracture (ICD 10 diagnosis codes S02, 812, S22, 832, 842, 552, 562, 872, 582, 892 and T02) with secondary diagnosis falls (ICD diagnosis codes WOO-W19)—counts of finished consultant episodes (FCEs)

National Health Service hospitals—England	161,670

Notes:
Ungrossed data—figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a patient may have more than one episode of care within the year.
Cause code—the cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects.
Secondary diagnoses—as well as the primary diagnosis, there are up to 13 (6 prior to 2002–03) secondary diagnosis fields in Hospital Episode Statistics (HES) that show other diagnoses relevant to the episode of care
Source:
HES, Department of Health

Fraud Costs

Mr. Lansley: To ask the Secretary of State for Health what estimate his Department has made of the cost of fraud to *(a)* his Department and *(b)* the executive agencies for which his Department in responsible in each of the last 10 years. [185875]

Ms Rosie Winterton: The figures available are from 1999–2000 and are shown in the table.

£

	Department	*Agencies*
1999–2000	3,055	0
2000–01	0	0
2001–02	150	0
2002–03	38,307	0
2003–04	29,082	6,100

Free Personal Care

Mr. Keith Bradley: To ask the Secretary of State for Health what the projected cost is of providing free personal care for all elderly people for *(a)* 2004–05 and *(b)* each of the following 10 years. [189461]

Dr. Ladyman: The Government have estimated that the cost of introducing free personal care for everyone in England would be some £1.5 billion at 2003–04 prices. None of this extra expenditure would increase choice or services available to older people. The Government have not made estimates for the next 10 years. On 8 September, the Joseph Rowntree Foundation,

published projections to 2051 of the future costs of long-term care for older people in the United Kingdom in the report: "Future demand for long-term care in the UK: A summary of projections of long term care finance for older people".

The report concluded that long-term care spending in the United Kingdom would need to increase by about 315 per cent., in real terms between 2000 and 2051, to meet demographic pressures and allow for real rises in care costs, if dependency rates, patterns of care and funding arrangements remained unchanged. In terms of personal care, the researchers estimated that if free personal care had been introduced across the whole of the UK in 2000, public spending on long-term care would have risen immediately from £8.8 billion to £10.3 billion, and projected public spending would reach £42.6 billion or more by 2051, compared with £35.4 billion if current funding arrangements were maintained.

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health how many general practitioner practices in *(a)* England and *(b)* each strategic health authority have premises below a minimum standard; and what his Department defines as a minimum standard for practice premises. [187866]

Mr. Hutton: The most recent figures available (2002–03) indicate that the number of general practitioner practice premises below minimum standards are as shown in the table. The figure of 700 represents only 6 to 7 per cent., of all primary care premises in England. The Government are supporting one of the largest and most sustained programmes of modernisation of primary care premises in the history of the national health service and this is likely to have a significant impact on these numbers.

Practices with premises below a minimum standard by strategic health authority in England—2002–03

	Practices with premises below a minimum standard

The definition on which these figures are based was contained in paragraph 51 of the "Statement of Fees and Allowances", a copy of which is available in the Library.

Bob Spink: To ask the Secretary of State for Health how many single practitioner general practitioner surgeries there were in each of the last five years. [189554]

Mr. Hutton: The table shows the number of single-handed general practitioner surgeries there were in each of the last five years.

Single-handed partnerships of unrestricted principals and equivalents (UPEs)[1] 1997–2003

England			*Numbers (headcount)*
	UPEs	*Partnerships of UPEs*	*Single-handed UPEs*
1999	27,591	8,944	2,631
2000	27,704	8,878	2,575
2001	27,843	8,817	2,534
2002	28,031	8,748	2,482
2003	28,568	8,757	2,504

[1] UPEs include general medical service unrestricted principals, personal medical service (PMS) contracted GPs and PMS salaried GPs.
Data as at 1 October 1997–98 and 30 September 2000–03.

Department of Health general and personal medical services statistics.

GP Lists

Mr. Burstow: To ask the Secretary of State for Health if he will list the 10 primary care trusts with the highest average general practitioner list sizes in England. [189261]

Mr. Hutton: The table shows the 10 primary care trusts with the highest average national general practitioner list sizes in England.

Primary care trusts (PCTs) with the highest average list size for unrestricted principals and equivalents (UPEs)[1]

		Numbers (headcount)	
	(UPEs)	*Patients of (UPEs)*	*Average list size*
England	28,568	52,713,780	1,845
5LC Westminster PCT	100	250,884	2,509
5C2 Barking And Dagenham PCT	70	170,493	2,436
5AK Southend On Sea PCT	73	177,522	2,432
5C5 Newham PCT	126	305,285	2,423
5LA Kensington And Chelsea PCT	82	195,743	2,387
5MX Heart Of Birmingham Teaching PCT	132	314,844	2,385
5JP Castle Point And Rochford PCT	73	173,946	2,383

Health Bodies

Mr. Burstow: To ask the Secretary of State for Health if he will list the *(a)* strategic health authorities, *(b)* primary care trusts and *(c)* NHS trusts which relate to each constituency, including their addresses. [189258]

Mr. Hutton: This information can be provided only at disproportionate cost.

Mr. Burstow: To ask the Secretary of State for Health if he will list *(a)* the administration costs and *(b)* the total number of staff of (i) the Healthcare Commission, (ii) the Commission for Social Care Inspection, (iii) the Office of the Independent Regulator of Foundation Trusts and (iv) The Medicines and Healthcare Products Regulatory Agency for the latest year for which figures are available. [187877]

Ms Rosie Winterton: The information requested is shown in the following table.

Organisation	*Administration costs (£million)*	*Number of staff*
The Healthcare Commission	15.7	632
The Commission for Social Care Inspection	147.2	2,622
The Independent Regulator of National Health Service Foundation Trusts	16.0	45
The Medicines and Healthcare products Regulatory Agency	66.9	823

Notes:
1. The administration costs shown are budget figures for 2004–05.
2. Staff figures are whole-time equivalents as at 31 March 2004.

Health Services

Mr. Nigel Jones: To ask the Secretary of State for Health (1) if he will make a statement on the future of Battledown Ward at Cheltenham General Hospital; [189537]

(2) if he will make a statement on NHS acute children's services in Cheltenham. [189538]

Ms Rosie Winterton: Cotswold and Vale Primary Care Trust is leading a period of public consultation on the future of maternity care and services for children across Gloucestershire.

The responses to the consultation will be considered by the PCT and decisions on any changes to acute children's services in Cheltenham will not be taken until next year.

All options will continue to see the delivery of children's services from both the Battledown ward at Cheltenham General Hospital and Gloucestershire Royal Hospital.

Mr. Nigel Jones: To ask the Secretary of State for Health what assessment he has made of the proposals *(a)* to downgrade Battledown Children's Ward at Cheltenham General Hospital into a paediatric assessment unit and *(b)* for the removal of acute children's services to Gloucester. [189539]

Ms Rosie Winterton: I have made no such assessment. Primary care trusts (PCTs) are responsible for commissioning appropriate levels of services for their communities. Cotswold and Vale PCT is leading a period of public consultation on the future of maternity care and services for children at home and in hospital across Gloucestershire.

Mr. Sanders: To ask the Secretary of State for Health how many NHS dental patients were registered in Torbay in each of the last five years for which figures are available. [188134]

Ms Rosie Winterton: The number of registrations in the general dental service in the area covered by Torbay Primary Care Trust for the last five years is shown as follows. The table only shows the number of registrations for general dental services. Through the South West Peninsula Options for Change field site, dentists are increasingly opting for the new ways of working that personal dental services (PDS) allows. As of 1 September 2004, four practices in Torbay have accepted PDS contracts.

Year[1]	*Dental Registrations*
2000	73,374
2001	73,288
2002	76,915
2003	71,631
2004	57,865

[1] At 30 June each year.

Healthy Living Centres

Mr. Don Foster: To ask the Secretary of State for Health if he will list the *(a)* technical and financial contracts, *(b)* technical consultants used on a call-off basis and *(c)* financial consultants used on a call-off basis, with regard to Healthy Living centres, giving the (i) cost and (ii) start date of employment; and if he will make a statement. [188747]

Miss Melanie Johnson: The Department has a contract with the Tavistock Institute for evaluating the Healthy Living Centre programme. The evaluation is worth £350,000 and was awarded after a competitive tendering exercise. The start date of the contract was May 2001 and it is due to complete in 2005.

Heart Bypass Surgery

Mr. Rosindell: To ask the Secretary of State for Health what the survival rate for heart bypass surgery was in *(a)* England and *(b)* the London Borough of Havering in each of the last five years. [189249]

Miss Melanie Johnson: Based upon data compiled for the national adult cardiac surgical database report 2003 by the Society of Cardiothoracic Surgeons of Great Britain and Ireland, the survival rate for isolated, first-time coronary surgery in England has increased from 97.8 per cent. in 1998–99 to 98.2 per cent. in 2002–03 (latest figures available). The data are collected from individual hospitals so the identification of survival rates for specific local authorities is not possible.

Heart Disease

Tim Loughton: To ask the Secretary of State for Health (1) what estimate he has made of the number of children suffering from heart disease; [189394]

(2) how many children were detected with early signs of heart disease in the last year for which figures are available; [189395]

(3) how many children are receiving treatment for heart disease. [189396]

Miss Melanie Johnson: This data are not collected centrally. However, it is estimated that about eight out of every 1,000 babies born in the United Kingdom will have a congenital heart defect and that about half of these will have a minor defect needing little or no treatment. The Department is currently examining these issues in conjunction with experts, families of patients and other interested parties and will be publishing the conclusions next year.

Hospital Beds

Bob Spink: To ask the Secretary of State for Health how many hospital beds there were in *(a)* Southend Hospital Trust and *(b)* Basildon Hospital Trust in each of the last five years. [189555]

Dr. Ladyman: The tables show the number of hospital beds for both Southend Hospital National Health Service Trust and Basildon and Thurrock University Hospital NHS Trust respectively for the period 1996–97 to 2002–03. Data for 2003–04 are not yet available.

RAJ—Southend Hospital NHS Trust—average daily number of available beds, by sector, 1996–97 to 2002–03

Hospital Infection Control

Andrew Mackinlay: To ask the Secretary of State for Health to ask which *(a)* hospital orthopaedic directorates, *(b)* hospital infection control teams, *(c)* hospital chief executives and *(d)* hospital vascular directorates did not reply to the National Audit Office survey on infection control between July and September 2003; what the explanation was in each case for the failure to respond; what action he proposes to take in each case; and if he will publish the returns requested by the National Audit Office survey. [185651]

Miss Melanie Johnson: Information on non-responders is shown in the table. The overall response rate for the survey was good and we understand the main reason for not completing the questionnaire was pressure of business. Non-responders will not be followed up as the aim of the survey was to produce a snapshot of the situation in 2003. The survey results were used in the National Audit Office report and there are no plans for a separate publication.

Hospital-acquired Infection

Tim Loughton: To ask the Secretary of State for Health how many bed days were lost due to MRSA infection in each hospital trust in Sussex in the last year for which figures are available. [189409]

Ms Rosie Winterton: The information requested is not collected centrally.

In-vitro Fertilisation

Mr. Barron: To ask the Secretary of State for Health (1) what support his Department is providing to primary care trusts to ensure that a national minimum level of one full cycle of in-vitro fertilisation is in place for those eligible by April 2005; [188275]

(2) how his Department will monitor the implementation of his decision to ensure that a national minimum level of one full cycle of in-vitro fertilisation is in place for all those eligible by April 2005; [188278]

(3) what assessment his Department has made of potential blocks in the current commissioning and delivery of infertility services in the UK that could affect the ability of primary care trusts to provide a national minimum level of one full cycle of in vitro fertilisation for all those eligible by April 2005; [188284]

(4) if he will provide a timeframe for full implementation by primary care trusts of the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems; [188285]

(5) what direction and assistance his Department will offer primary care trusts to ensure that the planned increase in national health service funding between 2003–04 and 2007–08 goes towards implementing in full the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems; [188279]

(6) what role strategic health authorities will play in ensuring the implementation of his decision to ensure that a national minimum level of one full cycle of in-vitro fertilisation is in place for all those eligible by April 2005; [188276]

(7) whether the National Institute for Clinical Excellence *(a)* has and *(b)* will have a role, as part of its new implementation programme, in examining capacity to ascertain whether it is sufficient to implement in full the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems; [188280]

(8) what the repercussions will be for those primary care trusts that fail to meet the target of ensuring that a national minimum level of one full cycle of in-vitro fertilisation is in place for all those eligible by April 2005; [188277]

(9) whether his Department will undertake an assessment of existing national health service capacity to ascertain whether it is sufficient to implement in full the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems; [188281]

(10) what steps he is taking to assist primary care trusts to identify and overcome potential service blocks in order for them to implement in full the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems; [188282]

(11) what assessment his Department has made of potential blocks in the commissioning and delivery of infertility services in the United Kingdom to the implementation in full of the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems; [188283]

(12) what support his Department is providing to primary care trusts to assist them to *(a)* plan for and *(b)* implement in full the recommendations made in the National Institute for Clinical Excellence's clinical guideline on the assessment and treatment of people with fertility problems. [188286]

Miss Melanie Johnson: The Government welcomed the publication in February 2004 by the National Institute for Clinical Excellence (NICE) of the clinical guideline on the assessment and treatment for people with fertility problems. The guideline is aimed at the national health service and it is for the NHS locally to take it into account when determining how best to meet the needs of the local population, in discussion with patients and the public and within the resources allocated to the health service overall. Those resources are to rise at record levels, from £69 billion in 2004–05 to £92 billion in 2007–08.

We expect the NHS to make progress towards full implementation of the guideline. As with other NICE guidelines, we have not set a timetable for this. However, we and NICE recognise that the NHS cannot reasonably be expected to implement the full guideline immediately and we have therefore advised all primary care trusts (PCTs) to begin implementation by offering a minimum of one cycle of in vitro fertilisation by April 2005 to those who meet the clinical criteria set out in the guideline and to give priority to couples who have no children living with them.

We have agreed a broad programme of action to support the NHS in implementing NICE guidance, disseminated to the NHS on 14 June, which makes it clear that local health economies need to work together on implementation. We look to strategic health authorities (SHAs) to work with PCTs to ensure that they have effective arrangements in place for the provision of services, to investigate the barriers to implementation of NICE guidelines and to help ensure that the barriers can be overcome. The programme of action also includes, for example, the provision of advice from NICE on the development of resource templates to enable local health economies to estimate the resources needed. NICE provided the first such template for the fertility guideline, taking account of total PCT population, proportion of women aged 23 to 39 and the different local costs of providing services.

SHAs are responsible for overseeing PCTs' performance. They will expect PCTs to be able to demonstrate that they are working to implement NICE clinical guidelines. Where a PCT is failing to implement

a guideline, the SHA will explore with the trust the reasons for this, with the aim of overcoming barriers to implementation.

The national standards for the NHS, published as "Standards for Better Health" on 12 July 2004, include a standard (Standard D2) for patients to receive effective treatment and care that conforms to nationally agreed best practice, particularly as defined in NICE guidance. This encompasses NICE's clinical guidelines, such as the one on infertility. The independent Healthcare Commission, which we established in April 2004 and which reports directly to Parliament on the state of healthcare in England and Wales, is developing criteria to review the provision of health care and in doing so is taking into account the requirements of "Standards for Better Health". There are no plans for NICE to have a role in examining NHS capacity to implement NICE guidance as part of its new implementation programme.

Infected Blood

Annabelle Ewing: To ask the Secretary of State for Health how many payments have been made by the Skipton Fund to Hepatitis C sufferers who were infected from NHS blood or blood products; and how many applications have been received. [189320]

Miss Melanie Johnson *[holding answer 16 September 2004]*: The Skipton Fund became operational on 5 July. As at 14 September, the Skipton Fund has made 749 stage 1 payments. A total of 1,943 applications have been received.

Joint Replacement Operations

Mr. Rosindell: To ask the Secretary of State for Health how many people are on a NHS waiting list for a hip replacement operation. [189224]

Mr. Hutton: We do not collect data on the number of national health service patients waiting for hip replacement operations. Data on NHS patients waiting for elective admission are collected by the consultant's main specialty function. Patients waiting for hip replacement are usually listed under the trauma and orthopaedic specialty. There were 232,006 patients waiting for trauma and orthopaedic elective admission at 31 July 2004.

Mr. Rosindell: To ask the Secretary of State for Health how much a knee replacement operation costs in the NHS. [189225]

Mr. Hutton: The national average unit cost (per operation) for all national health service trusts in England for primary knee replacement where the operation is undertaken electively (that is not as an emergency) is £5,197.

The data source is the Reference Costs 2003 Collection, relating to the financial year 2002–03. This is the most current data available and is accessible on the Department's website at: http://www.dh.gov.uk/PublicationsAndStatistics/Publications/PublicationsPolicyAndGuidance/PublicationsPolicyAndGuidanceArticle/fs/en?CONTENT_ID=4070195&chk=UzhHA3.

Calculation of the costs provided are based on all activity and costs associated with each procedure, regardless of the speciality in which the activity is recorded.

Mary Rose Birthing Centre

Mr. Hancock: To ask the Secretary of State for Health (1) what recent representations he has received on the proposal to close the Mary Rose Birthing Centre in Portsmouth; [188615]

(2) what recent assessment his Department has made of the proposal to close the community midwife-led maternity service at St. Mary's Hospital, Portsmouth and transfer the maternity services to Queen Alexandra Hospital; what research has been conducted on the effect on expectant mothers; and if he will make a statement; [188617]

(3) if he will make it his policy to use his powers to ensure that the midwife-led maternity unit at St. Mary's Hospital Portsmouth is retained; and if he will make a statement. [188618]

Ms Rosie Winterton: The Department has not made an assessment of the proposal to close the community midwife-led maternity service at St. Mary's Hospital. In line with our policy of "Shifting the Balance of Power", the configuration of local health services is a matter for the local national health service, working in partnership with its local community. It is for local NHS organisations, with their knowledge and expertise, to plan and develop services based on that knowledge. I am aware that the provision of maternity services in Portsmouth is under review and that Portsmouth Hospitals NHS Trust, in collaboration with the three local primary care trusts, has engaged patients, carers and a range of other key stakeholders in shaping the proposals so far.

Since April 2004, the Department has received one representation about the Mary Rose Birthing Centre, which was from the hon. Member for Portsmouth, South.

Mr. Hancock: To ask the Secretary of State for Health what guidance he has given the Portsmouth Hospital NHS Trust following the report to the Department of Health children taskforce from the maternity and neonatal workforce group on the proposal by the trust to close the Mary Rose Birthing Centre. [188616]

Dr. Ladyman: The report to the Department's children's taskforce from the maternity and neonatal workforce group was made available on the Department's website in January 2003. The Department has not issued any guidance to trusts following the report.

Mental Health

Tim Loughton: To ask the Secretary of State for Health what research his Department has conducted since 1997 into mental health in-patients' perception of their safety in NHS accommodation; and whether there is evidence of changes in perceptions of safety. [188860]

Ms Rosie Winterton: The Department's national research programme is funding a number of studies into the organisation and delivery of inpatient mental health

services as part of its continuing evaluation of models of service delivery. In three of those studies, patients' views are being sought on aspects of inpatient care, including safety. Details can be found at:

http://www.sdo.lshtm.ac.uk/evaluatingmodels.htm#bowers.

http://www.sdo.lshtm.ac.uk/evaluatingmodels.htm#75.

http://www.sdo.lshtm.ac.uk/evaluatingmodels.htm#lelliott.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of completed and current individual projects can be found on the national research register at www.dh.gov.uk/research.

"The Architectural Healthcare Environment and its effects on the Patient Health Outcomes", University of Sheffield in association with NHS Estates, Poole Hospital NHS Trust and South Downs Mental Health Trust (2003) looked into the clinical and economic consequences of good architectural design in healthcare buildings. This publication is available from NHS Estates knowledge and information portal at http://195.92.246.148/nhsestates/knowledge/knowledge_content/home/home.asp.

Tim Loughton: To ask the Secretary of State for Health what procedures are in place *(a)* to measure mental health in-patients' satisfaction with the services they receive while in hospital, *(b)* to eradicate poor practice and *(c)* to disseminate good practice. [188863]

Ms Rosie Winterton: All trusts are committed to measuring their patients' experience through a series of structured national surveys. The Healthcare Commission administers these and all trusts in England participate. Survey results feed into the assessment of trusts for the star ratings system, and trusts use their results to make service improvements.

Results for the mental health trust patient surveys were published by the Healthcare Commission on 4 August 2004 and are available from http://www.healthcarecommission.org.uk/assetRoot/04/00/81/83/04008183.pdf.

The Department has published a national service framework for mental health and a series of mental health policy implementation guides which provide services with good practice guidance. The National Institute for Mental Health in England provides trusts with practical support with implementing such guidance.

Tim Loughton: To ask the Secretary of State for Health what measures he is taking to ensure that service users are involved in the planning and delivery of mental health hospital services. [188865]

Ms Rosie Winterton: Section 11 of the Health and Social Care Act 2001 places a duty on national health service organisations, including mental health trusts, to involve and consult patients, the public and their representatives in the planning and development of services and to consult them on changes to the operation of services. The duty was commenced on 1 January 2003.

"Mental health policy implementation guide on adult acute inpatient care (2002)", which is available in the Library, recommends the establishment of acute care forums with involvement of service users and carers to agree and regularly review the operation and co-ordination of the range of acute care services.

Tim Loughton: To ask the Secretary of State for Health what his policy is on access for mental health patients to *(a)* fresh air, *(b)* exercise and *(c)* meaningful recreation; and what measures he has put in place to achieve this. [188866]

Ms Rosie Winterton: As set out in the "National service framework for mental health" (1999) and "Mental health policy implementation guide on adult acute inpatient care" (2002), a flexible range of appropriate therapeutic and recreational resources and activities must be available in mental health inpatient settings.

"National minimum standards for general adult services in psychiatric intensive care units and low secure environments" (2002) requires all patients to have access to fresh air and secure external space and space for regular exercise with appropriate supervision. This guidance also recommends such services to provide access to a games room in which board games, art equipment and stereo equipment is placed.

Performance ratings of mental health trusts produced by the Healthcare Commission use performance indicators assessing the suitability of physical environments to meet the needs of service users and to ensure their privacy and dignity.

Copies of these publications are available in the Library.

Tim Loughton: To ask the Secretary of State for Health which publicly funded bodies carry out inspections of NHS mental health trusts; and how frequently such inspections take place. [189441]

Ms Rosie Winterton: The Healthcare Commission, the independent healthcare inspectorate for England, may carry out inspections of all national health service bodies, including NHS mental health trusts. The Commission is required by the Health and Social Care (Community Health and Standards) Act 2003 each financial year to review the provision of health care for each English NHS body; such a review may include an inspection.

As part of its remit to keep under review the operation of the Mental Health Act 1983, the Mental Health Act Commission visits all hospitals and registered nursing homes with detained patients at least three times biennially.

Mr. Burstow: To ask the Secretary of State for Health what progress has been made towards meeting the target for all regular carers of people with mental health problems to have been identified, received an assessment and have their own care support plans by 2004. [187868]

Ms Rosie Winterton: In line with standard six of the national service framework for mental health (1999), all individuals who provide regular and substantial care for a person on care programme approach should have an assessment of their caring, physical and mental health needs, repeated on at least an annual basis. Such people should have their own written care plans, which are implemented in discussion with them. Up to 700 carer support workers will be in post by end the year to increase the breaks available for carers and to strengthen carer support networks. To consolidate the progress that is being made and to build on good practice and research, the Department has published guidance entitled, "Developing Services for Carers and Families of People with Mental Illness".

Milking Parlours

Mr. Gray: To ask the Secretary of State for Health what regulation requires the display of "No Smoking" signs on a farm's milking parlours. [188545]

Miss Melanie Johnson: There are no regulations that require "No Smoking" signs to be placed in a milking parlour.

Missed Appointments

Bob Spink: To ask the Secretary of State for Health (1) how many GP appointments were missed in *(a)* the Castle Point and Rochford Primary Care Trust and *(b)* England in the last year for which figures are available; [189069]

(2) what his latest estimate is of the cost of a missed general practitioner appointment; and if he will make a statement. [189073]

Mr. Hutton: The average cost of a consultation with a general practitioner is about £20. Missed appointments do waste doctors' time and national health service resources and we encourage everyone to keep or cancel appointments. However, the Department does not collect or hold information on the number of GP appointments which are missed by patients.

Mobile Phones

Tim Loughton: To ask the Secretary of State for Health (1) what assessment he has made of recent advice from the Chairman of the National Radiological Protection Board on potential dangers of radiation levels from mobile phones; [189420]

(2) what plans he has to publish new guidelines on potential health effects of mobile phones. [189433]

Miss Melanie Johnson: The National Radiological Protection Board (NRPB) provides advice to Government and others on exposure to electromagnetic fields, including those from sources such as mobile phones. The present chairman of the NRPB, Sir William Stewart, was formerly the chair of the independent expert group on mobile phones (IEGMP). The recommendations in the 2000 IEGMP report, known as the Stewart Report, form the basis of current Government policy on mobile phones and health. The report is available at www.iegmp.org.uk.

In its new advice, published in March 2004, the NRPB recommends adopting for the United Kingdom the 1998 guidelines of the International Commission on Non-Ionizing Radiation Protection (Documents of the NRPB, Vol 15 No2, 2004). This advice covers the range of exposures from mobile phone technology, for which the limits are based on preventing effects caused by whole or partial body heating. This advice is available at www.nrpb.org. All mobile phones have to comply with the international guidelines.

The NRPB keeps world-wide scientific developments on mobile phones and health under review on behalf of Government. The board of the NRPB is currently preparing a new document summarising the information produced since the Stewart Report. It will also give further advice to the public on mobile phone technologies and health. This report will be published in the next few months.

MRSA

Andrew Mackinlay: To ask the Secretary of State for Health (1) whether the voluntary reporting system by hospitals of MRSA cases is still in place; [184415]

(2) how many MRSA cases were recorded by the Public Health Laboratory Service in each year from 1983; and if he will make a statement; [184416]

(3) what the percentage change in the incidence of MRSA was in each year since 1989; and if he will make a statement. [184424]

Dr. Ladyman: The voluntary reporting scheme is still operated by the Health Protection Agency and data on reported Staphylococcus aureus blood stream infections from 1990 to 2003 are shown in the table. The table includes the number of Staphylococcus aureus, the percentage of Staphylococcus aureus that are methicillin resistant Staphylococcus aureus (MRSA) and the annual percentage increase in MRSA.

Staphylococcus aureus bacteraemia (blood stream) laboratory reports and methicillin susceptibility (voluntary reporting scheme): England and Wales, 1990–2003

	MRSA[1]	*Percentage*[2]	*Percentage annual increase*	*MSSA*[3]	*No information*[4]	*Total*
1990	68	2	—	3,924	865	4,857
1991	78	2	15	4,101	788	4,967
1992	114	3	46	4,373	560	5,047
1993	210	4	84	4,902	635	5,747
1994	452	9	115	4,784	724	5,960
1995	849	14	89	5,132	618	6,599
1996	1,603	22	89	5,523	640	7,766
1997	2,422	30	51	5,555	1,367	9,344

Staphylococcus aureus bacteraemia (blood stream) laboratory reports and methicillin susceptibility (voluntary reporting scheme): England and Wales, 1998–2003

	MRSA[1]	Percentage[2]	Percentage annual increase	MSSA[3]	No information[4]	Total
1998	2,851	34	18	5,430	1,930	10,211
1999	3,332	37	17	5,584	1,884	10,800
2000	4,272	42	28	5,861	1,976	12,109
2001	5,090	42	19	7,035	1,364	13,489
2002	5,310	43	4	7,130	1,086	13,526
2003	5,658	41	7	8,022	1,151	14,831

Notes:
[1] MRSA—methicillin-resistant Staphylococcus aureus bloodstream infection.
[2] As a percentage of reports with methicillin susceptibility information.
[3] MSSA—methicillin-sensitive Staphylococcus aureus bloodstream infection.
[4] No information—no information on antimicrobial susceptibility is available.
Source:
Health Protection Agency.

Andrew Mackinlay: To ask the Secretary of State for Health what action has been taken to implement the guidelines for combating MRSA set out in the report of the working party headed by Mr.G. Duckworth since its publication in 1990; and if he will make a statement. [184420]

Miss Melanie Johnson: Decisions on implementation are made locally.

The working group is revising the guidance published in 1998. The group has three sub-groups dealing with prevention and control, prophylaxis and antibiotic therapy and laboratory diagnosis and susceptibility testing. Provisional reports are expected by the end of the year. The Department is funding a literature review to support the work of the group.

Andrew Mackinlay: To ask the Secretary of State for Health what measures he has instigated with the Chancellor of the Exchequer to ensure that *(a)* there is correct and consistent reporting of deaths caused by MRSA, or where it is a contributory factor and *(b)* death certificates are completed as directed by the Government. [184425]

Miss Melanie Johnson: The proposal to reform the coroner and death certificate service is likely to improve information about methicillin resistant staphylococcus aureus (MRSA) infection at or shortly before death in a number of ways. The emphasis on improved training for doctors in how to complete death certificates and the scrutiny of all certificates by specially trained medical examiners will improve the quality and completeness of information collected. The ability to link fact and cause of death to laboratory or patient records of infection will make it possible to determine how many people die following a diagnosis on invasive MRSA infection.

Mr. Laurence Robertson: To ask the Secretary of State for Health what steps he is taking to counter MRSA in hospitals; and if he will make a statement. [188911]

Miss Melanie Johnson: The Government's proposed actions to tackle methicillin resistant "Staphylococcus aureus" (MRSA) and other healthcare associated infections are set out in "Winning Ways, working together to reduce Healthcare Associated Infection in England", published in December 2003 and "Towards cleaner hospitals and lower rates of infection", published in July 2004. These are available in the Library. The actions set out in these publications will ensure that infection control is the business of everyone working in the national health service. To underline the priority the Government attaches to this subject, the actions include setting a new target for the NHS to reduce rates of MRSA infection year-on-year.

Myalgic Encephalomyelitis

Dr. Richard Taylor: To ask the Secretary of State for Health what the prevalence is of myalgic encephalomyelitis/chronic fatigue syndrome in England; and how much was spent on research into these illnesses in 2003–04. [189455]

Dr. Ladyman: The Department does not undertake special data collection exercises for specific diseases, conditions, syndromes or injuries. Central monitoring and reporting is concentrated on the information needed to demonstrate progress against the targets set out in "National Standards, Local Action: Health and Social Care Standards and Planning Framework 2005/06–2007/08" published by the Department on 21 July 2004; and for contractual purposes. Additional monitoring is kept to a minimum in favour of local performance management systems, exception reporting and independent inspections and does not include cases of myalgic encephalomyelitis or chronic fatigue syndrome (CFS/ME).

The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body funded by the Department of Trade and Industry via the Office of Science and Technology. The MRC, with the Department, is funding two complementary trials into various treatments options for CFS/ME for which a total of £4.2 million has been allocated. The trials were announced in 2003 and patient recruitment will start later this year.

The Department, through the National Health Service Research and Development programme, is also funding a £75,000 trial entitled "Cognitive behavioural therapy in chronic fatigue syndrome: A randomised controlled trial of an outpatient group programme".

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. Details of individual projects, including some concerned with myalgic encephalomyelitis, can be found on the national research register at www.dh.gov.uk/research.

Myasthenia Gravis

Mr. Pickthall: To ask the Secretary of State for Health what funding his Department has made available for research into myasthenia gravis. [188305]

Ms Rosie Winterton *[holding answer 15 September 2004]*: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology.

The MRC is currently funding a five-year senior non-clinical fellowship at a total cost of £913,000 specifically to research disease mechanisms and ribonucleic acid-based therapies for pathogenic mutations at the neuromuscular synapse. This basic study aims to understand the underlying mechanisms behind myasthenia gravis and other similar conditions.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by national health service organisations. Details of individual projects, including some concerned with myasthenia gravis, can be found on the national research register on the Department's website at www.dh.gov.uk/research.

New Deal for the Disabled

Jonathan Shaw: To ask the Secretary of State for Health how many people have secured employment in the NHS through the New Deal for the disabled employment programme in each year since its inception. [187748]

Mr. Hutton: This information is not collected centrally.

A number of national health service organisations have worked in partnership with Job Brokers to support people with disabilities into employment. However, these local partnerships have developed independently from the Department and neither we nor the Department of Work and Pensions collect data on the constituent members of local partnerships nor the number of people employed through the New Deal for Disabled People by the NHS.

NHS Appointments

Bob Spink: To ask the Secretary of State for Health whether reference is made to political affiliation in making appointments to *(a)* health authorities and *(b)* primary care trusts. [189551]

Ms Rosie Winterton: Ministers have delegated responsibility for the appointment of chairs and non-executive members for health authorities and primary care trusts to the National Health Service Appointments Commission. The Commission is required by the Office of the Commissioner for Public Appointments' code of practice to collect information from all candidates for these appointments. This includes information on political affiliations. This information however is for monitoring purposes only, and is removed from application forms before the selection process begins. It does not form part of the information considered by the Appointments Commission when making their appointment decisions.

NHS Bureaucracy

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the most recent total annual cost to the NHS of *(a)* SITREP returns and *(b)* monthly management information returns; and if he will make a statement. [187857]

Mr. Hutton: The impact on the national health service from making situation report (SITREP) returns to the Department was estimated to be 73 person years in 2003–04.

The impact on the NHS from monthly management information returns to the Department was estimated to be 19 person years in 2003–04.

The impact is estimated in person years, based on the time taken to complete the form or collection mechanism by the data suppliers in the NHS. This figure is an aggregate and the burden will be subject to considerable variation from one supplier, for example, a NHS trust, to the next, depending on their circumstances and systems. The overall estimate is therefore approximate.

Both reports are important parts of mandatory NHS performance in key patient areas and contribute data to performance ratings, now produced by the Healthcare Commission.

NHS Drugs Expenditure

Mr. Burstow: To ask the Secretary of State for Health (1) what the total expenditure on drugs in the NHS was in England in *(a)* cash terms and *(b)* real terms in each of the last 10 years for which figures are available; and what the expected expenditure on drugs in the NHS in England is over the next 10 years in (i) cash terms and (ii) real terms; [187879]

(2) what the total NHS expenditure on drugs was in each year since 1990–91 in *(a)* real terms and *(b)* cash terms; and if he will estimate the projected change in this budget for each year until 2009–10. [187882]

Ms Rosie Winterton: The total gross National Health Service expenditure on drugs in England for each year from 1990–91, for which figures are available, in both real and cash terms, is shown in the table.

£ million

Year	*Real terms*	*Cash terms*
1990/91	3,677	2,552
1991/92	3,977	2,926
1992/93	4,336	3,294
1993/94	4,731	3,686
1994/95	5,076	4,016
1995/96	5,379	4,379
1996/97	5,668	4,769
1997/98	6,019	5,195
1998/99	6,271	5,567
1999/2000	6,857	6,220
2000/01	7,298	6,698
2001/02	7,755	7,293
2002/03	8,459	8,230

Source:
Prescription Pricing Authority, England.

Data are not available for projected changes in expenditure over the next 10 years.

NHS Elect

Dr. Richard Taylor: To ask the Secretary of State for Health if he will make a statement on the progress of implementation of NHS Elect. [189452]

Mr. Hutton: NHS Elect was set up at the start of 2003 by four national health service treatment centres as a way of sharing best practice in optimising patients' outcomes and experience in short stay elective care.

The Department is considering working with NHS Elect to help other NHS treatment centres implement the principles of the NHS Elect model, to support and encourage delivery and excellence.

NHS Planning

Mr. Nigel Jones: To ask the Secretary of State for Health what assessment is made of *(a)* proposals for increases in population and *(b)* housing targets when changes and amalgamation of NHS services are planned by health bodies; and if he will make a statement. [189536]

Mr. Hutton: It is for the local health services to decide, with their local populations and in the light of relevant guidance and standards, how national health service services are organised. This should take account of population changes and housing targets when considering the reconfiguration of services. To help the NHS set a clear direction of travel when considering service expansion and redesign, the Department published "Keeping the NHS Local—A New Direction of Travel", in February 2003. It sets out core principles for service change that the NHS must follow. While accepting that centralisation is sometimes necessary to maintain high quality services and patient safety, it challenges the view that 'biggest is best', and sets out a range of strategies and options to help the NHS keep services local.

NHS Psychiatry

Tim Loughton: To ask the Secretary of State for Health what the average waiting time for referral to psychiatric services in each mental health trust is. [189424]

Ms Rosie Winterton: This information is not centrally available. Information on the average waiting times for a first outpatient appointment with a mental illness consultant is shown in the table.

Outpatient waiting times, mean and median (trust based) for the selected specialties (England figures)

Quarter ending June 2004 Q1

		Number of outpatients seen by a consultant following a general practitioner referral					
Specialty	*Specialty name*	*Week 0 to 3*	*Week 4 to 12*	*Week 13 to 25*	*Week 26 plus*	*Total*	*Median (weeks)*
700	Mental handicap	366	216	15	0	597	3.27
710	Mental illness	8,980	4,870	465	0	14,315	3.19
711	Child and adolescent psychiatry	818	872	322	0	2,012	5.95
712	Forensic psychiatry	8	3	0	0	11	3.00
713	Psychotherapy	149	176	21	0	346	5.25
715	Old age psychiatry	5,268	2,047	216	0	7,531	2.86
Psychiatry services	Total grouped together of the above specialties	15,589	8,184	1,039	0	24,812	3.18

Department of Health QM08

NHS Salary Increases

Mr. Laurence Robertson: To ask the Secretary of State for Health what increases in salaries have been awarded for NHS *(a)* doctors, *(b)* nurses, *(c)* scientific staff, *(d)* administrative staff and *(e)* managerial staff in each of the last five years for which figures are available; and if he will make a statement. [188909]

Mr. Hutton: The table shows percentage increases in salaries for the last five years.

Percentage increase in salaries (1 April of each year)

	2004	*2003*	*2002*	*2001*	*2000*
Doctors	[1]3.225	3.225	3.6	3.9	3.3
Nurses	3.225	3.225	[2]3.6 or £400	3.7	3.4
Scientific staff	3.225	3.225	[2]3.6 or £400	[2]3.7 or £380	[2]3.25 or £300
Administrative staff	3.225	3.225	[2]3.6 or £400	[2]3.7 or £380	[2]3.25 or £300
Managerial staff[3]	3.225	3.225	3.6	3.7	3.250

[1] Uplifts to salary scales for 2004 were:
2.5 per cent. for consultants employed under the old consultant contract;
2.7 per cent. for non-consultant career grade doctors and doctors in training; and
3.225 per cent. for consultants employed under the 2003 consultant contract.
[2] Whichever is the greater.
[3] For managerial staff, the percentages represent increases in the total paybill (envelope) for "senior managers" within each employing organisation.

NHS Spending

Hugh Bayley: To ask the Secretary of State for Health how much has been spent on the NHS in *(a)* Yorkshire, *(b)* North Yorkshire and *(c)* York at current prices in each year since 1979. [188957]

Miss Melanie Johnson: The information is not collected centrally in the format requested.

The table shows expenditure in Yorkshire at 2002–03 prices, by strategic health authority area, for 1996–1997 to 2002–03, which is the latest year for which figures are available.

Information is not available in the required format prior to 1996–1997, owing to the reorganisation of the National Health Service, it is not possible to provide comparable data prior to that year.

£ million

Strategic health authority areas	*North and East Yorkshire and Northern Lincolnshire*	*West Yorkshire*	*South Yorkshire*
1996–97	1,096,213	1,562,719	1,051,131
1997–98	1,080,148	1,489,636	990,486
1998–99	1,145,340	1,566,685	1,050,276
1999–2000	1,274,338	1,764,383	1,234,301
2000–01	1,333,692	1,867,079	1,279,797
2001–02	1,411,497	1,974,656	1,370,042
2002–03	1,487,910	2,194,397	1,490,440

NHS Treatment (Older People)

Mr. Rosindell: To ask the Secretary of State for Health what percentage of people received NHS treatment in *(a)* England and *(b)* the London borough of Havering in the last period for which figures are available were aged over 60 years. [189222]

Dr. Ladyman: Information on the full range of national health service services provided in NHS hospitals, through community and primary care, and through other NHS services is not available in the form requested.

Revenue funding is allocated to primary care trusts on the basis of the relative needs of their populations. A weighted capitation formula is used to determine each PCT's target share of available resources based on the age distribution of the population, additional need over and above that accounted for by age, and the unavoidable geographical variations in the cost of providing services. Residents of each locality will also benefit from publicly-funded public health programmes and through services such as NHSDirect.

In Havering, about 22.8 per cent. of residents are aged 60 years or more compared to a national average of about 20.8 per cent. This is reflected in the method used to calculate the resources to be allocated.

NHS Trust Funding

Andrew Rosindell: To ask the Secretary of State for Health how much central funding was provided to each London NHS trust for 2004–05. [189223]

Mr. Hutton: The Department allocates central revenue funding to primary care trusts. National Health Service trusts, as providers of services, receive the bulk of their revenue funding from commissioning by primary care trusts.

However, some central capital funding is allocated to NHS trusts. The table shows operational capital allocations for 2004–05 for each London NHS trust.

Operational capital allocations to London trusts for 2004–2005

£000

NHS Trust	*2004/2005 operational capital*
Barking, Havering and Redbridge Hospitals NHS Trust	6,992
Barnet and Chase Farm Hospitals NHS Trust	4,242
Barnet, Enfield and Haringey Mental Health NHS Trust	2,123
Barts and The London NHS Trust	9,405
Bromley Hospitals NHS Trust	2,748
Central and North West London Mental Health NHS Trust	1,486
Chelsea and Westminster Healthcare NHS Trust	6,427
Baling Hospital NHS Trust	1,713
East London and The City Mental Health NHS Trust	951
Epson and St Helier University Hospitals NHS Trust	4,417
Great Ormond Street Hospital For Children NHS Trust	1,690
Guy's and St Thomas' NHS Foundation Trust	11,223
Hammersmith Hospitals NHS Trust	10,364
Homerton University Hospital NHS Foundation Trust	2,321
King's College Hospital NHS Trust	6,027
Kingston Hospital NHS Trust	2,508
London Ambulance Service NHS Trust	6,455
Mayday Healthcare NHS Trust	2,076
Moorfields Eye Hospital NHS Foundation Trust	1,257
Newham University Hospital NHS Trust	2,321
North East London Mental Health NHS Trust	1,433
North Middlesex University Hospital NHS Trust	2,211
North West London Hospitals NHS Trust	4,993
Oxleas NHS Trust	760
Queen Elizabeth Hospital NHS Trust	1,237
Queen Mary's Sidcup NHS Trust	1,821
Royal Brompton and Harefield NHS Trust	3,771
Royal Free Hampstead NHS Trust	5,617
South London and Maudsley NHS Trust	3,462
South West London and St George's Mental Health NHS Trust	2,421
St George's Healthcare NHS Trust	6,179

Tavistock and Portman NHS Trust	130
The Hillingdon Hospital NHS Trust	3,340
The Lewisham Hospital NHS Trust	3,069
The Royal Marsden NHS Foundation Trust	2,028
The Royal National Orthopaedic Hospital NHS Trust	1,066
University College London Hospitals NHS Foundation Trust	6,517
West London Mental Health NHS Trust	3,784
West Middlesex University NHS Trust	2,288
Whipps Cross University Hospital NHS Trust	2,890
Whittington Hospital NHS Trust	2,669

Nurses/Midwives

Mr. Burstow: To ask the Secretary of State for Health how many pre-registration training places there were for nurses and midwives in England in each year since 1980 for which figures are available. [187878]

Mr. Hutton: Information on the number of pre-registration training places for nurses and midwives in each year since 1992–2003, the first available year, is shown in the table.

Pre-registration nursing and midwifery training commissions

1992–93	16,338
1993–94	14,197
1994–95	12,480
1995–96	13,381
1996–97	14,984
1997–98	16,539
1998–99	17,689
1999–2000	18,707
2000–01	20,021
2001–02	21,770
2002–03	22,956
2003–04	24,284

Oldchurch Hospital

Mr. Rosindell: To ask the Secretary of State for Health what assessment he has made of the effectiveness of accident and emergency services at Oldchurch Hospital in the London borough of Havering. [189247]

Mr. Hutton: The effectiveness of local accident and emergency services are assessed by local commissioners.

The national health service is committed to reducing to four hours the maximum wait in accident and emergency from arrival, transfer or discharge by the end of 2004.

Latest figures show that in Barking, Havering and Redbridge Hospitals NHS Trust (of which Oldchurch Hospital is a part of) 87.9 per cent. of patients are spending less than four hours in accident and emergency departments.

Mr. Rosindell: To ask the Secretary of State for Health how many official complaints have been received by the Department about Oldchurch Hospital in the London Borough of Havering in each of the last 10 years. [189252]

Mr. Hutton: The information requested is not collected centrally.

Local trusts, in partnership with their health community, have responsibility for local services and the support systems, which they have put in place, and a corresponding responsibility to improve upon these. It is therefore appropriate that they investigate complaints and respond accordingly.

Mr. Rosindell: To ask the Secretary of State for Health what progress Oldchurch Hospital in the London Borough of Havering has made towards meeting the Government's targets for waiting lists. [189253]

Mr. Hutton: The Department does not collect data for individual hospitals. However, data for Barking, Havering and Redbridge Hospitals National Health Service Trust, of which Oldchurch Hospital is a part, shows that the trust has hit the Government's targets for waiting times.

Mr. Rosindell: To ask the Secretary of State for Health what recent discussions he has had with the management of Oldchurch Hospital in the London Borough of Havering. [189254]

Mr. Hutton: My right hon. Friend, the Secretary of State and Ministers have had no discussions recently with the management of Oldchurch Hospital.

In line with our policy of Shifting the Balance of Power, the Department does not routinely become involved in the day-to-day management of the National Health Service at local level. It is now for primary care trusts (PCTs), in partnership with strategic health authorities, and other local stakeholders to plan develop and improve services for local people.

We recognise that health services are better when management is devolved to the frontline. Within the framework set out in the NHS Plan, and other policy documents, PCTs with their specialised knowledge of the local community are able to effectively manage and improve local services.

Mr. Rosindell: To ask the Secretary of State for Health what plans he has to visit Oldchurch Hospital in the London Borough of Havering. [189256]

Mr. Hutton: There are currently no plans to visit Oldchurch Hospital in the London Borough of Havering. Any invitations received will be given consideration.

Osteoporosis

Sue Doughty: To ask the Secretary of State for Health how many DEXA scanners are available in the NHS; what plans he has to increase the numbers of DEXA scanners; and if he will make a statement. [188181]

Dr. Ladyman: This information is not collected centrally. Work is currently under way to rectify this.

Dexa scanners are now referred to as DXA scanners as this is the internationally accepted terminology.

Patient and Public Health Forums

Peter Bottomley: To ask the Secretary of State for Health what the budget of each intermediate body promoting patient and public health forums is. [188240]

Ms Rosie Winterton: The Commission for Patient and Public Involvement in Health has contracted for forum support services but cannot reveal the levels of individual contracts for reasons of commercial confidentiality. Exemption 13 (third party's commercial confidences) of the Open Government Code of Practice on Access to Government Information applies.

The total figure for forum support organisation contracts is £16.4 million; this is divided between 140 contracts.

Pontefract General Infirmary

Mr. Bill O'Brien: To ask the Secretary of State for Health how many beds there were at the Pontefract General Infirmary in each of the past five years. [188829]

Miss Melanie Johnson: The requested information is not validated centrally in the requested format. However, information for the relevant national health service trusts is shown in the tables.

Mid Yorkshire Hospitals NHS Trust—average daily number of available beds, by sector, 1996–97 to 2002–03

Department of Health form KH03.

Primary Care Centres

Mr. Burstow: To ask the Secretary of State for Health what progress has been made towards meeting the target for new one stop primary care centres by December 2004. [187864]

Mr. Hutton: Good progress is being made, with more than 300 centres reported as being open, with many more in the course of development.

Prostate Cancer

Ross Cranston: To ask the Secretary of State for Health (1) what assessment he has made of the Prostate Cancer Risk Management Programme; [189565]

(2) what plans he has to raise public awareness of prostate cancer; [189567]

(3) what plans he has to raise awareness of prostate cancer among *(a)* general practitioners and *(b)* other health professionals; [189568]

(4) what progress has been made in tackling prostate cancer since 2000. [189570]

Miss Melanie Johnson: Good progress has been made since the national health service prostate cancer programme was launched on 6 September 2000, setting out the Government's approach to improving prostate cancer services in England and Wales.

As part of the prostate cancer risk management programme (PCRMP), evidence-based primary care resource packs were sent to all general practitioners in England on 23 September 2002 to aid them in understanding prostate cancer and counselling men (who are worried about prostate cancer, ensuring the men make an informed choice about whether or not to have a prostate specific antigen (PSA) test.

The Cancer Research UK primary care education research group is now in the process of evaluating the use of the packs. This evaluation includes:

a national survey of 400 GPs to describe their current practice and attitudes regarding PSA testing for prostate cancer, as well as their views of the PCRMP resource pack.

a population survey of 900 men aged 40–75 designed to look at the impact of the PCRMP patient information sheet on men's knowledge and attitudes regarding prostate cancer and the PSA test, their future intentions regarding having a PSA test, and what factors influence these intentions.

a series of focus groups and interviews are being conducted with a sample of men from the population survey to gather more in-depth information on their views on PSA testing, and to explore how best to assist informed decision-making on this topic.

The evaluation is being jointly funded by the Department via national health service cancer screening programmes and Cancer Research UK and results are expected over the next year. The results of the evaluation will inform future revisions of the pack.

Other elements of the PCRMP include ensuring that a systematic and standardised follow-up pathway is available for individuals whose test result is above the PSA threshold and action to improve the quality of laboratory testing of PSA samples. Recommendations from the scientific reference group, which supports the PCRMP, were sent to all pathologists and urologists, along with a copy of the resource pack, in September 2002.

Other good progress has been made on prostate cancer. In 2003–04, the Department met its target of directly funding 4.2 million of research a year on prostate cancer. This is a twenty-fold increase compared with 1999–2000.

98.8 per cent., of patients with suspected urological cancers, including prostate, were seen for their first out-patient appointment within two weeks of urgent general practitioner referral between January and March 2004.

The cancer services collaborative is modernising cancer care, including prostate cancer, by reducing unnecessary delays in the system for patients throughout the cancer-journey.

There has been a 47 per cent., increase in the number of consultant urologists since 1997, from 343 to 503.

The National Institute for Clinical Excellence published guidance on improving outcomes in urological cancers in September 2002.

In response to the launch of the prostate cancer charter for action, we have set up the prostate cancer advisory group (PCAG) to facilitate collaboration between the Department of Health, the voluntary sector, and patient and professional groups. The PCAG is taking forward work in four main areas:

Information for prostate cancer patients

Public awareness of prostate cancer

Improving treatment

A national prostate cancer website

Regarding public awareness, we want men to be aware of their bodies and know what their prostate gland does, and also what can go wrong with it. We need to raise awareness in a responsible way and not scare men into rushing to see their general practitioners when there may be nothing wrong with them. The public awareness working group of PCAG has been reviewing information for men about prostate cancer, along with assessing the evidence over public awareness interventions, and will be making recommendations on the way forward for men and the national health service in England shortly.

The Department is funding other work on the public awareness of prostate cancer—a Section 64 grant to the Prostate Cancer Charity to increase further information about prostate cancer; a Section 64 grant to the Prostate Cancer Charity to improve the awareness of the risks and symptoms of prostate cancer among men from African and Afro-Caribbean communities in Britain; and DIPEx—the Database of Individual Patient Experiences website on prostate cancer.

Silicone Cosmesis

Mr. Oaten: To ask the Secretary of State for Health what budget he has set for 2005–06 on silicone cosmesis. [R] [188825]

Dr. Ladyman: It is for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services. This process provides the means for addressing local needs within the health community, including the provision of silicone cosmesis.

Mr. Oaten: To ask the Secretary of State for Health what percentage of the £4 million allocation made towards silicone cosmesis has been spent by NHS trusts over the last three years. [R] [188826]

Dr. Ladyman: Spending on silicone cosmesis through the National Health Service Purchasing and Supply Agency national framework agreement, which probably represents most if not all spending by NHS trusts (England only) on silicone cosmesis coverings and associated equipment and services was £81,858 for 2001–02, £410,479 for 2002–03 and £710,188 for 2003–04. This equates to 30 per cent., out of the £4 million allocation made to NHS trusts (England only).

Smoking Ban

Mr. Rosindell: To ask the Secretary of State for Health what assessment he has made of the effects on the NHS of a ban on smoking in public places. [189257]

Miss Melanie Johnson: Second-hand smoke in the home and in public places is causally linked to lung cancer, ischaemic heart disease, cot death, childhood respiratory diseases, middle ear disease and asthma attacks in children. A reduction in exposure to second-hand smoke will lead to a reduced burden on the national health service from the diseases linked to second-hand smoke; as well as a reduced direct health burden from lower smoking rates, which would follow. The exact level of this benefit has not been estimated.

We have just conducted a public health consultation, which covers a wide range of issues including smoking in public places. We are currently considering all the many responses we have received. These will inform the public health White Paper which will be published in the autumn.

Social Care Payments

Mr. Best: To ask the Secretary of State for Health how many recipients of direct payments for social care there are in *(a)* England, *(b)* Leeds and *(c)* Leeds North West. [189145]

Dr. Ladyman: The table shows the number of clients aged 18 and over receiving direct payments in England and Leeds in 2002–03. Information on direct payments provided to carers and parents of disabled children are not available.

Information for Leeds North West is not collected centrally.

Number of clients aged 18 and over receiving direct payments in England and Leeds in 2002-03

	Total of clients[1] receiving direct payments
England[2]	9,600
Leeds	70

[1] Total includes all clients aged 18 and over.
[2] Based on estimates.

Social Services (Haringey)

Tim Loughton: To ask the Secretary of State for Health how many people are employed in Haringey social services Department, broken down by grade; and what the vacancy rate is. [188926]

Dr. Ladyman *[holding answer 14 September 2004]:* Data on the number of people employed by Haringey social services Department by grade and the vacancy rates are not available centrally. The table shows the whole time equivalent number of staff employed by Haringey social services Department as at 30 September 2003, the latest date for which data are available broken down by various job categories:

Whole time equivalent number of staff employed by Haringey social services Department as at 30 September 2003

	Number
Strategic/central staff	
Senior support staff	10
Staff in operational divisions/not establishment based	
Assistant directors, managers and principal officers not establishment based	5
Provision specifically for children's services	
Children's services: team leaders/managers	40
Children's services: assistant team managers/senior social workers	35
Children's services: field social workers	100
Children's services: social services officers/social work assistants	10
Children's services: child protection, family placement, juvenile/youth justice workers	50
Children's services: OT assistants, equipment aids and other officers	10
Provision specifically for adult services	
Team leaders/managers	20
Assistant team managers/senior social workers	10
Care managers	30
Community workers	25

Whole time equivalent number of staff employed by Haringey social services Department as at 30 September 2003

	Number
Specialist teams (not included above) alcohol, HIV/AIDS and drug centres	
Care managers in alcohol, HIV/AIDS and drug centres	5
Other specialist teams (e.g. mental health, people with learning disabilities and/or physical disabilities)	
Team leaders/managers	15
Assistant team managers and senior social workers	5
Social workers	30
Care managers in specialist teams for mental health etc.	0
Support workers	10
Generic provision	
Team leaders/managers	10
Assistant team managers/senior social workers	5
Community workers (inc. community development officers)	5
Occupational therapists	10
OT assistants, equipment aids and other officers	5
Other staff:	
Transport	
Support services staff	230
Domiciliary service staff	
Home/domiciliary care/help organizers	10
Home care staff/home helps	105
Support services staff	10
Day care provision:	
Staff of day centres mainly for elderly people and elderly people with a mental infirmity	
Managers and officers in charge	5
Care staff	10
Staff of day centres mainly for people under 65 with physical disabilities	
Care staff	5
Other support services staff	5
Staff of day centres mainly for adults with learning disabilities (Include centres formerly referred to as adult training centres) deputy officers in charge	10
Care staff	65
Other support services staff	10
Family centres	
Family centre workers, family aides and other care staff	5
Care in residential establishments:	
Staff of homes mainly for elderly people and elderly people with a mental infirmity	
Managers and officers in charge	5
Deputy officers in charge	5
Other supervisory staff	5
Care staff	100
Other support services staff	25
Staff of homes and hostels mainly for adults with mental health problems	
Care staff	15
Staff of homes and hostels mainly for adults with learning disabilities	
Other supervisory staff	5
Care staff	25

Whole time equivalent number of staff employed by Haringey social services Department as at 30 September 2003

	Number
Staff of community homes for children looked after (including observation and assessment centres where mainly residential)	
Child care staff	20
Mainly for children	
Child care staff	10
Other staff in post (not included above)	
All other staff	75
Total staff:	
Grand total all staff	1,295

Note:
Because of rounding, the total is not exactly the sum of the individual staff numbers.

Speech Therapists

Bob Spink: To ask the Secretary of State for Health how many primary care trusts have *(a)* withdrawn and *(b)* reduced budgets for speech therapists over the last three years; and if he will make a statement. [189367]

Mr. Hutton: The information requested is not collected centrally.

Vancomycin-resistant Enterococcus

Mrs. Iris Robinson: To ask the Secretary of State for Health how many cases of vancomycin-resistant enterococcus there were in each of the last 10 years. [187444]

Miss Melanie Johnson: Laboratory reports of vancomycin resistant enterococcal bacteraemias for each year from 1993 to 2003 for England are shown in the table.

Vancomycin resistant enterococcus infections

	Number
1993	30
1994	49
1995	66
1996	73
1997	63
1998	119
1999	119
2000	184
2001	159
2002	253
2003	331
